**Residential** - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as “village or town residential” may include mixed uses and would have the highest number of units per acre, while “Rural residential” would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

**STAFF COMMENTS:**

The petitioner is requesting to change the zoning classification from A-3 Suburban District to A-3 Suburban District and MHO Manufactured Housing Overlay. The site is located on the east side of 4th Street, south of Avenue D, being Parcel 11, Square 47, Village of Guthrie Subdivision, Pearl River.
