Gentlemen:

Enclosed is a permit dated this date, subject as above, authorizing work under the Department of the Army permit program.

You are again reminded that any work not in accordance with the approved plans is subject to removal regardless of the expense and the inconvenience that such removal may involve and regardless of the date when the discrepancy is discovered.

Your attention is directed to all the terms and conditions of the approval. In order to have the work approved in accordance with the issued permit, all terms and conditions of the permit and plans shown on the drawings attached thereto must be rigidly adhered to.

It is necessary that you notify the District Engineer, Attention: Scott Kennedy, Eastern Evaluation Section, in writing, prior to commencement of work and also upon its completion. The notification must include the permittee's name, as shown on the permit, and the permit number. Please note the expiration date on the permit. Should the project not be completed by that date, you may request a permit time extension. Such requests must be received before, but no sooner than six months before, the permit expiration date and must show the work completed and the reason the project was not finished within the time period granted by the permit.

A copy of Page 1 of the permit (ENG Form 1721) must be conspicuously displayed at the project site. Also, you must keep a copy of the signed permit at the project site until the work is completed.

## DEPARTMENT OF THE ARMY PERMIT

Permittee: Step Three Investments, LLC

Permit No. MVN-2009-0699 EMM

Issuing Office: New Orleans District

NOTE: The term "you" and its derivatives, as used in this permit, means the permittee or any future transferee. The term "this office" refers to the appropriate district or division office of the Corps of Engineers having jurisdiction over the permitted activity or the appropriate official of that office acting under the authority of the commanding officer.

You are authorized to perform work in accordance with the terms and conditions specified below.

Project Description: Clear, grade, excavate, place and maintain fill for an assisted living facility in Covington, Louisiana, in accordance with the drawings enclosed in five sheets dated March 2009.

Project Location: In Section 15, Township 7 South, Range 11 East, off Holly Crest Lane, in Covington, Louisiana, in Saint Tammany Parish.

### General Conditions:

1. The time limit for completing the work authorized ends on **September 30, 2014**. If you find that you need more time to complete the authorized activity, submit your request for a time extension to this office for consideration at least one month before the above date is reached.
2. You must maintain the activity authorized by this permit in good condition and in conformance with the terms and conditions of this permit. You are not relieved of this requirement if you abandon the permitted activity, although you may make a good faith transfer to a third party in compliance with General Condition 4 below. Should you wish to cease to maintain the authorized activity or should you desire to abandon it without a good faith transfer, you must obtain a modification of this permit from this office, which may require restoration of the area.
3. If you discover any previously unknown historic or archeological remains while accomplishing the activity authorized by this permit, you must immediately notify this office of what you have found. We will initiate the Federal and State coordination required to determine if the remains warrant a recovery effort or if the site is eligible for listing in the National Register of Historic Places.

4. If you sell the property associated with this permit, you must obtain the signature of the new owner in the space provided and forward a copy of the permit to this office to validate the transfer of this authorization.
5. If a conditioned water quality certification has been issued for your project, you must comply with the conditions specified in the certification as special conditions to this permit. For your convenience, a copy of the certification is attached if it contains such conditions.
6. You must allow representatives from this office to inspect the authorized activity at any time deemed necessary to ensure that it is being or has been accomplished in accordance with the terms and conditions of your permit.

**Special Conditions: Page 4.**

**Further Information:**

1. Congressional Authorities: You have been authorized to undertake the activity described above pursuant to:
  - ( ) Section 10 of the Rivers and Harbors Act of 1899 (33 U.S.C. 403).
  - (X) Section 404 of the Clean Water Act (33 U.S.C. 1344).
  - ( ) Section 103 of the Marine Protection, Research and Sanctuaries Act of 1972 (33 U.S.C. 1413).
2. Limits of this authorization.
  - a. This permit does not obviate the need to obtain other Federal, State, or local authorizations required by law.
  - b. This permit does not grant any property rights or exclusive privileges.
  - c. This permit does not authorize any injury to the property or rights of others.
  - d. This permit does not authorize interference with any existing or proposed Federal project.
3. Limits of Federal Liability. In issuing this permit, the Federal Government does not assume any liability for the following:
  - a. Damages to the permitted project or uses thereof as a result of other permitted or unpermitted activities or from natural causes.
  - b. Damages to the permitted project or uses thereof as a result of current or future activities undertaken by or on behalf of the United States in the public interest.
  - c. Damages to persons, property, or to other permitted or unpermitted activities or structures caused by the activity authorized by this permit.
  - d. Design or construction deficiencies associated with the permitted work.

e. Damage claims associated with any future modification, suspension, or revocation of this permit.

4. Reliance on Applicant's Data: The determination of this office that issuance of this permit is not contrary to the public interest was made in reliance on the information you provided.

5. Reevaluation of Permit Decision. This office may reevaluate its decision on this permit at any time the circumstances warrant. Circumstances that could require a reevaluation include, but are not limited to, the following:

a. You fail to comply with the terms and conditions of this permit.

b. The information provided by you in support of your permit application proves to have been false, incomplete, or inaccurate (See 4 above).

c. Significant new information surfaces which this office did not consider in reaching the original public interest decision.

Such a reevaluation may result in a determination that it is appropriate to use the suspension, modification, and revocation procedures contained in 33 CFR 325.7 or enforcement procedures such as those contained in 33 CFR 326.4 and 326.5. The referenced enforcement procedures provide for the issuance of an administrative order requiring you to comply with the terms and conditions of your permit and for the initiation of legal action where appropriate. You will be required to pay for any corrective measures ordered by this office, and if you fail to comply with such directive, this office may in certain situations (such as those specified in 33 CFR 209.170) accomplish the corrective measures by contract or otherwise and bill you for the cost.

