

ST. TAMMANY PARISH COUNCIL

ORDINANCE

ORDINANCE CALENDAR NO. 3218 ORDINANCE COUNCIL SERIES NO. _____

COUNCIL SPONSOR STEFANCIK/DAVIS PROVIDED BY: PLANNING

INTRODUCED BY: MR. BAGERT SECONDED BY: MR. BURKHALTER

ON THE 2ND DAY OF FEBRUARY, 2006

An Ordinance amending the official zoning map of St. Tammany Parish, La, to reclassify a certain parcel located on the west side of Rangeline Road (LA Highway 59), south of Lowe Davis Road and which property comprises a total of 19.01 acres of land more or less, from its present R (Rural) District to a PUD (Planned Unit Development) District, Ward 10, District 2. (ZC05-09-064)

Whereas, the Zoning Commission of the Parish of St. Tammany after hearing in accordance with law, Case No. ZC05-09-064, has recommended to the Council of the Parish of St. Tammany, Louisiana, that the zoning classification of the above referenced area be changed from its present R (Rural) District to a PUD (Planned Unit Development) District (see Exhibit "A") for complete boundaries.

Whereas, the St. Tammany Parish Council has held its public hearing in accordance with law:

Whereas, the St. Tammany Parish Council has found it necessary for the purpose of protecting the public health, safety and general welfare, to designate the above described property as PUD (Planned Unit Development) District.

THE PARISH OF ST. TAMMANY HEREBY ORDAINS, in regular session convened that:

SECTION I: The zoning classification of the above described property is hereby changed from its present R (Rural) District to a PUD (Planned Unit Development) District.

SECTION II: The official zoning map of the Parish of St. Tammany shall be and is hereby amended to incorporate the zoning reclassification specified in Section I hereof.

REPEAL: All Ordinances or parts of Ordinances in conflict herewith are hereby repealed.

SEVERABILITY: If any provision of this Ordinance shall be held to be invalid, such invalidity shall not affect other provisions herein which can be given effect without the invalid provision and to this end the provisions of this Ordinance are hereby declared to be severable.

EFFECTIVE DATE: This Ordinance shall become effective fifteen (15) days after adoption.

Description of Project

Applicant's Name BLUE COLLAR CONSTRUCTION, LLC

Address 19214 WYMER ROAD, COVINGTON, LA. 70435

Attach area location Map showing the proposed development

Name of Development INDIRA ESTATES SUBDIVISION

Section 25 Township 6 SOUTH Range 11 EAST

Number of acres in Development 19.01 ACRES

Type of streets CONCRETE

Type of water systems CENTRAL

Type of sewerage system CENTRAL

Ultimate disposal of wastes _____

Ultimate disposal of surface drainage LONG BRANCH

Land form: Flat Rolling _____ Marsh _____
Swamp _____ Inundated _____

Existing land use: Rural Residential _____
Commercial _____ Industrial _____

Proposed land use: Rural _____ Residential
Commercial _____ Industrial _____

Conforms to Major Road Plan: Yes No _____

Water frontage: Yes No _____ if so how much

Name of Stream LONG BRANCH

Major highway frontage: Yes No _____

Name of Highway HIGHWAY 59 (RANGELINE RD.)

Is development subject to inundation in normal high rainfall and/or tide?
Yes _____ No

Will canals be constructed into rivers or lakes?
Yes _____ No

ANSWER ALL QUESTIONS BY A CIRCLE AROUND YES OR NO

1. Does the proposed development
 - a. Disrupt, alter or destroy an historic or archeological site or district. YES NO
 - b. Have a substantial impact on natural, ecological recreation, or scenic Resources YES NO
 - c. Displace a substantial number of people YES NO
 - d. Conform with the environmental plans and goals that have been adopted by the parish. YES NO
 - e. Cause increased traffic, or other congestion YES NO
 - f. Have substantial esthetics or visual effect on the area YES NO

Contd:

ANSWER ALL QUESTIONS BY A CIRCLE AROUND YES OR NO

- a. Branch national, state or local standards relating to
 - (1) Noise YES NO
 - (2) Air Quality YES NO
 - (3) Water Quality YES NO
 - (4) Contamination of public water supply YES NO
 - (5) Ground water levels YES NO
 - (6) Flooding YES NO
 - (7) Erosion YES NO
 - (8) Sedimentation YES NO
 - b. Affect rare or endangered species of animal or plant habitat or such a species YES NO
 - i. Cause substantial interference with the movement of any resident or migratory fish or wildlife species YES NO
 - j. Induce substantial concentration of population YES NO
 - k. Will dredging be required YES NO
- If yes, denote the area proposed for spill placement and the anticipated volume in cubic yards.

2. Attach specifications on the following, if applicable

- a. What types of materials will be disposed of as a result of the production of manufacturing process. If applicable explain where and in what manner disposal will occur.
- b. What will be the average noise level of the development during working hours.
- c. Will any smoke, dust or fumes be emitted as a result of the operational process, If so explain fully.

Explain in detail the items marked YES above indicating how you propose to reduce or eliminate the environmental problems caused by your development and explain how you will ultimately dispose of the surface water generated by your development including the route of the surface water into a major stream and if you propose a center sewerage system the ultimate disposal of the effluent produced.

Gentlemen:

I have completed the attached Environmental Impact Assessment Data Form and hereby certify that the information shown thereon is accurate and is based on a thorough study of the environmental impact by this development named:

Question 2a: What types of materials will be disposed of as a result of the production of manufacturing process? If applicable explain where and in what manner disposal will occur.

The only material that will be disposed of as a result of the production process is the clearing and removal of the proposed roads for the subdivision. The material will be removed from the site and disposed of according to nationally accepted standards.

Question 2b: What will be the average noise level of the development during working hours?

The average noise level during working hours will not exceed allowable limits set by local noise ordinances..

Question 2c: Will any smoke, dust, or fumes be emitted as a result of the operational process? If so, explain fully.

Small amounts of dust may be emitted as a result of the operational process. Smoke and fumes, if released, will be from operating machinery. However, no emissions will exceed nationally accepted standards.

Explain the ultimate disposal of surface water generated by the development.

The ultimate disposal of surface water created by the development will be channeled via proposed drainage conduits ultimately flowing into Long Branch.
