ADMINISTRATIVE COMMENT
CAPITAL IMPROVEMENTS OTHER - SEPTEMBER 2014

Funding Source:

403-15 Dept of Housing & Urban Development - Community Disaster Block Grant - Disaster Recovery Unit - Hurricane Isaac.

St. Tammany Advanced Campus The project consists of installing a drainage ditch along the eastern border of the property to drain the developed parcels south to the main drainage channel. The location of the ditch will be cleared of vegetation, excavated and graded to drain to the main drainage channel. The ditch slopes will be seeded to prevent erosion.

As part of the project a new 5 barrel concrete reinforced box culvert will be constructed under LA 434 to facilitate the run off in the main channel to the detention pond. To do this a temporary detour road will be constructed to maintain traffic. A section of LA 434 will be removed and excavated down to the invert of the box culverts. The box culverts will be constructed, backfilled with embankment, and the asphalt road replaced. The detour road will be removed and traffic diverted back to LA 434. All disturbed areas will be hydro seeded for erosion control.

A new two lane asphalt road will be constructed to provide access to the site of the new Northshore Technical School. The work will consist of clearing the right of way, bringing in embankment to elevate the road section, installing a base of soil cement and asphalt paving.

During construction of the school, a temporary construction entrance will be constructed. The path will be cleared, embankment placed and a gravel riding surface placed for construction traffic.

Funding		
Fund 316	Hwy 434 Retention Lake	491,000.00
Fund 403-15	ST. Tammany Advance Campus (STAC) Grant Funds	5,317,875.00
