RESOLUTION

RESOLUTION COUNCIL SERIES NO: C-4764

COUNCIL SPONSOR: BRISTER/STEFANCIK PROVIDED BY: ENGINEERING

A RESOLUTION TO ESTABLISH PERFORMANCE AND WARRANTY OBLIGATIONS.

WHEREAS, the Department of Finance and the Department of Engineering have notified the Parish Council that certain securities for subdivision Performance and Warranty Obligations are maturing in the near future; and

WHEREAS, these Performance and Warranty Obligations have been reviewed by said Departments which have made recommendations thereon to the Parish Council.

THE PARISH OF ST. TAMMANY HEREBY RESOLVES, by the St. Tammany Parish Council acting in it's capacity as the governing authority, that it hereby accepts the recommendations of the Department of Finance and the Department of Engineering, and approves the following action regarding Performance and Warranty Obligations as shown.

BE IT FURTHER RESOLVED, that failure to renew or to post an acceptable security on its due date will cause same to be called, and the Department of Finance and the Department of Engineering are hereby authorized and directed to do so.

Re: Ashland Oaks Business Park S/D
Performance Obligation (\$32,400)

Honorable Council Members:

The Performance Obligation in the amount of \$32,400 expires March 1, 2017 and is scheduled for review by the Parish Council at the February 2, 2017 meeting.

The following punch list items remain:

1. The four (4) - 58"x 36" RCPA are "silted up". The south detention ponds water elevation was high at the time of the inspection. The developer's engineer needs to inspect the site at low water stage to determine if the detention ponds drain in accordance with the approved design; siltation must be removed from the 4-RCPA;
2. Roadside ditches are holding water and may need regrading to provide positive flow. The fact that the detention ponds were at a high elevation may be the cause for standing water in the roadside ditches. Therefore a revised AS-BUILT drawing of the roadside ditches needs to be furnished showing positive flow to the detention ponds;
3. Entrance roadway does not drain into roadside ditches and ponding water is existing. Drainage must be provided to eliminate standing water at entrance;
4. Entrance cross culvert is not functioning and causing a back up to the west in the south ditch of LA 1085;
5. The north detention ponds do not drain to the invert of the outfall culvert. The outfall (LA 1085 south ditch) does not have positive flow. A positive flow elevation must be constructed along LA 1085 and possibly LA 1077, so that the north ponds can function as designed. A revised AS-BUILT drawing is needed showing positive flow;
6. Replace blue reflectors where needed.

This office has not received notification from the developer's engineer that the punch list items have been accomplished.

Therefore, this obligation must be extended for six (6) months or until the work is satisfactorily accomplished.

Sincerely,

Donna S. O'Dell, P.E., PhD
Interim Director, Department of Engineering

Re: Grand Oaks S/D, Phase 2A
Warranty Obligation (\$36,900)

Honorable Council Members:

The Warranty Obligation in the amount of \$36,900 expires March 20, 2017 and is scheduled for review by the Parish Council at the February 2, 2017 meeting.

The Warranty Obligation was established for five (5) years. However, letters of credit cannot be established for a five (5) year period and must be extended annually.

Therefore, it is recommended that the Warranty Obligation in the amount of \$36,900 be extended for one (1) year.

Sincerely,

Donna S. O'Dell, P.E., PhD
Interim Director, Department of Engineering

Re: The Village of Normandy Oaks S/D, Ph. 1
Warranty Obligation (\$16,000)

Honorable Council Members:

The extended Warranty Obligation in the amount of \$16,000 expires March 3, 2017 and is scheduled for review by the Parish Council at the February 2, 2017 meeting.

The following work has been satisfactorily completed:

1. As-Built drawing of the pond has been satisfactorily revised.

However, the developer or H.O.A. is responsible for the operation, maintenance, repair, and improvement of any other aspect of the pond such as aerators, (bubblers, diffusers, and fountains) valves, underground structures, and any corresponding electric controls in and or for the pond such as pumps, wells, and gates.

Therefore, it is recommended that the extended Warranty Obligation be released.

This is a public access subdivision and the Parish is responsible for all maintenance as specifically outlined in the recorded plat file # 5032.

Sincerely,

A handwritten signature in cursive script, appearing to read "Donna O'Dell".
