LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

Direction	Land Use	Zoning
North	Vacant	A-1 (Suburban) District
South	Vacant	SA (Suburban Agricultural) District
East	Vacant	A-1 (Suburban) District
West	Vacant	SA (Suburban Agricultural) District

EXISTING LAND USE:

Existing development? No Multi occupancy development? Yes

COMPREHENSIVE PLAN:

Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, e.g.) uses, as well as the supporting infrastructure and public services they will require (See "Small Area Plans," below). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Single Family Residential – Conservation - These planned districts would include clustered single family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from SA (Suburban Agricultural) District to ID (Institutional) District. The site is located at the end of Little Creek Road, north of I-12. The 2025 land use plan designates the area to be developed with residential, commercial and possibly institutional and recreational uses. The 2025 land use plan also designates the area to be mainly developed with residential uses and conservation areas. Staff feels that the requested zoning change would be appropriate for the area.

STAFF RECOMMENDATION

The staff recommends that the request for an ID (Institutional) District designation be approved.
