**COMPREHENSIVE PLAN:**

**Planned Districts** - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, e.g.) uses, as well as the supporting infrastructure and public services they will require (See “Small Area Plans,” below). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

**Single Family Residential – Conservation** - These planned districts would include clustered single-family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

**STAFF COMMENTS:**

The petitioner is requesting to change the zoning classification from A-1 Suburban District, RO Rural Overlay, and MHO Manufactured Housing Overlay to PF-1 Public Facilities District. The site is located on the east side of Louisiana Highway 1129, south of Jan Smith Road; Covington. The 2025 Future Land Use Plan designates the site to be developed as a Planned District that have a primary focus rooted in conservation.

The subject site is surrounded by primarily undeveloped land that is zoned to accommodate residential dwellings and agricultural uses. The property is currently developed with existing recreational sports fields for the St Tammany Parish Recreation District #6. A change in zoning will bring the fields into compliance with the correct zoning classification per the Unified Development Code.