6. Extensions. General condition 1 establishes a time limit for the completion of the activity authorized by this permit. Unless there are circumstances requiring either a prompt completion of the authorized activity or a reevaluation of the public interest decision, the Corps will normally give favorable consideration to a request for an extension of this time limit.

**MVN-2009-0699 EMM**

7. Many local governing bodies have instituted laws and/or ordinances in order to regulate dredge and/or fill activities in floodplains to assure maintenance of floodwater storage capacity and avoid disruption of drainage patterns that may affect surrounding properties. Your project involves dredging and/or placement of fill, therefore, you must contact the local municipal and/or parish governing body regarding potential impacts to floodplains and compliance of your proposed activities with local floodplain ordinances, regulations or permits.
8. If the proposed project requires any additional work not expressly permitted herein, the permittee must obtain an amendment to this authorization prior to commencement of work.
9. Prior to commencing work on the project, the permittee must obtain all approvals necessary from Saint Tammany Parish.
10. As compensatory mitigation, the permittee has agreed to contract with St. Tammany Mitigation Services, L.L.C., for the restoration of pine flatwood/savannah on 4.0 acres managed and operated in accordance with the Bayou Lacombe Mitigation Bank Interagency Agreement. Once the contract has been executed, the responsibility to complete the compensatory mitigation requirements of this permit becomes that of St. Tammany Mitigation Services, L.L.C., as per the interagency agreement.
11. The permittee shall provide the Corps of Engineers, Regulatory Branch with written verification from St. Tammany Mitigation Services, L.L.C. that the financial arrangements needed to perform the initial plantings have been made. This verification shall be provided by August 1 following permit issuance or prior to commencement of the work authorized in this permit, whichever comes first.
12. The compensatory mitigation identified above has been determined to be a necessary part of this permit approval. Failure by the permittee to perform the compensatory mitigation, in accordance with the permit conditions, is considered grounds for permit suspension, permit revocation, and/or restoration of the work performed under this authorization.
13. Appropriate erosion and siltation controls should be utilized during construction, as to avoid sediment runoff into adjacent wetlands and waterways, not included within the footprint of your project impacts. Sediment control techniques could include but are not limited to the use of secured hay bails, sediment fencing, the use of wooden or vinyl barriers, and/or seeding of disturbed areas. These techniques should be maintained in effective operating condition until a point that sediment runoff into adjacent wetlands is controlled and maintained.

**Residential Infill** – New residential uses developed on undeveloped tracts within existing residential districts that are compatible with, or improve upon, those existing uses. Such uses may be allowed a greater density of use, in exchange for public benefits that would be provided.

**STAFF COMMENTS:**

The petitioner is requesting a PUD (Planned Unit Development Overlay) for a new single family residential subdivision of 76 lots. Three different lot sizes are proposed to be provided on the site, as depicted in the table below.

<b>Lot Type</b>	<b>Number of lots</b>	<b>Lot size</b>
Neighborhood Lots	1 to 49	60' X 95'
Courtyard Lots	50 to 55 & 69 to 75	50' X 85'
Cottage Lots	56 to 68	40' X80'

Note that a request has been submitted to change the underlying zoning of the site from NC-2 (Indoor Retail and Service District) & PBC-1 (Planned Business Center) to A-4A (Single-Family Residential District) (ZC13-04-021).

## Administrative Comment

ZC13-04-022

### GENERAL PUD CRITERIA

Required information	Staff Comments
Title of the project, name of the developer, legal description	Provided as Required
Existing Land Use within 500' of all boundaries on the plan	Provided as Required
Minimum front, side, & rear setbacks & maximum height for Residential	Provided as Required
Restrictive Covenants	Provided as Required
Water & Sewer facilities	Provided as Required (Off Site)
Wetland Delineations	Provided as Required
Flood Zone Demarcation Lines	Provided as Required
Ultimate Disposal of Surface Drainage	Provided as Required
Environmental Assessment Data Form	Provided as Required

### DENSITY

As required under Section 6.0103 A.4. of the Planned Unit Development Overlay, the net density shall be provided, based upon the underlying zoning classification, utilizing the formula (Total Area x .75 = \_\_\_\_\_ x maximum net density = \_\_\_\_\_ lots (units)), or the number of lots/units may be established by a yield plan.

The gross density of this property, if the underlying zoning is changed to A-4A, would be at 6 units per acre, which would allow for a total of 100 units. Based upon the A-4A Zoning Districts, the net density would allow for 76 lots. The proposal is for 76 units with a net density of 6 lots/units per acre.

### GREENSPACE

A total of 4.57 acres (27%) of greenspace is proposed to be provided on the site, including 0.49 acre (3%) dedicated to active recreation and 1.77 acres (11%) dedicated to passive recreation. The proposed passive and active amenities will consist of a walking trail and a half basketball court. Staff feels that additional playground equipment, benches and gazebos should be provided within the proposed greenspace area.

### COMPREHENSIVE PLAN ANALYSIS

The 2025 future land use plan, designated the site as "Residential Infill". The proposed PUD meets the objectives of the designation, considering that the site is proposed to be developed with new residential uses, on an undeveloped tract of land, that is compatible with the surrounding existing uses.

### STAFF RECOMMENDATION:

The staff recommends that the request for an PUD (Planned Unit Development Overlay) designation be approved.
