EXISTING LAND USE:

Existing development: No

Multi occupancy development: No

COMPREHENSIVE PLAN:

Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, e.g.) uses, as well as the supporting infrastructure and public services they will require (See “Small Area Plans,” below). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Single Family Residential – Conservation - These planned districts would include clustered single family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

STAFF COMMENTS:

The petitioner is requesting to change the zoning classification on a 98 acre site from A-1 Suburban District and RO Rural Overlay to A-3 Suburban District. The subject property is currently undeveloped and is located to the east of the existing Terra Mariae and Alexander Ridge subdivisions off of LA Highway 1081, south of Smith Road, and north of Thibodeaux Road. The objective of the request is to increase the density of the underlying zoning classification from the existing A-1 Suburban District which permits one residential unit per every five acres to A-3 Suburban District which permits two residential units per acre. This request will establish the underlying zoning designation of a proposed residential subdivision. Note that a concurrent application has also been made to establish the PUD Planned Unit Development Overlay (2019-1754-ZC) which will allow the developer to construct Phase 4 of the Alexander Ridge subdivision

The adjoining PUD has an underlying zoning designation of A-4A Single-Family Residential making the current request less dense than the existing Terra Mariae and Alexander Ridge developments.
