Littering shall be interpreted by reference to and consistent with applicable state statutes and, for purposes of this chapter, means throwing, dropping, discarding, permitting the intentional or accidental ejection, emission, escape of, or otherwise disposing of litter or waste matter of any kind on any public property, or upon private property without permission of the owner of said property, or in the waters of this parish, whether from a vehicle or otherwise. The term "litter" includes, but shall not be limited to, glass or metallic objects, trash, refuse, grass clippings or garbage.

Major appliances mean clothes washers and dryers, dishwashers, hot water heaters, residential furnaces, garbage disposals, trash compactors, conventional and microwave ovens, ranges and stoves, air conditioners, dehumidifiers, refrigerators and freezers.

Major modification means any change in a site, facility, process or disposal method, or operation which substantially deviates from the permit or tends to substantially increase the impact of the site, facility, process or disposal method, or operation on the environment.

Mandatory modification means any change in a site, facility, unit, process or disposal method, or operation that is required as a result of any new parish, state or federal laws and regulations.

Market means any person or entity that accepts and recycles recyclable materials.

Marketed means delivery of recyclable materials to and acceptance by a market.

Manure means a solid waste composed of excreta of animals and any residual materials that have been used for bedding, sanitary or feeding purposes for such animals.

Medical waste means infectious waste, and waste originating from the diagnosis, care or treatment of a person or animal, or waste resulting from biological research, whether or not the waste has been decontaminated.

Mixed solid waste means garbage, refuse and other solid waste from residential, commercial, industrial and community activities that the generator of the waste aggregates for collection, but does not include auto hulks, street sweepings, ash, construction debris, mining waste, sludges, trees and agricultural wastes, tires, lead acid batteries, used oil and other materials collected, processed and disposed of as separate wastestreams.

Municipal solid waste landfill or *MSW landfill* means an entire disposal facility in a contiguous geographical space where residential solid waste and/or commercial solid waste is placed in or on the land. The term "municipal solid waste landfill" does not limit the ownership or source of materials to municipalities.

Municipality means a city, village, town, sanitary district, school district or other governmental subdivision or public corporation, or agency created by the legislature, or as defined in this Code.

Nonprocessing transfer station means a solid waste facility where solid waste is transferred from collection vehicles to other vehicles for transportation without processing.

Nonputrescible describes solid waste that is not liable to spoil, decompose or putrefy and create noxious odors.

Notice of violation means a formal written notice issued by a department to notify a party that he is in violation of a parish ordinance. This notice will inform the party of the alleged violations, the nature and extent of the violations, and the required corrective actions. The notice of violations (NOV) shall also specify additional actions that will be taken by the department, such as the inclusion of NOV orders into a final order or consent order and/or the issuance of a citation, as well as specific time frames in which these actions will be completed.

Nuisance shall be defined by reference to chapter 26.

On-site processing/disposal area means the land area and appurtenances thereon used for processing and/or disposal of solid waste on the same property or on geographically contiguous property, where waste is generated. Two or more pieces of property that are geographically contiguous, but divided by public or private rights-of-way are considered a single site.

Open burning means any fire or smoke producing process not conducted in a boiler plant, furnace, high temperature processing unit, incinerator or flame, or in any such equipment primarily designed for the combustion of fuel or waste material, which is not approved by the state department of environmental quality and the local fire department. The term "open burning" also means the combustion of solid waste without control of combustion air to maintain adequate temperature for efficient combustion containment of the combustion reaction in an enclosed device to provide sufficient residence time and mixing for complete combustion and control of the emission of combustion products.

Open dump means a land disposal site at which solid waste is disposed of in a manner that does not protect the environment, is susceptible to open burning, and is exposed to the elements, vermin and scavengers. The term "open dump" also means a solid waste processing or disposal facility that has been issued a temporary permit and may not comply with the standards set by these regulations.

Operations means any site, facility, or activity relating to solid waste management purposes pursuant to this chapter.

Operator means the person or entity responsible for the overall operation of a facility.

Owner or solid waste facility owner means the person and/or entity who own a facility or part of a facility.

Permit means a written authorization issued by the administrative authority to a person for the construction, installation, modification, operation, closure or post-closure of a certain facility used or intended to be used to process or dispose of solid waste in accordance with the act, these regulations and specified terms and conditions. For the purposes of this chapter, and unless a distinction is otherwise provided, the term "permit" is synonymous with license/ licensee.

Permittee/permit holder means a person who is issued a permit and is responsible for meeting all conditions of the permit and these regulations at a facility.

Personnel or facility personnel means all persons who work at or oversee the operation of a solid waste management facility, and whose actions, or failure to act, may result in noncompliance with the requirements of this chapter.

Political subdivision means any municipal corporation, governmental subdivisions of the state, local governmental unit, special district or local or regional board, commission or authority authorized by law to plan or provide for waste management.

Post closure care means actions taken for the care, maintenance and monitoring of a facility after closure that will prevent, mitigate or minimize the threat to public health and the environment posed by the closed facility.

Premises means any place, land, building or structure, including, but not limited to, any adjacent driveway, parking area, adjacent yard or landscaped area under the control of the owner, his agent or occupant of said building or structure, or watercraft on the waters of the state or federal government, or any place upon or in which solid waste is generated, stored, transferred or disposed of.

Process means a method or technique, including recycling, recovering, compacting (but not including compacting which occurs solely within a transportation vehicle), composting, incinerating, shredding, baling, recovering resources, pyrolyzing or any other method or technique designed to change the physical, chemical or biological character or composition of a solid waste to render it safer for transport; reduced in volume; amenable for recovery, storage, reshipment or resale. The term "process" does not include treatment of wastewaters to meet state or federal wastewater discharge permit limits. Neither does the term "process" include activities of an industrial generator to simply separate wastes from the manufacturing process.

Processing means the treatment of solid waste after collection and before disposal. The term "processing" also includes, but is not limited to, reduction, storage, separation, exchange, resource recovery, physical, chemical or biological modification, and transfer from one waste facility to another.

Processing facility means a site used to process solid waste, including all structures, equipment used to process the waste, storage areas for the incoming waste, the final product and residuals resulting from the process and may be designated for recyclable materials only.

Processing transfer station means a Type I-A or II-A solid waste processing facility where solid waste is transferred from collection vehicles, processed and placed in other vehicles for transportation (e.g., a facility that separates recyclables from industrial or putrescible wastestreams).

Prohibited materials means solid waste, which is unacceptable for collection, processing or disposal due to the physical or chemical nature of the material or due to a facility's inability to properly manage the waste.

Promiscuous dump means a solid waste disposal facility that has resulted from disposal activities of persons other than the landowner and whose operation is not permitted by the administrative authority.

Public nuisance means conduct that is defined and prohibited pursuant to chapter 26.

Putrescible waste means solid waste which contains organic matter capable of being decomposed by microorganisms and creating noxious odors of such a character and proportion as to be capable of attracting or providing food for birds, and potential disease vectors (such as rodents and flies).

Recovered material means material which has known recycling potential, can be feasibly recycled, and has been diverted or removed from the solid wastestream for sale, use or reuse, by separation, collection or processing, as defined in R.S. 30:2412(7) and which would otherwise be processed or disposed of as nonhazardous solid waste.

Recyclable materials mean those materials which are capable of being recycled and which would otherwise be processed or disposed of as nonhazardous solid waste, which generally includes any newspaper, glass, metal food and beverage cans, magazines, catalogs, phone books, corrugated cardboard and plastic.

Recycling means any process by which nonhazardous solid waste or material which would otherwise become solid waste, is collected, separated or processed and reused or returned to use in the form of raw materials or products.

Recycling facility means a site used to collect, process and repair recyclable materials and reuse them in their original form or use them in manufacturing processes.

Refuse means putrescible and nonputrescible solid wastes, including garbage, rubbish, ashes, incinerator ash, incinerator residue, street cleanings and market and industrial wastes, and including municipal treatment wastes which do not contain free moisture.

Refuse collection service means a public or private operation engaged in solid waste collection and solid waste operation.

Rejected waste means unacceptable waste, which is rejected at the designated facility.

Residence means any building or portion thereof used as a dwelling or sleeping area for people.

Residential solid waste means any solid waste, including garbage, trash and sludges from residential septic tanks and wastewater treatment facilities, derived from households, including single and multiple residences, hotels and motels, bunkhouses, ranger stations, crew quarters, campgrounds, picnic grounds and day-use recreation areas.

Resource recovery means the process by which solid waste that retains useful physical or chemical properties is reused or recycled for the same or other purposes, including uses as energy sources.

Resource recovery facility means a waste facility established and used primarily for resource recovery, including related and appurtenant facilities such as transmission facilities and transfer stations primarily serving the resource recovery facility.

Responsible party means the owner, operator or successor in interest of a solid waste facility.

Rubbish means nonputrescible solid wastes, including ashes, consisting of both combustible and noncombustible wastes, such as paper, cardboard, tin cans, yard clippings, wood, glass, bedding, crockery or litter of any kind.

Run-off means any rainwater, leachate or other liquid that drains from any part of a facility.

Run-on means any rainwater or other liquid that drains onto any part of a facility.

Salvaging means the controlled removal of material from a solid waste storage, transfer, processing or disposal site for authorized reuse or recycling.

Sanitary landfill means a landfill for the disposal of commercial or residential solid waste by deposit in a landfill in layers covered with suitable cover material of a depth and at a frequency adequate to control disease vectors and odors, health and the environment. It is located, contoured and designed so that it will not constitute a source of water pollution.

Scavenging means the unauthorized removal of material from a solid waste storage, transfer, processing or disposal site.

Separation facility means a Type III solid waste processing facility at which recyclables are separated from a nonputrescible solid wastestream for future use. The nonputrescible wastestream received by the separation facility shall not contain more than a de minimis amount of putrescible waste.

Septage means the contents of a septic tank, cesspool or other individual sewage-treatment facility that receives domestic-sewage wastes.

Sewage sludge means sludge resulting from treatment of wastewater from publicly or privately owned or operated sewage-treatment plants.

Sewage treatment residue is coarse screenings, grit, scum and sludge from sewage treatment plants and pumpings from cesspools, septic tanks or grease traps.

Shredder means a solid waste facility that reduces the particle size of solid waste by grinding, milling, shredding or rasping.

Site means the physical location, including land area and appurtenances, of an existing or proposed storage, processing or disposal facility. A site may consist of a number of facilities, each subject to a permit to process or dispose of solid waste.

Sludge means residue produced by or precipitated from a treatment process.

Small business units are businesses that do not have dumpsters or compactors and place curbside for collection (on the normal days for collection) typical residential containers or bags.

Solid waste means useless, unwanted or discarded solid material with insufficient liquid content to be free-flowing, that results from domestic, industrial, commercial, agricultural, governmental or community operations which require proper storage, collection, transportation and disposal to prevent environmental pollution inimical to public health, safety and welfare. The term "solid waste" does not include abandoned or junked vehicles, sewage, sewage treatment residue, earth or material used to fill land in accordance with construction codes, mining residues, slag and dissolved or suspended solids in industrial wastewater effluents, which are not acceptable for disposal in regular sewage treatment systems, industrial discharges that are point sources subject to permits under R.S. 30:2075; source, special nuclear or byproduct material as defined by the Atomic Energy Act of 1954 (68 Stat. 923 et seq.), as amended; potentially infectious biomedical or hazardous waste subject to permits under R.S. 30:2171 et seq.

Solid waste collection means the gathering of solid waste from public and private places.

Solid waste collection service and *solid waste hauler* means any person engaged in solid waste collection and transportation services. The term "solid waste collection service" does not include an individual resident hauling his own household waste.

Solid waste land disposal facility means a facility used to dispose of solid waste in or on the land.

Solid waste management facility means a facility which collects, transports, stores, processes or disposes of any garbage, refuse or sludge from a waste treatment plant, water-supply treatment plant, or air pollution-control facility, and other discarded material, including solid, liquid, semisolid or contained gaseous material resulting from industrial, commercial, mining and agricultural operations, and from community activities, including, but not limited to, construction debris landfills, nonprocessing transfer station, processing transfer station, compost facility, separation facility (recycling facility), sewage treatment facility, septage treatment facility, municipal solid waste landfill, industrial solid waste facility and incinerator.

Solid waste management plan means the solid waste management plan for the parish.

Solid waste management system means the total concept of the entire process of collection, transportation, storage, processing and disposal of solid waste by any person engaged in such process as a business or by any municipality, authority, trust, parish or any combination thereof.

Solid waste storage means the handling and holding of solid waste near the point of generation pending collection and the holding of solid waste for more than 48 hours in quantities equal to or greater than ten cubic yards.

Solid waste transfer station means a facility including nonprocessing, processing or drop stations inclusive of nonprocessing transfer stations where solid waste materials, including yard waste, demolition materials and household refuse are transferred from smaller vehicles to larger trucks for efficient transport to landfills, recycling centers and other disposal sites inclusive of nonprocessing transfer stations and Type II-A facilities as defined by L.A.C. 33.VII.115.

Solid waste transportation means the conveying of solid waste from one place to another, by means of vehicle, rail car, water, vessel, conveyer or other means.

Source separated materials means materials that are separated from solid waste by the generator and recovered for reuse in their original form or for use in the manufacturing process.

Source separation means the separation of recyclable materials from waste by the generator prior to collection for recycling.

Stable refuse is body waste of animal and fowl, and cleanings, and waste food stuffs from all barns, stables, corrals or pens used for stabling, caging or penning of animals or fowl.

Tipping fee means the fee charged to haulers or other persons for waste delivered to a designated facility.

Tire means a continuous solid or pneumatic rubber covering encircling the wheel of a motor vehicle or off-road vehicle.

Tire collection site means a permitted site, or a site exempted from permit, used for the storage of waste tires.

Tire collector means a person who owns or operates a site used for the storage, collection or deposit of waste tires.

Tire dump means an establishment, site or place of business without a required tire collector or tire processor permit that is maintained, operated, used or allowed to be used for storing, keeping or depositing unprocessed waste tires.

Tire processing means producing or manufacturing usable materials, including fuel, from waste tires, including necessary incidental temporary storage activity.

Tire processor means a person and/or entity engaged in the processing of waste tires.

Toxic waste means substances, whether liquid, gaseous or solid form, which when collected, stored, transported or disposed of, may be acutely toxic to humans or other animals, or plant life, or be directly damaging to property including, but not limited to, pesticides, acids, caustics, pathological wastes, radioactive materials, flammable or explosive materials and similar noxious substances.

Transfer station (nonprocessing). See *Nonprocessing transfer stations*.

Transfer station (processing). See *Processing transfer station*.

Transport means to move industrial solid waste off-site and/or to move solid waste of a commercial establishment or more than one household to a transfer station or processing or disposal facility.

Transportation means the conveying of solid waste from one place to another.

Transporter means any person who moves industrial solid waste off-site and/or to move solid waste of a commercial establishment or more than one household to a transfer station or processing or disposal facility.

Trash means nonputrescible solid wastes consisting of both combustible and noncombustible wastes. Combustible trash includes paper, rags, cartons, wood, rubber, plastic, yard trimmings, leaves and similar material. Noncombustible trash includes grass, crockery, cans, dust, scrap metal and like material which will not burn at ordinary incinerator temperatures (1,600 degrees Fahrenheit to 2,000 degrees Fahrenheit).

Tree means a perennial woody plant, generally with a single stem (e.g., trunk). The term "tree" also means the stump of the tree.

Type I facility means a facility used for disposing of industrial solid waste (e.g., a landfill, surface impoundment or landfarm). If the facility is used for disposing of residential or commercial solid waste, it is also a Type II facility.

Type I-A facility means a facility used for processing industrial solid waste (e.g., a transfer station—Processing, shredder, baler, etc.). If the facility is used for processing residential or commercial solid waste, it is also a Type II-A facility.

Type II facility means a facility used for disposing of residential and/or commercial solid waste (e.g., a landfill, surface impoundment or landfarm). If the facility is used for disposing of industrial solid waste, it is also a Type I facility.

Type II-A facility means a facility used for processing residential, infectious or commercial solid waste (e.g., a transfer station—Processing, composting municipal solid waste facility, refuse-derived fuel facility, shredder, baler, autoclave, etc.). If the facility is used for processing industrial solid waste, it is also a Type I-A facility.

Type III facility means a facility used for disposing or processing of construction/demolition debris or woodwaste, composting organic waste to produce a usable material or separating recyclable wastes (e.g., a construction/demolition-debris or woodwaste landfill, separation facility or composting facility).

Unacceptable waste means waste which may pose a threat to health or safety, or to the environment, or may cause damage to, or materially adversely affect, the operation of a designated facility, including, but not limited to: incinerator ash; foundry sand; explosives; hospital, pathological and biological waste; hazardous waste; chemicals and radioactive materials; oil sludges; asbestos in identifiable quantities; cesspool or other human waste; sewage and other highly diluted, water carried materials or substances; materials in gaseous form; human or animal remains; street sweepings; ash; mining waste; sludges; demolition debris; and hazardous refuse of any kind, such as cleaning fluids, crank case oils, cutting oils, paints, acids, caustics, poisons and drugs.

Vector (of disease) means an animal or insect which transmits infectious diseases from one person or animal to another by biting the skin or mucous membrane or by depositing infective material on the skin or food or on another object.

Warning letter is a written notice issued by the department to notify a party that he is in violation of a parish ordinance. The warning letter will inform the party of the alleged violations, the nature and extent of the violations and the required corrective actions. The warning letter shall be utilized as the initial parish notification of alleged violations, except in cases of imminent threat to public health and safety and the environment.

Waste means solid waste.

Waste facility means all property, real or personal, including negative and positive easements and water and air rights, which is or may be needed or useful for the processing or disposal of waste, except for the collection of the waste and property used primarily for the manufacture of scrap metal or paper. The term "waste facility" includes, but is not limited to, transfer stations, processing facilities and disposal sites and facilities.

Waste management means activities which are intended to affect or control the generation of waste and activities which provide for or control the collection, processing and disposal of waste.

Waste processing means the treatment of solid waste after collection and before disposal. The term "waste processing" includes, but is not limited to, volume reduction, storage, separation, exchange resource recovery, physical, chemical or biological modification and the operations of a metal recycling or salvage facility.

Waste reduction means an activity that prevents generation of waste including reusing a product in its original form, increasing the life span of the product, reducing material used in production and packaging, or changing procurement, consumption or waste generation habits to result in smaller quantities of waste generated.

Waste tire means a whole tire that is no longer suitable for its original purpose because of wear, damage or defect. The term "waste tire" does not include a tire weighting over 500 pounds and/or a solid tire.

Waste tire collection site means a licensed waste facility used for the storage of waste tires prior to their transport to a waste tire processing facility.

Waste tire processing facility means a licensed waste facility used for the shredding, slicing or producing or manufacturing usable materials from waste tires, and may include temporary storage activity at the facility. The term "waste tire processing facility" does not include the retreading of waste tires.

Water pollution means the contamination of any waters of the state so as to create a nuisance or render such waters unclean, obnoxious or impure, so as to be actually harmful or detrimental or injurious to public health, safety or welfare, to domestic commercial or industrial use, or to animals, birds, fish or aquatic life.

White goods means inoperative and/or discarded domestic and commercial appliances, including refrigerators, ranges, water heaters, freezers and other similar domestic and commercial appliances.

Woodwaste means yard trash/waste and types of waste generated by land and right-of-way clearing operations, sawmills, plywood mills and woodyards associated with the lumber and paper industry, such as wood residue, cutoffs, wood chips, sawdust, wood shavings, bark, wood refuse, woodfire boiler ash, wood ash and plywood or other bonded materials that contain only polyurethane, phenolic-based glues or other glues that are approved specifically by the administrative authority. Uncontaminated, untreated or unpainted lumber or wooden pallets are considered woodwaste under this definition.

Yard waste means vegetative matter resulting from landscaping or maintenance, including garden wastes, leaves, lawn cuttings, weeds, shrub and tree waste and prunings.

(b) Any word or phrase not specifically defined or discussed herein shall first be used and interpreted by reference to the statutes, rules and regulations of the state department of environmental quality and, thereafter, in its most common and reasonable sense.

(Code 1998, § 9-003.00; Ord. No. 11-2588, 9-1-2011)

Historical note—Promulgated by the department of environmental quality, office of solid and hazardous waste, solid waste division, L.R. 19:187 (February 1993), amended L.R. 22:279 (April 1996), amended by the office of waste services, solid waste division, L.R. 23:1145 (September 1997), amended by the office of environmental assessment, environmental plan-

ning division, L.R. 26:2514, 2609 (November 2000), amended by the office of environmental assessment, L.R. 31:1576 (July 2005), amended by the office of the secretary, legal affairs division, L.R. 33:1019 (June 2007), L.R. 34:1023 (June 2008), L.R. 34:1399 (July 2008).

Sec. 38-4. Effective date.

Ordinance Calendar No. 4485 shall not be construed as requiring the alteration of a structure or site plan of any solid waste management facility that is currently in operation or which has an approved building permit and site plan at the time said ordinance was adopted. Regulations governing the operations of a facility may be applied when necessary to protect the public health, safety and welfare.

(Code 1998, § 9-004.00)

Sec. 38-5. General provisions and responsibilities of the department.

(a) The following general provisions and responsibilities of the department of environmental services, herein referred to as the department, shall include those defined under this chapter.

(b) The department shall have the right to administer this chapter. The department's rights and duties shall include, but shall not be limited to, those described in this section. Further, this provision shall apply to all persons, entities, applicants and license holders even if they are a holder of an existing permit, license and conditional use permit presently in existence and hereafter granted.

(c) The department shall have the right to inspect private property to determine if the property owner is in compliance with the provisions of this chapter. Routine inspection and evaluation of solid waste management activities, sites or facilities shall be made by the department in such frequency to ensure consistent compliance by the operation with the provisions of this chapter. An applicant and the licensee shall allow free access to the department; provided that the entrance and activity is undertaken after reasonable notice and during normal business hours, and after notifying facility applicant and licensee of presence at site for the purpose of making such inspections as may be necessary to determine compliance with the requirements of this chapter, or any other applicable statute, or for the purpose of making written and documented notice of any deficiencies, or recommendations for their correction and the date by which corrections shall be accomplished. (ERC Title 33, part VII, subpart 1, chapter 5, section 509.)

(d) The department shall have the right to review all license applications submitted to the department for operation of all solid waste management activities, sites or facilities within the parish. Any and all submissions will be managed in a confidential manner according to the provisions for confidential information which may be found in LAC 33:I. ch. 5.

(e) The department shall have the right to issue or deny solid waste licenses and to impose solid waste management activity, site or facility specific conditions on said licenses. Denial of a solid waste license shall be for cause based upon written reasons provided to applicant and applicant's failure to cure any deficiency within a reasonable period of time.

(f) The department shall have the right to investigate complaints of violations of this chapter. The department shall assist the district attorney's office and/or the administrative hearing officer.

(g) The department rules and regulations shall not supersede any actions that may be taken by code enforcement of the parish planning office, constables, justices of the peace and the district attorney's office of this parish and the administrative hearing officer.

(h) It is understood that there is concurrent jurisdiction of all agencies and departments.

(i) The department shall have the right to refer or recommend, when necessary, to the parish district attorney's office and/or the parish administrative hearing officer, that legal proceedings be initiated against a certain solid waste management activity, or facility after any curative period mentioned herein is not adequately resolved.

(j) The department shall have the right to identify the solid waste management needs of the parish through developing and implementing plans to meet those needs. Said plan may be revised if deemed necessary by the department. The department, in concert with the parish government, may establish a solid waste committee to study, investigate, and research solid waste management issues parish wide. Members of the committee may include current licensees.

(k) The department shall have the right to conduct studies, investigations and research relating to aspects of solid waste management, such as methodology, chemical and physical considerations and engineering.

(l) The department shall have the right to advise, consult and cooperate with other governmental agencies (e.g., DEQ, the agency) in the furtherance of the purposes of this chapter.

(m) The department shall have the right to prepare and negotiate agreements with responsible parties to address the closure and post closure requirements for licensed and unlicensed solid waste facilities should said responsible party fail to meet closure and post closure requirements established by DEQ, but only after advance written notice to the current licensees.

(n) The department shall have the right to allocate license fee revenues towards creating waste diversion incentives (e.g., composting facility or recycling facility).

(o) The department shall have the right to enforce the allocation of fee revenues towards creating waste diversion incentives.

(p) The department shall have the right to work with oil change facilities in order to promote diversion and proper disposal of oil and anti-freeze waste.

(q) The department shall have the right to review the economic viability of assigning, but not mandating a certain day of the week for the disposal of household hazardous waste at licensed solid waste facilities.

(Code 1998, § 9-006.00; Ord. No. 11-2588, 9-1-2011)

Secs. 38-6—38-30. Reserved.

ARTICLE II. LICENSING

Sec. 38-31. License requirements and licensure for solid waste management facilities, solid waste disposal and diversion, hauling and transfer, collection and storage.

(a) The objective of this section shall be to establish better, more effective licensing requirements for solid waste management facilities, solid waste disposal and diversion, hauling and transfer, collection and storage and more efficient monitoring by the department. Thus, the licensee shall be responsible for all DEQ requirements (inter alia, the Louisiana Solid Waste Operator and Certification Program Act R.S. 37:3151 et seq.) and licenses and compliance with all of the provisions of this article.

(b) Where and when applicable, the licensee shall be responsible for facilitating all environmental monitoring, including, but not limited to, water, soil and landfill gases, which are required by this article or the license conditions for the applicable solid waste management activity or facility.

(c) The department may grant up to 15 Class A solid waste hauling permits (see section 38-34). Licensee shall comply with DES standards as outlined in section 38-111. Each permitted vehicle or conveyance that has been modified shall be inspected and approved by the department.

(d) The department may grant up to ten Class B solid waste hauling permits (see section 38-34). This classification will be allowed to license both Class A and Class B. The largest (GVWR) rated registered vehicle will constitute the level of class for the entire permit. Should lower class rated vehicles become permitted, the level of class may not be reduced. Any Class A vehicle must comply with DES standards as outlined in section 38-111.

(e) The department may grant any number of Class C solid waste hauling permits (see section 38-34). Licensee shall comply with all applicable local, federal and state regulations governing loads on vehicles. This classification is limited to larger standard rear loaded garbage trucks with hydraulic compactors as well as front-end loader dumpster trucks. This classification shall also regulate all commercial roll-off dumpster containers. No lower classification vehicle may be listed, used or operated with this license.

(f) The following shall apply to each class: The department reserves the right to inspect each service vehicle or conveyance and any container, before an application is approved. Each vehicle or conveyance must be in compliance with all applicable local, federal and state regulatory requirements imposed on any such vehicle or conveyance, including those regulations governing the size, width, height, length, weight and load for vehicles, which are currently set forth in R.S. 32:380 et seq. The licensee shall comply with all applicable local, federal and state regulations governing loads on vehicles.

(Code 1998, § 9-013.00; Ord. No. 11-2588, 9-1-2011)

Historical note—Promulgated by the department of natural resources, board of certification and training for solid waste disposal operators, L.R. 10:404 (May 1984), amended by the department of environmental quality, board of certification and training for solid waste disposal operators, L.R. 14:12 (January 1988), L.R. 20:656 (June 1994).

Sec. 38-32. License required.

(a) *Procedures and criteria.* The procedures and criteria for license issuance, denial, variance, revocation, suspension, renewal, administration and fees shall be governed by this article.

(b) *License term.* Unless otherwise provided by the parish government, each license granted pursuant to the provisions of this article shall be for a period of not more than one year, unless earlier suspended or revoked. The license period shall be annually from January 1 to December 31, a period of one year, for license renewals. The department may grant automatic license renewal if licensee is in compliance with all of the provisions of this article.

(c) *License term for other facilities.* In regards to solid waste management facilities, solid waste disposal and diversion, solid waste transfer stations, process and nonprocess transfer stations; these types of facilities shall be licensed for a period of not more than two years for a temporary permit and not more than five years for a standard permit.

(d) *Renewal application due date.* Applications for renewal license for the ensuing year under this article shall be filed with the department of environmental services on or before December 1 of each year. If the licensee fails to file their renewal application for such renewal on or before December 1 a penalty of \$25.00 shall be added to the fee for the first 30 days of delinquency, with an additional \$25.00 for each additional 30 days or fraction thereof. The parish government without notice or hearing may suspend the licensee's right to conduct business if he fails to make application for a renewal license before March 31 of each year.

(Code 1998, § 9-014.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-33. Application and fees.

(a) *Application and fees.* An applicant for a license shall complete and submit to the department an application on a form provided by the department. The application shall not be considered complete until the department receives all applicable fees, all materials required by this section, and all materials required by subsequent sections applying to the specific manage-

ment activity for which a license is sought. Applicants for a license shall not commence any operation or engage in any activity, until the license application has been approved by the department; nor shall any operation commence until a license is issued.

(b) *Written application.* A person who requests the issuance, modification or renewal of a license shall complete sign, and submit to the department a written application.

(c) *Contents.* The application shall contain the following nonexclusive list of requirements:

- (1) The name, address and telephone number of the facility owner, facility operator and landowner of the activity or facility for which the application is submitted.
- (2) The name, address and telephone number of the person who prepared the application.
- (3) A description including the location of the activity or facility.
- (4) A general description of the wastes to be stored, processed or disposed of; anticipated quantity of wastes to be stored, processed or disposed of; and proposed methods for managing the wastes.
- (5) A general description of the proposed methods for managing run-off and run-on.
- (6) A topographic map, or other map if a topographic map is unavailable, that shows the proposed activity or facility and the area surrounding it for a distance of at least one mile in all directions. The map must be of sufficient scale to show all homes, buildings, lakes, ponds, watercourses, wetlands, dry runs, rock outcroppings, roads, areas for retention of surface water runoff and other applicable details as determined by the department. Wells must be identified on the map. An analysis or characterization of the waste may be required by the department. Pertains to solid waste disposal and diversion license only.
- (7) Written proof that the municipal or township governing body in which said activity or facility is located has considered the establishment of the activity or facility with respect to zoning, impact on township/municipal roads and other applicable regulations.
- (8) Where applicable, copies of insurance, inspections and haulers information (e.g., driver's license, driving record) and service records for all transportation vehicles.
- (9) Notification of any and all DEQ and/or agency violations within three years prior to submittal.
- (10) The activity must comply with the perimeter barrier and security requirements in LAC 33:VII. 717. B., 3., A., B. for Type II-A, and with the buffer zone requirements in LAC 33:VII. 719. B., 3., A., B., for DEQ defined Type III facilities only. Pertains to solid waste disposal and diversion licenses only.
- (11) Demonstrate that an emergency action plan has been produced that contains, but is not limited to, the following: method to communicate with customers during extreme weather events (i.e., floods, hurricanes) so that waste is not allowed to be placed

curbside or to accumulate and alternate disposal sites in case their primary site is temporarily or permanently closed and/or inaccessible so that waste does not accumulate. Pertains to solid waste disposal and diversion licenses only.

(12) Requirements of the application may be modified or amended as needed by the department.

(13) No person, entity or corporation shall contract to perform any act of which a permit is required by the department of environmental services before first obtaining and securing the proper state and/or federal permits or license to conduct business within the residential and/or commercial solid waste hauler, waste storage, transfer station or transfer of any solid waste operation.

a. Failure to conform to all local, state and federal rules, regulations and statutes concerning solid waste handling and disposal shall be cause for revocation of a parish permit and subject to any fines or penalties thereof.

b. Permit decals must be prominently displayed and visible on each service vehicle positioned on the upper left corner of the driver's inside windshield as to not block any view or distraction to the driver.

(14) Licenses shall be issued on the basis of anticipated performance of the licensee as gauged from the information furnished on the application. Licenses may be revoked at any time for cause, including, but not limited to, failure to perform under provisions of this article, violation of any term of the license, misrepresentation of failure to disclose any material fact required by this article.

(d) *Signatures.* A license application must be signed as follows:

(1) *Activity or facility owner signature.* A license application must be signed by the activity or facility owner, landowner and operator.

(2) *The applicant; certification.* A person who signs a license application shall make the following certification:

"I certify under penalty of law that this document and all attachments were prepared under my direction or supervision to ensure that qualified personnel properly gathered and evaluated the information submitted. Based on my inquiry of the person or persons responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate, and complete."

(e) *Application review.* Within 30 days of receipt by the department of a license application for a facility or activity, the department shall notify the applicant in writing whether the application is complete and, if not complete, what items are needed to make it complete. Within a reasonable time of receipt of a completed application, the department shall approve, disapprove or delay decision on the application, with reasons for the delay, in writing. Submission of false information may constitute grounds for denying a license or license

renewal, or suspension by revocation of an issued license. If the department denies an application, it shall provide written reasons to the applicant and provide applicant a reasonable opportunity to cure any deficiencies.

(f) *Other waste facilities.* Any facility or activity not otherwise provided for in this article must be licensed or exempted from licensure by the department and/or DEQ prior to construction or operation. (ERC title 33, part VII, subpart I, section 313.)

(g) *Additional or unnecessary data.* From time to time, as exclusively determined by the department, the applicant may be asked to submit reasonable additional data as requested by the department. The department may waive a requirement for submitting certain information if such a waiver will not endanger the health or safety of the public.

(Code 1998, § 9-015.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-34. License conditions.

(a) *License conditions.* The department may impose conditions on any approvals or licenses that are issued by the department that may be necessary due to the characteristics of the waste, facility specific conditions or other nontypical management characteristics or conditions pertinent to the regulated solid waste management activity or facility, in order to protect public health, safety or the environment or as otherwise provided by law, but said conditions shall not exceed or duplicate any DEQ provisions and/or requirements.

(b) *Change in facility construction or activity.* No change within the parameters of the facility's license and permit shall be made in the construction activity or materials received at the facility, unless such change is first approved by the department.

(c) *Financial assurance-contingency action and closure.* Unless otherwise provided by the department, issuance of any license pursuant to the provisions of this article shall be contingent upon the applicant furnishing to the department, financial assurance, in an amount to be set by the parish government, and naming the parish as obligee with sufficient sureties duly licensed and authorized to transact corporate surety business in the state as sureties. The condition of such financial assurance shall be that if the licensee fails to obey any of the requirements or do any of the acts required by this article in the operation of the activity or facility, or if, for any reason, ceases to operate or abandons the activity or facility, and the parish is required to expend any monies or expend any labor or material to restore the activity or facility to the condition and requirements as provided by the article, the obligor and the sureties on its financial assurance shall reimburse the parish for any and all expenses incurred to remedy the failure of the licensee to comply with the terms of the article, and the obligor and its sureties will indemnify and save the parish harmless from all losses, costs and charges that may occur to the parish because of any defaults of the obligor under the terms of their license to operate and

the ordinances of the parish. The financial assurance shall be subject to cancellation by the surety at any time only upon giving 90 days prior written notice of cancellation to the department.

(d) *Licensed parties.* The department is specifically vested with the discretion to evaluate business operations and performance of any licensed party at any time.

(e) *Applicants for licensure.* The department is specifically vested with the discretion to evaluate business operations and performance of any applicant for licensure.

(f) *Waiver.* The department, at its sole discretion, may waive the financial assurance requirements under this section if the applicant, owner or operator demonstrates to the satisfaction of the parish that financial assurance is being provided to and has been approved by the parish for the subject solid waste activity or facility and shall address site specific requirements as set by the parish. (ERC, title 33, part VII, subpart 1, chapter 3, section 315, No. 4.)

(g) *Insurance.* An applicant or licensee shall furnish to the parish certificates of insurance, the types and amounts which are listed below by classification, by an insurer duly licensed within the state. The parish reserves the right to be added as an additional named insured on all licensee's insurance coverage issued by insurers duly licensed within the state in types and amounts to be established by the parish based on the type of said waste management activity or facility under consideration. The licensee shall provide 30 days written notice to the department should any insurance policy be canceled before the expiration date of said policy.

(h) *Class A.* Transportation/conveyance vehicle with a gross vehicle weight rating (GVWR) of 6,000 pounds to 26,000 pounds.

(i) *General liability/commercial liability/business liability (operations and premises) per vehicle.* Minimum \$100,000.00 combined single limit for bodily injury and property damage.

(j) *Automotive liability, per vehicle.* Minimum \$100,000.00, including coverage for hired and nonowned vehicles, combined single limit for bodily injury and property damage.

(k) *Workers compensation.* The state statutory limits:

(1) *Class B.* Transportation/conveyance vehicle with a gross vehicle weight rating (GVWR) of 26,001 pounds to 55,000 pounds.

(2) *General liability/commercial liability/business liability (operations and premises) per vehicle.* Minimum \$500,000.00 combined single limit for bodily injury and property damage.

(3) *Automotive liability, per vehicle.* Minimum \$500,000.00 including coverage for hired and non-owned vehicles, combined single limit for bodily injury and property damage.

(l) *Workers compensation.* The state statutory limits:

- (1) *Class C.* Transportation/conveyance vehicle with a gross vehicle weight rating (GVWR) of 55,001 pounds to 62,000 pounds or above.
- (2) *General liability/commercial liability/business liability (operations and premises) per vehicle.* Minimum \$1,000,000.00 combined single limit for bodily injury and property damage.
- (3) *Automotive liability, per vehicle.* Minimum \$1,000,000.00, including coverage for hired and nonowned vehicles, combined single limit for bodily injury and property damage.

(m) *Workers compensation.* The state statutory limits: Continuation of expired license. A person and/or entity who holds an expired license and who has submitted a timely and complete application for reissuance of the license may continue to conduct the licensed activity until the department takes action on the application if the department determines that there is compliance with the following nonexclusive criteria:

- (1) The licensee is in compliance with the terms and conditions of the expired license and the parish solid waste management ordinance;
- (2) The department, through no fault of the licensee, has not taken action of the application on or before the expiration date of the license;
- (3) The licensee is deemed responsible as unilaterally determined by the department; or
- (4) The licensee is deemed responsive to department orders, as unilaterally determined by the department.

(n) *Compliance.* Unless otherwise provided for in this article, applicants, owners and operators of proposed or licensed activities or facilities shall comply with title 33, part VII et seq. of the Environmental Regulatory Code (ERC). The department may waive certain requirements provided said waiver will not endanger the environment or the safety or health of the public.

(o) *Valid license.* A license will remain valid only so long as the facility or activity is in compliance with applicable state and federal statutes, together with department rules, regulations, and this article.

(p) *Hours of operation.* All individuals, companies and governmental entities engaged in the collecting and transferring of solid waste and debris shall limit hours of operation to 6:00 a.m. through 9:00 p.m. daily. It is expressly prohibited to conduct collection activities outside of the permitted hours of operation. An exception is in the event of a public emergency affecting the health, safety and general welfare, the limits on hours of operation shall be temporarily suspended pending the resolution of the emergency. An exception is the collection and transferring of industrial and commercial solid waste. Collection of commercial refuse, commercial recyclables and industrial solid waste may not be conducted where the dumpster or other commercial and/or industrial refuse container is within 300 feet of any private residence

between the hours of 9:00 p.m. and 6:30 a.m. Where the dumpster or other commercial and/or industrial refuse container is more than 300 feet from residential property then the collection times stated above do not apply. For the purpose of this section, collection of refuse or recyclables at apartments, apartment houses or complexes, condominiums and/or co-ops shall be classified as commercial collection.

(q) *Valid occupational license.* Applicants shall be required to provide a copy of a valid parish occupational license and submit said copy when submitting a completed license application form. Failure to provide or possess a valid parish occupational license will cause an application to be deemed deficient.

(r) *Requirement.* Licensees shall be required to possess a valid parish occupational license throughout the license term. Failure to possess a valid parish occupational license during the license term shall be considered cause to terminate and/or revoke any type of license established by this article.

(s) *Compliance.* Any and all permittees found not to be in compliance with any section of this or any other applicable parish ordinances shall be penalized for each and every offense in accordance with section 38-186, enforcement and penalties.

(t) *Transferability.* Any license issued by the parish, as per this article, shall not be assigned or transferred in any way whatsoever. Notwithstanding the foregoing, if a nonlicensee acquires the business of a current licensee and meets all applicable requirements, said license shall be transferrable.

(u) *Performance of work.* Licensee agrees to perform all services in a workmanlike and professional manner.

(v) *Personnel.* Licensee agrees to ensure that its personnel are, at all times, educated and trained, and further, that licensee and its personnel will perform all work and services of a reasonably-related licensee in the parish.

(w) *Notice of termination/cancellation.* Licensee shall be required to provide the department as well as any and all customers written notice at least 30 days prior to a termination/cancellation of service, change in the number of days of pickup per week, and change in service fees. Licensee shall have the duty and responsibility to remit or refund, on a pro rata basis, any unused funds that are paid in advance. Failure to timely remit or refund over payment shall be deemed a violation of this article.

(x) *Parking and storage of waste hauler vehicles.* Parking and storage of waste hauler vehicles:

- (1) No person, entity or corporation shall park or store any commercially licensed truck, trailer or conveyance, whether loaded or unloaded, which is used for the collection and

transportation of solid waste, garbage or the contents of private sewage tanks, on any public street, alley or other public place or on private property within a residential district, except for loading purposes or emergency repairs.

- (2) Any vehicle parked or stored in violation hereof shall be removed by authorized personnel of the sheriff's office and stored in accordance with the provisions of ch. 16 of title 32 of the Louisiana Revised Statutes. Violators of this section shall be notified by the sheriff's office to answer before the 22nd Judicial District Court. The parish council shall provide suitable serially numbered forms in triplicate for notifying violators to appear in answer to charges of violating this section, said forms to be given to the sheriff's office, which shall make the notification. The disposition of any vehicle which may be impounded pursuant to the provisions of this section shall be in accordance with the applicable provisions of ch. 1 and ch. 16 of title 32 of the Louisiana Revised Statutes.

(Code 1998, § 9-016.00; Ord. No. 11-2588, 9-1-2011)

State law reference—Loads on vehicles, R.S. 32:383.

Secs. 38-35—38-56. Reserved.

ARTICLE III. SOLID WASTE MANAGEMENT FACILITIES

Sec. 38-57. Solid waste management facilities and nonprocessing transfer stations.

(a) The objective of this section shall be to establish better, more effective licensing requirements for solid waste management facilities and more efficient monitoring by the department. Thus, the licensee shall be responsible for all DEQ requirements (inter alia, the Louisiana Solid Waste Operator and Certification Program Act R.S. 37:3151 et seq.) and licenses and compliance with all the provisions of this article.

(b) No licensee shall operate any solid waste management activity or facility, or dispose of, or permit to be disposed, any solid wastes in a manner so as to degrade the soil, air or waters of the parish. Any licensee who causes any degradation of the soil, air or waters of the parish shall undertake whatever action is necessary to correct the degradation and restore said soil, air or waters to its condition prior to its degradation. (ERC, title 33, part VII, subpart 1, chapter 3, section 315, (P) and (L).)

(c) This article shall not apply to solid waste management facilities located within incorporated areas of the parish.

(d) The licensee shall be responsible for facilitating all environmental monitoring, including, but not limited to, water, soil and landfill gases, which are required by this article or the license conditions for the applicable solid waste management activity or facility, but not to exceed or duplicate any and all DEQ requirements.

(Code 1998, § 9-017.00; Ord. No. 11-2588, 9-1-2011)

Historical note—Promulgated by the department of natural resources, board of certification and training for solid waste disposal operators, L.R. 10:404 (May 1984), amended by the department of environmental quality, board of certification and training for solid waste disposal operators, L.R. 14:12 (January 1988), L.R. 20:656 (June 1994).

Sec. 38-58. Additional license requirements.

(a) *Real or personal property.* Unless otherwise provided by this article, no person shall cause, permit or allow real or personal property under their control to be used for solid waste management purposes, except at an operation for which a license has been granted by the department. The procedures for license issuance, denial, variance, revocation, suspension, renewal, administration and fees shall be governed by this article.

(b) *Licensee.* For applicable solid waste management activities or facilities a license shall be issued to the landowner, facility owner and facility operator or other persons responsible for compliance with the requirements of this article.

(c) *License term.* Unless otherwise provided by the parish government, each license granted pursuant to the provisions of this article shall be for a period of not more than one year, unless earlier suspended or revoked. The license period for solid waste management activities or facilities shall be from the date of issuance until December 31 for initial licenses and from January 1 through December 31, a period of one year, for license renewals. In regards to solid waste management facilities, solid waste disposal and diversion, solid waste transfer stations, process and nonprocess transfer stations; these types of facilities shall be licensed for a period of not more than two years for a temporary permit and not more than five years for a standard permit.

(d) *Annual report.* Notwithstanding, all solid waste management activities or facilities shall submit an annual report containing information, data, plans and reports as required by the department for the specific solid waste management activity or facility.

(Code 1998, § 9-018.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-59. Application and fees.

(a) *Application and fees.* An applicant for a license to engage in a solid waste management activity shall complete and submit to the department an application on a form provided by the department. The application shall not be considered complete until the department receives all applicable fees, all material required by this section, and all materials required by subsequent sections applying to the specific management activity for which a license is sought. Applicants

for a solid waste management activity or facility license shall not commence any operation or engage in any activity until the license application has been approved by the department; nor shall any operation commence until a license is issued. Application fees shall be as established by ordinance.

(b) *Written application.* A person who requests the issuance, modification or renewal of a solid waste management activity license shall complete, sign and submit to the department a written application.

(c) *Nonexclusive list of requirement.* The application shall contain the following nonexclusive list of requirements:

- (1) The name, address and telephone number of the facility owner, facility operator and landowner of the proposed solid waste management activity or facility for which the application is submitted.
- (2) The name, address and telephone number of the person who prepared the application.
- (3) A description including the location of the solid waste management activity or facility.
- (4) A general description of the wastes to be stored, processed or disposed of; anticipated quantity of wastes to be stored, processed or disposed of; and proposed methods for managing the wastes.
- (5) A general description of the proposed methods for managing run-off and run-on.
- (6) A topographic map, or other map, if a topographic map is unavailable, that shows the proposed solid waste management activity or facility and the area surrounding it for a distance of at least one mile in all directions. The map must be of sufficient scale to show all homes, buildings, lakes, ponds, watercourses, wetlands, dry runs, rock outcroppings, roads, areas for retention of surface water runoff and other applicable details as determined by the department. Wells must be identified on the map. An analysis or characterization of the waste may be required by the department. A topographic map, or other map if a topographic map is unavailable, is only required if an applicant is applying for solid waste disposal and diversion license.
- (7) Written proof that the municipal or township governing body in which said solid waste management activity or facility is located has considered the establishment of the solid waste management activity or facility with respect to zoning, impact on township/ municipal roads and other applicable regulations.
- (8) Where applicable, copies of insurance, inspections and haulers information (e.g., driver's license, driving record) and service records for all transportation vehicles.
- (9) Notification of any and all DEQ and/or agency violations within three years prior to submittal.

- (10) The facility must comply with the perimeter barrier and security requirements in LAC 33:VII.717.B., 3., A., B. as well as the provisions of this chapter.
 - (11) Demonstrate that an emergency action plan has been produced that contains, but is not limited to, the following: method to communicate with customers during extreme weather events (i.e., floods, hurricanes) so that waste is not allowed to be placed curbside or to accumulate and alternate disposal sites in case their primary site is temporarily or permanently closed and/or inaccessible so that waste does not accumulate.
 - (12) Requirements of the application may be modified or amended as needed by the department.
 - (13) Licenses shall be issued on the basis of anticipated performance of the licensee as gauged from the information furnished on the application. Licenses may be revoked at any time for cause, including, but not limited to, failure to perform under provisions of this article, violation of any term of the license, misrepresentation of failure to disclose any material fact required by this article.
- (d) *Signatures.* A license application must be signed as follows:
- (1) By the solid waste management activity or facility owner, landowner and operator.
 - (2) By a state registered engineer when a firm prepares the necessary reports and plans for a solid waste management activity or facility license.
- (e) *Certification.* A person who signs a license application shall make the following certification:
- "I certify under penalty of law that this document and all attachments were prepared under my direction or supervision in accordance with a system designed to ensure that qualified personnel properly gather and evaluate the information submitted. Based on my inquiry of the person who manage the system, or those persons directly responsible for gathering the information, the information submitted is, to the best of my knowledge and belief, true, accurate and complete."
- (f) *Application review.* Within 30 days of receipt by the department of a license application for a solid waste facility or activity, the department shall notify the applicant in writing whether the application is complete and if not, what items are needed to make it complete, and shall give an estimate for the delay, in writing. Submission of false information may constitute grounds for denying a license or license renewal, or suspension by revocation of an issued license.
- (g) *Other waste facilities.* Any solid waste management site, facility, or activity not otherwise provided for in this article must be licensed or exempted from licensure by the department and/or DEQ prior to construction or operation. (ERC title 33, part VII, subpart I, section 313.)

(h) *Additional or unnecessary data.* The applicant must submit reasonable additional data requested by the department. The department may waive a requirement for submitting certain information if such a waiver will not endanger the health or safety of the public.
(Code 1998, § 9-019.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-60. License conditions.

(a) *License conditions.* The department may impose conditions on any approvals or licenses that are issued by the department that may be necessary due to the characteristics of the waste, facility specific conditions or other nontypical management characteristics or conditions pertinent to the regulated solid waste management activity or facility, in order to protect public health, safety or the environment or as otherwise provided by law.

(b) *Change in facility construction activities or materials accepted.* No change within the parameters of the facility's license and permit shall be made in the construction activities or materials accepted at a solid waste management activity or facility, unless such change is first approved by the department, DEQ and the agency.

(c) *Financial assurance-contingency action and closure.* Unless otherwise provided by the department, issuance of any license pursuant to the provisions of this article shall be contingent upon the applicant furnishing to the department, financial assurance, in an amount to be set by the parish government, and naming the parish as obligee with sufficient sureties duly licensed and authorized to transact corporate surety business in the state as sureties. The condition of such financial assurance shall be that if the licensee fails to obey any of the requirements or do any of the acts required by this article in the operation of the solid waste management activity or facility, or if, for any reason, ceases to operate or abandons the solid waste management activity or facility, and the parish is required to expend any monies or expend any labor or material to restore the solid waste management activity or facility to the condition and requirements as provided by the article, the obligor and the sureties on its financial assurance shall reimburse the parish for any and all expenses incurred to remedy the failure of the principle to comply with the terms of the article, and the obligor and its sureties will indemnify and save the parish harmless from all losses, costs and charges that may occur to the parish because of any defaults of the obligor under the terms of their license to operate and the ordinances of the parish. The financial assurance shall be subject to cancellation by the surety at any time only upon giving 90 days prior written notice of cancellation to the department. The department may waive the financial assurance requirement should licensee provide the department with proof of financial assurance required by the state for the operation of the activity or facility and said financial assurance meets department requirements. The department reserves the right to require licensee to name the parish as an obligee on said financial assurance.

(d) *Licensed parties.* The department is specifically vested with the discretion to evaluate business operations and performance of any licensed party at any time.

(e) *Applicant for licensure.* The department is specifically vested with the discretion to evaluate business operations and performance of any applicant for licensure.

(f) *Waiver.* The department, at its sole discretion, may waive the financial assurance requirements under this section if the applicant, owner or operator demonstrates to the satisfaction of the parish that financial assurance is being provided to and has been approved by the parish for the subject solid waste activity or facility and shall address site specific requirements as set by the parish. (ERC, title 33, part VII, subpart 1, chapter 3, section 315, No. 4.)

(g) *Insurance.* An applicant shall furnish to the parish certificates of insurance in the amount of \$1,000,000.00 of general liability insurance, issued by an insurer duly licensed within the state. The parish reserves the right to require additional certificates of insurance issued by insurers duly licensed within the state in types and amounts to be established by the parish based on the type of said solid waste activity or facility under consideration. The licensee shall provide 30 days written notice to the department should any insurance policy be canceled before the expiration date of said policy.

(h) *Continuation of expired license.* A person and/or entity who holds an expired license and who has submitted a timely and complete application for reissuance of the license may continue to conduct the licensed solid waste management activity until the department takes action on the application if the department determines that there is compliance with the following nonexclusive criteria:

- (1) The licensee is in compliance with the terms and conditions of the expired license and the parish solid waste management ordinance;
- (2) The department, through no fault of the licensee, has not taken action of the application on or before the expiration date of the license;
- (3) The licensee is deemed responsible as unilaterally determined by the department; or
- (4) The licensee is deemed responsive to department orders, as unilaterally determined by the department.

(i) *Compliance.* Unless otherwise provided for in this article, applicants, owners and operators of proposed or licensed solid waste management activities or facilities shall comply with title 33, part VII et seq. of the Environmental Regulatory Code (ERC). The department may waive certain requirements provided said waiver will not endanger the environment or the safety or health of the public.

(j) *Issuance.* The department may issue owners or operators of the following solid waste management facilities or activities a parish solid waste management license upon notification of the proposed activity.

(k) *Validity.* A general solid waste management license will remain valid only so long as the facility or activity is in compliance with applicable state statutes, solid waste management rules and the parish solid waste management chapter.

(l) *Eligibility.* A solid waste management owner/operator eligible for consideration under this section shall, upon request by the department, submit a form provided by the department notifying the department of its proposed activity. (ERC title 33, part VII, subpart 1, chapter 5, section 503-A.)

(m) *Compliance.* Any and all permittees found not to be in compliance with any section of this or any other applicable parish ordinances shall be penalized for each and every offense in accordance with section 38-186, enforcement and penalties.
(Code 1998, § 9-020.00; Ord. No. 11-2588, 9-1-2011)

Secs. 38-61—38-78. Reserved.

ARTICLE IV. COLLECTION AND STORAGE

Sec. 38-79. Solid waste collection and storage.

(a) *Solid waste accumulation.* Except as otherwise allowed by this article, owners and managers of every property shall be responsible for maintaining all open areas free of improperly stored solid waste accumulation.

(b) *Commonly accepted activities.* Nothing in this subsection shall unreasonably restrict commonly accepted activities of farms and duly established automobile, scrap iron, metal recyclers or salvage operations that maintain such operations in an orderly and nuisance free manner.

(c) *Storage facilities and containers required.* Every residential property owner shall have adequate solid waste storage facilities or containers. Only those items (i.e., white goods, tree limbs) larger than a standard sized facility of container shall be allowed to be placed loosely or upon the ground prior to collection. Those items requiring special handling shall be placed adjacent to the service area, but not in the street, so as to block the flow of traffic.

(d) *Waste materials too large for containers.* Waste objects too large or otherwise unsuitable for storage containers shall be stored in a pollution and nuisance free manner.

(e) *Provided facilities required to be used.* Property owners shall cause occupants and employees to store solid waste for removal in the solid waste storage facilities or containers provided by said property owner or by licensee if a commercial customer. The property owner shall not permit solid waste to be placed in locations or in a manner that the solid waste may be scattered by wind, water, animals or insects.

(f) *Frequency of container service.* Every property owner shall cause container contents to be removed and deposited at a permitted disposal facility at a frequency so as to not create a nuisance. Solid waste shall not be stored on public or private property for more than two weeks without the written approval of the department. Solid wastes suitable and stored for recycling may be contained if stored in an acceptable manner that avoids risk to public safety and otherwise complies with this article.

(g) *Storage construction.* All solid waste storage containers shall be constructed of rust and impact resistant materials with covers that deter rodent and insect entry. The containers shall be equipped with tight-fitting covers that shield the container from the entrance of precipitation, rodents, insects and vermin.

(h) *ANSI standards.* As described in volume 42, No. 113, pages 30296 to 30302 of the federal register, refuse bins having an internal volume of one cubic yard or greater shall be constructed or retrofitted to meet American National Standards Institute (ANSI) Standard (Z 245.3-1077) for the stability of refuse bins.

(i) *Single use containers.* Single use containers not meeting the above requirements may be used for yard waste provided the container is:

- (1) Constructed of moisture resistant materials.
- (2) Adequately designed to contain the waste.
- (3) Closed to resist the entrance of water.
- (4) Loaded no more than 55 pounds.
- (5) Strong enough to allow collection and loading by hand.

(j) *Container maintenance.* Solid waste containers shall be maintained in a nuisance free condition by the owner. When supplied by a property owner or commercial hauler, the containers shall be maintained in good repair.

(k) *Container compliance.*

- (1) Any commercial hauler finding solid waste containers in use that appear not to be in compliance with this article shall report the container's location to the department.
- (2) The department shall investigate complaints about solid waste containers and if the container is found not in compliance a notice shall be attached to the container as provided in this section. If the department does not investigate the complaint, the department shall mail to the container's owner a notice that a complaint was received regarding the container. The notice shall describe this article's requirements for a solid waste container. The owner shall report their actions to the department within ten days of the notice date regarding the corrections they have made. If the owner does not make

this report to the department within ten days, the department shall proceed with an investigation. If the container is found to be in violation of this article, a notice shall be attached to the container stating substantially as follows:

Signed by: on behalf of the St. Tammany Parish Department of Environmental Services.

Date of Notice: _____

Warning: This notice shall not be removed except by action of the St. Tammany Parish Department of Environmental Services.

- (3) The notice attached to the container shall not be removed, except by action of the department.
- (4) Any public costs associated with investigation and removal of the container may be charged as a fee to the owner of the container or as an assessment against the property as provided by law.

(Code 1998, § 9-025.00; Ord. No. 11-2588, 9-1-2011)

Notice—This solid waste container does not comply with the parish government solid waste ordinance and this container shall be removed by the owner within ten calendar days. The licensed solid waste hauler who services this property is hereby ordered by the parish department of environmental services not to empty this container.

Sec. 38-80. Transfer of solid waste.

Solid waste shall not be transferred to another property or solid waste container, except with the written consent of the owner, or under contract of services between said owner and a licensed hauler.

(Code 1998, § 9-026.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-81. Solid waste burning prohibited.

The burning of solid waste shall be prohibited, except as allowed at a permitted solid waste facility.

(Code 1998, § 9-027.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-82. Hazardous waste storage.

Hazardous wastes shall be stored in leak-proof containers which are adequately labeled, in a safe location and in compliance with the regulations of federal, state and local governments, and their regulatory agencies.

(Code 1998, § 9-028.00; Ord. No. 11-2588, 9-1-2011)

Secs. 38-83—38-107. Reserved.

ARTICLE V. SOLID WASTE HAULING AND TRANSFER**Sec. 38-108. Collection for hire and applicability.**

(a) *Collection of solid waste for hire.* No person or entity may collect municipal solid waste for hire without a license from the department of environmental services.

(b) *Applicability.* This section shall only apply to all persons and/or entities seeking a license to collect and transport municipal solid waste, at the point of generation or that transfer or otherwise transport municipal solid waste to a licensed disposal or processing facility. In addition, this section shall only apply to the unincorporated areas of the parish.
(Code 1998, § 9-036.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-109. Commercial solid waste hauling and transfer.

(a) *Collection of solid waste for hire.* No person, entity or corporation may collect commercial solid waste for hire without a license from the department of environmental services.

(b) *Applicability.* This section shall only apply to all persons, entities and/or corporations seeking a license to collect and transport commercial solid waste, at the point of generation or that transfer or otherwise transport commercial solid waste to a licensed disposal or processing facility. In addition, this section shall only apply to the unincorporated areas of the parish.
(Code 1998, § 9-036.1; Ord. No. 11-2588, 9-1-2011)

Sec. 38-110. Additional licensing requirements.

In addition to the applicable requirements as stated above, an applicant shall also submit the following nonexclusive information:

- (1) A list of all vehicles, including satellite vehicles, to be used for waste collection and transportation, specifying make, model and year for each vehicle; each vehicle's rated capacity, tare weight, license plate number, state issued registration number, copy of all relevant state and/or parish inspection decals, including, but not limited to, brake inspection certifications, and the designated facility number exclusively issued for that specific vehicle. Any vehicle and/or trailer and/or other hauling device employed by the licensee must separately and collectively meet all requirements specified herein, including, but not limited to, weight limitations and state and parish inspection requirements. It is the responsibility of the licensee to maintain all their equipment, hauling devices and vehicles in a safe, nonhazardous manner that does not endanger the public nor the environment.
- (2) The total number of commercial accounts in the parish, the total number of residential accounts in the parish, the days of the week waste is collected for each city and township or subdivision or any other residential dwelling in the parish.
- (3) A description of the company's recycling and other waste abatement activities.

- (4) Certificates of insurance as may be required by the department.
 - (5) Any and all additional information pertaining to waste management requested by the department, if deemed necessary, including, but not limited to, a copy of the operator's license and driving records for the past three years; emergency management and/or spill remediation plan; and OSHA compliance assessments.
- (Code 1998, § 9-037.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-111. Equipment and operation requirements.

The following are equipment and operation requirements:

- (1) Each vehicle or other conveyance used by a hauler for the collection or transportation of waste shall be easily cleanable, leak-proof and be covered with metal, canvas, a fish-net type material made for this purpose so long as such covering does not permit nuisances or debris or liquid from falling, blowing or otherwise exiting the vehicle until disposal.
 - a. Modifications to any vehicle, trailer or other hauling device beyond the manufacturer's specification must be approved by the department prior to such modifications by the licensee.
 - b. In the case of a modified truck or trailer, no such approval will be granted, unless said licensee or proposed hauler alters or modifies an existing truck beyond the manufacturer's safety specifications, or if such alterations or modifications endanger public safety or the environment.
 - c. The following shall be applicable to Class A transportation/conveyance vehicles:
 - 1. No truck or trailer will receive a DES license if said truck or trailer being altered or modified has pliable sidewalls (used to contain solid waste) that are flimsy in design and fail to enclose all solid waste being stored or transported on any roadway within the parish. Such design and modification shall be constructed of enclosed heavy gauged diamond expanded metal mesh sidewalls, front and rear walls and roof. The rear wall shall have an open door or double door design that is easily closed and opened during daily operation as well as at least one sidewall with an open door access. All doors shall be securely closed and locked before entering onto any roadway within the parish to prevent any nuisance or debris from falling, blowing or otherwise exiting the vehicle until reaching the disposal facility. This box, cage or container shall not be larger than seven feet wide, by seven feet tall, extending from the truck or trailer frame upward (not exceed ten total feet from the pavement to the top of box, cage or container rail) and not longer than 17 feet long from rear of truck cab to rear bumper. This box, cage, container or conveyance shall not store, hold or contain more than 5,500

pounds of trash, debris or solid waste. The base of this box, cage or container shall be constructed of solid metal plate or reinforced fiberglass that shall be leak-proof by means of a rubber seal fastened, attached or affixed by any means necessary at the juncture where the inner walls and base meet to prevent any liquid from falling, leaking or exiting the vehicle. All equipment shall be cleaned at least once per week or at other appropriate and regular scheduled intervals to prevent the buildup of nuisance hazardous pollution, scum deposits and unhealthy foreign matter from falling onto public roads and/or infecting the general population. Vehicles, containers and conveyances shall be maintained in good repair.

2. Regardless of any and all modifications to either the trucks or the trailer, any and all responsible safety precautions must be employed by said licensee, such as ensuring that the altered or modified sidewalls are properly anchored or secured to minimize potential harm to employees, the public, and to avoid spills.
 3. All alterations and/or modification beyond manufactured specifications must meet the requirements of this article.
 4. Vehicle bodies or other conveyances used for the collection and transportation of garbage, rubbish or any other solid waste materials containing putrescible matter shall be enclosed, weather tight, leak-proof, constructed of durable metal and/or other approved acceptable material, and easily cleanable.
 5. All solid waste collection equipment, vehicles and conveyances must meet state department of transportation and development and state department of environmental quality minimum standards for solid waste collection. Additionally, each service provider must possess or show proof of application for a state department of environmental quality permit number.
- (2) Decals may be issued by the department for each licensed vehicle or conveyance; these shall be displayed in a conspicuous place on the left side of the cab. Designated facility numbers shall be displayed as directed by the designated facility. The licensee must maintain all decals, labeling, and license plates so that they are readily visible and legible at all times. The licensed hauler shall contact the department by telephone or in writing if it finds it necessary to use a vehicle other than one included in its original or amended license application.
- (3) The business name and telephone number of the licensee shall be easily visible and be proficiently printed or painted (magnetic decal sign acceptable) in bold legible characters minimum height of three inches and in proportional width. Lettering shall be done in color which will contrast sharply with the background upon which it is painted and shall be placed in such a position on both sides of all vehicles, containers and

conveyances used by the waste hauler to store, collect or transport waste generated within the parish, as to be easily seen by anyone wishing to identify the ownership of said vehicle. These markings shall be kept clean, clear and distinct at all times.

- (4) The department may inspect and approve all waste storage, collection and transportation containers, vehicles and conveyances if deemed necessary by the department to protect public health, safety and the environment. Any new applicant must present his vehicle at the time of initial application for permit and each renewal date thereafter to the department of environmental services for inspection. Each vehicle must meet all existing regulatory requirements imposed on any such vehicle by any federal, state and/or local governing body.
 - (5) The licensee shall not allow waste to remain or be stored in any collection or transportation vehicle in excess of 48 hours, except in the event of an emergency such as inclement weather, equipment breakdown or accident. The department may approve storage for greater than 48 hours, on a case-by-case basis, for reasons other than emergencies, provided such storage will not adversely affect public health, safety or the environment.
 - (6) The licensee shall be responsible for the cleanup of any waste that must be discharged from a licensed hauling vehicle in an emergency. The licensee shall cleanup said litter or waste within 48 hours of the occurrence. An emergency management and spill remediation plan must be provided to the department.
 - (7) The licensee shall not impose a greater charge on residents who recycle and/or engage in composting than on residents who do not recycle and/or engage in composting.
- (Code 1998, § 9-038.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-112. Nonprocessing transfer stations.

If the DEQ requires that a license and/or permit be obtained from the DEQ to construct, establish, maintain or operate a nonprocessing transfer station, the applicable license and/or permit shall first be obtained from the DEQ. The application to the department will not be processed or approved until the license and/or permit required by the DEQ has been obtained. The permit fee, set by resolution of the parish government, shall accompany the permit application. The application must meet the following requirements and all other rules, regulations and ordinances determined to be applicable thereto:

- (1) The following information shall be submitted as part of the application. If any of the following information is also required by the DEQ as part of its nonprocessing transfer station permitting process, then the department shall accept said information as a sufficient substitute:
 - a. The application for the license shall contain a site-plot plan, engineering plans and an operational report.

- b. The site-plot plan shall have a scale of one inch equal to not more than 50 feet and have a vertical contour interval not greater than five feet. The site-plot plan shall include all land within 1,000 feet of property of the proposed facility. The following shall be included as a minimum:
 - 1. Location, size and ownership of the land upon which the station will operate.
 - 2. City and/or township boundaries.
 - 3. North arrow, section line, section number.
 - 4. Water of the state, floodplains and flood ways.
 - 5. Land use and zoning within a 1,000 foot radius of the property lines.
 - 6. Adjacent residences and property ownership.
 - 7. Roads and railroads.
 - c. The following engineering plans shall include as a minimum:
 - 1. Roads, screening, fencing gates, dimensions of buildings, dimensions of storage areas, loading and unloading zones, location of existing utilities.
 - 2. Dikes, berms, walls, dividers.
 - 3. The department may request a report on the subsurface condition at the proposed facility. The department may request data that is adequate to indicate suitable soils, geological and groundwater information at the site. The above data will be detailed on cross-sections, the location of which will be indicated on the site plan.
 - d. The operations report shall include as a minimum:
 - 1. Complete plans and specifications, proposed operating procedures for the transfer station, place of ultimate disposal and equipment to be used.
 - 2. The composition, thickness, preparation or compaction of the impervious lines, if used.
 - 3. The name of the local fire department. Describe the arrangements that have been made and will be made with the local fire department to ensure the safety of fire response personnel and to minimize pollution which might otherwise occur as a result of fire or firefighting efforts.
 - e. New facilities that do not have a building permit and site plan approved prior to the adoption of Ordinance Calendar No. 4485 shall comply with the buffer, setback and all other applicable requirements of the zoning district in which the facility is to be located.
- (2) The following shall be established and maintained at the nonprocessing transfer station site:
- a. A sign, subject to the approval of the department, shall be posted on the premises indicating the station name, the schedule of days and hours it is open to the public

and prices for use. The facility shall have control measures that prevent unauthorized ingress or egress. During operating hours, each facility entry point shall be continuously monitored, manned, or locked. During nonoperating hours, each facility entry point shall be locked.

- b. Roads on the premises shall be all-weather surfaced. The premises shall be constructed and landscaped in such a manner as to be aesthetically pleasing in appearance. Each tipping area shall be constructed and operated to prevent litter (e.g., solid waste and leachate) from leaving the tipping area. This area shall be constructed of sufficiently low permeable material (i.e., concrete or asphalt) to prevent soil and groundwater contamination.
 - c. Adequate sanitary facilities and shelter for personnel shall be provided on the premises.
 - d. Records approved by the department shall be maintained indicating the type and quantity of solid waste passing through the nonprocessing transfer station. All facility records shall be maintained and available for inspection within 24 hours of request. These records shall be maintained for the life of the facility and shall be retained for at least three years after closure.
 - e. The operator of the facility shall implement an inventory system and segregation procedure sufficient to enable identification of the sources of all containers in storage at any time.
 - f. The nonprocessing transfer station shall be so equipped, situated, operated and maintained so as to minimize interference with other activities in the area.
- (3) A nonprocessing transfer station permittee shall comply with the following regulations:
- a. The nonprocessing transfer station shall be cleaned daily at the end of each day by an appropriate method to minimize odors and nuisance conditions.
 - b. The premises, entrances and exits shall be maintained in a clean, neat and orderly manner at all times.
 - c. All incoming and outgoing traffic shall be controlled by the licensee in such a manner as to provide orderly and safe entrance and exit. The facility shall maintain site access roads or waterways in a manner that shall meet the demands of the facility and is designed to avoid, to the extent practicable, congestion, sharp turns, obstructions or other hazards conducive to accidents. The surface roadways shall be adequate to withstand the weight of transportation vehicles.
 - d. No alterations or additions to the disposal system will be made without the written consent of the department. The owner/operator of a nonprocessing transfer station may construct a drop-off area at the nonprocessing transfer station site such that certain activities can be conducted. No industrial waste shall

be accepted, and materials shall be managed in accordance with subsections (1), (2) and (3) of this section. These areas are intended for the use of commercial facilities and residential solid waste. These drop-off areas shall be constructed by means of a commercial steel or metal warehouse type building with concrete floors to prevent any solid waste or residual leakage from solid waste to enter the soil or groundwater. There shall be a preventive drainage system in place to capture any nuisance liquid run off. No commercial or residential solid waste or remnants thereof will be placed, stored, or allowed to come in contact with the soil, earth, dirt, gravel or groundwater. Collection and storage of the following wastes are allowed, provided it does not become a nuisance, a health hazard or a detriment to the environment as determined by the administrative authority:

1. White goods;
 2. Presorted yard trash; or
 3. Household recyclable materials.
- e. Records approved by the department shall be maintained indicating the type and quantity of waste passing through the non-processing transfer station. Each quarter the licensee shall submit reports indicating the type and quantity of waste passing through the transfer station to the department.
 - f. All unloading of solid wastes from contributing vehicles shall be conducted in such a manner as to eliminate odor and litter outside the station. Odors shall be controlled by the best practicable means.
 - g. Solid wastes shall not remain in the pick-up and/or non-processing transfer station longer than 48 hours.
 - h. No processing or disposal shall occur at a non-processing transfer station.
 - i. Discharges from the facility shall be controlled and shall conform to all applicable state and federal laws.
 - j. The building wherein the transfer occurs must be capable of being fully enclosed.
 - k. All doorways (entrance and exits for vehicles and personnel) must be closed when not in active use and must be closed when the station is not in operation.
 - l. All streets and roadways within the property must be hard surfaced (paved).
 - m. The station must have an independent licensed pest control service under contract. The contract must provide for biweekly inspections and treatment for rodent and insect control as required.
 - n. The station property must comply with the buffer and setback requirements provided for in the Unified Development Code-Volume I (Zoning), section 5.36 SWM-1 Solid Waste Management District.

- o. The property must be fully enclosed with a fence of not less than eight feet high. The gate shall be closed and locked at all times when the station is not in operation to prevent unauthorized ingress. The facility must have control measures that prevent unauthorized ingress or egress during business hours.
- p. There should be no access to the general public, except during hours of normal operation. Such access must be monitored and controlled at all times, with adequate safeguards provided to prevent accidents, injury and the intentional or unintentional discard of waste and litter outside the transfer building.
- q. All transfer operations and vehicle wash down must take place within the building designated for that purpose.
- r. At least one employee shall be onsite during operating hours, which employee shall be responsible for ensuring that the site is kept clean, free of litter and to wash down the transfer building on a daily basis.
- s. A containment system shall be installed and maintained to contain all wash down water and prevent runoff.
- t. The hours of operation shall be limited to 6:00 a.m. to 6:00 p.m., Monday through Saturday.
- u. There shall be no processing, sorting or recycling of garbage on site.
- v. All collection and transport vehicles must be secured in a manner that will prevent any material, solid or liquid, from leaving the vehicle while the vehicle is in motion.
- w. The department of engineering shall determine if a formal traffic impact analysis is required.
- x. All collection and transport vehicle may be parked outside the transfer building overnight only after being thoroughly washed down.

(Code 1998, § 9-039.00; Ord. No. 11-2547, 7-7-2011; Ord. No. 11-2588, 9-1-2011)

Secs. 38-113—38-137. Reserved.

ARTICLE VI. DISPOSAL AND DIVERSION

Sec. 38-138. Solid waste disposal and diversion.

(a) It is unlawful to operate a solid waste landfill, recycling facility, composting facility, construction and demolition debris landfill and/or co-composting facility without first obtaining a DEQ permit pursuant to title 33 of Environmental Regulatory Code, part VII, and a parish solid waste management license. It shall also be unlawful to operate any facility that requires a license or permit to be issued by the department of environmental services without first obtaining the required license or permit.

(b) The department shall encourage lawful and sustainable waste diversion techniques (e.g., recycling, composting) where economically viable and publicly supported.

(c) Any facility that is required to obtain a license or permit from the department of environmental services, including a recycling facility, composting facility, construction and demolition debris landfill and/or co-composting facility shall file a license application that meets all of the DEQ permit requirements along with the following:

- (1) A current map or an aerial photograph of the area showing the land use and zoning within one-quarter mile of the facility. A location inset map shall be included.
- (2) A plot plan including the legal description of the site of the facility; a description of the immediate adjacent area showing dimensions, present and planned pertinent features, including, but not limited to, roads, buildings, fencing and other applicable details; and the general topography. The scale of the plot plan shall not be greater than 200 feet per inch.
- (3) A report shall accompany the plans indicating:
 - a. Area of the site in acres;
 - b. Owner of the site and proposed permittee;
 - c. Individuals responsible for actual operation and maintenance of the recycling facility and attending operating procedures;
 - d. Sanitary landfill or other waste facility where any residue will be transferred, the owner, hours of operation and DEQ permit number;
 - e. Type and amount of equipment to be provided for the operation of the recycling facility;
 - f. Population and geographical areas to be served by the proposed facility;
 - g. An estimate of materials to be delivered to the facility;
 - h. Proposed storage capacity on-site;
 - i. Proposed marketing plan for materials;
 - j. Proposed access routes within a one-mile radius of the proposed facility;
 - k. As recommended by the department, suitable soils, geologic and groundwater information will be submitted;
 - l. Local government approval of the facility site;
 - m. Stormwater management plan; and
 - n. Emergency management plan, especially in case of a fire.
- (4) Where applicable, a DEQ approved permit.

- (5) Any and all other information required by any applicable provision of this article and the department.

(Code 1998, § 9-043.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-139. Operating requirements.

The following shall be established and maintained at the recycling facility site:

- (1) A sign, subject to the approval of the department, shall be posted on the premises indicating the facility name, schedule of days and hours it is open to the public, and prices for use.
- (2) Records approved by the department shall be maintained indicating the type and quantity of materials passing through the facility.
- (3) The facility shall be so situated, equipped, operated and maintained so as to limit interference with other activities in the area.
- (4) The premises, entrances and exits shall be maintained in a clean, neat and orderly manner at all times.
- (5) All incoming and outgoing traffic shall be controlled by the permittee in such a manner as to provide orderly and safe ingress and egress.
- (6) All unloading of materials from contributing vehicles shall be conducted in such a manner as to eliminate odor and litter outside of the facility.
- (7) Such other regulations as may be established by the parish government and/or the department in order to protect the health, safety and welfare of the public and the environment.
- (8) All processing shall occur in an enclosed area, or in a manner that reduces the possibility of nuisances and/or vectors.

(Code 1998, § 9-044.00; Ord. No. 06-1417, 11-2-2006; ERC, title 33, part VII, subpart 2, ch. 103; Ord. No. 11-2588, 9-1-2011)

Secs. 38-140—38-161. Reserved.

ARTICLE VII. SPECIAL ISSUES

Sec. 38-162. Scavenging, waste tires and white goods.

- (a) The scavenging or removal of recoverable or recyclable materials from any facility or container, including, but not limited to, residential containers, in the parish without the written consent of the owner or operator shall be prohibited.

(b) The disposal of waste tires in the land is prohibited. This does not prohibit the storage of unprocessed waste tires at a collection or a processing facility. Waste tires shall be managed in full compliance with the provisions of this article regardless of number. Waste tire management shall include, but is not limited to, the generation, collection, storage, transportation, processing, reuse, recycling, incineration and/or disposal of waste tires, either whole or in part. Waste tires shall be disposed of according to the requirements of title 33, part VII, ch. 105 of the Environmental Regulatory Code (ERC).

(c) A person and/or entity may not place major appliances, or white goods in mixed municipal solid waste, or dispose of major appliances, or white goods in or on the land. It is further prohibited to store or abandon junk, wrecked or used automobiles, or motor vehicles, or any other junk, discarded or abandoned machinery of metal, tin or other discarded items on a lot of any subdivision approved by the parish for residential use, or on any neutral ground, alley, sidewalk space or roadway within the unincorporated areas of the parish.

(d) A person and/or entity may not place batteries and/or fluorescent lights in mixed municipal solid waste, or dispose of batteries and/or fluorescent lights in or on the land.

(e) A yard waste compost site not exceeding 300 cubic feet in size may be allowed on a land parcel without a permit or license under this article if the site is properly managed to prevent nuisance or health and safety problems. Said compost site may utilize grass clippings, leaves, and brush limbs. No household shall make a nuisance of their yard waste compost site regardless of size.

(Code 1998, § 9-050.00; Ord. No. 496, Bk. 6, p. 459; Ord. No. 11-2588, 9-1-2011)

Sec. 38-163. Landfill.

Any and all landfill facilities must comply with title 33, part VII, ch. 7, subchapter B, section 711 of the Environmental Regulatory Code (ERC).

(Code 1998, § 9-051.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-164. Unauthorized dumping.

It shall be a violation of this article for any person and/or entity to dispose of solid waste collected within the parish at any place, regardless of location, except at a subtitle D—Landfill site or facility authorized by this article and/or DEQ.

(Code 1998, § 9-052.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-165. Unlicensed open dumps.

It shall be a violation of this article for any person to operate an open dump. Waste placed in open dumps or illegally disposed of shall be collected and transported to a licensed waste facility for proper disposal by the property owner or other person determined by the department to be responsible for the illegal activity. The responsible party shall notify the department

at least 48 hours prior to commencement of excavation/removal activity at the subject site. A receipt or other documentation approved by the department, which indicates satisfactory and legal disposal of the subject solid waste shall be submitted to the department no later than 14 days after disposal. Any licensee that utilizes an unlicensed open dump, even if such material does not originate in the parish, will be subject to the loss of said license for not less than three years. Furthermore, the licensee shall clean up said area within 30 days and shall be subject to a fine of up to \$10,000.00 per incident.

(Code 1998, § 9-053.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-166. Open burning or illegal incinerators.

(a) *Open burning or illegal incinerators.* It will be illegal for any entity, corporation, firm, association or individual to burn or release into the air or water of the parish any of said hazardous wastes or byproducts. Except that said activity within the boundaries of the parish Fire Protection District No. 1 shall be governed by section 26-2.

(b) *Areas of special environmental concern.* The department will remain mindful of areas of special environmental concern, which means a flood hazard area or floodplain, wetland, surface or subsurface drinking water source in the parish. All land below the ten-foot contour line shall be presumed to be a flood hazard area or wetland unless the applicant provides satisfactory proof to the contrary.

(Code 1998, § 9-051.00; Ord. No. 82- 502, 12-16-1982; Ord. No. 85-381, 4-18-1985; Ord. No. 91-1412, 3-21-1991; Ord. No. 11-2588, 9-1-2011)

Editor's note—See Fire Prevention and Protection chapter of the parish Code of Ordinances for Fire Protection District No. 1. Nonlicensed facilities and haulers in existence on the effective date of this article shall be reported to the department and conform to the provisions of this article. A record, including a map location of any area used for land disposal and/or service area, shall be filed at the office of the department. Nonlicensed operations shall be terminated within one year of the effective date of the ordinance from which this article is derived, except as authorized by the department, or brought into compliance with this article.

Secs. 38-167—38-185. Reserved.

ARTICLE VIII. ENFORCEMENT, PENALTIES AND FEES

Sec. 38-186. Enforcement and penalties.

(a) *Enforcement.* Provisions of this article shall be enforced as per law, including, but not limited to, section 1-9 and the administrative hearing officer.

(b) *Misdemeanor.* Any person within the parish who violates this article, or who shall permit such a violation to exist on the premises under his control, or who shall fail to take action to abate the existence of the violation, shall be guilty of a misdemeanor, and upon conviction

thereof shall be punishable by a fine of not more than \$500.00 or by imprisonment of not more than 30 days, or both such fine and imprisonment. A separate offense shall be deemed committed upon each day during or on which a violation occurs or continues.

(c) *Equitable relief.* In the event a violation exists or there is a threat of violation of this article, the department, or their designees, may take appropriate actions to enforce this article. Such action may include application for injunctive relief, action to compel performance, including revocation of license or other appropriate action in court if necessary to prevent, restrain, correct or abate such violations or threatened violations. Such remedies are cumulative in nature.

(d) *Civil action costs.* If a person fails to comply with the provisions of this article, the parish may recover all costs and a reasonable attorney fee incurred for corrective action in a civil action in a civil or administrative action. Such costs and attorney fee, together with any fine or penalty, shall be filed as a lien or mortgage as per law.

(e) *Citation.* The department, or their designees, may issue citations for violations of this article. The citation shall be issued to the person charged with the violation, or in the case of a corporation, to the supervisor at the site of the violation or any officer or agency expressly implied authorized to accept such issuance.

(f) *Inspection.* All property affected by this article shall be subject to inspection by the department, or their designees, in accordance with this article. No person shall refuse to permit the department, or their designees, to inspect any premises or interfere with or resist the department, or their designees, in the discharge of their duty to protect the public health and safety and the protection of the environment.

(g) *Abatement.* The parish government, upon recommendation of the department, may declare a violation of this article to be a public nuisance and order abatement to be made initially at parish expense. The department shall present an itemized statement for corrective action expenses to the owner of the real property where such abatement has been conducted. Such expenses for corrective action may also be recovered in civil or administrative action.

(h) *Nuisance.* It shall be unlawful and a public nuisance for any person to park, drive, or permit to be parked or driven any vehicle on any public way, street, avenue, alley, roadway, or other public property while engaging in the collection, removal, transportation or disposal of solid waste without first having been issued a waste hauler's license or while such a waste hauler license is suspended or revoked.

(i) *Administrative hearing officer.* The parish administrative hearing officer shall have concurrent jurisdiction over any violation of this article, pursuant to section 2-542 et seq.

(j) *Justice of the peace.* A justice of the peace shall have concurrent jurisdiction over violation of this article, as per law. In addition, a constable may issue summons and serve subpoenas anywhere in the parish all in accordance with R.S. 13:2586, the ordinances of this

parish, and this Code. Prosecution of solid waste violations and compensation in criminal cases of a justice of the peace and constable shall be in accordance with R.S. 13:2587.1 and 13:2589. All fines collected by the justice of the peace courts for litter violations pursuant to R.S. 13:2587.1 (Prosecution of litter violations in justice of the peace courts) shall be paid to the parish pursuant to state law. The parish shall reimburse the justice of the peace court which handles the litter violations for the time spent and expenses incurred pursuant to R.S. 13:2589(B). This reimbursement shall consist of 50 percent of the fines collected by the parish from the justice of the peace courts.

(Code 1998, § 9-060.00; Ord. No. 89-1148, 9-21-1989; Ord. No. 01-0284, 3-1-2001; Ord. No. 11-2588, 9-1-2011)

Sec. 38-187. Fees.

(a) Fees, rates and other charges pursuant to this article and applicable law shall be set, from time to time, by ordinance of the parish government. License holders will be notified in writing of any proposed changes to fees, rates and charges 30 days prior to the public hearing where said changes are to be discussed.

(b) A solid waste license fee shall be paid with the initial application and annually thereafter by the applicant as a condition for license renewal. Nonpayment of the fees shall be grounds for denial of application or renewal. All other fees and charges as set by the parish government upon the recommendation of the department shall be paid in a timely manner as prescribed.

(c) Fees, rates and other charges pursuant to this article may be billed in a manner determined by the department.

(d) Solid waste facilities, transportation vehicles or commercial haulers vehicles owned and operated by the parish, or its incorporated cities or townships, shall fulfill all requirements of this article, except they shall not be required to pay license or permit fees authorized by this article.

(e) The department is authorized to collect up to \$1.00/ton on every ton tipped at any and all transfer stations, construction and debris facilities and permitted landfills operating within the parish. It is the responsibility of every owner and/or operator of a transfer station to remit payments for this tipping fee along with volumes each and every month. Said tipping fee shall be used to fund the implementation, oversight and enforcement functions associated with this article. The department reserves the right to establish the initial date from which said tipping fee will begin to be collected, the exact amount to be collected, and the method of collection, all by ordinance.

(f) All other fees and charges assessed herein shall be used to fund the implementation, oversight and enforcement functions associated with this article.

<i>License Type/Period</i>	<i>License Fee</i>
Solid waste hauling 1 year	\$100.00, plus \$15.00 each additional vehicle
Nonprocessing transfer station 5 years	\$1,000.00
Solid waste disposal and diversion 5 years	\$1,000.00

(Code 1998, § 9-065.00; Ord. No. 06-1417, 11-2-2006; Ord. No. 07-1492, 1-4-2007; Ord. No. 11-2588, 9-1-2011)

Secs. 38-188—38-212. Reserved.

ARTICLE IX. WASTE REDUCTION PROGRAM

Sec. 38-213. Waste tax credit.

(a) The parish may establish a waste reduction tax credit program. The waste reduction tax credit program may allow commercial, retail and food service establishments to implement a waste reduction plan that effectively reduces the amount of waste and litter either on-site and/or leaving the subject site.

(b) A participating commercial, retail or food service establishment shall meet all program standards to be developed by the parish in order to receive program accreditation. The participant shall be required to continue accreditation in order to receive a tax credit.

(c) A participant shall retain records of all verifiable expenses associated with program implementation. Verifiable expenses may include, but not be limited to, surveillance equipment, trash receptacles, personnel dedicated to waste reduction/litter abatement and public relations campaign concerning waste/litter reduction efforts by the participating entity.

(d) The participating entity may submit expense records associated with program implementation and request a credit and/or reduction in parish ad valorem taxes for the corresponding amount.

(Code 1998, § 9-070.00; Ord. No. 11-2588, 9-1-2011)

Secs. 38-214—38-234. Reserved.

ARTICLE X. OTHER TERMS AND CONDITIONS

Sec. 38-235. Dispute and litigation.

Any dispute or litigation involving this article shall be determined through any proceeding filed with the 22nd Judicial District Court for the parish; venue and jurisdiction shall be specifically with this district.

(Code 1998, ch. 9, art. X(A); Ord. No. 11-2588, 9-1-2011)

Sec. 38-236. Discrimination.

Licensee agrees to comply with the Americans with Disabilities Act of 1990 and any current amendments thereto. All individuals shall have equal access to employment opportunities available to a similarly suited individual. The licensee agrees not to discriminate in its employment practices, and will render services under this contract without regard to race, color, religion, sex, national origin, veteran status, political affiliation or disabilities. Any act of discrimination committed by licensee, or failure to comply with these statutory obligations when applicable shall be grounds for termination of this contract. Licensee agrees to abide by the requirements of all local, state and/or federal law, including, but not limited to, the following: titles VI and VII of the Civil Rights Act of 1964, as amended by the Equal Opportunity Act of 1972, Federal Executive Order 11246, the Federal Rehabilitation Act of 1973, as amended, the Vietnam Era Veteran's Readjustment Assistance Act of 1974, title IX of the Education Amendments of 1972, the Age Act of 1975 and the requirements of the Americans with Disabilities Act of 1990. Licensee warrants and guarantees that it is an equal employment opportunity employer. In all hiring or employment made possible by or resulting from this contract, there shall not be any discrimination against any person because of race, color, religion, sex, national origin, disability, age or veterans status; and where applicable, affirmative action will be taken to ensure that licensee's employees are treated equally during employment without regard to their race, color, religion, sex, national origin, disability, age, political affiliation, disabilities or veteran status. This requirement shall apply to, but not be limited to, the following: employment upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. All solicitations or advertisements for employees shall state that all applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, disability, age or veteran status.

(Code 1998, ch. 9, art. X(B); Ord. No. 11-2588, 9-1-2011)

Sec. 38-237. Conflict of interest.

In the event of reasonably known conflicts of interest or potential conflicts of interest between the parish and other parties who have engaged licensee, the licensee agrees to make full disclosure of the same, and that they will take no action on behalf of any other client directly adverse to the parish, nor will licensee take any action on behalf of the parish directly adverse to any other client.

(Code 1998, ch. 9, art. X(C); Ord. No. 11-2588, 9-1-2011)

Sec. 38-238. Independent licensee.

While in the performance of services or carrying out other obligations under this license, the licensee shall be acting in a capacity of an independent licensee and not as an employee of the parish. The parish shall not be obliged to any person, firm or corporation for any obligations of the licensee arising from the performance of its services under this license.

(Code 1998, ch. 9, art. X(D); Ord. No. 11-2588, 9-1-2011)

Secs. 38-239—38-269. Reserved.**ARTICLE XI. TERMINATION, SUSPENSION, REVOCATION OF LICENSE;
OPERATING WITHOUT A LICENSE; AUTHORITY TO CANCEL****Sec. 38-270. Violation.**

Any licensee who violates any portion of this article may also be referred to code enforcement of this parish, the administrative hearing officer, constable, justice of the peace or office of the district attorney.

- (1) *For cause.* Where and when a licensee fails to perform, is not responsible or responsive to the public needs as determined by the department, neglects its obligations herein or refuses to cooperate with the department. The department shall issue a notice of deficiency; the licensee or operator shall cure such deficiency within 30 days of notice by the department; failure to cure will result in automatic revocation of licensure; the department has the exclusive discretion to determine whether a deficiency has been cured.
- (2) *Bankruptcy.* As to the filing of bankruptcy, voluntarily or involuntarily, by licensee, licensee agrees that if any execution or legal process is levied upon its interest in this license, or if any liens or privileges are filed against its interest, or if a petition in bankruptcy is filed against it, or if it is adjudicated bankrupt in involuntary proceedings, or if it should breach this license in any material respect, the parish shall have the right, at its unilateral option, to immediately cancel and terminate this license.
- (3) *Qualification.* Licensee/operator must be qualified at all times to perform the intended purposes of this article; in the event that licensee/operator becomes unfit or unqualified for any reason whatsoever, then the department may take such action against the license as is warranted under the circumstances.

(Code 1998, ch. 9, art. XI; Ord. No. 06-1417, 11-2-2006; Ord. No. 11-2588, 9-1-2011)

Secs. 38-271—38-288. Reserved.

ARTICLE XII. GARBAGE DISTRICTS***Sec. 38-289. Garbage District No 1; boundaries, as amended.**

(a) Under and by virtue of the authority conferred by ch. 25, title 33 of the Louisiana Revised Statutes of 1950, as amended (R.S. 33:4169.1 and 33:8001 et seq.), and other constitutional and statutory authority, a garbage district is hereby created within the parish, which garbage district shall comprise and embrace a portion of that territory within Ward 8 of the parish, with boundaries described as set forth below:

Commencing at the intersection of LA 1090 (Military Road) and the section line common to sections 38 and 31, thence southwest following said section line for a distance of 4,120 feet; thence southeast along said section line to its intersection with U.S. 190 (Gause Boulevard); thence westerly along U.S. 190 to its intersection with the section line common to sections 6 and 1; thence south along said section line to the section corner common to sections 6, 1, 12, and 7; thence west along the section line common to sections 12 and 1 for a distance of 1,377.18 feet; thence south for a distance of 2,625 feet; thence east for 1,389 feet to the section line common to sections 12 and 7; thence south along said section line for a distance of 1,310 feet, thence west 1,765 feet; thence southeasterly for a distance of 1,598 feet to a point along the section line common to sections 12 and 13; thence easterly to the section corner common to sections 12, 13, 18, and 7; thence southerly along the section line common to sections 13 and 18 for a distance of 1,394 feet to its intersection with U.S. 190; thence southeasterly along said U.S. 190 to its intersection with U.S. 90; thence in a northeasterly direction go along U.S. 90 to the bank of the West Pearl River; thence follow the meanderings of the main stream of the West Pearl River to its intersection with its intersection with Gum Bayou; thence northwesterly following the meandering of Gum Bayou to a point intersecting the section line common to sections 31 and 39, thence along said section line to the point intersecting with LA 1090 (Military Road), also the point of beginning.

(b) Amended to include the following areas by Ordinance No. 12-2765, adopted 7-12-2012; then amended to add Forest Ridge Subdivision to the following areas by Ordinance No. 12-2843, adopted 10-4-2012:

(1) Part 1, section 19 and 30 T 8-R15E:

- a. Commencing at the intersection common to sections 13, 18, 19 and 24, thence south to LA 1090, thence south following LA 1090 (Military Road) to the intersection of LA 1090 and Crowe's Landing and the point of beginning.
- b. Commencing at the intersection of LA 1090 (military Road) and Crowe's Landing. Following said road east for a distance of 2,823 feet (+/-), thence south along Magnolia Forest subdivision boundary line 475 feet (+/-), thence east 1,121 feet

***State law reference**—Power to create and authority to incur debt for parish garbage districts, R.S. 33:8001 et seq.

(+/-) to unnamed stream. Following unnamed stream meandering south a distance of 2,680 feet (+/-) to the section line common to sections 19 and 20, thence south along said section line 950 feet (+/-), thence west 2,118 feet (+/-) following the boundary line of Magnolia Forest subdivision, thence south along Morgan Bluff Estates subdivision boundary 1,338.59 feet (+/-) to section line common to sections 19 and 30. Thence east along said section line to the intersection of sections 19, 20, 29 and 30, thence south 2,692 feet (+/-) along boundary of Magnolia Forest subdivision. Thence west 3,531 feet (+/-) to LA 1090 (Military Road). Following LA 1090 north 5,521 feet (+/-) to Morgan Bluff Road, thence east 1,523 feet (+/-), thence north 2,821 feet (+/-) along Magnolia Forest subdivision boundary, thence west 1,813 (+/-) to LA 1090, thence following LA 1090 to Crowe's Landing also being the point of beginning.

(2) Part 2, sections 1, 31, 36 T 8-R14, 15E:

- a. Commencing at the intersection common to sections 31, 38, 38 and 6. Following section line common to sections 31 and 38 northeast 55 feet (+/-) also the point of beginning.
- b. Commencing west 3,580 feet (+/-) along section line common to sections 31 and 6 to North Pearl Drive, thence south 85 feet (+/-), thence west 425 feet (+/-) to section line common to sections 1 and 6. Following said section line south 1,185 feet (+/-) to a point north of Hidden Oaks Lane. Thence west 1,325 feet (+/-) along the southern boundary of Lake Village subdivision, thence north 778 feet (+/-), thence west 675 feet (+/-) to the eastern right-of-way of the 1-10 Service Road. Following Interstate 10 Service Road 1,415 feet (+/-) to unnamed pond, thence follow the bank of unnamed pond 1,313 feet (+/-), thence north along same said pond 835 feet (+/-), thence east 292 feet (+/-), thence south 215 feet (+/-), thence east to the western right-of-way of Interstate 10 (I-10). Following said right-of-way 2,227 feet (+/-) to the southern right-of-way of LA 1090 (North Military Road). Thence following said right-of-way south 367 feet (+/-) to section line common to sections 6 and 38. Thence southwest along said section line 468 feet (+/-) also being the point of beginning.

(3) Part 3, section 37 T 9-R15E:

Commencing at the intersection of LA 1090 (South Military Road) and Section line common to sections 37 and 38. Following western right-of-way of LA 1090 south 1,331 feet (+/-) to point of beginning. Commencing south following the western right-of-way of LA 1090 (South Military Road) 2,870 feet (+/-) to Belle Cherie Drive. Following Belle Cherie Drive to intersect with Devereaux Drive Thence following Devereaux Dr. 3,325 feet (+/-) to a point on the northern right-of-way, thence north 358 feet (+/-), thence east 292 feet (+/-) to the western right-of-way of LA 1090 (South Military Road) also being the point of beginning.

(4) Part 4, section 37, 9, 16 and 17 T 9-R15E:

- a. Commencing at the intersection of LA 1090 (South Military Road) and Cross Creek Boulevard also being the point of beginning.
- b. From point of beginning go east 745 feet (+/-), thence 660 feet (+/-) along the western boundary of Turtle Creek (phase 5) subdivision, thence 682 feet (+/-) northeast to the southern boundary of Turtle Creek (phase 4) subdivision. Following said boundary 1,847 feet (+/-), thence southeast 171 feet (+/-) to the southern right-of-way of North Caleb Drive following North Caleb Drive 765 feet (+/-) to the eastern boundary of Turtle Creek (phase 4) subdivision. Thence south 1,202 feet (+/-), thence east 3,334 feet (+/-) between The Bluffs Subdivision and Bay Ridge Subdivision to the right descending back of the West Pearl River. Following the meandering West Pearl River south 9,562 feet (+/-) to unknown stream. Following the meanderings of the unknown stream west 16,100 feet (+/-) to eastern right-of-way of LA 1090 (South Military Road).
- c. Amended to include the entirety of Hidden Oaks Lane (Road No. 8-L-012) by Ordinance No. 13-2961, adopted 6-6-2013.

(Code 1998, § 9-071.00; Ord. No. 11-2588, 9-1-2011; Ord. No. 12-2765, 7-12-2012; Ord. No. 12-2843, 10-4-2012; Ord. No. 13-2961, 6-6-2013)

Editor's note—Ordinance No. 1056, adopted 11-15-1979, repealed Ordinance No. 592, creating Garbage District No. 1, which had been codified in a prior publication as sections 9-31—9-33. Ordinance No. 1057, adopted 11-15-1979, created a new Garbage District No. 1. The article was subsequently repealed by Ordinance No. 86-625, adopted 5-15-1986. Later ordinances establishing subsequent garbage districts were included as divisions within a newly established article III, with division 1 having been reserved for general provisions by the prior publisher. (Ord. No. 86-639, adopted 6-19-1986); Ord. No. 06-1417, adopted 11-2-2006 amended and reenacted Chapter 9 in its entirety. Ord. No. 08-1844, adopted 6-5-2008 reestablishes Garbage District No. 1.

Sec. 38-290. Name, status and powers.

The garbage district hereby created shall be known and designated as "Garbage District No. 1 of St. Tammany Parish, Louisiana," and as thus created shall constitute a political and legal subdivision of the state, of which the parish council shall be the governing authority, and shall have all the rights, powers and privileges granted and conferred by the state constitution and statutes to such corporations, including the authority to incur debt, to issue bonds and to levy taxes.

(Code 1998, § 9-072.00; Ord. No. 11-2588, 9-1-2011)

Sec. 38-291. Service area.

The term "service area" of Garbage District No. 1 shall include those residential properties receiving water services from Cross Gates Utility, Inc. (a.k.a. Tammany Utilities East) and receiving a monthly bill statement from said utility; and shall include the residential properties referenced in section 38-289, Garbage District No. 1, Boundaries, as amended.

(Code 1998, § 9-072.01; Ord. No. 11-2588, 9-1-2011; Ord. No. 12-2765, 7-12-2012; Ord. No. 12-2843, 10-4-2012)

Sec. 38-292. Scope.

The provisions of this article are applicable to all solid waste storage, collection, transportation, processing and disposal operations within Garbage District No. 1 of the parish (hereinafter "Garbage District No. 1"). The provisions of articles I through XI of this chapter shall be applicable in any garbage district heretofore or hereafter created, and are intended to compliment and supplement all provisions, rules and regulations of such district. Therefore, in the event of a conflict, the more stringent provision should apply, except in those cases where a provision, rule or regulation of a district is clearly intended to be controlling on a specific matter.

(Code 1998, § 9-072.02; Ord. No. 11-2588, 9-1-2011)

Sec. 38-293. Additional authority.

Pursuant to the provisions of R.S. 33:4169.1, the powers granted to the governing authority of the parish are being transferred to Garbage District No. 1 of the parish (hereinafter "Garbage District No. 1"). The governing authority of Garbage District No. 1 shall have the following additional powers:

- (1) *Permits, licenses, exclusive or nonexclusive franchises.*
 - a. To engage in the collection and disposal of garbage and trash within its jurisdiction in cooperation with, or to the exclusion of, other garbage and trash collectors. To the extent that the governing authority of Garbage District No. 1 deems it necessary or appropriate, it is authorized to displace competition and provide a monopoly public service.
 - b. To grant permits, licenses, exclusive or nonexclusive franchises or any combination thereof to garbage and trash collectors and disposers. Any exclusive franchise shall be granted only after advertising for bids, reception of bids and awarding of the contracts in accordance with the public bid laws of the state and other provisions of law.
 - c. To enter into time contracts for the collection and transportation of garbage or trash for a term of up to ten years, and for disposal of garbage or trash for a term of up to 25 years.

- d. To assess or authorize assessment of a service charge against any person provided any service pursuant to subsections (1) or (2) of this section.
 - e. To otherwise regulate the collection and disposal of garbage and trash.
- (2) *Contracts with private water companies, or water districts or waste/trash hauling firms.*
- a. The governing authority of Garbage District No. 1 is authorized to execute contracts with private water companies, or water districts or waste/trash hauling firms serving customers in the area served by a garbage and trash collection and disposal service pursuant to subsection (1)a. of this section.
 - b. Such contracts may contain such terms and privileges as may be agreed upon between the parties, pursuant to which charges imposed for such garbage and trash collection and disposal service may be collected by water companies or water districts, and providing a procedure to enforce collection by an agreement to shut off or terminate the service of the supply of water, hereinafter referred to as "utility service," to any premises delinquent in the payment of either its utility charges or garbage and trash collection and disposal service charges; however, such procedure shall provide for prior notice by certified mail to any person who fails to pay such service charges that said person's utility service may be shut off or terminated, and not less than 30 days after provision of such notice and only after said person's subsequent refusal to pay such service charges within said 30 days, the utility service may be shut off or terminated.
 - c. Any such contract shall not require the approval of any state department, agency or commission.
 - d. A private water company or water district contracting with the governing authority pursuant to this subsection may require the governing authority to supply such indemnity bond or liability insurance as the private water company or water district may consider necessary for its protection.
- (3) *Power to permit or regulate.* The power to permit or regulate solid waste collection, transportation, processing, recovery and disposal, granted herein shall not preempt regulatory and licensing authority of the environmental control commission and the office of environmental affairs, department of natural resources, pursuant to R.S. 30:2001 et seq.
- (4) *Incineration of recyclable materials.* Garbage District No. 1 shall not require incineration of recyclable materials, which are considered to be those materials separated by any person or those materials separated from solid waste by any licensed solid waste collector incidental to collection of such waste for utilization as a raw material to be manufactured into a new product.
- (Code 1998, § 9-072.03; Ord. No. 11-2588, 9-1-2011; Ord. No. 12-2809, 9-10-2012)

Sec. 38-294. Definitions.

The definitions provided for in section 38-3 are incorporated herein by reference. The following words and phrases, when used in this section, shall have the meanings respectively ascribed to them:

Contractor means the person, corporation or partnership performing refuse collection and disposal under contract with Garbage District No. 1.

Curbside recycling bin means any bin approved by Garbage District No. 1 for the purpose of curbside collection of recyclable materials.

Recyclable material means those materials which are capable of being recycled and which would otherwise be processed and disposed of as nonhazardous solid waste, which generally includes any newspaper, glass, metal food and beverage cans, magazines, catalogs, phone books, corrugated cardboard, plastic or any other material authorized by Garbage District No. 1 for collection in its curbside recycling program.

(Code 1998, § 9-072.04; Ord. No. 11-2588, 9-1-2011)

Sec. 38-295. Responsibility.

(a) The owner, his agent and occupant of any property shall maintain the premises in a sanitary and litter-free condition.

