LAND USE CONSIDERATIONS

### SURROUNDING LAND USE AND ZONING:

Direction	Surrounding Use	Surrounding Zone
North	Residential	A-4 Single-Family Residential
South	Undeveloped	A-4 Single-Family Residential
East	Residential	A-4 Single-Family Residential
West	Residential	A-4 Single-Family Residential

#### **EXISTING LAND USE:**

**Existing development:** Yes

Multi occupancy development: No

#### **COMPREHENSIVE PLAN:**

**Residential -** Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as "village or town residential" may include mixed uses and would have the highest number of units per acre, while "Rural residential" would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

### **STAFF COMMENTS:**

The petitioner is requesting to change the zoning classification from A-4 Single-Family Residential District to A-4A Single-Family Residential District. The site is located on the northeast corner of Cherry Street, north of Emerald Street; being Lots 7 and 8, Square 6, Slidell Manor Subdivision. The 2025 Future Land Use Plan designates the site to be developed with residential dwellings that vary in site design and density.

The subject property is developed with an existing single-family residential dwelling on Lot 8 and an existing detached garage on Lot 7. The reason for the request is to accommodate a proposed minor subdivision to combine Lots 7 and 8 and to convert the existing detached garage into a residential dwelling.

The current A-4 Single-Family Residential Zoning District classification allows four residential dwellings per acre, which requires 10,890 sq. ft. of property per allowable dwelling unit. The requested A-4A Single-Family Residential Zoning District classification allows six residential dwellings per acre, which requires 7,260 sq. ft. of property per allowable dwelling unit. The subject property consists of 17,424 sq. ft. and therefore would require a zoning district classification with a higher allowable density such as the requested A-4A Zoning District to accommodate the conversion of the detached garage into a single-family residence. A change in zoning will allow a higher residential density than typically exists in within the Slidell Manor Subdivision

	Zoning	Max Density	Total Allowable Density on Subject Site
Existing	A-4 Single-Family	Four units per acre	
	Residential District	4:1	1 Residential Dwelling
Proposed	A-4A Single-Family	Six units per acre	
	Residential District	6:1	2 Residential Dwellings
