LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Land Use</u>	<u>Zoning</u>
North	Residential & Commercial	HC-1 & HC-2 Highway Commercial District & NC-4 Neighborhood Institutional District
South	Undeveloped	A-1 Suburban District
East	Residential	A-2 Suburban District
West	Undeveloped	

EXISTING LAND USE:

Existing development? No

Multi occupancy development? Yes

COMPREHENSIVE PLAN:

Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, *e.g.*) uses, as well as the supporting infrastructure and public services they will require (*See "Small Area Plans," below*). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Single Family Residential – Conservation - These planned districts would include clustered single family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from A-2 (Suburban District) & HC-1 (Highway Commercial District) to A-4 (Single Family Residential District). The site is located on the south side of LA Highway 22, west of Trepagnier Road. The 2025 future land use plan calls for the area to be developed as a planned district with single family residential uses and conservation areas. Staff does not see any compelling reason to recommend approval of the request, considering that it could potentially create an increase in density from two units acre to four units per acre.

Note that a zoning change (ZC15-04-035) to Planned Unit Development Overlay has also been requested for the same site.

STAFF RECOMMENDATION:

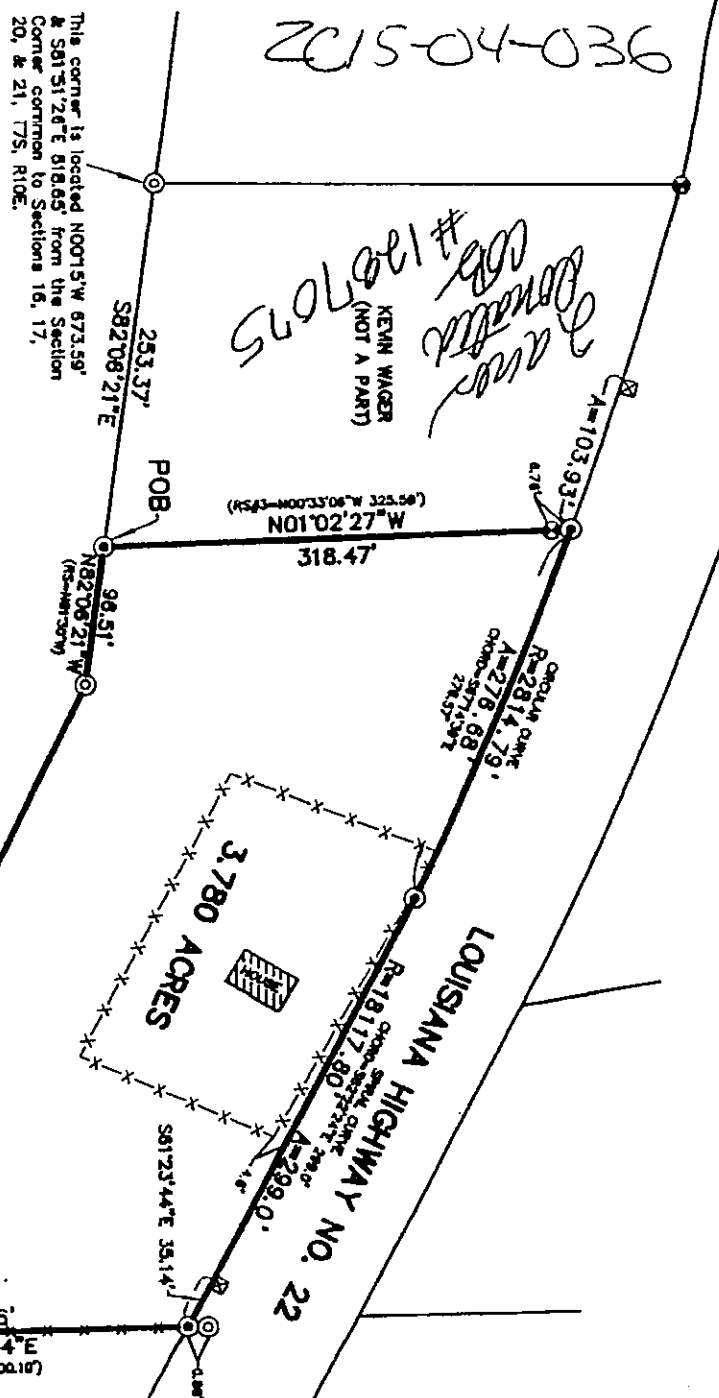

The staff recommends that the request for an A-4 (Single Family Residential District) designation be denied.
