LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Land Use</u>	<u>Zoning</u>
North	Residential/Agricultural	R (Rural) District
South	Residential/Agricultural	R (Rural) District
East	Residential/Agricultural	R (Rural) District
West	Residential/Agricultural	R (Rural) District

EXISTING LAND USE:

Existing development? No Multi occupancy development? Yes

COMPREHENSIVE PLAN:

Residential/ Agricultural - Agricultural and related or other active or passive uses that use or preserve the countryside, forests and other areas and rural residential uses - widely ranging in dwelling size or type, siting and organization; both of which are generally located some distance from more intense land uses. Permitted uses include single-family residential, and uses ancillary to either of these primary uses. Other uses require a change in zoning.

Conservation - Areas designated for uses of land, water, flora and fauna that appear naturally. Such uses may include such activities as extraction or production for commerce; human enjoyment, hunting, fishing, or other recreation within natural landscapes; or preservation of natural systems. The concept of "conservation" includes a private landowner's understanding of responsibility to wisely manage land resources so that they remain in good condition for future generations (often simple referred to as "good stewardship"); this concept may also include the conservation of energy through efficient transportation options as well as through climate responsive building design, as well as the conservation of historic, scenic, or otherwise serviceable buildings and landscapes.

STAFF COMMENTS:

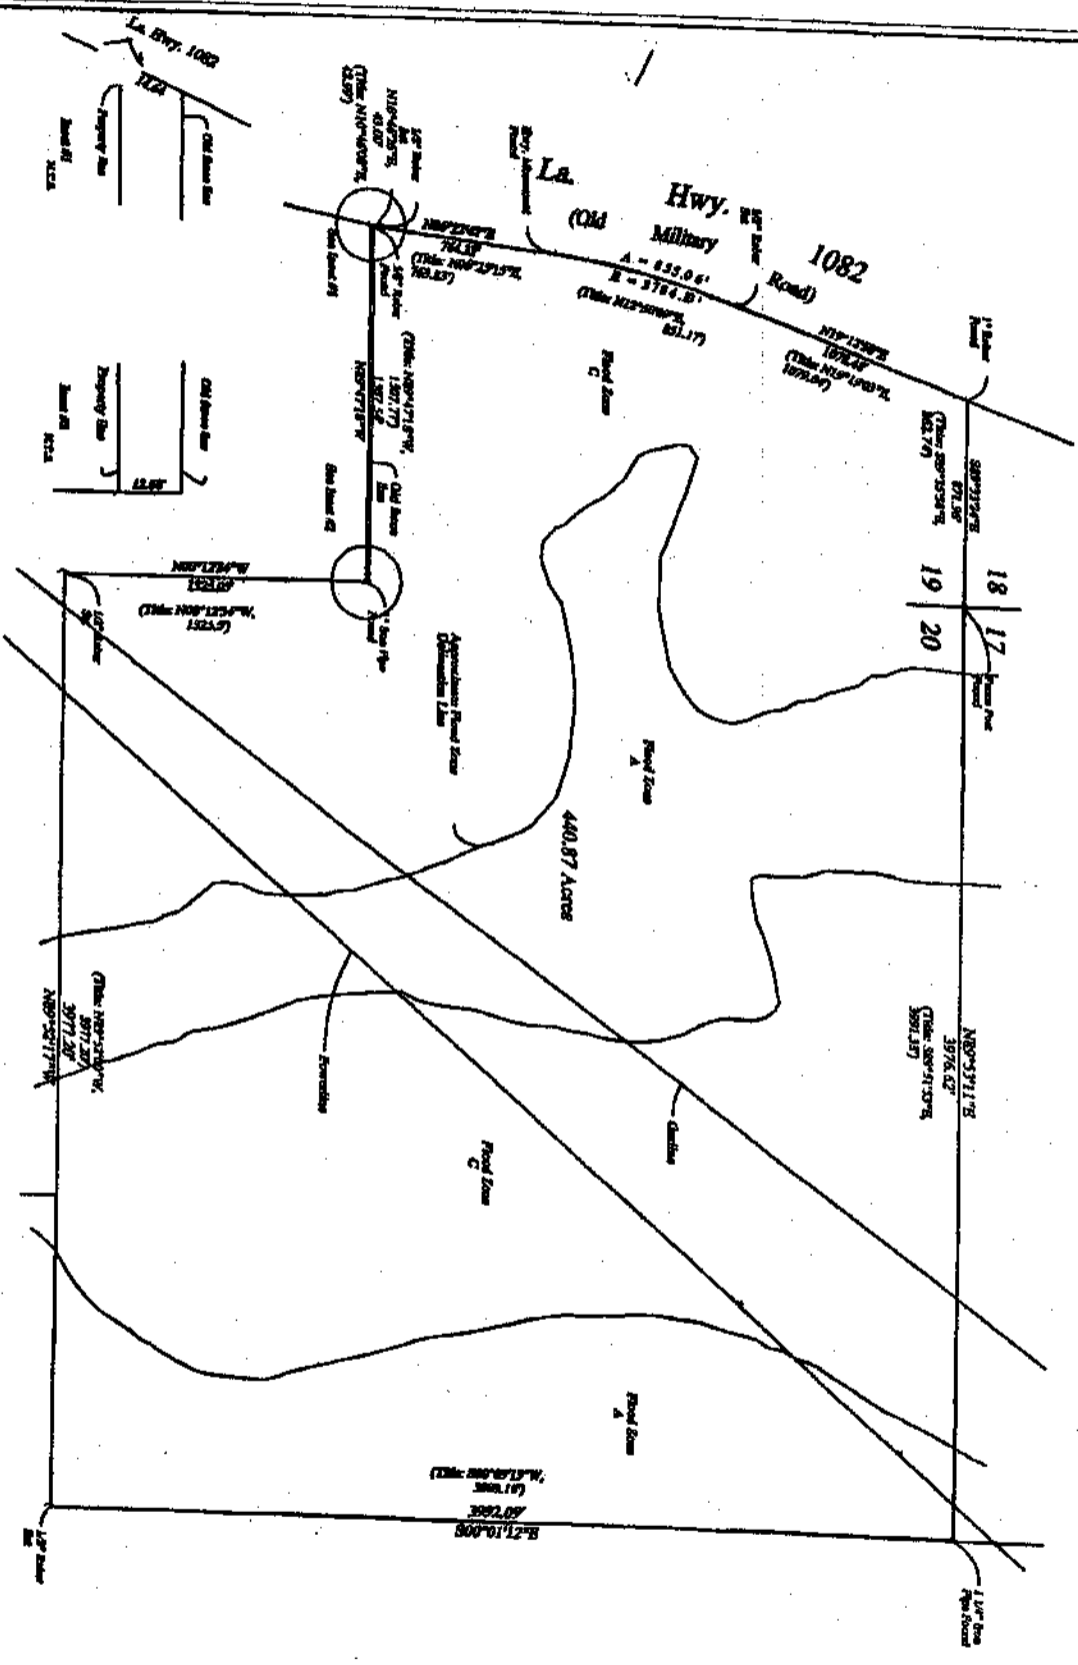

The petitioner is requesting to change the zoning from R (Rural) District to A-1 (Suburban) District. The site is located on the east side of LA Highway 1082, north of Elderberry Lane. A zoning change to PUD (Planned Unit Development) District (ZC06-10-096) has already been requested in October 2006, for the subject site. After further review of the request, the Zoning Commission and Council denied the proposed residential development, considering that the density was incompatible with the surrounding.

At this time, the petitioner is proposing to create a new residential subdivision with lots of a minimum of 5 acres in size. The 2025 future land use plan designates this area to be developed with residential and agricultural uses that will preserved the countryside of the area. The site is also designated as a conservation area, which should be developed in accordance with the preservation of the natural systems of the site.

Staff is in favor of requested zoning change, considering that the A-1 (Suburban) zoning is intended to provide a single family environment on large multi-acre lots, where the character of the area should be preserved through low densities.

STAFF RECOMMENDATION:

The staff recommends that the request for an A-1 (Suburban) District designation be approved.