(b) No person shall place, deposit, or allow to be placed or deposited, on his premises or any other premises to include any public street, road or alley any refuse or waste, except in a manner described in this article.

(c) The owner, his agent and occupant of any premises, and other persons having responsibilities as described herein, shall be responsible for the proper storage, collection, transportation and final disposal of all refuse and waste originating on the premises, by a method or methods described in this article.

(Code 1998, § 9-072.05; Ord. No. 11-2588, 9-1-2011)

Sec. 38-296. Solid waste storage.

(a) *General.*

(1) The following provisions of the Unified Development Code—Volume 1 (Zoning), section 7.0110 Trash and Garbage Screening Requirements are applicable: All storage areas containing three or more refuse, garbage or rubbish containers or one or more dumpsters, shall be screened on all sides with a minimum seven foot high opaque fence of wood or masonry. Such storage areas are prohibited in buffer planting areas.

(2) The storage of all solid waste shall be practiced so as to prevent the attraction, harborage or breeding of insects and/or rodents and to eliminate conditions harmful to public health or which create safety hazards, odors, unsightliness and public nuisances.

- (3) The owner, his agent or occupant of any premises, shall be responsible for the satisfactory storage of all waste accumulating or originating at that premises. A sufficient number of appropriate containers shall be provided by the owner, his agent or occupant, to accommodate all applicable solid waste material generated between regularly scheduled collections as may be necessary to meet the intent of subsection (a)(1) of this section.
 - (4) All containers for storage of solid waste shall be maintained in such a manner as to prevent the creation of a nuisance or menace to public health, safety or welfare. Containers that are broken or otherwise fail to meet requirements of this article shall be immediately replaced with acceptable containers.
 - (5) Where garbage and similar putrescible wastes are stored in combination with nonputrescible wastes, containers for the storage of the mixture shall meet the requirements for garbage containers. Garbage and trash shall be drained of all free liquids and garbage shall be bagged prior to being placed in containers.
 - (6) Bins, receptacles or other containers of a permanent nature above ground shall not be kept, constructed or maintained between any sidewalk or private property line and the roadway edge or curb within the parish.
- (b) *Individual household-type containers.*
- (1) In areas where Garbage District No. 1 has implemented automated or semiautomated garbage collection service, a specific container approved by Garbage District No. 1 is the only acceptable container to be used.
 - (2) Individual containers utilized for the storage of garbage and other putrescible solid wastes at households and certain other applicable premises which utilize manual nonmechanical collection equipment, shall have the following physical characteristics:
 - a. Containers shall be constructed of durable metal or plastic, be tapered, be rust-resistant, nonabsorbent, watertight and leak-proof, easily cleanable with close-fitting insect and rodent-proof lids, and have adequate handles or bails to facilitate handling.
 - b. Covers for containers shall be removable and not secured or fastened to containers.
 - c. Containers shall not be less than 20 gallons or more than 35 gallons in capacity and the combined weight of container and contents shall not exceed 75 pounds, except for containers utilized at apartments which shall be in accordance with subsection (c) of this section.

(c) *Disposable containers.* Disposable containers, such as plastic (polyethylene minimum 1.5 milligrams) bags, shall be acceptable for storage of solid wastes provided the following conditions are met:

- (1) Only those bags specifically designed for storage and collection of solid waste shall be used. Red colored bags are reserved for commercial medical wastes and may not be used for any other type of waste.
- (2) Bags shall be protected against precipitation, vandalism, animal damage and overloading to prevent littering or attracting vectors.
- (3) Bags shall have a holding strength capable of withstanding stresses while being handled and collected.
- (4) The bag opening must be securely tied prior to setting out the bag for collection.
- (5) Bag capacity shall not exceed 30 gallons and filled weight shall not exceed 75 pounds.
- (6) Material which cannot be properly contained in bags shall be containerized in garbage cans.

(d) *Bulk waste containers.* Bulk waste containers normally used with mechanical collection equipment shall be of a type and design specified by the director of the department of environmental services.

- (1) No bulk waste container shall be placed on any premises, unless the owner or leaseholder of the property has made application for a permit with the director of the department of environmental services. A placard or other permit certification, approved by the department, shall be kept continuously and conspicuously posted on each container; each container cover shall retain other permit documentation on the premises and produce same upon request of the director, or his designee.
- (2) No bulk waste container shall be provided, placed or maintained upon any premises by a bulk waste container service company unless the customer has obtained a permit or can furnish evidence that he has applied for the permit required herein. A permit applicant will be given 30 days from the date the container is first delivered to the premises within which to receive final approval from the director of department of environmental services. If a bulk waste container service company does not receive evidence of the issuance of a permit within 45 days from the date the container is first delivered, the company shall remove the container from the premises.
- (3) Bulk waste containers used during construction and placed on private property do not require a permit from the department of environmental services, unless the containers are placed in streets or on public property.

- (4) The permit application of the owner or leaseholder of the property shall designate the number and location of all bulk waste containers on the property. The director shall establish regulations for the issuance and renewal of permits.
- (5) For each premises with no more than three bulk waste containers and no record of violations to this section, there shall be an annual permit fee established by the district and collected by the director every two years in advance. For each premises with more than three bulk waste containers and no record of violations to this section, there shall be an annual permit fee established by the district and collected by the director each two years in advance. The director shall keep a permanent, accurate account of all fees collected and received pursuant to this section, the names of the person upon whose account the same were paid, the date and amount thereof, together with the location of the buildings or premises to which they relate. A modified permit is needed to request change of location of the bulk waste container on the premises and to request an increase in the number of containers used on the premises. The fees for issuance of modified permits shall be the same as the issuance of a new permit with the applicant receiving credit for any funds remaining on deposit if the modified permit is issued within the two years of the payment of the biannual fee. Notwithstanding that the permit fee is paid two years in advance, the permit shall be valid only for the calendar year in which it is issued; the owner or leaseholder of the premises shall annually file for a renewal of the permit. Delinquent applications shall be subject to a delinquent fee established by the district. In addition to any other penalties or fines provided herein, failure to comply with the bulk waste provisions of this article shall result in the imposition of an additional fee for the annual renewal of the permit as established by the district for the first violation per bulk waste container and for subsequent violations per bulk waste container thereafter.
- (6) Property owners or leaseholders may obtain a special events temporary permit from the department of environmental services for a period of three months, e.g., Mardi Gras, at a permit fee established by the district. All conditions stated within this section shall also apply to the temporary use of bulk waste containers.
- (7) Bulk waste containers shall not be placed in any required parking space designated and used in the square-footage ratio calculation of a structure or building that the container is servicing.
- (8) Bulk waste container service companies or operators shall place containers in the locations designated on the permit application and ultimately to the permit issued to the property owner or leaseholder of the property.
- (9) Except in cases of hardship, and then only by special permit, bulk waste containers shall not be placed in the front yard area of the property. The term "front yard area" is defined as the area from the front property line to the front building line. In cases of

hardship where it is found that a bulk waste container cannot be located behind the front building line, the container shall be screened on all sides with a minimum seven-foot high opaque fence of wood or masonry, according to the specifications of the director of the department of development. Restrictions for containers also apply to the side yard of a property which fronts a side street. The proper location of each bulk waste container on each property will be determined by the director of the department of environmental services in consultation with the director of the department of development in order to ensure compliance with all applicable zoning and subdivision regulations.

- (10) The term "hardship" is hereby defined as conditions and circumstances existing which are peculiar to the land, structure or building involved and which are not applicable to other lands, structures or buildings; and the special conditions and circumstances do not result from the intentional actions of the applicant or any other person who may have or had interest in the property, and the strict adherence to the regulation for the property would result in a demonstrable hardship upon the owner as distinguished from mere inconvenience.
- (11) The director of the department of environmental services, after consultation with the director of the department of development, shall determine if a hardship exists in locating bulk containers. The director shall determine a feasible solution to the hardship. If the applicant wishes to appeal the decision of the director, that appeal must be made to the board of adjustment as set forth in the Code of Ordinances.
- (12) Each property owner or leaseholder shall ensure that all trash and garbage are properly placed within each container. When screening of bulk waste container is required, the property owner or leaseholder shall maintain screening. Failure to comply with these provisions will subject property owners or leaseholders to citation and fine for each occurrence.
- (13) A property owner's or leaseholder's failure to obtain and maintain bulk waste containers according to the provisions of this Code and fire codes shall be cause for forfeiture of any permit fees on deposit, permit revocation, fine or all of the above.
- (14) Bulk waste container companies or operators shall maintain containers in the condition prescribed in this subsection; violations are subject to citations, or fines, or both. Once a citation is issued, the bulk waste container cited must be repaired within 30 days or fines will be imposed.
- (15) Failure of bulk waste container service companies, operators, property owners or leaseholders to comply with these provisions shall result in a penalty of \$100.00 for the first violation per bulk waste container, and \$200.00 for subsequent violations per bulk waste container thereafter, or permit revocation or denial, or both. Each bulk waste

container on any property in violation of any subsection of this section shall be subject to citation or fine. A maximum of one citation per bulk waste container may be issued in a ten-day period.

- (16) The director of the department of code enforcement in conjunction with department of environmental services shall have authority to administer this section. The director of the department of environmental services shall promptly establish the regulations and specifications herein required and such other regulations as are necessary for the effective administration of this section. This section shall apply equally to all users and operators, whether public or private, of bulk waste containers.
- (17) It shall be unlawful for any person to place or maintain a bulk waste container upon any sidewalk, street or other public right-of-way; any person violating the provisions of this subsection shall be guilty of a misdemeanor, and upon conviction shall be punished as provided herein.
- (18) All owners of multifamily structures containing four or more single-family residences shall provide bulk containers for the storage and disposal of solid wastes generated by the occupants of said residences in accordance with subsection (e)(1) of this section.

(e) *Special containers required.*

(1) *Apartments.*

- a. All owners of multifamily structures containing four or more single-family residences shall provide bulk waste containers for the storage and disposal of solid wastes generated by the occupants of said residences. Owners of structures which cannot accommodate bulk waste containers may petition the director of the department of environmental services for a hardship special permit for alternative solid waste storage and collection as provided for in this section. Hardship is defined in subsection (d)(10) of this section.
- b. All owners of multifamily structures containing four or more single-family residences that have obtained a hardship special permit from the director of the department of environmental services for alternative solid waste storage and collection as provided in subsection (e)(1)a. of this section, shall be responsible for furnishing and maintaining in good condition, at least one container for each dwelling unit in the structure for the storage and curbside collection of garbage and other putrescible solid wastes. Said containers shall be in acceptable condition for the storage of waste without spillage, and shall have the following physical characteristics:
 - 1. Containers shall be constructed of durable metal or plastic, be tapered, be rust-resistant, nonabsorbent, watertight and leak-proof, easily cleanable with close-fitting insect and rodent-proof lids, and have adequate handles or bails to facilitate handling.

2. Covers for containers shall be removable and not secured or fastened to containers.
 3. Containers shall not be less than 30 gallons or more than 35 gallons in capacity, and the combined weight of container and contents shall not exceed 75 pounds.
 4. Each container shall be permanently marked with the address and number of the dwelling unit for which it is intended in characters at least six inches high by four inches wide.
- c. In areas where Garbage District 1 has implemented automated or semiautomated garbage collection service, a specific container approved by Garbage District No. 1 is the only acceptable container to be used.
- (2) *Retail outlets.* The operators of all retail outlets of any type (excluding malls), including, but not limited to, convenience stores, grocery stores, restaurants and cigarette outlets, shall have a metal or durable plastic waste container not to exceed 40 gallons in front of or near the entrance of their business for the deposit by their customers of the garbage, refuse and litter associated with the operation of such businesses. Said container shall be in addition to other containers which are necessary to meet the intent of subsection (a)(1) of this section. The owner of outdoor malls, that are strip retail outlets that are not connected by enclosed covered walkways, shall be responsible to furnish, empty and maintain at least one such container for each 100-feet of store frontage in the mall. Enclosed retail malls are excluded from this requirement, however the owner of such a mall shall be responsible to furnish, empty and maintain an appropriate number of containers in appropriate sizes and locations. The operator of any retail outlet who fails to provide a waste container as required in this subsection shall be fined no more than \$500.00. This subsection may be enforced by the department of environmental services or the parish sheriff's deputies.
- (f) *Methods of use of containers.*
- (1) Containers shall be kept covered at all times, except during placement or removal of contents.
 - (2) Containers shall not be filled so that the lid cannot fit properly.
 - (3) The area around each container shall be kept clean.
 - (4) Containers shall be watertight, leak-proof and rodent and insect-proof.
- (g) *Noncontainerized temporary storage.* Certain wastes of a nonputrescible nature lend themselves to temporary storage in a manner other than containerization such as:
- (1) Magazines, newspapers and corrugated cardboard should be recycled, when possible, and shall be containerized or neatly stacked and tied in bundles not exceeding four feet in length, two feet in diameter or width and 75 pounds in weight to be easily handled by the collection system and so as to minimize littering.

- (2) Large items such as furniture, appliances, trees and stumps shall be stored so as not to pose a safety hazard, collect water, and/or serve as a harborage for insects or rodents.

(h) *Disposal of potentially hazardous waste, etc.* Potentially infectious biomedical wastes, asbestos containing material, and hazardous wastes including, but not limited to, explosives, acids, caustics, pesticides, paints and solvents, automotive batteries, and vehicular fluids must be handled, stored and disposed of in accordance with all applicable local, state and federal regulations.

(i) *Exception.* With the exception of any responsibilities reserved herein to other departments or agencies, all provisions of this section may be enforced by the department of environmental services.

(Code 1998, § 9-072.06; Ord. No. 11-2588, 9-1-2011)

Sec. 38-297. Solid waste collection.

(a) *Criteria for collection.* By permitting, licensing and/or contracting with fully qualified, experienced and responsible contractors, said contractors will be responsible for the collection of containerized solid wastes from residential units and business establishments, and the collection, from residential units only, of bulky waste, white goods and waste tires within Garbage District No. 1 in accordance with the following guidelines:

(1) *Volume of material.*

- a. An unlimited amount of containerized garbage and trash shall be picked up from all residential units twice weekly. Containerized solid wastes shall also be collected twice weekly from small business units; however, businesses shall be limited to five containers per collection day. The weight of each container may not exceed 75 pounds.
- b. All loose trash and yard waste including, but not limited to, leaves, grass clippings and construction debris such as sheetrock, sawdust and other loose debris must be containerized.
- c. Bulky waste suitable for manual collection, as defined herein, shall be picked up from only residential units on the second collection day of the week. Bulky waste requiring boom truck collection, as defined herein, shall be collected once per week, and this shall be advertised for one week in the official journal of the parish prior to the start or renewal of the collection contract or changes to routes or collection schedules.
- d. Uncontainerized bulky waste and yard waste including, but not limited to, light tree debris, shrubbery, fence boards, etc., shall be neatly stacked or securely tied in bundles and shall not exceed four feet in length, two feet in diameter, and 75 pounds in weight for each item. Larger bulky waste requiring boom truck collection shall not exceed six feet in length and 400 pounds in weight.

- e. All waste concrete six inches by six inches and smaller, shall be containerized. Waste concrete larger than six inches by six inches shall be no greater than 75 pounds in weight.
- f. A maximum of four white goods, such as refrigerators, ranges, water heaters, freezers, washers, dryers and other large appliances and a maximum of four waste tires, excluding truck tires as defined herein, shall be picked up curbside from only residential units once per week, and this shall be advertised in the official journal of the parish prior to the start or renewal of the collection contract or changes to routes or collection schedules. White goods and waste tires shall not be collected from small business units.

(2) *Standards for garbage collection.*

- a. Garbage and other putrescible materials shall only be collected from containers as delineated in section 38-296(a).
- b. Nonputrescible trash material shall be collected only from containers as delineated in section 38-296(d), except for bulky waste, yard waste and construction debris such as fence boards and concrete larger than six inches by six inches, which must be neatly stacked and shall not exceed four-feet in length, two-feet in diameter and 75 pounds in weight for each item.
- c. All loose trash, yard waste and construction debris including leaves, grass clippings, sheet rock, saw dust and other loose debris shall be containerized for collection.
- d. Boats, automobiles, trailers and any other bulky waste deemed to be unsuitable for curbside collection by Garbage District No. 1 shall not be collected by the district's garbage contractor, and shall be collected and disposed of properly by the owner or occupant of the unit at their own expense, in accordance with this section and the state solid waste rules and regulations.
- e. White goods and tires shall be collected from only residential units, limited to four per week.

(3) *Point of collection.* Containers or other materials for collection shall be placed at curbside immediately between the property owned or occupied by the person placing the material and the street or road fronting that property. The material placed for collection shall be readily accessible to the collectors. Underground containers must be removed from their wells and placed above ground at curbside by the owners or occupants of the premises.

(4) *Frequency of collection.* The parish shall provide a minimum of two collections per week on a schedule to be determined by Garbage District No. 1.

- (5) *Hours of collection.* Collection shall not commence before 6:00 a.m., and shall be completed by 9:00 p.m. any single collection day. Material authorized to be collected, with the exception of yard waste and bulky waste which is handled in accordance with the standards set forth in section 38-296(c) and (d), shall not be set out at curbside prior to 4:00 p.m. of the day preceding the regular collection day. Waste tires shall not be set out at curbside prior to 4:00 p.m. on the day preceding the scheduled collection day for waste tires. The depositing of material for collection before that time shall be considered littering under this Code. Emptied containers, curbside recycling bins and uncollected material exceeding collection standards shall be removed from the curbside by 12:00 noon on the day following that day on which the collection vehicle has completed collections in the particular geographical collection area. No collections shall be made on Sunday without the expressed approval of Garbage District No. 1. The parish department of environmental services may enforce this provision regarding hours for the placement of materials for collection.

(b) *Person's responsibility.*

- (1) Residential and small business units generating solid wastes in quantities greater or types other than that specified above as being the contractor's responsibility shall dispose of such at their own expense as hereinafter provided.
- (2) Persons generating all other solid waste shall dispose of such at their own expense as hereinafter provided.

(c) *Enforcement.* The provisions of this section may be enforced by the parish department of environmental services or the parish sheriff's deputies.

(Code 1998, § 9-072.07; Ord. No. 11-2588, 9-1-2011)

Sec. 38-298. Solid waste transportation, salvaging and scavenging.

(a) *Vehicle/container requirements.*

- (1) Vehicles or containers used for the collection and transportation of garbage and other putrescible wastes, or refuse containing such materials, shall be covered, leak-proof, durable metal and of easily cleanable construction. These shall be cleaned at appropriate intervals to prevent nuisances, pollution or insect breeding, and shall be maintained in good repair.
- (2) Vehicles or containers used for the collection and transportation of potentially infectious biomedical wastes, asbestos containing material, and hazardous wastes including, but not limited to, explosives, acids, caustics, pesticides, paints and solvents, automotive batteries and vehicular fluids shall be durable, leak-proof, covered, and shall be constructed, loaded, moved and unloaded in a safe manner and in compliance with all applicable local, state and federal regulations.

(b) *Licensing of solid waste collection and/or transporting vehicles.*

- (1) No person shall engage in the commercial collection or transportation of solid waste within the parish without first submitting a solid waste notification form and solid waste transporter supplemental form (or the successor form of such documents) to the state department of environmental quality and obtaining a transporter identification number from said state agency.
- (2) Persons collecting or transporting solid wastes which originate within their personal household are exempt from licensing of vehicles.

(c) *Containment of loads on vehicles; prohibition against tracking by vehicles of foreign substances.* No person shall drive or move any truck or other vehicle loaded with litter within the parish, unless such vehicle is constructed or loaded as to prevent any load, contents or litter from being blown or deposited upon any street, alley or other public place. Nor shall any person drive or move any vehicle or truck within the parish, the wheels or tires of which carry onto or deposit, mud, dirt, sticky substances, litter or foreign matter of any kind on any street, alley or other public place.

(d) *Service of a bulk waste container restrictions.* No person or commercial waste hauler shall service a bulk waste container between the hours of 9:00 p.m. and 6:00 a.m. when said bulk waste containers are located within 300 feet of a residential use.

(e) *Enforcement.* This section may be enforced by the parish department of environmental services, code enforcement officers, the parish sheriff's deputies, and state or federal enforcement officials.

(f) *Scavenging and salvaging prohibited.* Scavenging is strictly prohibited at any location under any circumstances. Salvaging shall be unlawful for any person, except by specific permission of the owner of the premises on which salvaging is or is to be conducted. This section may be enforced on public property by the parish department of environmental services or the parish sheriff's deputies; this section may be enforced on private property only by the parish sheriff's deputies.

(Code 1998, § 9-072.08; Ord. No. 11-2588, 9-1-2011)

Sec. 38-299. Unauthorized use of bulk waste containers.

(a) It shall be unlawful for any person to dump, throw or place trees, trash, garbage, junk or debris in any bulk waste container or other trash receptacle belonging to another and lawfully installed pursuant to section 38-296, solid waste storage, except by specific permission of the owner of the premises.

(b) It shall be unlawful for any person to scavenge or rummage the contents of a bulk waste container or other trash receptacle belonging to another, except by specific permission of the owner of the premises.

(c) This section may be enforced by the parish department of environmental services inspectors, the parish sheriff's deputies, or state or federal enforcement officials.
(Code 1998, § 9-072.09; Ord. No. 11-2588, 9-1-2011)

Sec. 38-300. Disposal by burning prohibited.

(a) No person shall kindle or set fire to any combustible material upon any public or private premises for the purpose of disposing of solid waste material, unless he has obtained all permits required by the applicable federal, state and/or local laws for such burning.

(b) This section may be enforced by the parish fire protection districts, parish department environmental services, the parish sheriff's deputies, and state or federal enforcement officials.
(Code 1998, § 9-072.10; Ord. No. 11-2588, 9-1-2011)

Sec. 38-301. Solid waste disposal sites.

(a) No person shall dispose of solid waste at any site or facility for which a permit for solid waste disposal has not been issued by the state department of environmental quality.

(b) No person shall establish or construct or operate or maintain or permit the use of a solid waste disposal site or facility without first having obtained all of the required federal, state and local permits.

(c) Illegal dumping of any solid wastes within the parish is strictly prohibited.

(d) This section may be enforced by the parish department of environmental services, the parish sheriff's deputies, and state or federal enforcement officials.
(Code 1998, § 9-072.11; Ord. No. 11-2588, 9-1-2011)

Sec. 38-302. Authority to issue and adjudicate citations and summons.

(a) With the exception of the enforcement authority specifically and exclusively granted to the parish sheriff's deputies and state or federal enforcement officials, all provisions in this article may be enforced by the parish department of environmental services.

(b) Any violation of this article may be heard by the administrative hearing officer of the parish bureau of administrative adjudication or by a court of competent jurisdiction.
(Code 1998, § 9-072.12; Ord. No. 11-2588, 9-1-2011)

Sec. 38-303. Penalties.

(a) Except as otherwise provided for in a specific section of this article, any person violating any provision of this article, shall be guilty of a misdemeanor that is punishable by a maximum fine of \$500.00 for each violation, unless a higher or different fine is expressly governed by state statute.

(b) For the purposes of this article, each occurrence shall constitute a separate violation.

(c) In addition to penalties otherwise provided in this division, a person found liable or convicted under any of the provisions of this article shall:

- (1) Repair or restore property damaged by or pay damages for any losses arising out of the unlawful dumping of litter or other violation of this article; and
 - (2) Pay all reasonable investigative expenses and costs to the investigative agency which discovered and reported the unlawful dumping of litter or other violation of this article.
- (Code 1998, § 9-072.13; Ord. No. 11-2588, 9-1-2011)

Sec. 38-304. Recycling regulations.

(a) *Definitions.* As used in this section, the following terms shall have the following meanings, unless the context clearly indicates that a different meaning is intended:

Authorized recycling contractors mean a person, firm, partnership, corporation or other entity authorized under and by virtue of a contract with Garbage District No. 1 to collect recyclable waste material in the service area.

Designated recycling collection location means the place designated in the contract between Garbage District No. 1 and an authorized recycling contractor from which the authorized recycling contractor has contracted to collect recyclable waste material.

Recyclable waste materials mean discarded materials such as, but not limited to, newspapers, glass, plastics and metal cans, which are separated from other garbage or refuse for the purpose of recycling.

Recycling means the process of collecting used materials for the purpose of reusing, reprocessing or remanufacturing them.

Recycling bin means a container provided to the residents for the purpose of containing materials to be recycled.

(b) *Ownership of recyclable waste materials properly placed in a recycling bin.* Upon the placement of recyclable waste material in the collection bin at designated collection site in accordance with the requirements of this article, any recyclable materials shall become the property of the contractor for Garbage District No. 1. It shall be a violation of this article for any person not authorized by the Garbage District No. 1 to collect or pick up or cause to be collected or picked up any of such recyclable materials. Recyclable collection bins are the property of the contractor.

(c) *Unauthorized collection prohibited.* During the 24-hour period commencing at 6:00 p.m. on any day preceding a day designated for collection of recyclable waste material, no person, other than an authorized recycling contractor, shall remove recyclable waste material and/or

recycling bins, which have been placed at a designated recycling collection location. Each such unauthorized collection from one or more designated recycling collection locations shall constitute a separate and distinct offense.

(d) *Theft or unauthorized use of recycling bins prohibited.* The theft or unauthorized use of recycling bins is prohibited.

(e) *Sale or donation of recyclables.* It is the intent of this article to regulate the throwing away of recyclable materials. Nothing herein shall be deemed to prohibit any person, firm or corporation from selling or donating recyclable materials when such materials are not put out for collection as waste.

(f) *Enforcement; authority.* The director of the department of environmental services shall have the authority to enforce the provisions of this article. This authority shall be in addition to the authority granted to police officers by law.

(g) *Civil action by authorized recycling contractor.* An authorized recycling contractor may bring a civil action against any person who violates this article. This shall be in addition to all other remedies and penalties.

(h) *Penalty.* Any person, firm or corporation violating any provision of this section shall be fined not less than \$100.00 nor more than \$500.00 for each offense, and a separate offense shall be deemed committed on each day during or on which a violation occurs or continues.

(Code 1998, § 9-072.14; Ord. No. 11-2588, 9-1-2011)

PRE-PRESS COPY

PRE-PRESS COPY

ARTICLE I. IN GENERAL**Sec. 40-1. Statement of purpose.**

The purpose of these rules and regulations is to accomplish the protection of public health and the environment through the control, monitoring and inspection of public and private sewerage and water systems in the parish and through the enforcement of all ordinances and state and local regulations relative to such systems.

(Code 1998, § 23-23-101.00; Ord. No. 01-0354, 8-2-2001)

Sec. 40-2. Statement of authority.

Notwithstanding anything to the contrary, the parish shall be entitled to avail itself to all rights, powers and authority conferred upon it as outlined in R.S. 33:4064.1 et seq. and Act No. 146 of the First Extraordinary Session of the 2000 Legislature.

(Code 1998, § 23-102.00)

Sec. 40-3. Statement of policy.

It is hereby declared to be the policy of the department that:

- (1) Sewerage and water systems have the potential to cause significant adverse impact on human health and on the environment and, therefore, the operation, maintenance and connection of sewerage and water systems must strictly comply with the objective standards established by statutes, codes, ordinances and rules and regulations that provide for the protection of public health and the environment; and
- (2) The monitoring and inspection of sewerage and water systems and the approval, inspection, and monitoring of all construction necessary or incidental to the provision of sewage disposal and water promote the operation, maintenance and connection of sewerage and water systems in a manner that provides for the protection of public health and the environment.

(Code 1998, § 23-103.00)

Sec. 40-4. Definitions.

As used in these rules and regulations, the terms defined in this section shall have the following meanings, unless the context or use thereof clearly indicates otherwise, or more explicit definitions are referenced:

Applicable law means the pertinent and appropriate provisions of the State Sanitary Code, other applicable parish ordinances, or state and local regulations which pertain to sewerage and water systems located, or to be located within the parish.

Beneficial purpose or *beneficial use* means the use of groundwater for domestic, municipal, industrial, agricultural, recreational or therapeutic purposes or any other advantageous use.

Department means the parish department of environmental services, its employees and its agents.

DEQ means the state department of environmental quality, office of water resources.

DH&H means the state department of health and hospitals, office of public health.

DOTD means the state department of transportation and development, office of public works.

Governed sewerage system means every sewerage system in the parish whose discharge of sanitary sewage wastewater is subject to the provisions of the Louisiana Environmental Quality Act, as amended, or any rules and regulations effective or promulgated under the authority of said Act and, when applicable, said sewerage system shall include, but not limited to, any such system owned, operated or maintained by a private utility company or a sewerage district created by the governing authority of the parish.

Governed water system means every water system in the parish which is comprised of a source of groundwater, treatment, if necessary, storage, distribution and/or the appurtenances and related facilities that make it available for use. When applicable, a governed water system shall include, but not limited to, any such system owned, operated or maintained by a private person or political entity which uses groundwater for any beneficial purpose.

Louisiana water well rules, regulations and standards means the provisions of the rules, regulations and standards for water well construction adopted by the DOTD in accordance with title 38 of the Louisiana Revised Statutes of 1950.

Owner or owners or owner/developer means any person or persons who alone or jointly or severally with others has:

- (1) Legal title to any premises, facilities or equipment affected by these rules and regulations; and/or
- (2) Actual physical control of any premises, facilities, or equipment affected by these rules and regulations pursuant to an agreement, expressed or implied from the circumstances, with the owner or owners.

Operator or operators means any person who alone or jointly or severally with others conducts, directs, manages or supervises the operation and/or maintenance of any premises, facilities or equipment affected by these rules and regulations.

Parish means the unincorporated portion of the parish.

Political entity means any agency, board, commission or department or political subdivision of the state, or of the governing authority of the parish, or any agent thereof.

Private person means any individual, group of individuals, firm, corporation, association, partnership, private entity or other legal entity, or any agent thereof.

Responsible person means the operator or operators of a sewerage or water system, the owner or owners of a sewerage or water system, the owner or owners of the property on which a sewerage or water system is located, or any or all of them.

Sanitary sewage means human, domestic or acceptable industrial waste, except refuse, including conveying liquid from residences, buildings, industrial establishments or other places, together with such groundwater, surface water, stormwater and other wastes as may be present.

Sewerage system means any or all of the various components, including piping and pumping and treatment facilities, comprising a system designed for the collection and/or treatment and/or disposal of sanitary sewage. A sewerage system may be owned, operated and/or maintained by a political entity or private person.

State sanitary code means the rules and regulations which pertain to water supplies and sewage and refuse disposal; including, but not limited to, those rules and regulations applicable to the collection, treatment or disposal of sewage, and the treatment and distribution of potable water; and which have been adopted by the state health officer in accordance with title 40 of the Louisiana Revised Statutes of 1950.

Ten-State Standards means the Recommended Standards for Water Works (2012 edition), or the Recommended Standards for Wastewater Facilities (2004 edition), or both, published by the Great Lakes—Upper Mississippi River Board of State Public Health and Environmental Managers; and any modifications, additions or revised editions to such standards as are established in the state sanitary code, or which are otherwise authorized by the state health officer.

Water system means a source of groundwater, treatment, if necessary, storage, distribution and/or the appurtenances and related facilities that make it available for use. A water system may be owned, operated and/or maintained by a political entity or private person.
(Code 1998, § 23-105.00)

Sec. 40-5. Applicability of rules and regulations.

Whenever relevant and appropriate, the provisions of these rules and regulations shall apply to any individual, public, profit, nonprofit or not-for-profit sewerage or water system located in the parish.
(Code 1998, § 23-107.00)

Sec. 40-6. Applicable operating requirements.

(a) Every sewerage and water system located within the parish shall be operated in accordance or compliance with applicable law, which shall include, but not limited to, all applicable ordinances of the parish, and the rules and regulations of any state or local agency having jurisdiction over sewerage or water systems in the parish.

(b) Nothing in these rules and regulations shall be construed to preclude or stay a responsible person from complying with the lawful requirements of any other federal, state or local agency having jurisdiction over the construction, operation, monitoring and connection of sewerage and water systems.

(Code 1998, § 23-109.00)

Sec. 40-7. Familiarity with rules and regulations.

Every responsible person shall know and be familiar with the provisions of these rules and regulations.

(Code 1998, § 23-111.00)

Sec. 40-8. Severability of rules and regulations.

If any provisions or items of these rules and regulations, or the application thereof, is held invalid, such invalidity shall not affect other provisions, items or applications of these rules and regulations which can be given effect without the invalid provision, items or applications, and to this end, the provisions of these rules and regulations are hereby declared severable.

(Code 1998, § 23-113.00)

Sec. 40-9. Compliance with rules and regulations required.

(a) Every responsible person shall comply with the provisions of the rules and regulations of the department as set forth in this section.

(b) Whenever facts and circumstances exist whereby the department determines that a responsible person has acted in a manner contrary to or inconsistent with the provisions and requirements set forth in title 1 of the rules and regulations of the department (hereinafter referred to as the "deficiency"), the department shall cause to be issued to said responsible person a notice which cites the deficiency, directs compliance with the rules and regulations of the department, and prescribes a reasonable amount of time to accomplish such direction.

(c) If no or insufficient action is taken after proper notice, the department, upon expiration of the time prescribed in said notice, shall be authorized to impose upon said responsible person, as defined in this section, a penalty not to exceed \$100.00 per day for each day the deficiency existed from date of said notice, however, the cumulative total of such penalty shall not exceed \$10,000.00. In addition thereto, the department may terminate or require the termination of any utility service to the subject premises.

(d) As further provided by applicable law, the department shall be authorized to enforce the collection of an imposed penalty, such to include the filing of an affidavit of lien on the subject property or any property found or within the parish which is owned by the responsible party.

(e) Any responsible person who has been assessed a penalty may appeal the imposition of the penalty in writing to the parish council within 30 days. The council shall thereafter hear the appeal in an open and public session at its next regular meeting. An appeal from the council's decision shall be to the 22nd Judicial District Court for the parish within 30 days of the council's decision.

(f) The director of the department shall be authorized to recommend or prescribe additional procedures or practices he deems necessary and advisable to effect the provisions of this section.

(Code 1998, § 23-115.00)

Secs. 40-10—40-36. Reserved.

ARTICLE II. MONITORING OF SEWERAGE AND WATER SYSTEMS

Sec. 40-37. Systems subject to monitoring requirements.

Every governed sewerage system and every governed water system shall be subject to and participate in the water quality monitoring program established, implemented and administered pursuant to the provisions of this section.

(Code 1998, § 23-201.00)

Sec. 40-38. Monitoring of governed sewerage systems.

Every governed sewerage system shall make available to the department for its review, upon the department's request, all monitoring data required to be furnished to the DEQ as set forth in the water discharge permit issued by the DEQ for the treatment works for the system. Such monitoring data shall be reported on a discharge monitoring report (DMR) form (EPA No. 3320-1 or an approved substitute). For inspection purposes, copies of all such monitoring reports shall be kept on-site at, or in reasonable proximity to, the permitted facility for a period of at least three months from the date of the sample measurement or report of such measurement.

(Code 1998, § 23-203.00)

Sec. 40-39. Monitoring of governed water systems.

Every governed water system shall make available to the department for its review, upon the department's request, all monitoring data effected as a consequence of the system's sampling plan approved by the DH&H pursuant to the federal Safe Drinking Water Act, as amended, or any rules and regulations effective or promulgated under the authority of said Act or under such authority delegated to the DH&H by the U.S. Environmental Protection Agency. Additionally, every governed water system shall make available to the department for its review, upon the department's request, all monitoring data affected as a consequence of the system's

compliance with rules and regulations effective or promulgated under the authority of the parish or under any such authority as mandated by local, state or federal law. For inspection purposes, copies of all such monitoring data provided shall be kept on-site at, or in reasonable proximity to the monitored facility for a period of at least three months from the date of the sample measurement or report of such measurement.

(Code 1998, § 23-205.00)

Sec. 40-40. Other means of compliance.

The parish president is hereby authorized and directed to negotiate with the responsible person for any governed sewerage system or governed water system a memorandum of understanding and/or agreement, the effect of which shall be to assure compliance with the provisions of this section.

(Code 1998, § 23-207.00)

Secs. 40-41—40-70. Reserved.

ARTICLE III. INSPECTION OF SEWERAGE AND WATER SYSTEMS

Sec. 40-71. Sewerage system inspection permit fee.

In order to defray the costs associated with the inspection on-site sewage disposal systems serving all new or existing buildings or structures, a \$25.00 sewerage system inspection permit fee is hereby assessed for the issuance of each sewerage system inspection permit. Such sewerage system inspection permit fee shall be in addition to any other applicable fee collected by the parish.

(Code 1998, § 21-408.00; Ord. No. 02-0538, 9-5-2002)

Sec. 40-72. Authority of the department.

(a) The department, in order to monitor the operation of any individual, public, profit, nonprofit, or not-for-profit sewerage or water system located in the parish, may authorize any employee or agent of the department to enter upon the premises of any such sewerage or water system at a reasonable time and in a reasonable manner for the purpose of inspecting any such sewerage or water system in order to determine that the operation of the sewerage or water system is conducted in accordance or compliance with applicable law. The responsible person for the property upon which the inspection is conducted, by reason of his operation of the sewerage or water system to be inspected, impliedly consents to the entrance of the said authorized employee or agent upon the property, and same shall not be deemed a trespass.

(b) Any inspection of a sewerage or water system conducted pursuant to the provisions of this section is for the use and benefit of the department and shall not be considered as an affirmation that the operation of the inspected sewerage or water system is in accordance or compliance with applicable law.

(Code 1998, § 23-301.00)

Sec. 40-73. Frequency and manner of inspection.

(a) The department shall be authorized to inspect every governed sewerage system and every governed water system in the parish.

- (1) Incidental to the inspection of a governed water system, the department, in the interest of public health and safety, and in cooperation and agreement with the responsible person for such system and the fire chief for the fire protection district in which the system is located, may inspect the fire hydrants which are a part of the system for the purposes of determining the operability of said fire hydrants.
- (2) In conducting an inspection of a governed sewerage system or a governed water system, the department shall conform to the relevant and appropriate practices and procedures of the DEQ and the DH&H as such practices and procedures relate respectively to the inspection of said sewerage or water systems.

(b) The department may provide for an immediate inspection of any sewerage or water system:

- (1) Upon the voluntary request of the responsible person for the system to be inspected; or
- (2) Whenever there is positive and reliable information that the operation of a sewerage or water system is not in accordance or compliance with applicable law.

(Code 1998, § 23-303.00)

Sec. 40-74. Report of deficient condition.

Whenever an inspection of a sewerage or water system discloses that the system is not being operated in accordance or compliance with applicable law, the department shall cause to be served upon the responsible person a written notice of the condition, and such notice shall direct the responsible person to perform at his expense all work necessary to ensure that the operation of the system is in accordance or compliance with applicable law, and give the responsible person an opportunity within a specified period of time to remedy the deficient condition, and otherwise to conform with applicable law.

(Code 1998, § 23-305.00)

Sec. 40-75. Remedial action.

Upon the expiration of the time prescribed in the written notice issued pursuant to section 40-74, a reinspection of the sewerage or water system shall be conducted to determine if the

deficient condition noted during the original inspection has been remedied. If the deficient condition still exists, the department shall perform all necessary work to remedy the deficient condition and assess the responsible person for the reasonable cost of such work. Should the responsible person fail to pay such costs, the department shall file an affidavit of lien on the property or system specifically identifying the property or system affected, and the amount of any and all costs, fees, and delinquent payment charges to date of filing and that may be accruing. Any lien which was filed against real property and not paid timely shall be added to the annual ad valorem tax bill of the owner or owners of such property.
(Code 1998, § 23-307.00)

Sec. 40-76. Assessment of fees.

(a) In order to defray the costs associated with the inspection of sewerage and water systems, a recurring monthly fee is hereby assessed on every governed water system with 50 or more service connections. The amount of the monthly fee shall equal \$0.30 times the total number of service connections served by the system during the month. A water system service connection is intended to mean the separate and/or ultimate distribution point (e.g., premises, dwelling unit, etc.) of potable water and may be commonly known as a "customer," "beneficiary" or "subscriber" of the water system. On or before the last day of the month immediately succeeding the month in which the monthly fee is assessed, the responsible person for the governed water system shall send to the department a statement showing the total number of service connections served by the system during the month in which the monthly fee was assessed as evidenced by the records maintained by the responsible person and, along therewith, the responsible person shall remit the said monthly fee due and payable to the department at its business office in Mandeville, Louisiana. If a dispute arises, such remittance may be adjusted upon mutual agreement of the department and the responsible person.

- (1) If the department disputes the aforesaid statement submitted by the responsible person, then, within ten days after receipt thereof, the department shall provide a written notice to the responsible person setting forth in detail each item in dispute and the reason the department disputes same. Promptly after receipt of such written notice, the director and the responsible person, or a duly authorized representative thereof, shall meet and attempt to resolve by mutual agreement all disputes prior to the time of the next succeeding monthly statement and remittance. If the department and the responsible person are unable to resolve any disputed item as herein provided, either may pursue any remedy afforded it at law or in equity.
- (2) Any monthly fee, or portion thereof, not paid in full on or by the date due and payable for such payment, shall be considered past due and delinquent and a penalty of ten percent of the amount due shall be added should an attorney be required to collect said fee.

- (3) The parish president is hereby authorized and directed to negotiate with the responsible person for any governed water system a memorandum of understanding and/or agreement, the effect of which shall be to assure compliance with the provisions of this section.

(b) The fee assessed to conduct an immediate inspection of a governed sewerage system or governed water system shall be reasonable and commensurate with the cost of the inspection and, if applicable and at the discretion of the department, may be in addition to the monthly fee assessed on a governed water system.

- (1) The fee assessed to conduct an immediate inspection of any other sewerage or water system shall be \$30.00. If sampling for the purpose of laboratory analysis is essential to the inspection, the actual cost of the laboratory analysis shall be added to the fee.
- (2) Whenever an immediate inspection of a sewerage or water system is to be conducted as a result of a voluntary request of the responsible person for the system, the fee assessed shall be due and payable in full to the department prior to the conduct of the inspection.
- (3) Whenever an immediate inspection of a sewerage or water system is conducted as a result of the positive and reliable information received by the department that the operation of the sewerage or water system is not in accordance or compliance with applicable law, the fee assessed shall be due and payable in full to the department upon presentation of a written notice to the responsible person. Any amount not paid at that time shall be considered past due and a delinquent payment charge of 1½ percent per month (18 percent annual percentage rate) will be added to any past due amount. However, a fee shall not be assessed if any such inspection reveals to the satisfaction of the department that the system is being operated in accordance or compliance with applicable law, or there exists a condition of such degree or a circumstance as not to warrant the assessment of a fee.

(c) Before referral under section 40-77, the parish president may compromise the amount of the fee assessed pursuant to a provision of this section and which is due and payable to the department.

(Code 1998, § 23-309.00)

Sec. 40-77. Fee recovery.

(a) Whenever relevant and appropriate, the department shall notify in writing the responsible person of the fee assessed either by mail or hand delivered in person. Upon passage of the date such fee is due and payable to the department and without receipt of such fee in full, the department shall submit to legal counsel to pursue collection of the fee. Should suit be commenced to enforce collection of any money owing the department, in addition to the principal amount due, delinquent payment charges, reasonable attorney's fees, judicial interest from the date the amount became due, plus all costs of the legal proceedings shall be added.

(b) Should the department complete the work directed in a notice of direction as provided in section 40-75, the assessed fee and any delinquent payment charge shall be added to the cost of such work.

(c) Any fee collected pursuant to a provision of this section shall be paid to the department and placed into a special fund, the use of which shall be for the administration of the provisions of this article which relate to the inspection of sewerage and water systems.

(Code 1998, § 23-311.00)

Secs. 40-78—40-97. Reserved.

ARTICLE IV. CONNECTION OF SEWERAGE AND WATER SYSTEMS

Sec. 40-98. Authority of the department.

As further provided in this section, the department shall have authority over all construction necessary or incidental to the provision of sewage disposal and water in the unincorporated portion of the parish. Plans and specifications for sewerage and water systems to be constructed in said portion of the parish shall be submitted to and approved by the department prior to initiating such construction, and the conduct of such construction shall be subject to inspection by the department. Copies of any amendments to plans and specifications for such systems shall also be submitted to the department, and the department shall approve such amendments prior to operation of such systems.

(Code 1998, § 23-401.00)

Sec. 40-99. Connection to sewerage (sewage) system and potable water system required.

(a) *Connection to sewerage (sewage) system required.*

- (1) Any private person or political entity who/which owns, leases or otherwise maintains or possesses control of any property which is situated in the unincorporated portion of the parish, and on which there is located a residence, camp, trailer coach or any other building, structure or establishment wherein people customarily or occasionally live, work or congregate, shall connect any such premises to a sewerage system as may be required for the premises by applicable law.
- (2) Any private person or political entity who/which owns, leases, or otherwise maintains or possesses control of any property which is situated in the unincorporated portion of the parish and on which there is located a residence, camp, trailer coach or any other building, structure or establishment wherein people customarily or occasionally live, work or congregate, shall, at such person's sole expense, connect any such premises to a public sewerage system if such public sewer line is situated within 300 feet of the boundary line of such premises. Such construction to connect the premises shall

commence within the time required by R.S. 33:4042, upon receipt of a notice to connect. If such connection is not begun in the time required, the parish may connect the premises to the public sewer in the manner prescribed by R.S. 33:4041 et seq., and apportion the connection costs and fees to each owner as also provided therein. The parish shall have all other remedies for enforcement and collection of connection costs and fees as is provided by applicable law.

(b) *Connection to potable water system required.*

- (1) Any private person or political entity who/which owns, leases, or otherwise maintains or possesses control of any property which is situated in the unincorporated portion of the parish, and on which there is located a residence, camp, trailer coach or any other building, structure or establishment wherein people customarily or occasionally live, work or congregate, shall connect any such premises to a potable water system as may be required for the premises by applicable law.
- (2) Any private person or political entity who/which owns, leases, or otherwise maintains or possesses control of any property which is situated in the unincorporated portion of the parish, and on which there is located a residence, camp, trailer coach, or any other building, structure, or establishment wherein people customarily or occasionally live, work or congregate, shall, at such person's sole expense, connect any such premises to a public water system if such public water line is situated within 300 feet of the boundary line of such premises. If such connection is not begun in the time prescribed by notice to the owner, the parish may connect the premises to the public water system in the manner prescribed by section 40-332, and assess the connection costs and fees to each owner as also provided therein. The parish shall have all other remedies for enforcement and collection of connection costs and fees as is provided by applicable law.

(Code 1998, § 23-402.00; Ord. No. 11-2494, 4-7-2011)

Sec. 40-100. Determination and notice of deficiency.

Whenever facts and circumstances exist whereby the department of health and hospitals, office of public health (the DH&H) determines that the failure to properly or timely connect a subject premises to a sewerage system would likely pose a danger or threat to public health or the environment, the department, upon receipt of such written determination, shall be authorized to issue a notice to the private person or political entity whose action or inaction has been determined to be the cause of such deficiency. Said notice shall identify the deficiency, direct its correction, and prescribe a reasonable amount of time to accomplish such correction.

(Code 1998, § 23-402.01)

Sec. 40-101. Authority to impose penalty and enforce collection.

(a) If no or insufficient action is taken after proper notice of direction to correct said deficiency, the department, upon expiration of the time prescribed in said notice, shall be authorized to impose upon said private person or political entity a penalty not to exceed

\$100.00 per day for each day the deficiency existed from date of said notice, however, the cumulative total of such penalty shall not exceed \$10,000.00. In addition thereto, the department may terminate or require the termination of any utility service to the subject premises.

(b) As further provided by applicable law, the department shall be authorized to enforce the collection of an imposed penalty, such to include the filing of an affidavit of lien on the subject property or any property found or within the parish which is owned by the subject private person or political entity.

(c) Any private person or political entity who/which has been assessed a penalty may appeal the imposition of the penalty in writing within 30 days to the parish council which shall hear the appeal in an open and public session at its next regularly scheduled meeting. Any subsequent and final appeal shall be to the 22nd Judicial District Court for the parish within 30 days of the council's decision.

(Code 1998, § 23-402.02)

Sec. 40-102. Authority to prescribe standards.

The DH&H shall be authorized to recommend or prescribe additional procedures or practices it deems necessary and advisable to effect the provisions of section 40-99.

(Code 1998, § 23-402.03)

Sec. 40-103. Submittal of detailed plans and specifications.

(a) Prior to the start of construction or modification of a governed sewerage system or governed water system, detailed plans and specifications shall be submitted by the responsible person for the system to be constructed or modified and shall be reviewed and, contingent upon any revisions to such plans and specifications as may be required to meet compliance, approved by the department in accordance and compliance with applicable law which shall include the Ten-State Standards and the Louisiana Water Well Rules, Regulations and Standards.

- (1) As such relates to the provisions of this subsection, whenever there is a participatory and coordinated effort between the department and the district engineer of the office of public health of the state department of health and hospitals, the department shall affirm any approval granted by the said state entity when the subject plans and specifications for sewerage and water systems to be constructed or modified are in accordance and compliance with applicable law.
- (2) Upon the expiration of one year from the date on which such approval was granted and the proposed construction or modification is not complete, any approval or affirmation thereof by the department of the subject plans and specifications shall be void. Accordingly, prior to the conduct of any proposed or subsequent construction or modification, the responsible party shall again comply with the provisions of subsection (a)(1) of this section. However, upon written application to, and at the discretion of

the department, a conditional or absolute waiver of the effect of the provisions of this article may be issued. With regard to any restorative compliance effort required herein, no additional fees shall be attached thereto.

(b) Any review and subsequent approval of the plans and specifications for the construction or modification of a governed sewerage system or governed water system is for the use and benefit of the department and shall not be considered as an affirmation that the construction, modification or operation of the sewerage or water system is or will be in accordance or compliance with applicable law which shall include the Ten-State Standards and the Louisiana Water Well Rules, Regulations and Standards.

(Code 1998, § 23-403.00)

Sec. 40-104. Governed water systems, fire suppression capacity.

(a) Whenever a governed water system is to be constructed or modified, the construction and modification of such system shall provide for an adequate water flow for fire suppression purposes as outlined in the National Fire Protection Association Standard 1142 (Standard on Water Supplies for Suburban and Rural Fire Fighting, 2012 edition, chs. 1—5) and include fire hydrants which shall be located and installed as required by applicable law and these rules and regulations. A copy of National Fire Protection Association Standard 1142 (Standard on Water Supplies for Suburban and Rural Fire Fighting, 2012 edition, chs. 1—5) shall be appended to this section and made a part thereof.

(b) For the purposes of the provisions of this section, a governed water system shall mean a public water supply as defined in part XII of the state sanitary code, the rates and tariffs for which are established by the state public service commission.

(c) There shall be established a mean water flow capacity classification for the fire hydrants connected to a governed water system, such to be determined initially and subsequently on an annual basis by a licensed professional engineer, an operator, as defined in R.S. 40:1141(D), who possesses a valid and current water distribution (Class IV) certification issued by the Louisiana Department of Health and Hospitals/Office of Public Health ("LA DHH/OPH), or appropriate personnel from the affected fire protection district, all in a manner consistent with the practices of the department which relate to the submittal of detailed plans and specifications and/or as-built drawings. Any such determination shall be made for the sole use and benefit of the department and water service provider, and shall not be considered in any manner whatsoever as a warranty or guarantee of the water flow capacity of a governed water system or its availability for connection thereto.

(d) To determine the mean water flow capacity classification for the fire hydrants connected to a governed water system, the water service provider shall submit to the department a detailed as-built drawing of said system which shall include an inventory and location of all fire hydrants that are connected thereto. Each fire hydrant shall be readily accessible for its intended

use and in good operating order. The mean water flow capacity classification shall be determined by measuring the water flow of each fire hydrant connected to the governed water system and dividing the sum of such measurements by the total number of fire hydrants.

(e) As such relates to the functionality of, and the approximation of the water flow capacity for each fire hydrant connected to the subject system, the governed water system shall maintain each fire hydrant in good operating order. The barrel of each fire hydrant shall be painted chrome yellow and the top and nozzle caps of each fire hydrant shall be painted to signify the classification of its relative water flow capacity according to the uniform color scheme for such as set forth below, and affix a blue colored, raised reflective marker on the roadway in proximity to each fire hydrant; and the conduct of such action to its resolution shall be subject to inspection by the department.

(f) The procedure to measure the water flow capacity of a fire hydrant shall conform to the relevant instructions for such as set forth in appendix B of American Water Works Association (AWWA) Standard C502, as amended from time to time, and appendix B of American Water Works Association (AWWA) Standard C503, as amended from time to time.

- (1) The classification of a fire hydrant rated in terms of its relative capacity shall conform to the relevant provisions for such as set forth in appendix B of AWWA Standard C502 and appendix B of AWWA Standard C503.
- (2) The uniform color scheme of a fire hydrant to signify the approximate capacity of water flow shall conform to the relevant provisions for such as set forth in appendix B of AWWA Standard C502 and appendix B of AWWA Standard C503.
- (3) A copy each of appendix B of AWWA Standard C502 and appendix B of AWWA Standard C503 shall be appended to this section and made a part thereof.

(g) There shall be a fire hydrant at each street intersection unless intersections are less than 500 feet apart and all intermediate hydrants shall be located not more than 500 feet apart. All fire hydrants shall be located in a right-of-way or utility servitude.

- (1) Fire hydrants shall have at least three outlets per hydrant; one shall be a steamer connection to allow fire apparatus to provide water from the hydrant to the apparatus and there shall be at least two 2.5-inch outlets with National Standard Threads.
- (2) Fire hydrants shall remain free of any and all manner of obstruction that could interfere with accessibility or visibility. All fire hydrants shall have a five-foot minimum clearance from the center of the hydrant outward in all directions.
- (3) Whenever facts and circumstances exist whereby the department determines that any private person or owner has acted in a manner contrary to or inconsistent with the provisions and requirements set forth in this section (hereinafter referred to as the "deficiency"), the department shall cause to be issued to said private person or owner a

notice which cites the deficiency, directs compliance with the rules and regulations of the department, and prescribes a reasonable amount of time to accomplish such direction.

- (4) If no or insufficient action is taken after proper notice, the department, upon expiration of the time prescribed in said notice, shall be authorized to impose upon said private person or owner, as defined in this chapter, a penalty not to exceed \$100.00 per day for each day the deficiency existed from date of said notice.
- (5) The department shall be authorized to perform all necessary work to remedy the deficient condition and assess the private person or owner for the reasonable cost of such work. Should the private person or owner fail to pay such costs, the department shall be authorized to enforce collection by filing an affidavit of lien on the property specifically identifying the property affected, and the amount of any and all costs, fees and delinquent penalties which may be accruing. Any lien which was filed against real property and not paid timely shall be added to the annual ad valorem tax bill of the owner or owners of such property.
- (6) Any private person or owner who has been assessed a penalty may appeal the imposition of the department's penalty in writing to the parish council within 30 days. The council shall thereafter hear the appeal in an open and public session at its next regular meeting. An appeal from the council's decision shall be to the 22nd Judicial District Court for the parish within 30 days of the council's decision.

(h) As a condition of any environmental utility service agreement which is executed or amended pursuant to the relevant provisions of said Code of Ordinances and this section, fire hydrants connected to the governed water system shall conform with the provisions set forth in this section. In addition thereto, the operation and maintenance of the governed water system, which shall include affixing and maintaining a blue colored, raised reflective marker on the roadway in proximity to each fire hydrant, shall be in accordance with the provisions of applicable law and these rules and regulations.

(i) The department to the extent which is reasonable and practical shall enforce the provisions set forth in paragraph E of the environmental services section of the Supplemental Code, ch. 5 (Buildings and Construction) of the Code of Ordinances of the parish, all in a manner set forth in an environmental utility service agreement which may be executed or amended pursuant to the relevant provisions of said code of ordinances and this section.

(j) As a condition of any environmental utility service agreement which is executed or amended pursuant to the relevant provisions of said Code of Ordinances and this section, the department is authorized to assess a recurring monthly fee (the "fee") on the subject provider of water service to defray the department's costs associated with the inspection of the operation, maintenance, and connection of a governed water system. The amount of the fee shall equal the percentage assigned to the mean water flow capacity classification for the fire hydrants

connected to the governed water system (the "factor") of the monthly gross billing amount for all water usage services which are provided to the users and subscribers (the "customers") by connection to the governed water system. The factor shall be as follows, to wit:

<i>Classification Residential Factor* Factor for Nonresidential Customers</i>		
Class AA	7.75%	10.00%
Class A	6.50%	7.75%
Class B	5.25%	6.50%
Class C	3.00%	5.25%

*For the purposes of this section, residential shall mean all detached single-family dwellings and attached two-family (duplex) dwellings.

- (1)

The collection from the customers of the amount of the fee by the subject water service provider shall be subject to the provisions set forth in the general order of the state public service commission issued October 18, 1988. Accordingly, the line item on the customers invoice or bill shall reflect the purpose of the fee with full or abbreviated text (e.g., fire flow inspection fee, fire protection fee, fire flow fee, parish fire flow fee or other appropriately descriptive term).
- (2)

As a condition of any environmental utility service agreement which is executed or amended pursuant to the relevant provisions of said Code of Ordinances and this section, a portion of the fee shall be used by the subject water service provider in consideration of and to defray any administrative costs associated with the implementation of the provisions of said agreement and any costs associated with the planning, financing, construction and improvement or extension of the governed water system, all for the purpose of improving and/or maintaining water flow for fire suppression purposes.
- (3)

As a condition of any environmental utility service agreement which is executed or amended pursuant to the relevant provisions of said Code of Ordinances and this section, whenever the responsible person for the governed water system submits to the department for its review plans and specifications for the modification of the governed water system, the fee required to be paid to the department shall be waived.
- (4)

The fee, when submitted for the corresponding billing period, shall be in lieu of the fee imposed by the department which is set forth in section 40-76(a) of these rules and regulations.
- (k)

Whenever facts and circumstances exist whereby the requirements of this section may be effected in a more superior manner by some other means of compliance, any environmental utility service agreement contemplated by this section may include provisions for said other means of compliance.

(l) Whenever facts and circumstances exist whereby the requirements of an environmental utility service agreement contemplated by this section may be effected in a more superior manner by some other means of compliance, the parish president is hereby authorized and directed to negotiate with the responsible person for a governed water system a memorandum of understanding and/or agreement, the effect of which shall include provisions for said other means of compliance.

(m) Any environmental utility service agreement which is contemplated pursuant to the relevant provisions of said Code of Ordinances and this section shall be established by ordinance of the governing authority of the parish, the provisions for which shall be set forth in article IX of these rules and regulations.

(n) The director of the department shall be authorized to take all action which may be necessary to administer and enforce the provisions of this section. The department may waive or modify the requirements of this section upon determination that the implementation of the provisions of this section would prove to be a manifestly unreasonable financial hardship.
(Code 1998, § 23-404.00)

Sec. 40-105. Fees assessed to review plans and specifications.

(a) The fee assessed to review plans and specifications for the construction or modification of any sewerage or water system or systems, the construction or modification of which is associated with a subdivision development proposed for approval by the parish planning commission shall be in accordance with the provisions of the parish Ordinance No. 91-1470, to-wit: \$20.00 plus \$5.00 per lot upon application for tentative plan approval; \$10.00 per lot upon application for preliminary plan approval; and \$15.00 per lot upon application for final plan approval.

(b) The fee assessed to review the plans and specifications for the construction or modification of a governed sewerage system or governed water system not subject to the fee schedule specified in subsection (a) of this section shall be:

- (1) Five dollars plus \$0.02 per each linear foot of water distribution pipe to be constructed or modified, and/or \$0.03 per each linear foot of sewage collection pipe to be constructed or modified in addition to \$5.00 per water supply facility (e.g., well) to be constructed or modified, and/or per sewage collection or treatment facility (e.g., plant, pond, lift station) to be constructed or modified.
- (2) It is the intent of the provisions of this section that a water supply facility or a sewage collection or treatment facility shall mean the individual, distinct components, respectively of a governed water system or governed sewerage system. Hence, a sewage treatment system with one or more aerated lagoons and associated pumping and treatment infrastructure in immediate proximity thereto shall be considered one sewage treatment facility. However, an associated, but remote lift station shall be considered a

separate sewage collection facility. Manhole access points shall not be considered a separate sewage collection facility, but merely an element of the linear footage of the sewage collection piping.

(c) Any fee assessed pursuant to a provision of this section shall be due and payable in full to the department upon the ordinary application for subdivision plan approval by the parish planning commission, as provided by an ordinance of the parish, or otherwise upon the submittal of the detailed plans and specifications to the department by the responsible person for the governed sewerage system or governed water system to be constructed or modified. Upon collection of any fee assessed pursuant to a provision of this section, such fee shall be placed into a special fund, the use of which shall be for the administration of the provisions of this section which relate to the review of plans and specifications for the construction or modification of sewerage or water systems.

(Code 1998, § 23-405.00)

Sec. 40-106. Systems to comply with plans and specifications.

Every governed sewerage system or governed water system shall be constructed or modified in accordance with the plans and specifications for installation which have been approved in advance by the department prior to the start of construction or modification.

(Code 1998, § 23-407.00)

Sec. 40-107. Inspection of construction or modification.

(a) To monitor the construction or modification of any governed sewerage system or governed water system, the department may authorize any employee or agent of the department to inspect at a reasonable time and in a reasonable manner any such sewerage or water system in order to determine that the construction or modification of such sewerage or water system is conducted in accordance and compliance with the plans and specifications for installation which have been approved in advance by the department prior to the start of construction or modification. In carrying out this power, the authorized employee or agent of the department may enter private and public properties. As such relates to the provisions of subsection (a) of this section, whenever there is a participatory and coordinated effort between the department and the parish engineer, the department shall acknowledge the results of any inspection conducted by the said parish engineer.

(b) Any inspection of a sewerage or water system conducted pursuant to a provision of this section is for the use and benefit of the department and shall not be considered as an affirmation that the construction, modification, or operation of the inspected sewerage or water system is or will be in accordance or compliance with applicable law which shall include the Ten-State Standards and the Louisiana Water Well Rules, Regulations and Standards.

(Code 1998, § 23-409.00)

Sec. 40-108. Fees assessed to inspect construction/modification of sewerage or water system.

(a) The fee assessed to inspect the construction or modification of a governed sewerage system or governed water system shall be: \$0.06 per each linear foot of water distribution pipe to be constructed or modified, and/or \$0.11 per each linear foot of sewage collection pipe to be constructed or modified; in addition to \$30.00 per water supply facility (e.g., well) to be constructed or modified, and/or per sewage collection or treatment facility (e.g., plant, pond, lift station) to be constructed or modified.

(b) Any fee assessed pursuant to a provision of this section shall be due and payable in full to the department upon application for preliminary plan approval by the parish planning commission, or otherwise, upon the submittal of the detailed plans and specifications to the department by the responsible person for the governed sewerage system or governed water system to be constructed or modified. Upon collection of any fee assessed pursuant to this section, such fee shall be placed into a special fund, the use of which shall be for the administration of the provisions of this section which relate to the inspection of sewerage or water systems to be constructed or modified.

(Code 1998, § 23-411.00)

Sec. 40-109. Other inspections required.

(a) The department shall provide for the inspection of an individual sewerage system, as defined in the state sanitary code, or a private water supply, as defined in the state sanitary code, whenever either system is constructed or modified and the monitoring or inspection of such construction or modification is not accomplished by the DEQ, DH&H or DOTD.

(b) To the extent applicable and appropriate, provisions within this section which relate to the inspection of the construction or modification of a governed sewerage system or governed water system shall likewise apply to the implementation of the provisions of this section.

(c) The fee assessed to inspect the construction or modification of an individual sewerage system or private water supply as provided in this section shall be \$15.00 and shall be due and payable in full to the department prior to the inspection of said construction or modification. (Code 1998, § 23-413.00)

Sec. 40-110. Authorization to construct an individual water system.

(a) As used in this section, the terms defined herein shall have the following meanings unless the context or use clearly indicates otherwise:

Individual water system means any water system, other than a public water supply as defined in part XII of the state sanitary code, the principal element of which is a water well.

Qualified contractor means a contractor (driller) who is duly licensed by the DOTD in accordance with the state water well rules, regulations, and standards (the "rules"), and whose professional practices and actions are likely to comply with said rules, the rules and regulations of the department, and other applicable law.

(b) A completed application to construct an individual water system shall be submitted to and approved by the department prior to the construction of an individual water system.

(c) The construction of an individual water system shall not occur unless and until an appropriate authorization for the subject work is issued by the department to a qualified contractor.

(d) The conduct of the construction of an individual water system shall be subject to the inspection of the department.

(e) The provision of water shall not occur until the appropriate element of an individual water system is tested by the DH&H or other laboratory which has been appropriately certified by the DH&H for bacterial contamination and a written determination made by said agency or laboratory that such system may be used as a potable water supply.

(f) An authorization and/or inspection of an individual water system is for the use and benefit of the department and shall not be considered as an affirmation that the construction or operation of the individual water system nor the quality or potability of its output, yield and production is or will be in accordance or compliance with applicable law which shall include the rules, the rules and regulations of the department, and other applicable law.

(g) As such relates to the provisions of this section, the fee to apply for an authorization to construct an individual water system shall be \$30.00.

(h) For the purpose of the provisions set forth in this article, the term "responsible person" shall include any private person or political entity who:

- (1) Constructs or intends to construct an individual water system;
 - (2) Owns or operates, or intends to own or operate an individual water system;
 - (3) Owns the property on which an individual water system is located or is to be located; or
 - (4) Any or all of them.
- (Code 1998, § 23-414.00)

Sec. 40-111. Connection to a sewerage or water system.

The provision of sewage disposal or water shall not occur until the constructed or modified sewerage or water system has been inspected by the department or appropriate state authority and determined to be constructed or modified in accordance with the applicable and appro-

priate plans and specifications for installation which have been approved in advance by the department and/or appropriate state authority prior to the start of construction or modification.

(Code 1998, § 23-415.00)

Sec. 40-112. Certification of connection to water system.

(a) Central water system.

- (1) The department shall verify as reliable the certification issued by the entity responsible for the operation and/or administration of the subject central (community) water system (supply), whereby such certification includes:
 - a. The public water supply identification number designated by the state office of public health for the subject system (supply);
 - b. A declaration that the required capacity and distribution service connection is in place and available; and
 - c. A statement that the applicant has paid all fees due and owing said entity for connection to the subject system (supply).
- (2) Whenever facts and circumstances exist whereby the issuance of the certification or portion thereof is infeasible, in lieu of the certification the department may issue to the department of permits and regulatory a letter of no objection to the issuance of the certificate of occupancy.
- (3) Whenever the DH&H issues a determination that facts and circumstances exist whereby the connection to a subject system (supply) would likely pose a danger or threat to public health, the department shall not issue the verification or letter of no objection until such time as said agency appropriately modifies or rescinds the determination.

(b) Individual water system.

- (1) The department shall certify that:
 - a. The subject structure on the building site is not required to connect to a central water system (supply);
 - b. An authorization to construct an individual water system, as defined in section 40-110(a), on the subject building site was issued by the department to a qualified contractor who is duly licensed in accordance with the water well rules, regulations, and standards adopted by the DOTD (the "rules"); and
 - c. The subject individual water system was drilled in accordance with said authorization.

- (2) Whenever facts and circumstances exist whereby the issuance of said certification or portion thereof is infeasible, in lieu of said certification the department may issue to the department of permits and regulatory a letter of no objection to the issuance of the certificate of occupancy.
- (3) Whenever the DH&H issues a determination that facts and circumstances exist whereby the connection to a subject system (supply) would likely pose a danger or threat to public health, the department shall not issue the certification until such time as said agency appropriately modifies or rescinds the determination.

(c) *No affirmation of compliance.* Any verification, certification or letter of no objection issued by the department is for the use and benefit of the department and shall not be considered as an affirmation that the output, yield, production and/or the quality or potability of such output, yield, and production, and/or the operation of the subject water system are or will be in accordance or compliance with applicable law which shall include the rules, the rules and regulations of the department and other applicable law.
(Code 1998, § 23-416.00)

Sec. 40-113. Other means of compliance.

The parish president is hereby authorized and directed to negotiate with the responsible person for any sewerage or water system a memorandum of understanding and/or agreement, the effect of which shall be to assure compliance with the provisions of this section.
(Code 1998, § 23-417.00)

Sec. 40-114. Fee established for activity/action not in compliance or accordance with section.

Whenever any person commences any activity or action to connect to, or to otherwise construct or modify a sewerage or water system without first having complied with the applicable provisions of this article, then, in addition to all other remedies provided by applicable law, the department shall be entitled to collect a fee equal to 200 percent of the established fee otherwise due for said activity or action.
(Code 1998, § 23-419.00)

Secs. 40-115—40-141. Reserved.

ARTICLE V. UNIFORM EFFLUENT DISCHARGE LIMITATIONS

Sec. 40-142. Establishment of limitations.

(a) To advance the protection of public health and the environment, any community-type sewerage system located in the unincorporated portion of the parish which has an anticipated flow of 10,000 gallons per day or more of treated sanitary sewage wastewater into, or into the basin of, any river, bayou, stream or lake within or bordering the parish, shall be operated and maintained in accordance with the following effluent limitations:

	<i>Daily Average</i>	<i>Maximum Average</i>
Biochemical oxygen demand (BOD5)	10 mg/l	15 mg/l
Total suspended solids (TSS)	15 mg/l	23 mg/l
Fecal coliform bacteria	200/100 ml	400/100 ml

(b) Through the cooperative efforts of the state department of environmental quality (the DEQ), administration of these rules and regulations is to be accomplished through the implementation and operation of the Louisiana Pollution Discharge Elimination System (LPDES) administered by the office of water resources of the DEQ. The effluent limitations in these rules and regulations are to have effect on the original, reissuance, or renewal of any water discharge permit issued for every community-type sewerage system, also known as a sanitary sewage treatment works or facility, other than for a system, treatment works, or facility which has an anticipated flow of less than 10,000 gallons per day of treated sanitary sewage wastewater.

(c) Through the cooperative efforts of the state department of health and hospitals (the DH&H), administration of these rules and regulations is also to be accomplished through the implementation and operation of the applicable provisions which relate to the review and approval of plans and specifications for the construction or modification of community-type sewerage systems as provided in part XIII of the state sanitary code as administered by the state health officer through the DH&H. The effluent limitations in these rules and regulations are to have effect upon the approval of plans and specifications for said construction or modification as a part of the permit issued by the state health officer prior to the start of the construction or modification of a community-type sewerage system, also known as a sanitary sewage treatment works facility, other than for a system, treatment works, or facility which has an anticipated flow of less than 10,000 gallons per day of treated sanitary sewage wastewater.

(d) Nothing in these rules and regulations shall be construed to preclude, stay, or otherwise preempt the DEQ from imposing different, more stringent, or seasonally variable effluent limitations in accordance with its established policies, procedures, or rules and regulations, nor the state health officer from imposing more stringent effluent limitations and standards established for a specific community-type sewerage system, treatment works, or facility in accordance with his established policies, procedures or rules and regulations.

(e) For all purposes of the provisions of these rules and regulations, the terms defined herein shall have the following meanings unless the context or use clearly indicates otherwise:

Community-type sewerage system means any sanitary sewerage system, also known as a sanitary sewage treatment works, which is owned, operated, and/or maintained by a political entity or private person. A community-type sewerage system includes any individual, public, profit, nonprofit, or not-for-profit sewerage system whose effluent discharge is subject to the provisions of the Louisiana Environmental Quality Act, as amended, or any rules and regulations effective or promulgated under the authority of the Act.

Political entity means any agency, board, commission, department, or political subdivision of the state, or of the governing authority of the parish, or any agent thereof.

Private person means any individual, group of individuals, firm, corporation, association, partnership, private entity, or other legal entity, or any agent thereof.
(Code 1998, § 23-501.00)

Secs. 40-143—40-167. Reserved.

ARTICLE VI. REQUIRED DISPOSAL OF SEWAGE EFFLUENT DISCHARGED FROM NON-COMMUNITY-TYPE SEWERAGE SYSTEMS

Sec. 40-168. Purpose.

It is the purpose of this article to provide requirements which relate to the disposal of sewage effluent discharged from non-community-type sewerage systems, the effect of said requirements shall be that every non-community-type sewerage system to be installed in the unincorporated portion of the parish shall be so constructed that the disposal of its sewage effluent is realized essentially within the boundaries of the building site upon which the sewage effluent originated by means of an approved post-secondary treatment sewage effluent disposal method.
(Code 1998, § 23-601.00)

Sec. 40-169. Definitions.

As used in this article, the terms defined herein shall have the following meanings, unless the context or use clearly indicates otherwise:

Approved means designed and constructed to achieve the purpose of the provisions of this section.

Approved septic system means a non-community-type sewerage system which provides for the collection, treatment and disposal of sanitary sewage within the boundaries of the building site upon which the sanitary sewage originated. An approved septic system shall not include any non-community-type sewerage system which allows sewage effluent to flow from, or run off the building site. An approved septic system shall include a septic tank and absorption field.

Building site means any land or lot area, grounds, premises, or property, the size of which is 22,500 feet or greater.

Non-community-type sewerage system means any sewerage system, the installation of which requires the issuance by the parish health unit of an application for permit to install individual sewerage system (department of health and hospitals form LHS-47), and whose discharge of

sanitary sewage wastewater is not subject to the provisions of the Louisiana Environmental Quality Act, as amended, or any rules and regulations effective or promulgated under the authority of said Act.

Parish health unit means the staff of either the parish branch office (Mandeville or Slidell) of the office of public health of the state department of health and hospitals who has the authority to issue an application for permit to install individual sewerage system (department of health and hospitals form LHS-47).

Sewage effluent means treated sanitary sewage.
(Code 1998, § 23-603.00)

Sec. 40-170. Applicability of rules and regulations.

(a) The provisions of this article shall have force and effect within the unincorporated portion of the parish.

(b) Nothing in these rules and regulations shall be construed to preclude, stay or otherwise preempt the state health officer or other such regulatory authority from imposing more stringent requirements which relate to the construction or discharge of sewage effluent from a non-community-type sewerage system.
(Code 1998, § 23-605.00)

Sec. 40-171. Administration and enforcement.

The parish health unit shall be authorized to administer and enforce the provisions of this article.
(Code 1998, § 23-607.00)

Sec. 40-172. Fees.

The department shall establish by ordinance a schedule of fees and charges which may be required to administer or enforce the provisions of this article.
(Code 1998, § 23-609.00)

Sec. 40-173. Authority to prescribe standards.

The parish health unit is and shall be authorized to prescribe additional procedures, rules, regulations, specifications and standards it deems necessary and advisable to administer or enforce the provisions of this article.
(Code 1998, § 23-611.00)

Sec. 40-174. Required disposal of sewage effluent.

(a) Every non-community-type sewerage system to be installed in the unincorporated portion of the parish shall be so constructed that the disposal of its sewage effluent is realized essentially within the boundaries of the building site upon which the sewage effluent originated by means of an approved post-secondary treatment sewage effluent disposal method.

(b) To accomplish the provisions of subsection (a) of this section, said installation of a non-community-type sewerage system shall require the construction of an approved septic system. Whenever the parish health unit determines that the installation of an approved septic system is not feasible or would not be in accordance or compliance with applicable law, the parish health unit shall authorize, as may be reasonable and appropriate, an alternative system selected from a list of approved systems which have been specified by the state department of health and hospitals.

(Code 1998, § 23-613.00)

Sec. 40-175. Installation of system to comply with local codes.

(a) Whenever there is installed a non-community-type sewerage system, or any element thereof, which requires the connection to an electrical power source, any and all electrical connections associated therewith must conform with the standards, codes and requirements established and enforced by the governing authority of the parish prior to the operation of said system.

(b) As such relates to subsection (a) of this section, no person shall effect any electrical connection until there is issued by said governing authority an appropriate permit.

(c) To administer the provisions of this section, said governing authority shall collect a fee not to exceed \$35.00 for each applicable installation. However, whenever said installation is directly associated with the filing of a building permit issued by said governing authority, said fee shall not be imposed.

(d) The DH&H and said governing authority shall be authorized to recommend or prescribe additional procedures or practices it deems necessary and advisable to effect the provisions of this section.

(Code 1998, § 23-615.00)

Secs. 40-176—40-203. Reserved.

ARTICLE VII. SPECIFICALLY APPROVED SEWERAGE SYSTEMS

Sec. 40-204. When required.

The owner of any property which is situated in a marsh or swamp, or on, over, or contiguous to any river, stream, bayou, lake or other waterway within or bordering the unincorporated

portion of the parish, and on which there is located a residence, camp or any other structure which is occupied customarily or occasionally as a dwelling, must connect the toilet facilities and other plumbing fixtures within the said residence, camp or structure to a community-type sewerage system where available, or to an individual sewerage system specifically approved for the premises by the state health officer after determining that connection to a community-type sewerage system is not feasible and that the installation and operation of an individual sewerage system will not create a nuisance or public health hazard.

(Code 1998, § 23-701.00)

Sec. 40-205. Authority to prescribe standards.

The parish health unit is and shall be authorized to recommend or prescribe additional procedures, rules, regulations, specifications and standards it deems necessary and advisable to effect a proper administration or enforcement of the provisions of this section by the department.

(Code 1998, § 23-703.00)

Secs. 40-206—40-233. Reserved.

ARTICLE VIII. ADMINISTRATION OF ENVIRONMENTAL SERVICES

Sec. 40-234. Statement of purpose.

The rules and regulations established in this article affect the provision of environmental services which relate to any sewerage system and/or water system which is owned, operated or leased by the department; and for the notice, collection, payment and cancellation of sewerage and water rates established and assessed for sewerage and water facilities owned, operated or leased by the department.

(Code 1998, § 23-801.00)

Sec. 40-235. Statement of policy.

It shall be the policy of the department to provide sewerage and/or water services in accordance with applicable law and any and all obligations or agreements by and between or amongst the department and a private person and/or political entity and which may be in full force and effect.

(Code 1998, § 23-803.00)

Sec. 40-236. Definitions.

Terms used in this article may be defined elsewhere in the rules and regulations. In addition thereto, for use in this article, terms defined in this section shall have the following meanings, unless the context or use thereof clearly indicates otherwise or more explicit definitions are referenced:

Environmental service means sewerage and/or water and/or solid waste disposal service(s) provided by the department or its duly authorized agent or agents.

Restrictive covenant means an appropriate, binding, and abiding term or condition which prescribes or proscribes an action or activity which the department is authorized to regulate and enforce.

(Code 1998, § 23-805.00)

Sec. 40-237. Authority to develop and affect environmental service rates.

(a) The director of the department is authorized and directed to develop any and all environmental service rates due and owing the department for services provided to the subscribers and customers of sewerage and water systems which are owned, operated or leased by the department.

(b) The environmental service rates developed pursuant to the provisions of subsection (a) of this section shall be in full force and effect upon enactment of an ordinance of the governing authority of the parish establishing and assessing such rates.

(Code 1998, § 23-807.00)

Sec. 40-238. Establishment of environmental service rates.

(a) Sewerage and water rates shall be equal and uniform for each grade or class of customers or beneficiaries and shall cover anticipated costs of providing such sewerage or water service. Further, such rates shall be established and assessed in accordance with applicable law and any and all obligations or agreements by and between or amongst the department and a private person and/or political entity.

(b) Rates for a supplementary environmental service which is provided pursuant to an expressed restrictive covenant of a subdivision approved by the parish planning commission shall be similarly established.

(c) The department shall on an annual basis provide for a review and validation of each and every schedule of rates affected for the environmental service the department provides to the customers or subscribers of a sewerage and/or water system owned, operated or leased by the department.

(Code 1998, § 23-809.00)

Sec. 40-239. Notice of environmental service rates.

A copy of the schedule of rates established and assessed for an environmental service provided by the department shall be publicly displayed at the office of the department and, as applicable and appropriate, its billing agents; and provided to any person upon a written request to the department.

(Code 1998, § 23-811.00)

Sec. 40-240. Authority to establish policies and procedures.

(a) The director of the department is authorized and directed to establish policies and procedures for the collection, payment and cancellation of fees paid by subscribers and customers of sewerage and water systems which are owned, operated or leased by the department.

(b) The development and effect of a subject policies and procedures shall be based upon applicable law, industry standards, sound and reasonable principles of business management and with due and proper regard for any and all obligations or agreements by and between or amongst the department and a private person and/or political entity.

(c) The department shall on an annual basis provide for a review and validation of the policies and procedures which may be effected pursuant to this article.

(Code 1998, § 23-815.00)

Sec. 40-241. Notice of policy and procedures.

All policies and procedures effected pursuant to this article shall be made available for review by any person at a reasonable time and in a reasonable matter at the offices of the department and, as applicable and appropriate, its billing agents.

(Code 1998, § 23-817.00)

Sec. 40-242. Enforcement of rules and regulations.

These rules and regulations of the department and all policies and procedures effected pursuant thereto shall be enforced in accordance with applicable law.

(Code 1998, § 23-819.00)

Secs. 40-243—40-262. Reserved.**ARTICLE IX. ENVIRONMENTAL UTILITY SERVICE AGREEMENTS****Sec. 40-263. Authority of the parish.**

The parish shall have sole authority to enter into an environmental utility service agreement with any public or private provider of sewerage or water service wherein the purpose of such

agreement shall be to assign to the provider certain rights of the parish to plan, finance, construct, purchase, own, let, lease, maintain, operate, improve or otherwise extend sewerage or water systems within the unincorporated portion of the parish. The parish may adopt rules and regulations relative to the assignment of such rights, establishment of environmental utility service districts, terms and requirements of said agreements, and fees associated with their application, administration, supervision, and enforcement of said agreement.
(Code 1998, § 23-901.00)

Sec. 40-264. Agreement incorporated into Code.

Any agreement which is authorized by this section and executed by any public or private provider of sewerage or water service and the parish, and each amendment and supplement thereto, shall be incorporated into appendix A (Franchises) of the Code of Ordinances and made a part thereof.
(Code 1998, § 23-903.00)

Sec. 40-265. Authority of the parish president.

The parish president, upon authorization by the parish council, shall execute any document or establish any process or procedure which may be necessary to effect the provisions of this section or an agreement.
(Code 1998, § 23-905.00)

Sec. 40-266. Other means of compliance.

Whenever facts and circumstances exist whereby the provisions of this section or the terms and requirements of an agreement may be effected better by some other means of compliance, the parish president shall be authorized to negotiate and execute with any public or private provider of sewerage or water service a memorandum of understanding and/or agreement, the effect of which shall be to assure compliance with the provisions of this section and/or the terms and requirements of an agreement.
(Code 1998, § 23-907.00; Ord. No. 01-0354, 8-2-2001)

Secs. 40-267—40-295. Reserved.

**ARTICLE X. WASTEWATER MANAGEMENT AREAS AND WASTEWATER
SERVICE AREAS**

Sec. 40-296. Authorization and purpose.

(a) *Authorization.* This article is adopted pursuant to R.S. 33:4064.1 and section 40-1, which states, in part, that the parish government, through its department of environmental services shall be responsible for the protection of public health and the environment through the

control, monitoring and inspection of public and private sewerage and water systems, and R.S. 33:4064.4(H)(1) which sets forth that the parish shall have the authority to plan for the extension of sewerage and water systems within the unincorporated portions of the parish.

(b) *Purpose.* The purpose of this article is to create and establish a planning mechanism to guide and direct the extension of sewerage and water services, the location of regional wastewater treatment facilities and their associated discharge points, the management of decentralized, on-site wastewater treatment systems, and the coordination and consolidation of wastewater collection and treatment, where practicable, within the unincorporated portions of the parish. The established boundaries may also be utilized to guide and direct the management, extension, consolidation and coordination of solid waste collection and disposal within the unincorporated portions of the parish.

(Code 1998, § 23-930.00; Ord. No. 04-0969, 9-2-2004)

Sec. 40-297. Establishment of wastewater management area boundaries.

The parish government hereby establishes five geographical wastewater management areas to facilitate overall monitoring, regulation and enhancement of existing and proposed wastewater treatment in the unincorporated areas of the parish.

- (1) *Wastewater Management Area 1 (West Tchefuncte).* There is herewith created Wastewater Management Area 1 (West Tchefuncte) with the boundaries more fully described as follows:

Commencing at the intersection of the western boundary of the parish and the shore of Lake Pontchartrain, thence follow the western boundary of the parish north to east Bedico Creek, thence follow east Bedico Creek upstream to U.S. Highway 190, thence follow U.S. Highway 190 southeast and east to the western boundary of Barbara Place Subdivision, thence go north, southeast and south along said subdivision boundary back to U.S. Highway 190, thence go east along U.S. Highway 190 to the western boundary of River Forest and the City of Covington, thence follow the said boundary south to the section line common to sections 25 and 36, Township 6 south, Range 10 east, thence go west along said section line to the Tchefuncte River, thence go downstream along the Tchefuncte River to the northern shore of Lake Pontchartrain, thence follow the shore of Lake Pontchartrain west to the western boundary of the parish and the point of beginning. This area excludes the Town of Madisonville.

- (2) *Wastewater Management Area 2 (east Tchefuncte).* There is herewith created Wastewater Management Area 2 (east Tchefuncte) with the boundaries more fully described as follows:

Commencing at the mouth of the Tchefuncte River at Lake Pontchartrain, thence follow the Tchefuncte River upstream to the Bogue Falaya River, thence follow the Bogue Falaya River upstream to the Little Bogue Falaya River, thence follow the Little

Bogue Falaya River upstream to Holly Drive, thence follow Holly Drive southeast to LA Highway 21, thence follow LA Highway 21 northeast to Wilson Road, thence follow Wilson Road east and continue east along the section line common to sections 19 and 20, 20 and 29, and 21 and 28, Township 6 south, Range 12 east to the section corner common to sections 21, 22, 27 and 28, Township 6 north, Range 12 east, thence go south along the section line common to sections 27 and 28 and sections 33 and 34 to the corner common to sections 33 and 34, Township 6 south, Range 12 east and section 3 and 4, Township 7 south, Range 12 east, thence go south 30 degrees west approximately 7,650 feet to LA Highway 36, thence follow LA Highway 36 southeast to the section line common to sections 16 and 17, Township 6 south, Range 13 east, thence follow said section line south to a point 1,200 feet south of LA Highway 36, thence go southeast along a line 1,200 feet south of and parallel to LA Highway 36 to a point 1,000 feet west of LA Highway 434, thence go south along a line 1,000 feet west of and parallel to LA Highway 434 to the section line common to sections 21 and 28, Township 7 south, Range 13 east, thence go west along said section line and continue west along the section line common to sections 20 and 29, Township 7 south, Range 13 east 3,300 feet, thence go south 3,300 feet, thence go east 3,300 feet to the section line common to sections 28 and 29, Township 7 south, Range 13 east and continue south along the section line common to sections 32 and 33, Township 7 south, Range 13 east to a point approximately 2,000 feet north of Bayou Lacombe, thence go west to Beaver Ball Road, thence continue to a point 1,000 feet west of Beaver Ball Road, thence go southeast and southwest along a line 1,000 feet west of and parallel to Beaver Ball Road to Fish Hatchery Road and continue across Fish Hatchery Road to a point 1,000 feet west of Fish Hatchery Road, thence go south west along a line 1,000 feet west of and parallel to Fish Hatchery Road to I-12, thence go northwest along I-12 to the section line common to sections 2 and 2, Township 8 south, Range 12 east, thence go southwest approximately 6,000 feet to the northwest corner of section 42, Township 8 south, Range 12, east, thence go southwest along the section line common to sections 42 and 10, 9, 16 and 17 to the section corner common to sections 17, 42 and 43, Township 8 south, Range 12 east, thence go northwest along the section line common to sections 43 and 17 and 8 to Bayou Castine, thence go downstream along Bayou Castine to the shore of Lake Pontchartrain, thence follow said shore in an westerly direction to the mouth of the Tchefuncte River and the point of beginning. This area excludes the City of Covington, the City of Mandeville and the Town of Abita Springs.

- (3) *Wastewater Management Area 3 (Lacombe)*. There is herewith created Wastewater Management Area 3 (Lacombe) with the boundaries more fully described as follows:

Commencing at the northwest corner of section 42, Township 8 south, Range 12 east, thence go southeast and southwest along the section line common to said section and sections 10, 15 and 16 of said township and range to the section corner common to

sections 16, 21, 42 and 48, Township 8 south, Range 12 east, thence go west along the section line common to sections 42 and 48 of said township and range to Cane Bayou, thence go downstream along Cane Bayou to northern boundary of Big Branch Marsh National Wildlife Refuge, thence follow the northern boundary of said wildlife refuge east and south to Bayou Lacombe, thence go upstream along Bayou Lacombe to the mouth of Cypress Bayou, thence follow Cypress Bayou upstream to a point where the northern boundary of the Big Branch March National Wildlife Refuge leaves the bayou, thence follow said section line eastward to the northwest corner of section 41, Township 9 south, Range 13 east, thence go east along the northern boundary of said section to the section corner common to sections 10, 40 and 41 of said township and range, thence go north along the western section line of section 40, Township 9 south, Range 13 east to the section corner common to sections 2, 3 and 40, Township 9 south, Range 13 east, thence go north along the section line common to sections 2 and 3 to the section corner common to sections 34 and 35, Township 8 south, Range 13 east, and sections 2 and 3, Township 9 south, Range 13 east, thence continue north along the section lines common to sections 34 and 35, 26 and 27 and 22 and 23, Township 8 south, Range 13 east to a point 900 feet north of North Dixie Ranch Road, thence go northwest along a line 900 feet north of and parallel to North Dixie Ranch Road to the section line common to sections 15 and 16, Township 8 south, Range 13 east, thence go north along the section line common to sections 15 and 16 and sections 9 and 10 to the section corner common to sections 3, 4, 9 and 10, Township 8 south, Range 13 east, thence go west along the section line common to sections 4 and 9 of said Township and Range to a point approximately 1,000 feet east of LA Highway 434, thence go northeast along a line east of and parallel to LA Highway 434 to the section line common to section 4, Township 8 south, Range 13 east and section 33, Township 7 south, Range 13 east, thence go east along said section line and north along the eastern section line of section 33, Township 7 south, Range 13 east to a point 1,000 feet south of Horseshoe Island Road, thence go northeast along a line 1,000 feet south of and parallel to Horseshoe Island Road to the eastern section line of section 34, Township 7 south, Range 13 east, thence go north along said section line to Horseshoe Island Road, thence go east along Horseshoe Island Road to a point approximately 700 feet east of the section line common to sections 34 and 35, Township 7 south, Range 13 east, thence go north along a line 700 feet east of and parallel to said section line approximately 1,800 feet, thence go west approximately 3,650 feet, thence go north 3,600 feet to a point 1,000 feet south of LA Highway 36, thence go southeast along a line 1,000 feet south of and parallel to LA Highway 36, approximately 4,900 feet, thence go north to a point approximately 1,400 feet north of LA Highway 36, thence go northwest along a line 1,400 feet north of and parallel to LA Highway 36 to the eastern section line of section 16, Township 7 south, Range 13 east, thence go north along said section line approximately 3,100 feet, thence go west approximately 3,100 feet, thence go south to a point

approximately 900 feet north of LA Highway 36, thence go northwest along a line 900 feet north of and parallel to LA Highway 36 to the western section line of section 16, Township 7 south, Range 13 east, thence go south thence follow said section line south to a point 1,200 feet south of LA Highway 36, thence go southeast along a line 1,200 feet south of and parallel to LA Highway 36 to a point 1,000 feet west of LA Highway 434, thence go south along a line 1,000 feet west of and parallel to LA Highway 434 to the section line common to sections 21 and 28, Township 7 south, Range 13 east, thence go west along said section line and continue west along the section line common to sections 20 and 29, Township 7 south, Range 13 east 3,300 feet, thence go south 3,300 feet, thence go east 3,300 feet to the section line common to sections 28 and 29, Township 7 south, Range 13 east and continue south along the section line common to sections 32 and 33, Township 7 south, Range 13 east to a point approximately 2,000 feet north of Bayou Lacombe, thence go west to Beaver Ball Road, thence continue to a point 1,000 feet west of Beaver Ball Road, thence go southeast and southwest along a line 1,000 feet west of and parallel to Beaver Ball Road to Fish Hatchery Road and continue across Fish Hatchery Road to a point 1,000 feet west of Fish Hatchery Road, thence go south west along a line 1,000 feet west of and parallel to Fish Hatchery Road to I-12, thence go northwest along I-12 to the section line common to sections 2 and 2, Township 8 south, Range 12 east, thence go southwest approximately 6,000 feet to the northwest corner of section 42, Township 8 south, Range 12 east and the point of beginning.

- (4) *Wastewater Management Area 4 (West Slidell)*. There is herewith created Wastewater Management Area 4 (West Slidell) with the boundaries more fully described as follows:

Commencing at the confluence of Bayou Bonfouca and Bayou Liberty, thence follow Bayou Liberty upstream to Bayou Paquet, thence follow Bayou Paquet upstream approximately 3,000 feet to an unnamed branch to the northwest, thence follow the unnamed branch to the northwest across Bayou Paquet Road and continue upstream in a northwesterly direction approximately 3,450 feet, thence go due north to the section line common to sections 40 and 41, Township 8 south, Range 13 east, thence go west along said section line to the southwest corner of section 40, Township 8 south, Range 13 east, thence go northeast along the western line of said section to the section corner common to sections 2, 3 and 40, Township 8 south, Range 13 east, thence go north along the section line common to sections 2 and 3, Township 8 south, Range 13 east to the section corner common to sections 34 and 35, Township 7 south, Range 13 east and sections 2 and 3, Township 8 south, Range 13 east, thence continue north along the section line common to sections 34 and 35, 25 and 26 and 22 and 23 of said township and range to a power line approximately 1,250 feet north of I-12, thence go southeast along said power line to North Dixie Ranch Road, thence follow North Dixie Ranch Road northwest to its intersection with an unnamed road to the east, thence follow said

unnamed road east and north approximately 6,300 feet to its intersection with an unnamed road to the east, thence follow said unnamed road and its extension southeast approximately 4,800 feet to Bayou Liberty, thence follow Bayou Liberty upstream to Journey Road, thence follow Journey Road east to the property line of Slidell Airport thence follow said boundaries east, south, southwest, east, south, east and north to a point where the western boundary of Camp Villere Military Reservation departs to the east, thence go east and southeast along said boundary approximately 8,150 feet, thence go east approximately 1,600 feet, thence go north approximately 8,900 feet, thence go east approximately 5,600 feet, thence go south approximately 14,000 feet to a point west of a westward extension of Fricke Road, thence go east to Fricke Road and continue east to U.S. Highway 11, thence go southwest on U.S. Highway 11 to North Boulevard, thence go east on North Boulevard to the W-14 Canal, thence go downstream along said lateral to the section line common to sections 2 and 3, Township 9 south, Range 14 east, thence go south along said section line to 650 feet to a point where the Slidell city limits depart to the west, thence follow said city limits west and south to Indiana Avenue, thence go west on Indiana Avenue to U.S. Highway 11, thence go north along U.S. Highway 11 to the southern Railroad, thence go south along said railroad approximately 1,800 feet to a western spur of said railroad, thence follow said western spur northwest to the northern section line of section 3, Township 9 south, Range 14 east, thence go west along said section line to Bayou Vincent, thence go downstream along Bayou Vincent to where it becomes Bayou Bonfouca, thence go downstream along Bayou Bonfouca to its intersection with Bayou Liberty and the point of beginning. This area excludes the City of Slidell.

- (5) *Wastewater Management Area 5 (East Slidell)*. There is herewith created Wastewater Management Area 5 (East Slidell) with the boundaries more fully described as follows:

Commencing at the mouth of the Fascine Canal and the north shore of Lake Pontchartrain, thence follow said shore southeast to a point approximately 1,800 feet east of U.S. Highway 90, thence go northeast along a line 1,800 feet east of and parallel to U.S. Highway 90 approximately 27,750 feet to the West Pearl River, thence go upstream along the West Pearl River to the mouth of Morgan River, thence go upstream along Morgan River to Porter's River, thence go west approximately 1,400 feet, thence go southwest along a line 500 feet north of and parallel to Charwood Drive and continue along said line in a southwesterly direction to the section line common to section 13, Township 8 east, Range 13 east and section 18, Township 7 south, Range 15 east, thence go west approximately 620 feet to Old Military Road, thence follow said road northwest to LA Highway 41, thence follow LA Highway 41 northwest to U.S. Highway 11, thence follow U.S. Highway 11 southwest to a point approximately 1,240 feet south of Highway Department Road, thence go west 4,690 feet and the eastern boundary of West Slidell WWMA, thence go south approximately 8,370 feet to a

westward extension of Fricke Road, thence go east to Fricke Road and continue east to U.S. Highway 11, thence go southwest along U.S. Highway 11 to the Slidell city limits, thence follow Slidell city limits in a clockwise direction to the southern Railroad, thence follow said railroad northeast to Slidell city limits, thence go west along said city limits approximately 2,600 feet west of the Southern Railroad, thence go southwest along a line 2,600 feet west of and parallel to said railroad to the section line common to sections 29 and 44, Township 8 south, Range 14 east, thence go west to the shore of Lake Pontchartrain, thence go southeast along the shore of Lake Pontchartrain to the mouth of the Fascine Canal and the point of beginning. This area excludes the City of Slidell and the Town of Pearl River.

(Code 1998, § 23-930.01; Ord. No. 04-0969, 9-2-2004)

Sec. 40-298. Establishment of wastewater management area boundaries.

The parish government hereby establishes 18 geographical wastewater service delivery areas to facilitate the extension of sewerage and water services, the coordination and consolidation of wastewater collection and treatment, and the management of decentralized, on-site wastewater treatment systems.

- (1) *West Tchefuncte Wastewater Service Area 1.* There is herewith created West Tchefuncte Wastewater Service Area 1 with the boundaries more fully described as follows:

Commencing at the intersection of an unnamed branch of east Bedico Creek and LA Highway 1085, thence follow said unnamed branch north to east Bedico Creek, follow east Bedico Creek upstream to U.S. Highway 190, thence follow U.S. Highway 190 southeast and east to the western boundary of Barbara Place Subdivision, thence go north, southeast and south along said subdivision boundary back to U.S. Highway 190, thence go east along U.S. Highway 190 to the western boundary of River Forest and the City of Covington, thence follow the said boundary south to the section line common to sections 25 and 36, Township 6 south, Range 10 east, thence go west along said section line to the Tchefuncte River, thence go downstream along the Tchefuncte River to LA Highway 21, thence follow LA Highway 21 southwest, west and southwest to a point approximately 1,000 feet south of LA Highway 1085, thence go northwest and west along a line 1,000 feet south of and parallel to LA Highway 1085 to its intersection with an unnamed branch of east Bedico Creek and the point of beginning.

- (2) *West Tchefuncte Wastewater Service Area 2.* There is herewith created West Tchefuncte Wastewater Service Area 2 with the boundaries more fully described as follows:

Commencing at the intersection of the western boundary of the parish and LA Highway 22, thence follow the western boundary of the parish north to east Bedico Creek, thence follow east Bedico Creek upstream approximately 5,300 feet to its intersection with an unnamed stream to the south, thence follow said unnamed stream south to LA Highway 1085, thence follow LA Highway 1085 east to LA Highway 1077,

thence follow LA Highway 1077 southeast to LA Highway 21, thence follow LA Highway 21 south to the town limits of Madisonville, thence follow the town limits of Madisonville west to LA Highway 22, thence follow LA Highway 22 northwest and west to the western boundary of the parish and the point of beginning.

- (3) *West Tchefuncte Wastewater Service Area 3.* There is herewith created West Tchefuncte Wastewater Service Area 3 with the boundaries more fully described as follows:

Commencing at the intersection of LA Highway 1077 and Brewster Road, thence follow LA Highway 1077 northwest to a point approximately 1,000 feet south of LA Highway 1085, thence go east and southeast along a line 1,000 feet south of and parallel to LA Highway 1085 to its intersection with LA Highway 21, thence follow LA Highway 21 northeast, east and northeast to the Tchefuncte River, thence follow the Tchefuncte River downstream approximately 18,650 feet to a power line, thence follow said power line northwest and west to LA Highway 1077 and the point of beginning.

- (4) *West Tchefuncte Wastewater Service Area 4.* There is herewith created West Tchefuncte Wastewater Service Area 4 with the boundaries more fully described as follows:

Commencing at the intersection of LA Highway 21 and the northern town limits of Madisonville, thence follow LA Highway 21 north to its intersection with LA Highway 1077, thence follow LA Highway 1077 northwest approximately 9,200 feet to a power line, thence follow said power line east and southeast to the Tchefuncte River, thence follow the Tchefuncte River downstream to its intersection with the northern town limits of Madisonville, thence follow the town limits of Madisonville northwest to LA Highway 21 and the point of beginning.

- (5) *West Tchefuncte Wastewater Service Area 5.* There is herewith created West Tchefuncte Wastewater Service Area 5 with the boundaries more fully described as follows:

Commencing at the intersection of the western boundary of the parish and the shore of Lake Pontchartrain, thence follow the western boundary of the parish north to LA Highway 22, thence follow LA Highway 22 east to the town limits of Madisonville, thence go west, south east and south along said town limits to the shore of Lake Pontchartrain, thence go west along the shore of Lake Pontchartrain to western boundary of the parish and the point of beginning.

- (6) *East Tchefuncte Wastewater Service Area 1.* There is herewith created east Tchefuncte Wastewater Service Area 1 with the boundaries more fully described as follows:

Commencing at the intersection of the Tchefuncte River and the Ponchitolawa Creek, thence follow the Tchefuncte River upstream to its intersection with the Bogue Falaya River, thence follow the Bogue Falaya River upstream to the Little Bogue Falaya River, thence follow the Little Bogue Falaya River upstream to its intersection with Holly Drive, thence follow Holly Drive southeast to its intersection with LA Highway 21, thence follow LA Highway 21 northeast to its intersection with Jackson Street, thence

follow Jackson Street east to Plantation Street, thence follow Plantation Street north to Oak Lane, thence follow Oak Lane and continue east to Lowe Davis Road, thence follow Lowe Davis Road southwest to its intersection with an unnamed creek, thence follow the unnamed creek downstream to its intersection with the Abita Springs town limits, thence follow the Abita Springs town limits south, west, south, and east to its intersection with LA Highway 59, thence follow LA Highway 59 south to Soell Drive, thence follow Soell Drive west and southwest to 6th Avenue, thence follow 5th Avenue northwest to Helenbirg Road, thence follow Helenbirg Road southwest and west and continue west to U.S. Highway 190, thence follow U.S. Highway 190 south to its intersection with the Ponchitolawa Creek, thence follow the Ponchitolawa Creek downstream to the Tchefuncte River and the point of beginning.

- (7) *East Tchefuncte Wastewater Service Area 2.* There is herewith created east Tchefuncte Wastewater Service Area 2 with the boundaries more fully described as follows:

Commencing at the intersection of U.S. Highway 190 and the section line common to sections 22 and 37, Township 7 south, Range 11 east, thence follow U.S. Highway 190 north to its intersection with a westward extension of Helenbirg Road, thence follow Helenbirg Road east and northeast to its intersection with 6th Avenue, thence follow 6th Avenue southeast to its intersection with Soell Drive thence follow Soell Drive northeast and east to LA Highway 59, thence follow LA Highway 59 south to its intersection with Dove Park Road, thence follow Dove Park Road west, north and west to the section line common to sections 22 and 27, Township 7 south, Range 11 east, thence follow said section line west to the section corner common to sections 22, 27 and 37, Township 7 south, Range 11 east, thence follow the section line common to sections 22 and 37 of said township and range northwest to U.S. Highway 190 and the point of beginning.

- (8) *East Tchefuncte Wastewater Service Area 3.* There is herewith created east Tchefuncte Wastewater Service Area 3 with the boundaries more fully described as follows:

Commencing at the intersection of LA Highway 59 and 1-12, thence follow LA Highway 59 north to its intersection with Harrison Road and the Abita Springs town limits, thence follow the Abita Springs town limits east and north to LA Highway 38, thence follow LA Highway 36 southeast approximately 14,850 feet to the section line common to sections 10 and 11, Township 7 south, Range 11 east, thence follow said section line south and continue south along the section lines common to sections 14 and 15, sections 22 and 23 and sections 26 and 27 to LA Highway 1088, thence follow LA Highway 1088 southwest to 1-12, thence follow 1-12 northwest to its intersection with LA Highway 59 and the point of beginning.

- (9) *East Tchefuncte Wastewater Service Area 4.* There is herewith created east Tchefuncte Wastewater Service Area 4 with the boundaries more fully described as follows:

Commence at the mouth of the Tchefuncte River at Lake Pontchartrain, follow the Tchefuncte River upstream to its intersection with Ponchitolawa Creek, thence follow

Ponchitolawa Creek upstream to U.S. Highway 190, thence follow U.S. Highway 190 south to its intersection with North Causeway Approach, thence follow North Causeway Approach south to Lake Pontchartrain, thence follow the north shore of Lake Pontchartrain west to the mouth of the Tchefuncte River and the point of beginning. This area excludes the City of Mandeville.

