COMPREHENSIVE PLAN:

Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, *e.g.*) uses, as well as the supporting infrastructure and public services they will require (*See “Small Area Plans,” below*). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Mixed Use – Other – Conservation – These planned districts would include mixed uses – at varying densities - and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure.

STAFF COMMENTS:

The petitioner is requesting to change the zoning classification from MD-2 Medical Clinic District to PF-1 Public Facilities District. The site is located on the southwest corner of Judge Tanner Boulevard and Lakeview Circle, Covington. The 2025 Future Land Use Plan designates the site to be developed as a Planned District with a mix of uses at varying densities.

The site is flanked on all sides by property that is zoned to accommodate medical uses of various degrees of intensity. The purpose of the requested PF-1 Public Facilities District is to provide for the location of governmental and institutional uses. Note that the reason for the request is to allow for the construction of a fire station.
