LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Land Use</u>	<u>Zoning</u>
North	Residential	A-5 Two Family Residential District
South	Residential	A-5 Two Family Residential District
East	Residential	A-5 Two Family Residential District
West	Undeveloped	HC-2 Highway Commercial District

EXISTING LAND USE:

Existing development? Yes

Multi occupancy development? Yes

COMPREHENSIVE PLAN:

Residential - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as "village or town residential" may include mixed uses and would have the highest number of units per acre, while "Rural residential" would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from A-5 (Two Family Residential District) & HC-2 (Highway Commercial District) to A-7 (Multi Family Residential District). The site is located on the north side Walnut Street, west of Palmetto Avenue, being lots 36, 37 & 38, Square 11, Ozone Park Subdivision. The 2025 Future Land Use Plan calls for the area to be developed with residential uses which includes multi-family residential. The site is currently developed with a 4 plex. Staff does not object to the rezoning, considering that the objective of the request is to bring the site into compliance with the existing use.

Note that the A-7 zoning district allows for maximum net density of one unit per twenty-five hundred (2,500) square feet of property. However, the small size of the site would not allow for an increase in the number of units.

STAFF RECOMMENDATION:

The staff recommends that the request for an A-7 (Multi Family Residential District) designation be approved.
