COMPREHENSIVE PLAN:

Conservation - Areas designated for uses of land, water, flora and fauna that appear naturally. Such uses may include such activities as extraction or production for commerce; human enjoyment, hunting, fishing, or other recreation within natural landscapes; or preservation of natural systems. The concept of "conservation" includes a private landowner's understanding of responsibility to wisely manage that resource so that it remains in good condition for future generations (often simple referred to as "good stewardship"); this concept may also include the conservation of energy through efficient transportation options as well as through climate responsive building design, as well as the conservation of historic, scenic, or otherwise serviceable buildings and landscapes. Means to achieve conservation are myriad and include both private and public sector initiatives – such means will be considered in subsequent phases of the New Directions 2025 planning process.

STAFF COMMENTS:

The petitioner is requesting to change the zoning classification from PBC-1 Planned Business Campus to HC-3 Highway Commercial District. The site is located on the east side of Westshore Drive, north of Pinnacle Parkway, Covington. The 2025 Future Land Use Plan designates the site to be developed with uses that achieve conservation through both private and public sector initiatives.

The purpose of the PBC-1 zoning designation is to provide for the location of office uses in a campus-type setting. The purpose of the HC-3 Highway Commercial District is to accommodate large scale, heavy commercial uses. The subject site is located east of the existing Colonial Pinnacle Nord Du Lac Regional Business Center, which is developed with commercial and retail uses of various types and densities. Staff has determined that the petitioned HC-3 Highway Commercial District will allow for uses that are appropriate to the area and as such, is not opposed to the request.
