ADMINISTRATIVE COMMENT

Case No.: 2020-1928-ZC

Staff has determined that the requested density within the proposed development may be appropriate for the area based on the following conclusions:

1. A water quality impact model shows that the development should have minimal impact on the Ponchitolawa Creek or the lower Tchefuncte River. Staff recommends the applicant perform additional analysis to ensure the proposed discharge into Little Creek can accommodate the additional volume of stormwater at the tentative or preliminary stage.
2. Based on the Trip Generation Manual, 10th Edition Supplement, staff has determined the proposed density will create around 1,500 additional trips per day for the area. While there are known existing traffic concerns along Highway 59 and Dove Park Road, the proposed development provides two accessways along Dove Park Road and shows temporary turn arounds that could enable connectivity to adjacent roadways in the future. Staff recommends the applicant work with the Department of Planning and Development at the tentative or preliminary stage to ensure additional stress on current traffic situations is mitigated.
3. While Tammany Utilities currently does not have capacity for additional sewer connections, the applicant is showing a proposed waste water treatment plant within the current PUD plan. This plant is anticipated to provide treatment for the proposed development until Tammany Utilities is able to expand to accommodate new growth.

Staff is not opposed to the request for the A-3 zoning designation as a large amount of the petitioned property is currently already zoned A-3. The zoning change request will allow the development site to maintain one cohesive zoning designation. Additionally, the requested A-3 district will downzone a large portion of the property that currently permits industrial uses to accommodate more appropriate residential uses west of the Tammany Trace and along Louisiana Highway 59. Staff has determined that the allowable net density may be appropriate for the residential corridor. Note that a concurrent request has been submitted for a Planned Unit Development Overlay (2020-1928-ZC).
