LAND USE CONSIDERATIONS
SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Surrounding Use</u>	<u>Surrounding Zone</u>
North	Residential	PUD Planned Unit Development
South	Commercial	MD-3 Medical Facility District
East	Commercial	MD-2Medical Clinic District
West	Commercial	HC-2 Highway Commercial District

EXISTING LAND USE:

Existing development: No **Multi occupancy development:** No

COMPREHENSIVE PLAN:

Planned Districts - Coordinated development on several parcels, usually at a higher density – but not in all cases - than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, *e.g.*) uses, as well as the supporting infrastructure and public services they will require (*See “Small Area Plans,” below*). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

Mixed Use – Commercial – Conservation - These planned districts would include mixed uses, except for residential uses, – at varying densities - and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from MD-3 Medical Facility District to MD-1 Medical Residential District. This site is located at the end of Keystone Blvd, east of US Highway 190 East Service Road. The 2025 Future land Use plan calls for the area to be developed as a planned district with a mix of commercial uses. Staff has no objection to the request considering that the area is developed with a mix of commercial and medical uses.

STAFF RECOMMENDATION:

The staff recommends that the request for a MD-1 Medical Residential District designation be approved.
