LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Land Use</u>	<u>Zoning</u>
North	Undeveloped	A-4 (Single-Family Residential District)
South	Multi Family	A-2 (Suburban District)
East	Residential	A-6 (Multi Family Residential District)
West	Residential	A-4 (Single-Family Residential District)

EXISTING LAND USE:

Existing development? No

Multi occupancy development? No

COMPREHENSIVE PLAN:

Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, *e.g.*) uses, as well as the supporting infrastructure and public services they will require (*See "Small Area Plans," below*). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Single Family Residential – Conservation - These planned districts would include clustered single family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from A-4 (Single-Family Residential District) to PF-1 (Public Facilities District). The site is located on the northwest corner of Meadows Blvd & Airport Road, being lot 22 & part of lot 21, Home Acres Subdivision. The 2025 future land use plan calls for the area to be developed as a planned district with residential uses and conservation areas. Considering that the site is surrounded by residential uses, staff has no objection to the request, considering that the permitted uses listed under PF-1 would allow for public and institutional uses to serve the area. Note that the site is proposed to be developed with a Fire Station.

STAFF RECOMMENDATION:

The staff recommends that the request for a PF-1 (Public Facilities District) designation be approved.
