EXISTING LAND USE:

COMPREHENSIVE PLAN:

Residential / Agricultural – Agricultural and related or other active or passive uses that use or preserve the countryside, forests and other areas and rural residential uses – widely ranging in dwelling size or type, siting and organization; both of which are generally located some distance from more intense land uses. Permitted uses include single-family residential, and uses ancillary to either of these primary uses. Other uses require a change in zoning.

STAFF COMMENTS:

The petitioner is requesting to change the zoning classification from A-1 Suburban District to A-1A Suburban District and A-2 Suburban District. The site is located on the south side of Million Dollar Road, north of Heintz Sharp Road, and west of Jessie Hyatt Road; Covington. The 2025 Future Land Use plan designates the site to be developed as a residential district with the prospect of agricultural amenities to be used within the area.

The subject property is currently developed with one single-family residence and is comprised of a total of 4.25 acres. The purpose of the existing A-1 Suburban District is to provide a single-family residential environment at a density level of one residential unit per every 5 acres. The purpose of the requested A-1A Suburban District and A-2 Suburban District is to provide single-family residential environments at density levels of one residential unit per every 3 acres and one residential unit per every one acre (see the below Table). A change in zoning will increase the allowable density within the area.

The reason for the request is to allow the applicant to submit a request to subdivide the existing 4.25-acre parcel.

Zoning District Site and Structure Comparison			
	Max Density	Allowable Uses	Purpose
Existing A-1 Suburban	$\frac{1 \text{ unit per } 5 \text{ acres}}{4.25 \text{ acres}/5 = 1 \text{ unit}}$	One single-family dwelling; Private garages and accessory structures; Guest house under 1,000 sq. ft. when the lot is no less than one acre in area	To provide a single-family residential environment at a low-density level in primarily less populated areas where the character of the area should be preserved at low densities.

Zoning District Site and Structure Comparison			
	Max Density	Allowable Uses	Purpose
Proposed A-1A Suburban	$\frac{1 \text{ unit per } 3 \text{ acres}}{3.25 \text{ acres}/3 = 1 \text{ unit}}$	One single-family dwelling; Private garages and accessory structures; Guest house under 1,000 sq. ft. when the lot is no less than one acre in area	To provide a single-family residential environment on large, multi-acre lots. The A-1A(D) district is located primarily in less populated areas where the character of the area should be preserved through low densities
Proposed A-2 Suburban	$\frac{1 \text{ unit per acre}}{1 \text{ acre}/1 = 1 \text{ unit}}$	One single-family dwelling; Private garages and accessory structures; Guest house under 1,000 sq. ft. when the lot is no less than one acre in area	To provide a single-family residential environment on large, multi-acre lots. The A-2(D) district is located primarily in less populated areas where the character of the area should be preserved through low densities.
