LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Surrounding Use</u>	<u>Surrounding Zone</u>
North	Residential	A-2 Suburban District
South	Residential	A-2 Suburban District
East	Undeveloped	A-2 Suburban District
West	Residential	A-2 Suburban District

EXISTING LAND USE:

Existing development:

Multi occupancy development:

COMPREHENSIVE PLAN:

Residential - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as "village or town residential" may include mixed uses and would have the highest number of units per acre, while "Rural residential" would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from A-2 Suburban District to AT-1 Animal Training/Housing District. This site is located at the end of Radio Road, south of Pine Street Extension. The 2025 future land use plan calls for the area to be developed with residential uses. The site is currently developed with multiple cellular towers and an office/building which houses the electronics related to the towers. The objective of the request is to bring the site into compliance with the appropriate zoning. Staff is not opposed to the request; however, the acreage of the site requested to be rezoned to AT-1 should be reduced to only include the area developed with cellular towers.

STAFF RECOMMENDATION:

The staff recommends that the request for an AT-1 Animal Training/Housing District designation be approved.
