STAFF COMMENTS:

The site is located on the south side of LA Highway 433, west of US Highway 90, north of Lake Pontchartrain and was originally rezoned to PUD in 1983. A major amendment to the PUD plan was approved by the Council in April 2007, to have the site developed as a commercial and residential subdivision (see attached plan). The proposed 3 accesses to the site, from LA Highway 433, will remain the same as previously approved. Considering that the proposed development is directly abutting Lake Pontchartrain, the site will also remain accessible through navigable waterways, as shown on the plan. In fact, the creation of navigable canals through the development and the connection of the canals to Lake Pontchartrain, considerably promote the features of the site.

A major amendment to the PUD is being requested to developed a 21.09 acre section of the PUD with 130 single family resort homes in place of the previously approved 29 single family home sites (see below, chart). A plan of the 21.09 acre site is provided showing the proposed configuration of the lots (see attached plan).

Summary of Proposed Residential & Commercial Uses

Residential & Commercial Uses	Lot Size, Density & Number of Lots	Permitted Uses
Single Family Homes	16,182 square feet/ 2 units per acre total of 129 lots	single family houses
Waterfront Villa Homes	3000 square feet total of 100 lots 7 units per acre	townhomes, condominiums & multi Family (common wall units)
Single Family Resort Home Community	3500 square feet total of 130 lots 6 units per acre	single family resort homes
Marina Commercial	20,000 square feet/ acre on 28.20 acres 656 units per acre	Marina, boat service, retail & service , office restaurant, lounge, health club, yacht club, multi family, hotel , motel, boarding & lodging

GREENSPACE

A total of 172.99 acres (45.8%) of greenspace/waterway is proposed to be provided on the site. As stated under the PUD ordinance, no more than 50% of the required greenspace shall be satisfied using limited use land. Limited Use Land shall mean land which is inundated by water for a period of greater than four (4) months within each calendar year. Two (2) acres of Limited Use Land are required to satisfy one (1) acre of required open space. The proposed canals are considered as active amenities, as it will be used for navigation & other nautical activities.

As shown on the attached plan of the single family resort homes development, walking paths, pocket parks and a recreation area are proposed to be provided. Note that additional information, as to the type of amenities to be provided within the pocket parks and the recreation area shall be provided.

COMPREHENSIVE PLAN ANALYSIS

The 2025 land use plan designates the area as Residential Infill. The proposed development meets the future land use plan by providing some new residential uses, compatible with the surrounding. The density of the proposal is greater than the surrounding developments; however, It will provide a diversity of commercial & residential uses in the area.

STAFF RECOMMENDATION

The staff recommends that the major amendment to the PUD (Planned Unit Development Overlay) be approved.