- (10) *East Tchefuncte Wastewater Service Area 5*. There is herewith created east Tchefuncte Wastewater Service Area 5 with the boundaries more fully described as follows:

Commence at the intersection of North Causeway Approach and Florida Street, thence follow North Causeway Approach north to the section line common to sections 22 and 37, Township 7 south, Range 11 east, thence go southeast along said section line to the section corner common to sections 22, 27 and 37, Township 7 south, Range 11 east, thence go east along said section line to Dove Park Road, thence follow Dove Park Road east, south and east to its intersection with the Tammany Trace, thence follow the Tammany Trace south to its intersection with Florida Street (U.S. Highway 190), thence follow Florida Street west to its intersection with east Causeway Approach, thence follow east Causeway Approach west to its intersection with Florida Street, thence follow Florida Street west to its intersection with North Causeway Approach and the point of beginning. This area excludes the City of Mandeville.

- (11) *East Tchefuncte Wastewater Service Area 6*. There is herewith created east Tchefuncte Wastewater Service Area 6 with the boundaries more fully described as follows:

Commencing at the intersection of the Tammany Trace and Florida Street (U.S. Highway 190), thence follow the Tammany Trace north to its intersection with Dove Park Road, thence follow Dove Park Road east to its intersection with LA Highway 59, thence follow LA Highway 59 north to its intersection with I-12, thence follow I-12 east to a point approximately 9,500 feet east of LA Highway 1088, thence go southwest approximately 6,000 feet to the northwest corner of section 42, Township 8 south, Range 12 east, thence follow the western section line of said section southwest to the southeast corner of section 43, Township 8 south, Range 12 east, thence go northwest along the eastern section line of section 43, Township 8 south, Range 12 east to its intersection with Bayou Castine, thence follow Bayou Castine downstream to its intersection with Florida Street (U.S. Highway 190) thence follow Florida Street west to its intersection with the Tammany Trace and the point of beginning. This area excludes the City of Mandeville.

- (12) *Lacombe Wastewater Service Area 1*. There is herewith created the Lacombe Wastewater Service Area 1 with the boundaries more fully described as follows:

Commencing at the northwest corner of section 42, Township 8 south, Range 12 east, thence go southeast and southwest along the section line common to said section and sections 10, 15 and 16 of said township and range to the section corner common to

sections 16, 21, 42 and 48, Township 8 south, Range 12 east, thence go west along the section line common to sections 42 and 48 of said township and range to Cane Bayou, thence go downstream along Cane Bayou to northern boundary of Big Branch Marsh National Wildlife Refuge, thence follow the northern boundary of said wildlife refuge east and south to Bayou Lacombe, thence go upstream along Bayou Lacombe to the mouth of Cypress Bayou, thence follow Cypress Bayou upstream to a point where the northern boundary of the Big Branch March National Wildlife Refuge leaves the bayou, thence follow said section line eastward to the northwest corner of section 41, Township 9 south, Range 13 east, thence go east along the northern boundary of said section to the section corner common to sections 10, 40 and 41 of said township and range, thence go north along the western section line of section 40, Township 9 south, Range 13 east to the section corner common to sections 2, 3 and 40, Township 9 south, Range 13 east, thence go north along the section line common to sections 2 and 3 to the section corner common to sections 34 and 35, Township 8 south Range 13 east, and sections 2 and 3, Township 9 south, Range 13 east, thence continue north along the section lines common to sections 34 and 35, 26 and 27 and 22 and 23, Township 8 south, Range 13 east to a point 900 feet north of North Dixie Ranch Road, thence go northwest along a line 900 feet north of and parallel to North Dixie Ranch Road to the section line common to sections 15 and 16, Township 8 south, Range 13 east, thence go north along the section line common to sections 15 and 16 and sections 9 and 10 to the section corner common to sections 3, 4, 9 and 10, Township 8 south, Range 13 east, thence go west along the section line common to sections 4 and 9 of said township and range to a point approximately 1,000 feet east of LA Highway 434, thence go northeast along a line east of and parallel to LA Highway 434 to the section line common to section 4, Township 8 south, Range 13 east and section 33, Township 7 south, Range 13 east, thence go east along said section line and north along the eastern section line of section 33, Township 7 south, Range 13 east to a point 1,000 feet south of Horseshoe Island Road, thence go northeast along a line 1,000 feet south of and parallel to Horseshoe Island Road to the eastern section line of section 34, Township 7 south, Range 13 east, thence go north along said section line to Horseshoe Island Road, thence go east along Horseshoe Island Road to a point approximately 700 feet east of the section line common to sections 34 and 35, Township 7 south, Range 13 east, thence go north along a line 700 feet east of and parallel to said section line approximately 1,800 feet, thence go west approximately 3,650 feet, thence go north 3,600 feet to a point 1,000 feet south of LA Highway 36, thence go southeast along a line 1,000 feet south of and parallel to LA Highway 36, approximately 4,900 feet, thence go north to a point approximately 1,400 feet north of LA Highway 36, thence go northwest along a line 1,400 feet north of and parallel to LA Highway 36 to the eastern section line of section 16, Township 7 south, Range 13 east, thence go north along said section line approximately 3,100 feet, thence go west approximately 3,100 feet, thence go south to a point

approximately 900 feet north of LA Highway 36, thence go northwest along a line 900 feet north of and parallel to LA Highway 36 to the western section line of section 16, Township 7 south, Range 13 east, thence go south thence follow said section line south to a point 1,200 feet south of LA Highway 36, thence go southeast along a line 1,200 feet south of and parallel to LA Highway 36 to a point 1,000 feet west of LA Highway 434, thence go south along a line 1,000 feet west of and parallel to LA Highway 434 to the section line common to sections 21 and 28, Township 7 south, Range 13 east, thence go west along said section line and continue west along the section line common to sections 20 and 29, Township 7 south, Range 13 east 3,300 feet, thence go south 3,300 feet, thence go east 3,300 feet to the section line common to sections 28 and 29, Township 7 south, Range 13 east and continue south along the section line common to sections 32 and 33, Township 7 south, Range 13 east to a point approximately 2,000 feet north of Bayou Lacombe, thence go west to Beaver Ball Road, thence continue to a point 1,000 feet west of Beaver Ball Road, thence go southeast and southwest along a line 1,000 feet west of and parallel to Beaver Ball Road to Fish Hatchery Road and continue across Fish Hatchery Road to a point 1,000 feet west of Fish Hatchery Road, thence go south west along a line 1,000 feet west of and parallel to Fish Hatchery Road to I-12, thence go northwest along I-12 to the section line common to sections 2 and 2, Township 8 south, Range 12 east, thence go southwest approximately 6,000 feet to the northwest corner of section 42, Township 8 south, Range 12, east and the point of beginning.

- (13) *West Slidell Wastewater Service Area 1.* There is herewith created the West Slidell Wastewater Service Area 1 with the boundaries more fully described as follows:

Commencing at the confluence of Bayou Bonfouca and Bayou Liberty, thence follow Bayou Liberty upstream to Bayou Paquet, thence follow Bayou Paquet upstream approximately 3,000 feet to an unnamed branch to the northwest, thence follow the unnamed branch to the northwest across Bayou Paquet Road and continue upstream in a northwesterly direction approximately 3,450 feet, thence go due north to the section line common to sections 40 and 41, Township 8 south, Range 13 east, thence go west along said section line to the southwest corner of section 40, Township 8 south, Range 13 east, thence go northeast along the western line of said section to the section corner common to sections 2, 3 and 40, Township 8 south, Range 13 east, thence go north along the section line common to sections 2 and 3, Township 8 south, Range 13 east to the section corner common to sections 34 and 35, Township 7 south, Range 13 east and sections 2 and 3, Township 8 south, Range 13 east, thence continue north along the section line common to sections 34 and 35, 25 and 26 and 22 and 23 of said township and range to a power line approximately 1,250 feet north of I-12, thence go southeast along said power line to North Dixie Ranch Road, thence follow North Dixie Ranch Road northwest to its intersection with an unnamed road to the east, thence follow said

unnamed road east and north approximately 6,300 feet to its intersection with an unnamed road to the east, thence follow said unnamed road and its extension southeast approximately 4,800 feet to Bayou Liberty, thence follow Bayou Liberty upstream to Journey Road, thence follow Journey Road east to the property line of Slidell Airport thence follow said boundaries east, south, southwest, east, south, east and north to a point where the western boundary of Camp Villere Military Reservation departs to the east, thence go east, southeast and south along said boundary to I-12, thence go west along I-12 to Airport Road, thence go south along Airport Road/Northshore Boulevard to U.S. Highway 190, thence go east along U.S. Highway 190 to Bayou Vincent, thence go downstream along Bayou Vincent to where it becomes Bayou Bonfouca, thence go downstream along Bayou Bonfouca to its intersection with Bayou Liberty and the point of beginning. This area excludes the City of Slidell.

- (14) *West Slidell Wastewater Service Area 2.* There is herewith created the West Slidell Wastewater Service Area 2 with the boundaries more fully described as follows:

Commencing at the intersection of Airport Road and I-12, thence go east on I-12 to U.S. Highway 11, thence go southwest on U.S. Highway 11 to North Boulevard, thence go east on North Boulevard to the W-14 Canal, thence go downstream along said lateral to the section line common to sections 2 and 3, Township 9 south, Range 14 east, thence go south along said section line to 650 feet to a point where the Slidell city limits depart to the west, thence follow said city limits west and south to Indiana Avenue, thence go west on Indiana Avenue to U.S. Highway 11, thence go north along U.S. Highway 11 to the southern Railroad, thence go south along said railroad approximately 1,800 feet to a western spur of said railroad, thence follow said western spur northwest to the northern section line of section 3, Township 9 south, Range 14 east, thence go west along said section line to Bayou Vincent, thence go downstream along Bayou Vincent to U.S. Highway 190, thence go northwest on U.S. Highway 190 to Airport Road/Northshore Boulevard, thence go north on Airport Road/Northshore Boulevard to I-12 and the point of beginning. This area excludes the City of Slidell.

- (15) *West Slidell Wastewater Service Area 3.* There is herewith created the West Slidell Wastewater Service Area 3 with the boundaries more fully described as follows:

Commencing at the intersection of I-12 and the eastern boundary of Camp Villere Military Reservation, thence go north along said eastern boundary approximately 7,800 feet to a point where said boundary goes northwest, thence go east approximately 1,600 feet, thence go north approximately 8,900 feet, thence go east approximately 5,600 feet, thence go south approximately 5,650 feet, thence go east to U.S. Highway 11, thence go northeast on U.S. Highway 11 to LA Highway 41, thence go east and southeast on LA Highway 41 to Cleo Road, thence go southwest on Cleo Road to Old Military Road, thence go southeast on Old Military Road approximately 4,150 feet to a point, thence go east to I-59, thence go south along I-59 to Brown Switch Road,

thence go west on Brown Switch Road to U.S. Highway 11, thence go southwest on U.S. Highway 11 to I-12, thence go west on I-12 to the eastern boundary of Camp Villere Military Reservation and the point of beginning. This area excludes the City of Slidell and the Town of Pearl River.

- (16) *East Slidell Wastewater Service Area 1.* There is herewith created the east Slidell Wastewater Service Area 1 with the boundaries more fully described as follows:

Commencing at the intersection of I-10 and I-59, thence go north on I-59 to a point approximately 710 feet north of the section line common to sections 13 and 24, Township 8 south, Range 14 east, thence go east to the western section line of section 18, Township 8 south, Range 15 east, thence go northeast along a line 500 feet north of and parallel to Charwood Drive approximately 3,900 feet to a point west of the intersection of Morgan River and Porter's River, thence go east approximately 1,400 feet to the intersection of Porter's River and Morgan River, thence go downstream along Morgan River to the West Pearl River, thence go downstream along the West Pearl River approximately 15,220 feet to Gum Bayou, thence go upstream along Gum Bayou to the northern section line of section 38, Township 8 south, Range 15 east, thence go southwest along said section line to I-10, thence go west on I-10 to I-59 and to point of beginning.

- (17) *East Slidell Wastewater Service Area 2.* There is herewith created the east Slidell Wastewater Service Area 2 with the boundaries more fully described as follows:

Commencing at the intersection of I-10, I-12 and I-59, thence go southwest on I-10 to Gause Boulevard, thence go west on Gause Boulevard to the section line common to sections 11 and 12, Township 9 south, Range 14 east, thence go south along said section line to an eastward extension of Fremaux Avenue, thence go west along the eastward extension and continue west along Fremaux Avenue to U.S. Highway 190 (Short Cut Road), thence go southeast along U.S. Highway 190 to U.S. Highway 90, thence go east on U.S. Highway 90 to the West Pearl River, thence go upstream along the West Pearl River to Gum Creek, thence go upstream along Gum Bayou to the northern section line of section 38, Township 8 south, Range 15 east, thence go southwest along said section line to I-10, thence go west on I-10 to I-12 and I-59 and to point of beginning. This area excludes the City of Slidell.

- (18) *East Slidell Wastewater Service Area 3.* There is herewith created the east Slidell Wastewater Service Area 3 with the boundaries more fully described as follows:

Commencing at the mouth of the Fascine Canal and the north shore of Lake Pontchartrain, thence follow said shore southeast to a point approximately 1,800 feet east of U.S. Highway 90, thence go northeast along a line 1,800 feet east of and parallel to U.S. Highway 90 approximately 27,750 feet to the West Pearl River, thence go upstream along the West Pearl River to U.S. Highway 90, thence go west on U.S.

Highway 90 to U.S. Highway 190, thence go northwest on U.S. Highway 190, crossing 1-10 to the city limits of Slidell, thence follow said city limits in a southerly and westerly direction to the southern Railroad, thence follow the southern Railroad northerly to a point where the city limits of Slidell departs to the west, thence go west approximately 2,600 feet, thence go southwest along a line 2,600 feet west of and parallel to the southern Railroad to the section line common to sections 29 and 44, Township 8 south, Range 14 east, thence go west to the shore of Lake Pontchartrain, thence go southeast along the shore of Lake Pontchartrain to the mouth of the Fascine Canal and the point of beginning. This area excludes the City of Slidell.

(Code 1998, § 23-930.02; Ord. No. 04-0969, 9-2-2004)

Sec. 40-299. Administration.

The parish government shall administer all aspects of this article, as stated in section 40-296, under purpose, through the department of environmental services, pursuant to R.S. 33:4064.1 and section 40-1, which state(s), in part, that the parish government, through its department of environmental services (DES) shall be responsible for the protection of public health and the environment through the control, monitoring, and inspection of public and private sewerage and water systems and the provision and/or supervision of environmental services, all in the unincorporated portion of the parish.

(Code 1998, § 23-930.03; Ord. No. 04-0969, 9-2-2004)

Sec. 40-300. Amending clause.

If any of the boundary descriptions included in the above sections prove to be in error or inapplicable then these sections shall remain valid and said description amended to reflect the correct boundaries and intent of this article.

(Code 1998, § 23-930.04; Ord. No. 04-0969, 9-2-2004)

Sec. 40-301. Wastewater standards prior to entering collection systems of parish.

(a) Pursuant to R.S. 33:4064.4(C), the parish department of environmental services "shall be authorized to adopt rules and regulations relative to the impact upon, and the construction, modification, perpetuation, sustenance, operation, maintenance, connection and inspection of sewerage and water systems and the provision and/or supervision of environmental services, all within the unincorporated portion of the parish..."

(b) Wastewater generated from the industrial and light industrial customers shall not exceed the following standards prior to said wastewater entering the wastewater collection systems owned and operated by the parish:

<i>Parameter</i>	<i>Limit</i>
BOD5	348 mg/l

<i>Parameter</i>	<i>Limit</i>
COD	1,133 mg/l
Oil and grease	128 mg/l
TSS	368 mg/l
pH not less than 5.8 S.U. and not more than 9.6 S.U.	

(c) Failure by any customer to provide this quality wastewater prior to treatment by the parish shall result in termination of wastewater treatment services and/or water service at the sole discretion of the parish.

(Code 1998, § 23-931.00; Ord. No. 06-1302, 5-4-2006)

Secs. 40-302—40-320. Reserved.

ARTICLE XI. SEWAGE FROM SEPTIC AND SLUDGE

Sec. 40-321. Purpose.

(a) The purpose of this article is to establish procedures and standards by which the public health and safety and the environment is protected by ensuring that safe, sustainable and proper techniques are employed to better survey, monitor, collect, convey, treat and dispose of sewage from septage and sludge in the parish.

(b) Build upon the existing the parish health and sanitation (ch. 11, article IV) and sewers and sewage disposal (chapter 21) ordinances.

(c) Ensure that all individuals are both informed and responsible for their actions regarding wastewater from septage and/or sludge that may affect the public health and the environment in the community now and in the future.

(d) Augment, supplement and support existing state laws pertaining to wastewater from septage and/or sludge.

(e) To impose penalties and fines concerning illegal collection, conveyance, treatment and/or disposal of wastewater from septage and/or sludge.

(Code 1998, § 23-950.00; Ord. No. 06-1322, 6-1-2006)

Sec. 40-322. Authority.

(a) Authorizing and providing for the surveying, monitoring, collection, conveyance, treatment and disposal of the parish wastewater from septage and/or sludge; establishing standards and requirements for septage and/or sludge wastewater management operations within the unincorporated areas of the parish; requiring licenses and/or permits for surveying, monitoring, collection, conveyance, treatment and disposal of wastewater from septage and/or sludge embodying and supplementing the minimum standards and requirements established by the rules of the state department of environmental quality as promulgated under title 30, part IX

et seq., of the Environmental Regulatory Code and the Code of Ordinances, ch. 11, article IV and ch. 21 et seq., of the parish and providing for enforcement of said requirements; the imposing penalties for failure to comply with these provisions; and promoting the health, safety and welfare of the public.

(b) This article is adopted by the parish council and rescinds all previous ordinances of the parish, which regulate wastewater from septage and/or sludge and are inconsistent herewith.

(c) This article is mindful of the State of Louisiana Environmental Quality Act (R.S. 30:2001 et seq.), which established the enforcement, authority and procedures for carrying on the purposes of the Act.

(Code 1998, § 23-950.01; Ord. No. 06-1322, 6-1-2006)

Sec. 40-323. Definitions.

Any and all definitions contained herein are comparable to those found in title 33 of the Environmental Regulatory Code, part XII, subpart 1, ch. 1, section 115. When used in this article the following terms shall have the meanings defined as follows:

Acceptable household quantities means waste which is otherwise unacceptable waste, but which is contained in garbage, refuse and municipal solid waste from normal household activities. For the purpose of this definition, the term "household" includes any residential dwelling unit or place of transient residence.

Acceptable nonhousehold waste means waste which is otherwise unacceptable waste, but which is contained in garbage, refuse and municipal solid waste generated from commercial, industrial, or community activities, where the quantity of such unacceptable waste contained in any load delivered to the designated facility does not constitute a significant portion of such load. No amount of hazardous waste that is regulated by law is acceptable waste.

Acceptable waste means waste, which is acceptable at the designated facility. The term "acceptable waste" includes garbage, refuse, and municipal solid waste from residential, commercial, industrial and community activities which is generated and collected in aggregate, and which is not otherwise defined herein as unacceptable waste. No amount of hazardous waste or infectious waste that is regulated by law is acceptable at the designated facility. The term "acceptable waste" includes acceptable household quantities and acceptable nonhousehold waste, as defined herein. All household waste is acceptable waste, unless it is otherwise regulated or prohibited by law.

Agency refers to the environmental protection agency, its agent, or representative. In the case of the state, that means Region VI.

Air contaminant means the presence in the outdoor atmosphere of any dust, fume, mist, smoke, vapor, gas or other gaseous fluid, or particular substance, differing in composition from or exceeding in concentration, the natural components of the atmosphere, such as, but not limited to, the resulting ambient conditions created by the unlawful burning of solid waste.

Air pollution means the presence in the outdoor atmosphere of any air contaminant or combination thereof in such quantity, of such nature and duration, and under such conditions as would be injurious to human health or welfare, to animal or plant life, or to property, or to interfere unreasonably with the enjoyment of life or property.

Applicable law means the pertinent and appropriate provisions of the state sanitary code, other applicable parish ordinances, or state and local regulations, which pertain to sewerage and water systems located, or to be located within the parish.

Applicant means an owner, or agent of the owner, of any land negotiating for sewer service.

Ash means the incombustible material that remains after a fuel or solid waste is incinerated.

Backyard compost site means a site used to compost food scraps, garden wastes, weeds, lawn cuttings, leaves and prunings from a single-family or household, apartment building or single commercial office, a member of which is the owner, occupant or lessee of the property.

Biochemical oxygen demand (BOD) means the quantity of oxygen utilized in the biochemical oxidation of organic matter under standard laboratory procedure in five days at 20 degrees centigrade, expressed in milligrams per liter (mg/l).

Biohazardous waste means wastes from a biological source that may be hazardous to living organisms. Wastes can be physical, biological or chemical in nature.

Brush disposal facility means a site used exclusively for disposal of trees and tree parts including stumps, branches and their attached leaves.

Camp means any structure, floating or foundation-secured, used temporarily or occasionally as a dwelling; not used as a residence.

Canister system means a facility where solid waste is deposited in mechanically serviced containers as an intermediate step of congregating solid waste from several properties for periodic removal of the accumulated waste by commercial hauler. The term "canister system" is similar to a transfer station (see below).

Cease and desist order means an administrative order directing a user to immediately halt illegal or unauthorized discharges.

Chemical oxygen demand (COD) means the quantity of oxygen utilized in the chemical oxidation of the chemically oxidizable carbonaceous contents found within the wastewater sample, expressed in milligrams per liter (mg/l).

Clean Water Act means the Federal Water Pollution Control Act, also known as the Clean Water Act, as amended, 33 USC 1251 et seq.

Closure means actions to prevent or minimize the threat to public health and the environment posed by a facility that no longer accepts the solid waste for which it operated or was permitted, including the removal of contaminated equipment, the removal of liners, grading, applying final cover, seeding of final cover, installation of monitoring devices, construction of groundwater and surface water diversion structures, and gas control systems as necessary.

Co-compost means the controlled biological decomposition and management of selected organic solid waste that is mixed with a nutrient source, most commonly sewage sludge, which results in an innocuous, stable, humus product which can be used as a soil conditioner.

Co-disposal means the disposal of nonhazardous industrial wastes together with mixed municipal solid waste at a waste facility.

Collection means the aggregation of waste from the place at which it is generated and includes all activities up to the time the waste is delivered to a waste facility. The term "collection" may include either manual or automated systems.

Commercial hauler means any person who owns, operates, or leases vehicles for the purpose of contracting to collect or transport solid waste or source-separated materials from residential, commercial or industrial property.

Community sewerage system means any sanitary sewerage system, also known as a sanitary sewage treatment works, which is owned, operated and/or maintained by a political entity or private person. A community sewerage system serves multiple connections and includes any individual, public, profit, nonprofit or not-for-profit sewerage system whose effluent discharge is subject to the provisions of the Louisiana Environmental Quality Act, as amended, or any rules and regulations effective or promulgated under the authority of the Act.

Compliance order means an administrative order directing a noncompliant user to achieve or to restore compliance by a date specified in the order.

Compost means solid waste which has undergone biological decomposition of organic matter and has been stabilized using composting or similar technologies, to a degree that is beneficial to plant growth and that is used, or sold for use, as a soil amendment, artificial topsoil, growing-medium amendment, or other similar uses.

Compost facility means a site used to compost solid waste including all structures used to control drainage, collect and treat leachate, storage areas for the incoming waste, and the final product. A composting facility may include various types of compost operations, including, but not limited to, windrow, in-vessel or static pile facilities.

Composting means the controlled microbic degradation of organic waste to yield a humus-like product. Generally, the compost itself is a solid waste which has undergone biological

decomposition of organic matter and has been stabilized using composting or similar technologies, to a degree that is beneficial to plant growth and that is used, or sold for use, as a soil amendment, artificial topsoil, growing-medium amendment or other similar uses.

Construction debris means waste, building materials, packaging and rubble resulting from construction, remodeling, repair and demolition of buildings and roads.

Containment means isolating, controlling and monitoring waste in a waste facility in order to prevent a release of waste from the facility that would have an adverse impact upon human health and the environment.

Corrosive waste means any character of waste, whether liquid, gaseous or solid, which can cause actual physical damage or destruction to any public storm drain or sanitary sewer or which prevents or materially retards treatment of sewage in the sewage treatment plant.

Cover means approved material that is used to cover compacted solid waste in a land disposal site. Important general characteristics of good cover material are low permeability, uniform texture, cohesiveness and compatibility.

Curing area means an area where organic material that has undergone the rapid initial stage of composting is further stabilized into a humus-like material.

Demolition landfill means an area of land used for the disposal of demolition waste.

Demolition waste means nonputrescible solid waste from the construction, remodeling, repair or demolition of structures including buildings and paved roads. It includes waste building materials, packaging and rubble such as concrete, brick, bituminous concrete, wood, masonry, glass, trees, structural metals, insulation, roofing material, and plastic building parts. It may also include other waste materials accepted by the department. It does not include uncontaminated earth or rock, hazardous materials, asbestos, industrial waste or appliances.

Department means the parish department of environmental services, its employees and/or its agents.

DEQ means the state department of environmental quality, as created by R.S. 30:2001 et seq.

Developed property means any parcel of land that has been, or is about to be, improved to the extent that municipal water and sewer service are necessary prior to its utilization.

Developer means an owner, or agent of the owner, in the process of the commercial utilization of any land, including subdivisions, who shall have the legal right to negotiate for municipal water and sewer service.

Development means a parcel of land, including subdivisions, being commercially improved to the extent that municipal water and sewer service are necessary prior to its utilization.

DHH means the state department of health and hospitals, office of public health.

Direct discharge means any discharge of effluent from the building site where it originated other than into an approved collection system.

Disposal or *dispose* means the discharge, deposit, injection, dumping, spilling, leaking or placing of any waste into or on any land or water so that the waste or any constituent thereof may enter the environment or be emitted into the air, or discharged into any waters, including groundwater.

Disposal facility means a waste facility permitted by the state department of environmental quality (DEQ) that is designed or operated for the purpose of disposing of waste in or on the land, together with any appurtenant facilities needed to process waste for disposal or transfer to another waste facility.

Domestic waste means liquid wastes and waterborne liquid, gaseous and solid substances:

- (1) Discharged from nonindustrial sources;
- (2) Containing human excrement and similar matter from sanitary conveniences, including, but not limited to, toilets, sinks, dishwashers, lavatories and bathtubs. The strength of normal domestic sewerage is:
 - a. BOD of 200 mg/l or less;
 - b. TSS of 250 mg/l or less; and
 - c. COD of 500 mg/l or less.

DOTD means the state department of transportation and development, office of public works.

Dumping means the illegal placement of any solid waste anywhere other than an approved facility or container.

Dwelling means a residential building or portion thereof intended for human occupancy, but not including hotels, motels, boardinghouses or roominghouses.

Effluent means treated or untreated wastewater.

Effluent limitation means a restriction or limitation on discharges of pollutants established by EPA under the Clean Water Act, as amended, and/or any other state regulation or local ordinance.

EPA means the United States Environmental Protection Agency.

Facility means the actual land and associated appurtenances used for storage, processing and/or disposal of solid wastes, but possibly consisting of one or more units. Any earthen ditches leading to or from a unit of a facility and that receives solid waste are considered part of the facility to which they connect, except for ditches lined with materials capable of preventing groundwater contamination. The term "facility" does not necessarily mean an entire industrial manufacturing plant.

Financial assurance means monetary mechanisms, which are used to assure proper closure, post closure care and contingency action at a site or facility.

Floodplain means the areas adjoining a watercourse or water basin that has been or hereafter may be covered by a regional floodplain.

Floodprone means any area that is regularly subject to flooding, as determined by the United States Geological Survey or the Army Corps of Engineers.

Food service operation (FSO) means any establishment engaged in the manufacturing, preparation, or distribution of food, whether or not it is the establishment's primary business, including, but not limited to, bars, cafes, cafeterias, caterers, delis, grocery stores, hospitals, hotels, institutions providing food service, restaurants, schools, seafood or meat markets, or any other wholesale or retail food outlet or food services establishment regulated by the state sanitary code and required by the parish to have a grease control device. FSOs that share a common grease control device shall be considered to be individual establishments and shall be required to obtain individual discharge permits. An establishment that is classified as an FSO must comply with all applicable regulations regardless of whether or not it owns, rents, or leases the property or premises on which food preparation occurs. The designation of an establishment as a significant industrial user as defined in section 27-143 supersedes the classification of food service operation.

Governed sewerage system means every sewerage system in the parish whose discharge of sanitary sewage wastewater is subject to the provisions of the Louisiana Environmental Quality Act, as amended, or any rules and regulations effective or promulgated under the authority of said Act and, when applicable, said sewerage system shall include, but not limited to, any such system owned, operated or maintained by a private utility company or a sewerage district created by the governing authority of the parish.

Governed water system means every water system in the parish that is comprised of a source of groundwater, treatment, if necessary, storage, distribution, and/or the appurtenances and related facilities that make it available for use. When applicable, a governed water system shall include, but not be limited to, any such system owned, operated or maintained by a private person or political entity that uses groundwater for any beneficial purpose.

Grease control device means a device for separating and retaining waterborne fats, oil or grease prior to the wastewater exiting the trap and entering the sanitary sewer collection and treatment system. These devices also serve to collect settleable solids, generated by and from food preparation activities. The term "grease control devices" include equipment such as grease traps, grease interceptors, grease removal devices used with interceptors or other equipment approved by the director of code enforcement, the sole purpose of which is to retain, remove or destroy fats, oil or grease and settleable solids prior to discharge to the sewerage system.

Grease removal device (GRD) means a plumbing appliance, which is installed in the sanitary sewerage system in order to intercept free-floating fats, oils and grease from wastewater discharges. Such equipment has the ability to remove the entire range of commonly available free-floating fats, oils and grease automatically without intervention from the user, except for maintenance. The removed material is essentially water-free which allows recycling of the removed product.

Grease trap means a watertight receptacle utilized by commercial or industrial generators of liquid waste to intercept, collect and restrict the passage of fats, oils or greases of animal or vegetable origin, into both public and private sanitary sewers.

Hauler means any person, partnership, company, or corporation engaged in the cleaning, pumping or otherwise servicing individual on-site treatment systems which accumulates septage or sludge, and/or handling, transport and disposal of septage or sludge.

Holding tank means any tank used for temporary storage and onsite containment of sanitary wastewater.

Incompatible pollutant means any pollutant that is not amenable or compatible with normal municipal waste treatment practices at a given concentration or amount.

Individual mechanical plant means any individual sewage system that employs aerobic bacterial action that is maintained by mechanical aeration.

Individual on-site sewage disposal system means any or all of the various components, including piping and pumping and treatment facilities, comprising a system designed for the collection and/or treatment and/or disposal of sanitary sewage. An on-site sewage disposal system may be owned, operated and/or maintained by a political entity or private person.

Individual sewage system means any system of piping, excluding building plumbing, treatment device or other facility that conveys, stores, treats or disposes of sewage on the property where it originates, and which utilizes the individual sewage system technology as prescribed in section 18-178.

Industrial user means any entity/person who discharges or causes or permits to be discharged, any pollutants into a sewage system from any non-domestic source.

Industrial waste means liquid waste and waterborne liquid, gaseous and solid substances discharged from any industrial, manufacturing, trade or commercial process, as distinct from domestic wastes.

Industry means any individual, partnership or corporation engaged in the manufacture, packaging, processing or handling of any item of commerce for resale purposes within the parish, or any such establishment outside the limits of the parish, whose discharges flow into the parish. Hotels, motels, schools, office buildings, apartment houses, and other establishments that discharge only domestic wastes are not considered to be industries.

Infiltration means the water unintentionally entering the public sewer system, including water from sanitary building drains and laterals, from the ground through such means as, but not limited to, defective pipes, pipe joints, connections or manhole walls. Infiltration does not include, and is distinguished from, inflow.

Inflow means the water discharged into a sanitary sewer system, including building drains and sewer laterals, from such sources as, but not limited to, roof leader, cellar, yard, and area drains, foundation drains, unpolluted cooling water discharges, drains from springs and swampy areas, manhole covers, cross-connections from storm sewers or combined sewers, catchbasins, stormwaters, surface runoff, street wash waters, or drainage. Inflow does not include, and is distinguished from, infiltration.

Influent means water, wastewater or other liquid flowing into a tank, basin, treatment process or treatment facility.

Interference means a discharge which, alone or in conjunction with a discharge or dischargers from other sources, both:

- (1) Inhibits or disrupts the sewage system, its treatment processes or operations or its sludge processes, use or disposal; and
- (2) Therefore is a cause of a violation of a requirement of the sewage system's NPDES permit (including an increase in the magnitude or duration of a violation) or of the prevention of sewage sludge use or disposal in compliance with the following statutory provisions and regulations or permits issued herein (or more stringent state): section 405 of the Clean Water Act, the Solid Waste Disposal Act (SWDA) (including title II, more commonly referred to as the Resource Conservation and Recovery Act (RCRA) and including state regulations contained in any state sludge management plan prepared pursuant to subtitle D of the SWDA), the Clean Air Act, the Toxic Substances Control Act, and the Marine Protection, Research and Sanctuaries Act.

Louisiana Pollutant Discharge Elimination System (LPDES) means the state program for issuing, conditioning, and/or denying permits for the discharge of pollutants into the waters of the state pursuant to the Louisiana Environmental Quality Act (R.S. 30:1051 et seq., as amended).

Louisiana Water Discharge Permit System (LWDPS) means the state program for issuing, conditioning, and/or denying permits for the discharge of pollutants into the waters of the state pursuant to the Louisiana Environmental Quality Act (R.S. 30:1051 et seq., as amended).

Louisiana Water Well Rules, Regulations and Standards mean the provisions of the Rules, Regulations, and Standards for Water Well Construction adopted by the DOTD in accordance with title 38 of the Louisiana Revised Statutes of 1950.

Marine sanitation device (MSD) means any device designed for the handling, storage and/or disposal of domestic waste (sewage) generated aboard a vessel or camp.

Medical waste means isolation wastes, infectious agents, human blood and blood byproducts, pathological wastes, sharps, body parts, fomites, etiologic agents, contaminated bedding, surgical wastes, potentially contaminated laboratory wastes and dialysis wastes.

Mobile waste hauler means any person who collects waste from residences, public buildings, commercial and business establishments, industries and any other sources; who transports the mentioned waste by road or rail; who discharges, is permitted to discharge, or intends to discharge to the parish sanitary sewerage system.

National Pollutant Discharge Elimination System (NPDES) means the federal program for issuing, conditioning and/or denying permits for the discharge of pollutants from point sources pursuant to section 402 of the Clean Water Act.

New source means any building, structure, facility or installation from which there is or may be a discharge of pollutants, the construction of which commenced after the publication of proposed pretreatment standards under section 307(c) of the Act which will be applicable to such source if such standards are thereafter promulgated in accordance with that section, provided that:

- (1) The building, structure, facility or installation is constructed at a site at which no other source is located;
- (2) The building, structure, facility or installation totally replaces the process or production equipment that causes the discharge of pollutants at an existing source; or
- (3) The production of wastewater generating processes of the building, structure, facility or installation are substantially independent of an existing source at the same site.

In determining whether these are substantially independent, factors such as the extent to which the new facility is integrated with the existing plant, and the extent to which the new facility is engaged in the same general type of activity as the existing source should be considered.

Nonchemically treated cooling water means any water used for the process of cooling machinery, equipment or devices of any kind, and which has not been chemically altered by or for that process such as, but not limited to, the addition of algicides, fungicides and/or corrosion inhibitors.

Non-community-type sewerage system means any sewerage system, the installation of which requires the issuance by the parish health unit of an application for permit to install individual sewerage system (department of health and hospitals form LHS-47), and whose discharge of sanitary sewage wastewater is not subject to the provisions of the Louisiana Environmental Quality Act, as amended, or any rules and regulations effective or promulgated under the authority of said Act.

Owner or owners means any person or persons who alone or jointly or severally with others has:

- (1) Legal title to any premises, facilities or equipment affected by this section; and/or
- (2) Actual physical control of any premises, facilities or equipment affected by this section pursuant to an agreement, expressed or implied from the circumstances, with the owner or owners.

Operator or operators means any person who alone or jointly or severally with others conducts, directs, manages or supervises the operation and/or maintenance of any premises, facilities or equipment affected by these rules and regulations.

Parish means the unincorporated portion of the parish.

Permit means a written document issued by the state health officer, which authorizes the installation, construction and operation of an individual mechanical plant, individual sewage system or marine sanitation device or a modification of the existing system, which affects the performance of the system.

Permittee means a person issued a permit under this article, including any agent, servant or employee of the permittee.

Person means any individual, partnership, copartnership, firm, company, corporation, association, joint stock company, trust, estate, governmental entity or any other legal entity or their legal representatives, agents or assigns. This definition includes all federal, state or local governmental entities.

pH means the logarithm of the reciprocal of the weight of hydrogen ions in grams per liter of solution.

Political entity means any agency, board, commission, department or political subdivision of the state, or of the governing authority of the parish, or any agent thereof.

Premises mean any structure or dwelling of any construction whatsoever in which a person may live, work or congregate.

Pretreatment means application of physical, chemical and/or biological processes to reduce the amount of pollutants in, or to alter the nature of, the pollutant properties in a wastewater so as to render that wastewater amenable to normal domestic waste treatment practices prior to discharging such wastewater into the sanitary sewerage system.

Pretreatment standards mean all applicable federal rules and regulations implementing section 307 of the Clean Water Act as well as any non-conflicting state or parish standards. In cases of conflicting standards or regulations, the more stringent thereof shall be applied.

Private person means any individual, group of individuals, firm, corporation, association, partnership, private entity or other legal entity, or any agent thereof.

Private sewage disposal system means any privately owned or operated devices, facilities, structures, equipment or works used for the purpose of transmission, storage, treatment, recycling, and reclamation of industrial and domestic waste.

Private sewer means a sewer privately owned and not directly controlled by the parish.

Public sewer means a sewer in which all owners of abutting properties have equal rights, and is controlled by the parish.

Pump station or lift station means a structure housing pumps and their appurtenances which conveys wastewater to either a privately owned or publicly owned sanitary sewer or treatment works.

Receiving stream means any bayou, canal, stream, river, pond, lake or estuary into which a liquid waste ultimately flows, irrespective of intervening treatment or conveyance processes.

Residence means any structure occupied customarily or most of the time as a dwelling, a place of primary residence.

Responsible person means the operator or operators of an on-site sewage disposal system, the owners or owners of an on-site sewage disposal system, the owner or owners of the property on which an on-site sewage disposal system is located, or any or all of them.

Sanitary sewage means human, domestic or acceptable industrial waste, except refuse, including liquid from residences, businesses, buildings, industrial establishments or other places, together with such groundwater, surface water, stormwater and other wastes as may be present.

Sanitary sewer means any sewer designed to carry sanitary sewage or compatible industrial wastes or a combination of both, and to which stormwater, surface water and groundwater are not intentionally admitted.

Sanitary sewerage system means any devices, facilities, structures, equipment or works owned or used by the parish for the purpose of transmission, storage and treatment of sanitary sewage and any other compatible industrial and domestic waste, including intercepting sewers, outfall sewers, sewage collection systems, pumping, power, and other equipment, and their appurtenances; extensions, improvements, remodeling, additions, and alterations thereof.

Secondary treatment standard means a sewage affluent water quality standard which prescribes a maximum 30-day average concentration of biological oxygen demand (five-day) of 30 milligrams per liter (30 mg/l), a maximum seven-day average concentration of biological oxygen demand (five-day) of 45 milligrams per liter (45 mg/l), and a maximum daily average concentration of biological oxygen demand (five-day) of 60 milligrams per liter (60 mg/l). The daily average concentration shall be based on at least three affluent portions collected at time

intervals no shorter than one hour each and combined in a flow-weighted composite. The 30-day average, seven-day average, and the daily average are the arithmetic means of the values for all effluent samples collected in each period.

Septage means a mixture of sludge, fatty materials, and wastewater removed during the pumping out of a septic tank or similar device.

Septic tank means any water tight tank designed and constructed to:

- (1) Receive sanitary wastewater;
- (2) Separate solids from wastewater;
- (3) Store the separated solids;
- (4) Provide limited biological degradation; and
- (5) Allow the clarified liquid to be discharged for further treatment and disposal.

Septic tank waste means any sewage from holding tanks such as vessels, chemical toilets, campers, trailers and septic tanks.

Service vehicle means any vehicle used by a hauler in the process of cleaning, pumping or otherwise servicing individual on-site treatment systems which accumulates septage or sludge, and/or handling, transport, and disposal of septage or sludge.

Sewage means human or domestic waste, except household consumer refuse, including conveying liquid from residences, buildings, industrial establishments or other places, together with such groundwater, surface water, stormwater and other wastes as may be present.

Sewage sludge means sludge resulting from treatment of wastewater from publicly or privately owned or operated sewage treatment plants.

Sewage system means any or all of the various components, including piping, plumbing, pumping and treatment facilities comprising a system designed for the collection and/or treatment and/or disposal of sewage.

Sewer means any pipe or other conduit outside a building for conveying sewage.

Sewerage system means any or all of the various components, including piping and pumping and treatment facilities, comprising a system designed for the collection and/or treatment and/or disposal of sanitary sewage. A sewerage system may be owned, operated and/or maintained by a political entity or private person.

Shall, may. The term "shall" is mandatory; the term "may" is permissive or discretionary.

Significant commercial user means any nonresidential user of the parish sewerage and water system which has a discharge flow of 10,000 gallons or more per day during any day of any calendar year.

(Code 1998, § 23-950.02; Ord. No. 06-1322, 6-1-2006)

Sec. 40-324. Effective date.

All rules and regulations contained herein shall be in full force and effect on June 1, 2006. However, the effective date of these rules and regulations as they apply to existing owners of septage and sludge producing systems shall be October 1, 2006. Furthermore, the effective date of these rules and regulations as they apply to those persons hauling and/or treating septage and sludge and treating wastewater from septage and/or sludge shall be October 1, 2006. This period of time will be necessary for said owners, haulers and operators to review and come into compliance herewith.

(Code 1998, § 23-950.03; Ord. No. 06-1322, 6-1-2006)

Sec. 40-325. General septage/sludge use requirements.

(a) *Applicability of rules and regulations.* Whenever relevant and appropriate, the provisions of the rules and regulations contained in this article shall apply to any individual, private, public, profit, nonprofit, or not-for-profit septage and/or sludge generating system or treatment facility located in the parish.

(b) *Applicable operating requirements.* Every septage and/or sludge producing system located within the parish shall be operated in accordance or compliance with applicable law, which shall include, but not be limited to, all applicable ordinances of the parish, and the rules and regulations of any state or local agency having jurisdiction over septage and/or sludge producing systems in the parish.

(c) *Compliance.* Nothing in these rules and regulations shall be construed to preclude or stay the responsibility of any person from complying with the lawful requirements of any other federal, state, or local agency having jurisdiction over the surveying, construction, operation and monitoring of septage and/or sludge producing systems or treatment facilities.

(Code 1998, § 23-950.05; Ord. No. 06-1322, 6-1-2006)

Sec. 40-326. Violations and penalties.

(a) Except as otherwise provided in this section, the violation of any provisions of this article, shall be punishable by a fine of not less than \$100.00 nor more than \$500.00, provided that each day a violation exists shall constitute a separate offense with violations for the second day and each following day punishable by an additional fine of not less than \$10.00 and not more than \$200.00.

(b) Violation of any of the provisions of this article may result in the revocation of the license and/or authority to operate any septage and/or sludge system, or treatment facility or any sludge and/or septage hauler. Applicants for licensing or authority to own and/or operate a septage/sludge system, treatment facility or septage/sludge hauling operation who have had a similar license or authority revoked under this section shall not be considered for a period of 90 days from the date of such revocation. Any person who has had a license and/or authority

revoked under this section on two or more occasions shall be ineligible for a license and/or authority to operate a septage/sludge treatment facility or a septage/sludge hauling operation for a period of two years from the date of the last such revocation.

(Code 1998, § 23-950.06; Ord. No. 06-1322, 6-1-2006)

Sec. 40-327. General standards for septage/sludge.

(a) Specific guidelines for individual on-site sewage treatment systems and port-a-lets.

- (1) Permitted on-site treatment systems ("OTS") shall be serviced a minimum of every three years.
 - a. Such servicing records must be kept by the owner and/or operator of the OTS. It must be provided upon request by the department. Such records shall be kept for a period of not less than five years.
 - b. OTS owners and/or operators will be subject to fines and penalties as set forth in this article, including, but not limited to, section 40-326.
 - c. The department or its designee may inspect any and all OTS subject to informing the owners and/or operators of their intent to do so with written notice to said owners and/or operators not fewer than 15 days prior to such inspection. This section is meant to mirror and augment the powers established by section 40-72(a).
- (2) An owner or operator of an OTS shall be required to ensure that the wastewater or other discharge from said system shall meet the applicable discharge requirements as set for by the LDEQ.
- (3) Chemical toilet/port-o-potty. Owners and operators of port-a-lets shall be required to properly dispose of any and all extracted waste therefrom in accordance with the provisions of this article.
- (4) Any and all septage or sludge from OTS and/or port-a-lets within the parish shall be disposed of at a septage treatment facility duly approved and recognized by the department and properly permitted by the LDEQ or other appropriate governmental regulatory agency for the acceptance and treatment of septage and sludge.

(b) Specific guidelines for commercial and/or community sewage treatment systems.

- (1) Any and all facilities creating or accumulating sludge within the parish shall pump the sludge from said facilities on a regular schedule so as to remain compliant with any and all state and federal regulations pertaining to accumulated biosolids.
 - a. The records of such pumping must be kept by the owner and/or operator of the sludge producing and/or accumulating facility and must be provided upon request by the department. Such records shall be kept for a minimum of five years.

- b. Sludge producers and/or accumulators will be subject to the fines and penalties as set forth in this article, including, but not limited to, those set forth in section 40-326.
 - c. The department may inspect any and all sludge producing facilities or such facilities as accumulate sludge at any reasonable time as set forth in section 40-72(a).
- (2) Sludge producers and/or accumulators shall meet the discharge requirements of the LDEQ for such facilities and those standards as may be set forth by the department from time to time.
 - (3) Any and all sludge produced or accumulated within the parish shall be disposed of at a septage/sludge treatment facility duly approved and recognized by the department and properly permitted by the LDEQ, EPA, or other appropriate governmental regulatory agency for the acceptance and treatment of sludge.
- (Code 1998, § 23-950.07; Ord. No. 06-1322, 6-1-2006)

Sec. 40-328. Development standards.

The septage and sludge treatment facility within the parish shall comply with all of the provisions of the state department of health and hospitals, hereinafter referred to as DHH or its successor agency, the sanitary code of the state and the department of environmental quality, hereinafter referred to as LDEQ or its successor agency, and the water quality control standards of the state.

- (1) *Plans and specifications.* The proposed owner/developer of a septage/sludge treatment facility shall be required to submit to the parish department of environmental services (DES) a complete set of plans and specifications along with the completed "Design Summary Package," as required by DHH, detailing the type of septage/sludge treatment facility to be installed. Such plans and specifications shall be certified by a registered professional engineer of the state and submitted in triplicate. Upon review and approval of the plans and specifications by the DES, the plans and specifications will be forwarded to the DHH for their approval.
- (2) *Construction time limitations.* The owner/developer must comply with the time limitations as provided by DHH with respect to their approval, and those of LDEQ concerning the discharge permit.
- (3) *Operation and maintenance.* The owner/developer shall be responsible for the operation and maintenance at his expense, of the septage/sludge treatment facility and further compliance with all requirements of this article and with federal and state laws and regulations. This may include hiring of a certified operator, or a consultant that provides such a service, and adhering to the instructions and limits as laid out in the

LDEQ discharge permit. Initial start-up of operations at newly constructed facilities shall not commence until the DES has been provided with as-built drawings certified by a licensed engineer and a copy of the final DEQ discharge permit.

- (4) *Management of facilities and transfer of ownership.* The owner/developer of a septage/sludge treatment facility may transfer the ownership rights to another party if so desired. However, in any case, the owner/developer shall establish and submit to the director of the department, a "Management Declaration" which shall establish the responsibility of the owner/developer or the transferee for the operation and maintenance and funding requirements for the septage/sludge treatment facility. The owner/developer must satisfy the concerns of the parish and of DHH that said transferee is valid, solvent and capable of meeting all applicable rules and regulations.
- (5) *Posting of bonds/letters of credit required.* Once the septage/sludge treatment facility has been installed, the developer and/or owner shall contact the department. An on-site inspection to ensure that the facility has been installed, and is operable, will be initiated. If upon inspection, the department determines that such facility is not found to be built according to the plans and specifications, the owner/developer shall be required to make the appropriate corrections at its expense and shall not be allowed to continue any further commercial activities related to the facility until said corrections have been made and certified as being correct by the department. Subsequently, the director of the department or the parish engineer shall establish a warranty obligation in the form of a warranty bond/letter of credit for a period of not less than one year in order to ensure the adequate operation and maintenance of the facility. The director shall submit his bond recommendation for approval to the parish council.
- (6) *Warranty bonds/letters of credit.* All warranty bonds/letters of credit shall be obtained by the owner/developer from an accredited financial institution recognized in good standing by the parish. The release of warranty bonds/letters of credit shall follow established parish procedure.

(Code 1998, § 23-950.08; Ord. No. 86-630, 6-19-1986; Ord. No. 06-1322, 6-1-2006)

Sec. 40-329. Inspection of septage/sludge treatment facilities.

(a) *Inspection.* An inspection of a septage/sludge treatment facility conducted pursuant to the provisions of this section is for the use and benefit of the department and shall not be considered as an affirmation that the operation of the inspected septage/sludge treatment facility is in accordance and in compliance with applicable law.

(b) *Frequency and manner of inspection.*

- (1) The department shall be authorized to inspect every governed septage/sludge treatment facility in the parish.

- (2) In conducting an inspection of a governed septage/sludge treatment facility, the department shall conform to the relevant and appropriate practices and procedures of the LDEQ and the DHH as such practices and procedures relate respectively to the inspection of said septage/sludge treatment facilities.
- (3) The department may provide for any immediate inspection of any septage/sludge treatment facility as follows:
 - a. Upon the voluntary request of the responsible person for the facility to be inspected; or
 - b. At any reasonable time the department determines in its sole discretion any inspection is necessary or required.

(c) *Report of deficient condition.* Whenever an inspection of a septage/sludge treatment facility discloses that the facility is not being operated in accordance or compliance with applicable law, the department shall cause to be served upon the responsible party, a written notice of the condition, and such notice shall direct the responsible person to perform at his expense all work necessary to assure that the operation of the facility is in accordance and compliance with applicable law, and give the responsible person an opportunity within a reasonable period of time to remedy the deficient condition but in no event less than the time provided by LDEQ for the completion of such remedial work and to otherwise conform with applicable law.

(d) *Remedial action.* Upon the expiration of the time prescribed in the written notice issued pursuant to subsection (c) of this section, a reinspection of the septage/sludge treatment facility shall be conducted to determine if the deficient condition noted during the original inspection has been remedied. If the deficient condition still exists, the department may perform all necessary work to remedy the deficient condition and assess the responsible person with the reasonable costs of such work. Should the responsible person fail to pay such costs, the department shall file an affidavit of lien on the property or facility specifically identifying the property or facility affected, and the amount of any and all costs, fees and delinquent payment charges to date of filing and that may be accruing. Any lien which is filed against real property and not paid timely shall be added to the annual ad valorem tax bill of the owner or owners of such property.

(e) *Monitoring of governed septage/sludge treatment facilities.* Every governed septage/sludge treatment facility shall make available to the department for its review, upon the department's request, all monitoring data required to be furnished to the LDEQ as set forth in the discharge permit issued by the LDEQ for the treatment facility in question. Such monitoring data shall be reported on a discharge monitoring report DMR, form (EPA No. 3320-1 or any approved substitute). For inspection purposes, copies of all such monitoring reports shall be kept on site at, or in reasonable proximity to the permitted treatment facility for a period of not less than three years from the date of the sample, measurement, report or application.

(Code 1998, § 23-950.09; Ord. No. 06-1322, 6-1-2006)

Sec. 40-330. Inspection of individual on-site sewage treatment systems.

The inspection of individual on-site sewage treatment systems will be conducted in accordance with the procedures set forth in the parish Ordinance No. 2445, Ordinance Calendar Series No. 02-0538.

(Code 1998, § 23-950.10; Ord. No. 06-1322, 6-1-2006)

Sec. 40-331. Service vehicles.

(a) *License required.* No person shall engage in the business of cleaning, pumping or otherwise servicing OTS or any other facility or apparatus which accumulates septage or sludge without first obtaining a license from the parish or its designee for each service vehicle to be used in such business. A license shall be issued on or after the service vehicle has been inspected and certified as satisfactory by the parish health unit or the designee of the parish.

- (1) No license for the cleaning, pumping or otherwise servicing any OTS, or any other facility or apparatus which accumulates septage or sludge or any other liquid or dewatered waste shall be granted by the parish until the applicant furnishes to the parish a certificate of registration evidencing that the applicant is a registered user of a parish designated, LDEQ or other appropriate governmental regulatory agency permitted septage/sludge treatment facility.
- (2) Granting of the license shall be evidenced by a sticker furnished by the parish or its designee which shall be placed on the lower right side of each service vehicle's windshield. The fee for the license shall be \$50.00 per annum per service vehicle. The license may be revoked or suspended if the person ceases to meet requirements for the license or violates any provisions of this section.

(b) *Insurance required.* No license for the cleaning, pumping or otherwise servicing of septage, sludge or any other liquid or dewatered waste shall be granted by the parish or its designee until the applicant furnishes to the appropriate party a certificate of insurance evidencing that the applicant has in force contractor's public liability insurance covering the hauling and disposal of such waste by the applicant, covering the applicant, the parish and any designee thereof with a policy limit of not less than \$300,000.00. The policy must be issued by an insurance company authorized to do business in the state and shall name the parish and any designee as an additional insured and shall not expire prior to the expiration date of the parish license and shall provide that it cannot be cancelled without 30 days written notice to the parish.

(c) *Required capacity and inspection.* Service vehicles regulated by this section shall be required to have capacities of not less than 1,300 gallons and shall be equipped with an operable sludge or vacuum type pump, provided however, that vehicles engaged exclusively in servicing commercially supplied individual toilets for temporary usage (port-a-let) shall be required to have capacities of no less than 500 gallons. Such vehicles shall be required to be filled with water

at the time of inspection by the parish health unit or other inspector, and no license shall be issued if any leaks are found. Vehicle inspections shall be conducted at the owner's place of business or a site specified by the inspector within the parish.

(d) *Deposit of waste by operators limited to permitted locations.* Operators of service vehicles regulated pursuant to this section shall be prohibited from depositing any sewerage, septage or sludge, including any liquid or dewatered waste except in parish recognized LDEQ permitted septage/sludge treatment facilities in any location. Moreover, operators of such service vehicles must maintain and make available to the department written service logs which represent the following:

- (1) Each customer or operator which owns or operates an individual sewage/septic disposal system or any other facility or apparatus which accumulates septage or sludge;
- (2) The dates service was provided for such customers and the corresponding wastewater, septage or sludge volumes pumped and hauled for such customers;
- (3) The dates and wastewater, septage or sludge volumes delivered to aforementioned parish designated, LDEQ permitted septage/sludge treatment facilities; and
- (4) In order for any hauler to achieve compliance herewith, the volumes reported pursuant to subsections (b) and (c) of this section must be equal.

(e) *Disposal of hazardous waste and certain other types of waste prohibited.* The disposal in the parish by any person of liquid or dewatered waste which is infectious, (other than sewage, septage or sludge) flammable or volatile, or hazardous waste as described in the current state solid waste rules and regulations shall be prohibited. This includes, but is not limited to, petroleum based products and/or antifreeze.

(f) *Rescission of license.* The director of the department may revoke the license for any hauler or service vehicle regulated pursuant to this section for violations of the provisions of this section or other ordinances or the failure to obey any order of an authorized parish personnel or failure to pay assessed fees, surcharges or fines.

(Code 1998, § 23-950.11; Ord. No. 06-1322, 6-1-2006)

Sec. 40-332. Enforcement and penalties.

Provisions of this article shall be enforced by the department and/or its designated representative. Any violation hereof shall constitute a misdemeanor and shall be punishable as provided in section 1-9.

- (1) *Misdemeanor.* Any person within the parish who violates this article, or who shall permit such a violation to exist on the premises under his control, or who shall fail to take action to abate the existence of the violation, shall be guilty of a misdemeanor and

upon conviction thereof shall be punishable therefore, provided by law. A separate offense shall be deemed committed upon each day during or on which a violation occurs or continues.

- (2) *Equitable relief.* In the event a violation exists or there is a threat of a violation of the ordinance, the department, or their designees, may take appropriate action to enforce the ordinance. Such action may include application for injunctive relief, action to compel performance, including revocation of any license or other appropriate action in court if necessary to prevent, restrain, correct or abate such violation or threatened violations. Such remedies are cumulative in nature.
- (3) *Civil action or cost as special tax.* If a person fails to comply with the provisions of this article, the parish may recover cost incurred for corrective action in a civil action in any court of competent jurisdiction or, at the discretion of the parish government, the cost may be certified to the parish auditor as a special tax against the real property.
- (4) *Citation.* The department, or their designees, may issue citations for violations of the ordinance. The citation shall be issued to the person charged with the violation, or in the case of a corporation or municipality, to the supervisor at the site of the violation or any officer of any agency expressed or implied to authorize such issuance.
- (5) *Inspection.* All property affected by this article shall be subject to inspection by the department or their designees, in accordance with this article. No person shall refuse to permit the department, or their designees, to inspect any premises or interfere with or resist the department, or their designees in the discharge of their duty to protect the public health and safety and the protection of the environment.
- (6) *Abatement.* The parish government, upon recommendation of the department, may declare a violation of this article to be public nuisance and order abatement to be made initially at parish expense. The department shall present by certified mail an itemized statement for corrective action expenses to the owner of the real property where such abatement has been conducted. Such expenses for corrective action may also be recovered in civil action or the cost may be certified to the parish auditor as a specific assessment against the real property as provided by law.
- (7) *Justice of the peace.* A justice of the peace shall have concurrent jurisdiction over the sewage, septage and sludge violations occurring in the parish. In addition, a constable may issue summons and service subpoenas anywhere in the parish all in accordance with R.S. 13:2586. A prosecution of the sewage, septage and sludge violations and compensation in criminal cases of a justice of the peace and constable shall be in accordance with R.S. 13:2587.1 and R.S. 13:2589.

(Code 1998, § 23-950.12; Ord. No. 06-1322, 6-1-2006)

Sec. 40-333. Service rates and fees.

(a) *System fees.* These fees shall apply to all customers or subscribers of a sewerage and/or water system owned and operated by the parish.

(1) *Water service fee.*

Capacity reservation fee	Not to exceed \$2.35 per gallon
Tap-in-fee	
¾" service	\$444.00
1" service	\$499.50
1½" service	\$571.65
2" service	\$860.25
Above 2" service	\$444.00 (plus actual cost of meter and all necessary fittings)
Connection fee	\$22.20
Reconnect fee (this charge is for re-establishing service after disconnection for nonpayment, failure to make deposit, fraudulent or seasonal use)	\$38.85
Deposit	2½ times average monthly bill (\$40.00 minimum)
Service charge (this charge shall cover the cost of utility employee sent to a consumers premises at the customer's request when the trouble is found to be in the consumer's house piping)	\$49.95
Tampering (this fee applies to anyone who illegally taps into the system or in any way destroys or tampers with the system; including meters, meter boxes, lines, valves, etc.)	\$250.00

(2) *Sewer service fees.*

Capacity reservation fee	Not to exceed \$4.70 per gallon
Tap-in fee (this charge will include all labor and materials and any other cost associated with initially establishing service)	\$499.50
Connection fee	\$38.85
Reconnection fee (this charge is for re-establishing service after disconnection for non-payment, failure to make deposit, fraudulent or seasonal use)	\$33.30
Service charge (this charge shall cover the cost of a utility employee sent to a customer's premises at the customer's request when the trouble is found to be in the customer's house piping)	\$49.95

Deposit	2½ times the average monthly bill (\$40.00 minimum)
Tampering fee (this fee applies to anyone who illegally taps into the system or in any way destroys or tampers with the system; including meters, meter boxes, lines, valves, etc.)	\$250.00
Late payment charge	6 percent of the unpaid balance

- (3) *System construction fee collection agreement.*
- a. The parish acknowledges the need for the construction of water and sewer infrastructure to facilitate connections to Tammany Utilities water and sewer system. In some cases individuals are willing to construct the lines to connect to Tammany Utilities but, seek reimbursement of a pro rata portion from neighboring lot owners who will utilize the lines. The following provisions shall apply to the process of assessment and collection of the pro rata portion of the new system construction fee.
1. The following definitions shall apply to the terms used in this section:
- (i) Applicant shall mean the person who will construct or actually constructs the water and/or sewer infrastructure across undeveloped property for which he seeks reimbursement of its costs;
 - (ii) Application shall mean the form prepared by the department of environmental that contains all information necessary to process a request for a new system construction fee agreement;
 - (iii) Neighboring lot owner shall mean owners of lots which benefit from the installation of water and/sewer lines which they will be compelled to connect and for which they will owe a pro rata reimbursement of the cost of construction therefore;
 - (iv) Minor subdivision shall have that meaning as defined in the parish Code;
 - (v) New system construction fee is the pro rate share of the cost of construction and installation of water and/or sewer lines across neighboring lot owner's property and which is owed by each neighboring lot owner upon connection to Tammany Utilities;
 - (vi) New system construction fee agreement is the document that will be prepared by the parish legal department upon approval of same by the department of environmental services and which will provide for the collection and payment of the pro rata share of the cost of construction and installation of water and/or sewer lines across neighboring lot owner's property and which is owed by each neighboring lot owner upon connection to Tammany Utilities;

- (vii) New system infrastructure is water and/or sewer lines constructed and installed by an applicant and for which the applicant seeks reimbursement from neighboring lot owners;
 - (viii) Plans and specifications shall mean a complete set of the plans and specifications which describe and depict the sewer and/or water lines to be constructed and installed. The plans and specifications shall be signed and stamped by a licensed engineer upon submittal to the department of environmental services;
 - (ix) Subdivision shall have that meaning as defined in this Code;
 - (x) Tammany Utilities shall mean the water and sewer services provided by the parish operated under the name Tammany Utilities.
- b. Individuals who construct the necessary infrastructure to connect to a Tammany Utilities sewer and/or water line, hereinafter referred to as new system infrastructure, within public right-of-way or right-of-way owned by the parish and across undeveloped lots can make application with the parish for a new system construction fee collection agreement ("collection agreement").
- c. The following documents shall be submitted with the application:
 - 1. Plans and specifications for the new system infrastructure;
 - 2. Invoices with all necessary backup documentation and proof of payment evidencing the construction of the new system infrastructure; and
 - 3. Any and all other documents requested by the department of environmental services.
- d. Upon completion of the new system infrastructure, Tammany Utilities will inspect the infrastructure to ensure that it meets all of its applicable regulations.
- e. Upon verification that the new system infrastructure has been constructed as designed and that proper payment has been made by the applicant, the parish will prepare and enter into a new system construction fee collection agreement, whereby the parish agrees to collect from the neighboring lot owners a new system construction fee being a pro rata portion of the total cost of construction of the new system infrastructure. This pro rata portion shall be based upon the amount of linear footage of the new system infrastructure which services each neighboring lot owner. Once the parish determines that the applicant is entitled to seek a new system construction fee, the pro rata portion shall be assessed to each neighboring lot owner and collected as stated herein.
- f. The parish will use its best efforts to collect the pro rata portion from each neighboring lot owner when that individual makes application to connect to Tammany Utilities water and/or sewer system. There shall be no obligation on

behalf of the parish to pay the applicant's cost of the new system infrastructure as the parish shall only act as a conduit for the reimbursement of the new system infrastructure.

- g. This provision shall not apply to minor subdivisions or any subdivision of any type.
- h. The obligation of the parish to collect the pro rata portion of the new system infrastructure fee shall expire five years from the date that the parish enters into the new system construction fee collection agreement.
- i. The parish shall not have any obligation to pursue collection efforts of the pro rata portion from each neighboring lot owner. The obligation to pay remains with the neighboring lot owner. The parish intends to act simply a collection agent for the cost of implementing the new system infrastructure.
- j. An administration fee of \$100.00 shall be assessed for each collection made by the parish pursuant to a new system construction fee collection agreement.

- (5) *Terra Bella Subdivision.* Instead of the parish's standard tap-in-fee, for each new water connection in the Terra Bella Subdivision, including phase 1-A-1 and 1-A-2, a tap-in fee in the amount of \$750.00 shall be charged, at the time of tap-in, for each residential user. No building permit shall be issued without the payment of the parish tap-in-fee.
- (6) *Eagle Landing Subdivision.* In addition to the parish tap-in-fee, for each new water connection in the Eagle Landing Subdivision, where applicable, a system construction

fee shall be charged in accordance with the utility services agreement dated February 1, 2008, and as amended. No building permit shall be issued without the payment of the parish tap-in-fee and the system construction fee.

- (7) *Del Sol Subdivision.* In addition to the parish tap-in-fee, for each new water connection in the Del Sol Subdivision, where applicable, a system construction fee shall be charged in accordance with the utility services agreement dated October 29, 2007, and as amended. No building permit shall be issued without the payment of the parish tap-in-fee and the system construction fee.
- (8) *Weston Glen Subdivision.* In addition to the parish tap-in-fee, for each new water connection in the Weston Glen Subdivision, where applicable, a system construction fee shall be charged in accordance with the utility services agreement dated May 25, 2007, and as amended. No building permit shall be issued without the payment of the parish tap-in-fee and the system construction fee.
- (9) *Northshore Commercial Park Subdivision.* In addition to the parish tap-in-fee, for each new water connection in the Northshore Commercial Park Subdivision, where applicable, a system construction fee shall be charged in accordance with the utility services agreement dated June 4, 2007, and as amended. No building permit shall be issued without the payment of the parish tap-in-fee and the system construction fee.

Monthly Sewerage Service	
Residential	
Residential customers	115 percent of water rate \$28.60 (minimum) \$58.10 (maximum)
Residential flat (S10)	\$28.60
Bedico Creek Customers	115 percent of water rate \$33.36 (minimum) \$67.83 (maximum)
Commercial	
Commercial customers	115 percent of water rate \$62.40 (minimum) No maximum
Flat rate apartments (S08)	\$383.88

- (10) *Terra Bella Subdivision.* Instead of the parish's standard tap-in-fee, for each new sewer connection in the Terra Bella Subdivision, including phase 1-A-1 and 1-A-2, a tap-in fee in the amount of \$750.00 shall be charged, at the time of tap-in, for each residential user. No building permit shall be issued without the payment of the parish tap-in-fee.

- (11) *Eagle Landing Subdivision*. In addition to the parish tap-in-fee, for each new sewer connection in the Eagle Landing Subdivision, where applicable, a system construction fee shall be charged in accordance with the utility services agreement dated February 1, 2008, and as amended. No building permit shall be issued without the payment of the parish tap-in-fee and the system construction fee.
- (12) *Del Sol Subdivision*. In addition to the parish tap-in-fee, for each new sewer connection in the Del Sol Subdivision, where applicable, a system construction fee shall be charged in accordance with the utility services agreement dated October 29, 2007, and as amended. No building permit shall be issued without the payment of the parish tap-in-fee and the system construction fee.
- (13) *Weston Glen Subdivision*. In addition to the parish tap-in-fee, for each new sewer connection in the Weston Glen Subdivision, where applicable, a system construction fee shall be charged in accordance with the utility services agreement dated May 25, 2007, and as amended. No building permit shall be issued without the payment of the parish tap-in-fee and the system construction fee.
- (14) *Northshore Commercial Park Subdivision*. In addition to the parish tap-in-fee, for each new sewer connection in the Northshore Commercial Park Subdivision, where applicable, a system construction fee shall be charged in accordance with the utility services agreement dated June 4, 2007, and as amended. No building permit shall be issued without the payment of the parish tap-in-fee and the system construction fee.
- a. *Indexed increases*. Except as expressly provided herein, all water and sewer rates, fees and costs shall be adjusted annually using the "Municipal Cost Index" issued by Penton Media, Inc. through American City and County (<http://americancityandcounty.com/mciarchive/>).
1. Each January 1 the then-current water and sewer rates shall be revised by an amount equal to the percentage change in the municipal cost index for the previous 12-month period comprised from October of the prior year and October two years' prior.
 2. Provided, however, the percentage increase shall not exceed four percent without council approval. For example, on January 1, 2012, rates shall increase four percent based on the percentage change in the municipal cost index from October 2010 (212.8) to October 2011 (223.6) of 5.08% $((223.6 - 212.8)/212.8)$. If the percentage change in the municipal cost index for such period of October to October is zero or less than zero, then no increase to the water and sewer rates shall occur for that calendar year.
 3. Rates shall be rounded up to the nearest tenth of a dollar. Indexed increases do not apply to:
 - (i) Capacity reservation fees;

- (ii) Tap-in fees;
- (iii) Connection fees;
- (iv) Re-connect fees;
- (v) Deposit;
- (vi) Service charge;
- (vii) Tampering;
- (viii) Late payment charge;
- (ix) Parish inspection fee;
- (x) Repair surcharge.

4. If the municipal cost index is subsequently converted to a different standard reference base or otherwise revised, the numerator and denominator of the fraction set out in this rate ordinance will be determined by using any conversion factor, formula or table published by a nationally recognized publisher of similar statistical information. If the municipal cost index ceases to be published, for the purposes hereof, any other index chosen by parish may be substituted therefor.

(Code 1998, § 23-810.00; Ord. No. 09-2067, 6-4-2009; Ord. No. 09-2181, 12-3-2009; Ord. No. 10-2257, 4-1-2010; Ord. No. 10-2357, 10-7-2010; Ord. No. 11-2561, 7-7-2011; Ord. No. 11-2645, 12-1-2011; Ord. No. 12-2707, 4-5-2012)

Secs. 40-334—40-354. Reserved.

ARTICLE XII. PERFORMANCE STANDARDS FOR DEVELOPMENTS WITH CENTRAL SEWAGE AND/OR WATER FACILITIES

Sec. 40-355. Purpose.

The purpose of this article is to provide a parish regulatory vehicle to ensure that owner/developers properly install, operate and maintain sewage and water facilities provided in residential, commercial and industrial developments.

(Code 1998, § 21-001.00; Ord. No. 86-630, 6-19-1986)

Sec. 40-356. Definitions.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Central sewage facility means either a publicly or privately owned system, that may consist of a collection system, or a portion thereof, pumping facility or facilities, and a means of final treatment and disposal, as well as any ancillary features which serves more than one dwelling unit or business.

Central water system means either a publicly or privately owned system usually consisting of at least one of the following: a source; storage facility; pumping system; treatment process; or distribution system which ensures the safe and adequate supply of potable water to more than one dwelling unit or business.

Sewage means the waste material and liquids carried off by sewers; and sewerage shall be defined as the removal and disposal of sewage and surface water.
(Code 1998, § 21-002.00; Ord. No. 86-630, 6-19-1986)

Sec. 40-357. Standards prescribed.

The sewer and water facilities herein addressed shall comply with all of the provisions of the state department of health and human resources, hereby referred to as (DHHR) or its successor agency, the sanitary code of the state, and the department of environmental quality, hereby referred to as (DEQ) or its successor agency, and the water quality control standards of the state.
(Code 1998, § 21-003.00; Ord. No. 86-630, 6-19-1986)

Sec. 40-358. Plans and specifications, requirements for submittal.

(a) The owner/developer shall be required to submit to the parish department of public works a complete set of plans and specifications along with the completed "Design Summary Package," as required by the state department of health and human resources, detailing the type of central sewage and water facilities to be installed. Such plans and specifications shall be certified by a registered professional engineer of the state. Also written acknowledgment from the appropriate governmental agency (DHHR) must be submitted to the department of public works for the parish, ensuring that the plans and specifications are being reviewed by DHHR, and that when necessary, the discharge permit from DEQ has been applied for. This must be done before preliminary approval by the parish or issuance of a building permit.

(b) Before final approval by the parish and/or an occupancy permit is obtained, the plans and specifications must be approved by DHHR, the (draft) discharge permit obtained and the construction certified by a registered professional engineer as to its completeness, conformance to the plans and specifications on file, and present operational capacity.
(Code 1998, § 21-004.00; Ord. No. 86-630, 6-19-1986)

Sec. 40-359. Time limitation on construction.

The owner/developer must comply with the time limitations as provided by DHHR with respect to their approval, and those of DEQ concerning the discharge permit.
(Code 1998, § 21-005.00; Ord. No. 86-630, 6-19-1986)

Sec. 40-360. Operation and maintenance.

(a) The owner/developer shall be responsible for the operation and maintenance (at his expense) of the central sewage and water facilities in full compliance with all the requirements of this Code, all applicable ordinances of the parish, and with federal and state laws and regulations.

(b) This may include hiring of the necessary certified operator, or a consultant that provides such a service, and adhering to the instructions and limits as laid out in the discharge permit. (Code 1998, § 21-006.00; Ord. No. 86-630, 6-19-1986)

Sec. 40-361. Management of facilities and transfer of ownership.

The owner/developer of a project shall accept responsibility for the operation and maintenance of a central sewage and/or water facility and may transfer the ownership rights to another party if so desired. However, in any case, the owner/developer shall establish and submit to the director of the parish department of public works, a "management declaration" which shall establish the responsibility of the owner/developer for the operation, maintenance and funding requirements for the central sewage and/or water facilities. The owner/developer must satisfy the concerns of the parish and of DHHR that such management declaration is valid and solvent.

(Code 1998, § 21-007.00; Ord. No. 86-630, 6-19-1986)

Sec. 40-362. Posting of bonds/letters of credit required.

(a) Once the sewage and/or water treatment facilities have been installed, the developer and/or owner shall contact the parish department of public works. An on-site inspection to ensure that the systems have been installed, and are operable, will be initiated. If upon inspection, the department of public works determines that such system is not found to be built according to specifications, the owner/developer shall be required to make the appropriate corrections at his expense and shall not be allowed to continue any further developmental activities until said corrections have been made and certified as being correct by the department of public works. Subsequently, the director of the department of public works or the parish engineer shall establish an amount in the form of a warranty bond/letter of credit for a period of not less than one year in order to ensure the adequate operation and maintenance of the system. The director shall submit his bond recommendation for approval to the parish council.

(b) All warranty bonds/letters of credit shall be obtained by the owner/developer from an accredited financial institution recognized in good standing by the parish. The release of warranty bonds/letters of credit shall follow established parish procedures.

(Code 1998, § 21-008.00; Ord. No. 86-630, 6-19-1986)

Sec. 40-363. Notice requirement for central sewerage and/or water facilities.

It shall be required of property owners and developers in subdivisions or communities with existing, pending or anticipated central sewerage and/or water facility projects to notify potential buyers, in writing, prior to the execution of any act of sale, of the existing, pending or anticipated project and any additional costs for which the buyer may be responsible for tying into the new system and/or decommissioning the existing sewerage and water system on the property.

(Code 1998, § 21-009.00; Ord. No. 01-0253, 1-4-2001)

Secs. 40-364—40-384. Reserved.

ARTICLE XIII. SEWAGE DISTRICTS***DIVISION 1. GENERALLY**

Secs. 40-385—40-411. Reserved.

DIVISION 2. DISTRICT NO. 1**Sec. 40-412. Created; boundaries.**

A sewage district is hereby created within the parish which shall be composed of territory entirely outside the corporate limits of any municipality and shall include, comprise and embrace all of that territory within the following described boundaries:

- (1) From the east corner of section 37, Township 7 south, Range 11 east, the parish, measure south 45 degrees 15 minutes west, 4,254.5 feet to a point in the westerly right-of-way line of U.S. Highway No. 190; thence along said line the following distance and bearings: north 03 degrees 00 minutes east 217.8 feet to a point; north 07 degrees 00 minutes east 274.0 feet; north 08 degrees 45 minutes east 3,178.0 feet to the point of beginning. (Part A, O. C. Hollister's map, dated January 25, 1959).
- (2) From said point of beginning measure south 08 degrees 45 minutes west along the westerly right-of-way line of U.S. Highway No. 1,902,659.7 feet to a point; thence north 69 degrees 45 minutes west 4,619.0 feet to a point; thence south 66 degrees 00 minutes west, 1,040.0 feet to a point; thence north 69 degrees 53 minutes west, 840.0 feet to a point; thence north 20 degrees 00 minutes east 1,560.6 feet to a point; thence north 23 degrees 04 minutes east, 726.0 feet to a point; thence north 09 degrees 15 minutes west 362.0 feet to a point; thence north 42 degrees 55 minutes west 385.4 feet to a point;

***State law references**—Authority to create sewerage district, R.S. 33:3881; corporate status and powers, R.S. 33:3885.

thence north 59 degrees 20 minutes west 80.9 feet to a point; thence north 39 degrees 30 minutes east, 132.0 feet to a point; thence north 50 degrees 40 minutes west, 716.6 feet to a point; on the left bank of the Tchefuncte River; thence upstream with said bank about 587 feet to a point to the southwest corner of the A. Shushan property; thence along said property line fence south 58 degrees 45 minutes east 1,787.9 feet to a point; thence south 83 degrees 5 minutes east 4,903.1 feet to a point in the westerly right-of-way line of U.S. Highway No. 190; thence with said line, south 08 degrees 45 minutes west, 1,199.9 feet to the point of beginning. This tract contained 466 acres, more or less. All as per surveys dated June 6, 1955, and January 25, 1959, by O.C. Hollister, Registered Surveyor, A. Amite, Louisiana.

(Code 1998, § 21-026.00; Ord. No. 277, Bk. 4, P. 499)

Sec. 40-413. Name, status and powers.

The sewage district herein created shall be known and designated as "Sewage District No. 1 of the Parish of St. Tammany, State of Louisiana," and as thus created, shall constitute a public corporation and political subdivision of the state and as such, shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt, to issue bonds and to levy taxes and assessments.

(Code 1998, § 21-027.00; Ord. No. 277, Bk. 4, P. 499)

Sec. 40-414. Domicile.

The domicile of the sewerage district created herein is hereby designated as the Covington Country Club, Country Club Estates, Covington, Louisiana, which domicile is within the boundaries of said sewage district.

(Code 1998, § 21-028.00; Ord. No. 277, Bk. 4, P. 499)

Sec. 40-415. Commissioners.

The board of commissioners shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 21-029.00; Ord. No. 00-0157, 6-1-2000)

Secs. 40-416—40-443. Reserved.

DIVISION 3. DISTRICT NO. 2

Sec. 40-444. Created; boundaries.

A sewage district is hereby created within the parish, comprising and embracing all that territory within the following described boundaries:

From the southeast corner of section 44, Township 9 south, Range 13 east, St. Tammany Parish, Louisiana, measure along the line common to sections 13 and 44, Township 9 south,

Range 13 east, St. Tammany Parish, Louisiana, north 62 degrees, 30 minutes west 4,776 feet more or less to a point on the left bank of Bayou Liberty the point of beginning. From the point of beginning, measure south 62 degrees 30 minutes east, along the line common to sections 13 and 44, 4,011 feet more or less to the southwest corner of land of George B. Dunbar in section 44, Township 9 south, Range 13 east, St. Tammany Parish, Louisiana; thence north 00 degrees 30 minutes east, 1,432.7 feet more or less to a point in the southerly right-of-way line of Laurent Avenue; thence north 70 degrees 15 minutes east, 3,330 feet more or less to the northwest corner of tract, formerly land of Estate of Clementine Roberts, thence north 37 degrees 15 minutes west, 484.6 feet to an iron post in the southerly right-of-way line of Bayou Liberty Road; thence with said right-of-way line northeasterly 501.3 feet to an iron post; thence south 22 degrees 50 minutes east, 286.3 feet to an iron post; thence south 37 degrees 15 minutes east, 879.6 feet to a point in the center of Ravine Coin Des Lestin; thence with the centerline of said ravine, south 58 degrees 56 minutes west, 368.4 feet to a point; thence south 37 degrees 15 minutes east, 1,470 feet more or less to a point on the right bank of Bayou Bonfouca; thence along said bank southwesterly, westerly, northwesterly and northerly through sections 38, 42, 18 and 19, Township 9 south, Range 14 east, and sections 24, 13 and 23, Township 9 south, Range 13 east, in turn to intersection with line common to sections 14 and 23, Township 9 south, Range 13 east; thence easterly with said line to corner common to sections 13, 14, 23 and 24, Township 9 south, Range 13 east; thence northerly with line common to sections 13 and 14, to its intersection with the southerly bank of Bayou Liberty; thence upstream with said bank southeasterly and northeasterly to the point of beginning.

(Code 1998, § 21-036.00; Ord. No. 336, Bk. 5, P. 383)

Sec. 40-445. Name, status and powers.

The sewage district herein created shall be known and is hereby designated as "Sewage District No. 2 of the Parish of St. Tammany, State of Louisiana," and that as so created shall constitute a public corporation and political subdivision of the state and shall have all the powers granted by the constitution and laws of this state to such entities.

(Code 1998, § 21-037.00; Ord. No. 336, Bk. 5, P. 383)

Sec. 40-446. Domicile.

The domicile of the sewerage district created herein is hereby designated as Coin du Lestin, St. Tammany Parish, and which domicile is within the boundaries of said sewage district.

(Code 1998, § 21-038.00; Ord. No. 336, Bk. 5, P. 383)

Sec. 40-447. Commissioners.

The board of commissioners shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 21-039.00; Ord. No. 00-0157, 6-1-2000)

Secs. 40-448—40-477. Reserved.

DIVISION 4. DISTRICT NO. 4

Sec. 40-478. Created; boundaries.

A sewage district is hereby created within the parish outside the corporate limits of any municipality, which shall comprise and embrace all of that territory within the following described boundaries:

- (1) *Riverwood on the Tchefuncte Subdivision, phases I and II. Phase I:*

Beginning at a point 2,947.0 feet north 51 degrees, 50 minutes west of the southeast corner of section 37, Township 7 south, Range 11 east, proceed at a bearing north 83 degrees, 15 minutes west along the rear property lines of Lots 22 through 42, inclusive, Square 1, to the intersection of said rear property line with the east right-of-way line of Club Lane, thence across Club Lane to the point of intersection of the rear property line of Lot 1, Square 13, and the west right-of-way line of Club Lane to the point of intersection of the rear property line of Lot 1, Square 13, and the west right-of-way line of Club Lane, thence westerly along the rear property line of Lots 1, 2, 3 and 4, Square 13, to the point of intersection of said rear property line of Lot 4, Square 13, thence proceed north 7 degrees 10 minutes 37 seconds west along said west property line of Lot 4, Square 13, thence proceed north 7 degrees 10 minutes 37 seconds west along said west property line of Lot 4, Square 13, to its point of intersection with the south right-of-way line of Golfview Lane, thence across Golfview Lane, to the intersection of the west property line of Lot 9, Square 12, with the north right-of-way line of Golfview Lane, thence north along said west property line of Lot 9, Square 12, to the intersection of the rear property line of said lot, thence northeasterly along the rear property lines of Lots 9, 8, 7, 6 and 5, Square 12 to the point of intersection of the said rear property line with the east property line of Lot 5, Square 12, thence southerly along said east property line of Lot 5, Square 12 to the point of intersection of said east property line with the north property line of Lot 4, Square 12, thence north 48 degrees east along said north property line of Lot 4, Square 12 to its point of intersection with the south right-of-way line of Belle Terre Boulevard, thence across Belle Terre Boulevard to the point of intersection of the west property line of Lot 6, Square 7, with the north right-of-way line of Belle Terre Boulevard; thence northeasterly along said west property line of Lot

6, Square 7, to the intersection with the north line of the utilities servitude, adjoining the rear property line of Lot 6, Square 12, thence generally easterly along said north line of the utilities servitude to the intersection of said north line with the west right-of-way line of Magnolia Lane, thence across Magnolia Lane to the intersection of the east right-of-way line of Magnolia Lane with the north line of the utilities servitude adjoining the rear property line of Lot 9, Square 4, thence along said north line of the utilities servitude for a distance of approximately 165.48 feet, thence north 15 degrees 42 minutes 42 seconds west along said north line for a distance of approximately 84.38 feet, thence generally easterly along said north line of the utilities servitude adjoining the north property lines of Lots 8 through 1, Square 4 inclusive, to its point of intersection with the west right-of-way line of U.S. Highway 190, thence southerly along said west right-of-way line of U.S. Highway 190 to its intersection with the south property line of Lot 22, Square 1, being the point of beginning. All of the above described is within Township 7 south, Range 11 east of Ward 4 of St. Tammany Parish, Louisiana as shown on a survey map prepared by Landry Engineering Co., Civil Surveyors, and Consulting Engineers and dated July 30, 1960, a copy of which is on file with the secretary of the parish council and is open to public inspection; and

- (2) *Phase II.* Beginning at a point south 45 degrees 15 minutes west 4,854.4 feet north 3 degrees 0 minutes east, 217.8 feet, north 7 degrees 0 minutes east, 274.0 feet north 8 degrees 47 minutes east, 4,377.9 feet north 83 degrees 13 minutes 15 seconds west, 3,840.0 feet from the east corner of section 37, Township 7 south, Range 11 east, proceed north 83 degrees 15 minutes west 2,052.47 feet along the rear property line of Lots 5 through 10, Square 13, inclusive, and Lots 1 through 11, Square 14, inclusive, to the point of intersection of said rear property line with the common property line between Lots 11 and 12, Square 14, thence north 58 degrees 35 minutes west 365.31 feet along the rear property line of Lots 12, 13 and 14, Square 14, to the point of intersection of said rear property lines with the west property line of Lot 14, Square 14, thence north 31 degrees 25 minutes east along said west property line of Lot 14, Square 14, to its intersection with the south right-of-way line of Riverwood Drive thence across Riverwood Drive to the point of intersection of the north right-of-way line of Riverwood Drive and the west property line of Lot 10, Square 15, thence north 31 degrees 25 minutes east for approximately 160 feet along said west property line of Lot 10, Square 15, thence north 72 degrees 18 minutes east approximately 260 feet to the intersection with the north right-of-way line of Bayberry Drive, thence easterly along the north right-of-way line of Bayberry Drive to its intersection with the west right-of-way line of Cherrylaurel Drive, thence generally northerly along the west right-of-way line of Cherrylaurel Drive to its intersection with the west right-of-way line of an unnamed street thence northerly along the west right-of-way of said unnamed street to the north right-of-way line of Belle Terre Boulevard, thence easterly along said north right-of-way line of Belle Terre Boulevard to its intersection with the west property line of Lot

23, Square 10, thence northerly along said west property line of Lot 23, Square 10 for a distance of approximately 198 feet, thence north 75 degrees 0 minutes east approximately 84.05 feet to the north servitude line adjoining the northeast property line of Lot 23, Square 10, thence easterly along said north line of the utilities servitude adjoining the rear property lines of Lots 23, 22, 21, 20, 19, 18, 17, 16 and 15, Square 10, thence across an unnamed street to the point of intersection of the east right-of-way of said unnamed street with the north line of the utilities servitude adjoining the rear property line of Lot 34, Square 9, thence along said north line of the utilities servitude, southeasterly 180.3 feet to the point of intersection of said north line with the east property line of said Lot 34, Square 9, thence across an unnamed street to the point of intersection of the east right-of-way line of said unnamed street to the point of intersection of the east right-of-way line of said unnamed street with the north line of the utilities servitude adjoining the rear property line of Lot 1, Square 7, thence generally southeasterly along said north line of the utilities servitude adjoining the rear property lines of Lots 1, 2, 3, 4 and 5, Square 7 to its point of intersection with the east property line of Lot 5, Square 7, thence southwesterly along the property line common to Lots 5 and 6, Square 7 to its intersection with the north right-of-way line of Belle Terre Boulevard, thence across Belle Terre Boulevard to the point of intersection of the south right-of-way line of said Belle Terre Boulevard and the southernmost property line of Lot 3, Square 12, thence along said southernmost property line of Lot 3, Square 12 at a bearing south 48 degrees west for approximately 198.73 feet, thence north 29 degrees 45 minutes west to the southeast corner of Lot 20, Square 12, thence along the rear property lines of Lots 20, 19, 18, 17 and a portion of Lot 16, Square 12 to the northeast corner of Lot 10, Square 12, to the intersection with the north right-of-way line of Golfview Drive, thence across Golfview Lane to the point of intersection of the south right-of-way line of Golfview Lane and the east property line of Lot 5, Square 13, thence southeasterly along the east property line of said Lot 5, Square 13 to its point of intersection with the rear property line of said Lot 5, Square 13, being the point of beginning. All the above described is within Township 7 south, Range 11 east of Ward 4 of St. Tammany Parish, Louisiana, as shown on a survey map prepared by Robert A. Berlin, Registered Land Surveyor, and dated April 6, 1962, a copy of which is on file with the secretary of the parish council and is open to public inspection.

The district shall also embrace that certain tract of land situated in the 4th Ward of St. Tammany Parish, Louisiana, outside the corporate limits of any municipality, more particularly described as follows:

Beginning at the intersection of the west right-of-way line of U.S. Highway 190 and the southern bank of Ponchitolawa Creek with point of intersection situated in section 22, Township 7 south, Range 11 east, St. Tammany Parish, Louisiana; proceed generally westward following the meanderings of the south bank of the Ponchitolawa Creek to its intersection with the east bank of the Tchefuncte River;

thence generally southerly, following the meanderings of the said east bank of the Tchefuncte River to the point of intersection of said east bank of the Tchefuncte River with a projection of the southern-most boundary of Riverwood on the Tchefuncte Subdivision, phases I and II; thence generally southeasterly along said projection line, thence generally easterly along the southernmost boundary of Riverwood on the Tchefuncte Subdivision, phases I and II to its point of intersection with the west right-of-way line to its intersection with the southern bank of Ponchitolawa Creek, the point of beginning.

(Code 1998, § 21-056.00; Ord. No. 537, Bk. 7, P. 174; Ord. No. 559, Bk. 7, P. 282)

Sec. 40-479. Name, status and powers.

The sewage district herein created shall be known and is designated as "Sewage District No. 4 of the Parish of St. Tammany, State of Louisiana," and as thus created shall constitute a public corporation and political subdivision of the state, and as such, shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt, to issue bonds and to levy taxes and assessments.

(Code 1998, § 21-057.00; Ord. No. 537, Bk. 7, P. 174)

Sec. 40-480. Domicile.

The domicile of the sewage district created herein is hereby designated as the Riverwood Club House, Riverwood Subdivision, Covington, Louisiana, which domicile is within the boundaries of said sewage district.

(Code 1998, § 21-058.00; Ord. No. 537, Bk. 7, P. 174)

Sec. 40-481. Board of supervisors.

The board of supervisors of Sewage District No. 4 shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one nominated and appointed by the parish president.

(Code 1998, § 21-059.00; Ord. No. 00-0157, 6-1-2000)

Secs. 40-482—40-500. Reserved.

DIVISION 5. DISTRICT NO. 8

Sec. 40-501. Created; boundaries.

(a) Pursuant to the authority contained in section 3881, ch. 9, title 33 of the Louisiana Revised Statutes of 1950, and other constitutional and statutory authority supplemental thereto, the parish council of the parish, acting as the governing authority of said parish, acting

on its own initiative, does hereby change the boundaries of said district, said boundaries to remain outside the corporate limits of any municipality, so that the boundaries and corporate limits of Sewerage District No. 8 of the parish.

(b) The parish, shall hereafter comprise, embrace and include all of that territory within Tall Timbers Subdivision, described as follows, to-wit:

- (1) Commence at the quarter corner common to sections 27 and 34, Township 7 south, Range 11 east, St. Tammany Parish, Louisiana, said point being the point of beginning; thence go north 00 degrees, 12 minutes, 52 seconds west 1,362.69 feet; thence go north 45 degrees, 43 minutes, 42 seconds east 2,821.42 feet; thence go south 00 degrees, 03 minutes, 34 seconds west 3,311.73 feet; thence go south 89 degrees, 25 minutes, 01 second west 2,011.80 feet back to the point of beginning.

- (2) Said property comprises the subdivision known as Tall Timbers, located in Ward 4, Police Jury District 10.

(Code 1998, § 21-096.00; Ord. No. 744, 8-18-1977; Ord. No. 92-1670, 11-19-1992)

Sec. 40-502. Name, status and powers.

The said district shall continue to be known as and is hereby designated as "Sewerage District No. 8 of the Parish of St. Tammany, State of Louisiana," and shall continue to constitute a public corporation and political subdivision of the state, and as such, shall have all the powers incidental thereto as granted by the constitution and laws of the state, including the authority to incur debt, to issue bonds and to levy taxes; that said sewerage district, as originally created and amended, has no outstanding bonded indebtedness, and such change shall in no manner impair any other obligations that may have heretofore been incurred by said sewerage district during the period of its existence.

(Code 1998, § 21-097.00; Ord. No. 744, 8-18-1977; Ord. No. 92-1670, 11-19-1992)

Sec. 40-503. Notice of change of boundaries.

Due notice of the change of the boundaries of said sewerage district shall be published and the president of this police jury be and he is hereby instructed and ordered to issue notice of the change of the boundaries of said sewerage district and to cause publication thereof to be made in the parish farmer.

(Code 1998, § 21-098.00; Ord. No. 744, 8-18-1977; Ord. No. 92-1670, 11-19-1992)

Sec. 40-504. Board of supervisors.

The board of supervisors of Sewage District No. 8 shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 21-099.00; Ord. No. 00-0157, 6-1-2000)

Secs. 40-505—40-531. Reserved.

DIVISION 6. DISTRICT NO. 10

Sec. 40-532. Created; boundaries.

A sewage district is hereby created within the parish and outside the corporate limits of any municipality, which district shall comprise and embrace all of that territory within the following described boundaries:

- (1) Certain pieces or portions of ground with all the buildings and improvements thereon and all rights, ways, privileges, servitudes and appurtenances thereunto belonging or in anywise appertaining, situated in the State of Louisiana, Parish of St. Tammany, forming a portion of sections 23, 24, 25, and 26, Township 6 south, Range 12 east, in that part thereof known as Hillcrest Country Club Estates Subdivision, Addition No. 3, as shown on a survey by Land Engineering Services, Inc., dated February 3, 1961, revised May 16, 1961, certified by Robert A. Berlin, La. Reg. Sur., and recertified on April 6, 1964, being described as follows, to wit:
 - a. Beginning at a point on the westerly right-of-way line of Snead Drive, which point forms the southeast corner of Lot 59, Square 2, thence westerly 150 feet to the southwest corner of Lot 59, said square, to a point; thence north-easterly along the rear line of Lots 59 descending through and including Lot 37, said square to the southwest corner of Lot 37; thence northerly along the sideline of Lot 37, 151 feet to the northwest corner of Lot 37; thence in a westerly direction along the southerly line of Snead Drive a distance of 10 feet to a point, which is the northeast corner of Lot 36; thence in a southerly direction along the sideline of Lot 36 a distance of 151 feet; to a point, which is the southeast corner of Lot 36; thence continue along the rear line of Lot 36 descending thru and including Lot 1 of Square 2 to a point on the northern right-of-way of Francis Quimet Drive; thence easterly along the northern right-of-way of Francis Quimet Drive to a point, which point is the southwest corner of Lot 98, Square 1; thence continue northerly along the rear line of Lot 98 descending thru and including Lot 49 of said square to a point; which point is the southwest corner of Lot 49; thence continue northerly along the rear line of Lots 48 descending thru and including Lot 28 to a point, which is the southwest corner of Lot 28, Square 1; thence northerly along the sideline of Lot 28, 190 feet to a point on the southern right-of-way of Fairway Drive; thence northerly along the southerly right-of-way of Fairway Drive 20 feet to a point, which is the northeast corner of Lot 27 of said square; thence continue southerly along the sideline of Lot 27, 190 feet to a point, which is the southeast corner of Lot 27; thence continue along the rear line of Lot 27 descending thru

and including Lot 6 to a point, which is the point common to Lot 5, Lot 105 and Lot 106 of Square 1; thence continue easterly along the rear of Lot 106 through and including Lot 120 of Square 1 to a point on the rear line of Lot 143; thence continue southeasterly along the rear line of Lot 143 thru and including Lot 148 to a point, which point is the eastern most corner of Lot 148; thence southwesterly 200 feet to the eastern right-of-way line of Francis Quimet Drive; thence southerly along the eastern right-of-way line of Francis Quimet Drive to the intersection of the southern right-of-way line of Oliver Street, which intersection forms the northwest corner of Lot 26 of Square 3; thence northeasterly along the southern right-of-way line of Oliver Street to a point, which point is the northern corner of Lot 10, Square 3; thence southeasterly along the rear line of Lot 10 descending thru and including Lot 6 to a point, which is the northeast corner of Lot 6; thence southerly along the side line of Lot 6, 247.2 feet to a point, which is the southeast corner of Lot 6; thence southeasterly along the northern right-of-way of Evans Street 15 feet to a point, which is the southwest corner of Lot 5 of Square 3; thence northerly along the side line of Lot 5 a distance of 247.2 feet to a point, which is the north-west corner of Lot 5, Square 3, thence southeasterly along the rear line of Lots 5 and 4 to a point on the westerly right-of-way of Francis Quimet Drive; thence northerly along the western right-of-way of Francis Quimet Drive and northeasterly to the intersection of the western right-of-way line of Snead Drive; thence northwesterly along the western right-of-way line of Snead Drive to the point of beginning.

Less and except that portion sold by Leslie Homes, Inc., to Pep, Inc., by act dated May 17, 1962, before Vincent C. Rodriguez, Notary Public, registered in COB 323, folio 429, St. Tammany Parish, Louisiana, containing 1.45 acres, and described as follows:

A certain piece or portion of ground, together with all improvements thereon, all rights, ways, privileges, servitudes, appurtenances and advantages thereunto belonging or in anywise appertaining, situated in the Parish of St. Tammany, section 25, Township 6 south, Range 12 east, St. Tammany Parish, Louisiana, which portion of ground is more particularly described as follows in accordance with map of Robert A. Berlin, Louisiana Registered Surveyor, No. 94, dated May 10, 1962, annexed to said sale to Pep, Inc.:

From the corner common to sections 23, 24, 25 and 26, Township 6 south, Range 12 east, St. Tammany Parish, Louisiana, measure north 42 degrees 30 minutes east, 519.7 feet to a point; thence south 30 degrees 15 minutes east, 1788.8 feet to an iron post; thence north 64 degrees 05 minutes east, 388.7 feet to an iron post; thence south 72 degrees 30 minutes east, 239.9 feet to an iron post on the westerly right-of-way line of Snead Drive, a 60-foot street; thence along said

right-of-way line south 31 degrees 20 minutes east, 413.5 feet to an iron post; thence continuing along said right-of-way line south 40 degrees 49 minutes east, 419.0 feet to an iron post at the intersection of the westerly right-of-way line of Snead Drive with the northwesterly right-of-way line of Quimet Drive; thence with said northwesterly right-of-way line south 41 degrees 08 minutes west, 262.4 feet to an iron post, the point of beginning.

From the point of beginning measure south 41 degrees 08 minutes west, 200.0 feet to an iron post on said right-of-way line of Quimet Drive; thence north 48 degrees 52 minutes west 276.0 feet to an iron post at the water's edge of Hillcrest Lake; thence with the water's edge north 19 degrees 35 minutes east, 215.6 feet to an iron post at the water's edge of said lake; thence south 48 degrees 52 minutes east, 355.0 feet to the point of beginning.

- b. From the point of beginning, which point is located at the intersection of the northern right-of-way line of Worsham Street and the rear boundary line of Lot 35, Square 4, continue northerly and westerly along the rear lines of Lots 35 thru and including Lot 61, Square 4 to a point; thence northerly along the side line of Lot 61 a distance of 237 feet to the southerly right-of-way of Francis Quimet Drive; thence westerly along the southerly right-of-way of Francis Quimet Drive 20 feet to a point, which is the east and northeast corners of Lots 7 and 8, respectively, Square 4; thence south along the rear line of Lot 7 through and including Lot 11 to a point, which point is at the corner common to the rear line of Lots 14 and 15; thence easterly along the rear line of Lot 15 through and including Lot 34 to a point on the northern right-of-way line of Worsham Street; thence northeasterly along the right-of-way line of Worsham Street to the point of beginning.
- c. From the point of beginning, which point is the southwest corner of Lot 2, Square 5, continue along the rear lines of Lot 2 through and including Lot 36 to a point, which is the southeast corner of Lot 36; thence northwesterly along the side line of Lot 36, 200 feet to a point, which is the northeast corner of Lot 36; thence northeasterly along the eastern right-of-way of Francis Quimet Drive 20 feet to a point, which is the northwest corner of Lot 37, Square 5; thence along the side line of Lot 37, 200 feet to a point, which is the southwest corner of Lot 37; thence continue along the rear line of Lot 37 thru and including Lot 59 to a point, which is the southeast corner of Lot 59; thence northwesterly along the side line of Lot 59, 175 feet to a point, which is the northeast corner of Lot 59; thence northeasterly along the east side line of Snead Drive 20 feet to a point, which is the northwest corner of Lot 60, Square 5; thence southeasterly along the side line of Lot 60, 175 feet to a point, which is the southerly most corner of Lot 60; thence

continue along the rear of Lot 60, 63 thru and including Lot to a point, which is the southerly most corner of Lot 145, Square 5; thence continue north-easterly along the rear of Lot 145 and Lot 1, Square 5, to a point on the southerly right-of-way of Francis Quimet Drive; thence in a southeasterly direction along the southern right-of-way of Francis Quimet Drive 20 feet to a point, which is the northwest corner of Lot 2, Square 5; thence southwesterly along the sideline of Lot 2, Square 5, 175 feet to point of beginning. All in accordance with a recertification of same survey by E.L. Dewailly, Reg. La. Sur., dated April 6, 1971, recorded as Entry No. 277916, St. Tammany Parish, Louisiana.

- (2) A certain piece or portion of ground with all the buildings and improvements thereon and all rights, ways, privileges, servitudes and appurtenances thereunto belonging or anyway appertaining, situated in the State of Louisiana, Parish of St. Tammany, forming parts of sections 23, 24, 25 and 26, Township 6 south, Range 12 east, in that part thereof known as Hillcrest Country Club Estates Subdivision. Addition No. 3, as shown on a survey by E. L. Dewailly, Sr., Registered Land Surveyor, dated March 29, 1971, and being described as follows, to-wit:
- a. From the point of beginning, which point is located at the rear corner common to Lots 8 and 9, Square 7, measure 48 degrees west, 1540 feet to a point, which point is on the eastern right-of-way of Snead Drive and opposite to the corner common to Lots 56 and 57, Square 2, thence south-easterly along the eastern right-of-way of Snead Drive 1480 feet, more or less, to a point, which point is the northwestern corner of Lot 1, Square 6; thence north-easterly along the side line of Lot 1, 90 feet to a point; thence southeasterly along the rear line of Lot 1 thru and including Lot 9 to a point on the northern right-of-way line of Snead Drive; thence northeasterly along the right-of-way line of Snead Drive to a point at the intersection of the rear line of Lot 1, Square 7; thence northeasterly along the rear line of Lot 1 thru and including Lot 8 to the point of beginning.
 - b. A certain piece or portion of ground with all the buildings and improvements thereon and all of the servitudes, rights and appurtenances thereunto applying situated in the State of Louisiana, in the Parish of St. Tammany, in sections 24 and 25, Township 6 south, Range 12 east, as shown on a survey prepared by Land Engineering Services, Inc., dated April 1, 1964, signed by Robert A. Berlin, La. Reg. Sur., and said portion of ground commences from the one-quarter corner on line common to sections 24 and 25, Township 6 south, Range 12 east, measure south 1455 feet more or less to a point, thence east 575 feet more or less to the most northerly corner of Lot 10, Block 7, Hillcrest Country Club Estates Subdivision, Addition No. 3, thence south 31 degrees 55 minutes west 178.2 feet to a corner common to Lots 9 and 10, said block, addition, subdivision, thence north 51 degrees 45 minutes west 97.4 feet to the most northerly corner of Lot 9, said block

and subdivision, thence south 45 degrees 20 minutes west 85 feet to a point, thence south 32 degrees 55 minutes west 100 feet to a corner common to Lots 8 and 9, said block, addition, subdivision, thence north 48 degrees 00 minutes west 1540 feet more or less to a point in the easterly right-of-way line of Snead Drive, said point being on an easterly extension of the line common to Lots 56 and 57, said block, addition, subdivision, thence along said right-of-way line north 11 degrees 10 minutes east 400 feet more or less to a point, thence north 04 degrees 15 minutes west 328 feet more or less to a point, thence north 13 degrees 00 minutes west 395 feet more or less to a point, thence north 22 degrees 15 minutes west 100 feet more or less to a point, thence north 33 degrees 00 minutes west 416 feet more or less to a point, thence north 59 degrees 25 minutes west 888 feet more or less to a point, thence north 81 degrees 45 minutes west 187 feet more or less to a point, thence north 35 degrees, 00 minutes west 10 feet to a point in the southeasterly right-of-way line of Louisiana State Highway No. 435, thence along said right-of-way line north 65 degrees 00 minutes east 306.24 feet more or less to a point, thence north 60 degrees 00 minutes east 132 feet to a point, thence north 52 degrees 00 minutes east 132 feet to a point, thence north 50 degrees 30 minutes east 264 feet to a point, thence north 49 degrees 45 minutes east 772.2 feet to a point thence north 46 degrees 45 minutes east 594 feet to a point, thence north 46 degrees 20 minutes east 463.98 feet to a point, thence south 0 degrees 07 minutes east 2705 feet more or less to the point of beginning. This tract contains 97 acres, more or less. All of which said measurements are the same as shown on a survey by E. L. Dewailly, Reg. La. Sur., dated March 29, 1971, annexed to a sale by Leslie Homes, Inc., to Louisiana Purchase Corporation, registered in COB 607, folio 135, St. Tammany Parish, Louisiana.

