#### ACCESS ROAD INFORMATION

Type: Parish

Road Surface: Asphalt

Condition: Good

#### LAND USE CONSIDERATIONS

#### SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Land Use</u>	<u>Zoning</u>
North	Bank	A-4 (Single Family Residential)
South	Single Family Residential	A-4 (Single Family Residential)
East	Single Family Residential	A-4 (Single Family Residential)
West	Single Family Residential	A-4 (Single Family Residential)

#### EXISTING LAND USE:

Existing development? No

Multi occupancy development? No

#### COMPREHENSIVE PLAN:

Residential - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as "village or town residential" may include mixed uses and would have the highest number of units per acre, while "Rural residential" would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

#### STAFF COMMENTS:

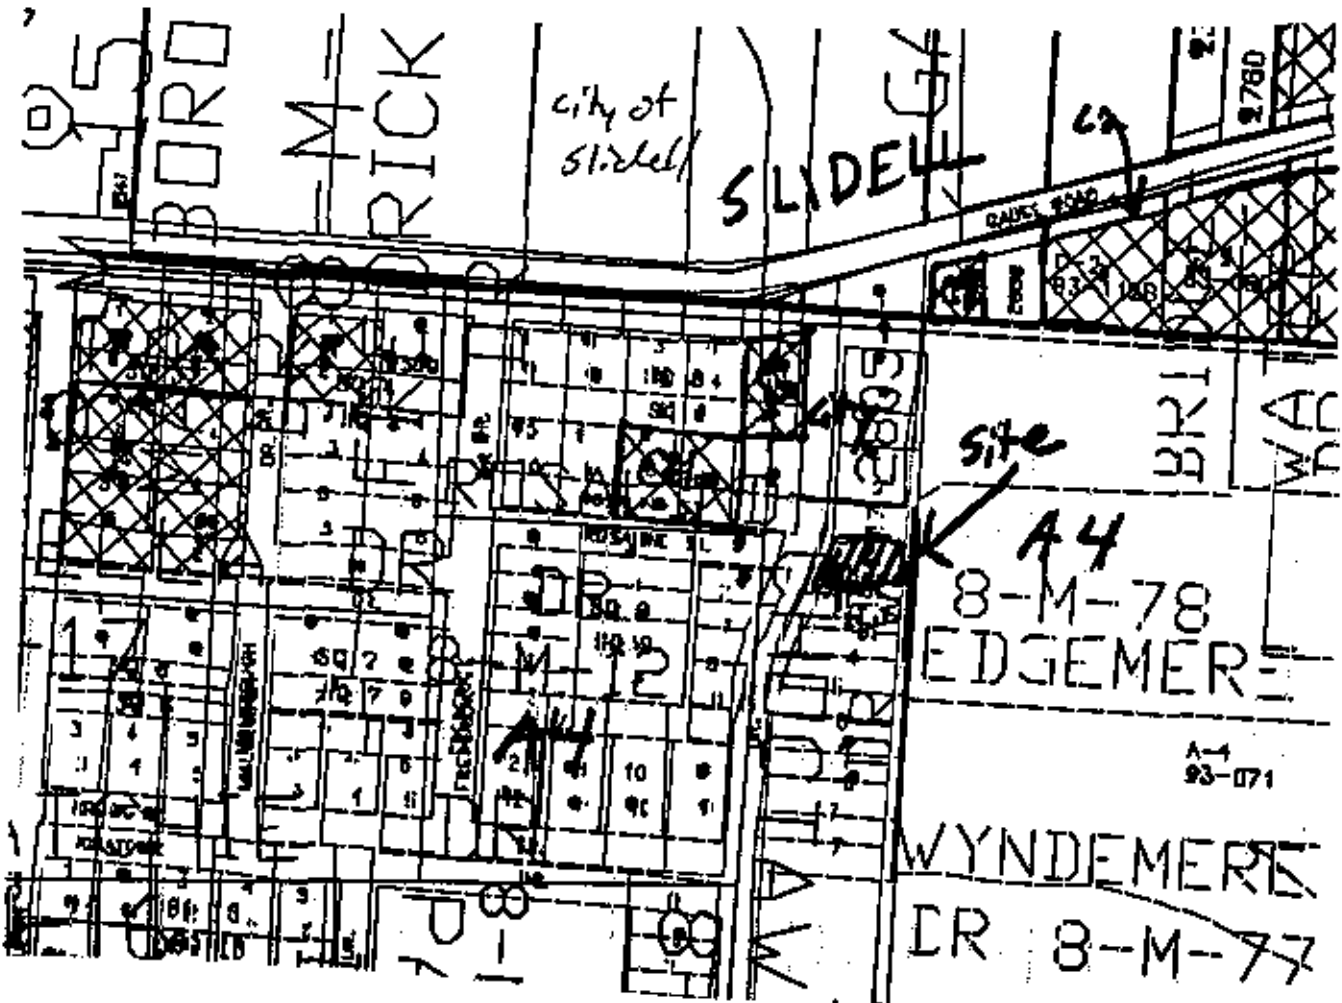

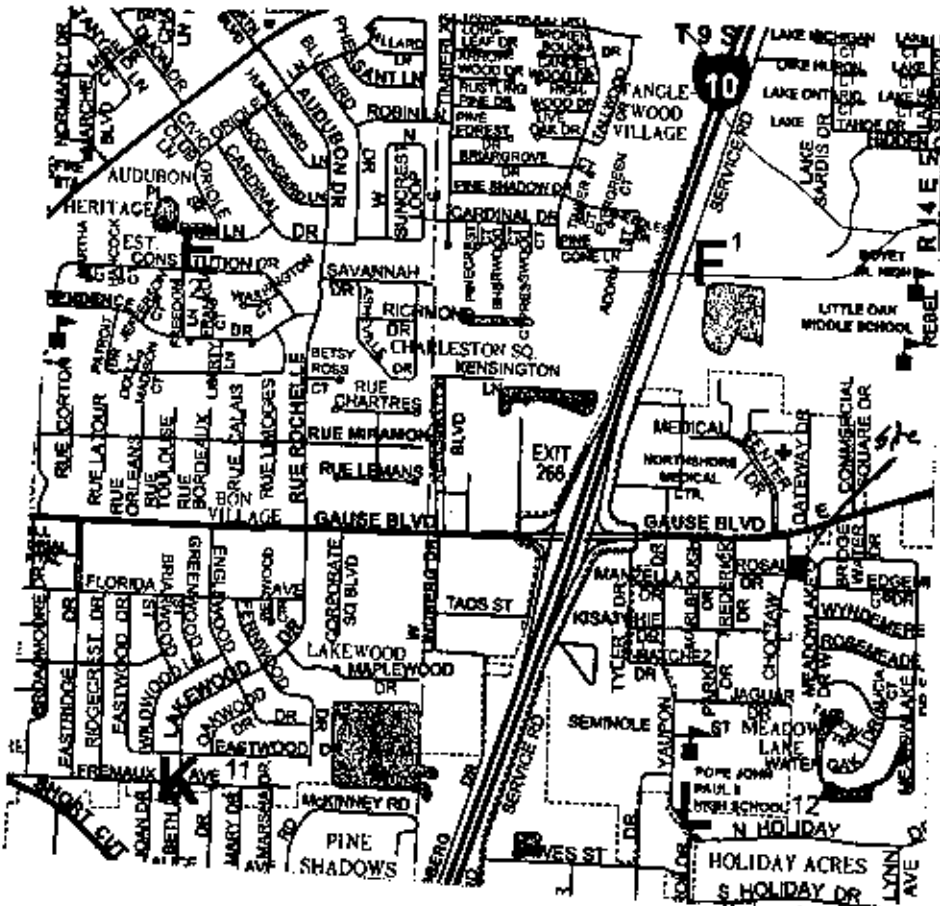

This case was originally heard during the February 1, 2005 Zoning Commission meeting at which time it was tabled at the request of the petitioner. The petitioner is requesting to change the zoning from A-4 (Single Family Residential) District to LC (Light Commercial) District. The site is located on the east side of Choctaw Drive, south of East Gause Blvd, being lot 3, Square 10, Robbert Park Subdivision. The property to the north is located within the city limits of Slidell and consists of two parcels, one of which is undeveloped the other is developed with a bank that fronts onto Gause Blvd. The properties to the south, east and west are zoned A-4 (Single Family Residential) District and are developed with single family dwellings. The petitioner is proposing to rezone the site to LC (Light Commercial) District in order to construct a doctor's office.

The 2025 Land Use Plan calls for this area to remain as residential. The proposed zone change would not be consistent with this land use designation. It is staff's assessment that while the subject site is in close proximity to Gause Blvd, which is a predominately commercial corridor, there is not a sufficient amount of commercially zoned property within the immediate vicinity of the subject site to warrant the proposed zone change.

**STAFF RECOMMENDATION:**

The staff recommends that the request for an LC (Light Commercial) District designation be denied.
