LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Land Use</u>	<u>Zoning</u>
North	Undeveloped	SA (Suburban Agricultural) District
South	Undeveloped/Commercial	SA (Suburban Agricultural) & C-2 (Highway Commercial) Districts
East	Undeveloped	SA (Suburban Agricultural) District
West	Undeveloped	SA (Suburban Agricultural) District

EXISTING LAND USE:

Existing development? No Multi occupancy development? Yes

COMPREHENSIVE PLAN:

Commercial – Mixed Use/ Light - Multiple and complementary principal uses permitted to coexist within the same development program and area, typically more intense by land area than adjoining areas.
Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, e.g.) uses, as well as the supporting infrastructure and public services they will require (*See "Small Area Plans," below*). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Single Family Residential – Conservation - These planned districts would include clustered single family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from SA (Suburban Agricultural) District to C-2 (Highway Commercial) District. The site is located on the north side of US Highway 190, west of Pleasant Drive. The 2025 future land use plan designates the front portion of the site to be developed with a mix of commercial uses and the rear portion of the property to be developed with residential uses.

Note that as per the Comprehensive Zoning Map of the South Central Study, the site is proposed to be rezoned to Traditional Neighborhood Development District.

Staff feels that there is no compelling reasons to recommend approval of the requested zoning change, considering that the site is surrounded by undeveloped land zoned SA (Suburban Agricultural) District.

STAFF RECOMMENDATION:

The staff recommends that the request for a C-2 (Highway Commercial) District designation be denied.