- (3) Lots Nos. 1 through 148 in Square No. 1, bounded by Fairway Drive, Burke Drive, the Golf Course and Francis Quimet Drive.
- a. Lots Nos. 1 through 59 in Square No. 2, bounded by Snead Drive, Chapman Street, Francis Quimet Drive and the Golf Course.
 - b. Lots Nos. 1 through 37 in Square No. 3, bounded by Evans Street, Oliver Street and Francis Quimet Drive.
 - c. Lots Nos. 1 through 61 in Square No. 4, bounded by Francis Quimet Drive, Bob Rosburg Street, Hogan Street Worsham Street and the Golf Course.
 - d. Lots Nos. 1 through 145 in Square No. 5, bounded by Bobby Jones Drive, Worsham Street, Francis Quimet Drive, the Golf Course and Metz Street, Snead Drive and Ford Street.
 - e. Lots Nos. 1 through 9 in Square No. 6, bounded by Snead Drive, Ford Street and Golf Course.

- f. Lots Nos. 1 through 24 in Square No. 7, bounded by Ford Street, the Golf Course, the northeasterly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3.
- g. Lots Nos. 1 through 31 in Square No. 8, bounded by Chapman Street, Bob Rosburg Street, Snead Drive and Little Court.
- h. Lots Nos. 1 through 12 in Square No. 9, bounded by Bob Rosburg Street, Francis Quimet Drive, the westerly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3, and Louisiana State Highway No. 435.
- i. Lots Nos. 1 through 10 in Square No. 10, bounded by Bob Rosburg Street, Francis Quimet Drive, Harry Vardon Drive and the westerly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3.
- j. Lots Nos. 1 through 13 in Square No. 11, bounded by Hogan Street, unnamed street, the southerly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3, and Bob Rosburg Street.
- k. Lots Nos. 1 through 8 in Square No. 12, bounded by Hogan Street, Worsham Street, the southerly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3, and an unnamed street.
- l. Lots Nos. 1 through 12 in Square No. 13, bounded by Bobby Jones Drive, an unnamed street and the southerly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3.
- m. Lots Nos. 1 through 13 in Square No. 14, bounded by Bobby Jones Drive, an unnamed street, and the southerly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3.
- n. Lots Nos. 1 through 12 in Square No. 15, bounded by Bobby Jones Drive, an unnamed street, and the southerly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3.
- o. Lots Nos. 1 through 13 in Square No. 16, bounded by Bobby Jones Drive, unnamed street and southeasterly boundary of Hillcrest Country Club Estates Subdivision Addition No. 3.

(Code 1998, § 21-116.00; Ord. No. 902, 12-21-1978)

Sec. 40-533. Name, status and powers.

The sewage district herein created shall be known and is hereby designated as "Sewage District No. 10 of the Parish of St. Tammany, State of Louisiana," and as thus created shall constitute a public corporation and political subdivision of the state, and as such, shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt, issue bonds and to levy taxes and assessments.

(Code 1998, § 21-117.00; Ord. No. 902, 12-21-1978)

Sec. 40-534. Domicile.

The domicile of the sewage district created herein is hereby designated as the Clubhouse, Hillcrest Subdivision, the parish, which domicile is within the boundaries of said sewage district.

(Code 1998, § 21-118.00; Ord. No. 902, 12-21-1978)

Sec. 40-535. Board of commissioners.

The board of commissioners shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 21-119.00; Ord. No. 00-0157, 6-1-2000)

Secs. 40-536—40-563. Reserved.

DIVISION 7. DISTRICT NO. 12

Sec. 40-564. Created; boundaries.

A sewage district is hereby created within the parish and outside the corporate limits of any municipality, which sewage district shall comprise and embrace all of that territory within the following described boundaries:

A certain piece or portion of ground situated in the parish, being located in sections 9 and 10, Township 9 south, Range 14 east, and more fully described as follows:

Commence at the section corner common to sections 3, 4, 9 and 10, Township 9 south, Range 14 east. Measure thence west 1,510.76 feet; thence south 00 degrees 19 minutes west a distance of 1,320.57 feet; thence north 89 degrees 41 minutes west a distance of 385.1 feet; thence south 00 degrees 19 minutes west a distance of 323.66 feet; thence south 31 degrees 09 minutes west a distance of 149.66 feet; thence south 72 degrees 45 minutes east a distance of 267.8 feet; thence south 66 degrees 44 minutes east a distance of 158.07 feet; thence south 57 degrees 14 minutes east a distance of 135.33 feet; thence south 47 degrees 25 minutes east a distance of 121.6 feet; thence south 39 degrees 07 minutes east a distance of 601.65 feet, to a point, the point of beginning. Thence from the point of beginning measure north 31 degrees 12 minutes 10 seconds east a distance of 124.45 feet; thence south 58 degrees 48 minutes east a distance of 260.0 feet; thence north 31 degrees 12 minutes east a distance of 59.4 feet; thence south 58 degrees 48 minutes east a distance of 260.0 feet; thence north 34 degrees 17 minutes east a distance of 135.33 feet; thence south 58 degrees 50 minutes east a distance of 200.5 feet; thence north 34 degrees 17 minutes east a distance of 240.00 feet; thence south 58 degrees 50 minutes east a distance of 220.0 feet; thence north 28 degrees 55 minutes east a distance of 186.15 feet; thence south 46 degrees 05 minutes east a distance of 80.69 feet to a

point; thence along the arc of a curve to the left a distance of 169.44 feet, the chord of which measures south 87 degrees 36 minutes 07 seconds east a distance of 154.95 feet; thence south 29 degrees 57 minutes 19 seconds east a distance of 223.6 feet; thence south 89 degrees 31 minutes east a distance of 97.8 feet to a point on the westerly line of Bayou Bonfouca; thence in a southerly direction along the westerly line of Bayou Bonfouca along the mean high water line, which line is at an elevation of 1.7 feet mean sea level, for an approximate distance of 1,762 feet; thence north 55 degrees 07 minutes 31 seconds west a distance of 1,278.97 feet; thence north 1 degree 9 minutes 36 seconds east a distance of 17.60 feet; thence north 89 degrees 46 minutes 44 seconds west a distance of 27.06 feet; thence north 00 degrees 27 minutes 36 seconds east a distance of 55.85 feet; thence north 89 degrees 05 minutes 56 seconds east a distance of 208.7 feet; thence north 00 degrees 15 minutes 23 seconds west a distance of 313.05 feet; thence north 89 degrees 51 minutes 30 seconds east a distance of 138.9 feet; thence north 40 degrees 17 minutes 50 seconds west a distance of 137.46 feet to a point, the point of beginning.

(Code 1998, § 21-126.00; Ord. No. 1089, 12-20-1979)

Sec. 40-565. Name, status and powers.

The sewage district herein created shall be known and is hereby designated as "Sewage District No. 12 of the Parish of St. Tammany, State of Louisiana," and as thus created shall constitute a public corporation and political subdivision of the state, and as such, shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt, to issue bonds and to levy taxes and assessments.

(Code 1998, § 21-127.00; Ord. No. 1089, 12-20-1979)

Sec. 40-566. Domicile

The domicile of the sewage district created herein is hereby designated as the parish, which domicile is within the boundaries of such district.

(Code 1998, § 21-128.00; Ord. No. 1089, 12-20-1979)

Secs. 40-567—40-595. Reserved.

DIVISION 8. DISTRICT NO. 13

Sec. 40-596. Created; boundaries.

A sewage district is hereby created within the parish and outside the corporate limits of any municipality, which sewage district shall comprise and embrace all that territory within the following described boundaries:

A certain portion of land situated in the parish in sections 25, 26, 35 and 36, Township 8 south, Range 14 east and more fully described as follows:

Commencing at the intersection of Brown's Switch Road and U.S. Highway 11 centerlines; thence in a northeasterly direction along the U.S. Highway 11 centerline approximately 6,530 feet to intersection with a westerly extension of the Haas Road centerline; thence in an easterly direction along Haas Road centerline approximately 5,900 feet to intersection with LA Highway 1091 (Robert Road) centerline; thence in a southerly direction along said centerline approximately 7,050 feet to its intersection with the Brown's Switch Road centerline; thence in a westerly direction along said centerline approximately 7,200 feet to its intersection with U.S. Highway 11 centerline and point of beginning. Containing approximately 1,075 acres of land more or less, all as more fully shown on boundary map attached to original ordinance. Map on file in office of the parish council.

(Code 1998, § 21-130.00; Ord. No. 81-286, 11-19-1981)

Sec. 40-597. Name, status and powers.

The sewage district herein created shall be known and designated as "Sewage District No. 13 of the Parish of St. Tammany, State of Louisiana," and as thus created shall constitute a public corporation and political subdivision of the state, and as such, shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt, to issue bonds, to construct, maintain, acquire or improve sewers or sewerage disposal systems and to levy taxes and assessments.

(Code 1998, § 21-131.00; Ord. No. 81-286, 11-19-1981)

Sec. 40-598. Board of supervisors.

The sewage district shall be governed by a board of supervisors composed of five members having residence requirements as provided in R.S. 33:3887 to be appointed by the parish council by resolution, which resolution shall also fix the terms of office.

(Code 1998, § 21-132.00; Ord. No. 81-286, 11-19-1981)

Sec. 40-599. Domicile.

The domicile of the sewage district is designated as 105 West Forest, Slidell, Louisiana, 70458, which domicile is within the boundaries of said sewage district.

(Code 1998, § 21-133.00; Ord. No. 81-286, 11-19-1981)

Editor's note—See article I of this chapter for old article III of the Municipal Code Corp. publication entitled "Performance Standards for Developments with Central Sewage and/or Water Facilities."

Editor's note of state reference—By Police Jury Resolution Number 86-2082, dated 2-20-1986, the parish police jury requested the creation by the state legislature of a parish environmental control commission. The sewerage and water management commission of the parish is created and given specific powers, see R.S. 33:4065 et seq.

Secs. 40-600—40-616. Reserved.

DIVISION 9. DISTRICT NO. 14

Sec. 40-617. Created; boundaries.

Pursuant to the authority contained in subpart A, part I, ch. 9 of title 33 of the Louisiana Revised Statutes of 1950, as amended, a sewerage district is hereby created within the parish and outside the corporate limits of any municipality, which sewerage district shall comprise and encompass all territory within the following described boundaries:

The east half and northwest quarter of section 11, Township 7 south, Range 11 east, St. Tammany Parish, Louisiana per the subdivision plan of V. D. Tilley dated March 18, 1921 on file in the office of the Clerk of Court, St. Tammany Parish, Louisiana; said subdivision was originally designated as south Abita Springs Subdivision, and is now known as Tammany Hills Subdivision for all or a part thereof, the boundaries of south Abita Springs Subdivision per the subdivision plan of V. D. Tilley being the prevailing boundaries.

(Code 1998, § 21-135.00; Ord. No. 89-1210, 12-21-1989)

Sec. 40-618. Amended boundaries.

The amended boundaries of Sewerage District No. 14 of the parish, shall comprise and encompass all the territory located within the following described property, to-wit:

- (1) Beginning at the northeast corner of the intersection of Harrison Avenue and 11th Street proceed along the east right-of-way of 11th Street (the east boundary of south Abita Springs Subdivision) in a southerly direction to its intersection with the rights-of-way line of Monroe Avenue, thence proceed in a westerly direction along the south right-of-way of Monroe Avenue to its intersection with the west right-of-way line of 1st Street, thence proceed in a northerly direction along the west right-of-way line of 1st Street to its intersection with the south right-of-way line of Washington Avenue, thence

proceed in a westerly direction along the south right-of-way line of Washington avenue to its intersection with the east right-of-way line of "K" Street, thence proceed in a southerly direction along the east right-of-way line of "K" Street to its intersection with the south right-of-way line of 11th Avenue, thence proceed in a westerly direction along the south right-of-way line of 11th Avenue to its intersection with the west boundary of east Addition of Alexiusville, thence in a northerly direction along said boundary to its intersection with the south right-of-way line of Harrison Avenue, thence in an easterly direction along the south right-of-way line of Harrison Avenue to its intersection with the west right-of-way line of "K" Street thence proceed due north a distance of 51 feet to the north right-of-way line of Harrison Avenue, thence in an easterly direction along the north right-of-way line of Harrison Avenue to the point of beginning.

(2) Less and except:

- a. All lots in Square 11, Square 11 being bounded by Jefferson Avenue, Adams Avenue, 1st Street and 2nd Street;
- b. All lots in Square 13, Square 13 being bounded by Jefferson Avenue, Adams Avenue, 3rd Street and 4th Street;
- c. All lots in Square 21, Square 21 being bounded by Jefferson Avenue, Madison Avenue, 1st Street and 2nd Street;
- d. All lots in Square 22, Square 22 being bounded by Jefferson Avenue, Madison Avenue, 2nd Street and 3rd Street;
- e. Lots 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 of Square 24, said lots forming the west half of Square 24 bounded by Jefferson Avenue, Madison Avenue, 4th Street and 5th Street;
- f. All lots in Square 31, Square 31 being bounded by Madison Avenue, Monroe Avenue, 1st Street and 2nd Street;
- g. All lots in Square 32, Square 32 being bounded by Madison Avenue, Monroe Avenue, 2nd Street and 3rd Street;
- h. All lots in Square 33, Square 33 being bounded by Madison Avenue, Monroe Avenue, 3rd Street and 4th Street;
- i. All lots in Square 34, Square 34 being bounded by Madison Avenue, Monroe Avenue, 4th Street and 5th Street;
- j. All lots in Square 35, Square 35 being bounded by Madison Avenue, Monroe Avenue, 5th Street and 6th Street;
- k. Lots 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 of Square 36, bounded by Madison Avenue, Monroe Avenue, 6th Street and 7th Street; and

1. Lots 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 of Square 23, said lots form the east half of Square 23 fronting 3rd Avenue between Jefferson Avenue and Madison Avenue;
- m. East half of Square 36 consisting of Lots No. 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, 35, 37, 39 and 41 of Square 36 and the west half of Square 37 consisting of Lots No. 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 of Square 37, Tammany Hills Subdivision (south of Abita Springs) St. Tammany Parish, Louisiana.

(Code 1998, § 21-135.01; Ord. No. 99-3019, 2-25-1999; Ord. No. 02-0427, 1-10-2002)

Sec. 40-619. Effect of amendment.

Except for the purpose set forth in section 40-618, this article shall not be construed as amending, rescinding or changing any other portion of Ordinance No. 89-1210 or the existence and powers of Sewerage District No. 14 or its governing authority.

(Code 1998, § 21-135.02; Ord. No. 90-1268, 4-19-1990)

Sec. 40-620. Name, status and powers.

The said sewerage district herein created shall be known and is hereby designated as "Sewerage District No. 14 of the Parish of St. Tammany, State of Louisiana," and as thus created it shall constitute a public corporation and political subdivision of the state, and as such it shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt, to issue bonds, to construct, maintain, acquire or improve sewer lines or mains, collection systems and to levy taxes and assessments in accordance with law.

(Code 1998, § 21-136.00; Ord. No. 89-1210, 12-21-1989)

Sec. 40-621. Board of supervisors.

The board of supervisors shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 21-137.00; Ord. No. 00-0157, 6-1-2000)

Sec. 40-622. Domicile.

The domicile of the sewerage district is hereby designated as: 70288 3rd Street, Covington, Louisiana, 70433.

(Code 1998, § 21-138.00; Ord. No. 89-1210, 12-21-1989)

Secs. 40-623—40-647. Reserved.

**ARTICLE XIV. LOUISIANA POLLUTION DISCHARGE ELIMINATION SYSTEM
(LPDES)**

Sec. 40-648. LPDES permit, when required.

Every sewerage system whose discharge of sanitary is subject to provisions of Louisiana Environmental Quality Act, as amended, or any rules and regulations effective or promulgated under authority of said Act shall obtain a Louisiana Pollution Discharge Elimination System (LPDES) permit in accordance and compliance with applicable law, and shall comply with the provisions set forth in the LPDES permit, or any order or directive issued by the LA DEQ which related to the/a LPDES permit.

(Code 1998, § 21-200.00; Ord. No. 96-2522, 10-17-1996)

Sec. 40-649. Enforcement.

The department of environmental services, formerly the environmental services commission of the parish shall be authorized and is directed to adopt and/or enforce rules and regulations, the effect of which compel compliance with the provisions set forth in section 40-648; all in a manner set forth in R.S. 33:4064.1 et seq., and/or any other applicable parish ordinances, and state and local regulations.

(Code 1998, § 21-201.00; Ord. No. 96-2522, 10-17-1996; Ord. No. 00-0177, 7-6-2000)

Secs. 40-650—40-671. Reserved.

**ARTICLE XV. INSPECTIONS OF ON-SITE SEWERAGE DISPOSAL SYSTEM
REQUIRED**

Sec. 40-672. Definitions.

The following words, terms, and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Applicable law means the pertinent and appropriate provisions of the state sanitary code, other applicable parish ordinances, or state and local regulations which pertain to sewerage systems located, or to be located within the parish.

Community sewerage system means any sanitary sewerage system, also known as a sanitary sewage treatment works, which is owned, operated, and/or maintained by a political entity or private person. A community sewerage system serves multiple connections and includes any individual, public, profit, nonprofit or not-for-profit sewerage system whose effluent discharge is subject to the provisions of the Louisiana Environmental Quality Act, as amended, or any rules and regulations effective or promulgated under the authority of the Act.

DEQ means the state department of environmental quality, office of water resources.

DES means the parish department of environmental services, its employees and its agents.

DH&H means the state department of health and hospitals, office of public health.

Individual on-site sewage disposal system means any or all of the various components, including piping and pumping and treatment facilities, comprising a system designed for the collection and/or treatment and/or disposal of sanitary sewage. An on-site sewage disposal system may be owned, operated, and/or maintained by a political entity or private person.

Owner, owners or owner/developer means any person or persons who alone or jointly or severally with others has:

- (1) Legal title to any premises, facilities or equipment affected by this section; and/or
- (2) Actual physical control of any premises, facilities or equipment affected by this section pursuant to an agreement, expressed or implied from the circumstances, with the owner or owners.

Political entity means any agency, board, commission, department or political subdivision of the state, or of the governing authority of the parish, or any agent thereof.

Premises mean any structure or dwelling of any construction whatsoever in which a person may live, work or congregate.

Private person means any individual, group of individuals, firm, corporation, association, partnership, private entity or other legal entity, or any agent thereof.

Responsible person means the operator or operators of an on-site sewage disposal system, the owners or owners of an on-site sewage disposal system, the owner or owners of the property on which an on-site sewage disposal system is located, or any or all of them.

Sanitary sewage means human, domestic, or acceptable industrial waste, except refuse, including liquid from residences, businesses, buildings, industrial establishments or other places, together with such groundwater, surface water, stormwater, and other wastes as may be present.

Sewerage system means any or all of the various components, including piping and pumping and treatment facilities, comprising a system designed for the collection and/or treatment and/or disposal of sanitary sewage. A sewerage system may be owned, operated, and/or maintained by a political entity or private person.

State sanitary code means the rules and regulations which pertain to sewage disposal; including, but not limited to those rules and regulations applicable to the collection, treatment or disposal of sewage; and which have been adopted by the state department of health and hospitals state health officer in accordance with title 51 of the Louisiana Administrative Code. (Code 1998, § 21-400.00; Ord. No. 02-0538, 9-5-2002)

Sec. 40-673. Adoption of state sanitary code.

The parish hereby adopts for implementation and enforcement ch. 5 of part XIII of title 51 of the Louisiana Administrative Code, as it may be amended, less and except section 511, paragraph B(1).

(Code 1998, § 21-401.00; Ord. No. 02-0538, 9-5-2002)

Sec. 40-674. Community sewerage system required.

(a) Community sewerage shall be provided in subdivisions comprised of 15 lots or more. This requirement shall apply to all new subdivision developments. The use of individual sewerage systems in lieu of a community sewerage system may be authorized and will be considered under the following circumstances:

In subdivisions comprised of less than 15 lots with a minimum lot size of two acres or greater and a minimum frontage of 125 feet, when the developer submits a comprehensive drainage plan, as well as a proposal for restrictive covenants which detail requirements for perpetual maintenance of drainage. Whenever the average lot size of a proposed subdivision is greater than five acres, the DES may waive the requirement for a community sewerage system upon demonstration by the developer that the implementation of such provisions would prove to be a manifestly unreasonable financial hardship.

(b) In that development known as Bedico Creek, Bedico Creek Utilities, a private parish utility company regulated by the state public service commission, is responsible for providing sewer and water services to the Bedico Development that is located in unincorporated parish. The Tangipahoa parish council has adopted T.P. Ordinance No. 05-64, which authorizes Sewerage District No. 1 of Tangipahoa Parish to accept sewerage from public and private entities located in the parish, provided the governing body for the parish grants its approval, and to treat this waste at Tangipahoa Parish Sewerage District No. 1 facilities in Tangipahoa Parish, Louisiana. Bedico Creek Utilities is authorized by the parish to enter into an agreement with Tangipahoa Parish Sewerage District No. 1 for the purpose of connecting the Bedico Creek development into the new regional sewerage treatment facility of Tangipahoa Parish Sewerage District No. 1, provided that Bedico Creek Utilities shall own both the sewer and water lines, shall maintain the sewer and water lines, and shall own and maintain the sewer lift stations and all related sewer facilities within the Bedico Creek Development.

(Code 1998, § 21-401.10; Ord. No. 02-0538, 9-5-2002; Ord. No. 06-1241, 2-2-2006)

Sec. 40-675. Required facilities; connection to sewerage system.

(a) All new or existing premises, public or private, where people live, work or congregate shall be provided with approved toilet facilities, including hand washing facilities. Such plumbing facilities shall be properly connected to a community sewerage system, whenever available, or to an individual on-site sewage disposal system which is specifically approved for

the premises by the state health officer or his duly authorized representative after determining that the installation and operation of an individual on-site sewage disposal system will not create a nuisance or public health hazard. It shall be the duty of the owner, manager or agent of any occupied premises, public or private, where people live, work or congregate to provide the premises with an approved method of sewage disposal in compliance with the requirements of this article.

(b) Whenever the DES determines that any building or structure to be constructed is in proximity to the sewage collection or treatment facility of a qualified community sewerage system, said building or structure shall be required to connect thereto. When a qualified community sewerage system is available, and there is an approved public water supply with adequate water capacity, all plumbing fixtures within any building or structure shall be connected to such approved public water supply and community sewerage system.

- (1) For the purposes of this section, the term "qualified community sewerage system" means a community sewerage system:
 - a. Which has the actual and/or anticipated capacity which will be required to realize the peak sewage demand of the subject building or structure; and
 - b. The operation and maintenance of which is likely to be in accordance and compliance with all regulatory requirements; all as determined by the DES.
- (2) The DES, at the time of its consideration of the issuance of the building permit for the subject building or structure, may waive the requirement in subsection (b)(1) of this section upon the showing by the applicant that the implementation of the provisions of said subsection would prove to be a manifestly unreasonable financial hardship. In no event, however, shall a certificate of occupancy be issued or shall any other such final action on the subject building permit occur unless and until an individual on-site sewage disposal system has been specifically approved for the premises by the state health officer, or his duly authorized representative.

(c) Existing mobile homes and permanent buildings or structures will be exempt from the requirements of this section for the period of time that the present owner or occupant of the property inhabits the premises. However, at the time of change in ownership, occupancy, location or transfer of electrical power service, such mobile home or permanent building or structure shall be required to obtain a sewerage system inspection permit for electrical service as outlined in subsection (d) of this section. Additionally, existing mobile homes and permanent buildings or structures which are properly connected to a community sewerage system will be exempt from the requirements of this section.

(d) Prior to the issuance of a sewerage system inspection permit for any nonresidential mobile home, permanent building or structure, the DES shall inspect the premises to determine if the plumbing fixtures are properly connected to a permitted individual on-site sewage disposal system. The DES shall inspect individual on-site sewage disposal systems to determine

that said systems are not causing an apparent health or environmental problem prior to the issuance of any sewerage system inspection permit for the connection or transfer of electrical power service. In no event, however, shall a sewerage system inspection permit be issued or shall any other such final action occur unless and until an individual on-site sewage disposal system has been specifically approved for the premises by the state health officer or his duly authorized representative. Prior to the issuance of a sewerage system inspection permit for any residential mobile home, permanent building or structure, the DES shall inspect the premises to determine if the plumbing fixtures are properly connected to an individual on-site sewage disposal system. The DES shall inspect individual on-site sewage disposal systems to determine that said systems are not causing an apparent health or environmental problem prior to the issuance of any sewerage system inspection permit for the connection or transfer of electrical power service.

(Code 1998, § 21-403.00; Ord. No. 02-0538, 9-5-2002)

Sec. 40-676. Sewerage system permit.

(a) Except for existing mobile homes and permanent building or structures exempt from the requirements of this article outlined in section 40-677(c), no sewerage system shall be used or placed in operation without approval in the form of a sewerage system permit issued by the state health officer or his duly authorized representative. For the purposes of this article, a new sewerage system permit shall be required upon the initial installation of an individual on-site sewage disposal system. Each time the occupancy, connection or transfer of electrical power service changes, an inspection of the individual on-site sewage disposal system and the issuance of a sewerage system inspection permit by the DES shall be required.

(b) For the purpose of convenience, the landlord, owner, manager or agent, may acquire for the period of one year on rental property, an approved sewerage system permit. It shall be the duty of any of the aforementioned persons to obtain, make available and provide such approved sewerage system permit to the renter of the property. It shall also be the responsibility of any of the aforementioned persons to obtain renewal of such approved sewerage system permit each year thereafter.

(c) Violation of this section shall constitute an offense and shall be punishable as provided in section 40-9 of the DESs Rules and Regulations—Compliance with Rules and Regulations Required.

(Code 1998, § 21-405.00; Ord. No. 02-0538, 9-5-2002)

Sec. 40-677. Sewerage system inspection permit prerequisite for permanent utility service.

(a) No electrical power utility company licensed to do or doing business in the parish shall install or connect permanent electrical service to any mobile home or permanent building or structure until a sewerage system inspection permit has been issued. No electrical power utility

company licensed to do or doing business in the parish shall install or connect temporary electrical service to any mobile home or permanent building or structure unless a work authorization has been issued by the parish.

(b) If an electrical service connection is made absent any authorization by the parish, the DES shall provide written notification to the appropriate electrical power utility company to terminate electrical service. The electrical power company shall provide for termination of unauthorized electrical service within 48 hours of receiving notification from the DES. If no or insufficient action is taken after proper notification, the DES shall take any and all steps which it is empowered to take pursuant to R.S. 33:4064.1 et seq., and the parish Code of Ordinances in order to require compliance with this article.

(Code 1998, § 21-406.00; Ord. No. 02-0538, 9-5-2002)

Sec. 40-678. Apartment complexes, mobile home parks.

(a) All persons who own or operate apartment complexes of four or more units and mobile home parks with four or more units shall be required to obtain a sewerage system permit from the state health officer or his duly authorized representative verifying that the sewage treatment plant associated with the complex or mobile home park is an approved system and in compliance with all applicable provisions of the state sanitary code.

(b) All owners or operators of complexes or mobile home parks as defined in this section shall apply to the parish health unit for a sewerage system permit.

(c) For the purpose of convenience, the owner or operator of complexes or mobile home parks may acquire for the period of one year on rental property, an approved sewerage system permit. It shall be the duty of any of the aforementioned persons to obtain, make available and provide such approved sewerage system permit to the renter of the property. It shall also be the responsibility of any of the aforementioned persons to obtain renewal of such approved sewerage system permit each year thereafter.

(Code 1998, § 21-407.00; Ord. No. 02-0538, 9-5-2002)

Secs. 40-679—40-703. Reserved.

ARTICLE XVI. CENTRAL WATER SYSTEMS, FIRE SUPPRESSION CAPACITY

Sec. 40-704. Definition; construction and modifications.

(a) For the purposes of the provisions of this article, the term "central water system" shall mean a public water supply as defined in part XII of the state sanitary code, the rates and tariffs for which are established by the state public service commission.

(b) Whenever a central water system is to be constructed or modified, the construction and modification of such system shall provide for an adequate flow of water for fire suppression purposes and include fire hydrants which shall be located and installed as required by applicable law, ordinance, codes, and/or rules and regulations; all in a manner set forth in this article. (Code 1998, § 22-001.00; Ord. No. 96-2459, 7-18-1996)

Sec. 40-705. Administration and enforcement.

(a) As such related to any and all provisions of this article, and to the extent provided in R.S. 33:4064.1 et seq., the department of environmental services (formerly the environmental services commission of the parish) is authorized to adopt rules and regulations, the purpose of which shall provide for the operation, maintenance, connection, and inspection of central water systems. To that end, said commission shall establish in said rules, regulations and agreements objective and cost effective standards, guidelines, requirements, and conditions which may be necessary to effect any provisions set forth or contemplated in this article.

(b) The construction and improvement or extension of any central water system shall not occur unless such is in accordance with the provisions of this article or any rules and regulations of said commission which are adopted pursuant thereto. Failure to comply with such provisions set forth in applicable law or said rules and regulations and, if applicable, shall be prima facie evidence of a breach of the provisions of any nonexclusive franchise agreement subject to the provisions of R.S. 33:4064.6(B). (Code 1998, § 22-001.01; Ord. No. 96-2459, 7-18-1996)

Sec. 40-706. Water flow rating and capacity.

Any determination of a mean water flow rating for the fire hydrants connected to a central water system shall be made for the sole use and benefit of said department of environmental services and the subject water service provider, and shall not be considered in any manner whatsoever as a warranty or guarantee of the water flow capacity of a central water system or its availability for connection thereto. (Code 1998, § 22-001.02)

Secs. 40-707—40-725. Reserved.

ARTICLE XVII. WATERWORKS DISTRICTS*

DIVISION 1. GENERALLY

Secs. 40-726—40-748. Reserved.

***State law references**—Waterworks districts generally, R.S. 33:3811 et seq.; authority of the parish council to establish, acquire, construct, improve, extend, and maintain a waterworks system or systems, R.S. 33:3822.2.

DIVISION 2. WATERWORKS DISTRICT NO. 2

Sec. 40-749. Created; boundaries.

A waterworks district is hereby created within the parish which shall comprise and embrace all of that territory within the following described boundaries:

Sections 17, 18, 37, 19 and 20 in their entirety, and the triangular northwest corner of section 30, bounded by the Long Branch waterway and adjacent section lines, Township 6 south, Range 12 east, Ward 10; and sections 26, 42 and 35 in Ward 3, Township 6 south, Range 11 east; that portion of section 36 located in Ward 3; that portion of section 25 located in Ward 3; that portion of section 27 in Ward 3 east of State Highway No. 437, less and except a triangular portion of section 27 east of Highway 437 between said Highway 437 and the Bogue Falaya River; that portion of section 23 in Ward 3 east of Little Bogue Falaya River; that portion of section 43 in Ward 3 located east of Little Bogue Falaya River; that portion of section 24 located in Ward 3; that portion of section 36 in Ward 10 located outside the corporate limits of Abita Springs; that portion of Abita Springs; that portion of section 25 in Ward 10 located outside the corporate limits of Abita Springs, that portion of section 24 located in Ward 10 less those two parts of section 24 located west of Little Bogue Falaya River, that portion of section 43 in Ward 10 located east of the east Fork of the Little Bogue Falaya River; and that portion of section 13 in Ward 10 located east of State Highway No. 21.

(Code 1998, § 22-026.00; Ord. No. 428, Bk. 6, P. 201; Ord. No. 453, Bk. 6, P. 257; Ord. No. 550, Bk. 7, P. 251; Ord. No. 06-1337, 7-6-2006)

Sec. 40-750. Name, status and powers.

The waterworks district herein created shall be designated as "Waterworks District No. 2 of the Parish of St. Tammany, State of Louisiana," and as created shall constitute a public corporation and political subdivision of the state, and as such, shall have all rights, powers and privileges granted by the constitution and statutes of this state to such subdivisions, including authority to incur debt, issue bonds and to levy taxes and assessments.

(Code 1998, § 22-027.00; Ord. No. 428, Bk. 6, P. 201)

Sec. 40-751. Domicile.

The domicile of the waterworks district created herein is hereby designated as the office of Waterworks District No. 2, Abita Road, Covington, Louisiana, which said domicile is within the corporate limits of such waterworks district.

(Code 1998, § 22-028.00; Ord. No. 428, Bk. 6, P. 201)

Sec. 40-752. Commissioners.

The board of commissioners shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 22-029.00; Ord. No. 00-0157, 6-1-2000)

Secs. 40-753—40-772. Reserved.**DIVISION 3. WATERWORKS DISTRICT NO. 3****Sec. 40-773. Created; boundaries.**

A waterworks district is hereby created within the parish which shall comprise and embrace all of that territory within the following described boundaries:

Beginning at the intersection of the west right-of-way line of U.S. Highway 190 and the southern bank of Ponchitolawa-Creek which point of intersection is situated in section 22, Township 7 south, Range 11 east, St. Tammany Parish, Louisiana; proceed generally westward following the meanderings of the south bank of the Ponchitolawa Creek to its intersection with the east bank of the Tchefuncte River; thence generally southerly, thence southwesterly, thence southerly following the meanderings of the said east bank of the Tchefuncte River to its point of intersection of south right-of-way line of Country Club Drive, thence along said south right-of-way of Country Club Drive to its intersection with the west property line of property of the Covington Country Club located south of Country Club Drive as set forth on the survey of Robert A. Berlin, Registered Land Surveyor, dated October 11, 1960 as revised March 4, 1963, filed for record with the Clerk of Court of St. Tammany Parish, Louisiana as Map File No. 983, thence generally southwest, thence southeast along said west property line to its junction with the rear property line of Lot 1, Square K, Country Club Estates Extension, thence along the rear property lines of Lots 149 of said Square K, thence across extension of Dogwood Drive, thence along the rear property lines of Lots 1—11, Square J of Country Club Estates Extension to the intersection with the west right-of-way line of U.S. Highway 190, thence generally northerly along said west right-of-way line to its intersection with the southern bank of Ponchitolawa Creek, the point of beginning.

(Code 1998, § 22-036.00; Ord. No. 552, Bk. 7, P. 252)

Sec. 40-774. Name, status and powers.

The waterworks district created herein shall be designated as "Waterworks District No. 3 of the Parish of St. Tammany, State of Louisiana," and as created shall constitute a public

corporation and political subdivision of the state, and as such, shall have all powers and privileges granted by the constitution and statutes of this state to such subdivisions, including authority to incur debt, issue bonds and to levy taxes and assessments.

(Code 1998, § 22-037.00; Ord. No. 552, Bk. 7, P. 252)

Sec. 40-775. Domicile.

The domicile of the waterworks district created herein is hereby designated as Covington Country Club, which domicile is within the corporate limits of said waterworks district.

(Code 1998, § 22-038.00; Ord. No. 552, Bk. 7, P. 252)

Sec. 40-776. Commissioners.

The board of commissioners shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 22-039.00; Ord. No. 00-0157, 6-1-2000)

Secs. 40-777—40-805. Reserved.

DIVISION 4. WATERWORKS DISTRICT NO. 13

Sec. 40-806. Created; boundaries.

A waterworks district is hereby created within the parish and outside the corporate limits of any municipality, to comprise and embrace all territory within the following described boundaries:

A certain portion of land situated in St. Tammany Parish, State of Louisiana in sections 25, 26, 35 and 36, Township 8 south, Range 14 east and more fully described as follows: Commencing at the intersection of Brown's Switch Road and U.S. Highway 11 centerlines; thence in a northeasterly direction along the U.S. Highway 11 centerline approximately 930 feet to its intersection with the Brown's Village Road centerline; thence in a westerly direction along said centerline approximately 668 feet to section corner common to sections 27, 28, 33 and 34, Township 8 south, Range 14 east; thence along the section line between sections 27 and 28, north 00 degrees 01 minutes 00 seconds west, 1,044.76 feet to the northwest corner of Brown's Village Square; thence south 89 degrees 56 minutes 52 seconds east along northern boundary of said shopping center approximately 1,010 feet to U.S. Highway 11 centerline; thence northeasterly along said centerline approximately 4,600 feet to intersection with westerly extension of Haas Road centerline; thence in an easterly direction along Haas Road centerline approximately 5900 feet to intersection with Louisiana Highway 1091 (Robert Road) centerline; thence in a southerly direction along said centerline approximately 7,050 feet to its intersection with Brown's Switch Road centerline; thence in a westerly direction

along said centerline approximately 7,200 feet to its intersection with U.S. Highway 11 centerline and point of beginning. Containing approximately 1,100 acres of land more or less, all as shown on boundary map attached to original ordinance.
(Code 1998, § 22-065.00; Ord. No. 81-287, 11-19-1981)

Sec. 40-807. Name, status and powers.

The said waterworks district herein created shall be known and designated as "Waterworks District No. 13 of the Parish of St. Tammany, State of Louisiana," and as thus created shall constitute a public corporation and political subdivision of the state, and as such shall have all the rights, powers and privileges granted by the constitution and statutes of the state, including the authority to incur debt, to issue bonds, to construct, maintain, acquire or improve water lines or mains, wells and distribution systems and to levy taxes and assessments.
(Code 1998, § 22-066.00; Ord. No. 81-287, 11-19-1981)

Sec. 40-808. Board of commissioners.

The waterworks district shall be governed by a board of commissioners comprised of five members having residence and other requirements as provided in R.S. 33:3811 et seq., to be appointed by the parish council by resolution, which resolution shall also fix the terms of office.
(Code 1998, § 22-067.00; Ord. No. 81-287, 11-19-1981)

Sec. 40-809. Domicile.

The domicile of the waterworks district is hereby designated as 105 West Forest, Slidell, Louisiana, 70458 which domicile is within the boundaries of said waterworks district.
(Code 1998, § 22-066.00; Ord. No. 81-287, 11-19-1981)

Secs. 40-810—40-826. Reserved.

DIVISION 5. WATERWORKS DISTRICT NO. 14*

Sec. 40-827. Created; boundaries.

Pursuant to the authority contained in section 3811, ch. 8, title 33 of the Louisiana Revised Statutes of 1950, and other constitutional and statutory authority supplemental thereto, the parish council of the parish, acting as the governing authority of said parish, acting on its own initiative, does hereby change the boundaries of said district, said boundaries to remain outside

***Editor's note**—Waterworks District No. 7 established by Ord. No. 1141, adopted April 7, 1980, was abolished by Ordinance No. 86-643, adopted June 19, 1986, including the territory in newly created Waterworks District No. 14 which is this division 5.

the corporate limits of any municipality, so that the boundaries and corporate limits of Waterworks District No. 14 of the parish, shall hereafter comprise, embrace and include all of that territory within Tall Timbers Subdivision, described as follows, to-wit:

Commence at the quarter corner common to sections 27 and 34, Township 7 south, Range 11 east, St. Tammany Parish, Louisiana, said point being the point of beginning; thence go north 00 degrees, 12 minutes, 52 seconds west 1,362.69 feet; thence go north 45 degrees, 43 minutes, 42 seconds east 2,821.42 feet; thence go south 00 degrees, 03 minutes, 34 seconds west 3,311.73 feet; thence go south 89 degrees, 25 minutes, 01 second west 2,011.80 feet back to the point of beginning. Said property comprises the subdivision known as Tall Timbers, located in Ward 4, Parish Council District 10.

(Code 1998, § 22-075.00; Ord. No. 86-644, 6-19-1986; Ord. No. 92-1671, 11-19-1993)

Sec. 40-828. Name, status and powers.

The said district shall continue to be known and is designated as "Waterworks District No. 14 of the Parish of St. Tammany, State of Louisiana," and shall continue to constitute a public corporation and political subdivision of the state, and as such, shall have all powers granted by the constitution and laws of the state, including the authority to incur debt, to issue bonds and to levy taxes; that said water district, as originally created and amended, has no outstanding bonded indebtedness, and such change shall in no manner impair any other obligations that may have heretofore been incurred by said water district during the period of its existence.

(Code 1998, § 22-076.00; Ord. No. 86-644, 6-19-1986; Ord. No. 92-1671, 11-19-1993)

Sec. 40-829. Board of commissioners.

(a) The board of commissioners shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(b) Due notice of change of the boundaries of said water district shall be published and the president of this police jury be and he is hereby instructed and ordered to issue notice of the change of the boundaries of said water district and to cause publication thereof to be made in the parish farmer.

(Code 1998, § 22-077.00; Ord. No. 00-0157, 6-1-2000; Ord. No. 86-644, 6-19-1986; Ord. No. 92-1671, 11-19-1993)

Sec. 40-830. Domicile.

The domicile of the waterworks district is hereby designated as which domicile is within the boundaries of said waterworks district.

(Code 1998, § 22-078.00; Ord. No. 86-644, 6-19-1986)

Secs. 40-831—40-853. Reserved.

DIVISION 6. WATERWORKS DISTRICT NO. 15

Sec. 40-854. Created; boundaries.

Pursuant to the authority contained in ch. 8 of title 33 of the Louisiana Revised Statutes of 1950, as amended, a waterworks district is hereby created within the parish and outside the corporate limits of any municipality, which waterworks district shall comprise and encompass all territory within the following described boundaries:

The east half and northwest quarter of section 11, Township 7 south, Range 11 east, St. Tammany Parish, Louisiana per the subdivision plan of V. D. Tilley dated March 18, 1921 on file in the office of the Clerk of Court, St. Tammany Parish, Louisiana; said subdivision was originally designated as South Abita Springs Subdivision, and is now known as Tammany Hills Subdivision for all or a part thereof, the boundaries of south Abita Springs Subdivision per the subdivision plan of V. D. Tilley being the prevailing boundaries.

(Code 1998, § 22-080.00; Ord. No. 89-1209, 12-21-1989)

Sec. 40-855. Amended boundaries.

The amended boundaries of Waterworks District No. 15 of the parish, shall comprise and encompass all the territory located within the following described property to-wit:

- (1) Beginning at the northeast corner of the intersection of Harrison Avenue and 11th Street proceed along the east right-of-way of 11th Street (the east boundary of south Abita Springs Subdivision) in a southerly direction to its intersection with the rights-of-way line of Monroe Avenue, thence proceed in a westerly direction along the south right-of-way of Monroe Avenue to its intersection with the west right-of-way line of 1st Street, thence proceed in a northerly direction along the west right-of-way line of 1st Street to its intersection with the south right-of-way line of Washington Avenue, thence proceed in a westerly direction along the south right-of-way line of Washington Avenue to its intersection with the east right-of-way line of "K" Street, thence proceed in a southerly direction along the east right-of-way line of "K" Street to its intersection with the south right-of-way line of 11th Avenue, thence proceed in a westerly direction along the south right-of-way line of 11th Avenue to its intersection with the west boundary of east Addition of Alexiusville, thence in a northerly direction along said boundary to its intersection with the south right-of-way line of Harrison Avenue, thence in an easterly direction along the south right-of-way line of Harrison Avenue to its intersection with the west right-of-way line of "K" Street thence proceed due north a distance of 51 feet to the north right-of-way line of Harrison Avenue, thence in an easterly direction along the north right-of-way line of Harrison Avenue to the point of beginning.
- (2) Less and except:
 - a. All lots in Square 11, Square 11 being bounded by Jefferson Avenue, Adams Avenue, 1st Street and 2nd Street;

- b. All lots in Square 13, Square 13 being bounded by Jefferson Avenue, Adams Avenue, 3rd Street and 4th Street;
- c. All lots in Square 21, Square 21 being bounded by Jefferson Avenue, Madison Avenue, 1st Street and 2nd Street;
- d. All lots in Square 22, Square 22 being bounded by Jefferson Avenue, Madison Avenue, 2nd Street and 3rd Street;
- e. Lots 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 of Square 24, said lots forming the west half of Square 24 bounded by Jefferson Avenue, Madison Avenue, 4th Street and 5th Street;
- f. All lots in Square 31, Square 31 being bounded by Madison Avenue, Monroe Avenue, 1st Street and 2nd Street;
- g. All lots in Square 32, Square 32 being bounded by Madison Avenue, Monroe Avenue, 2nd Street and 3rd Street;
- h. All lots in Square 33, Square 33 being bounded by Madison Avenue, Monroe Avenue, 3rd Street and 4th Street;
- i. All lots in Square 34, Square 34 being bounded by Madison Avenue, Monroe Avenue, 4th Street and 5th Street;
- j. All lots in Square 35, Square 35 being bounded by Madison Avenue, Monroe Avenue, 5th Street and 6th Street;
- k. Lots 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 of Square 36, bounded by Madison Avenue, Monroe Avenue, 6th Street and 7th Street; and
- l. Lots 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 of Square 23, said lots form the east half of Square 23 fronting 3rd Avenue between Jefferson Avenue and Madison Avenue;
- m. East half of Square 36 consisting of Lots No. 1, 3, 5, 7, 9, 11, 13, 15, 17, 19, 21, 23, 25, 27, 29, 31, 33, 35, 37, 39 and 41 of Square 36 and the west half of Square 37 consisting of Lots No. 2, 4, 6, 8, 10, 12, 14, 16, 18, 20, 22, 24, 26, 28, 30, 32, 34, 36, 38, 40 and 42 of Square 37, Tammany Hills Subdivision (south of Abita Springs) St. Tammany Parish, Louisiana.

(Code 1998, § 22-080.01; Ord. No. 99-3018, 2-25-1999; Ord. No. 02-0427, 1-10-2002)

Sec. 40-856. Effect of amendment.

Except for the purpose set forth in section 40-855, this article shall not be construed as amending, rescinding or changing any other portion of Ordinance No. 89-1209 or existence and powers of Waterworks District No. 15 or its governing authority.

(Code 1998, § 22-080.02; Ord. No. 90-1269, 4-19-1990)

Sec. 40-857. Name, status and powers.

The said waterworks district herein created shall be known and is hereby designated as "Waterworks District No. 15 of the Parish of St. Tammany, State of Louisiana," and as thus created it shall constitute a public corporation and political subdivision of the state, and as such it shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt, to issue bonds, to construct, maintain, acquire or improve sewer lines or mains, collection systems and to levy taxes and assessments in accordance with law.

(Code 1998, § 22-081.00; Ord. No. 89-1209, 12-21-1989)

Sec. 40-858. Board of commissioners.

(a) The waterworks district shall be governed by a board of commissioners composed of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(b) The board of waterworks commissioners shall meet at their domicile of the district within 30 days of the adoption of this article for the purpose of organizing the district.

(Code 1998, § 22-082.00; Ord. No. 89-1209, 12-21-1989; Ord. No. 00-0157, 6-1-2000)

Sec. 40-859. Domicile.

The domicile of the waterworks district is hereby designated as: 70288 3rd Street, Covington, Louisiana 70433.

(Code 1998, § 22-083.00; Ord. No. 89-1209, 12-21-1989)

Secs. 40-860—40-881. Reserved.**DIVISION 7. WATERWORKS DISTRICT NO. 16*****Sec. 40-882. Created; boundaries**

That under and by virtue of the authority conferred by ch. 8 of title 33 of Louisiana Revised Statutes of 1950, a waterworks district be and the same is hereby created within the parish, which waterworks district shall comprise and embrace all of that territory within the following described boundaries, to-wit:

- (1) Certain pieces or portion of ground with all the buildings and improvements thereon and all rights, ways, privileges, servitudes and appurtenances thereunto belonging or in anywise appertaining, situated in the State of Louisiana, Parish of St. Tammany, forming a portion of sections 23, 24, 25 and 26, Township 6 south, Range 12 east, in

***Editor's note**—Waterworks District No. 16 was created by the authority of Ordinance No. 96-2402, adopted 4-18-1996, thereby creating sections 40-882 through 40-885.

that part thereof known as Hillcrest Country Club Estates Subdivision, Addition No. 3, as shown on a survey by Land Engineering Services, Inc., dated February 3, 1961, revised May 16, 1961, certified by Robert A. Berlin, La. Reg. Sur., and recertified on April 6, 1964, being described as follows, to-wit:

- a. Beginning at a point on the westerly right-of-way line of Snead Drive, which point forms the southeast corner of Lot 59, Square 2, thence westerly 150 feet to the southwest corner of Lot 59, said square, to a point; thence northeasterly along the rear line of Lot 59 descending thru and including Lot 37, said square to the southwest corner of Lot 37; thence northerly along the side line of Lot 37, 151 feet to the northwest corner of Lot 37; thence in a westerly direction along the a southerly line of Snead Drive a distance of 10 feet to a point, which is the northeast corner of Lot 36; thence in a southerly direction along the side line of Lot 36 a distance of 151 feet, to a point, which is the southeast corner of Lot 36; thence continue along the rear line of Lots 36 descending through and including Lot 1 of Square 2 to a point on the northern right-of-way of Francis Quimet Drive to a point, which point is the southwest corner of Lot 98, Square 1; thence continue northerly along the rear line of Lot 98 descending through and including Lot 49 of said square to a point, which point is the southwest corner of Lot 49; thence continue northerly along the rear line of Lot 48 descending through and including Lot 28 to a point, which is the southwest corner of Lot 28, Square 1; thence northerly along the side line of Lot 28, 190 feet to a point on the southern right-of-way of Fairway Drive; thence northerly along the southerly right-of-way of Fairway Drive 20 feet to a point, which is the northeast corner of Lot 27 of said square; thence continue southerly along the sideline of Lot 27, 190 feet to a point, which is the southeast corner of Lot 27; thence continue along the rear line of Lot 27 descending through and including Lot 6 to a point which is the point common to Lot 5, Lot 105 and Lot 106 of Square 1; thence continue easterly along the rear of Lots 106 through and including Lot 120 of Square 1 to a point on the rear line of Lot 143; thence continue southeasterly along the rear line of Lot 143 through and including Lot 148 to a point, which point is the eastern most corner of Lot 148; thence southwesterly 200 feet to the eastern right-of-way of Francis Quimet Drive thence southerly along the eastern right-of-way line of Francis Quimet to the intersection of the southern right-of-way line of Oliver Street, which intersection forms the northwest corner of Lot 26 of Square 3; thence northeasterly along the southern right-of-way line of Oliver Street to a point, which point is the northern corner of Lot 10, Square 3; thence southeasterly along the rear line of Lot 10 descending through and including Lot 6 to a point, which is the northeast corner of Lot 6; thence southerly along the side line of Lot 6, 247.2 feet to a point, which is the southeast corner of Lot 6; thence southeasterly along the northern right-of-way of Evans Street 15 feet to a point, which is the southeast corner of

Lot 5 of Square 3; thence northerly along the side line of Lot 5 a distance of 247.2 feet to a point, which is the northwest corner of Lot 5, Square 3; thence southeasterly along the rear line of Lots 5 and 4 to a point on the westerly right-of-way of Francis Quimet Drive; thence northerly along the western right-of-way of Francis Quimet Drive and northeasterly to the intersection of the western right-of-way line of Snead Drive to the point of beginning.

1. A certain piece or portion of ground, together with all improvements thereon, all rights, way, privileges, servitudes, appurtenances and advantages thereunto belonging or in anywise appertaining, situated in the Parish of St. Tammany, section 25, Township 6 south, Range 12 east, St. Tammany Parish, Louisiana, which portion of ground is more particularly described as follows in accordance with map of Robert A. Berlin, Louisiana Registered Surveyor, No. 94, dated May 10, 1962, annexed to said sale to Pep, Inc.
 2. From the corner common to sections 23, 24, 25, and 26, Township 6 south, Range 12 east, St. Tammany Parish, Louisiana, measure north 42 degrees 30 minutes east, 519.7 feet to a point; thence south 30 degrees 15 minutes east, 1788.8 feet to an iron post; thence north 64 degrees 05 minutes east, 388.7 feet to an iron post; thence south 72 degrees 30 minutes east, 239.9 feet to an iron post on the westerly R/W line of Snead Drive, a 60-foot street; thence along said R/W line south 31 degrees 30 minutes east, 413.5 feet to an iron post; thence continuing along said R/W line south 40 degrees 49 minutes east, 419.0 feet to an iron post at the intersection of the westerly R/W line of Snead Drive with the northwesterly R/W line of Quimet Drive; thence with said northwesterly R/W line south 41 degrees 08 minutes west, 262.4 feet to an iron post, the point of beginning.
 3. From the point of beginning measure south 41 degrees 08 minutes West, 200.0 feet to an iron post on said R/W line of Quimet Drive; thence north 48 degrees 52 minutes west, 276.0 feet to an iron post at the waters edge of Hillcrest Lake; thence with the waters edge north 19 degrees 35 minutes east, 215.6 feet to an iron post at the water's edge of said lake; thence south 48 degrees 52 minutes east, 355.0 feet to the point of beginning.
- b. From the point of beginning, which is located at the intersection of the northern right-of-way line of Worsham Street and the rear boundary line of Lot 35, Square 4, continue northerly and westerly along the rear line of Lot 35 through and including Lot 61, Square 4 to a point; thence northerly along the side line of Lot 61 a distance of 237 feet to the southerly right-of-way of Francis Quimet Drive; thence westerly along the southerly right-of-way of Francis Quimet Drive 20 feet to a point, which is the east and northeast corners of Lots 7 and 8, respectively, Square 4; thence south along the rear line of Lot 7 through and including Lot 11

to a point, which is at the corner common to the rear line of Lots 14 and 15; thence easterly along the rear line of Lot 15 through and including Lot 34 to a point on the northern right-of-way line of Worsham Street; thence northeasterly along the right-of-way of Worsham Street to the point of beginning.

- c. From the point of beginning, which is the southwest corner of Lot 2, Square 5, continue along the rear lines of Lot 2 through and including Lot 36 to a point, which is the southeast corner of Lot 36; thence northwesterly along the side line of Lot 36, 200 feet to a point, which is the northeast corner of Lot 36; thence northeasterly along the eastern right-of-way of Francis Quimet Drive 20 feet to a point, which is the northwest corner of Lot 37, Square 5; thence along the side line of Lot 37, 200 feet to a point, which is the southwest corner of Lot 37; thence continue along the rear line of Lot 37 through and including Lot 59 to a point, which is the southeast corner of Lot 59; thence northwesterly along the side line of Lot 59, 175 feet to a point, which is the northeast corner of Lot 59; thence northeasterly along the east side line of Snead Drive 20 feet to a point, which is the northwestern line of Lot 60, Square 5; thence southeasterly along the side line of Lot 60, 175 feet to a point, which is the southerly most corner of Lot 60; thence continue along the rear of Lot 60, 63 through and including Lot 145 to a point, which is the southerly most corner of Lot 145, Square 5; thence continue northeasterly along the rear of Lot 145 and Lot 1, Square 5, to a point on the southerly right-of-way of Francis Quimet Drive; thence in a southeasterly direction along the southern right-of-way of Francis Quimet Drive 20 feet to a point, which is the northwest corner of Lot 2, Square 5; thence southwesterly along the side line of Lot 2, Square 5, 175 feet to a point of beginning. All in accordance with a recertification of same survey by E.L. Dewailly, Reg. La. Sur., dated April 5, 1971, recorded as Entry No. 277916, St. Tammany Parish, Louisiana.

- (2) A certain piece or portion of ground with all buildings and improvements thereon and all rights, ways, privileges, servitudes and appurtenances thereunto belonging or in anywise appertaining, situated in the State of Louisiana, Parish of St. Tammany, forming parts of sections 23, 24, 25 and 26, Township 6 south, Range 12 east, in that part thereof known as Hillcrest Country Club Estates Subdivision, Addition No. 3, as shown on a survey by E. L. Dewailly, Sr., Registered Land Surveyor, dated March 29, 1971, and being described as follows, to-wit:

- a. From the point of beginning, which is the point located at the rear corner common to Lots 8 and 9, Square 7, measure 48 degrees west, 1540 feet to a point, which is on the eastern right-of-way line of Snead Drive and opposite to the corner common to Lots 56 and 57, Square 2; thence southeasterly along the eastern right-of-way of Snead Drive 1480 feet, more or less, to a point, which point is the northwestern corner of Lot 1, Square 6; thence northeasterly along the side line of

Lot 1, 90 feet to a point; thence southeasterly along the rear line of Lot 1 through and including Lot 9 to a point on the northern right-of-way line of Snead Drive; thence northeasterly along the right-of-way line of Snead Drive to a point at the intersection of the rear line of Lot 1, Square 7; thence northeasterly along the rear line of Lot 1 through and including Lot 8 to the point of beginning.

- b. 97 acres a certain piece or portion of ground with all buildings and improvements thereon and all of the servitudes, rights and appurtenances thereunto applying, situated in the State of Louisiana, Parish of St. Tammany, sections 24 and 25, Township 6 south, Range 12 east, as shown on a survey prepared by Land Engineering Services, Inc., dated April 1, 1964, signed by Robert A. Berlin, La. Reg. Sur., and said portion of ground commences from the one-quarter corner on line common to sections 24 and 25, Township 6 south, Range 12 east, measure south 1455 feet more or less to a point; thence east 575 feet more or less to a point; thence east 575 feet more or less to the most northerly corner of Lot 10, Block 7, Hillcrest Country Club Estates Subdivision, Addition No. 3; thence south 31 degrees 55 minutes west 178.2 feet to a corner common to Lots 9 and 10, said block, addition, subdivision, thence North 51 degrees 45 minutes west 97.4 feet to the most northerly corner of Lot 9, said block and subdivision; thence south 45 degrees 20 minutes west 85 feet to a point; thence south 32 degrees 55 minutes west, 100 feet to a corner common to Lots 8 and 9, said block, addition, subdivision; thence north 48 degrees 00 minutes west 1540 feet more or less to a point in the easterly right-of-way line of Snead Drive, said point being on an easterly extension of the line common to Lots 56 and 57, said block, addition, subdivision, thence along said right-of-way line north 11 degrees 10 minutes east 400 feet more or less to a point; thence north 04 degrees 15 minutes west 328 feet more or less to a point; thence north 13 degrees 00 minutes west 395 feet more or less to a point; thence north 22 degrees 15 minutes west 100 feet more or less to a point; thence north 33 degrees 00 minutes west 416 feet more or less to a point; thence north 59 degrees 25 minutes west 888 feet more or less to a point; thence north 81 degrees 45 minutes west 187 feet more or less to a point; thence north 35 degrees, 00 minutes west 10 feet to a point in the southeasterly right-of-way line of Louisiana State Highway No. 435; thence along said right-of-way line north 65 degrees 00 minutes east 306.24 feet more or less to a point; thence north 60 degrees 00 minutes east 132 feet to a point; north 52 degrees 00 minutes east 132 feet to a point; thence north 50 degrees 30 minutes east 264 feet to a point; thence north 49 degrees 45 minutes east 777.2 feet to a point; thence north 46 degrees 45 minutes east 594 feet to a point; thence north 46 degrees 20 minutes east 463.98 feet to a point; thence south 0 degrees 07 minutes east 2705 feet more or less to the point of beginning. This tract contains 97 acres, more or less. All of which said measure-

ments are the same as shown on survey by E.L. Dewailly, Reg. La. Sur., dated March 29, 1971, annexed to a sale by Leslie Homes, Inc. to Louisiana Purchase Corporation, registered in COB 607, folio 135, St. Tammany Parish, Louisiana.

- (3) Lot Nos. 1 through 148 in Square No. 1 bounded by Fairway Drive, Burke Drive, the Golf Course and Francis Quimet Drive.
- a. Lot Nos. 1 through 59 in Square No. 2, bounded by Snead Drive, Chapman Street, Francis Quimet Drive and the Golf Course.
 - b. Lot Nos. 1 through 37 in Square No. 3, bounded by Evans Street, Oliver Street, and Francis Quimet Drive.
 - c. Lot Nos. 1 through 61 in Square No. 4, bounded by Francis Quimet Drive, Bob Rosburg Street, Hogan Street, Worsham Street, and the Golf Course.
 - d. Lot Nos. 1 through 145, in Square No. 5, bounded by Bobby Jones Drive, Worsham Street, Francis Quimet Drive, the Golf Course and Metz Street, Snead Drive, and Ford Street.
 - e. Lot Nos. 1 through 9 in Square No. 6, bounded by Snead Drive, Ford Street, and the Golf Course.
 - f. Lot Nos. 1 through 24 in Square No. 7, bounded by Ford Street, the Golf Course, and the northeasterly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3.
 - g. Lot Nos. 1 through 31 in Square No. 8, bounded by Chapman Street, Bob Rosburg Street, Snead Drive and Little Court.
 - h. Lot Nos. 1 through 12 in Square No. 9, bounded by Bob Rosburg Street, Francis Quimet Drive, the westerly boundary line of Hillcrest Country Club Estate Addition No. 3 and Louisiana State Highway No. 435.
 - i. Lot Nos. 1 through 10 in Square No. 10, bounded by Bob Rosburg Street, Francis Quimet Drive, Harry Vardon Drive, and the westerly boundary line of Hillcrest Country Club Estates Subdivision Addition No. 3.
 - j. Lot Nos. 1 through 13 in Square No. 11, bounded by Hogan Street, unnamed street, the southerly boundary line of Hillcrest Country Club Estates Subdivision, Addition No. 3 and Bob Rosburg Street.
 - k. Lot Nos. 1 through 8 in Square No. 12, bounded by Hogan Street, Worsham Street, southerly boundary line of Hillcrest Country Club Estates, Addition No. 3 and an unnamed street.
 - l. Lot Nos. 1 through 12 in Square No. 13, bounded by Bobby Jones Drive, an unnamed street, and southerly boundary line of Hillcrest Country Club Estates Subdivision, Addition No. 3.

- m. Lot Nos. 1 through 13 in Square No. 14, bounded by Bobby Jones Drive, an unnamed street, and southerly boundary line of Hillcrest Country Club Estates Subdivision, Addition No. 3.
- n. Lots 1 through 12 in Square No. 15, bounded by Bobby Jones Drive, an unnamed street, and the southerly boundary line of Hillcrest Country Club Estates Subdivision, Addition No. 3.
- o. Lots 1 through 13 in Square No. 16, bounded by Bobby Jones Drive, an unnamed street, and southerly boundary line of Hillcrest Country Club Estates Subdivision, Addition No. 3.

(Code 1998, § 22-085.00; Ord. No. 96-2402, 4-18-1996)

Sec. 40-883. Name, status and powers.

Said waterworks district shall be known and is hereby designated as "Waterworks District No. 16 of the Parish of St. Tammany, State of Louisiana," and as thus created shall constitute a public corporation and political subdivision of the state, and shall have all powers and privileges granted by the constitution and statutes of this state to such subdivisions, including the authority to incur debt, to issue bonds and levy taxes and assessments.

(Code 1998, § 22-086.00; Ord. No. 96-2402, 4-18-1996)

Sec. 40-884. Board of commissioners.

The board of commissioners shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 22-087.00; Ord. No. 00-0157, 6-1-2000)

Sec. 40-885. Domicile.

The domicile of said waterworks district is designated as the Hillcrest Country Club Subdivision, the parish, which domicile is within the corporate limits of the said waterworks district, and that the Commissioners shall meet at the domicile herein designated on May 1, 1996, at 8:00 p.m., and shall proceed to organize in accordance with the provisions of ch. 8 of title 33 of the Louisiana Revised Statutes of 1950.

(Code 1998, § 22-088.00; Ord. No. 96-2402, 4-18-1996)

Sec. 100-1. Title.

The title of this part shall be known as the "Land Development Code of St. Tammany Parish, Louisiana." This part may also be cited as the "Land Development Code" or the "LDC."

Sec. 100-2. Applicability of part I, chapter 1.

Unless otherwise stated or where the context of the provision clearly shows a different intent, the provisions of chapter 1 under part I, Code of Ordinances shall apply to the chapters contained in this part.

Sec. 100-3. Fee requirements.

Reasonable fees to offset the costs of administration of this part may be set by resolution of the parish council, from time to time, unless state law requires them to be established by ordinance.

Sec. 100-4. Conflicts.

(a) Where general requirements of a provision under the Code of Ordinances or the Land Development Code conflict with a specific requirement of a provision under the Land Development Code including but not limited to building and construction regulations, coastal zone management regulations, drainage and flood control, planning and development, and subdivision regulations, then the provision concerning the specific requirement under the Land Development Code shall prevail.

(b) In the event that a provision or requirement under the Code of Ordinances or the Land Development Code in any way conflicts with another provision or requirement under the Land Development Code, then the more stringent provision or requirement shall prevail.

Sec. 105-770. Prohibited.

ARTICLE I. IN GENERAL**Sec. 105-1. Title.**

These regulations shall constitute and be known and cited as "The Building Code of St. Tammany Parish," hereinafter referred to as "this Code."

(Code 1998, app. D, § 101.1; Ord. No. 14-3119, § 101.1, 4-3-2014)

Sec. 105-2. Rules of construction for technical codes.

(a) Wherever the term "municipality" is used within the technical codes which are adopted by reference in this chapter, it shall be held to mean St. Tammany Parish, Louisiana.

(b) Wherever the term "chief appointing authority" is used within the technical codes which are adopted by reference in this chapter, it shall be held to mean St. Tammany Parish, Louisiana.

(c) Where reference is made to the duties of certain officials named within the technical codes which are adopted by reference in this chapter, then that designated official of the parish, who has duties corresponding to those of the named official in said technical code, shall be deemed to be the responsible official insofar as enforcing the provisions of that technical code are concerned.

Sec. 105-3. Purpose; uniform construction code adopted.

(a) The administration and enforcement of any construction which occurs, or which is to occur, in the unincorporated portion of St. Tammany Parish shall be at all times subject to the provisions of the Louisiana State Uniform Construction Code. The following is adopted by reference and made a part hereof:

(1) The Louisiana State Uniform Construction Code, which is provided for in R.S. 40:1730.21 through 40:1730.40, and which may be amended from time to time.

(b) Any code or appendix set forth heretofore may be cited individually or collectively as "this Code." Inspections conducted by the parish pursuant to this Code shall occur within the unincorporated area of St. Tammany Parish, and may be amended from time to time, by an ordinance of the parish council.

(Code 1998, app. D, § 101.1.1; Ord. No. 14-3119, § 101.1.1, 4-3-2014)

Sec. 105-4. Intent.

The purpose of this Code is to establish the minimum requirements and to secure the beneficial interests and purposes thereof—which are to safeguard the public health, safety and general welfare—through structural strength means of egress facilities, stability, sanitation, adequate light and ventilation, energy conservation, and safety to life and property from fire and other hazards attributed to the built environment. These purposes are applicable to all

buildings and structures including additions, alterations, repairs, removal demolition, use and occupancy of buildings and structures or premises and by regulating the installation and maintenance of all electrical, gas, mechanical and plumbing systems, which may be referred to as service systems.

(Code 1998, app. D, § 101.2; Ord. No. 14-3119, § 101.2, 4-3-2014)

Sec. 105-5. Permitting and inspection.

The inspection or permitting of any building, structure, service system or plan by the parish, under the requirements of this Code, shall not be construed in any court as a warranty of the physical condition of such building, structure, service system or the adequacy of such plan. Neither the parish, nor any employee thereof, shall be liable in tort for damages for any defect or hazardous or illegal condition or inadequacy in such building, structure, service system, or plan, or for failure of any component of such, which may occur subsequent to such inspection or permitting. Nothing contained in this Code shall be construed to relieve or lessen the responsibility or liability of any person for injury or damage to persons or property caused by or resulting from any defects of any nature in any work performed by said person or in any equipment owned controlled, installed, operated or used by him, nor shall the parish, or any agent or employee thereof, incur or assume any liability by reason or in consequence of any things done or acts performed pursuant to any provisions of the adopted codes.

(Code 1998, app. D, § 101.2.1; Ord. No. 14-3119, § 101.2.1, 4-3-2014)

Sec. 105-6. Quality control.

Quality control of materials and workmanship is not within the purview of this Code, except as it relates to the purposes stated herein.

(Code 1998, app. D, § 101.2.2)

Sec. 105-7. Permitting and inspection.

The inspection or permitting of any building, structure, service system or plan by the parish, under the requirement of this Code shall not be construed in any court as a warranty of the physical condition of such building, structure, service system or the adequacy of such plan. Neither the parish, nor any employee thereof shall be liable in tort for damages for any defect or hazardous or illegal condition or inadequacy in such building, structure, service system, or plan, or for failure of any component of such, which may occur subsequent to such inspection or permitting. Nothing contained in this Code shall be construed to relieve or lessen the responsibility or liability of any person for injury or damage to persons or property caused by or resulting from any defects of any nature in any work performed by said person or in any equipment owned controlled, installed, operated or used by him, nor shall the parish, or any agent or employee thereof incur, or held assume any liability by reason or in consequence or any things done or acts performed pursuant to any provisions of the adopted codes.

(Code 1998, app. D, § 101.2.3)

Sec. 105-8. Referenced codes.

The codes listed in sections 105-9 through 105-14 and referenced elsewhere in this Code shall be considered part of the requirements of this Code to the prescribed extent of each such reference.

(Code 1998, app. D, § 101.3)

Sec. 105-9. Commercial building.

The provisions of the International Building Code, 2012 edition with the exceptions and amendments as described by the most recently amended and compiled publication (December, 2013) of LAC 55:VI:301 (Louisiana State Uniform Construction Code), shall apply to the construction, alteration, movement, enlargement, replacement, repair, equipment, use and occupancy, location, maintenance, removal and demolition of every building or structure or any appurtenances connected or attached to such buildings or structures in the unincorporated area of the parish.

(Code 1998, app. D, § 101.3.1)

Sec. 105-10. Residential building.

The provisions of the International Residential Building Code, 2012 edition with the exceptions and amendments as described by the most recently amended and compiled publication (Dec. 2013) of LAC 55:VI:301 (Louisiana State Uniform Construction Code), shall apply to the construction, alteration, movement, enlargement, replacement, repair, equipment, use, and occupancy, location, maintenance, removal and demolition of every detached one- and two-family dwellings and multiple single-family dwellings (townhouses) not more than three stories high with separate means of egress and their accessory structures. However, such buildings shall be subject to the regulations in the International Building Code, 2012 edition, as excepted and amended by the most recently amended and compiled publication (December, 2013) of LAC 55:VI:301 (Louisiana State Uniform Construction Code).

(Code 1998, app. D, § 101.3.2)

Sec. 105-11. Electrical.

The provisions of the National Electrical Code, 2011 edition shall apply to the installation of electrical systems, including alterations, repairs, replacement, equipment, appliances, fixtures, fittings and appurtenances thereto.

(Code 1998, app. D, § 101.3.3)

Sec. 105-12. Gas.

The provisions of the International Fuel Gas Code, 2012 edition shall apply to the installation of consumer's gas piping, gas appliances and related accessories as covered in this Code.

These requirements apply to gas piping systems extending from the point of delivery to the inlet connections of appliances, and the installation and operation of residential and commercial gas appliances and related accessories.

(Code 1998, app. D, § 101.3.4)

Sec. 105-13. Mechanical.

The provisions of the International Mechanical Code, 2012 edition shall apply to the installation of mechanical systems, including alterations, repairs, replacement, equipment, appliances, fixtures, fittings and/or appurtenances, including ventilating, heating, cooling, air conditioning and refrigeration systems, incinerators, and other energy-related systems.

(Code 1998, app. D, § 101.3.5)

Sec. 105-14. Plumbing.

The Louisiana State Plumbing Code, part XIV (Plumbing) of the State Sanitary Code as amended by the state health officer acting through the office of public health of the department of health and hospitals, shall apply to every plumbing installation, including alterations, repairs, replacement equipment, appliances, fixtures, fittings and appurtenances, and where connected to water or sewerage system and all aspects of a medical gas system.

(Code 1998, app. D, § 101.3.6)

Sec. 105-15. Applicability.

Where, in any specific case, different sections of this Code specify different materials, methods of construction or other requirements, the most restrictive shall govern. Where there is a conflict between a general requirement and a specific requirement, the specific requirement shall be applicable.

(Code 1998, app. D, § 102.1)

Sec. 105-16. Other laws.

The provisions of this Code shall not be deemed to nullify any provisions of local, state or federal law.

(Code 1998, app. D, § 102.2)

Sec. 105-17. Application of references.

References to chapter or section numbers, or to provisions not specifically identified by number, shall be construed to refer to such chapter, section or provision of this Code.

(Code 1998, app. D, § 102.3)

Sec. 105-18. Referenced codes and standards.

The codes and standards referenced in this Code shall be considered part of the requirements of this Code to the prescribed extent of each such reference. Where differences occur between provisions of this Code and referenced codes and standards, the provisions of this Code shall apply.

(Code 1998, app. D, § 102.4)

Sec. 105-19. Partial invalidity.

In the event any part or provision of this Code is held to be illegal or void, this shall not have the effect of making void or illegal any of the other parts or provisions.

(Code 1998, app. D, § 102.5)

Sec. 105-20. Department of permits and regulatory.

The department of permits and regulatory is hereby created and the person in charge shall be known as the director of the department of permits and regulatory, hereinafter known as the "director" is the agency responsible for the administration and enforcement of this Code. The director is hereby authorized and directed to enforce the provisions of this Code.

(Code 1998, app. D, § 103)

Sec. 105-21. Duties and powers of the director.

The director shall have the authority to render interpretations of this Code and to adopt policies and procedures in order to clarify the application of its provisions. Such interpretations, policies and procedures shall be in compliance with the intent and purpose of this Code. Such policies and procedures shall not have the effect of waiving requirements specifically provided for in this Code.

(Code 1998, app. D, § 104.1)

Sec. 105-22. Employees.

In accordance with the prescribed procedures of this jurisdiction and with the concurrence of the appointing authority, the director shall have the authority to appoint a deputy director, the related technical officers, inspectors, plan examiners and other employees. Such employees shall have the powers as delegated by the director.

(Code 1998, app. D, § 104.2)

Sec. 105-23. Records.

The director shall keep, or cause to be kept, a record of the business of the department in accordance with the public record law of the state. The records of the department shall be open to public inspection.

(Code 1998, app. D, § 104.3)

Sec. 105-24. Applications and permits.

The director, or his designee, shall receive application, review construction documents and issue permits for the erection, and alteration demolition and moving of a building and structures, inspect the premises for which such permits have been issued and enforce compliance with the provisions of this Code.

(Code 1998, app. D, § 104.4)

Sec. 105-25. Notices and orders.

The director shall issue all necessary notices or orders to ensure compliance with this Code.

(Code 1998, app. D, § 104.5)

Sec. 105-26. Inspections.

The director shall make or cause to be made all of the required inspections. The director shall have the authority to accept reports of inspection by approved agencies or individuals. Reports of such inspections shall be in writing and be certified by an officer of such approved agency or by the responsible individual. The director is authorized to engage such expert opinion as deemed necessary to report upon unusual technical issues that arise, subject to the approval of the appointing authority.

(Code 1998, app. D, § 104.6)

Sec. 105-27. Identification.

The director shall carry proper identification when inspecting structures or premises in the performance of duties under this Code.

(Code 1998, app. D, § 104.7)

Sec. 105-28. Right of entry.

Where it is necessary to make an inspection to enforce the provisions of this Code, or where the director has reasonable cause to believe that there exists in a structure or upon a premises a condition which is contrary to or in violation of this Code which makes the structure or premises unsafe, dangerous or hazardous, the director is authorized to enter the structure or premises at reasonable times to inspect or to perform the duties imposed by this Code, provided that if such structure or premises be occupied that credentials be presented to the occupant and entry requested. If such structure or premises be unoccupied, the director shall first make a reasonable effort to locate the owner or other person having charge or control of the structure or premises and request entry. If entry is refused, the director shall have recourse to the remedies provided law to secure entry.

(Code 1998, app. D, § 104.8)

Sec. 105-29. Liability.

The director, members of the board of appeals or employee charged with the enforcement of this Code, while acting for the jurisdiction in good faith and without malice in the discharge of the duties required by this Code or other pertinent law or ordinance, shall not thereby be rendered liable personally and is hereby relieved from personal liability for any damage accruing to persons or property as a result of any act or by reason of an act of omission in the discharge of official duties. Any suit instituted against an officer or employee in the lawful discharge of duties and under the provisions of this Code shall be defended by legal representative of the jurisdiction until the final termination of the proceedings. The director or any subordinate shall not be liable for cost in any action, suit or proceeding that is instituted in pursuance of the provisions of this Code.

(Code 1998, app. D, § 104.9)

Sec. 105-30. Stop work orders.

Upon notice from the director, work on any building, structure, electric, gas, or mechanical system that is being done prior to the securing of the required permit and/or contrary to the provisions of this Code or in a dangerous or unsafe manner, shall immediately cease. Such notice shall be in writing and shall be given to the owner of the property or to his agent, or to the person doing the work, and shall state the conditions under which work may be resumed. Where an emergency exists, the director shall not be required to give a written notice prior to stopping the work.

(Code 1998, app. D, § 104.10)

Sec. 105-31. Revocation of permits.

The director may revoke a permit or approval, issued under the provisions of this Code, in the event that there has been any false statement or misrepresentation or upon failure to execute said work in accordance with said application, plans or specifications or which has been issued in violation of the zoning or building code.

(Code 1998, app. D, § 104.11)

Sec. 105-32. Approved materials and equipment.

Materials, equipment and devices approved by the director shall be constructed and installed in accordance with such approval.

(Code 1998, app. D, § 104.12)

Sec. 105-33. Requirements not covered by Code.

Any requirements necessary for the strength or stability of an existing or proposed building or structure, or for the public safety, health and general welfare, not specifically covered by this Code, shall be determined by the director. Wherever there are practical difficulties involved in

carrying out the provisions of this Code, the director shall have the authority to grant modifications for individual cases, upon application of the owner or owner's representative, provided the director shall first find that special individual reason makes the strict letter of this Code impracticable and the modification is in compliance with the intent and purpose of this Code and that such modification does not lessen health, accessibility, life and fire safety, or structural requirements. The application for modification and the approval of the director shall be in writing. The details of action granting modifications shall be recorded and entered in the permanent records of the department of permits and regulatory.

(Code 1998, app. D, § 104.13)

Sec. 105-34. Tests.

Whenever there is insufficient evidence of compliance with the provisions of this Code, or evidence that a material or method does not conform to the requirements of this Code, or in order to substantiate claims for alternative materials or methods, the director shall have the authority to require tests as evidence of compliance to be made at no expense to the jurisdiction. Test methods shall be as specified in this Code or by other recognized and accepted test standards. In absence of recognized and acceptable test methods, the director shall approve the testing procedures. Tests shall be performed by an approved agency. Reports of such tests shall be retained by the director for the period required for retention of public records.

(Code 1998, app. D, § 104.14)

Secs. 105-35—105-56. Reserved.

ARTICLE II. PERMITS

Sec. 105-57. Required.

Any owner or authorized agent who intends to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure, or to erect, install, enlarge, alter, repair, remove, convert, or replace any electrical, mechanical, plumbing, or gas system, the installation of which is regulated by this Code, or cause any such work to be done, shall first make application to the director and obtain the required permit.

(Code 1998, app. D, § 105.1)

Sec. 105-58. Work exempt from permit.

Exemptions from permit requirements of this Code shall not be deemed to grant authorization for any work to be done in any manner in violation of the provisions of this Code or any other laws or ordinances of this jurisdiction. Permits shall not be required for the following:

- (1) *Building.*
 - a. One story detached accessory structures, accessory to one- and two-family dwellings, used as tool, storage sheds, playhouses and similar uses provided the floor area does not exceed 100 square feet.

- b. Fences not over six feet high.
 - c. Painting, papering, tiling, carpeting, cabinets, counter tops and similar finish work.
 - d. Shade cloth structures constructed for nursery or agricultural purposes and not including service systems.
 - e. Swings and other playground equipment accessory to one- and two-family dwellings.
 - f. Movable cases, counters and partitions not over five feet nine inches tall.
 - g. Oil derricks
 - h. Water tanks supported directly upon grade if the capacity does not exceed 5,000 gallons and the ratio of height to diameter or width does not exceed 2:1.
 - i. Prefabricated swimming pools accessory to single-family dwellings that are less than 24 inches deep.
 - j. Window awnings supported by an exterior wall which do not project more than 54 inches from the exterior wall and do not require additional support.
- (2) *Electrical.*
- a. *Repairs and maintenance.* Minor repair work, including the replacement of lamps or the connection of approved portable electrical equipment to approved permanently installed receptacles.
 - b. *Radio and television transmitting stations.* The provisions of this Code shall not apply to electrical equipment used for radio and television transmissions, but does apply to equipment of wiring for power supply, the installation of owners and antennas.
- (3) *Mechanical.*
- a. Portable appliance.
 - b. Portable ventilation appliances/equipment.
 - c. Portable cooling unit.
 - d. Steam, hot or chilled water piping within any heating or cooling equipment regulated by this Code.
 - e. Replacement of any minor part that does not alter approval of equipment or make such equipment unsafe.
 - f. Portable evaporator cooler.
 - g. Self-contained refrigeration systems containing ten pounds or less of refrigerant or that are actuated by motors of one horsepower or less.

- h. Residential portable fuel cell appliances that are not connected to a fixed piping system and are not interconnected to a power grid.

(4) *Plumbing.*

- a. The stopping of leaks in drains, water, soil waste or vent pipe; provided, however, that if any concealed trap, drainpipe, water, soil, waste, or vent pipe becomes defective and it becomes necessary to remove and replace same with new material, such work shall be considered as new work and a permit shall be obtained and inspections made as provided in this Code.
- b. The clearing of stoppages or the repairing of leaks in pipes, valves or fixtures, and the removal and reinstallation of water closets, provided that such repairs do not involve or require the replacement or rearrangement of valves, pipes or fixtures.

(Code 1998, app. D, § 105.2)

Sec. 105-59. Emergency repairs.

Where equipment replacements and repairs must be performed in an emergency situation, the permit application shall be submitted within 24 hours/next working business day of the repair to the director.

(Code 1998, app. D, § 105.2.1)

Sec. 105-60. Repairs application.

Notice to the director is not required for ordinary repairs to structures, replacement of lamps or the connection of approved portable electrical equipment to approved permanently installed receptacles. Such repairs shall not include the cutting away of any wall, partition or portion thereof, the removal or cutting of any structural beam or load bearing support, or the removal or change of any required means or egress, or rearrangement of parts of a structure affecting the egress requirements; nor shall ordinary repairs include the addition to, alteration of, replacement or relocation of any standpipe, water supply, sewer drain, drain leader, gas, soil, waste, vent or similar piping, electrical wiring or mechanical or other work affecting public health or general safety.

(Code 1998, app. D, § 105.2.2)

Sec. 105-61. Application for permit.

To obtain a permit, the applicant shall first file an application therefore in writing on a form furnished by the department of permits and regulatory for that purpose. Such application shall:

- (1) Identify and describe the work to be covered by the permit for which application is made.
- (2) Provide an assessment or parcel number from the parish assessor's office.
- (3) Describe the land on which the proposed work is to be done by legal description.

- (4) Provide clear and concise directions to the land on which the proposed work is to be done.
 - (5) Indicate the use and occupancy for which the proposed work is intended.
 - (6) Be accompanied by construction documents and other information as required by section 105-97.
 - (7) State the valuation of the proposed work.
 - (8) Be signed by the applicant, or the applicant's authorized agent.
 - (9) Completed lot fill form.
 - (10) Completed sheriffs job registration form.
 - (11) L.H.S.47 (if using an individual sewerage system).
 - (12) State highway department approval form (if accessing from a state controlled road).
 - (13) Approved conditional use/administrative permit (if required).
 - (14) Approved land clearing permit (five acres or greater).
 - (15) Approved sign review permit (commercial signs).
 - (16) State fire marshal review letter (commercial only).
 - (17) List of subcontractors. Copies of contracts if commercial.
 - (18) Be accompanied by permit fees and any other fees as required in section 105-380.
 - (19) Provide such other data and information as required by the director.
- (Code 1998, app. D, § 105.3)

Sec. 105-62. Action on application.

The director shall examine or cause to be examined applications for permits and amendments thereto within a reasonable time after filing. If the application or the construction documents do not conform to the requirements of the pertinent laws, the director shall reject such application in writing, stating the reasons therefore. If the director is satisfied that the proposed work conforms to the requirements of this Code and laws and ordinances applicable thereto, the director shall issue a permit therefore as soon as possible.

(Code 1998, app. D, § 105.3.1)

Sec. 105-63. Time limitation of application.

An application for a permit for any proposed work shall be deemed to have been abandoned 90 days after the date of filing, unless such application has been pursued in good faith or a

permit has been issued; except that the director is authorized to grant one or more extensions of time for additional periods not exceeding 90 days each. The extension shall be requested in writing and justifiable cause demonstrated.

(Code 1998, app. D, § 105.3.2)

Sec. 105-64. Validity of permit.

The issuance or granting of a permit shall not be construed to be a permit for, or an approval of, any violation of any provisions of this Code or of any other ordinance of the jurisdiction. Permits presuming to give authority to violate or cancel provisions of this Code or other ordinances of the jurisdiction shall not be valid. The issuance of a permit based on construction documents and other data shall not prevent the director from requiring the correction for errors in the construction documents and other data. The director is also authorized to prevent occupancy or use of a structure where a violation of this Code or of any other ordinances of this jurisdiction.

(Code 1998, app. D, § 105.4)

Sec. 105-65. Expiration.

Every permit issued shall become invalid unless the work on the site authorized by such permit is commenced within 180 days after its issuance, or if the work authorized on the site by such permit is suspended or abandoned for a period of 180 days after the time the work is commenced or is not completed within two years of the issuance of the permit. A new permit shall be applied for, work cannot commence again until the new permit has been issued. The director is authorized to grant, in writing, one or more extensions of time, for periods not more than 90 days each. The extension shall be requested in writing and justifiable cause demonstrated.

(Code 1998, app. D, § 105.5)

Sec. 105-66. Suspension or revocation.

The director is authorized to suspend or revoke a permit issued under the provisions of this Code wherever the permit is issued in error or on the basis of incorrect, inaccurate or incomplete information or in violation of any ordinance or regulation or any provisions of this Code.

(Code 1998, app. D, § 105.6)

Sec. 105-67. Placement of permit placard.

Work requiring a permit shall not commence until the permit has been issued and the placard is posted on premises. The building permit placard shall be kept on the site of work

until a certificate of occupancy, or a certificate substantial completion has been issued, by the director. It shall be placed in a conspicuous manner, as to be seen from the road, and made available to the director or representative to conveniently make any required entries thereon. (Code 1998, app. D, § 105.7)

Sec. 105-68. Owner's responsibility.

It shall be the duty of owner who shall perform work for the installation or repair of buildings, structures, electrical, mechanical, plumbing or gas systems, for which this Code is applicable, to comply with this Code. (Code 1998, app. D, § 105.8)

Sec. 105-69. Contractor's responsibility.

It shall be the duty of every contractor who shall make contracts for the installation or repairs of buildings, structures, electrical, mechanical, plumbing and gas systems, for which a permit is required, to comply with state or local rules and regulations concerning licensing which the applicable governing authority may have adopted. (Code 1998, app. D, § 105.9)

Secs. 105-70—105-96. Reserved.

ARTICLE III. CONSTRUCTION DOCUMENTS

Sec. 105-97. Submittal documents.

(a) *Supporting documents.* Construction documents, special inspection and structural observation programs, and other data shall be submitted in two or more sets with each application for a permit. The construction documents shall be prepared by a certified design professional where required by the statutes of the jurisdiction in which the project is to be constructed. Where special conditions exist, the director is authorized to require additional construction documents to be prepared by a certified design professional.

(b) *Exception.* The director may waive certification requirements, if he finds that the nature of the work applied for is such that certification of plans is not necessary to obtain compliance with this Code. (Code 1998, app. D, § 106.1)

Sec. 105-98. Information on construction documents.

Construction documents shall be dimensioned and drawn upon suitable material. Electronic media documents are permitted to be submitted when approved by the director. Construction

documents shall be of sufficient clarity to indicate the location, nature and extent of the work proposed and show in detail that it will conform to the provisions of this Code and relevant laws, ordinances, rules and regulations, as determined by the director.

(Code 1998, app. D, § 106.1.1)

Sec. 105-99. Manufacturer's installation instructions.

Manufacturer's installation instructions, as required by this Code shall be available on the job site at the time of inspection.

(Code 1998, app. D, § 106.1.2)

Sec. 105-100. Construction in areas prone to flooding.

For buildings and structures in flood hazard areas construction documents shall include:

- (1) Delineation of flood hazard areas, floodway boundaries, and flood zones, and the design flood elevation is as appropriate;
- (2) The elevation of the proposed lowest floor, including basement; in areas of shallow flooding (AO zones), the height of the proposed lowest floor, including basement, above the highest adjacent grade;
- (3) The elevation of the bottom of the lowest horizontal structural member in a coastal high hazard areas (V zones); and
- (4) If the design flood elevations are not included on the community's flood insurance rate map (FIRM), the director and the applicant shall obtain and reasonably utilize any design flood elevation and floodway data available from other sources.

(Code 1998, app. D, § 106.1.3)

Sec. 105-101. Site plan.

A site plan drawn at a legible scale which shall include the size and location of new construction and every existing structure on the site and distances from the lot/property lines. In the case of demolition, the site plan shall show construction to be demolished and the location and size of existing structures and construction that are to remain on the site of plot.

(Code 1998, app. D, § 106.2)

Sec. 105-102. Boundary line survey.

A boundary line survey prepared by a licensed surveyor shall accompany any request for new construction, additions, mobile home placement and accessory structures. The survey shall indicate flood zone information and delineation of flood hazard areas.

(Code 1998, app. D, § 106.3)

Sec. 105-103. Examination of documents.

The director shall examine or cause to be examined construction documents for code compliance.

(Code 1998, app. D, § 106.4)

Sec. 105-104. Approval of construction documents.

When the director issues a permit, the construction documents shall be approved, in writing or by stamp. One set of construction documents so reviewed shall be retained by the director. The other set shall be returned to the applicant, shall be kept at the site of work and shall be open to inspection by the director or a duly authorized person.

(Code 1998, app. D, § 106.4.1)

Sec. 105-105. Previous approvals.

This Code shall not require changes in the construction documents, construction or designated occupancy of a structure for which a lawful permit has been heretofore issued otherwise lawfully authorized, and the construction of which has been commenced and pursued in good faith within 180 days after the effective date of this Code and has not been abandoned.

(Code 1998, app. D, § 106.4.1.2)

Sec. 105-106. Amended construction documents.

Work shall be installed in accordance with the reviewed construction documents, and any changes made during construction that are not in compliance with the approved construction documents shall be resubmitted for approval as an amended set of construction documents.

(Code 1998, app. D, § 106.4.1.3)

Sec. 105-107. Phased approval.

The director is authorized to issue a permit for the construction of foundations or any other part of a building or structure before the construction documents for the whole building or structure have been submitted, provided that adequate information and detailed statements have been filed complying with pertinent requirements of this Code. The holder of such a permit for the foundation or other parts of a building or structure shall proceed at the holder's own risk with the building operation and without assurance that a permit for the entire structure will be granted.

(Code 1998, app. D, § 106.4.1.1)

Sec. 105-108. Retention of construction documents.

One set of approved construction documents shall be retained by the director for a period of not less than 180 days from the date of completion of the permitted work, or as required by state of local laws.

(Code 1998, app. D, § 106.5)

Secs. 105-109—105-129. Reserved.

ARTICLE IV. BUILDING PERMIT FEES

DIVISION 1. GENERALLY

Sec. 105-130. Payment of fees.

A permit shall not be valid until the prescribed fees prescribed by law have been paid. Nor shall an amendment to a permit be released until the additional fee, if any, has been paid.
(Code 1998, app. D, § 107.1)

Sec. 105-131. New construction, additions, accessory structures.

The applicant for a permit for new construction, additions, and accessory structures shall provide in writing, the total square footage at the time of the application. Permit square footage shall include any square footage under beam. If in the opinion of the director, the total square footage is not reported accurately on the application, the permit shall be denied. Final building permit square footage shall be determined by the director.
(Code 1998, app. D, § 107.2)

Sec. 105-132. Building permit valuations.

The applicant for a permit for renovations, remodeling, build outs, and commercial, electrical, mechanical, plumbing and gas systems shall provide a signed contract or proposal estimating the value in writing at time of application. Permit valuations shall include total value of work, including materials and labor, for which the permit is being issued, such as electrical, gas, mechanical, plumbing equipment and permanent systems. If, in the opinion of the director, the valuation is underestimated on the application, the permit shall be denied, unless the applicant can show detailed estimates to meet the approval of the director. Final building permit valuation shall be set by the director.
(Code 1998, app. D, § 107.3)

Sec. 105-133. Work commencing before permit issuance.

Any person who commences work on a building, structure, electrical, gas, mechanical or plumbing system before obtaining the necessary permits shall be subject to an additional fee of 100 percent of the usual fee that shall be in addition to the required permit fees.
(Code 1998, app. D, § 107.4)

Sec. 105-134. Licensed parks.

For licensed parks, the fee shall be a \$25.00 nonrefundable application fee, plus \$5.00 electrical connection.

(Code 1998, app. D, § 107.4.1)

Sec. 105-135. Related fees.

The payment of the fee for the construction, alteration, removal or demolition for work done in connection or concurrently with the work authorized by a building permit shall not relieve the applicant or holder of the payment of other fees that are prescribed by law.

(Code 1998, app. D, § 107.5)

Sec. 105-136. Application fees.

Application fees are not refundable.

(Code 1998, app. D, § 107.6)

Sec. 105-137. Refunds.

Building permit fees, once a permit has been issued, shall not be refunded or transferred.

(Code 1998, app. D, § 107.6)

Sec. 105-138. Schedule of permit fees.

On buildings, structures, electrical, gas, mechanical and plumbing systems or alterations requiring a permit, a fee for each permit shall be paid as required. The fees shall be in accordance with the schedule in division 2 of this article.

(Code 1998, app. D, § 107.7)

Secs. 105-139—105-159. Reserved.**DIVISION 2. BUILDING FEES****Sec. 105-160. Building commercial.**

(a) New construction: \$140.00 nonrefundable application fee, plus \$0.21 per square foot.

(b) Additions: \$100.00 nonrefundable application fee, plus \$0.21 per square foot.

(c) Remodel/build outs: \$85.00 nonrefundable application fee, plus \$5.00 per thousand or fraction thereof (contract amount).

(d) Plan review: \$150.00, plus \$0.01 per square foot. (Nonrefundable) (Projects above \$2,000,000.00 may be subject to a \$150.00 base fee and current ICC Plan Review fees.)

(Code 1998, app. D, § 107.7.2)

Sec. 105-161. Building residential.

- (a) New construction: \$105.00 nonrefundable application fee, plus \$0.10 per square foot.
- (b) Additions: \$80.00 nonrefundable application fee, plus \$0.10 per square foot.
- (c) Remodel: \$75.00 nonrefundable application fee, plus \$5.00 per thousand or fraction thereof contract amount/no contract \$0.50 per square foot, plus base charge.
- (d) Plan review: \$50.00, plus \$0.01 per square foot (nonrefundable.)
(Code 1998, app. D, § 107.7.3)

Sec. 105-162. Mobile homes residential.

Mobile homes: \$80.00 nonrefundable application fee, plus \$0.10 per square foot, plus \$5.00 electrical connection.
(Code 1998, app. D, § 107.7.4)

Sec. 105-163. Miscellaneous.

Seasonal retail tents, temporary structures, and pre-fab units: \$140.00, plus \$0.10 per square foot.
(Code 1998, app. D, § 107.7.5)

Secs. 105-164—105-194. Reserved.

DIVISION 3. ELECTRICAL FEES

Sec. 105-195. Electrical commercial.

Reserved.
(Code 1998, app. D, § 107.8.1)

Sec. 105-196. Electrical residential.

A \$40.00 nonrefundable application fee, plus \$2.00 per circuit.
(Code 1998, app. D, § 107.8.2)

Sec. 105-197. Mobile home meter.

Reserved.
(Code 1998, app. D, § 107.8.3)

Sec. 105-198. Construction test meter renewals.

Reserved.
(Code 1998, app. D, § 107.8.4)

Secs. 105-199—105-219. Reserved.

DIVISION 4. MECHANICAL FEES

Sec. 105-220. Mechanical commercial.

Two percent of the mechanical contract up to \$200,000.00, plus one percent of the mechanical contract over \$200,000.00.
(Code 1998, app. D, § 107.9.1)

Sec. 105-221. Mechanical residential.

A \$40.00 nonrefundable application, plus \$3.00 per ton of A.C.
(Code 1998, app. D, § 107.9.2)

Sec. 105-222. Mechanical miscellaneous.

Elevators, builder's hoists and moving stairs are based on number of floors served.
(Code 1998, app. D, § 107.9.3)

Secs. 105-223—105-252. Reserved.

DIVISION 5. PLUMBING FEES

Sec. 105-253. Plumbing commercial.

Two percent of the plumbing contract up to \$200,000.00 plus one percent of the plumbing contract over \$200,000.00.
(Code 1998, app. D, § 107.10.1)

Sec. 105-254. Plumbing residential.

A \$40.00 nonrefundable application fee, plus \$1.00 per fixture.
(Code 1998, app. D, § 107.10.2)

Secs. 105-255—105-271. Reserved.

DIVISION 6. GAS FEES

Sec. 105-272. Gas commercial.

Two percent of the gas contract up to \$200,000.00 plus one percent of the gas contract over \$200,000.00.
(Code 1998, app. D, § 107.11.1)

Sec. 105-273. Gas residential.

A \$20.00 nonrefundable application fee, plus \$1.00 per drop.
(Code 1998, app. D, § 107.11.2)

Secs. 105-274—105-294. Reserved.

DIVISION 7. REINSPECTION FEES

Sec. 105-295. Reinspection.

Reserved.
(Code 1998, app. D, § 107.12.1)

Sec. 105-296. Incomplete reinspection.

Reserved.
(Code 1998, app. D, § 107.12.2)

Sec. 105-358. Inactive registration fee.

Reserved.

(Code 1998, app. D, § 107.14.3)

Sec. 105-359. Delinquent registration fees.

A fee will be assessed monthly for any registration received after January 1 through March 31. Registrations that have not been renewed by March 31 shall be revoked.

(Code 1998, app. D, § 107.14.4)

Secs. 105-360—105-376. Reserved.**ARTICLE V. INSPECTIONS****DIVISION 1. GENERALLY****Sec. 105-377. General.**

Construction or work for which a permit is required shall be subject to inspection by the director and such construction work shall remain accessible and exposed for inspection purposes until approved. Upon notification from the permit holder or his agent, the director, shall make or cause to be made any necessary inspections and shall either approve that portion of the construction as completed or shall notify the permit holder or his agent wherein fails to comply with this Code. Approval as a result of an inspection shall not be construed to be an approval of a violation of the provisions of this Code or of other ordinances of the parish. Inspections presuming to give authority to violate or cancel the provisions of this Code or of other ordinances of the jurisdiction shall not be valid. It shall be the duty of the permit applicant to cause the work to remain accessible and exposed for inspection purposes. Neither the director nor the jurisdiction shall be liable for expense entailed in the removal or replacement of any material required to allow inspection.

(Code 1998, app. D, § 108.1)

Sec. 105-378. Inspection requests.

It shall be the duty of the holder of the building permit or their duly authorized agent to notify the director when work is ready for inspection. It shall be the duty of the permit holder to provide access to and means for inspection of such work for any inspections that are required by this Code.

(Code 1998, app. D, § 108.1.1)

Sec. 105-379. Approval required.

Work shall not be done beyond the point indicated in each successive inspection without first obtaining the approval of the director. The director, upon notification, shall make the requested inspections and shall either indicate the portion of the construction that is satisfactory as completed, shall notify the permit wherein the same fails to comply with this Code. Any portions that do not comply shall be corrected and such portion shall not be covered or concealed until authorized by the director.

(Code 1998, app. D, § 108.1.2)

Sec. 105-380. Preliminary inspection.

Before issuing a permit, the director is authorized to examine or cause to be examined buildings, structures and sites for which a permit application has been filed.

(Code 1998, app. D, § 108.2)

Sec. 105-381. Required inspections.

The director, upon notification, shall make or cause to be made the inspections set forth in divisions 2 and 3 of this article.

(Code 1998, app. D, § 108.3)

Sec. 105-382. Other inspections.

In addition to the inspections specified above, the director is authorized to make or require other inspections of any construction work to ascertain compliance with the provisions of this Code and any other laws that are enforced by the department of permits and regulatory.

(Code 1998, app. D, § 108.7)

Sec. 105-383. Construction test meter.

A construction test meter shall be energized prior to scheduling any building, electrical, mechanical or plumbing final.

(Code 1998, app. D, § 108.8)

Sec. 105-384. Inspection agencies.

The director is authorized to accept reports of approved agencies, provided such agencies satisfy the requirements as to qualifications and reliability.

(Code 1998, app. D, § 108.9)

Secs. 105-385—105-411. Reserved.

DIVISION 2. DRAINAGE INSPECTIONS

Sec. 105-412. Preliminary grade inspection slab on grade.

Prior to a foundation inspection the preliminary grade inspection shall be made after forms erected, and prior to plumbing or electrical piping installation. All fill material shall meet appropriate standards. All ditch/culvert/silt fencing shall be in place. If necessary, drainage swales must be constructed. Any fill placement cannot block drainage flow.
(Code 1998, app. D, § 108.4.1)

Sec. 105-413. Preliminary grade inspection for piling/pier construction.

The preliminary grade inspection shall be after site/grade preparation and immediately after installation of piling/pier and prior to any other construction.
(Code 1998, app. D, § 108.4.2)

Sec. 105-414. Swimming pools preliminary grade.

Preliminary drainage inspection shall be made after the initial dig, before gunite/shell, and after the fill from the dig has been removed or redistributed. Silt fencing shall be required to protect adjacent properties or drainage easements as necessary.
(Code 1998, app. D, § 108.4.3)

Secs. 105-415—105-441. Reserved.

DIVISION 3. BUILDING INSPECTIONS

Sec. 105-442. Underground inspections.

Reserved.
(Code 1998, app. D, § 108.5.1)

Sec. 105-443. Footing or foundation inspection.

Footing and foundation inspections shall be made after excavations for footing are complete and any required reinforcing steel is in place, prior to the placing of concrete. The foundation inspection shall include excavations for thickened slabs intended for the support of bearing walls, partitions, structural supports or equipment and special requirements for wood foundations. Footing and foundation inspections shall be made after an approved preliminary grade inspection and underground plumbing inspection if plumbing is in the foundation.
(Code 1998, app. D, § 108.5.2)

Sec. 105-444. Concrete slab or under-floor inspection.

Concrete slab and under-floor inspections shall be made after in-slab or under-floor reinforcing steel and building service equipment, conduit, piping accessories and other ancillary equipment items are in place, but before any concrete is placed or floor sheathing installed, including the sub floor.

(Code 1998, app. D, § 108.5.3)

Sec. 105-445. Rough in inspections.

Reserved.

(Code 1998, app. D, § 108.5.4)

Sec. 105-446. Framing inspections.

Reserved.

(Code 1998, app. D, § 108.5.5)

Sec. 105-447. Fire-resistance-rated commercial construction inspection.

Where fire-resistance-rated construction is required between dwelling units due to location on property, the director shall require an inspection of such construction after all lathing and/or wall board is in place, but before any plaster is applied, or wallboard joints and fasteners retaped and finished.

(Code 1998, app. D, § 108.5.6)

Sec. 105-448. Fire resistant penetrations (commercial).

