LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

| <u>Direction</u> | <u>Surrounding Use</u> | <u>Surrounding Zone</u> |
|------------------|------------------------|-------------------------|
| North | Residential | A-1 Suburban District |
| South | Residential | A-1 Suburban District |
| East | Pearl River | A-1 Suburban District |
| West | Undeveloped | A-1 Suburban District |

EXISTING LAND USE:

Existing development: Yes

Multi occupancy development: No

COMPREHENSIVE PLAN:

Residential - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as "village or town residential" may include mixed uses and would have the highest number of units per acre, while "Rural residential" would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

STAFF COMMENTS:

The petitioner is requesting to change the zoning classification from A-1 Suburban District TO NC-6 Public, Cultural, and Recreational District. The site is located on the east side of Camp Road, south of US Highway 90; Slidell. The 2025 Future Land Use Plan designates the site to be developed with residential uses that vary in site design and density.

The purpose of the existing A-1 Suburban District zoning classification is to allow for a single-family residential environment at low density levels. The purpose of the requested NC-6 Public, Cultural, and Recreational District is to provide for the location of public, cultural, and recreational facilities in near proximity to residential areas. A change in zoning would allow for commercial uses adjacent to existing single-family residential uses and the Pearl River.

The reason for the request is to accommodate an existing swamp tour business which, if approved must comply with the following minimum standards:

1. Per Chapter 18 of the Code of Ordinances: Health and Sanitation - Any person or company providing "swamp tours" in the parish shall provide sanitary facilities, including bathrooms and hand washing stations and where possible, diaper changing and handicap facilities, to all persons taking a "swamp tour" in the parish. Said facilities shall be available both before and after water portions of said tours and within a reasonable distance from the point of embarkation and disembarkation, but are not required during the tour itself.
2. The location must also be near or on the waterway that will be used for launching such as in a Marina. This location will be regulated as any other commercial enterprise and will require minimum parking and

landscaping standards. Off street parking shall be screened from view of adjacent residences by a 70 percent living screen or 100 percent non-living screen.

3. In residential neighborhoods, no buses greater than 15 passenger occupancy shall be permitted. In all other cases buses greater than 15 passengers shall not be permitted on residential streets.
4. It should be noted that the site is .1785 acres and if approved must comply with landscaping, parking, and drainage standards required for all commercial developments. Staff is concerned that the size of the parcel could be a potential hardship and could therefore necessitate future variances to the Unified Development Code's commercial requirements.

| Zoning District Site and Structure Comparison | | | |
|---|---|---|---|
| | Max Density | Allowable Uses | Purpose |
| A-1 Suburban District | 1 unit per 5 acres | One single-family dwelling; Private garages and accessory structures; Guest house under 1,000 sq. ft. when the lot is no less than one acre in area | To provide a single-family residential environment at a low-density level in primarily less populated areas where the character of the area should be preserved at low densities. |
| NC-6 Public, Cultural, and Recreational District | Not to exceed 50% of the total area of the lot | All uses permitted in the NC-1, NC-2, NC-3, NC-4, and NC-5 Districts; Golf courses and practice ranges; Community Centers; Parks and Playgrounds; Sports or gymnasiums; Athletic fields; Convention and conference centers; Marinas; Recreational vehicle parks | To provide for the location of public, cultural, and recreational facilities in near proximity to residential areas while mitigating the impacts of these facilities, such as traffic and lighting. |
