RE: R [REDACTED]

Case No. 84-04-036A appeared as an agenda item during the duly advertised public hearing. The public hearing was held by the Zoning Commission on April 11, 1984.

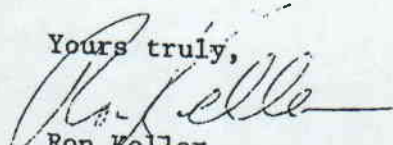

The request was to rezone a tract of land situated in Ward 4, which property is located south of Ponchitolawa Creek, east of U. S. Highway 190 and north of Pine Street between Covington and Mandeville, La and which property comprises a total of 7.82 acres of land more or less, from its present R-Rural District to an A-8 Planned Multi-Family District.

The attached legal description more adequately reflects the parcels requested to be rezoned. The attached map will depict the area and may be used as a reference.

After discussion, the Zoning Commission voted to recommend denial of the rezoning request. The Zoning Commission recommends that the area remain R-Rural District.

If you have any questions, please do not hesitate to contact me.

STAFF COMMENTS AND RECOMMENDATIONS:

The staff recommends approval of the proposed A-8 Planned Multi-family District provided that the development of this site for multi-family purpose be limited to light density multi-family (6-8 units) per acre. The reason for this recommendation is based on the following: 1) the site is located on a cul-de-sac street where there are several acreage tracts (1.92 acres to 7.82 acres). Only one tract is currently developed with a residential single family dwelling. The tract requested to be rezoned is abutting a large tract on U.S. 190 Service Road which is conducive to commercial development. Therefore, a light multi-family density would be an adequate buffer between commercial and single family residential uses. Since there is a single family residential use east of the proposed rezoning and due to the proximity of the property to Ponchitolawa Creek as well as a

substandard access road in terms of Parish standards, only a light multi-family density should be approved on this site.