Protection of joints and penetrations in fire resistant-rated assemblies shall not be concealed from view until inspected and approved.

(Code 1998, app. D, § 108.5.8)

Sec. 105-449. Final inspections.

Final inspections for all electrical, mechanical plumbing and gas systems shall be made after the electrical, mechanical, plumbing and gas systems are complete. The final grade inspection shall be made prior to the final building inspection. The final building inspection shall be made after the building is completed and ready for occupancy. Municipal addresses shall be posted on the property and visible from the street. Construction test meters shall be energized prior to scheduling of any final inspection.

(Code 1998, app. D, § 108.5.9)

Sec. 105-450. Minimum finished floor elevations.

(a) Minimum finished floor elevations for residential structures in flood zone "C" shall be no less than 12 inches above the centerline of street or top of curb fronting the home, whichever is greater. For residential structures located in flood zone "A," the minimum finished floor elevation shall be at the base flood elevation or 12 inches above the centerline of street or top of curb fronting the home, whatever is greater. For residential lots less than 90 feet wide in all flood zones, structures shall be raised if more than 24 inches of fill is required to satisfy this section. The department of engineering shall have the ability to grant variances for lots less than 90 feet wide in subdivisions with approved fill plans. Fill required for all lots in flood zone "A" or in critical drainage areas shall be mitigated in accordance with chapter 115, pertaining to drainage and flood control.

(b) When determining the elevation required in subsection (a) of this section, the centerline of street or top of curb elevation where the grade is highest along the front width of the lot shall be the baseline elevation. For the case where a lot is at the corner of two streets, the centerline of street or top of curb elevation where the grade is the highest along the front and side of the lot adjacent to the corner shall be the baseline elevation.

(c) The department of permits or department of engineering may require the building permit applicant to submit an elevation certificate by a professional land surveyor noting the highest street centerline or top of curb elevation along the front width of the lot in addition to the top of form board elevation representing the finished floor elevation, if the requirements set out in subsections (a) and (b) of this section are not met. Elevations shall be tied to the NAVD88 vertical datum. In such cases, the elevation certificate shall be received by the permit department prior to approval of a preliminary drainage inspection. For the case where a home is raised, the elevation certificate shall be required prior to the framing inspection.

(d) The department of engineering may grant variances where existing topography makes it impractical to raise structures above the street centerline/top of curb and/or negatively impacts drainage for surrounding lots.

(Code 1998, app. D, § 108.5.10; Ord. No. 07-1595, 7-5-2007; Ord. No. 14-3084, 2-6-2014)

Secs. 105-451—105-468. Reserved.**DIVISION 4. INSPECTIONS FOR STRUCTURES LOCATED IN A FLOODPLAIN****Sec. 105-469. Lowest floor elevations.**

For construction in areas prone to flooding as established by the International Residential Code Table R301.2(1), upon placement of the lowest floor, including basement and prior to further vertical construction, the director shall require submission of documentation, prepared and sealed by a registered licensed engineer, of the elevation of the lowest floor, including

basement, as required in the International Residential Code Section R323. For residential structures located in flood zone "A", the minimum finished floor elevation shall be at base flood elevation or 12 inches above the centerline of the street or top of curb fronting the home, whichever is greater. The centerline of street or top of curb elevation shall be taken where the grade is highest along the front width of the lot. For the case where a lot is at the corner of two streets, the centerline of street or top of curb elevation shall be taken where the grade is the highest along the front and side of the lot adjacent to the corner.

(Code 1998, app. D, § 108.6.1; Ord. No. 07-1595, 7-5-2007)

Sec. 105-470. Lowest floor elevation.

The elevation certification as required in the State Uniform Construction Code shall be submitted to the director prior to the placing of concrete. The certificate shall be prepared and sealed by a licensed registered engineer.

(Code 1998, app. D, § 108.6.2)

Secs. 105-471—105-493. Reserved.

ARTICLE VI. REGISTRATIONS

DIVISION 1. GENERALLY

Sec. 105-494. Scope.

Any contractor or subcontractor who desires to construct, enlarge, alter, repair, move, demolish, or change the occupancy of a building or structure or to erect, install, enlarge, alter, remove, convert, or replace any electrical, gas, mechanical, or plumbing system, the installation of which is regulated by the technical codes shall first make application to the director, and obtain the required registration for the appropriate trade. Each registration issued shall specify the name of the person, firm or corporation registered, who shall be known as the holder of the registration, and shall specify the name of the person who has passed the state requirements, and such person shall be designated in the registration as the supervisor of all work to be done under the registration. The person designated as the supervisor may be a person in the employ of the holder of the registration or, if the holder is a person, may be the holder himself or; if the holder is a firm, may be member of the firm; or, if the holder is a corporation, may be an officer of the corporation. The same person shall not be designated as the supervisor in two or more registrations issued to different persons, firms or corporations. In the event that the business association with or employment of the supervisor by the holder the registration shall terminate, said registration shall become null and void 180 days after such termination.

(Code 1998, app. D, § 201.1)

Sec. 105-495. Registrations and renewals.

Initial registrations for building, electrical, mechanical plumbing and gas shall be valid until the end of the calendar year registration is applied for. Notice of renewal shall be mailed to each registered contractor/subcontractor each November. Renewal fees shall be due by January 1st. Registration renewals received after January 1 shall be charged a delinquent for every month delinquent until March 31, after March 31 the registration shall be revoked.
(Code 1998, app. D, § 201.1.1)

Secs. 105-496—105-513. Reserved.

DIVISION 2. REQUIREMENTS

Sec. 105-514. Commercial builder registration requirements.

Any person may apply for a commercial builder's registration who meets the following requirements:

- (1) Current state general contractor's license (building construction).
- (2) Current certification of resident contractor status.

(Code 1998, app. D, § 202.1)

Sec. 105-515. Residential builder registration requirements.

Any person may apply for a residential builder's registration who meets the following requirements:

- (1) Current state residential building contractor's license.
- (2) Current certification of resident contractor status.

(Code 1998, app. D, § 202.2)

Sec. 105-516. Electrical registration requirements.

Any person may apply for an electrical registration who meets the following requirements:

- (1) Current state electrical license.
- (2) Current certification of resident contractor status.

(Code 1998, app. D, § 202.3)

Sec. 105-517. Gas registration requirements.

Any person may apply for a gas registration who meets one of the following requirements:

- (1) Current parish plumbing registration.
- (2) Current parish mechanical registration.

- (3) Current state liquefied petroleum gas commission license.
- (4) Current certification of resident contractor status.
(Code 1998, app. D, § 202.3)

Sec. 105-518. Mechanical registration requirements.

Any person may apply for a mechanical registration who meets the following requirements:

- (1) Current state mechanical license.
- (2) Current certification of resident contractor status.
(Code 1998, app. D, § 202.4)

Sec. 105-519. Plumbing registration requirements.

Any person may apply for a plumbing registration who meets the following requirements:

- (1) Current state plumbing license.
- (2) Current certification of resident contractor status.
(Code 1998, app. D, § 202.5)

Secs. 105-520—105-546. Reserved.

DIVISION 3. EXCEPTIONS

Sec. 105-547. Registration prior to May 21, 1998.

Any person having a valid parish electrical, mechanical or gas contractor's registration prior to May 21, 1998 are exempt from the parish's requirements of a state license, providing the registration has not lapsed.
(Code 1998, app. D, § 203.1)

Sec. 105-548. Homeowners' clause.

Whenever the owner of a single-family dwelling builds, repairs or remodels their own personal residence without the benefit of a general contractor, subcontractor, architect, or engineer or any other individual who receives a fee for employment or direction of any labor or any work beyond the normal architectural or engineering services, with the intent to occupy such as a primary residence, and provided the homeowner does not build more than one personal residence in a two year period, the director shall have the authority waive the registration provisions of this Code.
(Code 1998, app. D, § 203.2)

Sec. 105-549. Agricultural buildings.

Agricultural buildings located in applicably zoned areas, which do not have habitable spaces, shall be exempt from building inspections. Permits and inspections shall be required when electrical, mechanical, plumbing and gas systems are installed. When an owner subcontracts any work on electrical, mechanical, plumbing or gas systems, the subcontractor must possess a current registration with the parish.

(Code 1998, app. D, § 203.2.3)

Sec. 105-550. Owner acting as contractor.

Owners of property who supervise, superintend, oversee, direct or in any manner assume charge of the construction, alteration, repair, improvement, movement demolition, putting up, tearing down, of their personal residence, building or structure or to erect, install, enlarge, alter, remove, convert, or replace any electrical, gas, mechanical, or plumbing system, the installation of which is regulated by the technical codes, shall first make application to the director for a waiver of contractor requirements. Testing shall be required to substantiate the owners' qualifications to do electrical and mechanical work. The owner shall be required to file for all permits, request all inspections, the work of which shall be in compliance with all the provisions of this Code, inspected and approved in the usual manner.

(Code 1998, app. D, § 203.3)

Sec. 105-551. Portable accessory structures under 200 square feet.

Parish registration is not required for a builder who constructs a residential accessory structure under 200 square feet, that is designed and built to be a portable unit and not affixed to a permanent foundation. All necessary permits are required for the structure, and for any electrical, mechanical or plumbing systems that may be installed. All work shall be in compliance with all provisions of this Code, inspected and approved in the usual manner. When an owner subcontracts any work on electrical, mechanical, plumbing or gas systems, the subcontractor must possess a current registration with the parish.

(Code 1998, app. D, § 203.4)

Secs. 105-552—105-580. Reserved.**DIVISION 4. REVOCATION****Sec. 105-581. Revocation of parish registrations.**

Any parish registration granted under this section may be suspended or revoked by the director, if the holder or the registration violates any ordinance or law relating to the technical codes or is guilty of construction which is dangerous to life or property, or for transferring or allowing directly or indirectly, firms or persons or corporations other than the lawful holder to

operate, or to obtain permits to work under said registrations, provided the holder of the registration be found guilty of such violations. Appeals may be filed within ten days to the board of standards and appeals, upon recommendation of the director. All appeals to the board of standards and appeals must be submitted with any fees associated with the appeals filing.

(Code 1998, app. D, § 204.1)

Secs. 105-582—105-610. Reserved.

ARTICLE VII. BOARDS

DIVISION 1. GENERALLY

Sec. 105-611. Scope.

Building, electrical, mechanical and plumbing (gas) boards are established for the purpose of communication between inspectors and contractors. Quarterly scheduled meetings may be held for this purpose.

(Code 1998, app. D, § 301.1)

Secs. 105-612—105-640. Reserved.

DIVISION 2. BUILDING BOARD

Sec. 105-641. Appointment.

There is hereby established a board to be called the board of building construction, which shall consist of eight members and two alternates. Six members and two alternates appointed by the parish council and one member appointed by the parish president, all of whom shall be residents of the parish.

(Code 1998, app. D, § 302.1)

Sec. 105-642. Membership.

The board should consist of eight members. Such board members should be composed of individuals with knowledge and experience in the technical codes, such as design professionals, contractors or building industry representatives. In addition to the regular members, there should be two alternate members, one member at large from the building industry and one member at large from the public. A board member shall not act in a case in which he has a personal or financial interest. The criteria for a building professional are any individual who is

a resident and registered voter in the parish; and has experience and/or knowledge of building construction. The domicile used for such building professionals shall be the physical location of their primary residence.

(Code 1998, app. D, § 302.2)

Sec. 105-643. Terms.

(a) The director shall serve on the board for the length of his employment. The terms are to coincide with those of the parish council/parish president, with the exception of the parish employee who serves until termination of employment. Any member may, per cause, be removed from office at any time by the said governing authority. Whenever any member shall cease to be a resident of the parish, his membership shall automatically be terminated. Vacancies shall be filled by the parish council. A chairperson will be elected by the board each year.

(b) Secretary of board. The director shall act as secretary of the board and shall make or cause to be made a detailed record of all its proceedings.

(Code 1998, app. D, § 302.3)

Secs. 105-644—105-674. Reserved.

DIVISION 3. ELECTRICAL BOARD

Sec. 105-675. Appointment.

There is hereby established an electrical board which shall consist of five members: one chief electrical inspector, three parish registered electrical contractors and one licensed electrical engineer. Four members appointed by parish council and one member appointed by the parish president, all of whom shall be residents of the parish.

(Code 1998, app. D, § 303.1)

Sec. 105-676. Terms.

The chief electrical inspector shall serve on the board for the length of his employment. The terms are to coincide with those of the parish council/parish president, with the exception of the parish employee who serves until termination of employment. Any member may, per cause, be removed from office at any time by the said governing authority. Whenever any member shall cease to be a resident of the parish, his membership shall automatically be terminated. Vacancies shall be filled by the parish council.

(Code 1998, app. D, § 303.2)

Secs. 105-677—105-695. Reserved.

DIVISION 4. MECHANICAL BOARD

Sec. 105-696. Appointment.

There is hereby established a mechanical board which shall consist of five members: one chief mechanical inspector, three parish registered mechanical contractors and one licensed mechanical engineer. Four members are appointed by parish council and one member is appointed by the parish president, all of whom shall be residents of the parish.

(Code 1998, app. D, § 304.1)

Sec. 105-697. Terms.

The chief mechanical inspector shall serve on the board for the length of his employment. The terms are to coincide with those of the parish council/parish president, with the exception of the parish employee who serves until termination of employment. Any member may, per cause, be removed from office at any time by the said governing authority. Whenever any member shall cease to be a resident of the parish, his membership shall automatically be terminated. Vacancies shall be filled by the parish council.

(Code 1998, app. D, § 304.2)

Secs. 105-698—105-722. Reserved.

DIVISION 5. PLUMBING/GAS BOARD

Sec. 105-723. Appointment.

There is hereby established plumbing board which shall consist of five members; one chief plumbing inspector, one journeyman plumber, two master plumbers, and one allied plumbing, gas or engineering trade or professional. Four members are appointed by parish council and one member is appointed by the parish president, all of whom shall be residents of the parish.

(Code 1998, app. D, § 305.1)

Sec. 105-724. Terms.

The chief plumbing inspector shall serve on the board for the length of his employment. The terms are to coincide with those of the parish council/parish president, with the exception of the parish employee who serves until termination of employment. Any member may, per cause, be removed from office at any time by the said governing authority. Whenever any member shall cease to be a resident of the parish, his membership shall automatically be terminated. Vacancies shall be filled by the parish council.

(Code 1998, app. D, § 305.2)

Secs. 105-725—105-746. Reserved.

ARTICLE VIII. FINES**Sec. 105-747. Occupying without certificate of occupancy.**

The contractor of record shall be subject to a daily fine of \$100.00 for each day until compliance stop work orders shall be issued on all active permits until compliance is achieved. (Code 1998, app. D, § 401)

Sec. 105-748. Pouring foundations without approved inspections.

(a) First offense—\$500.00.

(b) Second offense—\$1,000.00 and/or removal of foundation.

(c) Stop work orders shall be issued on all active permits until compliance is achieved. This offense shall also require a sworn affidavit from an architect or engineer, legally registered under the laws of this state regulating the practice of architecture or engineering, stating that the foundation poured without inspection conforms to the requirements of the technical codes as to strength, stresses, strains, loads and stability. The architect or engineer shall assume full responsibility for the compliance with all provisions of the technical codes and other pertinent laws or ordinances.

(Code 1998, app. D, § 402)

Sec. 105-749. Failure to provide sanitary facilities on job site.

The contractor of record shall be subject to a daily fine of \$50.00 for each day until compliance stop work orders shall be issued on all active permits until compliance is achieved. (Code 1998, app. D, § 403)

Secs. 105-750—105-766. Reserved.

ARTICLE IX. MUNICIPAL ADDRESSING**Sec. 105-767. Required.**

It is hereby required that each and every property holder identify the physical location of any and all residential, commercial and industrial structures by obtaining a municipal address for each such structure from the parish governing authority. Thereafter, it is the responsibility of each property holder to purchase and affix numbers in a visible location on every residential, commercial or industrial building belonging to him.

(Code 1998, § 15-980.00; Ord. No. 99-3033, 3-18-1999)

Sec. 105-768. Numbering.

Municipal numbers shall be composed of individual Arabic digits, not less than a minimum height of four inches each, to be posted on the building or structure in such a manner as to be read from the street, road or public right-of-way. If the building is not visible from the roadway, the mailbox or other means for visible posting must be numbered. With respect to apartments, all apartment complexes must have approved numbers, plus numbers or letters on each individual door of the complex.

(Code 1998, § 15-981.00; Ord. No. 99-3033, 3-18-1999)

Sec. 105-769. New construction/building permit.

With regard to new construction, expansion or renovation, no building permit shall be granted until a municipal address has been assigned to the property and numbers must be posted prior to issuance of a final inspection approval.

(Code 1998, § 15-982.00; Ord. No. 99-3033, 3-18-1999)

Sec. 105-770. Prohibited.

The installation and/or placement of municipal addresses within parish rights-of-way is hereby prohibited.

(Code 1998, § 15-983.00; Ord. No. 99-3033, 3-18-1999)

COASTAL ZONE MANAGEMENT REGULATIONS*

- Sec. 110-1. General provisions.
- Sec. 110-2. Definitions.
- Sec. 110-3. Administration and enforcement.
- Sec. 110-4. Permit for uses of state concern.
- Sec. 110-5. Nonconforming use and maintenance.
- Sec. 110-6. Scope of coverage.

***State law reference**—State and Local Coastal Resources Management Act of 1978, R.S. 49:214.21 et seq.

PRE-PRESS COPY

Sec. 110-1. General provisions.

(a) *Title.* This chapter shall hereafter be known, and cited as the "St. Tammany Parish Coastal Zone Management Ordinance" (hereinafter referred to as this chapter).

(b) *Purpose.* The principal purpose of this regulation is to provide the authorities and procedures for implementing a unified coastal use permitting process. This regulation is based upon the policies, guidelines and procedures set forth in Act 361 of the Louisiana Legislature, in the Final Environmental Impact Statement of the Louisiana Coastal Resources Program, and the parish coastal zone management plan. This regulation provides procedures for local government determination of what activities require a coastal use permit, whether the activity is a use of state or local concern, and the process for issuance, denial, modification, suspension and/or revocation of coastal use permits and general coastal use permits for uses of local concern in the parish.

(Code 1998, app. F, § 1)

Sec. 110-2. Definitions.

(a) *Usage.*

- (1) For the purposes of this chapter, certain words, terms, numbers, and abbreviations used herein shall be used, interpreted and defined, as set forth in this subsection.
- (2) Unless specifically defined in this section, words or phrases used in this chapter shall be interpreted to give them the meaning they have in common usage and to give this chapter its most reasonable application.
- (3) Words used in the present tense include the future tense; words used in the singular number include the plural, and the plural number includes the singular; the word "shall" is always mandatory; and the word "herein" means "in this chapter".

(b) *Words and terms defined.*

Activity means and includes any and all lawful acts, projects, uses, developments and construction; public or private; industrial, commercial, residential, or recreational; for profit or not for profit. The term "activity" includes both the act of doing and the completed product.

After-the fact permit means a coastal use permit which is issued after the commencement of a use. Such a permit may only be issued after all legal issues resulting from the commencement of a use without a coastal use permit have been resolved.

Alterations of waters draining in coastal waters means those uses or activities that would alter, change, or introduce polluting substances into runoff and thereby modify the quality of coastal waters. Examples include water control impoundments, upland and water management programs, and drainage projects from urban, agricultural and industrial developments.

Alternative access means methods of gaining access, ingress, and egress, other than by the dredging of canals into the wetlands for drilling, servicing, work over, or any other production of minerals activity.

Alternative access vehicle means any hover craft, helicopter, air cushion vehicle, or any other vehicle which does not require dredging.

Applicant means the owner of the property for which a CUP is requested or his agent; or someone specifically authorized in writing by owner to make application in connection with the proposed purchase, lease or development of owner's property.

Approved local program means a local coastal management program which has been and continues to be approved by the secretary pursuant to section 214.28 of the Act.

Best practical techniques means those methods or techniques which would result in the greatest possible minimization of the adverse impacts listed in guideline 1.7 above, and in specific guidelines applicable to the proposed use. Those methods or techniques shall be the best methods or techniques which are in use in the industry or trade or among practitioners of the use, and which are feasible and practical for utilization.

Coastal use permit or *CUP* means the permits required by R.S. 49:214.30 and shall not mean or refer to, and shall be in addition to, any other permit or approval required or established pursuant to any other constitutional provision or statute.

Coastal water means bays, lakes, inlets, estuaries, rivers, bayous, and other bodies of water within the boundaries of the coastal zone which have measurable seawater content (under normal weather conditions over a period of years).

Coastal water dependent uses means those which must be carried out on, in or adjacent to coastal water areas or wetlands because the use requires access to the water body or wetland or requires the consumption, harvesting or other direct use of coastal resources, or requires the use of coastal water in the manufacturing or transportation of goods. Examples include surface and subsurface mineral extraction, fishing, ports and necessary supporting commercial and industrial facilities, facilities for the construction, repair and maintenance of vessels, navigation projects, and fishery processing plants.

Coastal zone means the coastal waters and adjacent shorelands within the boundaries of the coastal zone established in R.S. 49:214.24, which are strongly influenced by each other, and in proximity of the shorelines and uses of which have a direct and significant impact on coastal waters.

Coastal zone management plan means the goals, objectives and policies set forth in the document prepared by Rod E. Emmer, Ph.D in cooperation with the parish department of planning and development, Gibb Farrish, director of department of planning and development, entitled St. Tammany Parish Local Coastal Zone Program, Volume 1, dated May, 1992.

Contaminant means an element causing pollution of the environment that would have detrimental effects on air or water quality or on native floral or faunal species.

Cumulative impacts means impacts increasing in significance due to the collective effects of a number of activities.

Department means the department of natural resources.

Development levees means those levees and associated water control structures whose purpose is to allow control of water levels within the area enclosed by the levees to facilitate drainage or development within the leveed areas. Such levee systems also commonly serve for hurricane or flood protection, but are not so defined for purposes of these guidelines.

Direct and significant impact means an impact which is a direct and significant modification or alteration in the physical or biological characteristics of coastal waters which results from an action or series of actions caused by man.

Endangered species means any species which is in danger of extinction throughout all or a significant portion of its range.

Environmental assessment data form means the form prepared and distributed by the parish department of planning and development for the purpose of obtaining environmental information and data.

Environmental management unit means an area which is distinguished by certain common physical and cultural characteristics, such as geology, vegetation, drainage patterns, and uses. Each of these EMUs can be considered individually when setting goals, objectives and policies for planning, management, and regulatory functions.

Exempted use means any use specifically listed in this chapter as a use not requiring a coastal use permit.

Existing, as applied to any use, structure, or development, includes the words existing on the effective date of the ordinance from which this chapter is derived.

Expectable adverse conditions means natural or manmade hazardous conditions which can be expected or predicted to occur at regular intervals. Included are such events as 125 mile per hour hurricanes and associated tides, 100 year floods and reasonably probable accidents.

Fastlands are lands surrounded by publicly-owned, maintained, or otherwise valid existing levees, or natural formations, as of January 1, 1979, or as may be lawfully constructed in the future; which levees or natural formations would normally prevent activities, not to include the pumping of water for drainage purposes, within the surrounded area from having direct and significant impacts on coastal waters.

Feasible and practical means those locations, methods and/or practices which are of established usefulness and efficiency and allow the use or activity to be carried out successfully.

Governmental body means any public department, agency, bureau, authority, or subdivision of the government of the United States or the state and shall include parishes and municipalities and subdivisions thereof and those governmental agencies constitutionally established.

Guidelines means those rules and regulations adopted pursuant to R.S. 49:214.27, as set forth in volume 17, title 43, part I, chapters 7 and 8, inclusive of the Louisiana Administrative Code, as same may be amended from time to time.

Habitat means the natural environment where a plant or animal population lives.

Hurricane or flood protection levees means those levees and associated water control structures whose primary purpose is to prevent occasional surges of flood or storm generated high water. Such levee systems do not include those built to permit drainage or development of enclosed wetland areas.

Hydrologic and sediment transport modifications means those uses and activities intended to change water circulation, direction of flow, velocity, level, or quality or quantity of transported sediment. Examples include locks, water gates, impoundments, jetties, groins, fixed and variable weirs, dams, diversion pipes, siphons, canals, and surface water and groundwater withdrawals.

Impoundment levees means those levees and associated water control structures whose primary purpose is to contain water within the levee system either for the prevention of the release of pollutants, to create fresh water reservoirs, or for management of fish or wildlife resources.

Infrastructure means those systems which provide needed support for human social institutions and developments, including transportation systems, public utilities, water and sewerage systems, communications, educational facilities, health services, law enforcement and emergency preparedness.

In-lieu permit means those permits issued in-lieu of coastal use permits pursuant to section 214.31 of the SLCRMA.

Interested person means the applicant, adjoining property owners as listed on the application submitted for the CUP, parish council member of the district and EMU where the property which is the subject of the permit application is located, and any person who identifies himself in writing to the LCP administrator as a party specifically affected by the proposed activity.

Levees means any use or activity which creates an embankment to control or prevent water movement, to retain water or other material, or to raise a road or other lineal use above normal or floodwater levels. Examples include levees, dikes and embankments of any sort.

Linear facilities means those uses and activities which result in creation of structures or works which are primarily linear in nature. Examples include pipelines, roads, canals, channels, and powerlines.

Local coastal program administrator or LCP administrator means the professional within the parish department of planning and development who is responsible for the administration of this chapter and the local coastal zone management plan.

Local coastal program advisory committee or LCP advisory committee means a committee of not more than nine individuals, each of whom shall be appointed and who represent users of coastal resources and shall include representation of users concerned with conservation and preservation of renewable coastal resources and users concerned with development of resources for commercial purposes. The LCP advisory committee shall assist the LCP administrator and shall coordinate actions and activities with the department of planning and development director and the LCP administrator.

Local coastal use permit or LCUP means the coastal use permit issued by the parish for uses of local concern.

Local government means the parish police jury, or its successor.

Local program. See *Approved local program*.

Marsh means wetlands subject to frequent inundation in which the dominant vegetation consists of reed, sedges, grasses, cattails, and other low growth.

Minerals means oil, gas sulfur, geothermal, geopressured, salt, or other naturally occurring energy or chemical resources which are produced from below the surface in the coastal zone. Not included are such surface resources as clam or oyster shells, dirt, sand, or gravel.

Oil, gas and other mineral activities means those uses and activities which are directly involved in the exploration, production, and refining of oil, gas and other minerals. Examples include geophysical surveying, establishment of drill sites and access to them, drilling, on site storage of supplies, products and waste materials, production, refining, and spill cleanup.

Particular areas means areas within the coastal zone of a parish with an approved local program which have a unique and valuable characteristics requiring special management procedures. Such areas shall be identified, designated, and managed by the local government following procedures consistent with those for special areas.

Permit means a coastal use permit, or an in-lieu permit.

Permitting body means either the department of natural resources or the parish police jury, or its successor.

Person means any individual, partnership, association, trust, corporation, public agency or authority, or state or local government body.

Plan means the coastal vegetated wetlands conservation and restoration plan provided for in R.S. 49:213.6.

Program means the coastal vegetated wetlands conservation and restoration provided for in R.S. 49:214 (subpart B).

Public hearing, wherever required in this chapter, shall be a hearing announced to the public at least 30 days in advance, and at which all interested persons shall be afforded a reasonable opportunity to submit data, views, or arguments orally or in writing. At the time of the announcement of the public hearing all materials pertinent to the hearing, including documents, studies, and other data in the possession of the party calling the hearing, shall be made available to the public for review and study. As similar materials are subsequently developed, they shall be made available to the public as they become available to the party which conducted the hearing. Not included in this definition is a hearing on an appeal, which shall be covered by other provisions of this chapter.

Radioactive wastes means wastes containing source, special nuclear, or by-product material as defined by the Atomic Energy Act of 1954, as amended (68 Stat. 923).

Residential coastal use means any coastal use associated with the construction or modification of one single-family, duplex, or triplex residence or camp. It shall also include the construction or modification to any outbuilding, bulkhead, pier, or appurtenance on a lot on which there exists a single-family, duplex, or triplex residence or camp or on a water body which is immediately adjacent to such lot.

Secretary means the secretary of the department of natural resources or his designee.

Sediment deposition systems means controlled diversions of sediment-laden water in order to initiate land building or sediment nourishment or to minimize undesirable deposition of sediment to navigation channels or habitat areas. Typical activities include diversion channels, jetties, groins or sediment pumps.

Shoreline modifications means those uses and activities planned or constructed with the intention or directly or indirectly changing or preventing change of a shoreline. Examples include bulkheading, piers, docks, wharves, slips and short canals, and jetties.

Significant public opposition means opposition evidenced by a written petition signed by not less than 50 registered voters of the parish and submitted to the LCP administrator within 30 days after publication of the notice of application.

SLCRMA means the State and Local Coastal Resources Management Act of 1978, Act 361 of 1978, as amended, R.S. 49:214.21—49:214.40.

Spoil deposition means the deposition of any excavated or dredged material.

State director means the director of coastal management division, the state department of natural resources.

Subdivision means a portion or parcel of land that is to be sold, leased or rented, or offered for sale, lease or rent, in small portions or lots, for the purpose of future development for

residential or commercial occupancy which portions or lots are, or are to be, identified either by numbers or letters or by metes and bounds; whether or not such portions or lots are in detail delineated on a plan of such subdivision.

Surface alterations means those uses and activities which change the surface or usability of a land area or water bottom. Examples include fill deposition, land reclamation, beach nourishment, dredging (primarily areal), clearing, draining, surface mining, construction and operation of transporations (sic), mineral, energy and industrial facilities, and industrial, commercial and urban developments.

Toxic substances means those substances which, by their chemical, biological, or radioactive properties, have the potential to endanger human health or other living organisms or ecosystems, by means of acute or chronic adverse effects, including poisoning, mutagenic, tetratrogenic, or carcinogenic effect.

Uplands means lands of five feet or more above sea level, fastlands, or all lands outside the coastal zone.

Use means any use or activity within the coastal zone which has a direct and significant impact on coastal waters.

Uses of local concern means those uses defined and listed in R.S. 49:214.25(A)(2) which directly and significantly affect coastal waters and are in need of coastal management but are not uses of state concern and which should be regulated primarily at the local level in accordance with this chapter.

Waste means any material for which no use or reuse is intended and which is to be discarded.

Waste disposal means those uses and activities which involve the collections, storage and discarding or disposing of any solid or liquid material. Examples include littering; landfill; open dumping; incineration; industrial waste treatment facilities; sewerage treatment; storage in pits, ponds or lagoons; ocean dumping and subsurface disposal.

Water or marsh management plan means a systematic development and control plan to improve and increase biological productivity, or to minimize land loss, saltwater intrusion, erosion or other such environmental problems, or to enhance recreation.

Wetlands means an open water area or an area that is inundated or saturated by surface water or groundwater at a frequency and duration sufficient to support, and that under normal circumstances does support, a prevalence of vegetation typically adapted for life in saturated soil conditions, but specifically excluding fastlands and lands more than five feet above mean sea level which occur within the designated coastal zone of the state. Wetlands generally include swamps, marshes, bogs, and similar areas.

(c) *Area normally subject to permitting.* In the parish, the entire coastal zone will be subject to coastal use permitting.

(d) *Types of uses.* Uses of the coastal zone subject to the coastal use permitting program shall be of two types:

- (1) *Uses of state concern.* Those uses, more specifically defined and listed in R.S. 49:214.25(A)(1), which directly and significantly affect coastal waters and which are in need of coastal management and which have impacts of greater than local significance or which significantly affect interests of regional, state, or national concern. Uses of state concern shall include, but not be limited to:
 - a. Any dredge or fill activity which intersects with more than one water body;
 - b. Projects involving use of state-owned lands or water bottoms;
 - c. State publicly-funded projects;
 - d. National interest projects;
 - e. Projects occurring in more than one parish;
 - f. All mineral activities, including exploration for, and production of, oil, gas, and other minerals, all dredge and fill uses associated therewith and all other associated uses;
 - g. All pipelines for the gathering, transportation, or transmission of oil, gas, and other minerals;
 - h. Energy facility citing and development; and
 - i. Uses of local concern which may significantly affect interests of regional, state, or national concern.
- (2) *Uses of local concern.* Those uses, more specifically defined and listed in R.S. 49:214.25(A)(2), which directly and significantly affect coastal waters and are in need of coastal management, but are not uses of state concern, and which should be regulated by local government. Uses of local concern shall include, but not be limited to:
 - a. Privately-funded projects which are not uses of state concern;
 - b. Publicly-funded projects which are not uses of state concern;
 - c. Maintenance of uses of local concern;
 - d. Jetties or breakwaters;
 - e. Dredge or fill projects not intersecting more than one water body;
 - f. Bulkheads;
 - g. Piers;
 - h. Camps and cattlewalks;
 - i. Maintenance dredging;
 - j. Private water control structures of less than \$15,000.00 in cost; and

- k. Uses on cheniers, salt domes, or similar land forms.

(e) *Activities not requiring a coastal use permit.*

(1) *General.*

- a. The following activities normally do not have direct and significant impacts on coastal waters; hence, a coastal use permit is not required, except as set forth in the following causes:
 - 1. Agricultural, forestry, and aquaculture activities on lands consistently used in the past for such activities; however, alternative oyster culture activities permitted pursuant to R.S. 56:431.2 shall be subject to coastal use permit requirements unless, after June 30, 2015, the secretary determines that these uses are exempt from coastal use permit requirements.
 - 2. Hunting, fishing, trapping, and the preservation of scenic, historic, and scientific areas and wildlife preserves.
 - 3. Normal maintenance or repair of existing structures including but not limited to emergency repairs of damage caused by accident, fire, or the elements.
 - 4. Construction of a residence or camp.
 - 5. Construction and modification of navigational aids such as channel markers and anchor buoys.
 - 6. Activities which do not have a direct and significant impact on coastal waters.
 - 7. Activities occurring wholly on lands five feet or more above mean sea level except when the secretary finds, subject to appeal, that the particular activity would have direct and significant impact on coastal waters.
 - 8. Activities occurring within fastlands except when the secretary finds, subject to appeal, that the particular activity would have direct and significant impacts on coastal waters.
 - 9. Uses and activities within the special area established in R.S. 49:214.29(C) which have been permitted by the offshore terminal authority in keeping with its environmental protection plan.
- b. Uses and activities within the special area established by R.S. 49:214.29(C) which have been permitted by the offshore terminal authority in keeping with its environmental protection plan shall not require a coastal use permit.

(2) *Activities on lands five feet or more above sea level or within fastlands.*

- a. Activities occurring wholly on lands five feet or more above sea level or within fastlands do not normally have direct and significant impacts on coastal waters. Consequently, a coastal use permit for such uses generally need not be applied for.

- b. However, if a proposed activity exempted from permitting in subsection (2)a. of this section, will result in discharges into coastal waters, or significantly change existing water flow into coastal waters, then the person proposing the activity shall notify the LCP administrator or the secretary and provide such information regarding the proposed activity as may be required by the LCP administrator or the secretary in deciding whether the activity is a use subject to a coastal permit.
 - c. Should it be found that a particular activity exempted by subsection (2)a. of this section, may have a direct and significant impact on coastal waters, the LCP administrator or department may conduct such investigation as may be appropriate to ascertain the facts and may require the persons conducting such activity to provide appropriate factual information regarding the activity so that a determination may be made as to whether the activity is a use subject to a permit.
 - d. The LCP administrator or the secretary shall determine whether a coastal use permit is required for a particular activity. A coastal use permit will be required only for those elements of the activity which have direct and significant impacts on coastal waters.
 - e. The exemption described in this section shall not refer to activities occurring on cheniers, salt domes, barrier islands, beaches and similar isolated, raised land forms in the coastal zone. It does refer to natural ridges and levees.
- (3) *Emergency uses.*
- a. Coastal use permits are not required in advance for conducting uses necessary to correct emergency situations.
 - 1. Emergency situations are those brought about by natural or manmade causes, such as storms, floods, fires, wrecks, explosions, spills, which would result in hazard to life, loss of property, or damage to the environment if immediate corrective action were not taken.
 - 2. This exemption applies only to those corrective actions which are immediately required for the protection of lives, property or the environment necessitated by the emergency situation.
 - b. Prior to undertaking such emergency uses, or as soon as possible thereafter, the person carrying out the use shall notify the secretary and the LCP administrator, and give a brief description of the emergency use and the necessity for carrying it out without a coastal use permit.
 - c. As soon as possible after the emergency situation arises, any person who has conducted an emergency use shall report on the emergency use to the LCP administrator or the secretary. A determination shall be made as to whether the emergency use will continue to have direct and significant impacts on coastal waters. If so, the user shall apply for an after-the-fact permit. The removal of any

structure or works occasioned by the emergency and the restoration of the condition existing prior to the emergency use may be ordered if the permit is denied in whole or in part.

(4) *Normal maintenance and repair.*

- a. Normal repairs and the rehabilitation, replacement, or maintenance of existing structures shall not require a coastal use permit provided that:
 1. The structure or work was lawfully in existence, currently serviceable, and in active use during the year preceding the repair, replacement or maintenance;
 2. The repair or maintenance does not result in an encroachment into a wetland area greater than that of the previous structure or work;
 3. The repair or maintenance does not involve dredge or fill activities; and
 4. The repair or maintenance does not result in a structure or facility that is significantly different in magnitude or function from the original.
- b. This exemption shall not apply to the repair or maintenance of any structure or facility built or maintained in violation of the coastal management program.
- c. Coastal use permits will normally authorize periodic maintenance including maintenance dredging. All maintenance activities authorized by coastal use permits shall be conducted pursuant to the conditional established for that permit. Where maintenance is performed which is not described in an applicable coastal use permit, it shall conform to this section.

(5) *Construction of a residence or camp.*

- a. The construction of a residence or a camp shall not require a coastal use permit provided that:
 1. The terms shall refer solely to structures used for noncommercial and nonprofit purposes and which are commonly referred to as "single-family" and not multiple-family dwellings.
 2. The terms shall refer solely to the construction of one such structure by or for the owner of the land for the owner's use and not to practices involving the building of more than one such structure as in subdividing, tract development, speculative building, or recreational community development.
- b. The exemption shall apply only to the construction of the structure and appurtenances such as septic fields, out buildings, walkways, gazebos, small wharves, landings, boathouses, private driveways, and similar works, but not to any bulkheading or any dredging or filling activity except for small amounts of fill necessary for the structure itself and for the installation and maintenance of septic or sewerage facilities.

(6) *Navigational aids.*

- a. The construction and modification of navigational aids shall not require a coastal use permit.
- b. The term "navigational aids" shall include channel markers, buoys, marker piles, dolphins, piling, pile clusters, etc., provided that the exemption does not apply to associated dredge or fill uses or the construction of mooring structures, advertising signs, platforms, or similar structures associated with such facilities. All navigational aids constructed pursuant to this section shall conform to United States Coast Guard standards and requirements.

(7) *Agricultural, forestry and aquaculture activities.*

- a. Agricultural, forestry and aquacultural activities on lands consistently used in the past for such activities shall not require a coastal use permit provided that:
 1. The activity is located on lands or in waters which have been used on an ongoing basis for such purposes, consistent with normal practices, prior to the effective date of the Act 361 of 1978, January 1, 1979;
 2. The activity does not require a permit from the U.S. Army Corps of Engineers and meets federal requirements for such exempted activities; and
 3. The activity is not intended to, nor will it result in, changing the agricultural, forestry, or aquacultural use for which the land has been consistently used for in the past to another use.
- b. The exemption includes but is not limited to normal agricultural, forestry and aquacultural activities such as plowing; seeding; grazing; cultivating; insect control; fence building and repair; thinning; harvesting for the production of food, fiber and forest products; maintenance and drainage of existing farm, stock or fish ponds; digging of small drainage ditches; or maintenance of existing drainage ditches and farm or forest roads carried out in accordance with good management practices.

(8) *Blanket exemption.*

- a. No use or activity shall require a coastal use permit if:
 1. The use or activity was lawfully commenced or established prior to the implementation of the coastal use permit process, October 1, 1980;
 2. The secretary determines that it does not have a direct or significant impact on coastal waters; or
 3. The LCP administrator or the secretary determines one is not required pursuant to section 725.G of these rules (LAC 43:I.725.G).

(Code 1998, app. F, § 2)

Sec. 110-3. Administration and enforcement.

(a) *Designation and powers of the local coastal program administrator and local coastal program advisory committee.*

- (1) The parish president shall appoint a local coastal program administrator (LCP administrator) within the department of planning and development and under the director of the department of planning and development.
- (2) The LCP administrator shall have the following enumerated powers:
 - a. To issue, deny or modify permits for uses of local concern;
 - b. To conduct any investigations he deems necessary to comply with the purpose of this chapter; and
 - c. To inspect and/or investigate conditions relating to this chapter in cooperation with the parish administration.
- (3) It shall be the duty of the LCP administrator to implement this chapter. It shall also be the duty of all officers and employees of the parish to assist the LCP administrator in the implementation of this article.
- (4) The advisory committee may be appointed according to Ordinance No. 00-0157 and shall consist of no more than nine members who represent users of coastal resources and shall include representation of users concerned with conservation and preservation of renewable coastal resources and users concerned with development of resources for commercial purposes.
- (5) The LCP advisory committee shall assist the LCP administrator and shall coordinate actions and activities with the department of planning and development director and the LCP administrator.

(b) *Coastal use permit requirements.* Any person seeking to commence any use not specifically exempted by section 110-2(e), within the parish coastal zone must first obtain a local coastal use permit (LCUP).

(c) *Permit application procedure; application fees, reports on decisions.*

- (1) All applications shall be made on the form(s) prescribed by the secretary on hand at the office of the LCP administrator.
- (2) All applications shall be submitted to the LCP administrator through the department of planning and development or directly to the state department of natural resources, coastal management division in Baton Rouge. No application will be reviewed until all required supportive information as specified in this chapter is attached.

- (3) All applications of local concern shall be accompanied by:
 - a. An application fee of \$50.00 or, if the application is for an after the fact permit, an application fee of \$550.00.
 - b. All information currently required by the coastal management division of the department of natural resources, including, but not limited to, the following:
 1. Maps showing the actual location, size, and dimensions of the real property to be used;
 2. Plans showing the exact location, size, and height of the buildings or structures to be developed;
 3. A list of all applications, approvals, and/or denials already made concerning the development to/by federal, state, or local agencies;
 4. A description of the extent to which any watercourse or natural drainage will be altered or relocated as a result of the proposed activity; and
 5. If the development involves dredging, a description of:
 - (i) The type, composition and quantity of material to be dredged;
 - (ii) The method of dredging; and
 - (iii) The site of the plans for the disposal of the dredged material.
- (4) The parish shall submit to the state director and make available to the public an annual written report within 30 days of the close of the calendar year. This report shall contain a list of the number, type (local or state concern), habitat (marsh type, etc.), frequency (number of applications per month), and the decision on all permit applications.
- (d) *Permit procedure; administrative action.*
 - (1) When an application for a permit is received, the LCP administrator shall immediately assign it a number for identification, acknowledge receipt thereof, and advise the applicant of the number assigned to it.
 - (2) All applications shall be submitted to the LCP administrator through the department of planning and development or directly to the state coastal management division in Baton Rouge. No application will be reviewed unless all required supportive information as outlined in this article is attached.
 - (3) Upon receipt of an application by the LCP administrator, a determination will be made as to whether the application is for a use of local concern or a use of state concern. This determination shall be based on the criteria set forth in the State and Local Coastal Control Resource Management Act (SLCRMA), the state regulations and herein. The initial determination is made by the LCP administrator and a brief written explanation of the rationale behind it shall be forwarded to the state director in Baton Rouge within two working days of receipt of the application. The state director shall review the

determination and rationale and shall let the decision of the LCP administrator stand or reverse it. If the state director reverses the determination, special notice shall be given to the LCP administrator. Either coastal management division, department of natural resources or LCP administrator, as determined by the state director shall thereafter be responsible for the permit review process for the proposed use. The state director's determination is binding unless, and until, reversed by the secretary of the department of natural resources. The following factors, as reflected in SLCRMA and the regulations, shall be used in making a determination as to whether a use is of local or state concern.

- a. The specific terms of the uses as classified in SLCRMA;
 - b. The relationship of a proposed use to a particular use classified in SLCRMA;
 - c. If a use is not predominantly classified as either state or local by the SLCRMA or the use overlaps two classifications, it shall be a use of local concern unless it:
 1. Is being carried out with state or federal funds;
 2. Involves the use or has significant impacts on state or federal lands, water bottoms or works;
 3. Is mineral or energy production or transportation related;
 4. Involves the use of, or has significant impacts on barrier islands or beaches or any other shoreline which forms part of the baseline for Louisiana's jurisdiction;
 5. Will result in major changes in the quantity or quality of water flow and circulation or salinity or sediment transport regimes;
 6. Has significant inter-parish or interstate impacts.
- (4) If the proposed activity is determined to be of local concern, the appropriate processing procedure provided by state law and regulation and this chapter will be initiated.
- (5) Public notice of all applications for coastal use permits shall be given by:
- a. Mailing a brief description of the application, along with a statement indicating where a copy of the application may be inspected, to any person who has filed a request to be notified of such permit application and to all affected governmental bodies;
 - b. By posting or causing to be posted a copy of the application at the location of the proposed site;
 - c. By sending notice of the application to the media in the parish; and
 - d. By causing the publication of notice of the application in the official journal of the parish.

- (6) Public notice of all applications for coastal use permits of local concern will be issued within ten days of filing of the completed application.
 - (7) The public notice shall state the nature of the proposed project and the location where such work is proposed. Said public notice shall indicate that all interested parties may make comments and/or suggestions to the LCP administrator on said application within 30 days of publication.
 - (8) A copy of the application will be sent to any person requesting it upon payment of a reasonable fee to cover costs of copying, handling, and mailing.
 - (9) The LCP administrator shall consider comments received in response to the public notice in his subsequent actions on the permit application. Comments received will be made a part of the official file on the application. If comments received relate to matters within the special expertise of another governmental body, the LCP administrator may seek advice of that agency. If necessary, the applicant will be given the opportunity to furnish his proposed resolution or rebuttal to all objections from government agencies and other substantive adverse comments before a final decision is made on the application.
 - (10) The decision to approve, approve with modification, or otherwise conditionally approve, or deny the LCUP shall be made within 30 days after a public notice or within 15 days after a public hearing, whichever is the later. Permit and consistency decisions will be based upon the enforceable policies of the parish local coastal program and Louisiana state coastal resources program.
 - (11) The decision to approve, approve with modification, or otherwise conditionally approve, or deny the LCUP shall be in writing and copies of the decision shall be sent to the applicant and all other interested parties.
 - (12) If the final decision is to issue a permit, the LCP administrator shall forward two copies of the draft permit to the applicant for his signature. By signing the permit the applicant signifies his acceptance of the conditions of the permit, as well as the findings on the application. The applicant will return both signed copies to the parish for signature and dating by the LCP administrator.
 - (13) If the final decision is to deny said permit, the LCP administrator shall send the applicant a statement setting forth the reason(s) for denial.
 - (14) The LCP administrator will issue a monthly list of permits issued or denied during the previous month. This list will be distributed to all persons who requested the public notices.
- (e) *Public hearings on permit applications.*
- (1) A public hearing may be held in connection with the consideration of an application for a new permit and when it is proposed that an existing permit be modified or revoked.

- (2) Any person may request in writing within the comment period specified in the public notice that a public hearing be held to consider material matters at issue in a permit application. Upon receipt of any such request, the LCP administrator shall determine whether the issues raised are substantial and there is a valid public interest to be served by holding a public hearing.
 - (3) Public hearing(s) may be appropriate when there is a legislative request; a request from local governments or other local authorities; or in controversial cases involving significant economic, social, or environmental issues. Except as provided in subsection (e)(4) of this section, the LCP administrator has the discretion to require hearings in any particular case. Failure to hold a hearing on an application may not be appealed.
 - (4) A public hearing shall be held when 25 registered voters from within the EMU make written requests within the comment period, or if there is significant public opposition to a proposed use. A public hearing shall also be held if the parish president directs the LCP administrator to do so on a proposed use not normally requiring a hearing or when expressly required by this chapter.
 - (5) If a determination is made, or if it is mandatory to hold a public hearing, the LCP administrator shall promptly notify the applicant, set a time and place for the hearing, and give public notice.
 - (6) Public notice shall be given at least 30 days in advance of any public hearing except that in cases of public necessity a shorter time may be allowed.
 - (7) Notice of the public hearing shall be sent to all persons requesting notices of public hearings and published in the official journal of the parish.
 - (8) The public hearing shall be conducted by the LCP administrator before the LCP advisory committee in accordance with rules of procedure adopted by the LCP administrator for the presentation of information and comment. The hearing shall remain open for a period of ten days after the close of the public hearing for submission of written comments or other material. This time period may be extended by the LCP administrator or parish council if additional important information or data are being prepared and will be submitted.
 - (9) The LCP administrator shall make a decision to grant, deny or grant with modifications the LCUP within 15 days after the public hearing.
 - (10) Notification of the decision to grant, deny, or grant with modification the LCUP shall conform to subsection (d) of this section.
- (f) *Criteria for coastal use permit approval.*
- (1) *General consideration.*
 - a. A local coastal use permit shall be approved by the LCP administrator only after a full and fair consideration of all information contained in the record and after

consultation with the parish planning commission. The decision will be consistent with the SLCRMA, the regulations, the guidelines and the coastal zone management plan; and will represent a balancing of social, environmental and economic factors. The LCP administrator shall prepare a concise and clear statement describing the rationale for the decision and include one copy in the parish records, send one copy to the state director, and one copy to the applicant. This document shall be dated and signed by the LCP administrator.

- b. Activities proposed on or near water bodies shall, to the maximum extent practicable, be water dependent.

(2) *Guidelines from the SLCRMA.*

- a. Guidelines applicable to all uses:
 - 1. The guidelines must be read in their entirety. Any proposed use may be subject to the requirements of more than one guideline or section of guidelines and all applicable guidelines must be complied with. [Guideline 1.1]
 - 2. Conformance with applicable water and air quality laws, standards and regulations, and with those other laws, standards and regulations which have been incorporated into the coastal resources program shall be deemed in conformance with the program except to the extent that these guidelines would impose additional requirements. [Guideline 1.2]
 - 3. The guidelines include both general provisions applicable to all uses and specific provisions applicable to only certain types of uses. The general guidelines apply in all situations. The specific guidelines apply only to the situations they address. Specific and general guidelines should be interpreted to be consistent with each other. In the event there is an inconsistency, the specific should prevail. [Guideline 1.3]
 - 4. These guidelines are not intended to nor shall they be interpreted so as to result in an involuntary acquisition or taking of property. [Guideline 1.4]
 - 5. No use or activity shall be carried out or conducted in such a manner as to constitute a violation of the terms of a grant or donation of any lands or waterbottoms to the state or any subdivision thereof. Revocations of such grants and donations shall be avoided. [Guideline 1.5]
 - 6. Information regarding the following general factors shall be utilized by the permitting authority in evaluating whether the proposed use is in compliance with the guidelines. [Guideline 1.6]
 - (i) Type, nature and location of use.
 - (ii) Elevation, soil and water conditions and flood and storm hazard characteristics of the site.

- (iii) Techniques and materials used in construction, operation and maintenance of the use.
 - (iv) Existing drainage patterns and water regimes of surrounding area including flow, circulation, quality, quantity and salinity; and impacts on them.
 - (v) Availability of feasible alternative sites or methods of implementing the use.
 - (vi) Designation of the area for certain uses as part of a local program.
 - (vii) Economic need for the use and extent of impacts of use on economy of locality.
 - (viii) Extent of resulting public and private benefits.
 - (ix) Extent of coastal water dependency of the use.
 - (x) Existence of necessary infrastructure to support the use and public costs resulting from use.
 - (xi) Extent of impacts on existing and traditional uses of the area and on future uses for which the area is suited.
 - (xii) Proximity to and extent of impacts on important natural features such as beaches, barrier islands, tidal passes, wildlife and aquatic habitats, and forest lands.
 - (xiii) The extent to which regional, state and national interests are served including the national interest in resources and the siting of the facilities in coastal zones as identified in the coastal resources program.
 - (xiv) Proximity to, and extent of impacts on, special areas, particular areas, or other areas of particular concern of the state program or local programs.
 - (xv) Likelihood of, and extent of impacts of, resulting secondary impacts and cumulative impacts.
 - (xvi) Proximity to and extent of impacts on public lands or works, or historic, recreational or cultural resources.
 - (xvii) Extent of impacts on navigation, fishing, public access, and recreational opportunities.
 - (xviii) Extent of compatibility with natural and cultural setting.
 - (xix) Extent of long term benefits or adverse impacts.
7. Is the policy of coastal resources program to avoid the following adverse impacts. To this end, all uses and activities shall be planned, sited, designed, constructed, operated and maintained to avoid to the maximum extent practicable significant. (Guideline 1.7)
- (i) Reductions in the natural supply of sediment and nutrients to the coastal system by alterations of freshwater flow.

- (ii) Adverse economic impacts on the locality of the use and affected governmental bodies.
- (iii) Detrimental discharges of inorganic nutrient compounds into coastal waters.
- (iv) Alterations in the natural concentration of oxygen in coastal waters.
- (v) Destruction or adverse alterations of streams, wetland, tidal passes, inshore waters and waterbottoms, beaches, dunes, barrier islands, and other natural biologically valuable areas or protective coastal features.
- (vi) Adverse disruption of existing social patterns.
- (vii) Alterations of the natural temperature regime of coastal waters.
- (viii) Detrimental changes in existing salinity regimes.
- (ix) Detrimental changes in littoral and sediment transport processes.
- (x) Adverse effects of cumulative impacts.
- (xi) Detrimental discharges of suspended solids into coastal waters, including turbidity resulting from dredging.
- (xii) Reductions or blockage of water flow or natural circulation patterns within or into an estuarine system or a wetland forest.
- (xiii) Discharges of pathogens or toxic substances into coastal waters.
- (xiv) Adverse alteration or destruction of archeological, historical or other cultural resources.
- (xv) Fostering of detrimental secondary impacts in undisturbed or biologically highly productive wetland areas.
- (xvi) Adverse alteration or destruction of unique or valuable habitats, critical habitat for endangered species, important wildlife or fishery breeding or nursery areas, designated wildlife management or sanctuary areas, or forestlands.
- (xvii) Adverse alteration or destruction of public parks, shoreline access points, public works, designated recreation areas, scenic rivers, or other areas of public use or concern.
- (xviii) Adverse disruptions of coastal wildlife and fishery migratory patterns.
- (xix) Land loss, erosion and subsidence.
- (xx) Increases in the potential for flood, hurricane and other storm damage, or increases in the likelihood that damage will occur from such hazards.
- (xxi) Reduction in the long term biological productivity of the coastal ecosystem.

8. In those guidelines in which the modifier "maximum extent practicable" is used, the proposed use is in compliance with the guideline if the standard modified by the term is complied with. If the modified standard is not complied with, the use will be in compliance with the guideline if the permitting authority finds, after a systematic consideration of all pertinent information regarding the use, the site and the impacts of the use as set forth in Guideline 1.6 above, and a balancing of their relative significance, that the benefits resulting from the proposed use would clearly outweigh the adverse impacts resulting from noncompliance with the modified standard and there are no feasible and practical alternative locations, methods and practices for the use that are in compliance with the modified standard and:
 - (i) Significant public benefits will result from the use;
 - (ii) The use would serve important regional, state or national interests, including the national interest in resources and the siting of facilities in the coastal zone identified in the coastal resources program; or
 - (iii) The use is coastal water dependent. The systematic consideration process shall also result in a determination of those conditions necessary for the use to be in compliance with the guideline. Those conditions shall assure that the use is carried out utilizing those locations, methods and practices which maximize conformance to the modified standard; are technically, economically, environmentally, socially and legally feasible and practical; and minimize or offset those adverse impacts listed in Guideline 1.7 above and in the subsection (guideline) at issue. (Guideline 1.8)
 9. Uses shall to the maximum extent practicable be designed and carried out to permit multiple concurrent uses which are appropriate for the location and to avoid unnecessary conflicts with other uses of the vicinity. (Guideline 1.9)
 10. These guidelines are not intended to be, nor shall they be, interpreted to allow expansion of governmental authority beyond that established by R.S. 49:213.1 through 213.21, as amended (now R.S. 49:214.21 through 49:214.40); nor shall these guidelines be interpreted so as to require permits for specific uses legally commenced or established prior to the effective date of the coastal use permit program (October 1, 1980) nor to normal maintenance or repair of such uses. (Guideline 1.10)
- b. *Guidelines for levees.*
1. The leveeing of unmodified or biologically productive wetlands shall be avoided to the maximum extent practicable. (Guideline 2.1)
 2. Levees shall be planned and sited to avoid segmentation of wetlands to the maximum extent practicable. (Guideline 2.2)

3. Levees constructed for the purpose of developing or otherwise changing the use of a wetland areas shall be avoided to the maximum extent practicable. (Guideline 2.3)
 4. Hurricane and flood protection levees shall be located at the non-wetland/ wetland interface or landward to the maximum extent practicable. (Guideline 2.4)
 5. Impoundment levees shall only be constructed in wetland areas as part of approved water or marsh management projects or to prevent the release of pollutants. (Guideline 2.5)
 6. Hurricane or flood protection levee systems shall be designed, built and thereafter operated and maintained utilizing best practical techniques to minimize disruptions of existing hydrologic patterns, and the interchange of water, beneficial nutrients and aquatic organisms between enclosed wetlands and those outside the levee system. (Guideline 2.6)
- c. *Guidelines for linear facilities.*
1. Linear use alignments shall be planned to avoid adverse impacts on areas of high biological productivity or irreplaceable resource areas. (Guideline 3.1)
 2. Linear facilities involving the use of dredging or filling shall be avoided in wetland and estuarine areas to the maximum extent practicable. (Guideline 3.2)
 3. Linear facilities involving dredging shall be of the minimum practical size and length. (Guideline 3.3)
 4. To the maximum extent practicable, pipelines shall be installed through the "push ditch" method and the ditch backfilled. (Guideline 3.4)
 5. Existing corridors, rights-of-way, canals, and streams shall be utilized to the maximum extent practicable for linear facilities. (Guideline 3.5)
 6. Linear facilities and alignments shall be, to the maximum extent practicable, designed and constructed to permit multiple uses consistent with the nature of the facility. (Guideline 3.6)
 7. Linear facilities involving dredging shall not traverse or adversely affect any barrier island. (Guideline 3.7)
 8. Linear facilities involving dredging shall not traverse beaches, tidal passes, protective reefs or other natural gulf shorelines unless no other alternative exists. If a beach, tidal pass, reef or other natural gulf shoreline must be traversed for a non-navigation canal, they shall be restored at least to their natural condition immediately upon completion of construction. Tidal passes shall not be permanently widened or deepened except when necessary

to conduct the use. The best available restoration techniques which improve the traversed area's ability to serve as a shoreline shall be used. (Guideline 3.8)

9. Linear facilities shall be planned, designed, located and built using the best practical techniques to minimize disruption of natural hydrologic and sediment transport patterns, sheet flow and water quality and to minimize adverse impacts on wetlands. (Guideline 3.9)
 10. Linear facilities shall be planned, designed, and built using the best techniques to prevent bank slumping and erosion, saltwater intrusion, and to minimize the potential for inland movement of storm-generated surges. Consideration shall be given to the use of locks in navigation canals and channels which connect more saline areas with fresher areas. (Guideline 3.10)
 11. All non-navigation canals, channels and ditches which connect more saline areas with fresher areas shall be plugged at all waterway crossings and at intervals between crossings in order to compartmentalize them. The plugs shall be properly maintained. (Guideline 3.11)
 12. The multiple use of existing canals, directional drilling and other practical techniques shall be utilized to the maximum extent practicable to minimize the number and size of access canals, to minimize changes of natural systems and to minimize adverse impacts on natural areas and wildlife and fisheries habitat. (Guideline 3.12)
 13. All pipelines shall be constructed in accordance with parts 191, 192, and 195 of title 49 of the Code of Federal Regulations, as amended, and in conformance with the commissioner of conservation's pipeline safety rules and regulations and those safety requirements established by R.S. 45:408, whichever would require higher standards. (Guideline 3.13)
 14. Areas dredged for linear facilities shall be backfilled or otherwise restored to preexisting conditions upon cessation of use for navigation purposes to the maximum extent practicable. (Guideline 3.14)
 15. The best practical techniques for site restoration and revegetation shall be utilized for all linear facilities. (Guideline 3.15)
 16. Confined and dead end canals shall be avoided to the maximum extent practicable. Approved canals must be designed and constructed using best practical techniques to avoid water stagnation and eutrophication. (Guideline 3.16)
- d. *Guidelines for dredged spoil deposition.*
1. Spoil shall be deposited utilizing the best practical techniques to avoid disruption of water movement, flow, circulation and quality. (Guideline 4.1)

2. Spoil shall be used beneficially to the maximum extent practicable to improve productivity or create new habitat, reduce or compensate for environmental damage done by dredging activities, or prevent environmental damage. Otherwise, existing spoil disposal areas or upland disposal shall be utilized to the maximum extent practicable rather than creating new disposal areas. (Guideline 4.2)
 3. Spoil shall not be disposed of in a manner which could result in the impounding or draining of wetlands or the creation of development sites unless the spoil deposition is part of an approved levee or land surface alteration project. (Guideline 4.3)
 4. Spoil shall not be disposed of on marsh, known oyster or clam reefs or in areas of submersed vegetation to the maximum extent practicable. (Guideline 4.4)
 5. Spoil shall not be disposed of in such a manner as to create a hindrance to navigation or fishing, or hinder timber growth. (Guideline 4.5)
 6. Spoil disposal areas shall be designed and constructed and maintained using the best practical techniques to retain the spoil at the site, reduce turbidity, and reduce shoreline erosion when appropriate. (Guideline 4.6)
 7. The alienation of state-owned property shall not result from spoil deposition activities without the consent of the department of natural resources. (Guideline 4.7)
- e. *Guidelines for shoreline modification.*
1. Non-structural methods of shoreline protection shall be utilized to the maximum extent practicable. (Guideline 5.1)
 2. Shoreline modification structures shall be designed and built using best practical techniques to minimize adverse environmental impacts. (Guideline 5.2)
 3. Shoreline modification structures shall be lighted or marked in accordance with U.S. Coast Guard regulations, not interfere with navigation, and should foster fishing, other recreational opportunities, and public access. (Guideline 5.3)
 4. Shoreline modification structures shall be built using best practical materials and techniques to avoid the introduction of pollutants and toxic substances into coastal waters. (Guideline 5.4)
 5. Piers and docks and other harbor structures shall be designed and built using best practical techniques to avoid obstruction of water circulation. (Guideline 5.5)

6. Marinas and similar commercial and recreational developments shall to the maximum extent practicable not be located so as to result in adverse impacts on open productive oyster beds, or submersed grass beds. (Guideline 5.6)
 7. Neglected or abandoned shoreline modification structures, piers, docks, mooring and other harbor structures shall be removed at the owner's expense, when appropriate. (Guideline 5.7)
 8. Shoreline stabilization structures shall not be built for the purpose of creating fill areas for development unless part of an approved surface alteration use. (Guideline 5.8)
 9. Jetties, groins, breakwaters and similar structures shall be planned, designed and constructed so as to avoid to the maximum extent practicable downstream land loss and erosion. (Guideline 5.9)
- f. *Guidelines for surface alterations.*
1. Industrial, commercial, urban, residential and recreational uses are necessary to provide adequate economic growth and development. To this end, such uses will be encouraged in those areas of the coastal zone that are suitable for development. Those uses shall be consistent with the other guidelines and shall, to the maximum extent practicable, take place only: (Guideline 6.1)
 - (i) On lands five feet or more above sea level or within fastlands; or
 - (ii) On lands which have foundation conditions sufficiently stable to support the use, and where flood and storm hazards are minimal or where protection from these hazards can be reasonably well achieved, and where the public safety would not be unreasonable endangered; and
 2. The land is already in high intensity of development use;
 3. There is adequate supporting infrastructure; or
 4. The vicinity has a tradition of use for similar habitation or development;
 5. Public and private works projects such as levees, drainage improvements, roads, airports, ports, and public utilities are necessary to protect and support needed development and shall be encouraged. Such projects shall, to the maximum extent practicable, take place only when: (Guideline 6.2)
 - (i) They protect or serve those areas suitable for development pursuant to Guideline 6.1;
 - (ii) They are consistent with the other guidelines; and
 - (iii) They are consistent with all relevant adopted state, local and regional plans.
 6. Blank. (Deleted) (Guideline 6.3)

7. To the maximum extent practicable wetland areas shall not be drained or filled. Any approved drain or fill project shall be designed and constructed using best practical techniques to minimize present and future property damage and adverse environmental impacts. (Guideline 6.4)
8. Costal water dependent uses shall be given special consideration in permitting because of their reduced choice of alternatives. (Guideline 6.5)
9. Areas modified by surface alteration activities shall, to the maximum extent practicable, be revegetated, refilled, cleaned and restored to their predevelopment condition upon termination of the use. (Guideline 6.6)
10. Site clearing shall to the maximum extent practicable be limited to those areas immediately required for physical development. (Guideline 6.7)
11. Surface alterations shall, to the maximum extent practicable, be located away from critical wildlife areas and vegetation areas. Alterations in wildlife preserves and management areas shall be conducted in strict accord with the requirements of the wildlife management body. (Guideline 6.8)
12. Surface alterations which have high adverse impacts on natural functions shall not occur, to the maximum extent practicable, on barrier islands and beaches, isolated cheniers, isolated natural ridges or levees, or in wildfire and aquatic species breeding or spawning areas, or in important migratory routes. (Guideline 6.9)
13. The creation of low dissolved oxygen conditions in the water or traps for heavy metals shall be avoided to the maximum extent practicable. (Guideline 6.10)
14. Surface mining and shell dredging shall be carried out utilizing the best practical techniques to minimize adverse environmental impacts. (Guideline 6.11)
15. The creation of underwater obstruction which adversely affect fishing or navigation shall be avoided to the maximum extent practicable. (Guideline 6.12)
16. Surface alteration sites and facilities shall be designed, constructed, and operated using the best practical techniques to prevent the release of pollutants or toxic substances into the environment and minimize other adverse impacts. (Guideline 6.13)
17. To the maximum extent practicable only material that is free of contaminants and compatible with the environmental setting shall be fused as fill. (Guideline 6.14)

g. *Guidelines for hydrologic and sediment transports modifications.*

1. The controlled diversion of sediment-laden waters to initiate new cycles of marsh building and sediment nourishment shall be encouraged and utilized whenever such diversion will enhance the viability and productivity of the outfall area. Such diversion shall incorporate a plan for monitoring and reduction and/or amelioration of the effects of pollutants present in the freshwater source. (Guideline 7.1)
2. Sediment deposition systems may be used to offset land loss, to create or restore wetland areas or enhance building characteristics of a development site. Such systems shall only be utilized as part of an approved plan. Sediment from these systems shall only be discharged in the area that the proposed use is to be accomplished. (Guideline 7.2)
3. Undesirable deposition of sediments in sensitive habitat or navigation areas shall be avoided through the use of the best preventive techniques. (Guideline 7.3)
4. The diversion of freshwater through siphons and controlled conduits and channels, and overland flow to offset saltwater intrusion and to introduce nutrients into wetlands shall be encouraged and utilized whenever such diversion will enhance the viability and productivity of the outfall area. Such diversion shall incorporate a plan for monitoring and reduction and/or amelioration of the effects of pollutants present in the freshwater source. (Guideline 7.4)
5. Water or marsh management plans shall result in an overall benefit to the productivity of the area. (Guideline 7.5)
6. Water control structures shall be assessed separately based on their individual merits and impacts and in relation to their overall water or marsh management plan of which they are a part. (Guideline 7.6)
7. Weirs and similar water control structures shall be designed and built using the best practical techniques to prevent "cut arounds," permit tidal exchange in tidal areas, and minimize obstruction of the migration of aquatic organisms. (Guideline 7.7)
8. Impoundments which prevent normal tidal exchange and/or the migration of aquatic organisms shall not be constructed in brackish and saline areas to the maximum extent practicable. (Guideline 7.8)
9. Withdrawal of surface water and groundwater shall not result in saltwater intrusion or land subsidence to the maximum extent practicable. (Guideline 7.9)

h. *Guidelines for disposal of wastes.*

1. The location and operation of waste storage, treatment, and disposal facilities shall be avoided in wetlands to the maximum extent practicable, and best practical techniques shall be used to minimize adverse impacts which may result from such use. (Guideline 8.1)
2. The generation, transportation, treatment, storage and disposal of hazardous wastes shall be pursuant to the substantive requirements of the department of environmental quality adopted pursuant to the provisions of R.S. 30:217 et seq., as amended and approved pursuant to the Resource Conservation and Recovery Act of 1976 P. L. 94-580, as amended, and of the Office of Conservation for injection below surface. (Guideline 8.2)
3. Waste facilities located in wetlands shall be designed and built to withstand all expectable adverse conditions without releasing pollutants. (Guideline 8.3)
4. Waste facilities shall be designed and constructed using best practical techniques to prevent leaching, control leaching production, and prevent the movement of leachate away from the facility. (Guideline 8.4)
5. The use of overland flow systems for non-toxic, biodegradable wastes, and the use of sump lagoons and reservoirs utilizing aquatic vegetation to remove pollutants and nutrients shall be encouraged. (Guideline 8.5)
6. All waste disposal sites shall be marked and, to the maximum extent practicable, all components of waste shall be identified. (Guideline 8.6)
7. Waste facilities in wetlands with identifiable pollution problems that are not feasible and practical to correct shall be closed and either removed or sealed, and shall be properly revegetated using the best practical techniques. (Guideline 8.7)
8. Waste shall be disposed of only at approved disposal sites. (Guideline 8.8)
9. Radioactive wastes shall not be temporarily or permanently disposed of in the coastal zone. (Guideline 8.9)

i. *Guidelines for uses that result in the alteration of waters draining into coastal waters.*

1. Upland and upstream water management programs which affect coastal waters and wetlands shall be designed and constructed to preserve or enhance existing water quality, volume, and rate of flow to the maximum extent practicable. (Guideline 9.1)
2. Runoff from developed areas shall to the maximum extent practicable be managed to simulate natural water patterns, quantity, quality and rate of flow. (Guideline 9.2)

3. Runoff and erosion from agricultural lands shall be minimized through the best practical techniques. (Guideline 9.3)
- j. *Guidelines for oil, gas and other mineral activities.*
 1. Geophysical surveying shall utilize the best practical techniques to minimize disturbance or damage to wetlands, fish and wildlife and other coastal resources. (Guideline 10.1)
 2. To the maximum extent practicable, the number of mineral exploration and production sites in wetland areas requiring floatation access shall be held to the minimum number, consistent with good recovery and conservation practices and the need for energy development by directional drilling, multiple use of existing access canals and other practical techniques. (Guideline 10.3)
 3. Exploration, production and refining activities shall, to the maximum extent practicable, be located away from critical wildlife preserves and management areas shall be conducted in strict accordance with the requirements of the wildlife management body. (Guideline 10.3)
 4. Mineral exploration and production facilities shall be to the maximum extent practicable designed, constructed and maintained in such a manner to maintain natural water flow regimes, avoid blocking surface drainage, and avoid erosion. (Guideline 10.4)
 5. Access routes to mineral exploration, production and refining sites shall be designed and aligned so as to avoid adverse impacts on critical wildlife and vegetation areas to the maximum extent practicable. (Guideline 10.5)
 6. Drilling and production sites shall be prepared, constructed, and operated using the best practical techniques to prevent the release of pollutants or toxic substances into the environment. (Guideline 10.6)
 7. All drilling activities, supplies, and equipment shall be kept on barges, on drilling rigs, within ring levees, or on the well site. (Guideline 10.7)
 8. Drilling ring levees shall to the maximum extent practicable be replaced with small production levees or removed entirely. (Guideline 10.8)
 9. All drilling and production equipment, structures, and storage facilities shall be designed and constructed utilizing best practical techniques to withstand all expectable adverse conditions without releasing pollutants. (Guideline 10.9)
 10. Mineral exploration, production and refining facilities shall be designed and constructed using best practical techniques to minimize adverse environmental impacts. (Guideline 10.10)

11. Effective environmental protection and emergency or contingency plans shall be developed and complied with for all mineral operations.
 12. The use of dispersant, emulsifiers and other similar chemical agents on oil spills is prohibited without the prior approval of the Coast Guard or environmental protection agency on-scene coordinator, in accordance with the national oil and hazardous substance pollution contingency plan. (Guideline 10.11)
 13. Mineral exploration and production sites shall be cleared, revegetated, detoxified and otherwise restored as near as practicable to their original condition upon termination of operations to the maximum extent practicable. (Guideline 10.12)
- k. *Guidelines for issuance of letter of no objection with regards to state lands permits.* Individual applicants needing a "Letter of No Objection" shall submit a written request for such to the local coastal management office, accompanied by a complete coastal use permit application. The applicant must have applied for all necessary permits including but not limited to a DOA permit from the U.S. Army Corps of Engineers, a coastal use permit from the department of natural resources, and a water quality certification from the department of environmental quality. The design of the proposed project must conform to the guidelines and standards detailed below to secure a letter of no objection from the local governing authority. Provided that all of the applicable guidelines are met, the letter may be issued administratively by the office that administers the local coastal program.
- (3) *The parish goals, objectives and policies.* The following goals, objectives, and policies apply to the parish coastal zone and are intended to encourage long-term plans for the coastal zone:
- a. LCP objectives, policies, and performance standards which directly or indirectly affect uses of state concern shall not be construed as being regulatory or binding on either the permit applicant or the coastal management division, department of natural resources, but are for the purpose of submitting the parish environmental review comments to the state on applications for uses of state concern. Local policies which contain prohibitions, restrictions or performance standards beyond the scope of the coastal use guidelines (CUG) shall be considered as advisory by the parish, the CMD/DNR, and permit applicants (i.e., mandatory policies with "shalls" are modified such that "should" is the operative verb).
 - b. Parish comments to CMD/DNR on proposed uses of state concern shall be based on the policies of the LCP and may recommend specific project alternatives and conditions. CMD/DNR consideration of parish recommendations shall be based on the conformance of the recommendation with the CUGs. Recommendations

which reflect further detailing of the CUGs as they apply to the parish shall be given substantial consideration by the CMD/DNR with the objective of maximizing conformance with the approved LCP. Recommendations which are not in conformance with the CUGs shall not be considered by the CMD/DNR.

- c. The parish does not promote or encourage the alteration of wetlands for any reason. At times, projects may be approved if the use is water dependent, no feasible alternative exists, and the ultimate benefits outweigh the environmental impacts. However, simply because a use is water dependent does not in any way mean that it may occur in coastal wetland areas.
- d. Language in the parish local coastal plan and the accompanying ordinance that suggests that the parish in any way encourages development in coastal wetlands shall be considered within the scope of the above statement.
 - 1. *Goal 1.* To maintain, enhance, and/or restore the overall environmental quality and renewable resource productivity of the parish coastal zone.
 - 2. *Goal 2.* To conserve the integrity of the productive wetland areas.
 - 3. *Goal 3.* To encourage only water dependent uses of the coastal zone to the extent consistent with federal and state programs and regulations.
 - 4. *Goal 4.* To enhance opportunities for recreational use of the coastal zone.
 - 5. *Goal 5.* To minimize adverse effects of industry, subdivisions, or transportation systems on environmental quality.
 - 6. *Goal 6.* To preserve and enhance existing agricultural lands.
 - 7. *Goal 7.* To protect renewable resources within the parish.
 - 8. *Goal 8.* To minimize effects of mining non-renewable resources within the parish
 - 9. *Goal 9.* To minimize detrimental effects of coastal water dependent uses on wetland areas.
 - (i) *Objective 1.* All policies set forth under the parish-wide goal to minimize detrimental effects of oil and gas exploration and extraction shall be adhered to.
 - (ii) *Objective 2.* To control recreational activities and encourage them only in appropriate areas.
 - A. *Policy 1.* Sanitary codes related to sewage and solid waste disposal and litter ordinances shall be strictly enforced on all activities in the coastal zone.
 - B. *Policy 2.* The intentional discharge of petroleum products from boating activities shall be prohibited and stringently enforced.

C. *Policy 3.* Pump-out facilities shall be provided at all marinas and harbors.

(iii) *Objective 3.* Hunting and trapping activities shall be permitted only in designated areas and shall comply with federal and state regulations.

(4) *Special considerations.*

- a. *Industrial.* All industrial uses as defined in the Parish Land Use Ordinance No. 523 which are proposed for location within the permit area are required to obtain a coastal use permit before any site alteration can take place.
 1. The applicant or his designated agent will be required to present plans and specifications describing the proposed development, including the completed environmental assessment data form at the time of application submission.
 2. The applicant will also furnish a drainage plan denoting the site and surrounding topography and drainage pattern.
 3. The applicant will furnish a plan which explains how the solid and liquid wastes are to be collected and disposed of.
 4. The applicant will furnish supportive data to explain the vehicular or rail traffic increase to be realized, if any.
 5. All coastal use applications for industrial activities which are uses of local concern will require a public hearing.
- b. *Commercial.* All commercial uses as defined in the Parish Land Use Ordinance No. 523 which are proposed for location within the permit area are required to obtain a coastal use permit before any site alteration can take place. The applicant for any such proposed commercial use will supply the following to be included with the application form.
 1. A completed environmental assessment data form and an appropriate site plan and vicinity map.
 2. An explanation or analysis of the proposed level of activity anticipated for the commercial activity with regard to vehicular and/or watercraft traffic and noise levels.
 3. An explanation as to the method to be used to dispose of all solid and liquid wastes.
- c. *Shoreline and water control structures.* Structures which alter water circulation and/or modification of associated shorelines will require a coastal use permit. The following types of uses will be permitted under uses of local concern and processed by the local coastal program administrator. A public hearing shall only be required if any dredging is to take place.
 1. *Jetties, breakwaters, and private water control structures of under \$15,000.00 in cost which include weirs, boat slips, private canals, artificial sloughs, etc.* The

applicant shall use the parish permit form (U.S. Army Corps of Engineers, Engineering Form 4345 or its official federal replacement) with required supporting documentation as specified by the Corps of Engineers' guidelines. In addition, the applicant shall provide a cost breakdown of the intended work which meets the satisfaction of the LCP administrator.

2. *Piers.* All piers that require the laying of supportive pilings in and along water bodies will require a coastal use permit if said pier extends from the shoreline in excess of five feet and contains more than six pilings or if it will have a direct and significant impact on coastal waters. The applicant shall use the parish permit form (U.S. Army Corps of Engineers, Engineering Form 4345 or its official federal replacement) with required supporting documentation as specified by the Corps of Engineers' guidelines. In addition, the applicant shall provide photographs and a description of the vegetation at the site of construction and a completed environmental assessment data form.
 3. *Bulkheads.* All bulkheads proposed along shorelines that are to be constructed beyond five feet from the shoreline or that will have a direct and significant impact on coastal waters will require a coastal use permit. The applicant shall use the parish permit form (U.S. Army Corps of Engineers, Engineering Form 4345 or its official federal replacement) with required supporting documentation as specified by the Corps of Engineers' guidelines. In addition, the applicant will provide photographs and a description of the vegetation at the site of construction and a completed environmental assessment data form.
 4. *Dredge or fill projects.* Any maintenance or development activities occurring within the coastal zone or which require dredge or fill of waterways or wetlands will require a coastal use permit. The applicant shall use the parish permit form (U.S. Army Corps of Engineers, Engineering Form 4345 or its official federal replacement) with required supporting documentation as specified by the Corps of Engineers' guidelines. In addition, the applicant will provide photographs and a description of the vegetation at the site of construction and a completed environmental assessment data form.
- d. *Residential development.* All new subdivisions and reactivation of dormant subdivisions as defined under the Parish Subdivision Ordinance No. 499 will require a coastal use permit. The applicant shall use the parish permit form (U.S. Army Corps of Engineers, Engineering Form 4345 or its official federal replacement) with required supporting documentation as specified by the Corps of Engineers' guidelines. In addition, the applicant must provide a completed environmental

assessment data form, explain the traffic movements associated with the development, and describe the method to be used for disposal of all solid, liquid and sanitary wastes.

- e. *Environmental management unit.* Upon acceptance of the application, the LCP administrator will determine if the property affected by the LCUP is located within an environmental management unit. There are four geographical segments of the parish which have been delineated as EMUs. The four EMUs are depicted in the official parish coastal zone management map included in the back insert of this chapter's appendix.
 - f. *Special management areas.* Areas within the coastal zone which have unique and valuable characteristics, such as beaches, barrier islands, shell deposits, salt domes, or formations containing deposits of oil, gas or other minerals; historical or archaeological sites; corridors for transportation; industrialization or urbanization, and other such characteristics, all as more particularly set forth in R.S. 49:214.29.A, may require special management procedures. Such areas may be designated as special management areas in accordance with the procedure established by the secretary and the coastal zone management plan, and when so designated shall mandate special considerations for the issuance of the CUP therein.
- (g) *Term of permits.*
- (1) Permits issued under this section shall remain in effect for a period of one year from the date of issuance. If the designated use has not been initiated within the time period, the permit shall automatically be voided. If the designated use involves construction, and said construction is commenced within the one year period, it must be completed not later than three years from the date the permit was issued.
 - (2) A local coastal use permit may be renewed if the LCP administrator is satisfied that substantial progress has been made on said project or that the permittee has been precluded from acting by non-self-induced litigation, material shortages, labor problems, or other events beyond the permittee's control.
- (h) *Conditions of permit.*
- (1) By accepting the local coastal use permit, the applicant agrees to:
 - a. Carry out or perform the use in accordance with the plans and specifications approved by the LCP administrator.
 - b. Comply with any permit conditions imposed by the LCP administrator.
 - c. Adjust, alter, or remove any structure or other physical evidence of the permitted use if, in the opinion of the LCP administrator, it proves to be beyond the scope of the use as approved, or is abandoned;

- d. Provide, if required by the LCP administrator, an acceptable surety bond in an appropriate amount to ensure adjustment, alteration, or removal should the permitting body determine it necessary;
 - e. Hold and save the state, the board of adjustments and police jurors individually, government, the department of planning and development, the LCP administrator and their officers and employees harmless from any damage to persons or property which might result from construction, maintenance, and operation of the permitted use.
 - f. Certify that any permitted construction has been completed in an acceptable and satisfactory manner and in accordance with the plans and specifications approved by the LCP administrator. The LCP administrator may, when appropriate, require such certification be given by a registered professional engineer.
- (2) The LCP administrator may place such other conditions on the permit as are appropriate to ensure compliance with the coastal zone management plan.
- (i) *Appeals.*
- (1) Any interested person shall first appeal to the board of adjustments the decision of the LCP administrator to issue, or not, a local coastal use permit. Said appeal shall be made within ten days from the date of the written statement prepared by the LCP administrator required by this subsection, shall be in writing, shall set forth the factual and, if applicable, the legal basis for the appeal, and shall be signed by the person initiating the appeal. The act of signing the appeal shall constitute a certification that said appeal has been made in good faith, with just cause, and not for the purpose of delay.
- (2) A hearing on the appeal shall be held within 15 days of the date that the written appeal, in proper form, is filed. Notice of the date and time of the appeal hearing shall be sent, at least ten days in advance of the hearing to the applicant and all interested persons. Notice of the appeal hearing shall be given by publication in the official journal of the parish not less than five days prior to the hearing. The hearing shall be conducted in accordance with the procedure established by the parish council for other such appeal hearings. The decision of the LCP administrator may be reversed, or modified, only by the affirmative vote of two-thirds of the police jurors present at the meeting. Written notice of the decision shall be sent within seven days of the hearing to the applicant and party appealing, if different than the applicant, by certified mail return receipt requested and published one time in the official journal of the parish.
- (3) The decision of the LCP administrator, as affirmed, modified, or reversed by the board of adjustments, may be appealed to the secretary if a petition for reconsideration is filed in writing with the secretary within ten days following publication in the official journal

of the parish council's decision, or receipt of the written notice of decision provided for in subsection (i)(2) of this section. The grounds for reconsideration of the local decision and the content of the petition shall conform to the requirements of R.S. 49:214.35.

(j) *Modifications.*

- (1) The terms of conditions of a permit may be modified to allow changes in the permitted use, in the plans and specifications for that use, in the methods by which the use is being implemented, or to assure that the use will be in conformity with the coastal management program. Changes which would significantly increase the impacts of a permitted activity shall be processed as new applications for permits pursuant to subsection (c) of this section, not as a modification.
- (2) A permit may be modified upon request of the permittee:
 - a. If mutual agreement can be reached on a modification, written notice of the modification will be given to the permittee.
 - b. If mutual agreement cannot be reached, a permittee's request for a modification shall be considered denied.
 1. *Monitoring.* The LCP administrator shall be responsible for monitoring progress of all permitted uses and compliance with regulations accompanying permit approval. In addition, the LCP administrator shall be responsible for monitoring all activities within the coastal zone for compliance with this chapter. This will include on-site inspections to verify compliance, and following up reports for each permitted project.
 2. *Emergency permits.* The LCP administrator may allow emergency permits to be granted where public safety is endangered or in situations requiring immediate action to protect the general welfare of the parish's citizens in accordance with section 110-2(e)(3). This action shall include consultation with the state department of natural resources and will be permitted only in those cases which cannot be remedied by normal permit process.
 3. *Suspensions.*
 - (i) The LCP administrator may suspend a permit upon a finding that:
 - A. The permittee has failed or refuses to comply with the terms and conditions of the permit or any modifications thereof;
 - B. The permittee has submitted false or incomplete information in his application or otherwise; or
 - C. The permittee has failed or refused to comply with any lawful order or request of the LCP administrator or the secretary.
 - (ii) The LCP administrator shall notify the permittee in writing that the permit has been suspended and the reasons therefor and order the

permittee to cease immediately all previously authorized activities. The notice shall also advise the permittee that he will be given, upon request made within ten days of receipt of the notice, an opportunity to respond to the reasons given for the suspension.

- (iii) After consideration of the permittee's response, or, if none, within 30 days after issuance of the notice, the LCP administrator shall take action to reinstate, modify, or revoke the permit and shall notify the permittee of the action taken.
- 4. *Revocation.* If, after compliance with the suspension procedures in subsection (j)(2)b.3. of this section, the LCP administrator determines that revocation or modification of the permit is warranted, written notice of the revocation or modification shall be given to the permittee.
- 5. *Enforcement.* If the permittee fails to comply with a cease and desist order or the suspension or revocation of a permit, the LCP administrator shall seek appropriate civil and criminal relief as provided by R.S. 49:214.36.
- 6. *Penalties.* Violation or failure to comply with the provisions of this chapter or the terms or conditions of any coastal use permit shall be punishable by a fine of not less than \$100.00 nor more than \$500.00, or 90 days imprisonment, or both. Each day for which the violation continues shall constitute a separate offense.

(Code 1998, app. F, § 3)

Sec. 110-4. Permit for uses of state concern.

Applications for uses of state concern can be made at the department of planning and development, Covington and/or Slidell, or at the coastal management division, department of natural resources, Baton Rouge, Louisiana. If the project is determined by the local coastal program administrator to be a use of state concern, the application and rationale for the decision shall be forwarded to the coastal management division, department of natural resources (CMD/DNR). If CMD/DNR determines an application is a use of local concern, it shall forward the application to the parish within two working days of receipt thereof. If the determination is that the project is a use of state concern, the application shall be processed according to the state rules and procedures.

(Code 1998, app. F, § 4)

Sec. 110-5. Nonconforming use and maintenance.

(a) *Definition and classification.*

- (1) Individual specific uses legally commenced or established prior to January 1, 1979, and continued from that date shall not require a coastal use permit.

- (2) Normal repairs and the rehabilitation, replacement, or maintenance of existing structures shall not require a coastal use permit, provided that:
 - a. The structure or work was lawfully in existence, currently serviceable, and in active use during the year preceding the repair, replacement, or maintenance;
 - b. The repair or maintenance does not result in an encroachment into a wetland area greater than that of the previous structure or work;
 - c. The repair or maintenance does not involve dredge or fill activities; and
 - d. The repair or maintenance does not result in a structure or facility that is significantly different in magnitude or function from the original.
 - (3) This exemption shall not apply to the repair or maintenance of any structure or facility built or maintained in violation of this chapter.
 - (4) Coastal use permits will normally authorize periodic maintenance, including maintenance dredging. All maintenance activities authorized by coastal use permits shall be conducted pursuant to the conditions established for that permit. Where maintenance is performed which is not described in the applicable coastal use permit, it shall conform to this section.
- (b) *General coastal use permits.*
- (1) *General.*
 - a. The LCP administrator may, after compliance with the procedures set forth in sections 110-2(e) and 110-3(d), issue general permits for certain clearly described categories of uses requiring coastal use permits. After the general permit has been issued, individual uses falling within those categories will not require individual permit processing unless the LCP administrator determines, on a case by case basis, that the public interest requires full review.
 - b. General permits may be issued only for those uses that are substantially similar in nature, that cause only minimal adverse impacts when performed separately, that will only have minimal adverse cumulative impacts and that do not impair the fulfillment of the objectives and policies of the coastal management program.
 - (2) *Reporting.*
 - a. Each person desiring to commence work on a use subject to a general permit must give notice to the LCP administrator and receive written authorization prior to commencing work. Such authorization shall be issued within 30 days of receipt of the notice.
 - b. Such notice shall include:
 - 1. The name and address of the person conducting the use;

2. Such descriptive material, maps, and plans as may be required by the LCP administrator for that general permit.

(3) *Conditions of general permits.*

- a. The LCP administrator shall review the permit, and make a recommendation to the coastal management section of the state department of natural resources. Upon approval by the secretary, the LCP administrator shall make a determination on the general permit. The proposed actions shall be monitored monthly to ensure compliance with the local ordinance.
- b. The LCP administrator shall prescribe such conditions for each general permit as may be appropriate.
- c. A general permit may be revoked if the LCP administrator determines that such revocation is in the public interest and consistent with the coastal management program.

(Code 1998, app. F, § 5)

Sec. 110-6. Scope of coverage.

The provisions of this chapter apply only to uses of local concern as prescribed by Act 361 of the Louisiana State Legislature, 1978, as amended, State and Local Coastal Resources Management Act. All issues of state concern as prescribed by said Act shall be directed to the appropriate state agency by the LCP administrator as provided in section 4-110.

DRAINAGE AND FLOOD CONTROL*

Article I. In General

- Sec. 115-1. Conflict.
- Sec. 115-2. Flooding roads.
- Sec. 115-3. Use of fill materials prohibited.
- Sec. 115-4. Fill materials prohibited within 200 feet of drainage waterway.
- Secs. 115-5—115-26. Reserved.

Article II. Flood Hazard Area

Division 1. Generally

- Sec. 115-27. Statutory authorization.
- Sec. 115-28. Findings of fact.
- Sec. 115-29. Statement of purpose.
- Sec. 115-30. Methods of reducing flood losses.
- Sec. 115-31. Definitions.
- Sec. 115-32. Lands to which this article applies.
- Sec. 115-33. Basis for establishing the areas of special flood hazard.
- Sec. 115-34. Establishment of development permit.
- Sec. 115-35. Compliance.
- Sec. 115-36. Abrogation and greater restrictions.
- Sec. 115-37. Interpretation.
- Sec. 115-38. Warning and disclaimer of liability.
- Sec. 115-39. Designated flood determination zone.
- Sec. 115-40. Flood zone C.
- Secs. 115-41—115-68. Reserved.

Division 2. Administration

- Sec. 115-69. Designation of the floodplain administrator.
- Sec. 115-70. Duties and responsibilities of the floodplain administrator.
- Sec. 115-71. Permit procedures.
- Sec. 115-72. Variance procedures.
- Sec. 115-73. Permit fees.
- Secs. 115-74—115-104. Reserved.

Division 3. Provisions for Flood Hazard Reduction

- Sec. 115-105. General standards.

***State law references**—Use and occupancy of floodprone areas, R.S. 33:1236(38); flood control and related matters, R.S. 38:81 et seq.

Article XVI. Levee District (Reserved)

ARTICLE I. IN GENERAL**Sec. 115-1. Conflict.**

In the event of any conflict between the subdivision regulations in the Land Development Code and the provisions of this chapter, the more stringent or restrictive regulation or provision shall apply.

Sec. 115-2. Flooding roads.

It shall be unlawful for any owner or user of water from artesian wells or other artificial sources of water supply to allow said water to flow or drain into any ditch along a parish road, highway or other public right-of-way without receiving approval from the parish and without obtaining a permit from the state department of transportation and development, office of water resources. It shall be unlawful for any owner or user of water from artesian wells or other artificial sources of water supply to allow said water to flow or drain into any ditch along any public road, highway or public right-of-way so that such ditch overflows onto a public road or highway.

(Code 1998, § 7-001.00; Ord. No. 180, Bk. 3, P. 195, 1-21-1954; Ord. No. 93-1699, 2-18-1993)

Sec. 115-3. Use of fill materials prohibited.

(a) *Adverse drainage impact.* It shall be prohibited to place fill or construct improvements on any parcel of property so as to cause adverse drainage impacts on any adjacent parcel.

(b) *Placement of fill material.*

(1) *Definitions.* The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Approved development plan may be a properly issued building permit or site work permit, subdivision work order, or existing and proposed grade elevation form approved by the department of planning and development. Plans proposed within the boundaries of St. Tammany Parish Gravity Drainage District No. 5 (GDD5) shall require review and comment from GDD5's engineer.

Area of special concern means an area that is experiencing development without an approved hydrological plan for the area and, although it may not be located within a critical drainage area, has been determined by the parish department of engineering, after careful consideration of the available data, to be an area that is particularly susceptible to adverse drainage and flooding impacts that are likely to result from continued development and fill, necessitating the application of specific fill and building regulations to address those impacts.

Critical drainage area means an area determined by the parish department of engineering, after careful consideration of the available data, to be of critical importance for its role in the conveyance, moderation or storage of stormwater. Areas within this designation include, but are not limited to, the following:

1. Areas anticipated to be inundated by a 100-year storm event, including areas adjacent to streams, upland areas, and areas of isolated or permanent flooding.
2. Areas of concentrated storm water flow, including but not limited to concentrated sheet flow, channelized flow, and natural hydrologic features or channels of all types and sizes.
3. Any area designated by FEMA as Flood Hazard Area A, V, or the equivalent, indicating inundation during a 100-year event.
4. Areas included within wetlands as defined by the 1987 U.S. Army Corps of Engineers Wetland Delineation Manual.
5. Those areas that are designated as a critical drainage area on the most current critical drainage area map that is on file in the office of the parish department of engineering.

Critical drainage area map means the official critical drainage area map generated and maintained by the department of engineering. The map will be periodically revised, based on information and data available at the time, in an effort to provide reasonably updated information to the public regarding the areas of the parish considered to be critical drainage areas.

Lots and parcels 90 feet or less in width. The determination of whether a lot or parcel is 90 feet in width or less is to be made by averaging the measurement of the width of the property at the point of the rear roof line of an existing or proposed principal structure and the measurement of the width of the property at the front boundary line. The rear roof line is the point where the roof is closest to the rear boundary.

Multiple-family structure means a structure containing three or more dwelling units located on a single lot (as opposed to party wall and townhouses located on separate lots of record.)

Natural ground means the natural or pre-development elevation of the property, prior to any surface alteration work being performed.

Net fill means the placement of any fill material that results in any increase in the surface elevation of property or adjacent property from its natural or pre-development state.

Site work permit means a permit issued for paving, grading, excavation, or placement of fill on a site within unincorporated St. Tammany Parish. This permit is needed if the proposed site improvements are not already being reviewed as part of a properly issued building permit or subdivision work order.

(2) *Net fill prohibited.*

- a. Net fill shall be strictly prohibited in any critical drainage area and on any lot or parcel 90 feet or less in width, except with an approved development plan or with the express written consent of the department of planning and development. Any request to place fill in a critical drainage area or a lot or parcel 90 feet or less in width shall be in accordance with the procedures and guidelines outlined herein.
- b. A lot or parcel of property shall be deemed to be located in a critical drainage area when any part thereof is located within a critical drainage area. Net fill shall not be placed on any part of such property, except with an approved development plan or with the express written consent of the department of engineering.

(3) *Jurisdictional wetlands.* All fill/excavation activities within jurisdictional wetlands shall secure all necessary permits from the U.S. Army Corps of Engineers and any other relevant local, state or federal agencies before such activities are commenced.

(4) *Procedures.*

- a. Any request for approval to place fill on a lot or parcel governed by this chapter shall include a detailed description of the fill activity. A drainage and paving plan, if required, must be completed in accordance with section 115-111. An existing and proposed grade elevation form, if required, must be prepared by a state-licensed engineer or land surveyor and include the following information:
 1. Volume of fill to be placed;
 2. The footprint of the fill work;
 3. Volume and source location of any excavation work;
 4. The location of the ultimate disposition of the spoil being removed;
 5. The direction of water flow across the site;
 6. A profile through the construction footprint showing the natural and finished elevations of the site; and
 7. The sediment retention measures proposed for the site.
- b. Upon receiving approval to fill by the department of planning and development, whenever a concrete slab or any other structural foundation of a permanent nature is to be constructed, the applicant or builder shall certify, after excavation of the site and prior to pouring any concrete or installing any permanent founda-

tion, that the foundation is ready to be installed and that all fill work complies with the relevant standards. The foundation shall not be poured or installed prior to certification and inspection.

- c. Prior to the issuance of the certificate of occupancy, the applicant or builder shall submit an official survey which confirms compliance with the provisions of this chapter. A final drainage inspection by the department of planning and development shall be conducted to verify compliance with these standards, and no certificate of occupancy shall be issued unless and until compliance has been verified.
- (5) *General residential fill standards.* The placement of fill material on any lot or parcel located within any critical drainage area shall be permitted only after a development plan has been submitted and approved by the department of engineering. In the event that the department of engineering determines that fill work is permitted on the particular parcel, the fill work must comply with the following specific standards:
- a. In some cases, subject to the discretion of the department of engineering, excavation of existing soil and its replacement with fill is permissible at the site provided it can be demonstrated to have no increase in the natural ground elevation and no net impact on the function of the critical drainage area.
 - b. Fill shall be limited to the roof-shed area of the proposed primary structure and access to the site and shall not exceed that which is necessary to prepare an adequate building footprint.
 - c. Site improvements (roads, structures, fill, etc.) shall not impede natural drainage pathways or parish road or drainage easements, servitudes, or rights-of-way.
 - d. Fill for driveways must not exceed six inches above natural ground elevation except where fill is part of the foundation for the main residence, carport, or garage. Fill may also be placed to soften the transition between elevations to a slope not less than four horizontal feet to every one vertical foot.
 - e. Fill may be authorized by the department of engineering in those cases where, due to the size and location of the parcel of property, on-site or off-site mitigation can be provided and the department of engineering also determines that there will be no loss of flood plain storage, no loss of stream flow capacity and the applicant demonstrates that no adverse impacts will occur to adjacent properties, to other properties within the subject watershed, and to the function of the critical drainage area. GDD5 review and comments shall be required if subject property is within GDD5 boundaries. It is expressly prohibited to utilize offsite mitigation within the boundaries of Gravity Drainage District No. 5.
- (6) *Lots 90 feet or less in width.* The placement of fill material on any lot or parcel 90 feet or less in width shall be permitted only when a development plan has been submitted and

approved by the department of engineering regardless of its location or critical drainage area status. If it is located in a critical drainage area, the provisions of this section governing fill in a critical drainage area apply. If not in a critical drainage area, the fill work proposed must comply with the following standards:

- a. Fill shall be limited to the roof-shed area of the lot or parcel's primary structure and shall not exceed the volume required to prepare an adequate building footprint.
 - b. A concrete slab shall be permitted under the primary structure provided that the finished surface or footing does not exceed an average of 24 inches above natural ground grade. Fill for a slab with a finished surface less than 24 inches above natural ground shall taper out from the slab at a slope of two horizontal feet for one vertical foot.
 - c. Construction shall be accomplished using pier or piling construction according to applicable building codes for finished elevations above 24 inches above natural ground.
 - d. Site improvements shall not impede natural drainage pathways or parish road or drainage easements, servitudes, or rights-of-way.
 - e. There shall be no net change in the average elevation of the natural grade of the lot or parcel outside of the roof-shed area of the primary structure.
 - f. Fill for driveways must not exceed 12 inches above natural ground grade except where fill is part of the transition from the foundation for the primary structure, carport, or garage. Fill may also be placed adjacent to the driveway to soften the transition between elevations to a slope not steeper than four horizontal feet for every one vertical foot.
 - g. The placement of fill may not encroach into the required side yard setbacks, except as otherwise permitted in this chapter.
 - h. Fill for non-contiguous landscaping areas within the front and rear yards resulting in the finished ground elevation up to an average of six inches above natural ground for each such area is permitted, provided that an equal volume of fill is removed from the lot.
- (7) *Nonresidential standards.* Any paving, grading, excavation, or placement of fill on commercial, industrial, institutional or multifamily development sites must obtain an approved development plan in the form of a properly issued building permit, site work permit or subdivision work order prior to the commencement of work. In cases of commercial, industrial, or institutional development on any lot or parcel of property

that has any part thereof located within a critical drainage area, the placement of fill on such lot or parcel may be permitted, in the discretion of the department of engineering, provided that:

- a. Soil material in a volume equal to the fill material proposed to be placed on the property is excavated and removed from the property, such that the flood storage capacity of the property is maintained for a 100-year frequency flood event;
- b. Off-site mitigation will be provided, and the department of planning and development also determines that there will be no loss of floodplain storage and no loss of stream flow capacity. It is expressly prohibited to utilize off-site mitigation within the boundaries of Gravity Drainage District No. 5;
- c. The applicant can demonstrate that no adverse impacts will occur to adjacent properties, to other properties within the subject watershed, and to the function of the critical drainage area; and
- d. The proposed development complies with all other applicable drainage regulations.

GDD5 review and comment is required if subject property is within the boundaries of GDD5.

(8) *Areas of special concern.*

- a. A certain portion of Tammany Hills and Alexiusville Subdivisions, Ward 3, District 5, located inside the boundaries described immediately below, to wit:

Beginning at the northeast corner of 9th Avenue and U.S. Highway 190, proceed in a northerly direction along the eastern edge of U.S. Highway 190 to its intersection with Harrison Avenue, then proceed in an easterly direction along Harrison Avenue to its intersection with 11th Street, then proceed in a southerly direction along 11th Street to its intersection with Madison Avenue, then proceed in a westerly direction along Madison Avenue to its intersection with 5th Street, then northerly along the 5th Street right-of-way to its intersection with Quincy Avenue, then westerly along Quincy Avenue to its intersection with K Street, then south on K Street to its intersection with 9th Avenue, then proceed west on 9th Avenue to its intersection with U.S. Highway 190 and the point of beginning.

- b. A certain portion of Cypress Park and Erindale Subdivisions, Ward 7, District 7, located inside the boundaries described immediately below, to wit:

Beginning at the intersection of U.S. Highway 190 and Anchorage Drive, the point of beginning, proceed along the eastern edge of Anchorage Drive in a northerly direction to its intersection with Berry Todd Road, thence proceed along the southern edge of Berry Todd Road in an easterly direction to its intersection with Graci Avenue, thence follow an imaginary line due south from said intersec-

tion to the northern most point of Emerald Drive, thence proceed along the western edge of Emerald Drive south to its intersection with U.S. Highway 190, thence proceed along the northern edge of U.S. Highway 190 west northwest to its intersection with Anchorage Drive, the point of beginning.

- c. All that property situated within a re-subdivided portion of Tammany Forest Subdivision, Ward 7, District 7, all as more particularly described immediately below, to wit:

Any and all squares and lots of record within the re-subdivided portion of Tammany Forest Subdivision, located within Section 43, Township 8 South, Range 13 East and as more fully described on the finalized subdivision plat dated August 7, 1985, by NRW and Associates, Inc.

- d. All that property situated within the subdivision known as Dove Park, Ward 4, District 5, Section 26, Township 7 South, Range 11 East, located within the boundaries described immediately below and more particularly depicted on the attached subdivision plat filed for record with the parish clerk of court on June 20, 1957, and identified as Map #16A, to wit:

Any lot or parcel of ground between Sparrow Street and the proposed Judge Tanner Boulevard (formerly the proposed E. Fairway Drive Extension) that abuts or has access to Swallow Street, Egret Street or Partridge Street.

In addition to any of the requirements of section 115-3, within the Dove Park Subdivision there shall be a minimum building site of 75 feet front on the setback line.

