LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Land Use</u>	<u>Zoning</u>
North	Residential	SA (Suburban Agricultural) District
South	Undeveloped	SA (Suburban Agricultural) District
East	Undeveloped/Future Retirement Community	PUD (Planned Unit Development) District
West	Undeveloped	SA (Suburban Agricultural) District

EXISTING LAND USE:

Existing development? No Multi occupancy development? Yes

COMPREHENSIVE PLAN:

Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, *e.g.*) uses, as well as the supporting infrastructure and public services they will require (*See "Small Area Plans," below*). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Single Family Residential – Conservation - These planned districts would include clustered single family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from SA (Suburban Agricultural) District to A-6 (General Multi Family Residential) District. The site is proposed to be developed with an apartment complex. At this time, there is not access to the site, and it is surrounded by undeveloped land and residential uses. The 2025 future land use plan designates the area to be developed with single family residential uses. At this time, there is no compelling reasons to recommend approval of the requested zoning change, considering that the site is surrounded by undeveloped land and single family residential lots zoned SA (Suburban Agricultural) District. Note that after the completion of the extension of Oshner Blvd. and the adoption of the comprehensive rezoning, the requested zoning change of the site may be appropriate for the area.

STAFF RECOMMENDATION:

The staff recommends that the request for an A-6 (General Multi Family Residential) District designation be denied.
