LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Surrounding Use</u>	<u>Surrounding Zone</u>
North	Residential	A-3 Suburban District, MHO Manufactured Home Overlay, Rural Overlay
South	Undeveloped	A-3 Suburban District
East	Undeveloped	A-3 Suburban District
West	Residential and Commercial	A-2 Suburban District, HC-2 Highway Commercial

EXISTING LAND USE:

Existing development: Yes

Multi occupancy development: No

COMPREHENSIVE PLAN:

Conservation - Areas designated for uses of land, water, flora and fauna that appear naturally. Such uses may include such activities as extraction or production for commerce; human enjoyment, hunting, fishing, or other recreation within natural landscapes; or preservation of natural systems. The concept of "conservation" includes a private landowner's understanding of responsibility to wisely manage that resource so that it remains in good condition for future generations (often simple referred to as "good stewardship"); this concept may also include the conservation of energy through efficient transportation options as well as through climate responsive building design, as well as the conservation of historic, scenic, or otherwise serviceable buildings and landscapes. Means to achieve conservation are myriad and include both private and public sector initiatives – such means will be considered in subsequent phases of the New Directions 2025 planning process.

Residential / Agricultural – Agricultural and related or other active or passive uses that use or preserve the countryside, forests and other areas and rural residential uses – widely ranging in dwelling size or type, siting and organization; both of which are generally located some distance from more intense land uses. Permitted uses include single-family residential, and uses ancillary to either of these primary uses. Other uses require a change in zoning.

Institutional - Public uses such as churches, hospitals, health-related services, colleges and universities, police and fire stations, research institutes, schools, other community centers, and related uses.

STAFF COMMENTS:

The petitioner is requesting to change the zoning classification from A-3 Suburban District to PF-1 Public Facilities District. The site is located on the east side of Louisiana Highway 41, south of Sid Crawford Road; Pearl River. The 2025 Future Land Use Plan designates part of the property to be utilized for institutional and residential uses, and part of the property to be set aside for agricultural uses and conservation.

The site is currently developed as a recreational facility and park and ride for the St. Tammany Parish Recreational District #7. The purpose of the PF-1 Public Facilities District is to provide for the location of governmental and institutional uses to the public. The reason for the request is to bring the existing recreational facility into compliance with the correct zoning designation. As such, staff is not opposed to the request.