- e. Any undeveloped lot or parcel of ground situated in the area generally surrounding Eola Street, Jordan Street and Elmer Street, which area is more particularly depicted on the attached aerial and described immediately below, to wit:

A certain piece or portion of ground situated in section 6, Township 8 south, Range 12 east, St. Tammany Parish, Louisiana, and more fully described as follows:

Parcel 1. From the Quarter Section Corner common to section 6, Township 8 south, Range 12 east and section 1, Township 8 south, Range 11 east, go south 89 degrees 51 minutes 30 seconds east a distance of 330.0 feet to a point; said point being the point of beginning.

From the point of beginning proceed north 89 degrees, 18 minutes, 18 seconds east a distance of 1,357.15 feet to a point; thence proceed north 01 degrees, 51 minutes, 49 seconds west a distance of 947.44 feet to a point at the intersection of the western right-of-way of Soult Drive and the southern right-of-way of Highway 1088; thence proceed in a westerly direction along the southern right-of-way line of Highway 1088 a distance of 1,875 feet to a point; thence proceed south 00

degrees, 00 minutes, 00 seconds west a distance of 266.71 feet to a point; thence proceed north 89 degrees, 43 minutes, 43 seconds east a distance of 395.84 feet to a point, said point being the point of beginning.

Parcel 2. From the Quarter Section Corner common to section 6, Township 8 south, Range 12 east and section 1, Township 8 south, Range 11 east, proceed south 89 degrees 51 minutes 30 seconds East a distance of 330.0 feet to a point; thence proceed north 89 degrees, 18 minutes, 18 seconds east a distance of 1,357.15 feet to a point; thence proceed north 01 degrees, 51 minutes, 49 seconds west a distance of 1,011 feet to a point at the intersection of the western right-of-way of Soult Drive and the northern right-of-way of Highway 1088; said point being the point of beginning.

From the point of beginning proceed north 01 degrees, 51 minutes, 49 seconds west a distance of 345.28 feet to a point; thence proceed south 89 degrees, 0 minutes, 48 seconds west a distance of 965 feet to a point; thence proceed south 00 degrees, 52 minutes, 25 seconds west a distance of 157.57 feet to a point; thence proceed south 88 degrees, 55 minutes, 22 seconds west a distance of 304.04 feet to a point located at the southwest corner of Lot of Lot 1, Square 26 of the Mandeville Annex Subdivision; Thence proceed north 62 degrees, 57 minutes, 19 seconds east a distance of 23.69 feet to a point located at the southeast corner of Lot 11 of the Grande Terre Subdivision; thence go north 73 degrees, 26 minutes, 16 seconds west a distance of 159.21 feet to a point; thence proceed in a south-westerly direction along the eastern right-of-way of Frenchman Drive to a point formed by the intersection of western right-of-way of Frenchman Drive and the northern right-of-way of Highway 1088; Thence proceed along the northern right-of-way line of Highway 1088 in a northwesterly direction distance of 1,875 feet to a point, said point being the point of beginning.

- f. Any property having, or proposing to have, ingress and egress to and from Lakeview Drive and Carr Drive, Slidell, Louisiana, being more particularly described as follows:

Lakeview Drive: Situated in sections 31, 32 and 33, Township 9 south, Range 14 east, St. Tammany Parish, Louisiana.

Carr Drive: Situated partially in sections 25 and 26, Township 9 south, Range 13 east, and partially in sections 29, 30, 31 and 32, Township 9 south, Range 14 east, St. Tammany Parish, Louisiana.

1. On any lot situated within the area of special concern set forth in subsection (b)(8)f of this section, the amount of fill shall not exceed an elevation of 24 inches above the centerline of the subject road (i.e., Lakeview Drive or Carr Drive).

2. No fill shall be placed on any lot or parcel within the boundaries of the area of special concern set forth in subsection (b)(8)f of this section prior to the submission of a coastal use permit application and plan and the submission of a development plan to the department of engineering that details any proposed grade work. The plan shall provide the elevation at the four corners of the lot, at the center of the proposed primary structure, and any other elevations deemed necessary by the department of engineering for review of the development plan.
3. If any fill is placed on property within the boundaries of the area of special concern set forth in subsection (b)(8)f of this section following the adoption of the ordinance from which this chapter is derived and prior to the submission of a development plan, the owner may be required to remove the fill material back down to native soils and pre-fill elevations.
4. If any fill is placed on property within the boundaries of the area of special concern set forth in subsection (b)(8)f of this section that is not in compliance with an approved development plan, fill plan and/or the plan submitted under the coastal use regulations, the owner may be required to remove all fill material that is not in compliance with the approved plans.

(9) *Fill in areas of special concern.*

- a. No fill shall be placed on any lot or parcel within the above described boundaries of an area of special concern prior to the submission of a development plan to the department of engineering detailing any proposed grade work. The development plan shall provide the elevation at the four corners of the lot, at the center of the proposed primary structure, and any other elevations deemed necessary by the department of engineering for review of the development plan.
- b. If any fill is placed on property in any of the above areas of special concern following the adoption of the ordinance designating a particular area as one of special concern and prior to the submission of a development plan, it shall be deemed a violation of this Code and the owner shall be required to remove the fill material back down to native soils and pre-fill elevations. It shall be the burden of the violator to provide proof of the predevelopment elevations. Engineering shall direct the department of code enforcement to issue the appropriate cease and desist order. Engineering shall notify GDD5 if the violation occurs within the district boundaries. GDD5 may provide a third-party review and comment at the violator's expense.
- c. No fill shall be permitted on parcels within this area that would raise or increase the surface elevation of any part of the parcel above its natural or pre-

development elevation. Fill required for minor grading to level and drain the surface at the proposed site of the primary structure and driveway may be authorized.

- d. The lowest finished floor of the primary structure shall be situated at least 24 inches above the crown of the road surface directly adjacent to and in front of the parcel.
 - e. Based on available data, the department of engineering may require a higher finished floor elevation on pier construction above the FEMA base flood elevation provided on the applicable FIRM map.
- (10) *Subsurface drainage.* It shall be unlawful for any owner, contractor, builder or subdivider to use, employ or apply fill in and/or on any lot situated within a subdivision located in the unincorporated limits of the parish wherein subsurface drainage is installed unless this material is contained within the perimeter of the lot in an adequate manner to prevent run-off of the sand, fill, clay or mixture thereof onto sidewalks, streets or into culverts or onto the property of abutting property owners.
- (11) *Relocation of open drainage ditches, drainage channels and similar drainage features.*
- a. For purposes of this subsection, the term "relocation" means changing the location of all or any part of an open drainage ditch, drainage channel or similar drainage feature that is partially located on, or which traverses, a lot or parcel of property.
 - b. The provisions of this subsection (11) shall be applicable to any lot or parcel of property, regardless of the size of the lot or parcel and whether or not it is located in a critical drainage area or area of special concern.
 - c. Whenever the owner of any lot or parcel of property proposes to fill in an existing drainage ditch, drainage channel or similar drainage feature that is partially located on, or which traverses, the owner's property in order to relocate the ditch, drainage channel or similar drainage feature to another location on the property, in addition to complying with all other applicable provisions of this section, the owner shall provide a plan for the proposed relocation, supported by a complete hydrologic report taking into consideration impacts of upstream and downstream properties, that is prepared by a licensed civil engineer. The department of engineering shall conduct a site visit prior to approval of the proposed plan. Engineering shall notify GDD5 of the proposed plan for review and comment if the subject site is within the boundaries of the district. The proposed relocation plan may be included in the "Existing and Proposed Grade Elevation Form," provided it is prepared by a licensed civil engineer.
 - d. If the proposed relocation results in all or any part of the relocated drainage ditch, drainage channel or similar drainage feature being within 20 feet of the founda-

tion of an existing or proposed structure, the relocation of the drainage ditch, drainage channel or similar drainage feature must be accomplished by subsurface installation. If no part of the drainage ditch, drainage channel or similar drainage feature is to be within 20 feet of the foundation of an existing or proposed structure, the department of engineering shall determine, considering best engineering practices and the issue of maintenance of drainage, whether subsurface installation is required for all or any part of the relocated drainage ditch, drainage channel or similar drainage feature.

- e. The requirement of subsurface installation for a relocated drainage ditch, drainage channel or similar drainage feature may be waived by the department of engineering provided that:
 - 1. The property owner, and licensed civil engineer engaged by the owner, have independently determined that the relocated drainage ditch, drainage channel or similar drainage feature, if relocated without subsurface drainage, will not undermine the foundation or otherwise cause any damage to the property or structure; and
 - 2. The department of engineering determines that the relocation will not impede drainage or interfere with the proper maintenance thereof. It is expressly prohibited to grant a waiver under this subsection within the boundaries of Gravity Drainage District No. 5.
 - f. The hereinabove provisions of this subsection (11) shall not be construed as being applicable to any roadside ditch or to any property that is publicly owned and maintained by the parish or any political subdivision thereof.
- (12) *Administration.* This chapter shall be administered by the parish department of engineering with the assistance of any other parish personnel or agency that are deemed necessary by the parish and/or its regulations.
- (13) *Exemptions.*
- a. Subdivisions which establish to the satisfaction of the parish engineer that, at the time of preliminary approval, such subdivision development and fill associated with lot development will not result in a reduction in the 100-year floodplain storage capacity, should be found to comply with these standards.
 - b. These standards shall not apply to lots in subdivisions or developments with an approved drainage plan and hydrological study. However, should the department of engineering determine, on the basis of current conditions, that the use of fill on any particular site within an otherwise exempt development would have an adverse impact on drainage, the parish shall have the authority to apply this chapter as needed to ensure the health, welfare, and safety of the public by restricting fill work.

- c. Areas enclosed by levees under forced drainage shall be exempt from this section.
- d. Coastal areas, which are those areas that are determined by the department of engineering to be subject to flooding only because of tidal inundation, not including the area of Lakeview Drive and Carr Drive being governed by the provisions of this section.
- e. The office of the parish president in consultation with the department of engineering is granted authority to determine that certain properties designated as historical by the National Park Service, upon application, be exempt from the no net fill ordinances currently in effect in the parish and to take all steps necessary to carry out the terms of this section, subject to any reasonable restrictions or requirements imposed by the president and the department of engineering.

(c) *Conflicts.* If a lot or parcel of property may be governed by more than one provision or subsection of this section, or in the event of a conflict in the applicability of any provision, the more restrictive or specific provision shall apply.

(d) *Review of decisions.* Any person or persons jointly or severally aggrieved by any decision of the department of engineering relative to the placement of fill on property governed by the provisions of this section may appeal to the board of adjustment. Such appeal shall be taken within ten days of the decision of the department of engineering, by filing with the department and with the board of adjustment a notice of appeal specifying the grounds thereof. The department shall forthwith transmit to the board all papers constituting the record upon which the action appealed from was taken. GDD5 shall provide third-party recommendations to the board when the subject property falls within the boundaries of GDD5. All costs incurred shall be borne by the person appealing the decision.

(e) *Penalties.* A violation of this section shall constitute a misdemeanor punishable by a fine of not less than \$100.00 nor more than \$500.00, or by imprisonment for not more than 30 days, or both such fines and imprisonment. Each day that a violation continues shall constitute a separate offense. In lieu of, or in addition to, the issuance of a misdemeanor summons, violations of the provisions of this chapter may be enforced by imposition of civil penalties and injunctive relief in accordance with the following:

- (1) Each day that the violation remains shall constitute a separate offense and a civil penalty of not less than \$100.00 nor more than \$500.00 per day shall be imposed.
- (2) In addition to penalties provided by this section, any violation hereof shall also be subject to an action for abatement and removal of any offending fill work and/or ground surface alteration.
- (3) Further, whenever the department of engineering has approved any application or drainage plan that contains materially false or erroneous information, the applicant

shall be responsible for all costs and expenses associated with the correction of said application and plan, and the correction of any adverse consequences resulting therefrom, including the fees of an engineering consultant to review and revise said plan.

(f) This section is intended to supersede any ordinance or regulation that may govern the placement of fill on any property, including the provisions of sections 125-92 and 125-93. Furthermore, in any event, there must be an application and approved drainage plan.

(Code 1998, § 7-002.00; Ord. No. 80-21, 8-21-1980; Ord. No. 04-0862, 4-1-2004; Ord. No. 04-0886, 5-6-2004; Ord. No. 08-1791, 4-3-2008; Ord. No. 09-1996, 1-8-2009; Ord. No. 09-2071, 6-4-2009; Ord. No. 10-2221, 3-4-2010; Ord. No. 10-2326, 9-2-2010; Ord. No. 11-2533, 6-2-2011; Ord. No. 12-2669, 2-2-2012; Ord. No. 12-2736, 5-3-2012; Ord. No. 12-2847, 10-10-2012; Ord. No. 15-3391, 9-3-2015; Ord. No. 15-3423, 11-5-2015; Ord. No. 16-3579, exh. A(7-002.00), 9-1-2016)

Sec. 115-4. Fill materials prohibited within 200 feet of drainage waterway.

(a) The parish council provides for the requirement that any development, including a residence located within 200 feet from the middle of a drainage waterway in Ward 8, excluding Parish Council District 6, as further specified must utilize pilings, piers or other similar methods to elevate the structure to the appropriate base flood elevation height as determined by FEMA instead of the use of fill. No fill should be allowed within 200 feet which is not a part of the building envelope or driveway.

(b) Fill not to exceed an average of 18 inches may be allowed to level the building envelope.

(c) Piers or similar methods allowing the sheet flow of water under the structure should be utilized to meet the required flood zone elevation. The specified drainageways are as follows:

- (1) W-15 Canal.
- (2) Gum Bayou.
- (3) W-14 Canal.
- (4) Reine Canal.
- (5) Eddines Canal.
- (6) Poor Boy Canal.
- (7) Exemptions areas or projects from the above specified drainageways.
 - a. Excluding 1,000 feet on the north side and 1,000 feet on the south side of Gause Boulevard - W-15 Canal.
 - b. Excluding the FEMA Hazard Mitigation Grant Program, Daney Street Project, W-14 Canal.
 - c. Any other authorized parish drainage project.

(d) Waiver provision. The department of engineering may waive the requirements of this chapter for a project of development, when the waiver is based on a drainage plan prepared by a licensed engineer, specific location of the project and the existing development patterns in the area or minor elevation differences between the natural ground and base flood elevation. This waiver should be based upon the report indicating that the fill will not produce a significant impact in comparison to meeting the intent of this chapter. The engineering department does have the authority not to issue a waiver regardless of the independent study which indicates that there may not be significant impact.

(Code 1998, § 7-002.01; Ord. No. 96-2494, 9-18-1996)

Secs. 115-5—115-26. Reserved.

ARTICLE II. FLOOD HAZARD AREA

DIVISION 1. GENERALLY

Sec. 115-27. Statutory authorization.

The legislature of the state has in R.S. 38:84 delegated the responsibility to local governmental units to adopt regulations designed to minimize flood losses. Therefore, the parish council does ordain as follows.

(Code 1998, § 7-016.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-28. Findings of fact.

(a) The flood hazard areas of the parish are subject to periodic inundation which results in loss of life and property, health and safety hazards, disruption of commerce and governmental services, and extraordinary public expenditures for flood protection and relief, all of which adversely affect the public health, safety and general welfare.

(b) These flood losses are created by the cumulative effect of obstructions in floodplains which cause an increase in flood heights and velocities, and by the occupancy of flood hazard areas by uses vulnerable to floods and hazardous to other lands because they are inadequately elevated, floodproofed, or otherwise protected from flood damage.

(Code 1998, § 7-017.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-29. Statement of purpose.

It is the purpose of this article to promote public health, safety and general welfare and minimize public and private losses due to flood conditions in specific areas by provisions designed:

- (1) To protect human life and health;

- (2) To minimize expenditure of public money for costly flood control projects;
 - (3) To minimize the need for rescue and relief efforts associated with flooding and generally undertaken at the expense of the general public;
 - (4) To minimize prolonged business interruptions;
 - (5) To minimize damage to public facilities and utilities such as water and gas mains, electric, telephone and sewer lines, streets and bridges located in floodplains;
 - (6) To help maintain a stable tax base by providing for the sound use and development of floodprone areas in such a manner as to minimize future flood blight areas; and
 - (7) To ensure that potential buyers are notified that property is in a flood area.
- (Code 1998, § 7-018.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-30. Methods of reducing flood losses.

In order to accomplish its purposes, this article uses the following methods:

- (1) Restricts or prohibits uses that are dangerous to health, safety or property in times of flood, or cause excessive increases in flood heights or velocities;
 - (2) Requires that uses vulnerable to floods, including facilities which serve such uses, be protected against flood damage at the time of initial construction;
 - (3) Controls the alteration of natural floodplains, stream channels, and natural protective barriers, which are involved in the accommodation of floodwaters;
 - (4) Control filling, grading, dredging and other development which may increase flood damage;
 - (5) Prevent or regulate the construction of flood barriers which will unnaturally divert floodwaters or which may increase flood hazards to other lands.
- (Code 1998, § 7-019.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-31. Definitions.

Unless specifically defined below, words or phrases used in this article shall be interpreted to give them the meaning they have in common usage and to give this article its most reasonable application.

Appeal means a request for a review of the floodplain administrator's interpretation of any provision of this article or a request for a variance.

Area of shallow flooding means a designated AO, AH or VO zone on a community's flood insurance rate map (FIRM) with a one percent chance or greater annual chance of flooding to

an average depth of one to three feet where a clearly defined channel does not exist, where the path of flooding is unpredictable and where velocity flow may be evident. Such flooding is characterized by ponding or sheet flow.

Area of special flood hazard is the land in the floodplain within a community subject to a one percent or greater chance of flooding in any given year. The area may be designated as zone A on the flood hazard boundary map (FHBM). After detailed ratemaking has been completed in preparation for publication of the FIRM, zone A usually is refined into zones A, AE, AH, AO, A1-99, VO, V1-30, VE or V.

Base flood means the flood having a one percent chance of being equaled or exceeded in any given year.

Breakaway walls means a wall that is not part of the structural support of the building and is intended through its design and construction to collapse under specific lateral loading forces, without causing damage to the elevated portion of the building or supporting foundation system.

Coastal high-hazard area means an area subject to high velocity waters, including but not limited to hurricane wave wash or tsunamis. The area is designated on FIRM as zone V1-30, VE and/or V.

Critical feature means an integral and readily identifiable part of a flood protection system, without which the flood protection provided by the entire system would be compromised.

Development means any manmade change in improved and unimproved real estate, including but not limited to buildings or other structures, mining, dredging, filling, grading, paving, excavation or drilling operations.

Elevated building means a non-basement building:

- (1) Built, in the case of a building in zones A1-30, AE, A, A99, AO, AH, B, C, X, and D, to have the top of the elevated floor, or in the case of a building in zone V1-30, VE, or V, to have the bottom of the lowest horizontal structure member of the elevated floor elevated above the ground level by means of pilings, columns (posts and piers), or shear walls parallel to the floor of the water; and
- (2) Adequately anchored so as not to impair the structural integrity of the building during a flood of up to the magnitude of the base flood.

In the case of zones A1-30, AE, A, A99, AO, AH, B, C, X, D, the term "elevated building" also includes a building elevated by means of fill or solid foundation perimeter walls with openings sufficient to facilitate the unimpeded movement of floodwaters. In the case of zones V1-30, VE, or V, the term "elevated building" also includes a building otherwise meeting the definition of

"elevated building," even though the lower area is enclosed by means of breakaway walls if the breakaway walls meet the standards of Section 60.3(e)(5) of the National Flood Insurance Program regulations.

Existing construction means for the purpose of determining rates, structures for which the "start of construction" commenced before the effective date of the FIRM or before January 1, 1975, for FIRMs effective before that date. The term "existing construction" may also be referred to as "existing structures."

Existing mobile home park or mobile home subdivision means a parcel (or contiguous parcels) of land divided into two or more mobile home lots for rent or sale for which the construction of facilities for servicing the lot on which the mobile home is to be affixed (including, at a minimum, the installation of utilities, either final site grading or the pouring of concrete pads, and the construction of streets) is completed before the effective date of the ordinance from which this chapter is derived.

Expansions to an existing mobile home park or mobile home subdivision means the preparation of additional sites by the construction of facilities for servicing the lots on which the mobile homes are to be affixed (including the installation of utilities, either final site grading or the pouring of concrete pads, and the construction of streets).

Flood or flooding means a general and temporary condition of partial or complete inundation of normally dry land areas from:

- (1) The overflow of inland or tidal waters.
- (2) The unusual and rapid accumulation or runoff of surface waters from any source.

Flood insurance rate map (FIRM) means an official map of a community, on which the Federal Emergency Management Agency has delineated both the areas of special flood hazards and the risk premium zones applicable to the community.

Flood insurance study is the official report provided by the Federal Emergency Management Agency. The report contains flood profiles, water surface elevation of the base flood, as well as the flood boundary-floodway map.

Flood protection system means those physical structural works for which funds have been authorized, appropriated, and expended and which have been constructed specifically to modify flooding in order to reduce the extent of the areas within a community subject to a "special flood hazard" and the extent of the depths of associated flooding. Such a system typically includes hurricane tidal barriers, dams, reservoirs, levees or dikes. These specialized flood-modifying works are those constructed in conformance with sound engineering standards.

Floodplain or floodprone area means any land area susceptible to being inundated by water from any source (see definition of flooding).

Functionally dependent use means a use which cannot perform its intended purpose unless it is located or carried out in close proximity to water. The term includes only docking facilities, port facilities that are necessary for the loading and unloading of cargo or passengers, and ship building and ship repair facilities, but does not include long-term storage or related manufacturing facilities.

Habitable floor means any floor usable for living purposes; which includes working, sleeping, eating, cooking or recreation, or combination thereof. A floor used for storage purposes only is not a "habitable floor."

Highest adjacent grade means the highest natural elevation of the ground surface prior to construction next to the proposed walls of a structure.

Levee means a manmade structure, usually an earthen embankment, designed and constructed in accordance with sound engineering practices to contain, control, or divert the flow of water so as to provide protection from temporary flooding.

Levee system means a flood protection system which consists of a levee, or levees, and associated structures, such as closure and drainage devices, which are constructed and operated in accordance with sound engineering practices.

Lowest floor means the lowest floor of the lowest enclosed area (including basement). An unfinished or flood-resistant enclosure, usable solely for parking or vehicles, building access or storage in an area other than a basement area is not considered a building's lowest floor; provided that such enclosure is not built so as to render the structure in violation of the applicable non-elevation design requirement of section 60.3 of the National Flood Insurance Program regulations.

Manufactured home/mobile home means a structure transportable in one or more sections, which is built on a permanent chassis and is designed for use with or without a permanent foundation when connected to the required utilities. For floodplain management purposes, the term "manufactured home" also includes park trailers, travel trailers and other similar vehicles placed on a site for greater than 180 consecutive days. For insurance purposes, the term "manufactured home" does not include park trailers, travel trailers and other similar vehicles.

Mean sea level means, for purposes of the National Flood Insurance Program, the National Geodetic Vertical Datum (NGVD) of 1929 or other datum, to which base flood elevations shown on a community's flood insurance rate map are referenced.

New construction means, for floodplain management purposes, structures for which the "start of construction" commenced on or after the effective date of a floodplain management regulation adopted by a community.

New mobile home park or mobile home subdivision means a parcel (or contiguous parcels) of land divided into two or more mobile home lots for rent or sale for which the construction of

facilities for servicing the lot on which the mobile home is to be affixed (including, at minimum, the installation of utilities, either final site grading or the pouring of concrete pads, and the construction of streets) is completed on or after the effective date of this article.

Qualified builder means a person who has obtained an occupational license which is current.

Start of construction (for other than new construction or substantial improvements under the Coastal Barrier Resources Act (Pub. L. 97-348), includes substantial improvement and means the date the building permit was issued, provided the actual start of construction, repair, reconstruction, placement or other improvement was within 180 days of the permit date. The term "actual start" means either the first placement of permanent construction of a structure on a site, such as the pouring of slab or footings, the installation of piles, the construction of columns, or any work beyond the stage of excavation; or the placement of a manufactured home on a foundation. Permanent construction does not include land preparation, such as clearing, grading and filling; nor does it include the installation of streets and/or walkways; nor does it include excavation for basement, footings, piers or foundations or the erection of temporary forms; nor does it include the installation on the property of accessory buildings, such as garages or sheds not occupied as dwelling units or not part of the main structure.

Structure means a walled and roofed building, including a gas or liquid storage tank, that is principally above ground, as well as a manufactured home.

Substantial improvement means any repair, reconstruction or improvement of a structure, the cost of which equals or exceeds 50 percent of the market value of the structure either:

- (1) Before the improvement or repair is started; or
- (2) If the structure has been damaged and is being restored, before the damage occurred.

For the purposes of this definition the term "substantial improvement" is considered to occur when the first alteration of any wall, ceiling, floor or other structural part of the building commences, whether or not the alteration affects external dimensions of the structure. The term "substantial improvement" does not include either:

- (1) Any project for improvement of a structure to comply with existing state or local health, sanitary, or safety code specifications which are solely necessary to ensure safe living conditions; or
- (2) Any alterations of a structure listed on the National Register of Historic Places or state inventory of historic places.

Variance is a grant of relief to a person from the requirements of this article when specific enforcement would result in unnecessary hardship. A variance, therefore, permits construction or development in a manner otherwise prohibited by this article. (For full requirements, see section 60.6 of the National Flood Insurance Program regulations.)

Violation means the failure of a structure or other development to be fully compliant with the community's floodplain management regulations. A structure or other development without the elevation certificate, other certifications, or other evidence of compliance required in section 60.3(b)(5), (c)(4), (c)(10), (d)(3), (e)(2), (e)(4), or (e)(5) of the National Flood Insurance Program regulations is presumed to be in violation until such time as that documentation is provided.

Water surface elevation means the height, in relation to the National Geodetic Vertical Datum (NGVD) of 1929 (or other datum, where specified), of floods of various magnitudes and frequencies in the floodplains of coastal or riverine areas.

(Code 1998, § 7-019.01; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-32. Lands to which this article applies.

This article shall apply to all areas of special flood hazard within the jurisdiction of the parish council.

(Code 1998, § 7-020.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 89-1053, 3-16-1989)

Sec. 115-33. Basis for establishing the areas of special flood hazard.

(a) The areas of special flood hazard identified by the Federal Emergency Management Agency in a scientific and engineering report entitled, "Flood Insurance Study for St. Tammany Parish, Louisiana (Unincorporated Areas)" dated October 17, 1989, with accompanying flood insurance rate maps and flood boundary-floodway maps (FIRM and FBFM). The subsequent amendments made by FEMA to the rate maps and Flood Boundary Floodway Maps and or Flood Insurance Studies and Reports shall be automatically assimilated and made part of this article without further promulgation or documentation.

(b) St. Tammany Parish Ordinance Calendar No. 368, Ordinance Police Jury Series 85-341 provides for the requirement that all habitable floor elevations located within flood zones designated A-1 through A-30 on the parish's FIRM, within the specific area defined by Ordinance Calendar No. 368, be one foot above the 100-year base flood elevation.

(Code 1998, § 7-022.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989; Ord. No. 90-1376, 12-20-1990)

Sec. 115-34. Establishment of development permit.

A development permit shall be required to ensure conformance with the provisions of this article.

(Code 1998, § 7-022.01; Ord. No. 89-1053, 3-16-1989)

Sec. 115-35. Compliance.

No structure or land shall hereafter be located, altered, or have its use changed without full compliance with the terms of the article and other applicable regulations.

(Code 1998, § 7-022.02; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 89-1053, 3-16-1989)

Sec. 115-36. Abrogation and greater restrictions.

This article is not intended to repeal, abrogate, or impair any existing easements, covenants, or deed restrictions. However, where this article and another conflict or overlap, whichever imposes the more stringent restrictions shall prevail.

(Code 1998, § 7-022.03; Ord. No. 89-1053, 3-16-1989)

Sec. 115-37. Interpretation.

In interpretation and application of this article, all provisions shall be:

- (1) Considered as minimum requirements;
- (2) Liberally construed in favor of the governing body; and
- (3) Deemed neither to limit nor repeal any other powers granted under state statutes.

(Code 1998, § 7-022.04; Ord. No. 89-1053, 3-16-1989)

Sec. 115-38. Warning and disclaimer of liability.

The degree of flood protection required by this article is considered reasonable for regulatory purposes and is based on scientific and engineering considerations. On rare occasions greater floods can and will occur and flood heights may be increased by manmade or natural causes. This article does not imply that land outside the areas of special flood hazards or uses permitted within such areas will be free from flooding or flood damages. This article shall not create liability on the part of the community or any official or employee thereof for any flood damages that result from reliance on this article or any administrative decision lawfully made thereunder.

(Code 1998, § 7-022.05; Ord. No. 89-1053, 3-16-1989)

Sec. 115-39. Designated flood determination zone.

All property within the area defined by the below mentioned description (section 115-40) and defined per map attached to parish council Ordinance No. 93-1832, shall be required to construct the first habitable floor a structure at least one foot above the base flood elevation as determined by the FEMA Flood Insurance Rate Maps (FIRMS). Those areas affected shall include all flood zone designations including flood zone C.

(Code 1998, § 7-022.10; Ord. No. 93-1832, 10-21-1993)

Sec. 115-40. Flood zone C.

Commencing at the intersection of U.S. Highway 190 and Interstate 10; thence north along Interstate 10 to its intersection with Old U.S. Highway 11; thence east along Old U.S. Highway 11 to its intersection with the Pearl River; thence meandering southward along the Pearl River to its intersection with U.S. Highway 90; thence west along U.S. Highway 90 to its intersection with U.S. Highway 190; thence west along U.S. Highway 190 to its intersection with Interstate 10; to the point of beginning.

(Code 1998, § 7-022.11; Ord. No. 93-1804, 8-19-1993)

Secs. 115-41—115-68. Reserved.

DIVISION 2. ADMINISTRATION

Sec. 115-69. Designation of the floodplain administrator.

The department of permits and inspections is hereby appointed the floodplain administrator to administer and implement the provisions of this article and other appropriate sections of 44 CFR (National Flood Insurance Program regulations) pertaining to floodplain management. (Code 1998, § 7-023.00)

Sec. 115-70. Duties and responsibilities of the floodplain administrator.

Duties and responsibilities of the floodplain administrator shall include, but is not limited to, the following:

- (1) Maintain and hold open for public inspections all records pertaining to the provisions of this article.
- (2) Review permit applications to determine whether proposed building site will be reasonably safe from flooding.
- (3) Review, approve or deny all applications for development permits required by adoption of this article.
- (4) Review permits for proposed development to assure that all necessary permits have been obtained from those federal, state or local governmental agencies (including section 404 of the Federal Water Pollution Control Act Amendments of 1972, 33 USC 1334) from which prior approval is required.
- (5) Where interpretation is needed as to the exact location of the boundaries of the areas of special flood hazards (for example, where there appears to be a conflict between a mapped boundary and actual field conditions), the floodplain administrator shall make the necessary interpretation.

- (6) Notify, in riverine situations, adjacent communities and the state coordinating agency, which is the department of urban and community affairs, prior to any alteration or relocation of a watercourse, and submit evidence of such notification to the Federal Emergency Management Agency.
 - (7) Ensure that the flood-carrying capacity within the altered or relocated portion of any watercourse is maintained.
 - (8) When base flood elevation data has not been provided in accordance with section 115-33, the floodplain administrator shall obtain, review and reasonably utilize any base flood elevation data and floodway data available from a federal, state or other source, in order to administer the provisions of division 1 of this article II.
 - (9) When a regulatory floodway has not been designated, the floodplain administrator must require that no new construction, substantial improvements, or other development (including fill) shall be permitted within zones A1-30 and AE on the community's FIRM unless it is demonstrated that the cumulative effect of the proposed development, when combined with all other existing and anticipated development, will not increase the water surface elevation of the base flood more than one foot at any point within the community.
- (Code 1998, § 7-023.01; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-71. Permit procedures.

(a) Application for a development permit shall be presented to the floodplain administrator on forms furnished by him and may include, but not be limited to, plans in duplicate drawn to scale showing the location, dimensions, and elevation of proposed landscape alterations, existing and proposed structures, and the location of the foregoing in relation to areas of special flood hazard. Additionally, the following information is required:

- (1) Elevation (in relation to mean sea level), of the lowest floor (including basement) of all new and substantially improved structures;
- (2) Elevation in relation to mean sea level to which any nonresidential structure shall be floodproofed;
- (3) A certificate from a registered professional engineer or architect that the nonresidential floodproofed structure shall meet the floodproofing criteria of section 115-106(b);
- (4) Description of the extent to which any watercourse or natural drainage will be altered or relocated as a result of proposed development;
- (5) Maintain a record of all such information in accordance with section 115-70(1);
- (6) Survey and deed of legal description of property;

- (7) Vicinity map and plot plan describing location of construction or location of dwelling on property and set back lines, as well as location of well and septic tank;
- (8) Approval by the parish board of health;
- (9) Submission of application for building permit;
- (10) Submission of application for certificate of occupancy;
- (11) Furnish a certificate of elevation documented on Federal Emergency Management Agency Form 81-31 or subsequent agency form;
- (12) Pay all required fees.

(b) Approval or denial of a development permit by the floodplain administrator shall be based on all of the provisions of this article and the following relevant factors:

- (1) The danger to life and property due to flooding or erosion damage;
- (2) The susceptibility of the proposed facility and its contents to flood damage and the effect of such damage on the individual owner;
- (3) The danger that materials may be swept onto other lands to the injury of others;
- (4) The compatibility of the proposed use with existing and anticipated development;
- (5) The safety of access to the property in times of flood for ordinary and emergency vehicles;
- (6) The costs of providing governmental services during and after flood conditions including maintenance and repair of streets and bridges, and public utilities and facilities such as sewer, gas, electrical and water systems;
- (7) The expected heights, velocity, duration, rate of rise and sediment transport of the floodwaters and the effects of wave action, if applicable, expected at the site;
- (8) The necessity to the facility of a waterfront location, where applicable;
- (9) The availability of alternative locations, not subject to flooding or erosion damage, for the proposed use;

- (10) The relationship of the proposed use to the comprehensive plan for that area.

(Code 1998, § 7-023.02; Ord. No. 89-1053, 3-16-1989; Ord. No. 92-1597, 5-21-1992)

Sec. 115-72. Variance procedures.

(a) The appeal board as established by the parish council shall hear and render judgment on requests for variances from the requirements of this article.

(b) The appeal board shall hear and render judgment on an appeal only when it is alleged there is an error in any requirement, decision or determination made by the floodplain administrator in the enforcement or administration of this article.

(c) Any person or persons aggrieved by the decision of the appeal board may appeal such decision in the courts of competent jurisdiction.

(d) The floodplain administrator shall maintain a record of all actions involving an appeal and shall report variances to the Federal Emergency Management Agency upon request.

(e) Variances may be issued for the reconstruction, rehabilitation or restoration of structures listed on the National Register of Historic Places or the state inventory of historic places, without regard to the procedures set forth in the remainder of this article.

(f) Variances may be issued for new construction and substantial improvements to be erected on a lot of one-half acres or less in size contiguous to and surrounded by lots with existing structures constructed below the base flood level, providing the relevant factors in section 115-71(b) having been fully considered. As the lot size increases beyond one-half acre, the technical justification required for issuing the variance increases.

(g) Upon consideration of the factors noted above and the intent of this article, the appeal board may attach such conditions to the granting of variances as it deems necessary to further the purpose and objectives of section 115-29.

(h) Variances shall not be issued within any designated floodway if any increase in flood levels during the base flood discharge would result.

(i) Prerequisites for granting variances:

- (1) Variances shall only be issued upon a determination that the variance is the minimum necessary, considering the flood hazard, to afford relief.
- (2) Variances shall only be issued upon:
 - a. Showing a good and sufficient cause;
 - b. A determination that failure to grant the variance would result in exceptional hardship to the applicant; and
 - c. A determination that the granting of a variance will not result in increased flood heights, additional threats to public safety, extraordinary public expense, create nuisances, cause fraud on or victimization of the public, or conflict with existing local laws or ordinances.
- (3) Any application to whom a variance is granted shall be given written notice that the structure will be permitted to be built with the lowest floor elevation below the base flood elevation, and that the cost of flood insurance will be commensurate with the increased risk resulting from the reduced lowest floor elevation.

(j) Variances may be issued by a community for new construction and substantial improvements and for other development necessary for the conduct of a functionally dependent use provided that:

- (1) The criteria outlined in section 115-71(b)(1)—(9) are met; and
 - (2) The structure or other development is protected by methods that minimize flood damages during the base flood and create no additional threats to public safety.
- (Code 1998, § 7-024.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 82-313, 1-21-1982; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-73. Permit fees.

- (a) *Minimum fee.* A minimum fee of not less than \$5.00 shall be required for a permit.
 - (b) *Fee schedule.* The following table shall be used to determine the fee due: \$0.09 per square foot.
 - (c) *Special MH/mobile home permit fee.* The following shall be used to determine the fee due: \$0.09 per square foot for each square foot of residential space plus \$5.00 minimum for each anchorage inspection fee.
- (Code 1998, § 7-030.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Secs. 115-74—115-104. Reserved.

DIVISION 3. PROVISIONS FOR FLOOD HAZARD REDUCTION

Sec. 115-105. General standards.

- (a) In all areas of special flood hazards the following provisions are required:
 - (1) All new construction and substantial improvements shall be designed (or modified) and adequately anchored to prevent flotation, collapse or lateral movement of the structure resulting from hydrodynamic and hydrostatic loads, including the effects of buoyancy.
 - (2) All new construction or substantial improvements shall be constructed by methods and practices that minimize flood damage.
 - (3) All new construction or substantial improvements shall be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

(4) All new construction or substantial improvements shall be constructed with electrical, heating, ventilation, plumbing, and air conditioning equipment and other service facilities that are designed and/or located so as to prevent water from entering or accumulating within the components during conditions of flooding.

(5) All new and replacement water supply systems shall be designed to minimize or eliminate infiltration of floodwaters into the system.

(b) New and replacement sanitary sewage systems shall be designed to minimize or eliminate infiltration of floodwaters into the system and discharge from the systems into floodwaters.

(c) On-site waste disposal systems shall be located to avoid impairment to them or contamination from them during flooding.

(Code 1998, § 7-041.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-106. Specific standards.

(a) *Residential construction.* New construction and substantial improvements of any residential structure shall have the lowest floor (including basement) elevated to or above the base flood elevation. A registered professional engineer, architect or land surveyor shall submit a certificate of elevation, documented on the Federal Emergency Management Agency Form 81-31 or subsequent agency form, indicating that the standards of this subsection and as per section 115-71 have been satisfactorily met.

(b) *Nonresidential construction.* New construction and substantial improvements of any commercial, industrial or other nonresidential structure shall either have the lowest floor (including basement) elevated to or above the base flood level or, together with attendant utility and sanitary facilities, be designed so that below the base flood level the structure is watertight with walls substantially impermeable to the passage of water and with structural components having the capability of resisting hydrostatic and hydrodynamic loads and effects of buoyancy. A registered professional engineer or architect shall develop and/or review structural design, specifications, and plans for the construction, and shall certify that the design and methods of construction are in accordance with accepted standards of practice as outlined in this subsection (in relation to mean sea level) to which such structures are floodproofed shall be maintained by the floodplain administrator.

(c) *Enclosures.* New construction and substantial improvements, with fully enclosed areas below the lowest floor that are subject to flooding, shall be designed to automatically equalize hydrostatic flood forces on exterior walls by allowing for the entry and exit of floodwaters. Designs for meeting this requirement must either be certified by a registered professional engineer or architect or meet or exceed the following minimum criteria:

(1) A minimum of two openings having a total net area of not less than one square inch for every square foot of enclosed area subject to flooding shall be provided.

- (2) The bottom of all openings shall be no higher than one foot above grade.
- (3) Openings may be equipped with screens, louvers, valves, or other coverings or devices provided that they permit the automatic entry and exit of floodwaters.
- (d) *Manufactured homes.*
 - (1) Require that all manufactured homes to be placed within zone A shall be installed using methods and practices which minimize flood damage. For the purpose of this requirement, manufactured homes must be elevated and anchored to resist flotation, collapse or lateral movement. Methods of anchoring may include, but are not limited to, use of over-the-top or frame ties to ground anchors. This requirement is in addition to applicable state and local anchoring requirements for resisting wind forces.
 - (2) All manufactured homes shall be in compliance with subsection (a) of this section.
 - (3) Require that all manufactured homes to be placed or substantially improved within zones A1-30, AH and AE on the community's FIRM be elevated on a permanent foundation such that the lowest floor of the manufactured home is at or above the base flood elevation; and be securely anchored to an adequately anchored foundation system in accordance with the provision of this subsection (d).
- (e) *Construction sites; stormwater runoff.*
 - (1) *General provisions.*
 - a. *Abbreviation of terms.* The following abbreviations when used in this section shall have the designated meanings:

BMP	Best Management Practices
CFR	Code of Federal Regulations
CWA	Clean Water Act
EPA	United States Environmental Protection Agency
LA	Load Allocation
LAC	Louisiana Administrative Code
LDEQ	Louisiana Department of Environmental Quality
LPDES	Louisiana Pollutant Discharge Elimination System
MPN	Most Probable Number
MS4	Municipal Separate Storm Sewer System
NOI	Notice of Intent
NPDES	National Pollutant Discharge Elimination System
SPCC	Spill Prevention Control and Countermeasure
STPG	St. Tammany Parish Government
SWMP	Stormwater Management Plan
SWPPP	Stormwater Pollution Prevention Plan
TMDL	Total Maximum Daily Load

WLA	Waste Load Allocation
WOTUS	Waters of the United States

- b. *Definitions.* The following words, terms and phrases, when used in this subsection (e), shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Best management practices (BMPs) means schedules of activities, prohibitions of practices, maintenance procedures, treatment requirements, operating procedures, and other practices used to prevent or reduce contaminated discharges or runoff.

BMPs for Coastal Louisiana Zone manuals means technical manuals prepared by the Louisiana Coastal Nonpoint Pollution Control Program to minimize coastal impacts from developmental activities and control nonpoint source pollution resulting from stormwater runoff. The manual includes nonpoint source BMPs specific to the Louisiana Coastal Zone and is to be used as a guide for developers, builders, and engineering firms during the design and construction phase of development.

Clean Water Act (CWA) means the primary federal law in the United States governing water pollution. Its objective is to restore and maintain the chemical, physical, and biological integrity of the nation's waters by preventing point and nonpoint pollution sources, improving wastewater treatment, and maintaining the integrity of wetlands. It is administered by the U.S. Environmental Protection Agency (EPA), in coordination with state governments. The CWA is codified in 40 CFR 100—140, 401—471, and 501—503).

Commercial means any activity pertaining to a business, industry, corporation, or organization.

Construction means any human activity that includes clearing, grading, excavation, filling, or other placement, movement, removal, or depositing of soil, rock, organic materials, or earth minerals.

Contaminated means containing any pollutant which is introduced into stormwater conveyances by stormwater contact with industrial activities as defined by L.A.C. 33:IX.2511.B.14-15 and 40 CFR 122.26(b)(14) or through illicit discharges.

Conveyance means drainage infrastructure, including any ditch, pipe, canal, or waterway that moves water in the Parish.

Discharge means any stormwater or wastewater, including but not limited to sheet flow and point source, introduced into the MS4, drainage infrastructure, conveyances, ditches, or waterways of the parish, or into waters of the United States.

Discharger means any person or property who causes, allows, or is otherwise responsible for a discharge.

Facility means any building, structure, property, installation, process or activity from which there is or may be a discharge of a pollutant.

Fertilizer means any substance that contains essential plant nutrients in a form available to plants and is used primarily for promoting or stimulating growth of a plant or improving the quality of a crop.

Fill or filling means the deposition of soil and other inert materials on the land to raise its grade and/or smooth its features.

Hazardous substance means any of the following: any substance determined to be hazardous according to 49 CFR 171.8. or listed in Table 302.4 of 40 CFR 302 or section 311(b)(2)(A) of the Clean Water Act (33 USC 1317(a) and 1321(b)(A)).

Hazardous waste means any substance identified or listed as a hazardous waste by the EPA pursuant to 40 CFR 261.

Herbicide means a substance used to defoliate, desiccate, destroy, inhibit or regulate vegetation.

Illicit discharge means a prohibited non-stormwater discharge containing pollutants.

Louisiana discharge permit elimination system (LPDES) permit or national discharge permit elimination system (NPDES) permit means the permit issued by the LDEQ or the EPA, under authority delegated pursuant to 33 USC 1342(b) that authorizes the discharge of pollutants to waters of the United States.

Most probable number (MPN) means the number of organisms that are most likely to have produced laboratory results in a particular test. The MPN method is used to estimate the concentration of the viable microorganisms in a sample based on dilution factors.

Municipal separate storm sewer system (MS4) means roadside drainage systems, catch basins, curbs, gutters, ditches, manmade channels, or storm drains used for collecting and/or conveying stormwater in the parish.

Notice of intent (NOI) means the notice of intent that is required by the LPDES general permit for discharges of stormwater from construction activities five acres or greater, the multi-sector general permit for stormwater, or other general permits for the discharge of stormwater.

Non-point source pollution means pollution discharged over a wide land area that cannot be traced to one specific point or location. These are forms of diffuse pollution caused by sediment, nutrients, organic, and toxic substances contained in stormwater runoff from urbanized areas, construction sites, agricultural sites, and silvicultural operations, etc.

Operator means the person or persons who, either individually or taken together, has operational control over the facility; or has day-to-day operational control over those activities at the facility necessary to ensure compliance with pollution prevention requirements and any permit conditions.

Person means any individual, partnership, firm, company, corporation, association, trust, estate, entity, or any legal representative, agent, or assignee.

Pesticide means a substance used to prevent, destroy, repel, or mitigate any pest.

Point source means the discharge of pollutants at a specific location from pipes, outfalls, channels, or other discernible or discrete conveyances. The term "point source" does not include irrigation flow returns from agricultural stormwater runoff.

Pollutant means dredged spoil, solid waste, sewage, garbage, sludge, chemical waste, biological materials, radioactive materials, heat, rock, soil, sediment, or industrial waste discharged into waters of the state and/or the MS4, drainage infrastructure, conveyances, or waterways of the parish.

Pollution means the contamination of the physical, thermal, chemical, or biological quality of waters that causes impairment of the designated uses of a water body as stipulated in the current EPA integrated report or renders the water harmful, detrimental, injurious to humans, animal life, vegetation, or impairs the usefulness for the public enjoyment of the water for any lawful or reasonable purpose.

Release means any spilling, leaking, pumping, pouring, discharging, injecting, leaching, dumping, or disposing, directly or indirectly, into the MS4, drainage infrastructure, conveyances, or waterways of the parish.

Sanitary sewage means the domestic sewage and/or industrial waste that is discharged into the sanitary sewer system and passes through the sanitary sewer system to any public or privately owned sewage treatment plant.

Sanitary sewer (or sewer) means the system of pipes, conduits, and other conveyances which carry industrial waste and sanitary sewage from residential dwellings, commercial buildings, industrial and manufacturing facilities, and institutions, whether treated or untreated, to any sewage treatment plant.

Site work means excavation, grading, filling, cutting, draining, paving, earthwork, stockpiling/storage of fill.

Sediment means soil, sand, clay, and minerals washed from land into roadways, drainage infrastructure, and waterways, usually during or after a rain. Sediment may cause a reduction in storage capacity, impede drainage, destroy fish-nesting areas, clog animal habitats, and cloud waters to such an extent as to prevent sunlight from reaching aquatic biota.

Solid waste means any garbage, rubbish, refuse, sludge from a waste treatment plant, water supply treatment plant, or air pollution control facility, and other discarded material, including, solid, liquid, semi-solid, or contained gaseous material resulting from construction or industrial, municipal, commercial, mining, and agricultural operations, and from community and institutional activities.

Stormwater means stormwater runoff, surface runoff and drainage runoff. (Agricultural stormwater may be excluded, subject to the provisions of L.A.C. 33:IX.2313.)

Stormwater agreement means the agreement utilized by the parish and signed by the contractor, developer, land owner, or agent to ensure all required permits are in place and the implementation of BMPs will be used to control erosion and sedimentation and reduce the pollutants in stormwater discharges associated with excavation, grading, filling, and other construction projects as well as heavy equipment fuels/oils and grease.

Stormwater pollution prevention plan (SWPPP) means a plan required by the LPDES general permits for discharge of stormwater from construction activities (LAR100000 AND LAR200000), LPDES multi-sector general permit, or any LPDES individual permit which describes and ensures the implementation of practices that are to be used to reduce the pollutants in stormwater discharges associated with construction or other industrial activity at the facility.

Total maximum daily load (TMDL) means the water quality assessment that determines the source of pollutants of concern for a particular water body; considers the maximum amount of pollutants the waterbody is able to assimilate and still meet WLA standards; and then allocates to each source a set level of pollutants that is allowed to discharge.

Waste load allocation (WLA) means that portion of the assimilative capacity of the receiving water apportioned to a specific discharger in such a way that water quality standards are maintained under design conditions.

Wastewater means any water or other liquid, other than uncontaminated stormwater, discharged from a facility.

Water quality standard means the numerical criterion established by LDEQ and deemed necessary by the state to protect the designated uses of a water body.

Waters of the United States (WOTUS) means any waters within the federal definition of "waters of the United States" at 40 CFR 122.2; but not including any waste treatment systems, treatment ponds, or lagoons designed to meet the requirements of the federal Clean Water Act.

Wetland means an area that is frequently inundated or saturated by water and is sufficient to support a prevalence of vegetation typically adapted for life in saturated soil conditions. Wetlands generally include swamps, marshes, bogs, and similar areas.

- c. *Purpose.* The purposes and objectives of this subsection (e) are to establish policies and procedures for the permitting, monitoring, and/or enforcement regarding illicit discharge detection and elimination, construction site runoff control, and post-construction runoff control. In doing so, the provisions will allow the parish to:
1. Comply with the MS4 permit, all federal, state, and local regulations applicable to stormwater and non-stormwater discharges.
 2. Manage stormwater impacts at their source and prevent contaminated stormwater and non-stormwater discharges into the MS4, drainage infrastructure, conveyances, and waterways within the parish.
 3. Provide for proper operations and maintenance of all permanent and non-permanent stormwater management BMPs that are implemented within the parish.
 4. Provide review procedures and performance standards for stormwater planning and management.
 5. Facilitate compliance with federal and state water quality standards, limitations, and permits by owners and operators of commercial and industrial activities and construction sites within the parish.
- d. *Administration.*
1. The parish MS4 administrator shall administer, implement, and enforce the provisions of this subsection (e). Any powers granted to or duties imposed upon the MS4 administrator shall be carried out by the administrator or may be delegated to other authorized personnel.
 2. The parish may adopt, by council action, reasonable stormwater fees for reimbursement of costs related to administration of this subsection (e), MS4 compliance, TMDL implementation, and costs related to the SWMP as required by the EPA or LDEQ. Fees are provided in chapter 2, article XVII.
- (2) *Non-stormwater and illicit discharges.*
- a. *Prohibited non-stormwater illicit discharge.*
1. *General prohibition.* No person shall introduce or cause to be introduced into the MS4, drainage infrastructure, conveyances, or waterways of the parish any illicit discharge, including non-stormwater discharges that are not composed entirely of stormwater, except as expressly provided for in this subsection (e).
 - (i) No person shall introduce or cause to be introduced into the MS4, drainage infrastructure, conveyances, or waterways of the parish any discharge that causes or contributes to violation of a water quality standard.

- (ii) No person shall connect an interior drain or any other source of wastewater to the MS4, drainage infrastructure, conveyances, or waterways of the parish, or allow such a connection to continue.
- (iii) Any person that causes a spill, release, or other discharge of a prohibited substance or other pollutant in the parish is solely responsible for the cleanup and removal of the substance.
- (iv) Sanitary sewer overflows to the MS4, drainage infrastructure, conveyances, or waterways of the parish shall be prevented. In the event of an overflow the owner, operator, or person otherwise having control of the sanitary sewer, shall remove all sewage to the maximum extent practical.
- (v) Items that are stored for collection, disposal, recycling or reuse shall be stored in a manner that prevents contamination of stormwater. Drums shall be covered and/or in secondary containment where required, closed, not leaking, and in good condition.
- (vi) Spills and leaks of hazardous substances or pollutants shall be cleaned up immediately after the spill occurs or the leak is detected. Any absorbent material used for cleanup must be disposed of properly and disposed of in accordance with solid waste regulations. Surface soil contaminated by the spill or leak must be removed or otherwise protected from contact with stormwater.
- (vii) Drip pans, absorbent mats, or equivalent controls shall be used to collect and properly dispose of leaking fluids from motor vehicles that are parked outside during maintenance and repairs or while waiting for repairs at commercial repair facilities.
- (viii) Used engines, transmissions, radiators, and other vehicle components that have automotive fluids in, or on them, shall be stored in a manner that prevents pollutants from contaminating stormwater runoff.
- (ix) Any person or establishment that causes a spill, release, or other discharge of any prohibited substance or other pollutant to the MS4, drainage infrastructure, conveyances, or waterways of the parish is solely responsible for notifying the appropriate agency and/or permit authorities of the unauthorized release.
- (x) Trash, litter, grass clippings, leaves, and other debris shall not be discarded in drainage ditches or drainage inlets. Such material shall be disposed of as solid waste and shall not be allowed to enter the MS4, drainage infrastructure, conveyances, or waterways of the parish.

2. *Specific prohibitions.* No person shall dump, spill, leak, pump, pour, emit, empty, discharge, leach, dispose, or otherwise introduce or cause, allow, or permit to be introduced any of the following substances into the MS4, drainage infrastructure, conveyances, or waterways of the parish:
- (i) Any used motor oil, antifreeze, hydraulic fluid, fuel, or other motor vehicle fluid;
 - (ii) Any industrial or hazardous waste, including household hazardous waste;
 - (iii) Any untreated sanitary sewage or septic tank waste;
 - (iv) Any grease trap waste, or grit trap waste;
 - (v) Any trash or other debris material;
 - (vi) Any untreated wastewater from a commercial car wash facility, or from any washing or cleaning of any commercial or public service vehicle, including heavy equipment;
 - (vii) Any contaminated wastewater or wash water from commercial cleaning, power, or pressure wash processes or wash racks;
 - (viii) Any wastewater from the cleanup following a release of hazardous waste or pollutants;
 - (ix) Any discharge from a commercial or industrial cooling tower, condenser, compressor, or boiler unless the discharge is in compliance with an LPDES or NPDES permit;
 - (x) Any concrete, mortar, ceramic, or asphalt base material;
 - (xi) Any discharge or wash down water from an animal, fowl, or livestock containment area;
 - (xii) Any unpermitted stormwater discharge associated with a commercial or industrial activity;
 - (xiii) Any substance or material that will damage, block, or clog the MS4, drainage infrastructure, conveyances, or waterways of the parish;
 - (xiv) Any construction debris or other waste building material resulting from construction or demolition;
 - (xv) Any sediment, silt, earth, soil, or other material associated with clearing, grading, excavation, filling, or other construction activities;
 - (xvi) Any direct discharge of pesticide, herbicide, and/or fertilizer;
 - (xvii) Any discharge that causes or contributes to a violation of a water quality standard.

- (xviii) The following restrictions apply to discharges associated with discharges from pools, hot tubs, spas, and filter backwash, which is a rinsate resulting from the cleaning of equipment, vehicles, tools, containers, cartridges, filters, etc.:
 - A. For uncontaminated discharge that cannot be retained on site for irrigation or other uses, a gradual, metered discharge is required;
 - B. Discharge shall be dechlorinated with no detectable concentration of total residual chlorine, prior to discharge;
 - C. Discharge shall not drain or back up onto adjacent properties;
 - D. Discharge shall not cause erosion or sediment transport;
 - E. Discharge shall not cause an accumulation of water in roadways or along curbs and shall not cause adverse impacts to drainage infrastructure, waterways, roadways, or adjacent properties.
- b. *Allowable non-stormwater discharges.*
 - 1. The following discharges have not been identified by the parish as significant contributors of pollutants to the MS4 or surface waters of the parish and therefore are allowable non-stormwater discharges:
 - (i) A discharge authorized by, and in full compliance with, an NPDES or LPDES permit;
 - (ii) Discharges from firefighting activities;
 - (iii) An uncontaminated discharge of fire protection water;
 - (iv) Agricultural stormwater runoff;
 - (v) Potable water sources including dechlorinated water line and fire hydrant flushing;
 - (vi) A discharge from lawn watering, or landscape irrigation;
 - (vii) A discharge or flow from a diverted stream flow or natural spring;
 - (viii) A discharge or flow from uncontaminated groundwater;
 - (ix) Uncontaminated discharge from foundation drains, crawl spaces, or footing drains;
 - (x) A discharge or flow from a riparian habitat or wetland;
 - (xi) Wash water from individual residential and nonprofit car washing;
 - (xii) A discharge of air conditioning condensate; and
 - (xiii) A discharge or flow of water used in street, parking lot, or structure cleaning that is not contaminated with soaps, detergents, emulsifiers, dispersants, chemicals, or other pollutants.

2. In the event the parish determines that any of the discharges identified in subsection (e)(2)b.1 of this section significantly contribute to pollution of surface waters of the parish, or is so notified by LDEQ, the parish will notify the responsible person to cease the discharge.
3. Nothing in this subsection (e) shall affect a discharger's responsibility under federal or state law.

(3) *Stormwater discharges from construction activities.*

a. *General requirements.*

1. No development shall degrade water quality, adversely affect the MS4, drainage infrastructure, conveyances, or waterways.
2. All construction projects involving site work of any kind, including but not limited to subdivision development, minor subdivision development, residential construction, commercial construction, and roadway construction shall comply with the stormwater requirements of this section.
3. All appropriate parish permits shall be obtained before the commencement of construction. Permitting requirements that pertain to stormwater plan reviews are outlined in subsection (e)(3)b of this section.
4. All operators of construction sites shall use appropriate BMPs to control discharge to waterways and conveyances of the parish. Pollutants such as silt, sediment, mud, clay, and other construction contaminant materials associated with site work of any kind shall be controlled to the maximum extent practical.
5. Operators shall refer to guidance manuals such as the BMPs for Coastal Louisiana Zone for BMP definitions, selection, applicability, planning considerations, recommended specifications and maintenance.

b. *Permitting requirements.* No persons shall perform any construction within unincorporated St. Tammany Parish without first obtaining the appropriate permits from STPG. An executed stormwater agreement and a stormwater site plan will be required upon building/site work permit application for the project types listed below. Fees associated with the following permitting activities will be in accordance with chapter 2, article XVII:

1. *Applicable project types.*
 - (i) New residential and commercial construction;
 - (ii) New construction of accessory buildings greater than or equal to 100 square feet (per section 105-58);
 - (iii) Site work construction;
 - (iv) Pool installation;

- (v) Pond excavation;
 - (vi) Subdivision development;
 - (vii) Minor subdivision development;
 - (viii) Remodel permits that only involve alteration to existing site drainage.
2. *Exemptions.* The following project types are exempt from the requirement for a stormwater agreement and stormwater site plan. These exemptions do not relieve the owner, operator, or other legal representative of the responsibility of installing and properly maintaining the erosion, sedimentation, or pollution control measures or any other liability resulting from such activities.
- (i) Capital projects or infrastructure improvement projects by parish personnel (such projects shall comply with all other state, federal, and local stormwater permit requirements). This exemption does not apply to private contractors working on parish projects;
 - (ii) An activity that is determined by an parish official to be immediately necessary for the protection of life, property, or natural resources;
 - (iii) Excavation of graves in cemeteries;
 - (iv) Agricultural practices such as plowing, cultivation, tree cutting, logging operations that leave the stump and root mat intact, and cultivated sod operations. Agricultural projects shall comply with all other state, federal, and local stormwater and water quality requirements.
3. *Stormwater agreement.*
- (i) It shall be the responsibility of the property owner or his designee to acquire and comply with any applicable LDEQ permits prior to the commencement of construction. The parish shall require an approved stormwater agreement for any development or improvement project that requires a building permit, site work permit or subdivision work order. This agreement, which is a document provided by the parish, will serve as a signed contract with the parish stating that the property owner or his designee agrees to obtain an LDEQ permit for construction, if applicable, and comply with all applicable LDEQ regulations during the term of the project.
 - (ii) For subdivisions developed in phases, a stormwater agreement shall be submitted at the preliminary approval phase for each phase of the development.
4. *Stormwater site plan.*
- (i) A stormwater site plan is a component of the SWPPP as required by LDEQ. In an effort to ensure the owner, developer or contractor has a

sufficient plan to address necessary stormwater controls before the commencement of construction, the parish shall require a copy of the stormwater site plan at the time of building permit application. This information may be included on a plot plan depending on the complexity of the project.

- (ii) An approved stormwater site plan is required with submittal of any applicable building permit, site work permit or drainage plan for a subdivision within unincorporated St. Tammany Parish. The site plan shall contain the following:
 - A. The property owner's name, address, date, legal description of parcel, lot number, and a boundary survey indicating the location, and dimensions of the lot;
 - B. The shape, size, and location of all existing and proposed buildings or other structures;
 - C. The location and approximate dimension of driveways, entrances, and all points of access to a public street or road;
 - D. Locations of areas subject to flooding or limits of floodplain, if applicable;
 - E. Total land area;
 - F. The locations of all existing and proposed streets, alleys, utilities, stormwater conveyances, drainage features, sanitary sewers and drainage, utility, or access easements/servitudes, specifically noting connections to parish conveyance systems;
 - G. All existing and proposed impervious areas;
 - H. Natural or manmade watercourses;
 - I. All existing and proposed slopes, terraces, bulkheads, or retaining walls;
 - J. Erosion and sedimentation control plans or SWPPP;
 - K. Drainage and/or fill calculations as required by permit and/or ordinance;
 - L. Direction of flow indicators; and
 - M. Receiving water body for the ultimate discharge of stormwater from the site.
- (iii) When a stormwater site plan is required to obtain a parish permit, it shall be submitted to the department of planning and development for review. The stormwater site plan, including any approved revisions, is valid for the duration of the project.

- (iv) The submittal process for the residential and commercial development stormwater site plan shall be in accordance with this chapter.
 - (v) For a subdivision development, a stormwater site plan shall be submitted at the preliminary approval phase and will focus on stormwater management, water quality, and receiving waters.
- c. *Construction activity requirements.* The following requirements shall be implemented and maintained during the course of construction activities:
 - 1. Existing vegetation shall be preserved, where feasible, and disturbed portions of the site shall be stabilized within 14 days of the temporary or permanent cessation of construction activities.
 - 2. Structural BMPs shall be utilized, where feasible, to divert flow away from exposed soil, store stormwater, or otherwise reduce runoff and the discharge of pollutants from the construction site.
 - 3. Installation, inspection, and maintenance of erosion and sediment BMPs shall be consistent with the effective operating conditions on the site. Operators are responsible for the installation and maintenance of stormwater BMPs until warranty obligations are met and/or occupancy certificates are issued.
 - (i) As required by LDEQ permits, operators shall be responsible for overseeing self-inspections of all BMPs at construction sites as noted in the LDEQ permit.
 - (ii) Based on the results of the inspections, BMPs shall be maintained, revised, repaired, or replaced as necessary but prior to a future storm event.
 - (iii) The SWPPP or stormwater site plan shall be updated with any BMP revisions.
 - (iv) Any BMP modifications shall be recorded in the SWPPP and/or stormwater site plan within seven calendar days and implemented on site as soon as is practical.
 - (v) The owner, contractor, and/or operator of a construction site is responsible for compliance with the requirements of this subsection (e).
 - (vi) The parish may hold occupancy certificates related to a site until approval of the final stormwater inspection with a determination that any required stormwater controls are in place.

4. The SWPPP, which shall include the stormwater site plan, and stormwater self-inspection and BMP maintenance reports shall be available on site for inspections.
 - (i) In accordance with LDEQ requirements, an NOI and SWPPP is required for large construction projects on five or more acres. This requirement includes any lot or parcel that is part of a larger common plan of development.
 - (ii) In accordance with LDEQ requirements, a SWPPP is required (but not an NOI) for all construction projects one acre or greater, but less than five acres, if not part of a larger common plan of development.
 5. A stabilized construction entrance/exit pad shall be utilized to minimize the tracking of mud, clay, sediment, and other construction materials onto roadways and streets.
 6. The discharge of construction or building materials, including cement, concrete, lime, mortar, slurries, and paints is prohibited. On-site containment or off-site disposal is required.
 7. Good housekeeping measures, such as covered storage, storm drain protection, secondary containment, etc., shall be employed to prevent, contain, and clean up spills of paints, solvents, fuel, sewage, and any hazardous substances and pollutants associated with construction.
 8. Proper waste disposal, such as covered waste containers and concrete disposal bins, shall be employed to manage construction materials, construction debris, paints, solvents, chemicals and construction waste, etc., shall be utilized to prevent stormwater contamination.
 9. On phased subdivision developments, site disturbance shall be phased, when applicable, to limit soil erosion and sediment excursion. Final stabilization shall be accomplished prior to commencement of the next phase of development.
- d. *Stormwater inspections.* Routine stormwater inspections will be performed by parish stormwater inspectors in accordance with the applicable permitting processes or as needed. Fees associated with inspections/re-inspections will be in accordance with chapter 2, article XVII.
1. The first stormwater inspection for each project shall be scheduled at the commencement of construction with the preliminary drainage inspection. The final stormwater inspection shall be scheduled at the completion of construction with the drainage final inspection.
 2. Re-inspections will be scheduled and performed as required.

3. Unscheduled stormwater inspections and drainage inspections may be performed by the parish at any point during the construction process.
4. Failure to correct inadequacies following a failed drainage and/or stormwater inspection may result in enforcement action.
5. All stormwater inspections shall be performed in accordance with the parish-approved SWMP.

(4) *Post-construction stormwater requirements.*

- a. *Post-construction permanent stormwater facilities.* Permanent stormwater BMPs shall include both structural and non-structural BMPs.
 1. Structural BMPs shall include, but are not limited to, retention/detention ponds, stormwater diversion structures, and filtration devices.
 - (i) Installation of permanent structural measures intended to control stormwater pollutants after the completion of a subdivision development shall be in accordance with chapter 125.
 - (ii) Erosion, sedimentation, and pollutants shall be controlled after completion of the development process in accordance with the BMPs for Coastal Louisiana Zone manuals and/or current LDEQ and EPA guidelines for structural BMPs.
 - (iii) Structural stormwater controls for residential and commercial development shall continue to meet the performance standards as stipulated in the original design and approved by the parish in accordance with this section.
 - (iv) It is the stated goal of the parish to develop a program to address and protect water quality in the parish. This program involves capital improvements, water quality monitoring, and development of regulations based on recommendations outlined in the CPRA Watershed Management Study. Additional pollutant load impacts resulting from new development should be controlled through the implementation of permanent and/or structural non-point source BMPs.
 2. Non-structural BMPs may include, but are not limited to, buffer zones, riparian buffers, and/or green space. Non-structural BMPs such as buffer zones, riparian buffers, and green space areas shall be established in accordance with all applicable state, federal, and local requirements to prevent water quality impacts to waterways and wetlands.
- b. *Stormwater BMP maintenance.* Routine inspection and maintenance of permanent and/or structural BMPs is necessary to ensure proper functioning condition in accordance with the original design criteria. It shall be the responsibility of the landowner, homeowner's association, or maintenance association, whichever is

applicable, to maintain the facility in perpetuity unless it is taken into the parish's maintenance system in accordance with section 125-90. Inspections by the parish may be conducted to ensure maintenance is being performed. Failure to correct inadequacies following a failed inspection may result in enforcement action.

(5) *Public participation and involvement.*

- a. *Owner and/or operator reporting requirements.* The operator and/or the owner of any commercial or industrial activity shall report any prohibited discharges, spills, releases, illicit discharges, and unauthorized connections into the MS4, drainage infrastructure, conveyances, or waterways in the parish and any other violation of this section for which they are responsible.
 - 1. A hazardous and/or toxic substance spill or release shall be immediately reported to the parish fire department and LDEQ;
 - 2. Other instances where pollutants are discharged into the MS4, drainage infrastructure, conveyances, or waterways of the parish by spill, release, illicit connections or other means shall be reported to LDEQ and the parish; and
 - 3. The owner of any commercial or industrial facility with a spill or release of pollutants, hazardous substances, or toxins is responsible for proper notification of the incident to all appropriate local, state, and federal agencies.
- b. *Citizen complaint reports.* Anyone may report any spills, releases, illicit connections, or other instances of anyone discharging pollutants into the MS4, drainage infrastructure, conveyances or waterways of the parish and any other violation of this section to the MS4 administrator or any person designated by the parish to receive such citizen reports.
 - 1. Citizen stormwater complaints may be made verbally or in writing. A written record of each citizen report to the parish will be prepared and kept on file for a period of three years. Upon request, the parish will inform the reporting citizen of any action taken in response to the citizen's report.
 - 2. When applicable, the parish will report citizen complaints to the appropriate local, state, or federal agencies if a violation is confirmed upon investigation by the parish.

(6) *Parish enforcement and remedies.*

- a. *Enforcement of stormwater violations.* Whenever it appears that a person has violated, or continues to violate, any permit or provision of this subsection (e), enforcement proceedings may be instituted in accordance with chapter 1. Enforcement action may include, but is not limited to, fines or fees, issuance of a notice of violation or cease and desist order, a citation to appear for an administrative hearing, and/or prosecution for a violation.

- b. *Remedies non-exclusive.* The remedies provided for in this subsection (e)(6) are not exclusive of any other remedies that the parish may have under state, federal, or local law. The parish may take any, all, or any combination of these actions against a violator. The Parish is empowered to take more than one enforcement action against any violator. These actions may be taken concurrently.

(f) *Enforcement.* Violations will be processed by the appropriate code enforcement, department of engineering or permit inspections personnel using standard code violation protocol. (Code 1998, § 7-042.00; Ord. No. 610, 12-19-1974; Ord. No. 611, 1-16-1975; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989; Ord. No. 92-1597, 5-21-1992; Ord. No. 99-3156, 10-21-1999; Ord. No. 16-3596, exh., 10-6-2016)

Sec. 115-107. Standards for subdivision proposals.

(a) All subdivision proposals, including manufactured home parks and subdivisions, shall be consistent with sections 115-28, 115-29 and 115-30.

(b) All proposals for the development of subdivisions, including manufactured home parks and subdivisions, shall meet development permit requirements of section 115-34, section 115-71, and the provisions of division 3 of this article.

(c) Base flood elevation data shall be granted for subdivision proposals and other proposed development, including manufactured home parks and subdivisions, which is greater than 50 lots or five acres, whichever is lesser, if not otherwise provided pursuant to section 115-33 or section 115-70(8).

(d) All subdivision proposals, including manufactured home parks and subdivisions, shall have adequate drainage provided to reduce exposure to flood hazards.

(e) All subdivision proposals, including manufactured home parks and subdivisions, shall have public utilities and facilities such as sewer, gas, electrical and water systems located and constructed to minimize or eliminate flood damage.

(Code 1998, § 7-043.00; Ord. No. 791, 2-16-1978; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-108. Standards for areas of shallow flooding (AO/AH zones).

A registered professional engineer or architect shall submit a certificate of elevation, documented on the Federal Emergency Management Agency Form 81-31 or subsequent agency form, to the floodplain administrator that the standards of this section and as per section 115-71(a)(1), has been satisfactorily met.

(Code 1998, § 7-044.00; Ord. No. 92-1597, 5-21-1992)

Sec. 115-109. Coastal high-hazard areas.

Located within the areas of special flood hazard established in section 115-33, are areas designated as coastal high hazard areas (zones V1-30, VE and/or V). These areas have special flood hazards associated with high velocity waters from tidal surges and hurricane wave wash; therefore, in addition to meeting all provisions outlined in this article, the following provisions must also apply:

- (1) Obtain the elevation (in relation to mean sea level) of the bottom of the lowest structural member of the lowest floor (excluding pilings and columns) of all new substantially improved structures, and whether or not such structures contain a basement. The floodplain administrator shall maintain a record of all such information.
- (2) All new construction shall be located landward of the reach of mean high tide.
- (3) All new construction and substantial improvements shall be elevated on pilings and columns so that:
 - a. The bottom of the lowest horizontal structural member of the lowest floor (excluding the pilings or columns) is elevated to or above the base flood level;
 - b. The pile or column foundation and structure attached thereto is anchored to resist flotation, collapse and lateral movement due to the effects of wind and water loads acting simultaneously on all building components. Wind and water loading values shall each have a one percent chance of being equaled or exceeded in any given year (100-year mean recurrence interval);
 - c. A registered professional engineer or architect shall develop or review the structural design, specification and plans for the construction and shall certify that the design and methods of construction to be used are in accordance with accepted standards of practice for meeting the provisions of this subsection (3).
- (4) Provide that all new construction and substantial improvements have the space below the lowest floor either free of obstruction or constructed with non-supporting break-away walls, open wood lattice work, or insect screening intended to collapse under wind and water loads without causing collapse, displacement or other structural damage to the elevated portion of the building or supporting foundation system.
- (5) For the purpose of this section, a breakaway wall shall have a design safe loading resistance of not less than ten pounds and not more than 20 pounds per square foot. Use of breakaway walls which exceed a design safe loading resistance of 20 pounds per square foot (either by design or when so required by local or state codes) may be permitted only if a registered professional engineer or architect certifies that the designs proposed meet the following conditions:
 - a. Breakaway wall collapse shall result from a water load less than that which would occur during the base flood; and

- b. The elevated portion of the building and supporting foundation system shall not be subject to collapse, displacement or other structural damage due to the effects of wind and water loads acting simultaneously on all building components (structural and nonstructural). Maximum wind and water loading values to be used in this determination shall each have one percent chance of being equaled or exceeded in any given year (100-year mean recurrence interval).
 1. If breakaway walls are utilized, such enclosed space shall be usable solely for parking of vehicles, building access or storage. Such space shall not be used for human habitation.
 2. Prohibit the use of fill for structural support of buildings.
 3. Prohibit manmade alteration of sand dunes and mangrove stands which would increase potential flood damage.
 4. Any alteration, repair, reconstruction or improvements to a structure started after the enactment of the ordinance from which this article is derived shall not enclose the space below the lowest floor unless breakaway walls are used as provided for in division 3 of this article.
 5. Prior to construction, plans for any structure that will have breakaway walls must be submitted to the floodplain administrator for approval.

(Code 1998, § 7-048.00; Ord. No. 87-770, 2-19-1987; Ord. No. 89-1053, 3-16-1989)

Sec. 115-110. Penalties for violation.

(a) Violation of the provisions of this article or failure to comply with any of its requirements shall constitute a misdemeanor and upon conviction thereof, the violator(s) shall be fined not less than \$100.00 not more than \$300.00 or imprisoned for not more than 30 days, or both, and in addition thereto shall pay all costs and expenses involved in the case; however, the maximum of aggregated fines are not to exceed \$1,000.00. Each day such violation continues shall be considered as a separate offense all in accordance with section 1-9.

(b) Said penalties as imposed are as contained in section 1-9 as presently enacted and shall conform thereto as same may hereafter be amended.

(c) The owner or tenant of any building, structure, premises, or part thereof, any architect, builder, contractor, agent or other person who commits, participates in, assists in or maintains such violation may each be found guilty of a separate offense and suffer the penalties herein provided.

(d) Nothing herein contained shall prevent the parish from taking such other lawful actions as is necessary to prevent or remedy any violation.

(Code 1998, § 7-049.00; Ord. No. 89-1053, 3-16-1989)

Sec. 115-111. Drainage and paving plan (commercial, industrial, institutional and certain multifamily developments).

The purpose and intent of this section is to require a drainage and paving plan to be stamped and certified by a licensed state-registered engineer for construction of commercial, industrial, institutional and certain multifamily developments, with the goal of improving pre-development runoff and reducing post-development runoff based on a minimum 25-year storm event.

- (1) All commercial, industrial, institutional and multifamily development for townhouses, apartments, condominiums and nursing home uses that require a building permit or site work permit shall submit a drainage and paving plan with the permit application. Requirements are set forth in section 115-112. Said plan shall be forwarded to the parish engineer for review and approval before the issuance of a building permit.
- (2) It shall be the responsibility of the developer and design engineer to create a site development plan that will complement the drainage and paving plan utilizing site design criteria so as to result in the reduction of runoff from post-development.
- (3) The drainage and paving plan shall be stamped and certified by a licensed state-registered engineer and shall meet the following criteria:
 - a. Parcels zero to two acres in size shall be required to reduce pre-development peak runoff by at least ten percent for a 25-year storm event, with on-site detention ponds optional.
 - b. Parcels two to five acres in size shall be required to reduce pre-development peak water runoff by at least 15 percent for a 25-year storm event, with on-site detention ponds required.
 - c.
 1. Parcels five acres and larger shall meet all drainage requirements for subdivisions established by chapter 125, including a reduction of pre-development peak runoff by at least 25 percent for a 100-year storm event with on-site detention ponds required.
 2. Whenever a parcel that is greater than five acres is proposed to be developed in phases, or subdivided through the minor subdivision process, where any proposed phase or lot is less than five acres, such development shall meet the requirements of subsection (3) of this section and the applicable provisions of section 125-197. The drainage and paving plan must address drainage in terms of the development of the entire parcel, not just the phase currently being proposed to be developed, taking into consideration all of the regulations of the zoning district designation of the property that could be pertinent to drainage, including maximum net density permitted, minimum area regulations, maximum lot coverage, and off-street parking and loading requirements.

- (4) A combination of detention methods may be utilized to meet the criteria as established in this section. Off-site detention facilities may be utilized if approved by the parish engineer.
 - (5) Developments located within the boundaries of Gravity Drainage District No. 5 shall also submit their drainage and paving plans to the district at the time permit application is made to the parish. A building permit or site work permit shall not be issued until the drainage district has had an opportunity to review and make comment on the proposed plans to the parish engineer. All costs associated with the review of the plans by the parish and drainage district shall be assessed to the developer. The parish engineer shall have final authority on approval of the permit application.
 - (6) Developments located within the boundaries of Sub-Drainage District No. 1 of Gravity Drainage District No. 3 shall also submit their drainage and paving plans to the sub-district at the time permit application is made to the parish. A building permit shall not be issued until the sub-drainage district has had an opportunity to review and make comment on the proposed plans to the parish engineer. All costs associated with the review of the plans by the parish and sub-drainage district shall be assessed to the developer. The parish engineer shall have final authority on approval of the permit application.
- (Code 1998, § 7-050.00; Ord. No. 04-0933, 7-1-2004; Ord. No. 07-1490, 1-4-2007; Ord. No. 08-1862, 7-3-2008; Ord. No. 10-2275AA, 6-3-2010; Ord. No. 16-3579, exh. A(7-050.00), 9-1-2016)

Sec. 115-112. Documents required for drainage and paving plan review.

In order to expedite the drainage plan review for all commercial, industrial, institutional and multifamily developments for townhouses, apartments, condominiums and nursing home uses, the department of engineering, when applicable, requires the following documents be provided:

- (1) A vicinity map indicating the location of the proposed project.
- (2) A pre-development drainage plan (existing conditions).
- (3) Identify fill area(s) and associated fill depth(s).
- (4) A post development drainage plan and an as built drainage plan.
- (5) If building has downspouts, an architect's drawing is required.
- (6) If the outfall needs to discharge to the ditch or pond, the invert elevations of associated culvert(s) and bottom elevation of accepted ditch or pond shall be provided.
- (7) If driveway culvert needs to be installed at the state highway ditch, an approval sheet from the state shall be provided prior to the parish approval.

- (8) A hydrological analysis of both pre-development and post-development runoff shall be provided. The applicant shall also provide a water surface profile for 100-year, 50-year, 25-year and ten-year storm events. The hydrological analysis shall meet all applicable parish ordinances and the following requirements:
- a. The developer's engineer shall also study the effect of any proposed development on existing downstream drainage facilities outside the area of development. Local drainage studies, together with any other appropriate study, shall serve as a guide to needed improvements as determined by the department of engineering.
 - b. No development may be constructed or maintained so that surface waters from such development are collected and channeled downstream at such locations or at such volumes or velocities as to cause degradation, alteration or damage to lower adjacent properties.
 - c. Where it is anticipated that the additional runoff incident to the development will increase the water surface profile downstream, the parish shall withhold approval of the development until provisions have been made for the detention of stormwater and resolution of such conditions in conformance with these requirements and the department of engineering. No development shall be approved unless the necessary drainage will be provided to a drainage watercourse or facility that is adequate to receive the proposed drainage without adverse impact on downstream properties.
 - d. No development may be constructed or maintained where such development would impede the flow of water from upstream properties across the property proposed to be developed. All drainage rights-of-way and culverts or other drainage facilities shall be large enough to accommodate runoff from the property proposed to be developed as well as upstream flow originating outside of the proposed development. All existing watercourses passing through the property of the proposed development shall be maintained to accommodate up to the 100-year storm events. Any proposed alteration or relocation of an existing watercourse or drainage facility may only be approved when the department of engineering has determined that any such proposal meets all applicable parish drainage requirements. The developer's engineer shall determine the necessary size of the drainage facilities, assuming conditions of maximum potential watershed development permitted by these regulations.
- (9) If the site is located in an area where known drainage problems exist, a drainage basin study can be required to demonstrate adverse drainage impacts on surrounding properties.
- (10) The department of engineering reserves the right to hold the certificate of occupancy in order to allow for a final inspection.

- (11) In the event of a conflict between any provision within this section, or between a provision in this section and any other drainage or flood control ordinance, the more stringent provision shall be applicable.

All the above drawings and hydrological analysis need to be stamped and certified [signature and date] by a professional engineer registered in the state.

(Code 1998, § 7-051.00; Ord. No. 98-2899, 6-18-1998; Ord. No. 11-2425, 1-6-2011)

N69°46'35"W, with a chord length of 256.79 feet; thence S88°38'16"W a distance of 407.63 feet; thence S88°14'20"W a distance of 5.57 feet; thence S80°18'38"W a distance of 152.96 feet;

Thence with a curve turning to the left with an arc length of 140.49 feet, with a radius of 487.52 feet, with a chord bearing of S73°52'07"W, with a chord length of 140.00 feet; thence S69°35'47"W a distance of 80.00 feet;

Thence with a curve turning to the left with an arc length of 239.70 feet, with a radius of 460.00 feet, with a chord bearing of S41°19'45"W, with a chord length of 237.00 feet; thence S26°23'33" W a distance of 295.73 feet;

Thence with a curve turning to the left with an arc length of 135.52 feet, with a radius of 490.00 feet, with a chord bearing of S18°28'10"W, with a chord length of 135.09 feet; thence with a reverse curve turning to the right with an arc length of 82.97 feet, with a radius of 300.00 feet, with a chord bearing of S18°28'10"W, with a chord length of 82.70 feet; thence S26°23'32"W a distance of 1433.47 feet; thence N63°36'27"W a distance of 82.01 feet; thence S26°23'33"MW a distance of 236.88 feet; thence S63°36'27"E a distance of 112.01 feet; thence S26°23'33"W a distance of 125.00 feet; thence N63°36'27"W a distance of 125.00 feet; thence S26°23'33"MW a distance of 626.33 feet; thence N69°12,15"W a distance of 1.79 feet; thence S28°47'45"W a distance of 428.00 feet; thence N62°13,15"W a distance of 460.40 feet; thence N55°36'00"W a distance of 561.77 feet; thence N25°33'06"W a distance of 587.35 feet; thence N41°48'35"E a distance of 170.87 feet;

Thence N46°34'22"E a distance of 602.08 feet;

Thence N41°48'33"E a distance of 2810.65 feet; thence with a curve turning to the left with an arc length of 682.06 feet, with a radius of 1380.00 feet, with a chord bearing of N07°26'09"E, with a chord length of 675.13 feet;

Thence N06°43'24"W a distance of 272.93 feet; thence with a curve turning to the right with an arc length of 313.41 feet, with a radius of 370.00 feet, with a chord bearing of N17°32'35"E, with a chord length of 304.12 feet;

Thence N41°48,32"E a distance of 100.00 feet; thence with a curve turning to the left with an arc length of 141.37 feet, with a radius of 90.00 feet, with a chord bearing of N03°11'28"W, with a chord length of 127.28 feet; thence N48°11'27"W a distance of 112.00 feet; thence N41°48'33"E a distance of 202.00 feet; thence S48°11'27"E a distance of 100.00 feet; thence with a curve turning to the left with an arc length of 141.37 feet, with a radius of 90.00 feet, with a chord bearing of N86°48'33"E, with a chord length of 127.28 feet; thence N41°48'33"E a distance of 100.00 feet; thence with a curve turning to the right with an arc length of 453.71 feet, with a radius of 406.00 feet, with a chord bearing of N73°04'25"E, with a chord length of 430.47 feet; thence S74°09'32"E a distance of 152.53 feet; thence with a curve turning to the left with an arc length of 299.07 feet, with a radius of 540.00 feet, with a chord bearing of N89°58'30"E, with a chord length of 295.26 feet; thence with a compound curve turning

to the left with an arc length of 308.96 feet, with a radius of 1440.00 feet, with a chord bearing of N67°57'43"E, with a chord length of 308.37 feet; thence N41°48'33"E a distance of 3,678.88 feet; thence with a curve turning to the left with an arc length of 1,895.86 feet, with a radius of 11,234.16 feet, with a chord bearing of N36°58'29"E, with a chord length of 1,893.61 feet; thence S47°47'20"E a distance of 455.56 feet; thence with a curve turning to the right with an arc length of 50.50 feet, with a radius of 11,684.16 feet, with a chord bearing of S32°36'57"W, with a chord length of 50.50 feet; thence S48°35'43"E a distance of 765.06 feet; thence S40°39'21"W a distance of 20.00 feet; thence S49°20'39"E a distance of 115.00 feet; thence S00°32'00"W a distance of 392.33 feet; thence S04°19'35"W a distance of 443.30 feet; thence S37°04'01"W a distance of 300.00 feet; thence S40°49'27"W a distance of 714.56 feet; thence S41°48'33"W a distance of 2,500.01 feet; thence N48°11'27"W a distance of 108.80 feet; thence S03°23'28"E a distance of 1,169.99 feet; thence with a curve turning to the right with an arc length of 423.53 feet, with a radius of 1,810.00 feet, with a chord bearing of S03°18'45"W, with a chord length of 422.57 feet; thence S82°00'38"E a distance of 552.44 feet; thence N89°38'41"E a distance of 463.56 feet; thence S00°21'19"E a distance of 345.00 feet; thence N89°38"E a distance of 363.45 feet; thence S01°26'50"W a distance of 1,224.93 feet; thence with a curve turning to the right with an arc length of 195.50 feet, with a radius of 3,450.00 feet, with a chord bearing of N76°51'21"W, with a chord length of 195.47 feet; thence with a reverse curve turning to the left with an arc length of 439.73 feet, with a radius of 501.55 feet, with a chord bearing of S79°39'03"W, with a chord length of 425.78 feet; thence S54°32'02"W a distance of 271.60 feet; thence S38°10'33"W a distance of 204.45 feet; thence with a curve turning to the right with an arc length of 84.88 feet, with a radius of 755.00 feet, with a chord bearing of N60°52'44"W, with a chord length of 84.84 feet;

Thence N57°39'29"W a distance of 62.92 feet; thence with a curve turning to the left with an arc length of 162.42 feet, with a radius of 845.00 feet, with a chord bearing of N63°09'52"MW, with a chord length of 162.17 feet; thence with a reverse curve turning to the right with an arc length of 141.87 feet, with a radius of 396.89 feet, with a chord bearing of N58°025'51"UW, with a chord length of 141.11 feet; thence N48°11'23"W a distance of 71.65 feet;

Thence S41°48'37"W a distance of 110.00 feet; thence N48°11'27"W a distance of 183.63 feet to a point at the intersection of the southerly right-of-way line of lakeshore boulevard east and the easterly right-of-way line of Lakeshore Boulevard south, the point of beginning.
(Code 1998, § 7-061.00; Ord. of 11-10-1925; Ord. No. 84-01, 1-19-1984; Ord. No. 88-991, 9-15-1988; Ord. No. 94-2057, 8-18-1994; Ord. No. 14-3094, 3-6-2014)

Sec. 115-139. Domicile.

The legal domicile of Drainage District No. 2 is reported to be 4600 Pontchartrain Drive, Slidell, LA 70458.
(Code 1998, § 7-061.01)

Sec. 115-140. Trust fund authorized.

The parish Drainage District No. 2 is hereby authorized (at no cost to the parish Drainage District No. 2) to create a trust account to retire the bonded indebtedness of the district. (Code 1998, § 7-061.02; Ord. No. 88-991, 9-15-1988)

Sec. 115-141. Landmark land company of Louisiana; bonded debt.

Landmark Land Company of Louisiana, Inc. is authorized (at no cost to St. Tammany Parish or St. Tammany Parish Drainage District No. 2) to create a trust account to retire the bonded indebtedness of the district. Said Landmark Land Company of Louisiana, Inc. be and hereby is further authorized (at no cost to St. Tammany Parish or St. Tammany Parish Drainage District No. 2) to deposit into said trust account funds sufficient to retire the bonded indebtedness. (Code 1998, § 7-061.03; Ord. No. 88-991, 9-15-1988)

Sec. 115-142. Effective date.

This act with the boundaries as described in a process verbal by J. J. Krebs & Sons, Inc. in section 115-139, shall become effective when all of the statutory requirements of R.S. 38:1614 have been met and upon the depositing of the sums in the said trust account by Landmark Land Company of Louisiana, Inc. and the filing with the parish of an opinion by the law firm of Foley and Judell, Bond Counsel, concerning the defeasance of the outstanding bonds of the district. (Code 1998, § 7-061.04; Ord. No. 88-991, 9-15-1988)

Sec. 115-143. Name.

The presently existing land remaining on the east side of Interstate 10 shall be named St. Tammany Drainage District No. 2. The land on the west of Interstate 10 shall be named St. Tammany Parish Drainage District No. 5, and each reorganized drainage district shall constitute a body corporate in law and a political subdivision of the state as conferred by the constitution and statutes of the state, including the authority to incur debt, issue bonds, and levy taxes and assessments. (Code 1998, § 7-061.05; Ord. No. 94-2057, 8-18-1994)

Sec. 115-144. Board of commissioners.

(a) The board of commissioners shall be comprised of five members. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(b) All commissioners shall possess the qualifications required by section 1607 of title 38 of the Louisiana Revised Statutes of 1950, as amended (R.S. 38:1607) and, as such, they shall have all the powers and privileges granted and conferred by the constitution and statutes of the state during their respective terms of office and until their successors are duly appointed and have qualified.

(Code 1998, § 7-061.06; Ord. No. 94-2057, 8-18-1994; Ord. No. 00-0157, 6-1-2000)

Sec. 115-145. Appointment.

The commissioners for the parish Drainage District No. 2 shall be comprised of five members with appointments as per the original ordinance. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 7-061.07; Ord. No. 94-2057, 8-18-1994; Ord. No. 00-0157, 6-1-2000)

Sec. 115-146. Finances.

The funds held on account by the director of finance for the parish in the name of the parish Drainage District No. 2 shall be transferred to the respective districts, with the parish Drainage District No. 2 receiving 87.77 percent of the fund and the newly created the parish Drainage District No. 5 receiving 12.23 percent of the funds and further the director of finance is hereby authorized to transfer these funds and the accounting and financial functions to the respective districts all in accordance with the rules and regulations pertaining thereto.

(Code 1998, § 7-061.08; Ord. No. 94-2057, 8-18-1994)

Secs. 115-147—115-175. Reserved.

ARTICLE IV. GRAVITY DRAINAGE DISTRICT NO. 3*

Sec. 115-176. Established; boundaries.

There is hereby created a gravity drainage district within the parish which shall comprise and embrace all lands within the following described boundaries:

From the point of beginning located at the section corner common to sections 34 and 35, Township 7 south, Range 13 east and sections 2 and 3, Township 8 south, Range 13 east and follow the township line between Townships 7 and 8 to the East Pearl River and state line between Louisiana and Mississippi in the following courses:

- a. From the above stated point of beginning, proceed south 89 degrees, 45 minutes east, 10,560 feet to the northeast corner of section 1, Township 8 south, Range 13

***State law references**—Gravity drainage districts generally, R.S. 38:1751 et seq.; governing authority of St. Tammany Parish Gravity Drainage District No. 3 authorized to create special sales tax district and levy sales and use tax, R.S. 38:1806.

east and the range line between Range 13 and Range 14; thence south 89 degrees, 38 minutes east, 10,506.54 feet to the northeast corner of section 5, Township 8 south, Range 14 east; thence south 89 degrees, 30 minutes east, 5,257.56 feet to the northeast corner of section 4, Township 8 south, Range 14 east; thence south 89 degrees 38 minutes east, 5,238.42 feet to the northeast corner of section 3, Township 8 south, Range 14 east; thence south 89 degrees, 30 minutes east, 10,608.84 feet to the range line between Ranges 14 and 15 east, thence south 89 degrees, 30 minutes east, 5,280 feet to a point at the northeast corner of section 6, Township 8 south, Range 15 east; thence south 89 degrees, 30 minutes east, 5,280 feet to a point at the northeast corner of section 5, Township 8 south, Range 15 east; thence south 89 degrees, 30 minutes east, 5,280 feet to a point at the northeast corner of section 4, Township 8 south, Range 15 east; thence south 89 degrees, 30 minutes east, 5,039.76 feet to the state line on the East Pearl River between Louisiana and Mississippi. Thence following the meanderings of the East Pearl River in a southeasterly direction along the centerline of said river to its intersection with the northern boundary of Lake Borgne and the southeast shoreline of the parish. Thence following the southern shoreline of the parish west to a point where Salt Bayou meets Lake Pontchartrain; thence in a northeasterly direction up Salt Bayou to a point where said bayou crosses the centerline of State Highway 433, "the old New Orleans-Mississippi Highway"; thence in a north-easterly direction 16,675 feet more or less along the centerline of said State Highway 433 to a point; thence north 85 degrees, 45 minutes west, 1,050 feet more or less; thence from the northeast corner of the southeast quarter of the northeast quarter of section 26, Township 9 south, Range 14 east, go south 71 degrees, 33 minutes west, 4,116.7 feet; thence north 47 degrees, 20 minutes west, 3,975.8 feet; thence north 60 degrees, 34 minutes west, 1,286.9 feet; thence south 87 degrees, 54 minutes, 45 seconds west, 3,190.1 feet; thence north 78 degrees, 03 minutes, 15 seconds west, 582.8 feet; thence north 11 degrees, 37 minutes west, 415.9 feet; thence north 76 degrees, 54 minutes west, 2,456 feet; thence north 80 degrees, 18 minutes west, 772.5 feet to the centerline of the right-of-way of the New Orleans and Northeast Railroad; thence southwesterly along said centerline 12,450 feet to the intersection of the shoreline of the parish and Lake Pontchartrain. Thence follow the south shoreline of the parish in a westerly direction to a point where section 22, Township 9 south, Range 13 east, and section 23, Township 9 south, Range 13 east meet Lake Pontchartrain. Thence north 2,237.4 feet to a point at the southwest corner of section 14, Township 9 south, Range 13 east; thence north 3,224.1 feet to the south line of section 41, Township 9 south, Range 13 east; thence west on the section line of above mentioned section 41, Township 9 south, Range 13 east, 3,781.8 feet to the west line of section 41; thence north along said section line 5,723.52 feet to the northwest corner of said section 41; thence east along said

section line 1,172.16 feet to the intersection of the southwest corner of section 40, Township 9 south, Range 13 east and section 41, Township 9 south, Range 13 east; thence north 29 degrees, 45 minutes east, 5,225.88 feet to the southwest corner of section 2, Township 9 south, Range 13 east; thence north 2,349.6 feet to the township line between Townships 8 and 9. Thence from the southwest corner of section 35, Township 8 south, Range 13 east, go north 2 degrees, 30 minutes east, 5,437.74 feet to the southwest corner of section 26, Township 8 south, Range 13 east; thence along the west line of said section 26, Township 8 south, Range 13 east, north 5,330.82 feet to the southwest corner of section 23; thence north along the section line between section 23, Township 8 south, Range 13 east and section 22, Township 8 south, Range 13 east, 21,120 feet, more or less to the point of beginning at the northwest corner of section 2, Township 8 south, Range 13 east.

- b. Less and except: All that certain parcel of land being situated in sections 23 and 24, Township 9 south, Range 14 east, St. Tammany Parish, Louisiana, being more fully described as follows: From the section corner common to sections 13 and 24, Township 9 south, Range 14 east and sections 18 and 19, Township 9 south, Range 15 east, also the point of beginning, go in a southerly direction along the range line, which is the east boundary of the northeast quadrant of section 24, Township 9 south, Range 14 east, to the quarter corner; thence westerly along the southerly line of the southeast quarter of the northeast quarter of said section 24; thence northerly along the west line of the south half of the southeast quarter of the northeast quarter of said section 24; thence westerly along the southerly line of the north half of the southwest quarter of the northeast quarter of said section 24; thence southerly along the easterly line of the south half of the southeast quarter of the northwest quarter of said section 24; thence westerly along the south line of the northwest quarter of said section 24 and the south line of the east half of the northeast quarter of section 23, Township 9 south, Range 14 east; thence northerly along the west line of the east half of the northeast quarter of said section 23 to the northerly right-of-way line of Louisiana Power and Light Servitude; thence south 57 degrees, 16 minutes, 36 seconds west 727.32 feet; thence north 00 degrees, 49 minutes, 53 seconds west 851.08 feet to the easterly right-of-way line of Interstate 10 Service Road; thence along said right-of-way line north 17 degrees, 10 minutes, 07 seconds east 707.16 feet to the southerly right-of-way line of Voters Road; thence along said right-of-way line north 88 degrees, 52 minutes, 22 seconds east 399.52 feet; thence easterly along the northerly line of the east half of the northeast quarter of said section 23 of the section corner common to sections 14, 13, 23 and 24 in said township and range; thence easterly along the north line of said section 24 back to the section corner common to said sections 23

and 24 and sections 18 and 19, Township 9 south, Range 15 east, which is the point of beginning as per section 115-229 of the Code of Ordinances of St. Tammany Parish, Louisiana.

(Code 1998, § 7-076.00; Ord. No. 417, Bk. 6, P. 161, 9-21-1967; Ord. No. 582, Bk. 1, P. 360, 2-21-1974; Ord. No. 614, Bk. 7, P. 486, 2-20-1975; Ord. No. 811, 5-18-1978; Ord. No. 80-50, 9-18-1980; Ord. No. 81-111, 1-22-1981; Ord. No. 81-191, 4-15-1981)

Sec. 115-177. Name, status and powers.

The gravity drainage district herein created, pursuant to R.S. 38:1754, shall be known and is hereby designated as "Gravity Drainage District No. 3 of the Parish of St. Tammany, State of Louisiana," and as thus created shall have and enjoy all the rights, privileges and immunities and be subject to all the obligations and duties appertaining to such gravity drainage districts as required by the laws of the state and any and all powers and rights legally conferred on gravity drainage districts, especially as enumerated in R.S. 38:113, also especially with all the powers of a corporation, including perpetual existence; the power and right to incur debts and contract obligations, levy and order the assessment and collection of taxes in accordance with law; to sue and to be sued and to have a corporate seal and to do and perform any and all acts in corporate capacity and under its corporate name, necessary and proper for the carrying out of the objects and purposes for which said drainage district is created.

(Code 1998, § 7-077.00; Ord. No. 614, Bk. 7, P. 486, 2-20-1975; Ord. No. 417, Bk. 6, P. 161, 9-21-1967; Ord. No. 811, 5-18-1978; Ord. No. 80-50, 9-18-1980)

Sec. 115-178. Board of commissioners.

The board of commissioners for Gravity Drainage District No. 3 shall be comprised of five members and shall consist of persons that are residents of, and domiciled within, the jurisdictional boundaries of Wards 8 or 9. The councilpersons of Ward 8 geographical boundaries shall have the authority to nominate two members for appointment by the council; the councilpersons of Ward 9 geographical boundaries shall have the authority to nominate two members for appointment by the council; there shall be one member nominated and appointed by the parish president.

(Code 1998, § 7-077.01; Ord. No. 96-2507, 9-19-1996; Ord. No. 98-2953, 9-24-1998; Ord. No. 00-0157, 6-1-2000)

Sec. 115-179. Sub-Drainage District No. 1 (parcel) of Gravity Drainage District No. 3.

(a) By virtue of the authority conferred by Act No. 297 of the Regular Session of the Louisiana Legislature of 1987 (the "Act"), and other constitutional and statutory authority supplemental thereto, a sub-drainage district is hereby created within Drainage District No. 3

of the Parish of St. Tammany, State of Louisiana, and Ward 8 of said parish, which sub-drainage district shall comprise and embrace a portion of that territory within said drainage district and ward with boundaries described as follows:

Commencing at the intersection of the centerline of Interstate 12 and the centerline of U.S. Highway 11, also the point of beginning; thence go northeast along the centerline of U.S. Highway 11 to its intersection with the centerline of Haas Road; thence go east along the centerline of Haas Road to its intersection with the centerline of Robert Road, also called Louisiana Highway 1091; thence go south and southwest along the centerline of Robert Road to its intersection with the centerline of Interstate 12; thence go west along the centerline of Interstate 12 to its intersection with the centerline of U.S. Highway 190, also the point of beginning.

(b) The sub-drainage district hereby created shall be known and designated as "Sub-Drainage District No. 1 (Parcel) of Gravity Drainage District No. 3 of the Parish of St. Tammany, State of Louisiana" ("the district"), and as thus created shall constitute apolitical subdivision of the State of Louisiana, and shall have all the rights, powers and privileges granted and conferred by the act and other constitutional and statutory authority, including the authority, to incur debt, to issue bonds and to levy parcel fees.

(c) The governing authority of the district shall be a five-member board of commissioners comprised of persons that are residents of, and domiciled within, the jurisdictional boundaries of District 9. The councilperson of District 9 shall have the authority to nominate four members from the delineated subdivisions for appointment by the council; there shall be one member nominated and appointed by the parish president from the delineated subdivisions.

(d) The domicile of the district shall be the regular meeting place of the parish council; however, the board of commissioners may meet at either such regular meeting place or a location within the district designated by the presiding officer of said board of commissioners. (Ord. No. 87-857, 9-17-1987; Ord. No. 99-3027, 2-25-1999; Ord. No. 00-0157, 6-1-2000)

Sec. 115-180. Drainage/paving requirements, commercial, industrial and institutional districts.

Site development within the boundaries of Sub-Drainage District 1 of Gravity Drainage District 3 requires the review and approval prior to the issuance of building permits, other than single-family residential. The drainage and paving plan and as built drawings shall be stamped and certified by a licensed state registered engineer and shall meet the following criteria:

- (1) Parcels zero to one acre in size shall not have an increase from predevelopment surface water runoff.
- (2) Parcels over one acre in size shall be required to reduce predevelopment surface water runoff by at least 25 percent.

- (3) A site must utilize a retention pond to meet the drainage reduction requirement. The utilization of a parking lot for detention purposes is not allowed to meet the 25 percent predevelopment reduction.
 - (4) For all parcels: A no net fill requirement is imposed.
 - (5) For all parcels within the W-14 Drainage Basin: Parking lots must be constructed with aggregate material and not a paving surface such as asphalt or concrete.
- (Code 1998, § 7-078.01; Ord. No. 95-2249, 6-15-1995; Ord. No. 97-2685, 6-19-1997; Ord. No. 99-3027, 2-25-1999)

Sec. 115-181. Land clearing permit.

All land clearing permits within Sub-Drainage District No. 1 (Parcel) of Drainage District No. 3, shall be reviewed and approved by Sub-Drainage District No. 1 (Parcel) board of commissioners.

(Code 1998, § 12-003.00; Ord. No. 84-231, 10-18-1984; Ord. No. 85-413, 6-20-1985; Ord. No. 86-698, 9-18-1986; Ord. No. 87-826, 7-16-1987; Ord. No. 87-862, 10-15-1987; Ord. No. 87-872, 10-29-1987)

Sec. 115-182. Sub-Drainage District No. 2 of Gravity Drainage District No. 3.

(a) By virtue of the authority conferred by the Act, and other constitutional authority, a sub-drainage district is hereby created within Gravity Drainage District No. 3 of the Parish of St. Tammany, State of Louisiana, which sub-drainage district shall compromise and embrace a portion of that territory within said drainage district and ward with boundaries described as follows, to-wit:

Commencing at the intersection of LA Hwy 1090 (Military Road) and Crowe's Landing Road; thence go east along Crowe's Landing Road to a point where the easternmost boundary of Magnolia Forest Subdivision departs to the south; thence follow the easternmost boundary of Magnolia Forest Subdivision south to its intersection with the section line common to sections 19 and 20, Township 8 south, Range 15 east; thence follow said section line and the section line common to sections 29 and 30 of the same township and range south to its intersection with Davis Landing Road; thence follow Davis Landing Road west to LA Highway 1090 (Military Road); thence follow LA Highway 1090 (Military Road) north to its intersection with Crowe's Landing Road and the point of beginning.

