GENERAL INFORMATION

ACCESS ROAD INFORMATION

Type: Access from State Highway & Interior Parish Road **Road Surface:** 2 lane asphalt and gravel **Condition:** Moderate

LAND USE CONSIDERATIONS
SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Surrounding Use</u>	<u>Surrounding Zone</u>
North	Undeveloped	A-2 Suburban District & PF-2 Public Facilities District
South	Undeveloped	E-4 Estate
East	Residential & Undeveloped	A-4 Single Family Residential District & A-1 & A-3
West	Undeveloped	Suburban Districts
	Undeveloped	A-2 Suburban District & MHO Manufactured Housing Overlay

EXISTING LAND USE:

Existing development: Yes **Multi occupancy development:** No

COMPREHENSIVE PLAN:

Residential - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as “village or town residential” may include mixed uses and would have the highest number of units per acre, while “Rural residential” would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

Conservation – Areas designated for uses of land, water, flora and fauna that appear naturally. Such uses may include such activities as extraction or production for commerce; human enjoyment, hunting, fishing, or other recreation within natural landscapes; or preservation of natural systems. The concept of “conservation” includes a private landowner’s understanding of responsibility to wisely manage land resources so that they remain in good condition for future generations (often simple referred to as “good stewardship”); this concept may also include the conservation of energy through efficient transportation options as well as through climate responsive building design, as well as the conservation of historic, scenic, or otherwise serviceable buildings and landscapes.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from A-3 Suburban District to A-3 Suburban District & MHO Manufactured Housing Overlay over the Hillcrest Country Club Estates Subdivision & a portion of Hillcrest Country Club Subdivision. The 2025 future land use plan calls for the area to be developed with residential uses including manufactured homes and with conservation uses. Staff has no objection to the request, considering that there has been a significant increase in the number of rezoning request to MHO Manufactured Housing Overlay, on individual lots, since the comprehensive rezoning. Moreover, the area is mostly developed with manufactured houses.

STAFF RECOMMENDATION:

The staff recommends that the request for a MHO Manufactured Housing Overlay be approved.
