**STAFF COMMENTARY:** This subdivision received Preliminary approval on November 14, 2006. However, no work order was issued within one (1) year. Therefore, resubmittal is required. Also, this subdivision was TABLED at the May 13, 2008,

**Department of Engineering**

1. The Preliminary plans and hydrologic study have been reviewed by this office and an inspection was made of the site.
2. It is recommended that Preliminary submittal be approved subject to the following:
  - a. A draft Black River drainage study shows a flow of 1943 cfs for the 25 year storm event near where the 84" UFMP is proposed for the jogging path. This is significantly more than the 367 cfs anticipated capacity in the submitted calculations. Adequate capacity for this crossing should be provided.

3. A funded Maintenance Obligation in the amount of \$10,000 is required in accordance with Subdivision Ordinance #499; Section 40.061.08 funded letters of credit for existing Parish roads to ensure the repair of any damage to the Parish roads resulting from construction activity in connection with the subdivision.
4. Mandatory Developmental fees will be required at Final Submittal in accordance with Ordinance No. 04-0990 since no public hearing was held prior to January 1, 2005.

**Department of Environmental Services**

1. By letter dated May 29, 2008, Guste Island Utility Company (GIU) indicated that, "...we have no knowledge of any agreement with the developer and/or any other party to accept sewage from these developments." This Department cannot approve the submitted plans until such time as the developer comes to an agreement with GIU or provides another means of sewage treatment for this development.
2. Plans and specifications for the construction of the project's water distribution lines and sewage collection lines have not yet been approved by the Department of Health and Hospitals as required.

No work order will be issued until the submitted plans and specifications are approved by the DHH.

**Department of Planning**

1. The developer has depicted greenspace and amenities within the development pursuant to parish code requirements. Therefore, the developer should be prepared to present a "**Recreational Development Plan**" for staff review and approval prior to the developer receiving a "work order" in conjunction with the preliminary subdivision approval process.