(Code 1998, § 7-079.00; Ord. No. 96-2396, 3-21-1996)

State law reference—Authority of St. Tammany Parish Council to create sub-drainage districts within the boundaries of drainage districts, R.S. 38:1807.

Sec. 115-183. Name, status and powers.

The sub-drainage district hereby created shall be known and designated as "Sub-Drainage District No. 2 of Gravity Drainage District No. 3" of the Parish of St. Tammany, State of

Louisiana" (the "district"), and as thus created shall constitute a political subdivision of the State of Louisiana, and shall have all the rights, powers and privileges granted and conferred by the Act and other constitutional and statutory authority, including the authority to incur debt, to issue bonds, and to levy parcel fees.

(Code 1998, § 7-079.01; Ord. No. 96-2396, 3-21-1996)

Sec. 115-184. Board of commissioners.

The governing authority of the district shall be a board of commissioners comprised of five members with appointments as per the original ordinance. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 7-079.02; Ord. No. 96-2396, 3-21-1996; Ord. No. 00-0157, 6-1-2000)

ARTICLE V. GRAVITY DRAINAGE DISTRICT NO. 4*

Sec. 115-207. Established; amended boundaries.

Acting under the authority of part I, chapter 7, title 38 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional statutory authority, the boundaries of Gravity Drainage District No. 4, St. Tammany Parish, Louisiana, are hereby amended to henceforth read as follows, to-wit:

- (1) All that certain area of ground being situated in portions of Township 8 south, Range 11 east, Township 7 south, Range 11 east, Township 7 south, Range 12 east, Township 8 south, Range 12 east, Greensburg Land District, St. Tammany Parish, State of Louisiana, comprising and embracing the land within the following described boundaries:

Commencing at the intersection of the shore of Lake Pontchartrain and the east boundary line of the North Causeway Approach Road right-of-way; thence following said east boundary line northerly to its merge with the east boundary line of the U.S. Highway 190 right-of-way and thence continuing northerly to its intersection with the Ponchitolowa Creek; thence follow the Ponchitolowa Creek upstream to its intersection with Interstate 12; thence follow Interstate 12 east and southeast to its intersection with the line common to sections 29 and 30, Township 7 south, Range 12 east, thence in a northerly direction along said line common to sections 29 and 30 to the quarter corner common to sections 29 and 30, Township 7 south, Range 12 east, thence in an easterly direction along the north line of the south half of section 29 to the quarter corner

*State law reference—Gravity drainage districts generally, R.S. 38:1751 et seq.

common to sections 28 and 29, Township 7 south, Range 12 east, thence continuing in an easterly direction along the north line of the south half of section 28 to the quarter corner common to sections 27 and 28, Township 7 south, Range 12 east, thence in a southerly direction along a line common to sections 27 and 28 to the corner common to sections 27, 28, 33, and 34, Township 7 south, Range 12 east, thence continuing in a southerly direction along a line common to sections 33 and 24 and its intersection with the northerly right-of-way line of Louisiana Highway 1088, thence in a northeasterly direction along said north right-of-way line of Louisiana Highway 1088 to its intersection with the line common to sections 34 and 35, Township 7 south, Range 12 east to the corner common to sections 34 and 35, Township 7 south, range 12 east and sections 2 and 3, Township 8 south, Range 12 east, thence continuing in a southerly direction along a line common to sections 2 and 3, Township 8 south, Range 12 east to its intersection with the northerly right-of-way line of Interstate 12, thence in a northwesterly direction along the northerly right-of-way line of Interstate 12 to its intersection with the easterly line of section 3, Township 8 south, Range 12 east to the quarter corner common to sections 3 and 10, Township 8 south, Range 12 east, thence in a westerly direction along a line common to sections 3 and 10 to the corner common to sections 3, 4, 9, and 10, Township 8 south, Range 12 east, thence in a southerly direction along a line common to sections 9 and 10, Township 8 south, Range 12 east to the quarter corner common to said sections 9 and 10, thence in a westerly direction to the southwest corner of the southwest quarter of the northeast quarter of section 9, Township 8 south, Range 12 east, thence in a southerly direction to the southeast corner of the northwest quarter of the southeast quarter of section 9, thence in a westerly direction to the southwest corner of the northwest quarter of the southeast quarter of section 9, thence in a southerly direction to the southwest corner of the southeast quarter of the southwest quarter of section 9, thence in a westerly direction along a line common to sections 9 and 16 to the corner common to section 8, 9, 16, 17, Township 8 south, Range 12 east, thence in a southerly direction along a line common to sections 16 and 17, Township 8 south, Range 12 east, to its intersection with the westerly line of section 42, Township 8 south, Range 12 east, thence in a southwesterly direction along the westerly line of section 42 to its intersection with the centerline of the now or formerly Illinois Central Gulf Railroad right-of-way, thence in a northwesterly direction along said centerline of railroad right-of-way to its intersection with the line common to sections 37 and 27, Township 8 south, Range 12 east, thence in a southwesterly direction along the line common to said sections 37 and 47 to its termination and intersection with the range line common to Township 8 south, Range 12 east and Township 8 south, Range 11 east, also being the corner common to sections 37 and 47, Township 8 south, Range 12 east and sections 52 and 53, Township 8 south, Range 11 east, thence continue in a southwesterly direction along the line common to sections 52

and 53, Township 8 south, Range 11 east, to its intersection with the north boundary of Lake Pontchartrain to the east boundary line of the North Causeway Approach Road right-of-way and the point of beginning.

- (2) Amended boundaries, less and except: By virtue of the authority of St. Tammany Home Rule Charter section 8-06 and R.S. 33:1415 and other Constitutional and statutory authority, the boundaries of Gravity Drainage District No. 4 are hereby amended to exclude the following described area from its boundaries, to-wit:

- a. Commence at the intersection of Highway 59 and Interstate 12, the point of beginning; thence follow Highway 59 south to its intersection with Sharp Road; thence follow Sharp Road west to its intersection with the Tammany Trace; thence follow the Tammany Trace south to its intersection with Bayou Chinchuba; thence follow Bayou Chinchuba southwest, south and southwest to its intersection with U.S. Highway 190; thence follow U.S. Highway 190 northwest to its intersection with Asbury Drive (a.k.a. Highway 3228); thence follow Asbury Drive northwest to its intersection with U.S. Highway 190 North; thence follow U.S. Highway North to its intersection with the Ponchitolowa Creek; thence follow the Ponchitolowa Creek northeast to its intersection with Interstate 12; thence follow Interstate 12 southeast to its intersection with Highway 59, also the point of beginning.
- b. The district has constituted since its creation on February 15, 1990, and shall continue to constitute, a public corporation and political subdivision of the State of Louisiana, and has had since its creation, and shall continue to have, all rights, powers and privileges granted by and conferred by the constitution and statutes of the State of Louisiana to gravity drainage districts, including the authority to incur debt, issue bonds and levy taxes.
- c. By virtue of the authority of St. Tammany Home Rule Charter section 8-06 and R.S. 38:1752 and other Constitutional and statutory authority, the boundaries of Gravity Drainage District No. 4 are hereby amended to remove the following described area in its boundaries, to-wit: A certain tract of land situated in the State of Louisiana, Parish of St. Tammany, in a portion of sections 15 and 16, Township 7 south, Range 11 east, Greensburg District, Ward 4, and more fully described as follows:

Commencing at the intersection of Highway 59 and Highway 1088; also the point of beginning, thence proceed north along Highway 59 to Interstate 12; thence proceed along Interstate 12 east to Highway 1088; thence proceed southwest on Highway 1088 to Highway 59 intersection; also the point of beginning.

(Code 1998, § 7-080.00; Ord. No. 90-1231, 2-15-1990; Ord. No. 90-1238, 3-15-1990; Ord. No. 90-1239, 3-15-1990; Ord. No. 92-1669, 11-19-1992; Ord. No. 95-2325, 11-9-1995; Ord. No. 04-0847, 3-4-2004; Ord. No. 06-1318, 6-1-2006; Ord. No. 14-3091, 2-6-2014)

Sec. 115-208. Name, status and powers.

The district hereby created shall be known and designated as "Gravity Drainage District No. 4 of the Parish of St. Tammany, Louisiana," and shall constitute a body corporate in law and a political subdivision of the state and as such shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt, to issue bonds and to levy taxes and assessments.

(Code 1998, § 7-080.01; Ord. No. 90-1231, 2-15-1990; Ord. No. 90-1238, 3-15-1990; Ord. No. 90-1239, 3-15-1990)

Sec. 115-209. Board of commissioners.

The board of commissioners shall be comprised of five members with appointments as per the original ordinance. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 7-080.02; Ord. No. 90-1231, 2-15-1990; Ord. No. 90-1238, 3-15-1990; Ord. No. 90-1239, 3-15-1990; Ord. No. 93-1704, 2-18-1993; Ord. No. 95-2325, 11-9-1995; Ord. No. 00-0157, 6-1-2000)

Sec. 115-210. Domicile and effective date.

The domicile of said gravity drainage district shall be and the same is hereby designated as the St. Tammany Parish Administrative Complex, 21490 Koop Drive, Mandeville, Louisiana 70471, and the board of commissioners hereby appointed shall meet at said domicile, and proceed to organize and elect their officers all in the manner and form provided by the law.

(Code 1998, § 7-080.03; Ord. No. 90-1231, 2-15-1990; Ord. No. 90-1238, 3-15-1990; Ord. No. 90-1239, 3-15-1990; Ord. No. 95-2325, 11-9-1995)

Secs. 115-211—115-228. Reserved.**ARTICLE VI. DRAINAGE DISTRICT NO. 4*****Sec. 115-229. Created; boundaries.**

There is hereby created a drainage district within the parish, which shall comprise and embrace all of the lands within the following boundaries: A certain piece or portion of land being situated in sections 23 and 24, Township 9 south, Range 14 east, St. Tammany Parish, Louisiana, being more fully described as follows:

Commence at the section corner common to sections 13, 14, 23 and 24. Measure thence north 89 degrees 32 minutes 26 seconds east along the section line common to sections 13

***State law reference**—Authority of parish to create drainage district in order to drain and reclaim undrained or partially drained marsh, swamp, and overflowed lands that must be leveed and pumped in order to be drained and reclaimed, R.S. 38:1602 et seq.

and 24 a distance of 487.96 feet; thence south zero degrees 27 minutes 34 seconds east a distance of 49.31 feet to a point, the point of beginning. Thence from the point of beginning measure north 88 degrees 50 minutes 34 seconds east a distance of 2,178.67 feet; thence south zero degrees 41 minutes 52 seconds east a distance of 0.50 feet; thence north 88 degrees 50 minutes 16 seconds east a distance of 1,671.14 feet; thence in an easterly direction along the arc of a curve to the left having a radius of 830.00 feet, a distance of 118.46 feet; thence in an easterly direction along the arc of a curve to the right having a radius of 870.00 feet, a distance of 108.68 feet; thence north 87 degrees 49 minutes 4 seconds east a distance of 784.65 feet; thence south zero degrees 34 minutes 6 seconds east a distance of 1,344.80 feet; thence south 1 degree 25 minutes 45 seconds east a distance of 1,320.31 feet; thence south 89 degrees 12 minutes 21 seconds west a distance of 1,336.49 feet; thence north zero degrees 41 minutes 52 seconds west a distance of 660.00 feet; thence south 89 degrees 12 minutes 22 seconds west a distance of 668.25 feet; thence south zero degrees 41 minutes 52 seconds east a distance of 660.00 feet; thence south 89 degrees 12 minutes 22 seconds west a distance of 668.25 feet; thence south 88 degrees 47 minutes 19 seconds west a distance of 1,333.90 feet; thence south 89 degrees 4 minutes 51 seconds west a distance of 2,659.54 feet; thence north 1 degree 9 minutes 17 seconds west a distance of 385.37 feet; thence north zero degrees 50 feet 56 minutes west a distance of 1,111.73 feet; thence north 57 degrees 16 minutes 36 seconds east a distance of 2,121.10 feet to a point, the point of beginning.

(Code 1998, § 7-086.00; Ord. No. 812, 5-18-1978; Ord. No. 1144, 4-24-1980)

Sec. 115-230. Name, status and powers.

The drainage district herein created is hereby designated "Drainage District No. 4 of the Parish of St. Tammany, State of Louisiana," and as thus created shall constitute a body corporate in law and a political subdivision of the state and as such, shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt to issue bonds and to levy taxes and assessments.

(Code 1998, § 7-087.00; Ord. No. 812, 5-18-1978)

Sec. 115-231. Domicile.

The domicile of the drainage district created herein is hereby designated as the St. Tammany Parish Building, Slidell, Louisiana.

(Code 1998, § 7-088.00; Ord. No. 812, 5-18-1978)

Sec. 115-232. Board of commissioners.

The board of commissioners for Drainage District No. 4 shall be comprised of five members with appointments as per the original ordinance. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 7-088.01; Ord. No. 00-0157, 6-1-2000)

Secs. 115-233—115-257. Reserved.

ARTICLE VII. GRAVITY DRAINAGE DISTRICT NO. 5*

Sec. 115-258. Generally.

Drainage District No. 5 is more particularly described in the following sections.
(Code 1998, § 7-089.00)

Sec. 115-259. Created; amended boundaries.

Acting under the authority of part I, chapter 7, title 38 of the Louisiana Revised Statutes of 1950, as amended, and other constitutional and statutory authority, the boundaries of Gravity Drainage District No. 5 of the Parish of St. Tammany, State of Louisiana (the "district") are hereby amended to compromise and embrace all of the territory within the following described boundaries, to-wit:

- (1) Commencing at the intersection of Ponchitolowa Creek and I-12, thence go southeast on I-12 to the eastern boundary of Ward 4, thence follow the boundary of Ward 4 north to the northeast corner of Ward 4, thence go west along the north boundary of Ward 4 to LA Highway 59 and the Abita Springs town limits, thence go north of LA Highway 59 to a point where the Abita Springs town limits depart to the west, thence follow the Abita Springs town west, north, east and north to the Abita River, thence go downstream along the Abita River to U.S. Highway 190, thence go north on U.S. Highway 190 to the Bogue Falaya Creek, thence go downstream along the Bogue Falaya Creek to the Tchefuncte River, thence go downstream along the Tchefuncte River to Bayou Monga, thence go upstream along Bayou Monga to I-12, thence go east on I-12 to U.S. Highway 190, thence go south on U.S. Highway 190 to Ponchitolowa Creek, thence go upstream along Ponchitolowa Creek to I-12 and the point of beginning. (All of said territory encompassed by said boundaries consist of land which drains naturally or by gravity.)
- (2) Amended boundaries, to include: By virtue of the authority of St. Tammany Home Rule Charter section 8-06 and Louisiana Revised Statute 33:1752 and other Constitutional and statutory authority, the boundaries of Gravity Drainage District No. 5 are hereby amended to include the following described area in its boundaries, to-wit:

Commence at the intersection of Highway 59 and Interstate 12, the point of beginning; thence follow Highway 59 south to its intersection with Sharp Road; thence follow Sharp Road west to its intersection with the Tammany Trace; thence follow the Tammany Trace south to its intersection with Bayou Chinchuba; thence follow Bayou Chinchuba southwest, south and southwest to its intersection with U.S. Highway 190;

*State law reference—Gravity drainage districts generally, R.S. 38:1751 et seq.

thence follow U.S. Highway 190 northwest to its intersection with Asbury Drive (a.k.a. Highway 3228); thence follow Asbury Drive northwest to its intersection with U.S. Highway 190 North; thence follow U.S. Highway North to its intersection with the Ponchitolowa Creek; thence follow the Ponchitolowa Creek northeast to its intersection with Interstate 12; thence follow Interstate 12 southeast to its intersection with Highway 59, also the point of beginning.

- (3) By virtue of the authority of St. Tammany Home Rule Charter section 8-06 and R.S. 33:1752 and other Constitutional and statutory authority, the boundaries of Gravity Drainage District No. 5 are hereby amended to include the following described area in its boundaries, to-wit: A certain tract of land situated in the State of Louisiana, Parish of St. Tammany, in a portion of sections 15 and 16, Township 7 south, Range 11 east, Greensburg District, Ward 9, and more fully described as follows:

Commencing at the intersection of Highway 59 and Highway 1088; also the point of beginning, thence proceed north along Highway 59 to Interstate 12; thence proceed along I-12 east to Highway 1088; thence proceed southwest on Highway 1088 to Highway 59 intersection; also the point of beginning.

- (4) The district has constituted since its creation on August 19, 1993, and shall continue to constitute, a public corporation and political subdivision of the state, and has had since its creation, and shall continue to have, all rights, powers and privileges granted by and conferred by the constitution and statutes of the state to gravity drainage districts, including the authority to incur debt, issue bonds and levy taxes.

(Code 1998, § 7-089.01; Ord. No. 93-1792, 8-19-1993; Ord. No. 97-2649, 5-15-1997; Ord. No. 99-3016, 2-25-1999; Ord. No. 06-1318, 6-1-2006; Ord. No. 10-2394, 11-4-2010)

Sec. 115-260. Name, status and powers.

The district hereby created shall be known and is hereby designated as "Gravity Drainage District No. 5 of the Parish of St. Tammany, Louisiana," and as thus created shall constitute a body corporate in law and a political subdivision of the state and as such shall have all the rights, powers and privileges granted and conferred by the constitution and statutes of the state, including the authority to incur debt, to issue bonds and to levy taxes and assessments.

(Code 1998, § 7-089.02; Ord. No. 93-1832, 10-21-1993)

Sec. 115-261. Board of commissioners.

(a) In accordance with the provisions of section 1758 of Title 38 of the Louisiana Revised Statutes of 1950, as amended (R.S. 38:1758), a board of commissioners shall be appointed according to Ordinance No. 00-0157, consisting of five commissioners; two commissioners for a term of two years and three for a term of four years, with all selections or appointments thereafter to be for a term of four years.

(b) As such, they shall have all the powers and privileges granted and conferred by the constitution and statutes of the state during their respective terms of office and until their successors are duly appointed and have qualified.

(Code 1998, § 7-089.03; Ord. No. 93-1792, 8-19-1993)

Sec. 115-262. Domicile.

The domicile of Gravity Drainage District No. 5 is hereby designated as the St. Tammany Parish Council Office, Mandeville, Louisiana, and the board of commissioners hereby appointed shall meet at said domicile and proceed to organize and elect their officers all in the manner and form provided by the law.

(Code 1998, § 7-089.04; Ord. No. 93-1792, 8-19-1993; Ord. No. 93-1832, 10-21-1993)

Secs. 115-263—115-287. Reserved.

**ARTICLE VIII. SUB-DRAINAGE DISTRICT NO. 1 OF GRAVITY DRAINAGE
DISTRICT NO. 5***

Sec. 115-288. Creation.

By virtue of the authority conferred by Act 297 of the Regular Session of the Louisiana Legislature of 1987, and which became R.S. 38:1807, and other constitutional and statutory authority supplemental thereto, a sub-drainage district is hereby created within Gravity Drainage District No. 5 of the parish, which sub-drainage district shall comprise and embrace a portion of the area within said gravity drainage district, commonly known as Brookstone Subdivision, as more fully described as follows.

(Code 1998, § 7-090.00)

Sec. 115-289. Boundaries.

All that certain piece or parcel of land, together with all buildings and improvements thereon and all rights, ways, means, privileges, servitudes, appurtenances and advantages thereon appertaining; situated in part of the E/2 of the W/2, section 23, Township 7 south, Range 11 east, St. Tammany Parish, Louisiana, bounded on the north by the south line of I-12 right-of-way and on the south by the south line of said section 23, containing 96.49 acres and measures as follows:

Beginning at the $\frac{1}{4}$ section corner common to sections 23 and 26, Township 7 south, Range 11 east, measure north 89 degrees 59 minutes west, a distance of 1,357.12 feet to a point; thence north 00 degrees 17 minutes east, a distance of 3,294.24 feet to a point on the southerly line of Interstate Highway 12; thence along the southerly line of Interstate

***State law reference**—Authority of St. Tammany Parish Council to create sub-drainage districts within the boundaries of drainage districts, R.S. 38:1807.

Highway 12, south 74 degrees 03 minutes east, a distance of 674.96 feet to a point; thence continuing along the southerly line of Interstate Highway 12, south 74 degrees 07 minutes east, a distance of 730.73 feet; thence south 00 degrees 13 minutes west, a distance of 2,908.91 feet, to the point of beginning.

(Code 1998, § 7-090.01)

Sec. 115-290. Name, status and powers.

The sub-drainage district hereby created shall be known and designated as "Sub-Drainage District No. 1 of Gravity Drainage District No. 5 of the Parish of St. Tammany, State of Louisiana" ("the district"), and as thus created shall constitute a political subdivision of the state, and shall have all of the rights, powers and privileges granted and conferred by R.S. 38:1807 and other constitutional and statutory authority, including the authority to incur debt, to issue bonds and to levy parcel fees.

(Code 1998, § 7-090.02)

Sec. 115-291. Board of commissioners.

The governing body of the district shall be a five-member board of commissioners comprised of persons that are residents of, and domiciled within, the boundaries of the district. Members shall be appointed by the parish governing authority to four-year terms running concurrently with the terms of office of the governing authority.

(Code 1998, § 7-090.03)

Sec. 115-292. Domicile.

The domicile and regular meeting place of the district shall be that of the parish governing authority; however, the board of commissioner may meet at either such regular meeting place or a location within the district designated by the presiding officer of the board of commissioners.

(Code 1998, § 7-090.04; Ord. No. 06-1335, 7-6-2006)

DISTRICT NO. 5 (EMERALD OAKS)****Sec. 115-393. Creation; boundaries.**

By virtue of the authority conferred by Act 297 of the Regular Session of the Louisiana Legislature of 1987, and which became R.S. 38:1807, and other constitutional and statutory authority supplemental thereto, a sub-drainage district is hereby created within Gravity Drainage District No. 5 of the parish, which sub-drainage district shall comprise and embrace a portion of the area within said gravity drainage district, commonly known as Emerald Oaks, as more fully described as follows:

EMERALD OAKS CONDOMINIUM, PHASE ONE

A certain piece or portion of ground situated in Section 15, Township 7 South, Range 11 East, St. Tammany Parish, Louisiana, and more fully described as follows:

From the Section Corner common to Sections 9, 10, 15, and 16, Township 7 South, Range 11 East, St. Tammany Parish, Louisiana, go south 89 degrees 30 minutes 06 seconds east 939.02 feet; thence south 00 degrees 02 minutes 41 seconds west 1837.96 feet to the point of beginning. From the point of beginning, go south 00 degrees 12 minutes 59 seconds west 178.34 feet; thence south 89 degrees 52 minutes 58 seconds east 423.99 feet thence south 00 degrees 07 minutes 46 seconds east 376.58 feet thence south 00 degrees 00 minutes 49 seconds west 221.17 feet to a point located on the northerly right-of-way line of Holiday Blvd.; thence go along said right-of-way line north 89 degrees, 20 minutes 26 seconds west 50.00 feet; thence along a curve to the right having a radius of 357.61 feet an arc distance of 180.51 feet; thence leaving said right-of-way line, go north 165.81 feet; thence east 93.00 feet thence north 116.43 feet; thence go north 88 degrees 17 minutes 08 seconds west 80.42 feet; thence west 293.00 feet; thence south 86 degrees 58 minutes 10 seconds west 93.57 feet; thence south 209.79 feet to a point located on the northerly right-of-way line of Holiday Blvd.; thence go along said right-of-way line, north 89 degrees 50 minutes 21 seconds west 123.45 feet; thence

leaving said right-of-way line, go north 00 degrees 05 minutes 08 seconds west 655.71 feet; thence north 89 degrees 17 minutes 14 seconds east 296.81 feet back to the point of beginning.

Said property contains 7.60 acres.

EMERALD OAKS CONDOMINIUM, PHASE TWO

A certain piece or portion of ground situated in Section 15, Township 7 South, Range 11 East, St. Tammany Parish, Louisiana, and more fully described as follows:

From the Section Corner common to Sections 9, 10, 15, and 16, Township 7 South, Range 11 East, St. Tammany Parish, Louisiana, go south 89 degrees 30 minutes 06 seconds east 939.02 feet; thence south 00 degrees 02 minutes 41 seconds west 1837.96 feet; thence south 00 degrees 12 minutes 59 seconds west 178.34 feet; thence south 89 degrees 52 minutes 58 seconds east 423.99 feet; thence south 00 degrees 07 minutes 46 seconds east 376.58 feet; thence south 00 degrees 00 seconds 49 seconds west 221.17 feet to a point located on the northerly right-of-way line of Holiday Blvd.; thence go along said right-of-way line north 89 degrees 20 minutes 26 seconds west 50.00 feet; thence along a curve to the right having a radius of 357.61 feet an arc distance of 180.51 feet to the point of beginning. From the point of beginning, thence leaving said right-of-way line, go north 165.81 feet; thence east 93.00 feet; thence north 116.43 feet; thence go north 88 degrees 17 minutes 08 seconds west 80.42 feet; thence west 293.00 feet; thence south 86 degrees 58 minutes 10 seconds west 93.57 feet; thence south 209.79 feet to a point located on the northerly right-of-way line of Holiday Blvd.; thence go along said right-of-way line, south 89 degrees 50 minutes 21 seconds east 138.88 feet; thence along a curve to the right (clockwise) having a radius of 429.87 feet an arc distance of 236.10 feet; thence go along a curve to the left (counterclockwise) having a radius of 357.61 feet and arc distance of 12.53 feet back to the point of beginning.

Said property contains 2.21 acres.

(Ord. No. 14-3140, 6-5-2014; Ord. No. 14-3165, 7-14-2014)

Sec. 115-394. Name, status and powers.

The sub-drainage district hereby created shall be known and designated as "Sub-Drainage District No. 5 of Gravity Drainage District No. 5 of the Parish of St. Tammany, State of Louisiana" ("the district"), and as thus created shall constitute a political subdivision of the state, and shall have all of the rights, powers and privileges granted and conferred by R.S. 38:1807 and other constitutional and statutory authority, including the authority to incur debt, to issue bonds and to levy parcel fees.

(Ord. No. 14-3140, 6-5-2014; Ord. No. 14-3165, 7-14-2014)

Sec. 115-395. Board of commissioners.

The governing body of the district shall be a five-member board of commissioners comprised of persons that are residents of, and domiciled within, the boundaries of the district. Members shall be appointed by the Parish council to four-year terms running concurrently with the terms of office of the parish council.

(Ord. No. 14-3140, 6-5-2014; Ord. No. 14-3165, 7-14-2014)

Sec. 115-396. Domicile.

The domicile and regular meeting place of the district shall be that of the parish council; however, the board of commissioners may meet at either such regular meeting place or a location within the district designated by the presiding officer of the board of commissioners.

(Ord. No. 14-3140, 6-5-2014; Ord. No. 14-3165, 7-14-2014)

Secs. 115-397—115-407. Reserved.**ARTICLE XIII. GRAVITY DRAINAGE DISTRICT NO. 6*****Sec. 115-408. Creation; boundaries.**

Acting under the authority of part I, ch. 7, title 38 of the Louisiana Revised Statutes of 1950, and other constitutional and statutory authority supplemental thereto, there is hereby created a drainage district within the parish, to compromise and embrace the lands within the following boundaries, to-wit: All that certain portion of ground being situated in portions of T6S-R11 Greensburg District, St. Tammany Parish, State of Louisiana, being more fully described as follows:

Commencing at a point being the junction of River Road and Lee Road and proceeding north of both sides of River Road to the junction of said River Road and Highway 25, thence south of Highway 25 to its junction with Collins Boulevard, U.S. Highway 190; thence along U.S. Highway 190 to its junction with Lee Road; thence north of said Lee Road to the point of beginning.

All set forth on plans in the St. Tammany Department of Public Works entitled "Gravity Drainage District No. 6 of St. Tammany Parish Department of Public Works".

(Code 1998, § 7-102.00; Ord. No. 94-1993, 6-16-1994)

Sec. 115-409. Name, status and powers.

The district created shall be known and designated as "Gravity Drainage District No. 6 of the Parish of St. Tammany, State of Louisiana," and as thus created shall constitute a body

***State law reference**—Gravity drainage districts generally, R.S. 38:1751 et seq.

corporate in law and a political subdivision of the state as conferred by the constitution and statutes of the state, including the authority to incur debt, issue bonds, and levy taxes and assessments.

(Code 1998, § 7-102.01; Ord. No. 94-1993, 6-16-1994)

Sec. 115-410. Board of commissions.

The board of commissioners of Gravity Drainage District No. 6 shall be comprised of five members with appointments as per original ordinance. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.

(Code 1998, § 7-102.02; Ord. No. 94-1993, 6-16-1994; Ord. No. 00-0157, 6-1-2000)

Sec. 115-411. Appointment.

Commissioners for Gravity Drainage District No. 6 shall be appointed according to Ordinance No. 00-0157. The first two named commissioners shall be appointed for terms of two years each and the latter three named commissioners shall be appointed for terms of four years each.

(Code 1998, § 7-102.03; Ord. No. 94-1993, 6-16-1994)

Sec. 115-412. Domicile.

The domicile of said district shall be the parish council office, Mandeville, Louisiana, and the board of commissioners hereby appointed shall meet at said domicile, and proceed to organize and elect their officers all in the manner and form provided by the law.

(Code 1998, § 7-102.04; Ord. No. 94-1993, 6-16-1994)

Secs. 115-413—115-437. Reserved.

ARTICLE XIV. DRAINAGE DISTRICT NO. 5*

Sec. 115-438. Created; boundaries.

A certain portion of land, lying and being situated in sections 26, 27, and 44, Township 9 south, Range 14 east, near the City of Slidell, St. Tammany Parish, Louisiana, and bounded

***Editor's note**—Drainage District No. 5 was created by reorganizing and dividing the boundaries of Drainage District No. 2 and the authority of Ord. No. 94-2057, 8-18-1994.

roughly on the north by the North Diversion Canal, on the east by Interstate 10, on the south by Oak Harbor Boulevard and on the west by U.S. Highway 11; and more particularly described as follows:

Commencing at the corner common to sections 23, 24, 25, and 26 go south 00 degrees, 45 27" east a distance of 1,312.50 feet, thence go north 89 degrees 3 57" east, a distance of 80 feet; thence go north 79 degrees 17 15" east, a distance 191.80 feet; thence go north 70 degrees 10 3" east, a distance of 276.80 feet; thence go north 71 degrees 17 0" east, a distance of 3,688.82 feet to a point; thence go south 49 degrees 20 39" east, a distance of 819.64 feet to a point, thence go south 47 degrees 47 20" east, a distance of 455.46 feet being the point of beginning;

Thence along the westerly right-of-way of Interstate Highway 10; along a curve concave to the right having a radius of 11,234.16 feet, and a length of 1,895.87 feet to a point; thence south 41 degrees 48 33" west, a distance of 1,021.64 feet to a point; thence north 48 degrees 11 27" west, a distance of 87.36 feet to a point; thence along the arc of a curve having a radius of 743.00 feet, and a distance of 1,315.54 feet to the point of reverse curvature of a curve concave to the right; thence along said curve concave to the right having a radius of 623.48 feet a distance of 558.25 feet to the point of tangency; thence north 34 degrees 42 48" west, 336.38 feet to the point of curvature of a curve concave to the left; thence along said curve concave to the left having a radius of 648.00 feet a distance of 395.85 feet to the point of tangency; thence north 69 degrees 42 51" west, a distance of 586.71 feet to the point of curvature of a curve concave to the left; thence along said curve concave to the left having a radius of 595.00 feet, a distance of 728.31 feet to a point; thence south 40 degrees 09 09" west, a distance of 154.76 feet to a point; thence south 64 degrees 25 37" east, a distance of 69.80 feet to a point; thence south 25 degrees 34 23" west, 321.26 feet to the point of curvature of a curve concave to the right; thence along said curve concave to the right having a radius of 598.00 feet, a distance of 753.04 to the point of reverse curvature of a curve concave to the left; thence along said curve concave to the left having a radius of 628.89 feet, a distance of 180.66 feet to the point of reverse curvature of a curve concave to the right; thence along said curve concave to the right having a radius of 991.93 feet, a distance of 414.50 feet to a point; thence north 58 degrees 54 11" west, a distance of 911.92 feet to a point; thence north 34 degrees 29 04" west, 463.97 feet to the point of curvature of a curve concave to the right; thence along said curve concave to the right having a radius of 1,688.00 feet, a distance of 1,1101.51 feet to a point of tangency; thence north 52 degrees 40 57" west, a distance of 1,413.88 feet to the intersection of Oak Harbor Boulevard with the easterly line of U.S. Highway 11; thence along the easterly line of U.S. Highway 11 north 34 degrees 12 14" east, 183.63 feet to the point of curvature of a curve concave to the left having a radius of 6,084.52 feet and a distance of 851.33 feet to the point of tangency; thence north 26 degrees 11 14" east, a distance of 374.93 feet to a point; thence north 14 degrees 02 46" east, a distance of 265.28 feet to the intersection of the easterly line of U.S. Highway 11 with the northerly line of the North Diversion Canal; thence along the northerly line of the North Diversion Canal;

south 75 degrees 57 14" east, 863.37 feet to a point; thence south 13 degrees 16 47" east, 407.98 feet to a point; thence south 78 degrees 19 44" east, 548.04 feet to a point; thence North 87 degrees 31 06" east, 756.70 feet to a point; thence north 86 degrees 43 58" east, 998.82 feet to a point; thence north 87 degrees 15 21" east, 1,450.49 feet to a point; thence south 60 degrees 51 45" east, 1,310.60 feet to a point; thence south 48 degrees 12 44" east, 966.08 feet to a point; thence south 47 degrees 23 00" east, 1,740.96 feet to the intersection of the northerly line of the North Diversion Canal and the westerly line of Interstate Highway 10 to the point of beginning. Said property contains 536.41 acres. All as per the plan of St. Tammany Parish Drainage District No. 5 by J.J. Krebs & Sons, Inc., Joseph J. Krebs, Jr., RPLS, dated February 24, 1994, Job No. 94-5232.
(Code 1998, § 7-103.00; Ord. No. 94-2057, 8-18-1994)

Sec. 115-439. Name.

The presently existing land remaining on the east side of Interstate 10 shall be named St. Tammany Drainage District No. 2. The land on the west of Interstate 10 shall be named St. Tammany Parish Drainage District No. 5, and each reorganized drainage district shall constitute a body corporate in law and a political subdivision of the State of Louisiana as conferred by the constitution and statutes of the state, including the authority to incur debt, issue bonds, and levy taxes and assessments.
(Code 1998, § 7-103.01; Ord. No. 94-2057, 8-18-1994)

Sec. 115-440. Board of commissioners.

The board of commissioners of Drainage District No. 5 shall be comprised of five members with appointments as per the original ordinance. There shall be four members nominated and appointed by the parish council. There shall be one member nominated and appointed by the parish president.
(Code 1998, § 7-103.02; Ord. No. 94-2057, 8-18-1994; Ord. No. 00-0157, 6-1-2000)

Sec. 115-441. Appointment.

Commissioners for St. Tammany Parish Drainage District No. 5 shall be appointed according to Ordinance No. 00-0157. The commissioners shall at their first meeting immediately determine by lot their terms of office, which shall be respectively, one, two, three, four and five years. They shall serve until their successors have been appointed and qualified.
(Code 1998, § 7-103.04; Ord. No. 94-2057, 8-18-1994)

Sec. 115-442. Finances.

The funds held on account by the director of finance for the parish in the name of St. Tammany Parish Drainage District No. 2 shall be transferred to the respective districts, with St. Tammany Parish Drainage District No. 2 receiving 87.77 percent of the fund and the newly

created St. Tammany Parish Drainage District No. 5 receiving 12.23 percent of the funds and further the director of finance is hereby authorized to transfer these funds and the accounting and financial functions to the respective districts all in accordance with the rules and regulations pertaining thereto.

(Code 1998, § 7-103.05; Ord. No. 94-2057, 8-18-1994)

Sec. 115-443. Domicile.

The domicile of the St. Tammany Drainage District No. 5 shall be 300 Oak Harbor Boulevard, Slidell, Louisiana, and the board of commissioners hereby appointed shall meet at said domicile, and proceed to organize and elect their officers all in a manner and form provided by law.

(Code 1998, § 7-103.06; Ord. No. 94-2057, 8-18-1994)

Secs. 115-444—115-469. Reserved.

ARTICLE XV. DRAINAGE COMMISSION

Sec. 115-470. Composition; selection of members.

This commission shall be comprised of nine members with appointments parish-wide. There shall be seven members nominated and appointed by the parish council. There shall be two members nominated and appointed by the parish president. The president shall select his appointments from substantially different geographic areas of the parish, for example, east-west, north-south, rural-nonrural.

(Code 1998, § 7-104.00; Ord. No. 00-0157, 6-1-2000)

**ARTICLE II. REGIONAL PLANNING COMMISSION FOR PARISHES OF
JEFFERSON, ORLEANS, ST. BERNARD AND ST. TAMMANY***

Sec. 120-19. Regional planning area.

(a) The regional planning area hereby established is to be comprised of the total area of Jefferson Parish, Orleans Parish, St. Bernard Parish, St. Tammany Parish and Plaquemines Parish.

(b) There is hereby established a regional planning commission in accordance with the provisions of Act 239 of the Louisiana Legislature of 1956, as now amended by Acts No. 114 of the Louisiana Legislature of 1966, Nos. 267, section 1 and 288, section 2 of the Louisiana Legislature of 1968, No. 329, section 1 of the Louisiana Legislature of 1970, No. 607, section 1 of the Louisiana Legislature of 1972, No. 112, section 1 of the Louisiana Legislature of 1973, No. 249, section 1 of the Louisiana Legislature of 1974, No. 132, section 1 of the Louisiana Legislature of 1979, No. 377, section 2 of the Louisiana Legislature of 1984 and No. 533, section 1 of the Louisiana Legislature of 1985, for the following purposes:

- (1) To prepare and from time to time revise, amend, extend or add to a plan or plans for the development of the regional planning area, which plan or plans collectively shall be known as the regional development plan. Such plan shall be based on studies of physical, social, economic, and governmental conditions and trends and shall aim at the coordinated development of the regional planning area in order to promote the general welfare and prosperity of its people. In preparing the regional development plan, the planning commission shall take account of and shall seek to harmonize the planning activities of federal, state, parish, municipal or other local agencies within the area. In preparing such plan, or any part thereof, and in preparing, from time to time, revisions, amendments, extensions or additions, the regional planning commission may seek the cooperation and advice of the state, state planning office, and of other appropriate departments, agencies and instrumentalities of federal, state and local government, of other regional planning commissions, educational institutions and research organizations, and of civic groups and private persons and organizations. The

***Editor's note**—Sections 120-19—120-29 have been amended by the authority of Ord. No. 96-2491, adopted 9-11-1996, in order to re-establish the Regional Planning Commission to include the Parish of Plaquemines. The sections mentioned herein are thereby changed in title and content by the effect of this article.

regional development plan shall embody the policy recommendations of the regional planning commission in regard to the physical development of the regional planning area and shall contain:

- a. A statement of the objectives, standards and principles sought to be expressed in the regional development plan;
 - b. Recommendations for the most desirable pattern of land use within the regional planning area, in the light of the best available information concerning topography, climate, soil and underground conditions, watercourses and bodies of water, and other natural or environmental factors, as well as in the light of the best available information concerning the present and prospective economic bases of the regional planning area, trends of industrial, population or other developments, the habits and standards of life of the people of the regional planning area, and the relocation of land use in adjoining areas. Such recommendations shall, insofar as appropriate, indicate areas for residential uses and maximum recommended densities therein; areas for farming and forestry, mining and other extractive industries; areas for manufacturing and industrial uses, with classification of such areas in accordance with their compatibility with land use in adjoining areas; areas for the concentration of wholesale, retail, business and other commercial uses, areas for recreational uses, and for open spaces and areas for mixed uses;
 - c. The circulation pattern recommended for the regional planning area, including routes and terminals of transit, transportation and communication facilities, whether used for movement within the regional planning area or for movement from adjoining areas;
 - d. Recommendations concerning the need for and the proposed location of public and private works and facilities, such as utilities, flood control works, reservoirs, and pollution control facilities, military or defense installations which works or facilities, by reason of their function, size, extent or for any other causes are of regional or metropolitan as distinguished from purely local concern, or which for any other cause are appropriate subjects for inclusion in the regional development plan;
 - e. Such other recommendations of the regional planning commission concerning current and impending problems as may affect the regional planning areas as a whole;
- (2) To make or assist in studies and investigations, insofar as may be relevant to regional or, metropolitan planning, or the resources of the regional planning area and of existing and emerging problems of agriculture, industry, commerce, transportation, population, housing, public service, local government and of allied matters affecting the

development of the regional planning area, and in making such studies to seek the cooperation and collaboration of the state planning office and of appropriate departments, agencies and instrumentalities of federal, state and local government, educational institutions and research organizations, whether public or private, and of civic groups and private persons and organizations;

- (3) To prepare and from time to time revise inventory listings of the region's or metropolitan area's natural resources, and of major public and private works and facilities of all kinds which are deemed of importance to the development of the regional planning area as a whole;
- (4) To cooperate with, and provide planning assistance, including but not limited to surveys, land use studies, urban renewal plans, technical services and other planning work, to parish, municipal or other local government, instrumentalities or planning agencies; coordinate its planning activities with the planning activities of the state, and of the parishes, municipalities or other local units within its regional planning area, and cooperate with and assist departments and other agencies or instrumentalities of federal, state and local government as well as other regional planning commissions in the execution of their planning functions with a view to harmonizing their planning activities with the regional development plan. The commission shall also cooperate and confer with, and upon request supply information to, federal agencies, and to local or regional agencies created pursuant to the federal program or which receive federal support, and shall cooperate and confer, as far as possible, with planning agencies of other states or of regional groups of states adjoining its area. Whenever cooperation or assistance under this subsection includes the rendering of technical services such services may be rendered free or in accordance with an agreement for reimbursement;
- (5) To advise and supply information, as far as available, to civic groups and private persons and organizations who may request such information or advice, and who study or otherwise concern themselves with the region's problems and development in the fields of agriculture, business and industry, labor, natural resources, urban growth, housing and public service activities such as public health and education, insofar as such problems and development may be relevant to regional or metropolitan planning;
- (6) To provide information to officials of departments, agencies, and instrumentalities of state and local government and to the public at large, in order to foster public awareness and understanding of the objectives of the regional development plan and of the functions of regional or metropolitan and local planning, and in order to stimulate public interest and participation in the orderly, integrated development of the region or metropolitan area;
- (7) To accept and receive, in furtherance of its functions, funds, grants and services from the federal government or its agencies, from departments, agencies and instrumentalities of state, parish, municipal or local government, or from private and civic sources;

- (8) To hold public or private hearings and sponsor public forums in any part of its area whenever it deems it necessary or useful in the execution of its other functions;
 - (9) To cooperate, in the exercise of its planning functions, with federal and state agencies in planning for civil defense;
 - (10) Have the power to borrow money from private lenders in order to stabilize its cash flow necessary for the staffs day to day operations, provided that such debt is secured by commission receivables or other collateral;
 - (11) Any two or more of the regional planning commissions are authorized to form an association for purpose of coordinating comprehensive planning/development programs for the resolution of economic, social, physical, and governmental problems of the state and its citizens;
 - (12) The association may exercise any and all powers necessary or appropriate to effectuate this purpose, including but not limited to the following powers:
 - a. To enter into agreements or other transactions with any federal, state, or local governmental agency and with private sector organizations.
 - b. To apply for and receive state and other funds for distribution to the regional planning commissions belonging to the association based upon allocation formulas developed by these commissions.
 - c. To exercise all or any part or combination of powers granted and to do and perform all acts and things necessary or convenient to carry out the general powers expressly granted to the regional planning commissions when authorized by the several regional planning commissions belonging to the association.
 - (13) To exercise all other powers necessary and proper for the discharge of its duties.
- (Code 1998, § 18-016.00; Ord. No. 519, Bk. 7, P. 21; Ord. No. 80-48, 9-11-1980; Ord. No. 85-361, 3-21-1985; Ord. No. 96-2491, 9-11-1996)

Sec. 120-20. Commission generally.

- (a) In order to carry out the purposes contained in section 120-19, there is hereby established a regional planning commission which shall consist of 26 members, five each being legal residents of Jefferson Parish, Orleans Parish, St. Bernard Parish, St. Tammany Parish, Plaquemines Parish, and the director of the state department of transportation and development.
- (b) The members of such commission shall serve without compensation.
- (c) The membership of such commission shall be composed of a simple majority of appointed or elected public officials holding office in the following municipalities and/or parishes, namely Jefferson Parish, Orleans Parish, St. Bernard Parish, St. Tammany Parish, and Plaquemines Parish.

(d) The five members from the Parish of Jefferson shall include the parish president, the council chairperson, and a third member selected by the parish council and approved by the parish president from among the mayors of the municipalities located within the Parish of Jefferson, which member shall represent the municipalities therein located, and two members who must not otherwise hold elected or appointed office in Jefferson Parish, to be appointed by the council and approved by the parish president.

(e) The five members from Orleans Parish shall include the mayor, the two councilmen elected from the parish at large and the remaining two members must not otherwise hold elected or appointed office, and shall be appointed by the mayor, with the approval by the council.

(f) The five members from the Parish of St. Bernard shall include the following:

- (1) The parish president;
- (2) Two council members in the Parish of St. Bernard, provided same is not otherwise prohibited by law, to be appointed by the parish council;
- (3) Two members who must not otherwise hold elected or appointed office in the Parish of St. Bernard, to be appointed by the parish council.

(g) The five members from the Parish of St. Tammany shall include the following:

- (1) The parish president; or the parish president shall appoint or designate any other parish councilperson in his stead to serve on, attend, or otherwise participate in his stead. The appointment or designation by the parish president of a councilperson may be made without the need of parish ordinance or resolution. In the event the councilperson does not desire to attend or participate, then the parish president may appoint or designate any person other than a parish councilperson in his stead to serve, attend or participate without further approval or ratification by the parish council;
- (2) Two members who must otherwise hold elected or appointed office in the parish, provided same is not otherwise prohibited by law, to be appointed by the parish council;
- (3) Two members who must not otherwise hold elected or appointed office in the parish, to be appointed by the parish council.

(h) The five members from the Parish of Plaquemines shall include the following:

- (1) The president of the parish council;
- (2) The chairperson of the Plaquemines parish council;
- (3) One member who otherwise holds elected or appointed office in the Parish of Plaquemines, provided same is not otherwise prohibited by law, to be appointed by the parish council;

(4) Two members who must not otherwise hold elected or appointed office in the Parish of Plaquemines, to be appointed by the parish council.

(i) The governing bodies of Jefferson Parish, St. Bernard Parish, St. Tammany Parish and Plaquemines Parish may remove their respectively appointed members of the commission, after public hearing, for inefficiency, neglect of duty or malfeasance in office. The chief executive of Orleans Parish may remove any of the members, appointed by him, of the commission, after public hearing, for inefficiency, neglect of duty or malfeasance in office.

(j) The secretary of the state department of transportation and development shall serve as a member of the regional planning commission.

(k) Of the members hereof first appointed, those not holding any other elected or appointed public offices shall hold office as follows: One shall hold office for one year, one for a term of two years, one for a term of three years, one for a term of four years, one for a term of five years, and the sixth member shall hold office for a term of six years.

(l) Members of the regional planning commission who may hold other public offices, appointed or elected, including the secretary of the state department of transportation and development (or his designee) shall serve terms co-extensive with their terms of other public office.

(m) The successors of the regional planning commission members first appointed who do not hold any other appointed or elected public office shall be appointed for a term of five years from and after the expiration of the terms of their predecessors in office.

(n) If a vacancy occurs otherwise than by expiration of term, same shall be filled by appointment of the unexpired term. Such appointment shall be made by the original appointing authority.

(Code 1998, § 18-017.00; Ord. No. 519, Bk. 7, P. 21; Ord. No. 80-48, 9-11-1980; Ord. No. 85-361, 3-21-1985; Ord. No. 96-2491, 9-11-1996; Ord. No. 00-0109, 2-17-2000)

Sec. 120-21. Organization, meetings, and rule of commission.

The regional planning commission so established shall elect a chairperson from its membership and create and fill such other of its offices as it may determine. The term of chairperson shall be one year, with eligibility for re-election. The commission shall hold at least one regular meeting in each month. It shall adopt rules for transaction of business and shall keep records of its resolutions, transactions, findings and determinations, and which records shall be public. (Code 1998, § 18-018.00; Ord. No. 519, Bk. 7, P. 21; Ord. No. 96-2491, 9-11-1996)

Sec. 120-22. Staff and finances.

In order to carry out its functions and responsibilities the regional planning commission may appoint such employees as it may deem necessary for its work, whose appointment, promotion,

demotion and removal shall be subject to the same general provisions governing other corresponding civil employees of the parishes and municipality cooperating to engage in regional planning. The commission may also contract with planning experts, engineers, architects, and other consultants for such services as it may require. The expenditures of a commission, exclusive of those made from funds received by gift, grants of federal, state and other such agencies, shall be within the amounts appropriated for the purpose by the cooperating local legislative bodies, which shall provide the funds, equipment and accommodations necessary for the commission's work.

(Code 1998, § 18-019.00; Ord. No. 519, Bk. 7, P. 21; Ord. No. 96-2491, 9-11-1996)

Sec. 120-23. Regional development plan; filing; distribution.

Upon the preparation of the regional development plan or of any phase or functional part thereof, or upon the preparation of any extension of or addition to the plan, the regional planning commission shall file such plan, part of plan, amendment, revision, extension or addition in the office of the state director of public works, and shall transmit copies of the same to the chief administrative officers, the legislative bodies and to the planning agencies of the parishes and municipalities or other local governments within its area, as well as to the regional planning commissions established for adjoining areas. The regional planning commission shall make copies of the regional development plan or part of a plan available for general distribution or sale.

(Code 1998, § 18-020.00; Ord. No. 519, Bk. 7, P. 21; Ord. No. 96-2491, 9-11-1996)

Sec. 120-24. Relationship of commission to municipal and parish planning commissions.

(a) The regional planning commission created herein shall not be authorized to exercise the functions of any municipal planning commission or parish planning commission, where such are established within a regional planning area, except as hereinafter provided.

(b) In a municipality or parish located in the regional planning area as hereinabove defined, the legislative body of the municipality or parish may designate the regional planning commission as the municipal planning commission or the parish planning commission, provided all requirements, if any, of the local home rule charters are met. Upon such designation, the regional planning commission shall have all the powers and functions relating to making, adopting, amending and adding to the master plan of the municipality or parish part thereof, or relating to the planning of the municipality or parish as provided or granted by R.S. 33:101 through 33:119 inclusive or by other laws to the planning commission of the municipality or parish; and the master plan, its parts, amendments and additions made and adopted by the designated commission for the municipality or parish shall have the same force and effect in the municipality or parish as though made and adopted by the municipal planning commission appointed by the municipality or a parish planning commission appointed by the parish. In acting as the planning commission of the municipality, or the parish, the designated regional

planning commission shall follow the procedure specified by the provisions of R.S. 33:101 through 33:119 inclusive, and other laws relating to municipal or parish planning commissions. Any municipality or parish so designating a regional planning commission as its planning commission shall pay to the designated commission that portion of the expenses of the designated commission which is properly chargeable to the planning service rendered to the municipality or parish plan.

(c) In cases where a municipality or a parish has a municipal or a parish planning commission functioning within a regional planning area, then the regional planning commission shall recommend measures for the coordination of plans, and if appropriate, recommend plans for adoption by the said municipal or parish planning commission.

(Code 1998, § 18-021.00; Ord. No. 519, Bk. 7, P. 21; Ord. No. 96-2491, 9-11-1996)

Sec. 120-25. Local governments and planning agencies; plans and reports; proposals.

(a) To facilitate effective and harmonious planning of the region or metropolitan area, all parish and municipal legislative bodies, and all parish, municipal or other local planning agencies shall file with the regional planning commission, for its information, all parish or municipal plans, zoning ordinances, official maps, building codes, subdivision regulations, or amendments or revisions of any of them, as well as copies of their regular and special reports dealing with planning matters.

(b) Parish or municipal legislative bodies, or parish, municipal or other local planning agencies may also submit proposals for such plans, ordinances, maps, codes, regulations, amendments or revisions prior to their adoption, in order to afford an opportunity to the regional planning commission and/or its staff to study such proposals and to render advice thereon.

(Code 1998, § 18-022.00; Ord. No. 519, Bk. 7, P. 21; Ord. No. 96-2491, 9-11-1996)

Sec. 120-26. Federal, state and local aid to commission.

The regional planning commission may request and accept grants of funds or services from the federal government or any of its agencies, from the state government or any of its agencies or from parish, municipal or other local governments within their planning area, or from private sources. The parishes and municipalities are hereby authorized to appropriate funds for the purposes of the regional planning commission established for all or part of their area. The books and accounts of the regional planning commission shall be public records open for public inspection, and shall show the amounts and sources of all receipts and the amount of all disbursements.

(Code 1998, § 18-023.00; Ord. No. 519, Bk. 7, P. 21; Ord. No. 96-2491, 9-11-1996)

Sec. 120-27. Miscellaneous powers and duties of commission.

(a) Members of the commission created herein, when duly authorized by the commission, may attend planning conferences or meetings or planning institutes or hearings upon pending planning legislation, and the commission may, by resolution, pay the reasonable traveling expenses incident to such attendance. When so directed and authorized by the regional planning commission, members thereof who hold no other elected or appointed office may be paid a per diem of \$50.00 each for attendance at regular or specifically called meetings of full commission or the executive committee thereof in no event to exceed two such meetings per month, i.e., in no event is payment of a total per diem per such member to exceed \$100.00 per month, payable out of the funds of the regional planning commission.

(b) All public officials shall, upon request, furnish to the commission, within a reasonable time, such available information as it may require for its work. The commission, its members, officers and employees, in the performance of their functions, may enter upon any land and make examinations and surveys and place and maintain necessary monuments and marks thereon. In general, the commission shall have such powers as may be necessary to enable it to fulfill its functions, promote planning and in all respects carry out the purposes of this article. (Code 1998, § 18-024.00; Ord. No. 519, Bk. 7, P. 21; Ord. No. 96-2491, 9-11-1996)

Sec. 120-28. Boundaries.

The boundaries of the regional planning area hereby established is to be comprised of the total area of Jefferson Parish, Orleans Parish, St. Bernard Parish, St. Tammany Parish and Plaquemines Parish. (Code 1998, § 18-025.00; Ord. No. 96-2491, 9-11-1996)

Sec. 120-29. Effective date.

The effect of this article shall be suspended until such time as the Parishes of Jefferson, Orleans and St. Bernard adopt identical ordinances to the one upon which this article is based. (Code 1998, § 18-026.00; Ord. No. 519, Bk. 7, P. 21)

Secs. 120-30—120-46. Reserved.**ARTICLE III. PARISH PLANNING COMMISSION****Sec. 120-47. Membership.**

(a) The parish planning commission shall be composed of 11 members.

(b) The parish president shall have the unilateral and exclusive right to appoint two members. These exclusive appointments by the parish president do not require action by resolution or ordinance.

(c) The parish council, by resolution, shall have the unilateral and exclusive right to appoint nine members.

(d) Any member who fails to appear at two consecutive planning commission meetings may be removed by his appointing authority. Members may also be removed at any time with or without cause by the appointing authority. A majority vote of the parish council membership is required to remove members appointed by the parish council.

(e) Any vacancy as specifically to the nine parish council appointments shall be unilaterally and exclusively filled by council resolution within 75 days of notice of the vacancy.

(f) Any vacancy as specifically to the two parish president appointments shall be filled unilaterally and exclusively by the parish president within 75 days of notice of the vacancy.

(g) Terms of all planning commission members shall be concurrent with the terms of office of the parish president and parish council.

(h) Planning commission members shall receive a per diem of \$50.00 for each meeting of the commission attended, for a maximum of 24 meetings per year.

(i) No member shall seek, qualify for, or hold an elected public office while seated as a planning commissioner.

(j) A person newly appointed and serving on the planning commission shall receive at least four hours of training prior to or within one year of appointment. Each year, all commissioners shall attend a mandatory four hours of continuing education training provided by the department of planning and development. Should a commissioner be unable to attend the mandatory training session, that commissioner will not take part in commission functions until the four-hour training requirement has been met. Should the parish-sponsored training session not be available, an alternative training session approved by the director of planning and development may be substituted. Commissioners newly appointed, and those continuing to serve, on both the planning commission and the zoning commission are required to obtain a combined total of four hours of training and annual continuing education, respectively.

(Code 1998, § 18-036.00; Ord. No. 04-0880, § 18-036.00, 5-6-2004; Ord. No. 15-3399, § 18-036.00, 10-1-2015)

Sec. 120-48. Chairperson and vice-chairperson.

(a) At the first regular meeting of each calendar year, the members of the planning commission shall elect one of their number as chairman and one of their number as vice-chairman, and the terms shall commence at that meeting.

(b) In the absence of the chairman, the vice-chairman shall act as chair and shall have all the powers of the chairman.

(c) In the absence of both the chairman and the vice-chairman, a quorum may select a member to preside over the meeting.

(d) The chairman may appoint committees, comprised of no more than five members of the commission, as well as other persons, to serve the commission as deemed necessary.

(e) The chairman may engage in discussion and must vote in the same manner as any other member of the commission.

(f) The chairman may suggest motions but may neither make nor second motions.
(Code 1998, § 18-036.01; Ord. No. 04-0880, § 18-036.01, 5-6-2004; Ord. No. 15-3399, § 18-036.01, 10-1-2015)

Sec. 120-49. Secretary.

(a) The director of the department of planning and development, or his designated representative, shall serve as the secretary to the planning commission.

(b) The secretary shall keep the minutes of the proceedings of the commission, and maintain all records of the commission meeting, hearings and proceedings. The minutes shall show the vote of each member upon each question, or if absent or failing to vote, indicating that fact. A copy of the minutes and actions of the commission shall be filed with the parish council.

(c) The secretary shall provide notices of hearings and meetings as may be required by law, and shall prepare all agendas.

(d) The secretary shall receive, determine the completeness of, and review all applications.

(e) The secretary shall serve as the point of contact for all applicants, and shall collect and compile information and report recommendations to the commission. Said recommendation shall be considered and ruled upon by the commission following the required public hearing.
(Code 1998, § 18-036.02; Ord. No. 04-0880, § 18-036.02, 5-6-2004; Ord. No. 15-3399, § 18-036.02, 10-1-2015)

Sec. 120-50. Planning staff.

The staff of the departments of planning and development, engineering, and environmental services shall serve as the support staff of the planning commission and may be requested to provide assistance in the performance of the duties of the commission by the chairman on behalf of the entire commission.

(Code 1998, § 18-036.03; Ord. No. 04-0880, § 18-036.03, 5-6-2004; Ord. No. 15-3399, § 18-036.03, 10-1-2015)

Sec. 120-51. Powers and duties.

The planning commission shall have the following powers and duties:

- (1) To hear, review and propose amendments to chapter 125.
 - (2) To hear, review and approve or disapprove all plats of subdivision, as required in chapter 125. No plat of a subdivision of land within the parish, or a part thereof, requiring commission approval shall be filed or recorded until it has been stamped by a licensed land surveyor, approved by the planning commission, all regulatory requirements have been completed, and the approval entered in writing on the plat bearing the signatures of the planning commission chairman, secretary and director of public works. For purposes of expediency and for the convenience of applicants, facsimile (by stamp or machine) or electronic signature of the planning commission chairman, secretary, and the director of public works, in blue ink only, may be utilized on approved plats upon their respective approvals.
 - a. The planning commission shall approve or disapprove a final subdivision plat by the third consecutive monthly meeting of the commission wherein the final subdivision plat has appeared on its agenda; otherwise said plat shall be deemed to have been approved, and a certificate to that effect shall be issued by the commission upon request.
 - b. An applicant may request the planning commission to postpone its final subdivision plat review, upon written notice, no later than 48 hours before the meeting date. If the commission grants the applicant a postponement at the meeting, the time constraints for the commission to approve or disapprove the final subdivision plat shall begin again and follow the same procedures as set forth above.
 - (3) To adopt a master or comprehensive plan or elements thereof, including graphics, narrative description and policies to guide and accomplish the coordinated, adjusted and harmonious development of the parish.
 - (4) To make careful and comprehensive surveys and studies of present and future growth of the parish and to make periodic reviews and updates to the master plan or comprehensive plan or portions thereof.
 - (5) To review and report on any matter referred to it by the parish president or the parish council (i.e., transportation improvement plan, capital improvement program).
 - (6) To make its special knowledge and expertise as a commission available, upon reasonable written request to any official, department or board.
 - (7) To exercise all of the powers and duties conferred by R.S. 33:102 through 33:119 inclusive, where applicable, and as may be amended by the state legislature.
- (Code 1998, § 18-036.04; Ord. No. 04-0880, § 18-036.04, 5-6-2004; Ord. No. 15-3399, § 18-036.04, 10-1-2015)

Sec. 120-52. Parish council authority on appeal.

(a) Any person claiming to be aggrieved by a decision of the planning commission, except an approval in final subdivision review, may appeal to the parish council, through the parish department of planning and development, in written form within ten days following the commission's hearing. The appeal may be heard by the parish council at its next regularly scheduled meeting following the ten-day appeal period. The parish council shall have the exclusive right to overturn any planning commission decision by a majority vote of the membership of the parish council, with the exception of overturning a planning commission denial in subdivision review which shall require a two-thirds vote of the membership of the parish council.

(b) Any person or persons jointly or severally aggrieved by any decision of the parish council relative to a planning commission appeal may file a petition to the 22nd Judicial District Court in and for the parish for the issuance of a writ of certiorari or for other appropriate legal proceedings. The petition shall be filed within 30 days after the decision of the council becomes final, which shall commence on the day following the effective date of the council's resolution or, when the adoption of an ordinance is required, the day following the effective date of the ordinance. The actions of the parish council shall be subject to review on the grounds of abuse of discretion, unreasonable exercise of police powers, an excessive use of powers granted to the council, or the denial of the right to due process. However, the right to petition for judicial review shall not be limited to the foregoing grounds.

(Code 1998, § 18-036.05; Ord. No. 04-0880, § 18-036.05, 5-6-2004; Ord. No. 15-3399, § 18-036.05, 10-1-2015)

Sec. 120-53. Quorum and necessary vote.

(a) No business shall be conducted by the planning commission without a quorum being present. Unless otherwise herein specified, a quorum shall consist of eight members (two-thirds majority).

(b) To constitute final action on any matter before it, at minimum, a majority vote of the membership of the commission is required, unless a larger vote is required by law.

(Code 1998, § 18-036.06; Ord. No. 04-0880, § 18-036.06, 5-6-2004; Ord. No. 15-3399, § 18-036.06, 10-1-2015)

Sec. 120-54. Meetings, hearings, and procedures.

(a) The regular planning commission meeting shall be held at 6:00 p.m. on the second Tuesday of each month at the St. Tammany Parish Administrative Complex, except where holidays or other conflicts shall require rescheduling.

(b) Special meetings may be called by the chairman, or at the request in writing of any six members of the commission, subject to proper legal notice.

(c) All meetings shall be open to the public and shall be conducted in accordance with State Open Meetings Laws and this article.

(d) The commission shall sit only as a planning commission for all planning applications authorized by chapter 125.

(e) If necessary, the planning commission and the zoning commission may meet on the same day. Separate agendas must be maintained for each commission. If both meetings are held on the same day, one meeting must adjourn before the second is commenced.

(f) The agenda for hearings and meetings of the commission shall be prepared by the secretary with the approval of the chairman.

(g) Applications for amendments to chapter 125 or developmental reviews under this article shall not be considered by the commission unless properly and completely filed for placement on the agenda with the secretary, in accordance with the applicable filing procedures of the department of planning and development and provisions for public notice and the filing deadlines established therein.

(h) Matters that have arisen subsequent to the established filing deadline may be placed on the next appropriate commission meeting agenda by the chairman provided that the request is made to the secretary prior to the deadline for final legal notice of the meeting and that all other requirements for legal notification have been met.

(i) The agenda shall constitute the fixed order of business for the particular public hearing or meeting.

(j) The chairman, without objection from the commission, may arrange individual items on the particular agenda if necessary for the expeditious conduct of business.

(k) Other items of business (discussion items) not requiring action by the commission may be presented at a meeting and placed on the agenda under "New Business" by the chairman with a unanimous vote of the commission members present.

(l) Any person wishing to introduce written materials at the public hearing or meeting shall hand the materials to the secretary for proper recording and distribution to the chairman and commission. In order for this information to be introduced and recorded there must be at a minimum 12 copies of each document to be introduced.

(m) The commission shall review the draft minutes of its meetings as prepared by the secretary and approve or amend said minutes as is necessary to accurately reflect the actions described. Upon adoption, these minutes become part of the public record. When commission meetings are audio and/or video recorded, said recordings shall become a part of the meeting minutes reflecting commission action.

(Code 1998, § 18-036.07; Ord. No. 04-0880, § 18-036.07, 5-6-2004; Ord. No. 15-3399, § 18-036.07, 10-1-2015)

Sec. 120-55. Parliamentary rules.

(a) The latest edition of Robert's Rules of Order is hereby designated as the official manual of the planning commission. If the manual is in conflict with this article, this article shall govern.

(b) A parliamentarian shall be appointed by the chairman.

(c) The chairman shall be familiar with the contents of the manual and may consult with the parliamentarian of the commission and to answer parliamentary inquiries directed to the chairman.

(Code 1998, § 18-036.08; Ord. No. 04-0880, § 18-036.08, 5-6-2004; Ord. No. 15-3399, § 18-036.08, 10-1-2015)

Sec. 120-56. Voting.

(a) In the event of a conflict of interest which does not require a resignation in accordance with the Louisiana Code of Government Ethics, R.S. title 42, ch. 15 (R.S. 42:1101 et seq.), as amended, the involved commissioner shall announce the conflict and shall recuse himself from voting on and participating in the discussion of the matter giving rise to the conflict.

(b) Voting by proxy will not be allowed.

(Code 1998, § 18-036.09; Ord. No. 04-0880, § 18-036.09, 5-6-2004; Ord. No. 15-3399, § 18-036.09, 10-1-2015)

Sec. 120-57. General rules of public participation.

(a) Each person who appears at the public hearing or who submits written materials shall provide their name, address, and, if applicable, the name of the organization which they represent.

(b) Prior to the introduction of agenda items, the chairman shall inform the assembly of the order of business at hand and the order of the presentation in consideration of agenda items, and shall instruct the assembly on the appropriate procedures for addressing the planning commission.

(c) The following order of presentation will normally be observed at public hearings after the introduction of an agenda item by the chairman:

- (1) Presentation of staff report and recommendations.
- (2) Comments by applicant and proponents (ten minutes).
- (3) Comments by opponents and interested citizens (ten minutes).
- (4) Additional comments by applicant and proponents (five minutes).
- (5) Additional comments by opponents (five minutes).

- (6) Hearing closed.
- (7) Commission questions, discussion, consideration and action, if necessary.

The commission may extend the public hearing, by majority vote, to accommodate larger crowds or complex cases. Notwithstanding the expiration of time, any person who desires to be heard and who has not previously been recognized, may be accorded the opportunity to be heard once for a period of no more than two minutes at the discretion of the chairman.

(d) Written comments, documents, photographs, plans, drawings, reports, petitions, letters and written argument and questions are encouraged to be submitted to the commission at or prior to the hearing by delivery to the secretary.

(e) Members of the audience at public hearings and meetings shall observe the following rules of conduct and decorum while the meeting is in progress:

- (1) Refrain from talking to other members of the audience in a loud or otherwise disruptive manner.
- (2) Refrain from initiating private conversations with commission members, staff or legal counsel.
- (3) Refrain from approaching the podium unless invited to do so by the chairman.
- (4) Refrain from engaging in any behavior which is not in keeping with proper and courteous conduct.
- (5) Refrain from cheers, jeers, applause, or any expressions of approval or disapproval of comments made by any speakers or any actions taken by the commission.
- (6) Refrain from discussing matters not on the published agenda, unless the proper procedures have been followed in adding the item to the agenda.
- (7) Refrain from bringing any objects into the building and auditorium where the planning meeting is to be held that are disruptive to the meeting.

The chairman shall take whatever action is necessary to ensure that these rules are observed and the meeting proceeds in an orderly fashion.

(Code 1998, § 18-036.10; Ord. No. 04-0880, § 18-036.10, 5-6-2004; Ord. No. 15-3399, § 18-036.10, 10-1-2015)

Sec. 120-58. Seminars and retreats.

(a) From time to time the planning commission may schedule informal study/work sessions designated as seminars or retreats.

(b) Sessions shall be open to the public and the rules of proper notice of commission meetings shall apply.

(c) The only order of business at a session shall be the presentation, familiarization and discussion of the particular agenda study topics.

(d) The planning staff and/or guest presenters shall moderate the discussions and observe the following order of presentation:

- (1) Presentation of study item.
- (2) Discussion interaction between the commission members.
- (3) Public input (if scheduled as part of the seminar).
- (4) Concluding remarks.

(e) No official action shall be taken by the commission on items presented at the seminar or retreat.

(f) Public comment at the seminar, if scheduled, shall be limited based upon the topic and agenda. Interested parties are welcome to listen and learn from the presentation and discussion with no participation in the discussion unless scheduled as an agenda item.

(Code 1998, § 18-036.11; Ord. No. 04-0880, § 18-036.11, 5-6-2004; Ord. No. 15-3399, § 18-036.11, 10-1-2015)

Sec. 120-59. Committees.

(a) In fulfilling its various charges, the planning commission may utilize committees at its discretion.

(b) The commission may appoint committees, comprised of no more than five commission members, and may include other persons as deemed necessary.

(c) Staff personnel will be made available upon reasonable request to provide any assistance required by the committee.

(d) Committees shall not take any action, which may be construed as an official act of the commission, but instead may make recommendations for action by the commission. Committees shall not publicly advocate or promote committee recommendations as an official position of the commission, unless the commission has first acted on the matter.

(e) Committees shall conduct business by an agenda and keep minutes of all proceedings as a matter of public record.

(f) All committee meetings shall be open to the public and shall be conducted in accordance with state open meetings laws and this article.

(g) Following the first hearing on a matter before the commission, a "community meeting" may be called by the chairman and have up to five commissioners in attendance. Community meetings are intended for dissemination of information and for promoting dialogue among applicants and persons interested in matters being brought before the commission only, and shall not be considered a committee of the commission.

(Code 1998, § 18-036.12; Ord. No. 04-0880, § 18-036.12, 5-6-2004; Ord. No. 15-3399, § 18-036.12, 10-1-2015)

Sec. 120-60. Executive session.

From time to time, the planning commission may find it necessary to discuss matters of personnel or litigation pertaining to the business of the commission and shall enter executive session to do so.

(Code 1998, § 18-036.13; Ord. No. 04-0880, § 18-036.13, 5-6-2004; Ord. No. 15-3399, § 18-036.13, 10-1-2015)

Sec. 120-61. Rules of conduct for commissioners.

(a) Each member of the planning commission shall abide by the Louisiana Code of Government Ethics, R.S. title 42, ch. 15 (R.S. 42:1101 et seq.), as amended. Each member shall certify in writing that he has read and understands the "Louisiana Code of Governmental Ethics" located on the Louisiana Board of Governmental Ethics (LBGE) website at <http://ethics.la.gov>, prior to being seated as a planning commissioner. Each member is responsible to register and participate in at least one hour of ethics training annually through the LBGE website at <http://ethics.la.gov/SeminarRegistration/>. Should a commissioner not complete the ethics training in any calendar year, that commissioner will not take part in commission functions until the ethics training requirement has been met.

(b) A commission member shall not meet or communicate in any fashion with any applicant, proponent, opponent or other interested party, excepting members of the parish administration, parish council and/or the commission staff, to discuss any matter before the commission prior to a legal public hearing on that matter. When more than six months have elapsed since the last public hearing on a matter, no commissioner shall meet or communicate in any fashion with any applicant, proponent, opponent or other interested party until a new legal hearing is again held on that matter. Violation of this section may be cause for dismissal of the offending commission member.

(c) Each member may visit the site in question, but may not have discussions concerning the site or project with any interested party prior to the legal hearing, except as outlined in subsection (b) of this section.

(d) Following the initial required public hearing, the commission may form a committee for the express purpose of attempting to better understand the issues raised in the review of the application, in accordance with section 120-59.

(e) A commission members shall not in any way pledge himself to any party on a matter before the commission, prior to the legal public hearing.

(f) Any commission member who has knowledge of the fact that he will not be able to attend one or more scheduled meetings or hearings shall notify the Secretary at the earliest possible opportunity, and in any event before 4:00 p.m. on the day of the first missed meeting.

(g) Once a meeting is called to order by the chairman, the commission members shall take special care to conduct themselves in a professional and courteous manner and remain attentive to the members of the public testifying before the commission.

(h) Commission members requesting information or clarification relative to an application or business item that is before them for consideration may directly contact the secretary for assistance.

(i) The commission may request information or specific actions from the secretary and such request will be reflected in the minutes.

(j) Each commissioner will sign an acknowledgment of having received and fully read the rules of conduct prior to serving as member of the commission.

(Code 1998, § 18-036.14; Ord. No. 04-0880, § 18-036.14, 5-6-2004; Ord. No. 15-3399, § 18-036.14, 10-1-2015)

Sec. 120-62. Representation.

(a) The chairman shall serve as the official spokesman and representative of the commission in all matters that have been acted upon by the commission. The chairman may appoint a member of the commission to serve as spokesperson or representative. Any member who officially represents or speaks for the commission shall report to the commission on any statements made or actions taken while serving in that capacity at its next regularly scheduled meeting.

(b) In the absence of an official spokesman as described in subsection (a) of this section, the secretary shall act on behalf of the commission before the parish council and shall inform the council of all final decisions and recommendations, along with supporting records and documentation, rendered by the commission.

(c) Commission members shall refrain from making statements or taking action which may be identified as or construed to be an official act or position of the commission.

(d) Commission members shall not publicly advocate or promote individual positions or opinions unless the commission has first acted on the matter.
(Code 1998, § 18-036.15; Ord. No. 04-0880, § 18-036.15, 5-6-2004; Ord. No. 15-3399, § 18-036.15, 10-1-2015)

Sec. 120-63. Violation of article.

Any violation of this article may be deemed as cause for removal of the offending member by the appointing authority.
(Code 1998, § 18-036.16; Ord. No. 04-0880, § 18-036.16, 5-6-2004; Ord. No. 15-3399, § 18-036.16, 10-1-2015)

Sec. 120-64. Amendments to rules of policy and procedure.

All planning commission rules of policy and procedure are established by ordinance and may only be amended by the parish council according to the following applicable procedures:

- (1) Proposed amendments may be initiated by any member of the commission who shall file a written copy of the proposal with the secretary.
- (2) The secretary shall place the proposed amendment on the commission agenda for the next available public meeting.
- (3) The commission shall review the proposed amendment, comments from the public, and recommendations from the secretary and legal counsel prior to taking a vote. A two-thirds vote of the commission as a whole (eight votes) is required to recommend an amendment to this article.
- (4) If approved, the secretary shall forward the amendment to the parish council for consideration of an amending ordinance.

(Ord. No. 15-3399, § 18-036.17, 10-1-2015)

Secs. 120-65—120-84. Reserved.

ARTICLE IV. PARISH ZONING COMMISSION*

Sec. 120-85. Membership.

- (a) The zoning commission shall be composed of 11 members.

(b) The parish president shall have the unilateral and exclusive right to appoint two members. These exclusive appointments by the parish president do not require action by resolution or ordinance.

***State law references**—Parish zoning regulations generally, R.S. 33:4780.40 et seq.; parish zoning commission, R.S. 33:4780.45.

(c) The parish council, by resolution, shall have the unilateral and exclusive right to appoint nine members.

(d) Any member who fails to appear at two consecutive zoning commission meetings may be removed by his appointing authority. Members may also be removed at any time, with or without cause, by the appointing authority. A majority vote of the parish council membership is required to remove members appointed by the parish council.

(e) Any vacancy as specifically to the nine parish council appointments shall be unilaterally and exclusively filled by council resolution within 75 days of notice of the vacancy.

(f) Any vacancy as specifically to the two parish president appointments shall be filled unilaterally and exclusively by the parish president within 75 days of notice of the vacancy.

(g) Terms of all zoning commission members shall be concurrent with the terms of office of the parish president and parish council.

(h) Zoning commission members shall receive a per diem of \$50.00 for each meeting of the commission attended, for a maximum of 24 meetings per year.

(i) No member shall seek, qualify for, or hold an elected public office while seated as a zoning commissioner.

(j) A person newly appointed and serving on the zoning commission shall receive at least four hours of training prior to or within one year of appointment. Each year, all commissioners shall attend a mandatory four hours of continuing education training provided by the department of planning and development. Should a commissioner be unable to attend the mandatory training session, that commissioner will not take part in commission functions until the four-hour training requirement has been met. Should the parish-sponsored training session not be available, an alternative training session approved by the director of planning and development may be substituted. Commissioners newly appointed, and those continuing to serve, on both the planning commission and the zoning commission are required to obtain a combined total of four hours of training and annual continuing education, respectively.

(Code 1998, § 18-051.00; Ord. No. 04-0881, § 18-051.00, 5-6-2004; Ord. No. 15-3399, § 18-051.00, 10-1-2015)

Sec. 120-86. Chairperson and vice-chairperson.

(a) At the first regular meeting of each calendar year, the members of the zoning commission shall elect one of their number as chairman and one of their number as vice-chairman, and the terms shall commence at that meeting.

(b) In the absence of the chairman, the vice-chairman shall act as chair and shall have all the powers of the chairman.

(c) In the absence of both the chairman and the vice-chairman, a quorum of the commission may select a member to preside over the meeting.

(d) The chairman may appoint committees, comprised of no more than five members of the commission, as well as other persons, to serve the commission as deemed necessary.

(e) The chairman may engage in discussion and must vote in the same manner as any other member of the commission.

(f) The chairman may suggest motions but may neither make nor second motions.
(Code 1998, § 18-051.01; Ord. No. 04-0881, § 18-051.01, 5-6-2004; Ord. No. 15-3399, § 18-051.01, 10-1-2015)

Sec. 120-87. Secretary.

(a) The director of the department of planning and development, or his designated representative, shall serve as the secretary to the zoning commission.

(b) The secretary shall keep the minutes of the proceedings of the commission, and maintain all records of the commission meeting, hearings and proceedings. The minutes shall show the vote of each member upon each question, or if absent or failing to vote, indicating that fact. A copy of the minutes and actions of the commission shall be filed with the parish council.

(c) The secretary shall provide notices of hearings and meetings as may be required by law, and shall prepare all agendas.

(d) The secretary shall receive, determine the completeness of, and review all applications.

(e) The secretary shall serve as the point of contact for all applicants, and shall collect and compile information and report recommendations to the commission. Said recommendation shall be considered and ruled upon by the commission following the required public hearing.
(Code 1998, § 18-051.02; Ord. No. 04-0881, § 18-051.02, 5-6-2004; Ord. No. 15-3399, § 18-051.02, 10-1-2015)

Sec. 120-88. Zoning staff.

The staff of the departments of planning and development, engineering and environmental services shall serve as the support staff of the zoning commission and may be requested to provide assistance in the performance of the duties of the commission by the chairman on behalf of the entire commission.

(Code 1998, § 18-051.03; Ord. No. 04-0881, § 18-051.03, 5-6-2004; Ord. No. 15-3399, § 18-051.03, 10-1-2015)

Sec. 120-89. Powers and duties.

The zoning commission shall have the following powers and duties:

- (1) To hear, review and propose amendments to the adopted Unified Development Code, as amended;
 - (2) To adopt a comprehensive plan designed to promote health and the general welfare, and to encourage the most appropriate use of land throughout the parish.
 - (3) To make careful and comprehensive surveys and studies of present and future land use in the parish and to make recommendations, periodic reviews and updates to the parish zoning map, or portions thereof;
 - (4) To review and report on any matter referred to it by the parish president or the parish council. A report shall be issued no later than the second zoning commission meeting after the first publication of the agenda containing said matter provided that any required legal notification to the affected property owner has occurred.
 - (5) To make its special knowledge and expertise as a commission available, upon reasonable written request to any official, department or board.
 - (6) To exercise all of the powers and duties conferred by R.S. title 33, ch. 14 (R.S. 33:4721 et seq.), where applicable, and as may be amended by the state legislature.
- (Code 1998, § 18-051.04; Ord. No. 04-0881, § 18-051.04, 5-6-2004; Ord. No. 15-3316, 5-7-2015; Ord. No. 15-3399, § 18-051.04, 10-1-2015)

Sec. 120-90. Review of zoning decisions.

(a) Any person claiming to be aggrieved by a decision of the zoning commission may appeal to the parish council, through the parish department of planning and development, in written form within ten days following the commission's hearing. The appeal may be heard by the parish council at its next regularly scheduled meeting following the ten-day appeal period. The parish council shall have the exclusive right to overturn any zoning commission decision by a majority vote of the membership of the parish council.

(b) Any person or persons jointly or severally aggrieved by any decision of the parish council relative to a request for amendment, supplement, or change to the regulations, restrictions, zoning district, land use category, or boundaries may file a petition to the 22nd Judicial District Court in and for the parish for the issuance of a writ of certiorari or for other appropriate legal proceedings. The petition shall be filed within 30 days after the decision of the council becomes final, which shall commence on the day following the effective date of the council's resolution or, when the adoption of an ordinance is required, the day following the effective date of the ordinance. The actions of the parish council shall be subject to review on

the grounds of abuse of discretion, unreasonable exercise of police powers, an excessive use of powers granted to the council, or the denial of the right of due process. However, the right to petition for judicial review shall not be limited to the foregoing grounds.

(Code 1998, § 18-051.05; Ord. No. 04-0881, § 18-051.05, 5-6-2004; Ord. No. 08-1761, 3-6-2008; Ord. No. 15-3399, § 18-051.05, 10-1-2015)

Sec. 120-91. Quorum and necessary vote.

(a) No business shall be conducted by the zoning commission without a quorum being present. Unless otherwise herein specified, a quorum shall consist of eight members (two-thirds majority).

(b) To constitute final action on any matter before it, at minimum, a majority vote of the membership of the commission is required, unless a larger vote is required by law.

(Code 1998, § 18-051.06; Ord. No. 04-0881, § 18-051.06, 5-6-2004; Ord. No. 15-3399, § 18-051.06, 10-1-2015)

Sec. 120-92. Meetings, hearings, and procedures.

(a) The regular zoning commission meeting shall be held at 6:00 p.m. on the first Tuesday of each month at the St. Tammany Parish Administrative Complex, except where holidays or other conflicts shall require rescheduling.

(b) Special meetings may be called by the chairman, or at the request in writing of any six members of the commission, subject to proper legal notice.

(c) All meetings shall be open to the public and shall be conducted in accordance with state open meetings laws and this article.

(d) The commission shall sit only as the zoning commission for all zoning applications authorized by the Unified Development Code.

(e) If necessary, the zoning commission and the planning commission may meet on the same day. Separate agendas must be maintained for each commission. If both meetings are held on the same day, one meeting must adjourn before the second is commenced.

(f) The agenda for hearings and meetings of the commission shall be prepared by the secretary with the approval of the chairman.

(g) Applications for amendments to the Unified Development Code under these rules shall not be considered by the commission unless properly and completely filed for placement on the agenda with the secretary, in accordance with the applicable filing procedures of the department of planning and development and provisions for public notice and the filing deadlines established therein.

(h) Matters that have arisen subsequent to the established filing deadline may be placed on the next appropriate commission meeting agenda by the chairman provided that the request is made to the secretary prior to the deadline for final legal notice of the meeting and that all other requirements for legal notification have been met.

(i) The agenda shall constitute the fixed order of business for the particular public hearing or meeting.

(j) The chairman, without objection from the commission, may arrange individual items on the particular agenda if necessary for the expeditious conduct of business.

(k) Other items of business (discussion items) not requiring action by the commission may be presented at a meeting and placed on the agenda under "New Business" by the chairman with a unanimous vote of the commission members present.

(l) Any person wishing to introduce written materials at the public hearing or meeting shall hand the materials to the secretary for proper recording and distribution to the chairman and commission. In order for this information to be introduced and recorded there must be at a minimum 12 copies of each document to be introduced.

(m) The commission shall review the draft minutes of its meetings as prepared by the secretary and approve or amend said minutes as is necessary to accurately reflect the actions described. Upon adoption, these minutes become part of the public record. When commission meetings are audio and/or video recorded, said recordings shall become a part of the minutes reflecting commission action.

(Code 1998, § 18-051.07; Ord. No. 04-0881, § 18-051.07, 5-6-2004; Ord. No. 15-3399, § 18-051.07, 10-1-2015)

Sec. 120-93. Parliamentary rules.

(a) The latest edition of Robert's Rules of Order is hereby designated as the official manual of the zoning commission. If the manual is in conflict with this article, this article shall govern.

(b) A parliamentarian shall be appointed by the chairman.

(c) The chairman shall be familiar with the contents of the manual and may consult with the parliamentarian of the commission and to answer parliamentary inquiries directed to the chairman.

(Code 1998, § 18-051.08; Ord. No. 04-0881, § 18-051.08, 5-6-2004; Ord. No. 15-3399, § 18-051.08, 10-1-2015)

Sec. 120-94. Voting.

(a) In the event of a conflict of interest which does not require a resignation in accordance with the Louisiana Code of Government Ethics, R.S. title 42, ch. 15 (R.S. 42:1101 et seq.), as amended, the involved commissioner shall announce the conflict and shall recuse himself from voting on and participating in the discussion of the matter giving rise to the conflict.

(b) Voting by proxy will not be allowed.
(Code 1998, § 18-051.09; Ord. No. 04-0881, § 18-051.09, 5-6-2004; Ord. No. 15-3399, § 18-051.09, 10-1-2015)

Sec. 120-95. General rules of public participation.

(a) Each person who appears at the public hearing or who submits written materials shall provide their name, address, and, if applicable, the name of the organization which they represent.

(b) Prior to the introduction of agenda items, the chairman shall inform the assembly of the order of business at hand and the order of the presentation in consideration of agenda items, and shall instruct the assembly on the appropriate procedures for addressing the zoning commission.

(c) The following order of presentation will normally be observed at public hearings after the introduction of an agenda item by the chairman:

- (1) Presentation of staff report and recommendations.
- (2) Comments by applicant and proponents (ten minutes).
- (3) Comments by opponents and interested citizens (ten minutes).
- (4) Additional comments by applicant and proponents (five minutes).
- (5) Additional comments by opponents (five minutes).
- (6) Hearing closed.
- (7) Commission questions, discussion, consideration and action, if necessary.

The commission may extend the public hearing, by majority vote, to accommodate larger crowds or complex cases. Notwithstanding the expiration of time, any person who desires to be heard and who has not previously been recognized, may be accorded the opportunity to be heard once for a period of no more than two minutes at the discretion of the chairman.

(d) Written comments, documents, photographs, plans, drawings, reports, petitions, letters and written argument and questions are encouraged to be submitted to the commission at or prior to the hearing by delivery to the secretary.

(e) Members of the audience at public hearings and meetings shall observe the following rules of conduct and decorum while the meeting is in progress:

- (1) Refrain from talking to other members of the audience in a loud or otherwise disruptive manner.
- (2) Refrain from initiating private conversations with commission members, staff or legal counsel.

- (3) Refrain from approaching the podium unless invited to do so by the chairman.
- (4) Refrain from engaging in any behavior which is not in keeping with proper and courteous conduct.
- (5) Refrain from cheers, jeers, applause, or any expressions of approval or disapproval of comments made by any speakers or any actions taken by the commission.
- (6) Refrain from discussing matters not on the published agenda, unless the proper procedures have been followed in adding the item to the agenda.
- (7) Refrain from bringing any objects into the building and auditorium where the zoning meeting is to be held that are disruptive to the meeting.

The chairman shall take whatever action is necessary to ensure that these rules are observed and the meeting proceeds in an orderly fashion.

(Code 1998, § 18-051.10; Ord. No. 04-0881, § 18-051.10, 5-6-2004; Ord. No. 15-3399, § 18-051.10, 10-1-2015)

Sec. 120-96. Seminars and retreats.

(a) From time to time the zoning commission may schedule informal study/work sessions designated as seminars or retreats.

(b) Sessions shall be open to the public and the rules of proper notice of commission meetings shall apply.

(c) The only order of business at a session shall be the presentation, familiarization and discussion of the particular agenda study topics.

(d) The zoning staff and/or guest presenters shall moderate the discussions and observe the following order of presentation:

- (1) Presentation of study item.
- (2) Discussion interaction between the commission members.
- (3) Public input (if scheduled as part of the seminar).
- (4) Concluding remarks.

(e) No official action shall be taken by the commission on items presented at the seminar or retreat.

(f) Public comment at the seminar, if scheduled, shall be limited based upon the topic and agenda. Interested parties are welcome to listen and learn from the presentation and discussion with no participation in the discussion unless scheduled as an agenda item.

(Code 1998, § 18-051.11; Ord. No. 04-0881, § 18-051.11, 5-6-2004; Ord. No. 15-3399, § 18-051.11, 10-1-2015)

Sec. 120-97. Committees.

(a) In fulfilling its various charges, the zoning commission may utilize committees at its discretion.

(b) The commission may appoint committees, comprised of no more than five commission members and may include other persons as deemed necessary.

(c) Staff personnel will be made available upon reasonable request to provide any assistance required by the committee.

(d) Committees shall not take any action, which may be construed as an official act of the commission, but instead may make recommendations for action by the commission. Committees shall not publicly advocate or promote committee recommendations as an official position of the commission, unless the commission has first acted on the matter.

(e) Committees shall conduct business by an agenda and keep minutes of all proceedings as a matter of public record.

(f) All committee meetings shall be open to the public and shall be conducted in accordance with state open meetings laws and this article.

(g) Following the first hearing on a matter before the commission, a "community meeting" may be called by the chairman and have up to five commissioners in attendance. Community meetings are intended for dissemination of information and for promoting dialogue among applicants and persons interested in matters being brought before the commission only, and shall not be considered a committee of the commission.

(Code 1998, § 18-051.12; Ord. No. 04-0881, § 18-051.12, 5-6-2004; Ord. No. 15-3399, § 18-051.12, 10-1-2015)

Sec. 120-98. Executive session.

From time to time, the zoning commission may find it necessary to discuss matters of personnel or litigation pertaining to the business of the commission and shall enter executive session to do so.

(Code 1998, § 18-051.13; Ord. No. 04-0881, § 18-051.13, 5-6-2004; Ord. No. 15-3399, § 18-051.13, 10-1-2015)

Sec. 120-99. Rules of conduct for commissioners.

(a) Each member of the zoning commission shall abide by the Louisiana Code of Government Ethics, R.S. title 42, ch. 15 (R.S. 42:1101 et seq.), as amended. Each member shall certify in writing that he has read and understands the "Louisiana Code of Governmental Ethics" located on the Louisiana Board of Governmental Ethics (LBGE) website at <http://ethics.la.gov>, prior to being seated as a zoning commissioner. Each member is responsible to register and participate in at least one hour of ethics training annually through the LBGE website at

<http://ethics.la.gov/SeminarRegistration/>. Should a commissioner not complete the ethics training in any calendar year, that commissioner will not take part in commission functions until the ethics training requirement has been met.

(b) A commission member shall not meet or communicate in any fashion with any applicant, proponent, opponent or other interested party, excepting members of the parish administration, parish council and/or the commission staff, to discuss any matter before the commission prior to a legal public hearing on that matter. When more than six months have elapsed since the last public hearing on a matter, no commissioner shall meet or communicate in any fashion with any applicant, proponent, opponent or other interested party until a new legal hearing is again held on that matter. Violation of this section may be cause for dismissal of the offending commission member.

(c) Each member may visit the site in question, but may not have discussions concerning the site or project with any interested party prior to the legal hearing, except as outlined in subsection (b) of this section.

(d) Following the initial required public hearing, the commission may form a committee for the express purpose of attempting to better understand the issues raised in the review of the application, in accordance with section 120-97.

(e) A commission member shall not in any way pledge himself to any party on a matter before the commission, prior to the legal public hearing.

(f) Any commission member who has knowledge of the fact that he will not be able to attend a scheduled meeting or hearing shall notify the secretary at the earliest possible opportunity, and in any event before 4:00 p.m. on the day of the meeting.

(g) Once a meeting is called to order by the chairman, the commission members shall take special care to conduct themselves in a professional and courteous manner and remain attentive to the members of the public testifying before the commission.

(h) Commission members requesting information or clarification relative to an application or business item that is before them for consideration may directly contact the secretary for assistance.

(i) The commission may request information or specific actions from the secretary and such requests will be reflected in the minutes.

(j) Each commissioner will sign an acknowledgment of having received and fully read the rules of conduct prior to serving as member of the commission.

(Code 1998, § 18-051.14; Ord. No. 04-0881, § 18-051.14, 5-6-2004; Ord. No. 15-3399, § 18-051.14, 10-1-2015)

Sec. 120-100. Representation.

(a) The chairman shall serve as the official spokesman and representative of the zoning commission in all matters that have been acted upon by the commission. The chairman may appoint a member of the commission to serve as spokesperson or representative. Any member who officially represents or speaks for the commission shall report to the commission on any statements made or actions taken while serving in that capacity at its next regularly scheduled meeting.

(b) In the absence of an official spokesman as described in subsection (a) of this section, the secretary shall act on behalf of the commission before the parish council and shall inform the council of all final decisions and recommendations, along with supporting records and documentation, rendered by the commission.

(c) Commission members shall refrain from making statements or taking action which may be identified as or construed to be an official act or position of the commission.

(d) Commission members shall not publicly advocate or promote individual positions or opinions unless the commission has first acted on the matter.

(Code 1998, § 18-051.15; Ord. No. 04-0881, § 18-051.15, 5-6-2004; Ord. No. 15-3399, § 18-051.15, 10-1-2015)

Sec. 120-101. Violation of rules.

Any violation of this article may be deemed as cause for removal of the offending member by the appointing authority.

(Code 1998, § 18-051.16; Ord. No. 04-0881, § 18-051.16, 5-6-2004; Ord. No. 15-3399, § 18-051.16, 10-1-2015)

Sec. 120-102. Amendments to rules of policy and procedure.

All zoning commission rules of policy and procedure are established by ordinance and may only be amended by the parish council according to the following applicable procedures:

- (1) Proposed amendments may be initiated by any member of the commission who shall file a written copy of the proposal with the secretary.
- (2) The secretary shall place the proposed amendment on the commission agenda for the next available public meeting.
- (3) The commission shall review the proposed amendment, comments from the public, and recommendations from the secretary and legal counsel prior to taking a vote. A two-thirds vote of the commission as a whole (eight votes) is required to recommend an amendment to this article.

(4) If approved, the secretary shall forward the amendment to the parish council for consideration of an amending ordinance.
(Ord. No. 15-3399, § 18-051.17, 10-1-2015)

Secs. 120-103—120-130. Reserved.

ARTICLE V. INDUSTRIAL DISTRICT NO. 1

Sec. 18-131. Created; boundaries.

Under the authority of article XIV, section 14, paragraph b.2 of the constitution of the state for the year 1921, there is hereby created an Industrial District within the parish, which shall comprise all of the territory within the boundaries of Wards 8 and 9 of the parish as they exist on March 16, 1967.
(Code 1998, § 18-065.00; Ord. No. 403, Bk. 6, P. 125)

Sec. 120-132. Name, status and powers.

The industrial district herein created shall be known and is hereby designated as "Industrial District No. 1 of the Parish of St. Tammany, State of Louisiana," and as thus created shall constitute a political and legal subdivision of the state, with full power to sue and be sued in its corporate name, to incur debt and to contract obligations, and to do and perform all acts in its corporate capacity and in its corporate name necessary and proper to carry out its purposes, including the issuance of said bonds, as set forth in article XIV, section 14, paragraph b.2 of the constitution of the state for the year 1921.
(Code 1998, § 18-066.00; Ord. No. 403, Bk. 6, P. 125)

Sec. 120-133. Seal.

The official seal of the parish council is hereby designated and adopted as the official seal of the district created herein.
(Code 1998, § 18-067.00; Ord. No. 403, Bk. 6, P. 125)

Editor's note—Industrial District No. 1 has been inactive, but not formally abolished.

Secs. 120-134—120-164. Reserved.

ARTICLE VI. PARISH PORT COMMISSION

Sec. 120-165. Creation.

(a) There is hereby created a parish port commission to be comprised of seven members with appointments parish wide. There shall be four members nominated and appointed by the parish council.

(b) There shall be three members nominated and appointed by the parish president.
(Code 1998, § 18-075.00; Ord. No. 00-0157, 6-1-2000)

Secs. 120-166—120-183. Reserved.

ARTICLE VII. COMMUNITY DEVELOPMENT DISTRICTS*

DIVISION 1. GENERALLY

Secs. 120-184—120-206. Reserved.

DIVISION 2. LAKESHORE VILLAGES MASTER COMMUNITY DEVELOPMENT DISTRICT

Sec. 120-207. Authority.

By virtue of R.S. 33:9039.14 et seq. and other constitutional and statutory authority, the parish council is authorized to create community development districts in unincorporated areas of the parish.
(Code 1998, § 18-085.01; Ord. No. 07-1540, 4-5-2007)

Sec. 120-208. Created.

The community development district hereby created shall be known and designated as "Lakeshore Villages Master Community Development District" and as such shall have all of the rights, powers and privileges granted and conferred by the Act and other constitutional and statutory authority, including the authority to incur debt, to issue bonds and to levy parcel fees and to acquire or construct infrastructure and provide services.
(Code 1998, § 18-085.02; Ord. No. 07-1540, 4-5-2007)

Sec. 120-209. Boundaries.

The boundaries of the Lakeshore Villages Master Community Development District are described as follows:

General description of property: The property is located east of I-10 Exit 261 and north of Lakeshore Boulevard east and south of North Diversion Canal and west of the east Diversion Canal, including the access roadway of Lakeshore Boulevard east and roadway from I-10 Service Road, both to the property of about 1,250.5 acres within the existing levees. (More fully described as "Outside Toe of New Levee" 1,235.68 acres, "Lakeshore

*State law reference—Community Development District Act, R.S. 33:9039.11 et seq.

Secs. 120-211—120-230. Reserved.

ARTICLE VIII. PARISH/MUNICIPAL INFRASTRUCTURE INTERFACE*

Sec. 120-231. Growth management/annexation agreements.

In accordance with the "Joint Projects and Other Cooperative Endeavors" clause of the Growth Management and Annexation Agreements of 2003 between St. Tammany Parish Government and various municipalities within the boundaries of the parish, the parish government will coordinate infrastructure improvements so that both parish and municipal standards will be considered for all new development within the annexation agreement areas and the more restrictive set of standards, whether they be standards established by the parish or municipal governing body, will be applied to the project.
(Code 1998, § 18-090.00)

Sec. 120-232. Restrictive standards.

For the purposes of this section, the most restrictive standard shall be applied to the following types of infrastructure:

- (1) Drainage design standards;
- (2) Road design standards;
- (3) Potable water standards; and
- (4) Sewer standards.

(Code 1998, § 18-090.01)

***State law reference**—Petition procedures for municipalities and parishes to annex property, R.S. 33:172.

Sec. 120-233. Effective date.

This section shall be considered in affect upon:

- (1) Notice, by certified copy to the parish president, that a municipality located within St. Tammany Parish has adopted similar legislation; and
- (2) The adoption of a resolution by the parish council recognizing said municipal legislation.

(Code 1998, § 18-090.02; Ord. No. 03-0802, 12-4-2003)

Sec. 120-234. Operating agreements between parish and municipalities enabling legislation.

Act No. 159 of the First Extraordinary Session of the 2002 Louisiana Legislature amended and reenacted R.S. 33:172 and provided relative to municipal annexation procedures and the use of operating agreements between certain municipalities and certain parishes. Pursuant to said Act, on March 26, 2003, the parish council adopted ordinances authorizing operating agreements with each of the following municipalities:

- (1) City of Covington, Ordinance C.S. No. 03-0639.
- (2) City of Mandeville, Ordinance C.S. No. 03-0640.
- (3) Town of Abita Springs, Ordinance C.S. No. 03-0641.
- (4) Town of Madisonville, Ordinance C.S. No. 03-0642.
- (5) Town of Pearl River, Ordinance C.S. No. 03-0643.
- (6) Village of Folsom, Ordinance C.S. No. 03-0644.
- (7) Village of Sun, Ordinance C.S. No. 03-0645.

(Code 1998, § 18-091.00)

Editor's note—A copy of each operating agreement is attached to the referenced ordinance as Exhibit A and on file in the parish council office as part of the official record.

Secs. 120-235—120-261. Reserved.

ARTICLE IX. ECONOMIC DEVELOPMENT DISTRICTS*

DIVISION 1. GENERALLY

Secs. 120-262—120-285. Reserved.

***State law reference**—Authority of parish to create and maintain economic development district, R.S. 33:9038.31 et seq.

DIVISION 2. ROOMS TO GO ST. TAMMANY ECONOMIC DEVELOPMENT
DISTRICT

Sec. 120-286. Authority.

By virtue of R.S. 33:9038.31 et seq., and other constitutional and statutory authority, the parish council is authorized to create economic development districts in unincorporated areas of the parish.

(Code 1998, § 18-095.01)

Sec. 120-287. Created.

The economic development district hereby created shall be known and designated as the "Rooms To Go St. Tammany Economic Development District". As provided by the Act, the governing body of the district shall be the parish council. The district shall be a political subdivision of the state and shall possess such powers and authority and have such duties, rights, powers and privileges granted and conferred pursuant to the Act.

(Code 1998, § 18-095.02)

Sec. 120-288. Boundaries.

The boundaries of the Rooms To Go St. Tammany Economic Development District are described as follows:

A certain parcel of land, lying and situated in section 13, Township 8 south, Range 14 east, St. Tammany Parish, Louisiana, and more fully described as follows: From the quarter section corner common between sections 13 and 24, Township 8 south, Range 14 east; thence go north 89 degrees, 02 minutes, 36 seconds east 643.17 feet to a ½ inch iron and the point of beginning.

Thence go north 03 degrees, 47 minutes, 48 seconds west 1873.41 feet to a ½ inch iron rod. Thence north 67 degrees, 05 minutes, 11 seconds east 920.00 feet to a ½ inch iron rod on the westerly right-of-way line of Old Military Road. Thence south 23 degrees, 10 minutes 54 seconds east 1,810.00 feet along said right-of-way line of Old Military Road to a ½ inch iron rod at the intersection with the western right-of-way line of Interstate Highway 1-15. Thence south 09 degrees, 54 minutes, 44 seconds east 554.65 feet along said right-of-way line of I-59 to a ½ inch iron rod and a point of departure from I-59. Thence south 89 degrees, 02 minutes, 36 seconds west 1,530.00 feet to the point of beginning.

Containing 60.238 acres of land, more or less, a certain parcel of land, lying and situated in section 13, Township 8 south, Range 14 east, St. Tammany Parish, Louisiana, in accordance with J.V. Burkes and Associates Survey #20071022, dated April 24, 2007.

(Code 1998, § 18-095.03; Ord. No. 07-1589, 6-7-2007)

Sec. 120-289. Rooms to Go St. Tammany Economic Development District Trust Fund.

(a) In accordance with state law, there is hereby created a special trust fund to be named the "Rooms To Go St. Tammany Economic Development District Trust Fund," the purpose of which will be to fund economic development projects selected by the district.

(b) In accordance with state law, there is levied in the district a new additional sales tax of 0.0075 percent upon sale at retail, use, lease or rental, consumption, and storage for use or consumption, of tangible personal property, upon the lease or rental of tangible personal property and on sales of services in the district.

(c) The Uniform Local Sales Tax Code, as enacted by Act No. 73 of the 2003 Regular Session of the Louisiana Legislature and as it may be amended, shall apply in the assessment, collection, administration and enforcement of the district tax, the provisions of which Uniform Local Sales Tax Code are hereby incorporated by reference.

(d) The entire amount of the district tax is pledged and designated as the local sales tax increment, which is to be deposited in this special trust fund, together with a like amount of state sales tax, to the extent approved by the state, for the furtherance of economic development projects through reimbursement of costs of economic development projects, on a cash basis.

(e) Notwithstanding anything to the contrary contained herein, sales tax increments within the district, if any, shall be used only for projects that meet the definition of "economic development project" as that term is defined in R.S. 33:9038.34(M).

(f) Vendor's compensation. For the purpose of compensating the dealer in accounting for and remitting the district tax levied by this section, each dealer shall be allowed 1.10 percent of the amount of district tax due and accounted for and remitted to the tax collector in the form of a deduction in submitting his report and paying the amount due by the dealer, provided the amount due was not delinquent at the time of payment, and provided the amount of any credit claimed for taxes already paid to a wholesaler shall not be deducted in computing the commission allowed the dealer hereunder.

(g) Exclusions or exemptions. This governing authority adopts none of the optional exclusions or exemptions allowed by state sales tax law, nor does this governing authority adopt any exclusions or exemptions authorized by legislation enacted under article VI, section 29(D)(1) of the constitution of the state of 1974 that are not allowed as an exclusion or exemption from state sales tax. Included within the tax base of the district tax is every transaction, whether sales, use, lease or rental, consumption, storage or service, with no exclusions or exemptions except for those mandated upon political subdivisions by the constitution or statutes of the state.

(h) Tax collector. The district tax is authorized to be collected by a "collector" which term shall mean the sales tax department of the parish sheriff's office. The collector is hereby authorized, empowered and directed to carry into effect the provisions of this article, to appoint deputies, assistants or agents to assist it in the performance of its duties, and in pursuance thereof to make and enforce such rules as it may deem necessary.

(i) With regard to the collection of the district tax on any motor vehicle, automobile, truck, truck-trailer, trailer, semi-trailer, motor bus, home trailer, or any other vehicle subject to the vehicle registration license tax, this governing authority, acting through the collector, on behalf of the district, is authorized to enter into an agreement with the vehicle commissioner, department of public safety and corrections, as provided by R.S. 47:303(B).

(j) All taxes, revenues, funds, assessments, moneys, penalties, fees or other income which may be collected or come into the possession of the collector under any provision or provisions of this section relating to the district tax shall be promptly deposited by the collector for the account of the district in the trust fund, provided, however, any amount which is paid under protest or which is subject to litigation may be transferred to a separate account established by the collector with said fiscal agent pending the final determination of the protest or litigation.

(k) Penalty, interest and attorney's fees. If the amount of district tax due by the dealer is not paid on time, penalties, interest and attorney's fees shall be imposed as provided by law.

(l) No qualified electors. The parish registrar of voters has issued and executed a certificate certifying the absence of any qualified electors in the district, therefore, pursuant to state law, no election shall be required to authorize the levy of the district tax.

(m) Designation of baseline collection rate. The district tax levied is a new sales tax and the full amount thereof is hereby designated by the parish council to be used in determining the local sales tax increment pursuant to the Act. The initial annual baseline collection rate for the district, which is the amount of the district tax collected in the district in the most recent completed fiscal year prior to the establishment of the district, is hereby designated to be \$0.00 (the "initial baseline collection rate"), as the district tax was not levied during the most recently completed fiscal year of this governing authority prior to the establishment of the district. The monthly baseline collection rate, which is the initial annual baseline collection rate divided by 12, is hereby designated to be \$0.00 (the "monthly baseline collection rate").

(n) CFO certification. The chief financial officer of the parish has issued and executed a certificate certifying as to the accuracy of the initial annual baseline collection rate and monthly baseline collection rate, which was previously published one time in the St. Tammany Farmer, the official journal of the parish.

(o) Designation of sales tax increment. The parish council hereby designates the entire amount of the district tax as the local sales tax increment, which is to be deposited in the special trust fund created herein for the furtherance of economic development projects and hereby pledges and dedicates to such purpose the local sales tax increment and a like amount of state sales tax increment, to the extent approved by the state.

(p) Use of sales tax increments. Notwithstanding anything to the contrary contained herein, sales tax increments within the district, if any, shall be used only for projects that meet the definition of "economic development project" as that term is defined in R.S. 33:9038.34(M).

(q) Authorization of officers. The parish president and his staff are hereby authorized, empowered and directed to do any and all things necessary and incidental to carry out the provisions of this section.

(Code 1998, § 18-095.04; Ord. No. 07-1589, 6-7-2007; Ord. No. 07-1590, 6-7-2007; Ord. No. 07-1694, 11-1-2007)

Secs. 120-290—120-311. Reserved.

DIVISION 3. COLONIAL PINNACLE NORD DU LAC ECONOMIC DEVELOPMENT DISTRICT

Sec. 120-312. Authority.

By virtue of R.S. 33:9038.31 et seq., and other Constitutional and statutory authority, the parish council is authorized to create economic development districts in unincorporated areas of the parish.

(Code 1998, § 18-096.01)

Sec. 120-313. Created.

The economic development district hereby created shall be known and designated as the "Colonial Pinnacle Nord du Lac Economic Development District." As provided by the Act, the governing body of the district shall be the parish council. The district shall be a political subdivision of the state and shall possess such powers and authority and have such duties, rights, powers and privileges granted and conferred pursuant to the Act.

(Code 1998, § 18-096.02)

Sec. 120-314. Boundaries.

The boundaries of the Colonial Pinnacle Nord du Lac Economic Development District are described as follows: A certain piece or portion of land situated in section 47, Township 7 south, Range 11 east, St. Tammany Parish, Louisiana being more fully described as follows:

- (1) Tract "A." A certain piece or portion of land situated in section 47, Township 7 south, range 11 east, St. Tammany Parish, Louisiana being more fully described as follows:

Commencing from the corner common to sections 12, 13 and 46, Township 7 south, range 10 east, St. Tammany Parish, Louisiana run north 00 degrees 40 minutes 50 seconds east for a distance of 1,423.63 feet to a point; thence run north 89 degrees 23 minutes 30 seconds east for a distance of 1,109.12 feet to a point; thence run north 89 degrees 14 minutes 55 seconds east for a distance of 95.62 feet to a point; thence run north 89 degrees 17 minutes 06 seconds east for a distance of 700.84 to a point on the north right-of-way of Interstate 12 and the east right-of-way of Louisiana Highway 21 also being the point of beginning.

From the point of beginning and leaving said north right-of-way and running along said east right-of-way north 28 degrees 42 minutes 20 seconds east for a distance of 228.29 feet to a point; thence run north 33 degrees 51 minutes 41 seconds east for a distance of 37.00 feet to a point on the south right-of-way of pinnacle parkway; thence leaving said south right-of-way of Louisiana State Highway 21 and running along said south right-of-way of Pinnacle Parkway south 56 degrees 08 minutes 18 seconds east for a distance of 135.18 feet to a point on a curve to the right (clockwise and tangent); thence run along said curve with a radius of 280.00 feet and an arc length of 129.81 feet to a point; thence run south 29 degrees 34 minutes 34 seconds east for a distance of 77.97 feet to a point on a curve to the left (counterclockwise and tangent); thence run along said curve with a radius of 440.00 feet and an arc length of 88.65 feet to a point; Thence leaving said right-of-way run south 51 degrees 51 minutes 57 seconds west for a distance of 221.63 feet to a point on the north right-of-way of Interstate 12; thence run along said right-of-way north 48 degrees 43 minutes 29 seconds west for a distance of 326.61 feet back to the point of beginning. Said parcel of land contains 2.25 acres or 98,068.70 square feet more or less.

- (2) Tract "B." A certain piece or portion of land situated in section 47, Township 7 south, range 11 east, St. Tammany Parish, Louisiana being more fully described as follows:

Commencing from the corner common to sections 12, 13 and 46, Township 7 south, range 10 east, St. Tammany Parish, Louisiana run north 00 degrees 40 minutes 50 seconds east for a distance of 1,423.63 feet to a point; thence run north 89 degrees 23 minutes 30 seconds east for a distance of 1,109.12 feet to a point; thence run north 89 degrees 14 minutes 55 seconds east for a distance of 95.62 feet to a point; thence run north 89 degrees 17 minutes 06 seconds east for a distance of 700.84 to a point on the north right-of-way of Interstate 12 and the east right-of-way of Louisiana State Highway 21; thence leaving said north right-of-way and running along said east right-of-way north 28 degrees 42 minutes 20 seconds east for a distance of 228.29 feet to a point; thence run north 33 degrees 51 minutes 41 seconds east for a distance of 127.00 feet to a point on the north right-of-way of Pinnacle Parkway also being the point of beginning.

From the point of beginning and leaving said north right-of-way of Pinnacle Parkway and running along said south right-of-way of Louisiana State Highway 21 north 33 degrees 51 minutes 41 seconds east for a distance of 131.04 feet to a point; thence run north 12 degrees 58 minutes 10 seconds west for a distance of 31.42 feet to a point; thence leaving said right-of-way run south 55 degrees 34 minutes 51 seconds east for a distance of 200.00 feet to a point; thence run north 33 degrees 50 minutes 05 seconds east for a distance of 200.16 feet to a point; thence run south 56 degrees 03 minutes 45 seconds east for a distance of 133.27 feet to a point; thence run south 34 degrees 02 minutes 02 seconds west for a distance of 393.82 feet to a point; thence run south 29

degrees 34 minutes 34 seconds east for a distance of 68.51 feet to a point on a curve to the left (counterclockwise and tangent); thence run along said curve with a radius of 350.00 feet and an arc length of 37.83 feet to a point; thence run north 89 degrees 15 minutes 56 seconds east for a distance of 2,228.41 feet to a point; thence run south 21 degrees 01 minutes 24 seconds west for a distance of 288.34 feet to a point; thence run south 24 degrees 03 minutes 50 seconds east for a distance of 129.53 feet to a point; thence run south 68 degrees 58 minutes 39 seconds east for a distance of 2,372.21 feet to a point; thence run south 21 degrees 01 minutes 30 seconds west for a distance of 675.48 feet to a point; thence run north 68 degrees 58 minutes 39 seconds west for a distance of 446.91 feet to a point; thence run south 21 degrees 01 minutes 21 seconds west for a distance of 221.43 feet to a point; thence run south 60 degrees 15 minutes 51 seconds east for a distance of 361.74 feet to a point; thence run south 30 degrees 33 minutes 52 seconds west for a distance of 177.94 feet to a point on the north right-of-way of Interstate 12.

- (3) Thence run along said north right-of-way the following:

North 68 degrees 55 minutes 27 seconds west for a distance of 214.25 feet to a point; south 67 degrees 31 minutes 58 seconds west for a distance of 415.14 feet to a point; north 68 degrees 56 minutes 31 seconds west for a distance of 2,148.28 feet to a point on a curve to the right (clockwise and tangent); along said curve with a radius of 23,068.31 feet and an arc length of 252.24 feet to a point; north 64 degrees 20 minutes 14 seconds west for a distance of 101.17 feet to a point; north 69 degrees 53 minutes 37 seconds west for a distance of 704.32 feet to a point; north 55 degrees 10 minutes 42 seconds west for a distance of 315.57 feet to a point; north 36 degrees 18 minutes 47 seconds west for a distance of 272.27 feet to a point; north 10 degrees 45 minutes 52 seconds west for a distance of 298.56 feet to a point; thence leaving said right-of-way run north 51 degrees 51 minutes 57 seconds east for a distance of 401.51 feet to a point on the south right-of-way of Pinnacle Parkway; thence run along said right-of-way south 65 degrees 54 minutes 56 seconds east for a distance of 33.00 feet to a point; thence leaving said right-of-way run north 37 degrees 47 minutes 40 seconds east for a distance of 82.35 feet to a point on the north right-of-way of Pinnacle Parkway.

- (4) Thence run along said right-of-way the following:

North 65 degrees 54 minutes 56 seconds west for a distance of 91.00 feet to a point on a curve to the right (clockwise and tangent); along said curve with a radius of 360.00 feet and an arc length of 228.33 feet to a point; north 29 degrees 34 minutes 34 seconds west for a distance of 77.97 feet to a point on a curve to the left (counterclockwise and tangent); along said curve with a radius of 360.00 feet and an arc length of 48.58 feet to a point; north 29 degrees 52 minutes 30 seconds west for a distance of 50.74 feet to a point on a curve to the left (counterclockwise and non-tangent); along said curve with a radius of 370.00 feet with an arc length of 71.14 feet, a chord bearing of north 50

degrees 37 minutes 49 seconds west and a chord length of 71.03 feet to a point; north 56 degrees 08 minutes 18 seconds west for a distance of 135.18 feet back to the point of beginning.

(5) Said parcel of land contains 137.41 acres or 5,985,593.63 square feet, more or less. (Code 1998, § 18-096.03; Ord. No. 07-1591, 6-7-2007; Ord. No. 07-1717, 12-6-2007)

Sec. 120-315. Colonial Pinnacle Nord du Lac Economic Development District Trust Fund.

(a) In accordance with state law, there is hereby created a special trust fund to be named the "Colonial Pinnacle Nord du Lac Economic Development District Trust Fund," the purpose of which will be to fund economic development projects selected by the district.

(b) In accordance with state law, there is levied in the district a new additional sales tax of 0.0075 percent upon sale at retail, use, lease or rental, consumption, and storage for use or consumption, of tangible personal property, upon the lease or rental of tangible personal property and on sales of services in the district.

(c) The additional local sales levied pursuant to this section is desired to be levied and used solely from the area described herein.

(d) The Uniform Local Sales Tax Code, as enacted by Act No. 73 of the 2003 Regular Session of the Louisiana Legislature and as it may be amended, shall apply in the assessment, collection, administration and enforcement of the district tax, the provisions of which Uniform Local Sales Tax Code are hereby incorporated by reference.

(e) The entire amount of the district tax is pledged and designated as the local sales tax increment, which is to be deposited in this special trust fund, together with a like amount of state sales tax, to the extent approved by the state, for the furtherance of economic development projects through reimbursement of costs of economic development projects, on a cash basis.

(f) Notwithstanding anything to the contrary contained herein, sales tax increments within the district, if any, shall be used only for projects that meet the definition of "economic development project" as that term is defined in R.S. 33:9038.34(M).

(g) Vendor's compensation. For the purpose of compensating the dealer in accounting for and remitting the district tax levied by this section, each dealer shall be allowed 1.10 percent of the amount of district tax due and accounted for and remitted to the tax collector in the form of a deduction in submitting his report and paying the amount due by the dealer, provided the amount due was not delinquent at the time of payment, and provided the amount of any credit claimed for taxes already paid to a wholesaler shall not be deducted in computing the commission allowed the dealer hereunder.

(h) Exclusions or exemptions. This governing authority adopts none of the optional exclusions or exemptions allowed by state sales tax law, nor does this governing authority adopt any exclusions or exemptions authorized by legislation enacted under article VI, section 29(D)(1) of

the constitution of the state of 1974 that are not allowed as an exclusion or exemption from state sales tax. Included within the tax base of the district tax is every transaction, whether sales, use, lease or rental, consumption, storage or service, with no exclusions or exemptions except for those mandated upon political subdivisions by the constitution or statutes of the state.

(i) Tax collector. The district tax is authorized to be collected by a "collector" which term shall mean the sales tax department of the parish sheriff's office. The collector is hereby authorized, empowered and directed to carry into effect the provisions of this article, to appoint deputies, assistants or agents to assist it in the performance of its duties, and in pursuance thereof to make and enforce such rules as it may deem necessary.

(j) With regard to the collection of the district tax on any motor vehicle, automobile, truck, truck-trailer, trailer, semi-trailer, motor bus, home trailer, or any other vehicle subject to the vehicle registration license tax, this governing authority, acting through the collector, on behalf of the district, is authorized to enter into an agreement with the vehicle commissioner, department of public safety and corrections, as provided by R.S. 47:303(B).

(k) All taxes, revenues, funds, assessments, moneys, penalties, fees or other income which may be collected or come into the possession of the collector under any provision or provisions of this article relating to the district tax shall be promptly deposited by the collector for the account of the district in the trust fund, provided, however, any amount which is paid under protest or which is subject to litigation may be transferred to a separate account established by the collector with said fiscal agent pending the final determination of the protest or litigation.

(l) Penalty, interest and attorney's fees. If the amount of district tax due by the dealer is not paid on time, penalties, interest and attorney's fees shall be imposed as provided by law.

(m) No qualified electors. The parish registrar of voters has issued and executed a certificate certifying the absence of any qualified electors in the district, therefore, pursuant to state law, no election shall be required to authorize the levy of the district tax.

(n) Designation of baseline collection rate. The district tax levied is a new sales tax and the full amount thereof is hereby designated by the parish council to be used in determining the local sales tax increment pursuant to the Act. The initial annual baseline collection rate for the district, which is the amount of the district tax collected in the district in the most recent completed fiscal year prior to the establishment of the district, is hereby designated to be \$0.00 (the "initial baseline collection rate"), as the district tax was not levied during the most recently completed fiscal year of this governing authority prior to the establishment of the district. The monthly baseline collection rate, which is the initial annual baseline collection rate divided by 12, is hereby designated to be \$0.00 (the "monthly baseline collection rate").

(o) CFO certification. The chief financial officer of the parish has issued and executed a certificate certifying as to the accuracy of the initial annual baseline collection rate and monthly baseline collection rate, which was previously published one time in the St. Tammany Farmer, the official journal of the parish.

(p) Designation of sales tax increment. The parish council hereby designates the entire amount of the district tax as the local sales tax increment, which is to be deposited in the special trust fund created herein for the furtherance of economic development projects and hereby pledges and dedicates to such purpose the local sales tax increment.

(q) Authorization of officers. The parish president and his staff are hereby authorized, empowered and directed to do any and all things necessary and incidental to carry out the provisions of this section.

(Code 1998, § 18-096.04; Ord. No. 07-1591, 6-7-2007; Ord. No. 07-1592, 6-7-2007; Ord. No. 07-1692, 11-1-2007)

Secs. 120-316—120-333. Reserved.

ARTICLE X. AIRPORT ROAD ECONOMIC DEVELOPMENT DISTRICT

Sec. 120-334. District.

(a) The parish council proposes to create an economic development district within the parish to be known as the "Airport Road Economic Development District" (the "district").

(b) An economic development district is hereby created within the parish, to be named the "Airport Road Economic Development District," having the geographical boundaries set forth below, all pursuant to the Act. As provided by the Act, the governing body of the district shall be the parish council. As provided by the Act, the district shall be a political subdivision of the state and shall possess such powers and authority and have such duties as provided in the Act and other law.

(c) The boundaries of the Airport Road Economic Development District are described as follows:

All that certain piece or parcel of land situated in St. Tammany Parish, Louisiana, being more fully described as, commencing at a point located at the section corner common to sections 1 and 12, Township 8 south, Range 13 east and sections 7 and 7, Township 9 south, Range 14 east, said point being the point of beginning;

From the point of beginning proceed north 89 degrees 41 minutes 16.0 seconds east, 7,956.402 feet;

Thence proceed south 0 degrees 0 minutes 0.0 seconds west, 5,307.216 feet;

Thence proceed north 89 degrees 54 minutes 21.0 seconds east, 2,733.419 feet;

Thence proceed north 89 degrees 53 minutes 58.0 seconds east, 2,852.633 feet;
Thence proceed south 0 degrees 10 minutes 23.0 seconds east, 6,503.294 feet;
Thence proceed south 89 degrees 33 minutes 42.0 seconds east, 1,125.316 feet;
Thence proceed south 1 degrees 10 minutes 19.0 seconds east, 1,364.517 feet;
Thence proceed south 89 degrees 51 minutes 50.0 seconds west, 8,230.285 feet;
Thence proceed north 1 degrees 0 minutes 21.6 seconds west, 7,109.55 feet;
Thence proceed north 7 degrees 40 minutes 16.4 seconds east, 806.858 feet;
Thence proceed south 88 degrees 54 minutes 55.1 seconds west, 1,749.784 feet;
Thence proceed south 10 degrees 1 minutes 24.4 seconds east, 805.226 feet;
Thence proceed south 1 degrees 14 minutes 7.3 seconds east, 1,782.815 feet;
Thence proceed north 88 degrees 45 minutes 52.8 seconds east, 101.656 feet;
Thence proceed south 1 degrees 14 minutes 7.3 seconds east, 1,385.608 feet;
Thence proceed north 78 degrees 30 minutes 4.4 seconds west, 516.837 feet;
Thence proceed north 0 degrees 16 minutes 43.0 seconds west, 1,206.578 feet;
Thence proceed north 89 degrees 53 minutes 16.0 seconds west, 4,349.587 feet;
Thence proceed north 1 degrees 23 minutes 5.2 seconds west, 2,642.089 feet;
Thence proceed north 1 degrees 6 minutes 53.9 seconds west, 5,275.049 feet to the point of beginning.

ARTICLE XI. HIGHWAY 59 ECONOMIC DEVELOPMENT DISTRICT

Sec. 120-357. District.

(a) The parish council proposes to create an economic development district within the Parish to be known as the " Highway 59 Economic Development District," (the "district").

(b) An economic development district is hereby created within the parish, to be named the " Highway 59 Economic Development District," having the geographical boundaries set forth below, all pursuant to the Act. As provided by the Act, the governing body of the district shall be the parish council. As provided by the Act, the district shall be a political subdivision of the state and shall possess such powers and authority and have such duties as provided in the Act and other law.

(c) The boundaries of the Highway 59 Economic Development District are described as follows:

All that certain piece or parcel of land situated in St. Tammany Parish, Louisiana, being more fully described as, commencing at a point located at the Section corner common to Sections 17, 18, 19, and 20, Township 7 south, Range 12 east proceed south 87 degrees 54 minutes 20 seconds west a distance of 1,297.67 feet to a point, said point being the point of beginning;

From the point of beginning proceed south 0 degrees 2 minutes 56 seconds west, 1,293.298 feet;

Thence proceed north 88 degrees 30 minutes 47 seconds east, 260.143 feet;

Thence proceed south 66 degrees 8 minutes 4 seconds east, 193.391 feet;

Thence proceed south 37 degrees 8 minutes 57 seconds east, 210.61 feet;

Thence proceed south 26 degrees 53 minutes 0 seconds east, 83.667 feet;

Thence proceed south 6 degrees 31 minutes 11 seconds east, 145.599 feet;

Thence proceed south 28 degrees 58 minutes 4 seconds west, 264.548 feet;

Thence proceed south 88 degrees 46 minutes 12 seconds west, 1,873.652 feet;

Thence proceed south 3 degrees 2 minutes 51 seconds east, 620.072 feet;

Thence proceed south 88 degrees 48 minutes 49 seconds west, 1,334.882 feet;

Thence proceed south 0 degrees 0 minutes 40 seconds east, 1,973.447 feet;

Thence proceed north 89 degrees 59 minutes 53 seconds west, 410.498 feet;

Thence proceed south 2 degrees 10 minutes 55 seconds west, 249.973 feet;

Thence proceed south 89 degrees 35 minutes 26 seconds west, 658.171 feet;

Thence proceed south 0 degrees 26 minutes 23 seconds east, 681.555 feet to a point on the northern right-of-way of Commercial Boulevard;

Thence proceed south 89 degrees 0 minutes 18 seconds west along said right-of-way, 200.995 feet to a point on the eastern right-of-way of Highway 59;

Thence proceed south 0 degrees 25 minutes 3 seconds west along said right-of-way, 1,300.387 feet;

Thence leaving the eastern right-of-way of Highway 59 proceed north 56 degrees 32 minutes 20 seconds east, 133.2 feet;

Thence proceed south 72 degrees 37 minutes 31 seconds east, 399.9 feet;

Thence proceed south 23 degrees 58 minutes 7 seconds west, 717.58 feet;

Thence proceed south 63 degrees 18 minutes 40 seconds east, 980.644 feet;

Thence proceed north 28 degrees 56 minutes 17 seconds east, 650.365 feet to a point on the southern right-of-way of I-12;

Thence proceed south 57 degrees 50 minutes 28 seconds east along said right-of-way, 4,705.709 feet;

Thence leaving the southern right-of-way of I-12 proceed south 0 degrees 11 minutes 3 seconds east, 276.475 feet;

Thence proceed north 62 degrees 54 minutes 18 seconds west, 4,345.626 feet;

Thence proceed south 0 degrees 21 minutes 39 seconds east, 1,792.253 feet;

Thence proceed south 89 degrees 48 minutes 11 seconds west, 1,506.362 feet;

Thence proceed south 0 degrees 29 minutes 36 seconds west, 353.251 feet;

Thence proceed north 89 degrees 46 minutes 41 seconds west, 356.569 feet to a point on the western right-of-way of Highway 59;

Thence proceed north 4 degrees 5 minutes 48 seconds east along said right-of-way, 571.568 feet;

Thence leaving said right-of-way proceed north 88 degrees 56 minutes 31 seconds west, 628.697 feet;

Thence proceed north 1 degrees 8 minutes 39 seconds west, 443.898 feet;

Thence proceed north 89 degrees 50 minutes 25 seconds west, 1,122.855 feet;

Thence proceed north 10 degrees 48 minutes 13 seconds east, 1,352.356 feet;

Thence proceed north 89 degrees 53 minutes 24 seconds west, 2,145.671 feet;

Thence proceed north 1 degrees 32 minutes 4 seconds west, 1,384.266 feet;

Thence proceed north 90 degrees 0 minutes 0 seconds east, 510.677 feet;

Thence proceed north 0 degrees 14 minutes 42 seconds west, 1,313.632 feet;

Thence proceed north 89 degrees 47 minutes 48 seconds east, 1,370.784 feet;

Thence proceed north 40 degrees 11 minutes 2 seconds east, 428.383 feet;

Thence proceed north 63 degrees 8 minutes 59 seconds west, 643.5 feet;

Thence proceed north 57 degrees 49 minutes 3 seconds west, 1,346.904 feet;

Thence proceed north 58 degrees 19 minutes 48 seconds west, 773.65 feet;

Thence proceed north 0 degrees 15 minutes 43 seconds west, 2,225.527 feet;

Thence proceed south 89 degrees 59 minutes 25 seconds east, 3,458.367 feet to the centerline of the Tammany Trace;

Thence proceed north 10 degrees 31 minutes 48 seconds east along the centerline of the Tammany Trace, 2,415.268 feet;

Thence leaving the centerline of the Tammany Trace proceed north 90 degrees 0 minutes 0 seconds east, 232.416 feet;

Thence proceed north 0 degrees 40 minutes 41 seconds west, 246.466 feet;

Thence proceed north 88 degrees 40 minutes 37 seconds east, 2,898.188 feet;

Thence proceed south 14 degrees 4 minutes 18 seconds east, 279.369 feet;

Thence proceed south 0 degrees 3 minutes 33 seconds west, 533.507 feet;

Thence proceed south 23 degrees 40 minutes 2 seconds east, 586.403 feet;

Thence proceed north 87 degrees 54 minutes 20 seconds east, 865.542 feet to the point of beginning.

ARTICLE XII. HIGHWAY 1077 ECONOMIC DEVELOPMENT DISTRICT

Sec. 120-388. District.

(a) The parish council proposes to create an economic development district within the parish to be known as the "Highway 1077 Economic Development District" (the "district").

(b) An economic development district is hereby created within the parish, to be named the "Highway 1077 Economic Development District," having the geographical boundaries set forth below, all pursuant to the Act. As provided by the Act, the governing body of the district shall be the parish council. As provided by the Act, the district shall be a political subdivision of the state and shall possess such powers and authority and have such duties as provided in the Act and other law.

(c) The boundaries of the Highway 1077 Economic Development District are described as follows:

All that certain piece or parcel of land, commencing at a point located at the section corner common to sections 33 and 34, Township 6 south, Range 10 east and sections 4 and 5, Township 7 south, Range 10 east to a point, said point being the point of beginning;

From the point of beginning proceed north 89 degrees 55 minutes 19 seconds east along the section line common to sections 34, Township 6 south, Range 10 east and section 3, Township 7 south, Range 10 east, 2,278.655 feet to a point on the centerline of Highway 1077;

Thence following said centerline proceed south 24 degrees 18 minutes 53 seconds east, 2,973.642 feet to a point on the centerline of Highway 1085;

Thence following said centerline proceed north 88 degrees 45 minutes 36 seconds east, 921.075 feet;

Thence leaving said centerline proceed south 4 degrees 43 minutes 21 seconds east, 947.543 feet;

Thence proceed south 4 degrees 54 minutes 7 seconds east, 368.2 feet;

Thence proceed south 27 degrees 23 minutes 4 seconds east, 306.76 feet;

Thence proceed north 89 degrees 8 minutes 17 seconds east, 732.408 feet;

Thence proceed south 1 degrees 0 minutes 42 seconds east, 1,046.415 feet;

Thence proceed north 89 degrees 28 minutes 36 seconds east, 1,663.848 feet;

Thence proceed north 89 degrees 33 minutes 1 seconds east, 0.264 feet;

Thence proceed north 89 degrees 37 minutes 26 seconds east, 989.242 feet;

Thence proceed south 0 degrees 56 minutes 33 seconds east, 1,295.128 feet;

Thence proceed north 89 degrees 58 minutes 28 seconds east, 2,679.55 feet;

Thence proceed south 1 degrees 7 minutes 11 seconds east, 1,217.593 feet to a point on the northern right-of-way of I-12;

Thence following said right-of-way proceed north 72 degrees 1 minutes 57 seconds west, 2,832.609 feet;

Thence leaving said right-of-way proceed south 1 degrees 2 minutes 1 seconds east, 1,670.928 feet;

Thence proceed south 89 degrees 50 minutes 55 seconds west, 2,650.9 feet;

Thence proceed north 0 degrees 33 minutes 2 seconds west, 671.971 feet;

Thence proceed south 89 degrees 45 minutes 11 seconds west, 1,335.04 feet;

Thence proceed north 1 degrees 29 minutes 58 seconds west, 1,986.503 feet;

Thence proceed north 74 degrees 38 minutes 19 seconds west, 1.309 feet;

Thence proceed north 71 degrees 41 minutes 18 seconds west, 1,417.242 feet;

Thence proceed south 0 degrees 55 minutes 59 seconds east, 1,235.647 feet;

Thence proceed north 89 degrees 38 minutes 35 seconds west, 684.872 feet;

Thence proceed north 0 degrees 48 minutes 24 seconds west, 1,393.475 feet;

Thence proceed south 89 degrees 11 minutes 0 seconds west, 572.579 feet;

Thence proceed south 1 degrees 5 minutes 53 seconds east, 753.454 feet;

Thence proceed north 69 degrees 25 minutes 10 seconds west, 1,526.122 feet;
Thence proceed north 1 degrees 23 minutes 52 seconds west, 1,96.673 feet;
Thence proceed south 89 degrees 39 minutes 3 seconds west, 510.546 feet; -
Thence proceed south 89 degrees 37 minutes 11 seconds west, 782.558 feet;
Thence proceed south 83 degrees 55 minutes 0 seconds west, 50.836 feet;
Thence proceed north 0 degrees 19 minutes 35 seconds west, 385.495 feet;
Thence proceed south 89 degrees 55 minutes 19 seconds west, 1,380.465 feet to a point on the eastern right-of-way of Perrilloux Road;
Thence following said right-of-way proceed north 0 degrees 30 minutes 5 seconds west, 561.304 feet to its intersection with the southern right-of-way of Highway 1085;
Thence following said right-of-way proceed north 33 degrees 6 minutes 23 seconds west, 248.3 feet;
Thence proceed north 16 degrees 8 minutes 17 seconds east, 126.2 feet;
Thence proceed north 62 degrees 7 minutes 48 seconds east, 519.098 feet;
Thence proceed north 55 degrees 31 minutes 48 seconds east, 394.584 feet;
Thence proceed north 53 degrees 33 minutes 40 seconds east, 845.746 feet;
Thence proceed north 57 degrees 52 minutes 40 seconds east, 450.546 feet;
Thence proceed north 66 degrees 40 minutes 30 seconds east, 217.086 feet;
Thence proceed north 77 degrees 29 minutes 45 seconds east, 323.139 feet;
Thence proceed north 89 degrees 46 minutes 57 seconds east, 1,773.136 feet;
Thence leaving said right-of-way proceed north 1 degrees 6 minutes 50 seconds west, 575.661 feet;
Thence proceed north 76 degrees 51 minutes 25 seconds west, 109.05 feet;
Thence proceed north 45 degrees 3 minutes 38 seconds west, 424.09 feet;
Thence proceed north 63 degrees 23 minutes 29 seconds west, 480.74 feet;
Thence proceed north 67 degrees 52 minutes 55 seconds west, 217.13 feet;
Thence proceed north 64 degrees 4 minutes 32 seconds west, 341.368 feet;
Thence proceed north 0 degrees 45 minutes 59 seconds west, 1,390.514 feet to the point of beginning.

ARTICLE XIII. HIGHWAY 434 ECONOMIC DEVELOPMENT DISTRICT

Sec. 120-420. District.

(a) The parish council proposes to create an economic development district within the parish to be known as the "Highway 434 Economic Development District" (the "district").

(b) An economic development district is hereby created within the parish, to be named the "Highway 434 Economic Development District," having the geographical boundaries set forth below. As provided by the Act, the governing body of the district shall be the parish council. As provided by the Act, the district shall be a political subdivision of the state and shall possess such powers and authority and have such duties as provided in the Act and other law.

(c) The boundaries of the Highway 434 Economic Development District are described as follows:

All that certain piece or parcel of land, commencing at the section corner common to sections 8, 9, 16 and 17, Township 8 south, Range 13 east, said point being the point of beginning;

From the point of beginning proceed south 0 degrees 1 minute 39 seconds west, 4,013.798 feet to a point on the northern right-of-way of North Dixie Ranch Road;

Thence following the northern right-of-way of North Dixie Ranch Road proceed south 89 degrees 48 minutes 24 seconds west, 1,333.996 feet;

Thence proceed north 59 degrees 29 minutes 23 seconds west, 2,681.299 feet;

Thence leaving the northern right-of-way of North Dixie Ranch Road proceed south 44 degrees 22 minutes 23 seconds west, 436.942 feet;

Thence proceed south 0 degrees 14 minutes 37 seconds east, 489.888 feet;

Thence proceed south 72 degrees 51 minutes 23 seconds west, 1,193.644 feet;

Thence proceed south 27 degrees 39 minutes 28 seconds west, 240.871 feet;

Thence proceed north 88 degrees 15 minutes 51 seconds west, 583.214 feet to a point of the eastern right-of-way of Highway 434;

Thence following the eastern right-of-way of Highway 434 proceed south 30 degrees 46 minutes 19 seconds west, 1,507.705 feet;

Thence leaving the eastern right-of-way of Highway 434 proceed north 89 degrees 41 minutes 15 seconds west, 1,769.347 feet;

Thence proceed north 18 degrees 4 minutes 10 seconds east, 440.251 feet;

Thence proceed north 31 degrees 8 minutes 24 seconds east, 360.13 feet;

Thence proceed north 1 degrees 24 minutes 53 seconds east, 519.62 feet;

Thence proceed north 57 degrees 10 minutes 54 seconds west, 147.74 feet;
Thence proceed north 4 degrees 7 minutes 43 seconds east, 1,186.463 feet;
Thence proceed north 24 degrees 7 minutes 8 seconds east, 2,037.063 feet to a point on the southern right-of-way of I-12;
Thence following the southern right-of-way of I-12 proceed south 58 degrees 35 minutes 50 seconds east, 515.315 feet;
Thence leaving the southern right-of-way of I-12 proceed north 23 degrees 49 minutes 46 seconds east, 261.78 feet;
Thence proceed south 89 degrees 34 minutes 25 seconds east, 1,319.253 feet;
Thence proceed north 0 degrees 47 minutes 23 seconds west, 925.948 feet to the section corner common to sections 7, 8, 17 and 18, Township 8 south, Range 13 east;
Thence proceed north 0 degrees 48 minutes 10 seconds west, 824.56 feet;
Thence proceed north 89 degrees 36 minutes 49 seconds east, 1,579.189 feet;
Thence proceed north 30 degrees 36 minutes 46 seconds east, 1,714.055 feet;
Thence proceed south 59 degrees 8 minutes 2 seconds east, 600.596 feet to a point on the western right-of-way of Highway 434;
Thence following the western right-of-way of Highway 434 proceed north 30 degrees 23 minutes 19 seconds east, 7,929.632 feet;
Thence leaving the western right-of-way of Highway 434 proceed south 60 degrees 23 minutes 21 seconds east, 737.793 feet;
Thence proceed south 68 degrees 44 minutes 56 seconds east, 113.722 feet;
Thence proceed south 81 degrees 1 minutes 38 seconds east, 113.265 feet;
Thence proceed north 75 degrees 25 minutes 33 seconds east, 304.206 feet;
Thence proceed south 27 degrees 21 minutes 0 seconds east, 192.252 feet;
Thence proceed south 8 degrees 44 minutes 46 seconds east, 309.797 feet;
Thence proceed south 45 degrees 0 minutes 0 seconds west, 566.262 feet;
Thence proceed south 55 degrees 37 minutes 11 seconds west, 135.56 feet;
Thence proceed south 6 degrees 45 minutes 58 seconds west, 349.849 feet;
Thence proceed south 25 degrees 46 minutes 59 seconds west, 771.643 feet;
Thence proceed south 19 degrees 19 minutes 24 seconds east, 480.47 feet;
Thence proceed south 6 degrees 12 minutes 12 seconds west, 272.459 feet;
Thence proceed south 5 degrees 39 minutes 54 seconds east, 451.031 feet;

Thence proceed south 89 degrees 1 minutes 42 seconds west, 2,275.861 feet to the section corner common to sections 8, 9, 16 and 17, Township 8 south, Range 13 east;

Thence proceed north 89 degrees 57 minutes 57 seconds west, 282.482 feet to a point on the eastern right-of-way of Highway 434;

Thence following the eastern right-of-way of Highway 434 proceed south 31 degrees 5 minutes 7 seconds west, 1,536.767 feet;

Thence leaving the eastern right-of-way of Highway 434 proceed north 88 degrees 40 minutes 41 seconds east, 1,095.478 feet;

Thence proceed south 0 degrees 50 minutes 23 seconds east, 1,383.638 feet;

Thence proceed north 88 degrees 35 minutes 35 seconds east, 1,028.983 feet;

Thence proceed south 1 degrees 19 minutes 46 seconds east, 2,593.03 feet;

Thence proceed south 89 degrees 27 minutes 50 seconds west, 1,050.084 feet to the point of beginning.

(Code 1998, ch. 18, art. XIII; Ord. No. 14-3095, 3-6-2014)

ARTICLE XIV. HIGHWAY 1088 ECONOMIC DEVELOPMENT DISTRICT

Sec. 120-439. District.

(a) The parish council proposes to create an economic development district within the parish to be known as the "Highway 1088 Economic Development District" (the "district").

(b) An economic development district is hereby created within the parish, to be named the " Highway 1088 Economic Development District," having the geographical boundaries set forth below. As provided by the Act, the governing body of the district shall be the parish council. As provided by the Act, the district shall be a political subdivision of the state and shall possess such powers and authority and have such duties as provided in the Act and other law.

(c) The boundaries of the Highway 1088 Economic Development District are described as follows:

All that certain piece or parcel of land, commencing at a point located at the section corner common to sections 28, 29, 32, and 33, Township 7 south, Range 12 east, said point being the point of beginning;

From the point of beginning proceed north 35 degrees 29 minutes 17 seconds east, 4,907.294 feet;

Thence proceed north 0 degrees 0 minutes 0 seconds east, 6,670 feet;

Thence proceed south 89 degrees 3 minutes 52 seconds west, 670 feet;
Thence proceed north 0 degrees 31 minutes 28 seconds west, 6,791.19 feet;
Thence proceed south 77 degrees 47 minutes 42 seconds east, 3,227.255 feet;
Thence proceed north 1 degrees 41 minutes 2 seconds west, 1,900.906 feet;
Thence proceed south 74 degrees 52 minutes 50 seconds east, 448.876 feet;
Thence proceed south 74 degrees 48 minutes 7 seconds east, 6,747.593 feet;
Thence proceed south 13 degrees 49 minutes 52 seconds west, 927.308 feet;
Thence proceed south 75 degrees 44 minutes 1 seconds east, 258.831 feet;
Thence proceed south 13 degrees 32 minutes 41 seconds west, 607.3 feet;
Thence proceed south 74 degrees 54 minutes 8 seconds east, 37.08 feet;
Thence proceed north 26 degrees 26 minutes 27 seconds east, 95.68 feet;
Thence proceed north 88 degrees 15 minutes 31 seconds east, 808.69 feet;
Thence proceed north 89 degrees 28 minutes 36 seconds east, 1,635.9 feet;
Thence proceed north 33 degrees 2 minutes 30 seconds east, 58.26 feet;
Thence proceed north 83 degrees 51 minutes 26 seconds east, 55.78 feet;
Thence proceed south 0 degrees 15 minutes 3 seconds east, 2,911.448 feet;
Thence proceed south 89 degrees 2 minutes 18 seconds west, 3,566.998 feet;
Thence proceed north 14 degrees 7 minutes 40 seconds west, 87.214 feet;
Thence proceed north 21 degrees 2 minutes 24 seconds west, 170.524 feet;
Thence proceed north 25 degrees 49 minutes 40 seconds west, 207.451 feet;
Thence proceed north 70 degrees 7 minutes 19 seconds west, 1,785.354 feet;
Thence proceed north 62 degrees 30 minutes 20 seconds west, 1,223.489 feet;
Thence proceed south 27 degrees 23 minutes 15 seconds east, 3,052.608 feet;
Thence proceed south 2 degrees 27 minutes 4 seconds east, 891.214 feet;
Thence proceed south 21 degrees 48 minutes 5 seconds west, 2,813.741 feet;
Thence proceed south 1 degrees 47 minutes 13 seconds west, 817.412 feet;
Thence proceed south 7 degrees 44 minutes 1 seconds east, 1,146.463 feet;
Thence proceed south 86 degrees 27 minutes 16 seconds west, 1,017.914 feet;
Thence proceed north 55 degrees 37 minutes 11 seconds west, 1,503.602 feet;
Thence proceed south 90 degrees 0 minutes 0 seconds west, 979.684 feet;

Thence proceed south 0 degrees 35 minutes 55 seconds east, 895.468 feet;
Thence proceed south 0 degrees 14 minutes 21 seconds west, 933.333 feet;
Thence proceed north 86 degrees 25 minutes 25 seconds east, 1,047.037 feet;
Thence proceed south 50 degrees 36 minutes 33 seconds east, 1,661.547 feet;
Thence proceed north 64 degrees 28 minutes 7 seconds east, 1,974.234 feet;
Thence proceed north 53 degrees 12 minutes 19 seconds east, 1,682.793 feet;
Thence proceed south 81 degrees 22 minutes 33 seconds east, 813.968 feet;
Thence proceed south 1 degrees 7 minutes 24 seconds west, 2,145.608 feet;
Thence proceed north 89 degrees 47 minutes 21 seconds east, 689.506 feet;
Thence proceed south 0 degrees 34 minutes 31 seconds east, 961.651 feet;
Thence proceed south 81 degrees 49 minutes 51 seconds west, 1,514.383 feet;
Thence proceed south 5 degrees 11 minutes 39 seconds west, 375.946 feet;
Thence proceed south 14 degrees 2 minutes 10 seconds east, 771.845 feet;
Thence proceed north 80 degrees 57 minutes 21 seconds east, 324.78 feet;
Thence proceed north 87 degrees 56 minutes 38 seconds east, 1,038.332 feet;
Thence proceed south 0 degrees 34 minutes 31 seconds east, 572.505 feet;
Thence proceed north 84 degrees 19 minutes 58 seconds east, 3,714.456 feet;
Thence proceed south 0 degrees 31 minutes 9 seconds east, 598.928 feet;
Thence proceed south 89 degrees 57 minutes 5 seconds east, 1,972.667 feet;
Thence proceed south 0 degrees 17 minutes 46 seconds west, 5,559.914 feet;
Thence proceed south 89 degrees 51 minutes 36 seconds west, 2,181.595 feet;
Thence proceed south 89 degrees 34 minutes 17 seconds west, 2,660.181 feet;
Thence proceed south 0 degrees 7 minutes 25 seconds west, 3,796.254 feet;
Thence proceed north 63 degrees 19 minutes 45 seconds west, 1,1771.75 feet;
Thence proceed north 2 degrees 18 minutes 43 seconds east, 1,063.369 feet;
Thence proceed south 64 degrees 59 minutes 26 seconds west, 452.235 feet;
Thence proceed south 25 degrees 39 minutes 29 seconds west, 82.45 feet;
Thence proceed south 0 degrees 7 minutes 57 seconds west, 329.46 feet;
Thence proceed south 8 degrees 51 minutes 41 seconds east, 290.882 feet;

Thence proceed north 63 degrees 19 minutes 45 seconds west, 2,548.624 feet to the point of beginning.

ARTICLE I. IN GENERAL**Sec. 125-1. Introduction.**

(a) Realizing the importance of adequate planning and to facilitate the logical and sound development of the parish, the council, under the authority delegated by the State Enabling Act, R.S. 33, ch. I, part IV, subpart A, created, by the enactment of Ordinance No. 293, the "St. Tammany Parish Planning Commission."

(b) It is mandatory upon any subdivider of an area of land within the unincorporated portions of the parish to obtain the approval of the parish planning commission before any subdivision shall be recorded with the clerk of court's office and before any act of sale from such subdivision shall be recorded.

(c) Violations of these regulations shall be punishable by a penalty of \$500.00, as prescribed per statutory law, for each lot or parcel transferred or sold, and the description of said lot or parcel by metes and bounds in the instrument of transfer or other document used in the process of selling or transferring, shall not exempt the transaction from such penalties or from the remedies herein provided.

(d) The parish shall enjoin such transfer or sale or agreement by suit for injunction brought in by the 22nd Judicial District Court, State of Louisiana, and may recover the penalty by civil action in said court.

(Ord. No. 499, § 40-000.0, 5-21-1970; Ord. No. 567, Bk. 7, P. 299; Ord. No. 904, 12-21-1978; Ord. No. 88-897, 1-21-1988)

Sec. 125-2. Definition of terms.

The following words, terms and phrases, when used in this UDC, shall have the meanings ascribed to them in this article, except where the context clearly indicates a different meaning:

Area of shallow flooding means a designated AO/AH zone on a community's flood insurance rate map (FIRM) with base flood depths from one to three feet. This condition occurs where a clearly defined channel does not exist, where the path of flooding is unpredictable and indeterminate, and where velocity flow may be evident.

Area of special flood hazard means the land in the designated floodplain within a community subject to a one percent or greater chance of flooding in any given year (flood zones).

Base flood means the flood having a one percent chance of being equaled or exceeded in any given year.

Block means a division of the subdivision into parcels of land separated by streets, roads, boulevards or avenues.

Boulevard or avenue means a double street or roadway separated by a neutral ground.

Building setback line means a specified minimum parallel distance between the street line or property line and any building or structure on any lot.

Developer means the person, firm or corporation who proposes to subdivide property into smaller lots or parcels to be subsequently used as commercial or residential sites.

Development means the land to be subdivided and platted along with the improvements made thereon.

Director of planning and development means the official employed as the director of planning and development to assist all concerned with the implementation of the regulations.

Driveway means a private servitude for gaining access to not more than two individual residences or property that will utilize said access exclusively for two residences or use (i.e., apartments, condominiums, shopping centers). Multiple use (more than two) of a driveway shall warrant and constitute the definition of a "street," and therefore subject to the same specifications, construction standards, surety obligations and subdivision regulations (if applicable) that are required for streets within this chapter.

Easement means a grant by the owner of the land for a certain specified use of said land by a person, or the general public through some governing body.

Final plat means the plat which is to be given final approval by the planning commission and will be placed on file with the clerk of court as a part of the public record.

Limited access street means a major highway to which access is limited to certain safe entrances and exits.

Local traffic street means a street paralleling a major highway to give limited access to said highway for safety.

Lot means the smallest portion or parcel of land into which the subdivision or blocks or squares of the subdivision is to be divided.

Major street plan means the comprehensive plan adopted by the planning commission after public hearing which is designed to guide the future development of the parish.

Planning commission means the body duly appointed by the parish council and charged with the responsibility of formulating a comprehensive plan, to keep it up to date, and to prescribe and administer necessary rules and regulations for the successful implementation of the comprehensive plan, a part of which being the subdivision regulations.

Preliminary plat means the plat which is to be the basis for all construction of improvements and is to receive preliminary approval by the planning commission prior to issuance of a work permit.

Resubdivision means a further division of an existing subdivision or a portion thereof.

Right-of-way (ROW) means a strip of land granting the right of passage over the strip of land specified, for the use of the public in the manner as defined and specified (a road, street, pipeline, drain, easement, etc.) on the plat by the developer.

Roof shed area means the area located directly underneath the roof, eaves or other structural components of a structure or building.

Service street means a street upon which no lot fronts.

State Enabling Act means the Act adopted by the state legislature identified as R.S. 33:101 through 33:130, which delegated to the council of the parish the authority to create a planning commission.

Street means an access way set aside for travel which affords the principal means of access to abutting property.

Subdivider. See Developer.

Subdivision means a portion or parcel of land that is to be sold, leased or rented, or offered for sale, lease or rent, in small portions or lots, for the purpose of future development for residential or commercial occupancy, which portions or lots are, or are to be, identified either by numbers or letters or by metes and bounds; whether or not such portions or lots are delineated on a plan of such subdivision.

Subdivision restrictions means restrictive covenants to be legally recorded which the developer places upon the use of the lots by future owners for the well-being of all owners, to protect values and to prevent abuses and nuisances that would disturb other occupants in the subdivision.

Tentative plan means a generalized conceptual plan designating the proposed development by showing the lot and street layout and the surrounding land uses.

Work permit means a permit shall be issued by the department of engineering, granting the developer permission to proceed with the construction of proposed improvements after approval of the preliminary plan and upon payment of the prescribed fees. This permit will be valid for one year from date of issue. In the event that the work permitted is not completed within this time, the developer will be required to have the work permit extended, and if construction has not commenced within one year or has been dormant for same said period, the project must be resubmitted for preliminary approval.

(Ord. No. 499, § 40-010.0, 5-21-1970; Ord. No. 88-897, 1-21-1988; Ord. No. 90-1344, 10-20-1990; Ord. No. 90-1345, 10-20-1990)

Secs. 125-3—125-22. Reserved.

ARTICLE II. GENERAL REGULATIONS

Sec. 125-23. General provisions.

(a) A subdivision or resubdivision of land must be compatible with the major street plan adopted by the planning commission. Necessary rights-of-way for any proposed roads or streets shown on the major street plan or rights-of-way for construction and maintenance of necessary proposed or existing drainage channels, through the proposed subdivision, must be formally dedicated in perpetuity to the public through the parish council. No building of any sort may be erected upon rights-of-way so dedicated.

(b) Site grading and fill operations must not interfere with natural watercourses or natural surface water flow.

(c) No individual, firm or corporation shall deepen, widen, fill or reroute, or change the location of any existing ditch, stream or drainage canal or reclaim, fill, dredge or otherwise change the natural condition of land without first obtaining a permit and work order from the council and any other agency having jurisdiction.

(d) Fire hydrants shall be required in all new subdivision developments which have community type central water facilities within a parish fire protection district. Additionally, blue reflectors shall be placed on all streets during the construction phase of the developments in order to indicate the location of fire hydrants. All fire hydrants shall be located within an easement and shall be spaced no further than 500 feet apart.

(e) Any additional requirements, stipulations and/or specifications regarding fire hydrants and/or their placement within new subdivision developments, shall be regulated as per section 125-86, central water systems. For the purpose of improving safety, the fire chief within the fire district that the development is located, shall have the authority to require additional regulatory standards.

(Ord. No. 499, § 40-030.01, 5-21-1970; Ord. No. 88-897, 1-21-1988)

Sec. 125-24. Right of appeal.

(a) Any person or persons claiming to be aggrieved by a decision or decisions of the planning commission with regards to a tentative or preliminary subdivision plat review, may appeal in written form to the parish council through the department of development no later than ten days after the planning commission meeting date.

(b) Any person or persons claiming to be aggrieved by a decision or decisions of the planning commission in regards to final subdivision plat review may only appeal a denial verdict rendered by the planning commission to the parish council in written form through the department of development no later than ten days after the planning commission meeting date.

(c) The procedure for appeals to the parish council is contained within section 120-59.
(Ord. No. 499, § 40-030.02, 5-21-1970; Ord. No. 02-0417, 1-10-2002)

Sec. 125-25. Zoning compliance.

(a) Prior to an application for tentative plat approval for any residential subdivision which creates more than five lots or requires the construction of either public or private roads, application must be made to the zoning commission for a zoning change to one of the following zoning classifications: A-1 Suburban District, A-2 Suburban District, A-3 Suburban District, A-4 Single-Family Residential District, A-5 Two-Family Residential District, A-6 General Multiple Family Residential District, PUD Planned Unit Development District, or MH Mobile Home District. The proposed tentative plat must comply with the specific requirements of the requested zoning classification.

(b) Prior to an application for tentative plat approval for any commercial or industrial subdivision which creates more than five lots or requires the construction of either public or private roads, application must be made to the zoning commission for a zoning change to one of the following zoning classifications: LC Light Commercial District, C-1 Neighborhood Commercial District, C-2 Highway Commercial District, C-3 Planned Commercial District, M-1 Light Industrial District, M-2 Intermediate Industrial District and M-3 Heavy Industrial District. The proposed tentative plat must comply with the specific requirements of the requested zoning classification.

(Ord. No. 499, § 40-030.03, 5-21-1970; Ord. No. 00-0172, 7-6-2000)

Sec. 125-26. Construction.

Unless otherwise provided for within this chapter, no construction of homes or other permanent structures may begin on a subdivision lot covered by these regulations until final approval of the subdivision has been obtained.

(Ord. No. 499, § 40-031.0, 5-21-1970; Ord. No. 904, 12-21-1978)

Secs. 125-27—125-55. Reserved.

ARTICLE III. STREET REGULATIONS

Sec. 125-56. Streets.

(a) The arrangement of streets shall be structured to enable the continuation of the existing streets in adjoining areas. All street intersections shall be safe for traffic. Offset streets shall be avoided. Minimum offsets shall be at least 125 feet between the centerlines of two opposing offset streets. All lots within new subdivisions must have either a public or private street or road frontage constructed for the full lot frontage in accordance with the provisions as established within this section.

(b) In special cases, where in the opinion of the planning commission, the requirements of safety demand, especially where subdivisions front on heavily traveled thoroughfares, such thoroughfares may be designated as limited access roads, and in such cases, local traffic roads shall be required adjoining and paralleling the thoroughfares, with access thereto at specified intervals only. In no case will lots be positioned with direct access onto a Class A state highway.

(c) In the interest of public health and safety, to provide for efficient traffic flow at subdivision entrances, and to promote aesthetic qualities, all proposed subdivisions where only one entrance is provided shall be required to build the entrance to the following minimum standards:

- (1) *Right-of-way.* An 80-foot by 100-foot right-of-way shall be reserved at the entrance of subdivisions with only one access.
- (2) *Street.* The developer shall design one 14-foot-wide ingress travel lane on one side of the median and a minimum of two ten-foot-wide each egress travel lanes on the other side of the median. Note: The street width requirements shall apply only to the first 100 feet in depth from the entrance.
- (3) *Median.* For subdivisions that have over 40 lots, the developer shall design and construct a median at the entrance to segregate traffic flow.
 - a. The minimum width of the median shall be six feet by a depth of 100 feet with a minimum radius at both ends of three feet.
 - b. The median shall be of a curb and crowned design with a turf cover.
 1. The curbing shall have a minimum of five inches in height and eight inches in width. Materials used to construct the curbing shall be compatible with that of the street.
 2. The turf cover shall be made up of grass and/or any other combination of living landscape materials such as trees, bushes, shrubs and flower beds.
- (4) *Maintenance.* Maintenance of the median shall be the responsibility of the developer and/or homeowners association when and if established.

(d) Dead-end streets are prohibited; however, cul-de-sacs may be used by developers, provided that the following minimum standards are utilized:

- (1) The radius of a cul-de-sac shall be 60 feet when the design employs open swale ditches and 55 feet when subsurface drainage is used. In addition, the inside turning radius shall be a minimum of 26 feet.
- (2) A street terminated by a cul-de-sac shall be no greater than 700 feet in length. However, some exceptions may apply due to extenuating circumstances. In such cases, the planning commission shall reserve the right to waive the length standards.

- (3) The entrance to a street terminated by a cul-de-sac shall be posted with a sign stating "No Outlet."
- (4) The planning commission has the authority to waive the minimum design standards for streets terminated by a cul-de-sac only when it is deemed reasonable and compatible with topography, aesthetics, planning, development or need.

(e) Minimum width of right-of-way of public or private streets in any subdivision shall be 60 feet except where concrete curb and gutter streets with subsurface drainage are provided. Streets having these features may be 50 feet in width. However, in the case of a planned unit development (PUD), if a developer wishes to maintain the streets privately, the developer may request a reduction of established right-of-way width requirement for streets if the developer can justify such a reduction in accordance with the standards and practices of the departments of public works and engineering.

(f) Boulevards or avenues in any subdivision shall have a minimum width of 80 feet.

(g) Streets that are obviously in alignment with others already existing shall bear the names of the existing streets.

(h) Duplication of street names shall be avoided. In no case shall there be a duplication of a street or road name within a fire protection district or of new street names within any of the municipalities of the parish.

(i) A uniform street sign system marking each street intersection will be installed by the developer prior to obtaining final approval, in accordance with the specifications referenced within this article.

(j) Traffic control signs will be installed by the developer, prior to obtaining final approval, in accordance with the specifications listed within this article. The developer shall be responsible for the maintenance of all streets and drainage ditches until all improvements have been completed and the streets and drainage ditches have been accepted for maintenance by the parish council.

(Ord. No. 499, § 40-032.0, 5-21-1970; Ord. No. 87-7621, 1-15-1987; Ord. No. 92-1698, 6-18-1992; Ord. No. 02-0472, 5-2-2002; Ord. No. 04-0977, 10-7-2004; Ord. No. 14-3064, § 40-032.0, 1-9-2014)

Sec. 125-57. Definitions relating to streets.

The following words, terms and phrases, when used in this article, shall have the meanings ascribed to them in this section, except where the context clearly indicates a different meaning:

Apron means the access or egress roadbed and road-wearing surface leading to and from a subdivision hereafter approved.

Department of engineering means that department as defined in this Code, or any successor agency thereto; should that department be hereafter divided in function, the parish department herein with jurisdiction over streets and roads shall be the department referred to herein.

Main street or thoroughfare includes any road, roadbed and road-wearing surface, situated in any subdivision, which constitutes the main road or traffic artery situated therein for the purpose of ingress or egress of vehicular traffic into and out of the subdivision and within the subdivision; same shall also automatically include roads which are separated by a median or other separation and also four-lane roads providing for two lanes each for opposing traffic; whether or not so divided by a median or other device situated therein.

Reinforcement includes mesh, rods and/or a mixture of materials so as to provide the per-square-inch strength imposed and required by the state department of transportation and development for the installation and construction of highway traffic arteries.

Responsibility for on-site inspections means the responsibility of the developer to retain a registered civil engineer, to provide for on-site inspections and observation during all construction activities, including those contingent herein and drainage. Said engineer shall provide periodic inspection reports to the engineering department for review and filing.

Subdivision. See *Subdivision* in section 125-2.

Testing means the sampling of a roadbed material for composition, compaction, depth and such other requirements applicable thereto, and of the road surface (all at such intervals as standard testing procedures provide) to determine through state of the art methodology, proper compliance with the specifications imposed.

Utility line means any wire, pipe and/or conduit in a system of pipes and/or conduits for conveying utility services, including, but not limited to, water, sanitary sewer, natural gas, electricity, steam, fiber, data/communications.

(Ord. No. 499, § 40-032.01, 5-21-1970; Ord. No. 14-3064, § 40-032.01, 1-9-2014; Ord. No. 14-3171, § 40-032.01, 8-7-2014; Ord. No. 16-3503, exh. A(40-032.01), 5-5-2016)

Sec. 125-58. Approval (street construction plans mandatory).

Preliminary or final subdivision approval shall not be approved until the design details and specifications of the construction of the road base and wearing surfaces have been submitted and approved by the department of engineering. This includes the detail of the ingress and egress roads therein, with and to the approach road to the subdivision, and any and all main streets or thoroughfares situated within said subdivision shall have been approved by the department of engineering.

(Ord. No. 499, § 40-032.02, 5-21-1970; Ord. No. 14-3064, § 40-032.02, 1-9-2014)

Sec. 125-59. Roadway testing and inspection standards for residential and commercial subdivisions.

(a) *Roadway subgrade preparation.*

- (1) The roadway alignment shall be stripped of all topsoil with organics and other deleterious materials. The topsoil in the parish is generally underlain by moisture-sensitive silty soils. These near-surface silty deposits shall be examined at the time of construction since they tend to lose their support capabilities if they become wet. Consequently, depending on the site condition at the time of construction, the moisture-sensitive soils may have to be undercut and replaced with compacted structural fill.
- (2) Once the roadway alignment is stripped and undercut to the required subgrade elevation, the roadway subgrade shall be proofrolled using a single or a tandem axle dump truck or similar heavily loaded rubber-tired vehicle weighing about 20 tons. Soils which are observed to rut or deflect under the moving load shall be undercut and replaced with compacted structural fill, disked open to dry or treated to form a stable non-yielding subgrade prior to fill placement. Proofrolling the roadway subgrade shall be witnessed by parish inspection personnel or their representative prior to proceeding with fill placement. The approval of the subgrade is valid for 48 hours. Therefore, the subgrade shall be protected and covered with fill as soon as possible. Should the subgrade be exposed to excessive amount of precipitation, re-approval of the subgrade will be required.

(b) *Roadway fill.* Fill placed along the roadway alignment shall consist of sandy clays, clayey or silty sands free of organics and other deleterious materials. The fill shall have a maximum liquid limit of 40 and a plasticity index less than 20 percent. The structural fill shall be placed in maximum lifts of eight inches of loose materials and shall be compacted within one percentage point below to three percentage points above the optimum moisture content. The fill shall be compacted to at least 95 percent of the fill's maximum dry density as determined by ASTM D698 (AASHTO T99). Each lift of fill shall be tested by the parish-approved testing laboratory and approved prior to placement of subsequent lifts. The edge of the fill shall extend at least two feet beyond the edge of the road or face of curb. Field density tests shall be conducted in accordance with ASTM D2922 at 500-foot intervals along the roadway alignment.

(c) *Aggregate base course.* The roadway aggregate base shall consist of Class II base including 610 limestone or crushed concrete meeting the requirements of the latest edition of Louisiana Standard Specifications for Roads and Bridges (LSSRB), section 1003.3D. The aggregate base shall be compacted to at least 95 percent of the aggregate's maximum dry density determined by ASTM D698 (AASHTO T99). Field density tests shall be conducted on the base material in accordance with ASTM D2922 at 500-foot intervals along the roadway alignment. In addition, depth checks shall be conducted at the density test locations to verify compliance with the pavement design and parish requirements.

(d) *Lime-treated subgrade.*

- (1) Lime treatment may be used to stabilize the clay subgrade or to dry the in situ soil. It is not intended for use as a pavement base. Lime treatment shall be conducted after the soil has been classified and the plasticity index of the soil is determined to optimize the quantity of lime needed to treat the soil. The following percent of hydrated lime, by weight, is a guide to treat the cohesive soil. The actual amount shall be verified by the approved testing laboratory prior to field application.

<i>% of Hydrated Lime by Weight</i>	<i>Clay Soil Plasticity Index (%)</i>
2	18 to 30
4	31 to 45

- (2) The percent of lime required to stabilize clays with plasticity indices over 45 percent shall be determined by the independent testing laboratory. Lime treatment of silty soils shall be conducted for drying purposes only.
- (3) Lime treatment shall be designated by type in accordance with LSSRB, section 304. When lime is used to treat the clay sub-base or to prepare for cement treatment, Type B and Type C shall be used, respectively. For Type B and Type C treatments, the pulverized treated soil shall yield 95 percent passing the three-fourths-inch sieve and 50 percent passing the No. 4 sieve, by weight. The mixture shall be compacted to at least 95 percent of the maximum dry density as determined by ASTM D698 (AASHTO T-99). Field density tests shall be conducted at intervals of 500 linear feet of roadway. The mixture shall be protected against drying in accordance with LA DOTD specifications.

(e) *Cement-treated base.*

- (1) Cement treatment of roadways shall be conducted in general accordance with LSSRB, section 303. Cement treated base generally involves treatment of the existing subgrade soils or treatment of imported embankment fill to be used as a base course in flexible or rigid pavement sections.
- (2) The in situ or embankment fill considered for cement treatment shall have a plasticity index of less than 15 percent. Soils with higher plasticity indices shall be lime treated prior to cement treatment. Cement-treated bases for roadways shall be designed to yield a minimum compressive strength of 300 psi at seven days as determined by a mix design in accordance with DOTD TR 432 Standard Procedure. The mix design shall be conducted on representative samples of the subgrade soil by an independent testing laboratory. Unless the results of the mix design indicate otherwise, the silty soils encountered generally in the parish shall be treated with at least ten percent of Portland cement, by volume. The roadway shall be prepared in general accordance with LSSRB, section 303-04. The moisture content of the mixture shall be within two percent of the optimum moisture at the time of treatment. Pulverization of the treated soils shall yield a mixture with at least 60 percent passing the No. 4 sieve.

- (3) Compaction and finishing of a treated roadway section shall be completed within three hours of the initial cement application to the base course materials. The treated base shall be compacted to at least 95 percent of the mixture's maximum dry density as determined by ASTM D698 (AASHTO T-99). Field density tests shall be conducted on the cement-treated base at a frequency of not less than one test per 500 linear feet of road.
 - (4) Thickness of the cement-treated base shall be verified for compliance with the roadway design. The depth of treatment shall be checked during placement at a frequency of not less than one test per 500 linear feet of road. The cement-treated base shall be immediately protected against rapid drying by applying an asphalt curing membrane. The treated section shall be allowed to cure for a period of at least seven days prior to exposure to construction traffic. The contractor shall protect the treated base from damage until the surface course is placed. Damaged base course shall be repaired by the contractor and approved by the engineering department prior to application of the surface course.
- (f) *Portland cement concrete.*
- (1) Portland cement concrete for parish roadways shall be placed on approved roadway bases. The concrete mix design shall be reviewed in accordance with ACI 301 for compliance with the strength requirements. All materials used in the concrete mix shall be from DOTD approved sources. The materials shall be proportioned, batched, cured and placed in accordance with LSSRB, section 901.
 - (2) Prior to placement of concrete, depth checks shall be conducted by string lines trained across the forms to verify the pavement thickness at a frequency of not less than 50 feet and shall be witnessed by a parish inspector or his representative. Deficiencies noted shall be corrected and approved prior to concrete placement.
 - (3) During placement of Portland cement concrete pavement, observation and testing shall be done on a full-time basis. At a minimum, slump, air content and mix temperature test shall be conducted every 100 cubic yards of placed concrete. Four compressive strength cylinders shall be cast every 100 cubic yards placed. Cylinders shall be tested as follows: one cylinder at seven days, two cylinders at 28 days and one cylinder shall be placed on hold. Additional cylinders shall be cast when high/early mix is used and early concrete strength is required to open the road to traffic with the approval of the engineering department. The placed concrete shall be finished, cured and protected in accordance with LSSRB requirements. At the discretion of the engineering department, cores may be obtained for verification of pavement thickness.
- (g) *Asphaltic concrete.*
- (1) All materials used in the mixture shall be from DOTD-approved sources. The materials shall be proportioned to produce a pavement mix meeting LSSRB requirements. The proposed mix design shall be submitted for approval to the engineering department. The asphaltic concrete mixture shall be placed on a stable and approved base.

- (2) During placement of asphaltic concrete, observation and testing shall be on a full-time basis. For each 1,000 tons of materials placed, or a fraction thereof in one day, a sample shall be tested at the plant for percent void, void mineral aggregate (VMA), asphalt content and gradation. The results will be used to control the mixture and form a basis for acceptance of the pavement.
 - (3) Mix temperature shall be checked on each truck load in the field. Loads with low temperatures not meeting specifications shall not be placed.
 - (4) The final pavement thickness and density of the mixture shall be verified by obtaining four-inch diameter cores at a minimum frequency of one core per 1,000 linear feet of road and not less than two cores per roadway section. The density of the pavement core shall not be less than 92 percent of the maximum theoretical density. The thickness of the cores shall be within one-fourth inch of the design thickness. The parish reserves the right to accept or reject the pavement based on the test results.
- (h) *Drainage trench backfill.*
- (1) Backfill material for culverts and storm drains shall be placed and compacted in general accordance with LSSRB, section 701, except as specifically addressed in this subsection (h).
 - (2) Cross drains and side drains under roadway areas shall be backfilled with granular fill A-3 material or better. The backfill shall be placed near optimum moisture and shall be compacted in lifts not exceeding 12 inches. Field density tests shall be performed during the backfill operation from one foot above the pipe up to the finished grade. Each layer shall be compacted to 95 percent of the fill's maximum dry density as determined by ASTM D698 (AASHTO T-99). The field density tests shall be conducted at a minimum frequency of one test per 100 linear feet.
 - (3) Bedding material shall be provided under the drainage lines with a minimum of six inches placed under the pipe and extending one-half of the pipe diameter beyond the edge of either side of the pipe or minimum of 12 inches, whichever is greater. The pipe shall be side bedded to the mid-height of the pipe or to the pipe spring line, if arch pipe is used. The bedding material shall consist of free-draining granular material meeting the requirements of #57 limestone or crushed concrete. Other bedding materials may be considered by engineering department. A geotextile fabric shall also be placed around the pipe at each joint to reduce potential migration of the fill into the joints of the pipe.
 - (4) Drainage trench backfill in non-paved areas shall be either granular material or selected soils as defined by LSSRB, section 701.08. The fill shall be compacted in lifts to the density of the surrounding soil but not less than 90 percent of the fill's maximum dry density as determined by ASTM D698 (AASHTO T-99).

(i) *Utility trench backfill.* Utility lines located in non-paved areas or areas not subject to vehicular traffic will not be required to conform to LSSRB section 701. Utility lines located within paved areas will be required to conform to LSSRB section 701. Utility lines located in paved areas and installed prior to proof rolling the roadway subgrade will not be required to conform to LSSRB section 701, provided the proofroll passes inspection.

(Ord. No. 499, § 40-032.03, 5-21-1970; Ord. No. 14-3064, § 40-032.03, 1-9-2014; Ord. No. 16-3503, exh. A(40-032.03), 5-5-2016)

Sec. 125-60. Roadway design standards for residential subdivisions.

The purpose of this section is to provide for roadway design and construction standards to serve as a guide for acceptance of new private roadways that will be dedicated to the public and placed into the parish roadway system for maintenance. It also provides guidelines for acceptance of existing roadways under consideration into the roadway system.

(1) *New roadways built by developers and accepted into the parish roadway system.*

- a. Upon approval of preliminary plans by the planning commission, a geotechnical investigation, including a pavement design, shall be conducted by a state-licensed geotechnical engineering firm retained by the developer. The geotechnical report shall be submitted to the department of engineering for review and approval.
- b. The subsurface soil investigation shall have an adequate scope to sufficiently design the roadway embankment. The scope of the subsurface soil survey shall include, but not be limited to, the following:
 1. Soil borings shall be drilled to a depth of six feet at 500-foot intervals and not less than three borings per roadway section. At a minimum, the borings shall indicate the various soil stratifications and groundwater elevation.
 2. Laboratory testing shall be conducted on selected samples, including, but not limited to, moisture content, unconfined compressive strength, Atterberg limits determination and percent fines. Other laboratory testing and analysis, such as consolidation tests and embankment stability analysis for high fill areas, shall be performed, if necessary, at the discretion of the geotechnical engineer and department of engineering.
 3. The pavement design shall be based on the geotechnical investigation field data and laboratory test results, as well as a projected average daily traffic which includes the traffic resulting from the complete development of all land to be served by the subject roadway, including traffic forecast to be generated by the development, both internal and external to the development under consideration. The average daily traffic shall include heavy truck traffic as a percent of the average daily traffic for a minimum design life of 20 years. Design of a single double 32-kip axle load shall be used to define a

heavy axle load. An estimate of the average daily traffic, including an estimate of the number and weight of heavy axle loads expected during the design life of the pavement, shall be furnished to the department of engineering. In the absence of a detailed traffic analysis report furnished by a traffic engineer, the information provided below shall be an estimate of heavy truck traffic for various types of streets or highways:

Type of Street	Approximate Number of Heavy Trucks Per Design Period
Residential streets, rural farm and residential roads	25,000 — 50,000
Urban minor collector streets, rural minor collector roads	70,000 — 150,000
Urban minor arterial and light industrial streets, rural major collector and minor arterial highways	700,000 — 1,500,000

- (2) Existing or recently constructed private roadways considered by the parish to be accepted into the parish roadway system.
- a. Should an existing or recently built private roadway be considered for inclusion in the parish roadway system, the following geotechnical investigation shall be conducted by the developer's consultant to verify compliance with the parish roadway design standards. This includes, but is not limited to, verification of pavement thickness as well as type and thickness of roadway base and sub-base.

1. Roadway cores shall be obtained at 500-foot intervals.

(i) For rigid pavement, the thickness shall be recorded and the compressive strength of the concrete shall be tested on the pavement cores for compliance with the parish roadway design requirements.

(ii) For flexible pavement, the thickness and density of the pavement cores shall be verified for compliance with the roadway design requirements.

2. At the core locations, soil borings shall be conducted to a depth of at least three feet below the bottom of the pavement to verify the type and thickness of the pavement base and sub-base.

3. Laboratory testing shall be conducted on selected samples from the roadway borings to classify the fill used for compliance with the roadway design and parish requirements.

4. Available reports of testing and inspection, conducted during construction by the developer or contractor, shall be provided to the engineering depart-

ment for review. This shall include testing and inspection reports of Portland cement concrete or asphaltic concrete, reports of field density tests conducted on the roadway base material and any underlying fill.

5. Analysis of the pavement design for the existing roadway shall be based on the findings from the geotechnical investigation as well as the anticipated average daily traffic in the area.
 6. Acceptance of the roadway will be decided by the engineering department based on the results of the pavement analysis. Furthermore, the parish may require funded certification of conformance through the establishment of performance and/or warranty letters of credit, to ensure that the developer's obligation to construct the roads to the required standards is accomplished.
- b. Should the roadway be found not to be in compliance with parish standards, the roadway may be rejected or recommendations may be provided by the department of engineering to bring it up to parish roadway standards. Furthermore, the parish may require a minimum of two years and a maximum of five years funded warranty letters of credit to ensure the integrity and durability of the street. The parish reserves the right to accept or reject streets that are deemed not up to parish standards.
- (3) *Minimum street pavement sections.* All parish-wide streets or roadways within new subdivision developments shall be designed based on the results of a soil investigation conducted on the roadway. However, the following subsection provides minimum pavement sections for public roadways which may be used for preliminary planning purposes or for estimating requirements for subdivision development. The minimum roadway section shall be in accordance with the following minimum specifications:
- a. Roadway materials shall be from approved sources in accordance with the Louisiana Standard Specifications for Roads and Bridges (LSSRB), latest edition.
 - b. Minimum roadway sections for lightly traveled subdivision streets shall consist of the following:
 1. Rigid pavement:
 - (i) Six inches of Portland cement concrete underlain by either 12 inches of A-3 or better base material over a proofrolled stable subgrade.
 - (ii) An alternative to the base material, eight inches of the subgrade soil (if suitable) may be treated with cement. Otherwise, structural fill may be placed and treated with cement. The appropriate amount of cement shall be determined by an approved testing laboratory and approved by the department of engineering.

2. Flexible pavement:
 - (i) Four inches of asphaltic concrete underlain by eight inches of Class II base over a minimum of 12 inches of A-4 or better sub-base structural fill placed over a proofrolled stable subgrade.
 - (ii) An alternative to the aggregate base and sub-base, ten inches of the subgrade or fill may be treated with cement. Otherwise, structural fill may be placed and treated with cement. The appropriate percent of cement shall be determined by an approved testing laboratory and approved by the department of engineering.
 - c. Minimum roadway section for a collector or major arterial shall consist of the following:
 1. Rigid pavement:
 - (i) Eight inches of Portland cement concrete underlain by either 12 inches of A-3 or better sub-base or ten inches of cement-treated base placed on top of a proofrolled stable subgrade.
 - (ii) An alternative to the base material, ten inches of the subgrade soil (if suitable) may be treated with cement. Otherwise, structural fill may be placed and treated with cement. The appropriate amount of cement shall be determined by an approved testing laboratory and approved by the department of engineering.
 2. Flexible pavement:
 - (i) Five inches of asphaltic concrete underlain by either 12 inches of Class II base over a minimum of 12 inches of A-4 sub-base structural fill placed on top of a proofrolled stable subgrade.
 - (ii) An alternative to the aggregate base and sub-base, 12 inches of the subgrade (if suitable) or fill may be treated with cement. Otherwise, structural fill may be placed and treated with cement. The appropriate percent of cement shall be determined by an approved testing laboratory and approved by the department of engineering.
 - d. The engineering department can waive any of these requirements or approve alternative sections whenever a pavement design can be justified by a state-licensed civil engineer and based on a geotechnical investigation conducted for the roadway by an approved geotechnical engineering firm in the state.
- (4) *Roadway widening.* The design for a widened roadway shall take into consideration the anticipated new traffic load the road will be subjected to. At a minimum, the widened section of the road shall have a pavement section that is equivalent to the existing road

or better if additional traffic load is anticipated. A subsurface investigation shall be conducted along the new section of the road that will be widened. The scope of the subsurface soil investigation shall include, but not be limited to, the following:

- a. Soil borings shall be drilled to a depth of six feet at 500-foot intervals, but not less than three borings per roadway section. Pavement cores shall be obtained from the existing roadway alignment at 1,000-foot intervals with a minimum of two cores per roadway section. The existing thickness of the pavement and underlying base as well as the sub-base type shall be investigated and considered in the pavement design.
- b. Laboratory testing shall be conducted on selected samples including, but not limited to, moisture content, unconfined compressive strength, Atterberg limits and percent fines.
- c. The pavement design shall be based on the geotechnical investigation field data and laboratory test results as well as a projected average daily traffic including the anticipated future traffic for the widened road.

- (5) *Roadway elevation.* The minimum elevation for any street as measured at the lowest point of the travel lanes shall be at least 6.0 feet NAVD '88 GEOID 03. This requirement may be adjusted when site conditions make compliance unsafe or infeasible as determined by the director of public works or the director's designee.

(Ord. No. 499, § 40-032.04, 5-21-1970; Ord. No. 14-3064, § 40-032.04, 1-9-2014; Ord. No. 14-3171, § 40-032.04, 8-7-2014; Ord. No. 14-3205, § 40-032.04, 10-2-2014)

Sec. 125-61. Additional requirements for streets.

It shall be the responsibility of the developer to select the independent laboratory for testing the wearing surfaces, composition, compaction and suitability of the streets within a developer's subdivision. In addition, the developer's engineer shall coordinate with the department of engineering the scope of work required and the costs involved.

(Ord. No. 499, § 40-032.05, 5-21-1970)

Sec. 125-62. Blocks.

Block length in all subdivisions shall not be more than 1,500 feet.

(Ord. No. 499, § 40-033.0, 5-21-1970)

Secs. 125-63—125-82. Reserved.

ARTICLE IV. STANDARDS OF DESIGN

Sec. 125-83. Lots.

(a) *Lot size requirements.*

- (1) *Lots with central sewage.* Lots in subdivisions having central sewage systems shall have a minimum lot area of 12,500 square feet with a minimum lot frontage of 90 feet and depth of 120 feet.
- (2) *Lots without central sewage.* Lots in subdivisions that do not have central sewage shall have a minimum lot area of 40,000 square feet and a minimum lot width of 150 feet and depth of 120 feet.
- (3) *Exceptions.* Lots within A-3 Suburban and A-4 Single-Family Residential zoning districts having central sewerage must have a minimum road frontage of 60 feet on a cul-de-sac, and 100 feet and 90 feet respectively on a curve with a radius of 180 feet or more.
- (4) *Lots on a curve.* The road frontage for lots on a curve with a radius under 180 feet shall not be less than 90 feet and 80 feet, respectively.
- (5) *Lots without central sewerage.* Lots within A-1 and A-2 Suburban zoning districts without central sewerage must have a minimum road frontage of 100 feet and 90 feet, respectively on a cul-de-sac, and 300 feet and 150 feet respectively on a curve with a radius of 180 feet or more.
- (6) *Lots on a curve.* The road frontage for a lot on a curve with a radius under 180 feet shall not be less than 240 feet and 120 feet, respectively.

(b) *Exceptions from minimum requirements.* Any lot provided for in subsection (a) of this section may have as much as ten percent less road frontage, building set-back width and area than is required for each lot provided that the lots in each square or block have an average frontage, building setback width, and area which is equal to that required for each lot in subsection (a) of this section.

(c) *Angles of side lines.* All side lines of lots shall be at right angles to straight road lines or radial to curved road lines unless a lot is affected by or is adjacent to a servitude (easement), or an artificial or natural drain, or an unusual natural feature such as a rise or fall in elevation, or unless a variation of this rule will result in a better road or lot plan. Lots with double frontage should be avoided.

(d) *Resident number, mailing address.* All lots, in addition to a lot number, will be assigned a resident number or numbers which shall become the permanent mailing address. The developer should coordinate addresses with the parish 911 addressing office.

(e) *Definition of "road."* The term "road," as used in this section, shall include a street, highway, boulevard and any other way, whether public or not.
(Ord. No. 499, § 40-034.0, 5-21-1970; Ord. No. 85-476, 9-19-1985; Ord. No. 94-2143, 12-12-1994)

Sec. 125-84. Contiguous lot rule.

(a) The purpose and intent of this section is to require an owner to combine contiguous residential substandard lots of record, through the parish's resubdivision process, in order for said lots to conform with minimum standards relative to lot size and the provision of central water, community sewerage and adequate drainage. These standards shall apply only to subdivisions properly recorded with the parish clerk of court prior to July 28, 1967.

(b) For the purposes of this section, the following definitions shall apply:

Buildable lot of record means any residential lot located within a subdivision created prior to July 28, 1967, and having a minimum lot width of 50 feet and a minimum lot area of 5,000 square feet.

Buildable substandard lot means a lot which has been determined, upon review of the planning commission, to meet all of the requirements of section 125-84(b)(4) and, therefore, may be constructed upon following the subsequent review and approval of the department of engineering in accordance with the provisions hereof. For the purposes of this section, the division of lots to create smaller lots will not be permitted:

- (1) If two or more contiguous residential lots or combination of lots and portions of lots are in single ownership, and if all or part of the lots do not equal or exceed the minimum lot area and width requirements of a buildable lot of record, then said lots or combination of lots or portions thereof shall be construed as substandard lots of record; and therefore, must be combined together to conform with the buildable lot of record area and width requirements.
- (2) The following shall constitute a violation of this section and subject to the provisions set forth in subsection (b)(5) of this section:
 - a. It shall be a violation for any individual, corporation or other legal entity who owns contiguous residential substandard lots of record to sell a lot or lots, or portions thereof, to another person or legal entity if the remaining balance of the lots retained, or lots sold to another, does not meet or exceed the minimum standards of a buildable lot of record.
 1. Under the following limited circumstances set forth in this subsection, a contiguous residential substandard lot may be sold, provided that: the sale does not result in the seller retaining a lot or portion of lots that, either individually or combined, would not meet or exceed the minimum standards

of a buildable lot of record; the entire width along the rear boundary of the contiguous residential substandard lot that is sold abuts the rear boundary of the purchaser's lot; and, either a principal structure exists on the purchaser's lot, at the time of the sale, the purchaser's lot is a buildable lot of record, or the purchaser satisfies the requirements for establishing a buildable substandard lot, which requirements are set forth in subsection (b)(2)a.4 of this section.

2. A sale authorized under the provisions of subsection (b)(2)a.1 of this section shall not be construed as authorizing the creation of a buildable residential substandard lot or the issuance of a building permit for a principal structure to be placed on the substandard lot being purchased, except in the following limited circumstances: the building permit is issued in conjunction with the demolition of, and the replacement of, the principal structure that exists on the purchaser's lot at the time of his purchase of the rear abutting residential substandard lot; or if no principal structure existed on the purchaser's lot at the time of purchasing the rear abutting substandard lot, but the owner otherwise satisfies the requirements for establishing that the lot he owned, at the time of purchasing the rear abutting substandard lot, is a buildable substandard lot, which requirements are set forth in subsection (b)(4) of this section. In either case, the two lots must be combined and a building permit may be issued for one principal residential structure.
 - b. It shall also be a violation for any person or entity to commence construction or to place fill on a substandard lot prior to review and approval of the planning commission, review and approval of the department of engineering and issuance of a building permit.
 - c. Failure to adhere to the fill and construction requirements of the department of engineering shall also constitute a violation of the provisions of this section.
- (3) Resubdivision requirements and payment of fees.
- a. Prior to an owner selling a combination of contiguous residential substandard lots to another, or filing for a building permit, an application for resubdivision must be filed and submitted as set forth in section 125-216, resubdivision review. Said resubdivision application must reflect the combination of substandard lots of record into larger lots to create buildable lots of record.
 - b. For the purposes of this section, the resubdivision of existing conforming lots in order to create smaller lots shall not be permitted.
- (4) A building permit may only be issued on a substandard lot of record when the applicant satisfies the following requirements of a buildable substandard lot, which must be done

at the time of the public hearing before the parish planning commission, and the application has been reviewed and approved within the guidelines of the departments of planning and development and engineering:

- a. At the public hearing before the planning commission, the applicant must establish that he does not currently own and has not sold, nor has any predecessor in title sold, during the period following the initial adoption of the ordinance that required substandard lots of record to be combined (PGS No. 94-1899), any contiguous lots or portions thereof which could have been combined with the lot or lots in question to create a buildable lot of record; and
 - b. Only after the planning commission determines that the applicant has satisfied the above requirements and grants buildable lot of record status, the applicant shall then submit an application for a building permit. The application must be reviewed by the department of engineering for consideration of adverse drainage impacts resulting from the placement of fill and construction. The department of engineering shall determine, based on best engineering practices, the amount of fill that may be placed on the property, if any, and whether the proposed residence may be built on a slab or must be elevated. A building permit shall not be issued until the application has been reviewed and approved by the department of engineering.
- (5) A violation of any provision of this section, and knowingly providing false information in connection with an application filed pursuant to this section, shall constitute a misdemeanor that is punishable by a fine not to exceed \$500.00 per day for each day that the violation continues, and imprisonment in the parish jail for not more than 30 days, or both such fine and imprisonment. In addition thereto, or in lieu thereof, the parish is authorized to take all legal action that may be necessary to address and remedy any violation of these provisions.
- (6) In the case of Bayou Gardens Subdivision (Lacombe), all regulations outlined above shall apply, except that all lots less than 100 feet in width shall be combined to create lots at least 100 feet in width and 12,500 square feet in area.

Conforming lot of record means any residential lot located within a subdivision created prior to July 28, 1967, and having a minimum lot width of 90 feet and a minimum lot area of 12,500 square feet.

Residential lot means any lot used for residential purposes in any of the following zoning districts: R-Rural, SA Suburban Agriculture, A-1, A-2 and A-3 Suburban, A-4 Single-Family Residential and A-5 Two-Family Residential.

Substandard lot of record means any residential lot with less than 50 feet of street frontage or less than 5,000 square feet in area, and created prior to July 28, 1967.

(Ord. No. 499, § 40-034.01, 5-21-1970; Ord. No. 03-0761, 10-2-2003; Ord. No. 05-1037, 1-6-2005; Ord. No. 07-1501, 2-1-2007)

Sec. 125-85. Sanitary provisions.

(a) Water supply and sewage disposal plans acceptable to the parish health department and the state board of health must be provided. A letter recommending minimum sewage requirements shall be obtained from the state department of health and hospitals, as a part of the preliminary plan. No residences may be occupied before water and sewer systems are installed.

(b) If the developer anticipates the installation of a water distribution system with fire hydrants, then, and in that event, the plans for the system must be submitted to the state fire rating bureau for their recommendations. All hydrants to be installed shall be of a three-way type with national standard threads.

(c) It shall be unlawful for any person to transmit to the state department of health and hospitals, its review or approval, any subdivision plans or specifications or documentation, until same is first submitted to and approval given by the parish department of engineering.

(d) All community-type central sewage and water facilities shall meet all applicable performance standards as set forth in this Code.

(Ord. No. 499, § 40-036.0, 5-21-1970; Ord. No. 630, Bk. 7, P. 543; Ord. No. 80-41, 9-11-1980; Ord. No. 86-631, 6-19-1986)

Sec. 125-86. Central water systems.

(a) *Central water systems; when required.*

(1) Except when not expressly provided for in subsection (b) of this section, any subdivision development which is to be located in or partially in any A-2 or subsequently enumerated suburban district or any other more relevantly restricted or progressive residential or planned land use district shall have a central water system comprised of water source, treatment (as may be required), storage, and distribution elements. The water source of any central water system shall be a public water supply as defined in chapter XII of the sanitary code of the state.

(2) Whenever the average lot size of a proposed subdivision to be located entirely within an A-2 Suburban District is greater than two acres, the planning commission, at the time of its consideration of the tentative plan for the subject subdivision, may waive the requirement provided in subsection (a)(1) of this section upon the showing by the developer that the implementation of the provisions of said subsection would prove to be a manifestly unreasonable financial hardship.

(b) *System requirements.* The installation of an appropriate central water system for a subdivision development in a subject residential or planned land use district shall conform with the following minimum requirements:

<i>Number of Service Connections</i>	<i>Well Screen Diameter</i>	<i>Pumping Capacity (GPM)</i>	<i>Storage Vessel* (Gallons)</i>	<i>Water Main Diameter</i>
15 through 24	2.5-inch	75	3,000	6-inch
25 through 49	4-inch	125	5,000	6-inch
50 through 74	6-inch	250	10,000	8-inch
75 through 124	6-inch	375	15,000	8-inch
125 through 499	8-inch	500	20,000	8-inch
500 or greater	10-inch	1,000	40,000	10-inch**

*The volume of water shall equal 40 times the pumping capacity of the water source.

**Trunk lines only, lateral lines may be appropriately reduced according to generally accepted principles of hydraulic engineering.

(c) *Construction or modification of a central water system.*

- (1) The department of environmental services of the parish (the commission) shall have authority over all construction necessary or incidental to the provision of water. Plans and specifications for a central water system to be constructed or modified shall be submitted to and approved by the commission prior to initiating such construction, and the conduct of such construction shall be subject to inspection by the commission. Copies of any amendments to said plans and specifications shall also be submitted to the commission, and the commission shall approve such amendments prior to operation of the subject system.
- (2) Prior to the start of construction or modification of a central water system, detailed plans and specifications shall be submitted by the responsible person for the system to be constructed or modified and shall be reviewed and, contingent upon any revisions to such plans and specifications as may be required to meet compliance, approved by the commission in accordance and compliance with applicable law which shall include the Ten-State Standards and the state water well rules, regulations, and standards. Whenever an existing central water system is designated for connection to a proposed subdivision development, the detailed plans and specifications shall include the public water supply identification number (PWS ID Number) as established by the office of public health of the state department of health and hospitals.
- (3) Approval by commission.
 - a. As such relates to the provisions of subsection (d)(2) of this section, whenever there is a participatory and coordinated effort between the commission and the district engineer of the office of public health of the state department of health and hospitals, the commission shall affirm any approval granted by the said state entity when the subject plans and specifications for the central water system to be constructed or modified are in accordance and compliance with applicable law.

- b. Upon the expiration of one year from the date on which such approval was granted and the proposed construction or modification is not complete, any approval or affirmation thereof by the commission of the subject plans and specifications shall be void. Accordingly, prior to the conduct of any proposed or subsequent construction or modification, the responsible party shall again comply with the provisions of subsection (b) of this section.
 - c. However, upon written application to, and at the discretion of the commission, a conditional or absolute waiver of the effect of the provisions of this article may be issued.
- (4) Any review and subsequent approval of the plans and specifications for the construction or modification of a central water system is for the use and benefit of the commission and shall not be considered as an affirmation that the construction, modification, or operation of the central water system is or will be in accordance or compliance with applicable law which shall include the Ten-State Standards and the state water well rules, regulations, and standards.
- (5) Every central water system shall be constructed or modified in accordance with the plans and specifications for installation which have been approved in advance by the commission prior to the start of construction or modification.
- (6) Inspections.
 - a. To monitor the construction or modification of any central water system, the commission may authorize any employee or agent of the commission to inspect at a reasonable time and in a reasonable manner any such central water system in order to determine that the construction or modification of such system is conducted in accordance and compliance with the plans and specifications for installation which have been approved in advance by the commission prior to the start of construction or modification. In carrying out this power, the authorized employee or agent of the commission may enter private and public properties.
 - b. Any inspection of a central water system conducted pursuant to a provision of this section is for the use and benefit of the commission and shall not be considered as an affirmation that the construction, modification, or operation of the inspected central water system is or will be in accordance or compliance with applicable law which shall include the Ten-State Standards and the state water well rules, regulations and standards.
- (7) The provision of water shall not occur until the constructed or modified central water system has been inspected by the commission or appropriate state authority and determined to be constructed or modified in accordance with the applicable and appropriate plans and specifications for installation which have been approved in advance by the commission and/or appropriate state authority prior to the start of

construction or modification. Prior to the granting of final approval of a subdivision approval by the parish planning commission, three duplicate originals of the as-built drawing(s) and detail sheet(s) for a subject central water system as prepared by a licensed professional engineer shall be submitted to the commission so that an appropriate distribution of said documents can be made, such recipients to include the director of the parish department of engineering and the chief of the fire district wherein the subdivision development is located. When appropriate and applicable, said documents to be submitted shall reflect or include the PWS ID number, and/or a copy of the water well registration form issued by the state department of transportation and development.

(d) *Fire hydrants.*

- (1) Fire hydrants shall be required in any subdivision development which is required to have a central water system.
- (2) There shall be a fire hydrant at each street intersection with intermediate fire hydrants located not more than 500 feet apart. All fire hydrants shall be located in a right-of-way.
- (3) Fire hydrants shall have at least two outlets; one outlet shall be a pumper outlet and the other outlet shall be 2.5-inch nominal size. All fire hydrants shall conform to the provisions of the American Water Works Association Standards for Hydrants (AWWA C-502 or C-503).
- (4) Classification and paint color.
 - a. Fire hydrants, when tested in accordance with the said AWWA standards, are classified as follows:
 1. *Class A.* Fire hydrants that on individual test usually have a flow capacity of 1,000 gpm or greater.
 2. *Class B.* Fire hydrants that on individual test usually have a flow capacity of 500 to 1,000 gpm.
 3. *Class C.* Fire hydrants that on individual test usually have a flow capacity of less than 500 gpm.
 - b. The barrel of a fire hydrant shall be painted chrome yellow and the top and nozzle caps of a fire hydrant in the class outlined in subsection (b) of this section are to be painted as follows:
 1. Class A: Green.
 2. Class B: Orange.
 3. Class C: Red.

- (5) To facilitate the location of a fire hydrant by emergency personnel, a blue colored, raised reflective marker shall be securely affixed on the roadway in proximity to the fire hydrant.

(Ord. No. 499, § 40-036.01, 5-21-1970)

Sec. 125-87. Development plan for community sewerage systems.

(a) *Community sewerage systems, general provisions.* For the purpose of complying with R.S. 33:4064.6(A), the provision of sewage disposal by use of community sewerage systems is a best management practice which results in the protection of public health and the environment.

(b) *Community sewerage system, when required.* Community sewerage shall be provided in subdivisions comprised of 15 lots or more. This requirement shall apply to all new subdivision developments. The use of individual sewerage systems in lieu of a community sewerage system may be authorized and will be considered under the following circumstances:

- (1) In subdivisions comprised of less than 15 lots with a minimum lot size of two acres or greater and a minimum frontage of 125 feet, when the developer submits a comprehensive drainage plan, as well as a proposal for restrictive covenants which detail requirements for perpetual maintenance of drainage. Whenever the average lot size of a proposed subdivision is greater than five acres, the DES may waive the requirement for a community sewerage system upon the demonstration by the developer that the implementation of such provisions would prove to be a manifestly unreasonable financial hardship.
- (2) For the purposes of this section, the term "community sewerage system" means any sewerage system which consists of a collection and/or transport system which serves multiple connections, and/or a pumping facility, and/or a treatment facility. The term "facility" means any and all the apparatus and appurtenances which may be associated with the subject element of the community sewerage system and may mean more than one facility.

(c) *Qualified community sewerage system, when required.*

- (1) Whenever the department of environmental services of the parish (the "ESC") determines that a subdivision or development which is subject to the provisions of subsection (b) of this section is in proximity to the sewage collection or treatment facility of a qualified community sewerage system, said subdivision or development shall be required to connect thereto.
- (2) For the purposes of this subsection, the term "qualified community sewerage system" means a community sewerage system:
 - a. Which has the actual and/or anticipated capacity which will be required to realize the peak sewage demand of the subject subdivision or development; and

- b. The operation and maintenance of which is likely to be in accordance and compliance with all regulatory requirements; all as determined by the ESC.
- (3) The planning commission, at the time of its consideration of the preliminary plan for the subject subdivision or development, may waive the requirement in subsection (d)(1) of this section upon the showing by the developer that the implementation of the provisions of said subsection would prove to be a manifestly unreasonable financial hardship.
- (d) *Construction or modification of a community sewerage system.*
 - (1) All as set forth in R.S. 33:4064.1 et seq., and as further provided in the rules and regulations of the department of environmental services of the parish (the "ESC"), the ESC shall have authority over all construction necessary or incidental to the provision of sewage disposal in the unincorporated portion of the parish. Plans and specifications for a community sewerage system to be constructed in said portion of the parish shall be submitted to and approved by the ESC prior to initiating such construction, and the conduct of such construction shall be subject to inspection by the ESC. Copies of any amendments to plans and specifications for such systems shall also be submitted to the ESC, and the ESC shall approve such amendments prior to operation of such systems.
 - (2) Prior to the start of construction or modification of a community sewerage system, detailed plans and specifications shall be submitted by the responsible person for the system to be constructed or modified and shall be reviewed and, contingent upon any revisions to such plans and specifications as may be required to meet compliance, approved by the ESC in accordance and compliance with applicable law which shall include the relevant provisions of chapter XIII of the state sanitary code. Whenever an existing community sewerage system is designated for connection to a proposed subdivision or development, the detailed plans and specifications shall include the discharge permit number issued by the state department of environmental quality.
 - (3) Approval.
 - a. As such relates to the provisions of subsection (d)(2) of this section, whenever there is a participatory and coordinated effort between the ESC and the district engineer of the office of public health of the state department of health and hospitals, the ESC shall affirm any approval granted by the said state entity when the subject plans and specifications for the community sewerage system to be constructed or modified are in accordance and compliance with applicable law.
 - b. Upon the expiration of one year from the date on which such approval was granted and the proposed construction or modification is not complete, any approval or affirmation thereof by the ESC of the subject plans and specifications

shall be void. Accordingly, prior to the conduct of any proposed or subsequent construction or modification, the responsible party shall again comply with the provisions of subsection (d) of this section.

- c. However, upon written application to, and at the discretion of the ESC, a conditional or absolute waiver of the effect of the provisions of this subsection may be issued.
- (4) Any review and subsequent approval of the plans and specifications for the construction or modification of a community sewerage system is for the use and benefit of the ESC and shall not be considered as an affirmation that the construction, modification, or operation of the system is or will be in accordance or compliance with applicable law which shall include the relevant provisions of chapter XIII of the state sanitary code.
 - (5) Every community central sewerage system shall be constructed or modified in accordance with the plans and specifications for installation which have been approved in advance by the ESC prior to the start of construction or modification.
 - (6) Inspection.
 - a. To monitor the construction or modification of any community sewerage system, the ESC may authorize any employee or agent of the ESC to inspect at a reasonable time and in a reasonable manner any such system in order to determine that its construction or modification is conducted in accordance and compliance with the plans and specifications for installation which have been approved in advance by the ESC prior to the start of construction or modification. In carrying out this power, said authorized employee or agent may enter private and public properties.
 - b. Any inspection of a community sewerage system pursuant to a provision of this section is for the use and benefit of the ESC and shall not be considered as an affirmation that the construction, modification, or operation of the inspected system is or will be in accordance or compliance with applicable law.
 - (7) The provision of sewage disposal shall not occur until the constructed or modified community sewerage system has been inspected by the ESC or appropriate state authority and determined to be constructed or modified in accordance with the applicable and appropriate plans and specifications for installation which have been approved in advance by the ESC and/or appropriate state authority prior to the start of construction or modification. Prior to the granting of final approval of a subdivision or development plan by the parish planning commission, the as-built drawings and detail sheets for a system as prepared by a licensed professional engineer shall be submitted to the ESC for its review and comment.

(e) *Responsibility and authority of the department of environmental services of the parish.* As such relates to any or all of the provisions of this section and to the extent provided in R.S. 33:4064.1 et seq., the department of environmental services of the parish (the "ESC") is authorized to adopt rules and regulations, the purpose of which shall be to plan, adjust, and relocate community sewerage systems within the unincorporated portion of the parish to conform with this development plan, and to that end, the ESC shall establish in its rules and regulations objective standards, guidelines, and practices which may be necessary to effect the provisions of this section, or may avail itself of the provisions of R.S. 33:4064.5(D), or both. (Ord. No. 499, § 40-036.02, 5-21-1970; Ord. No. 05-1056, 2-3-2005)

Sec. 125-88. Drainage.

(a) *The drainage and flood control provisions to apply.* The drainage and flood control provisions of the parish Code of Ordinances are incorporated herein and shall be applicable to the placement of any fill material and/or construction on any lot or parcel of property, or any part thereof, which property and/or activity is governed by the drainage and flood control provisions. In the event of any conflict between the drainage and flood control provisions and those contained within this section, the more stringent or restrictive provision shall apply.

(b) *Drainage systems.*

- (1) A drainage system shall be provided and designed in accordance with the best modern engineering practices so as to adequately contain and carry off, to the point of ultimate disposal, such runoff as can be expected in the area, taking into consideration the number and type of buildings or structures to be erected in the subdivision and certifying that the runoff will not be increased by the proposed development.
- (2) All culverts positioned within the drainage system shall be constructed of concrete, metal or plastic in accordance with state department of transportation and development (DOTD) Engineering Directives and Standards Manual (EDSM) Nos. 11.2.1.1, 11.2.1.6 and 11.2.1.13, dated July 20, 1992, as amended, and within standards acceptable to the department of public works.
 - a. All culverts may be constructed of durable concrete, however corrugated metal pipe and plastic pipe may be used for residential driveways and subsurface conveyance where there is no traffic load.
 - b. All corrugated metal pipe shall be a minimum of 16 gauge, bituminous coated and installed with concrete headwalls.
 - c. All plastic pipe shall be ribbed or corrugated, double wall and installed with concrete headwalls.
- (3) Permanent bench marks shall be installed by the developers engineer at convenient locations as approved by the parish engineer in each subdivision before final approval is granted. Bench marks can be made with concrete, a spike driven into a permanent

tree, or other suitable material approved by the parish engineer. The location and elevation of each bench mark shall be clearly noted on the plat of the subdivision filed for record with the clerk of court. Whenever practical, the elevation of the bench mark shall accurately be related to mean sea level as established by the U.S. Coast and Geodetic Survey, the U.S. Army Corps of Engineers, or the state department of highways.

- (4) The elevation of the center of the completed streets shall also be noted on the "file" plat at intervals not to exceed 1,500 feet, and said elevations are to be established from the bench mark after completion.

- (5) Final "as-built" paving and drainage plans must indicate the invert elevation of the roadside ditch at each property line

(Ord. No. 499, § 40-037.0, 5-21-1970; Ord. No. 549, Bk. 7, P. 234; Ord. No. 2979, 9-25-1997; Ord. No. 05-1089, 4-7-2005)

Sec. 125-89. Subsurface drainage installation requirements in Parish Council District 13.

(a) The parish requires on-site inspections by a license civil engineer within Parish Council District 13 as it exists in 1996, for subsurface drainage installation.

(b) This inspection shall be made prior to the back fill of soil over the subsurface pipes. The developer shall provide field verification that the approved construction techniques were utilized in accordance with either/or:

- (1) St. Tammany Parish Subdivision Regulations.
- (2) Louisiana Standard Specifications for Roads and Bridges, 1992 edition, section 701: Culverts and Storm Drains.

(c) The field verification shall be submitted to the department of engineering in a format acceptable to the department of engineering. This information is required prior to the issuance of final approval.

(d) The cost of the inspections is the responsibility of the developer.

(Ord. No. 499, § 40-037.01, 5-21-1970; Ord. No. 96-2511, 10-17-1996)

Sec. 125-90. Residential retention/detention ponds; acceptance into parish maintenance system.

(a) The following procedures are hereby established for acceptance of retention/detention ponds, existing as of the date of this article, into the parish maintenance system:

- (1) The petition from owner requesting that the pond be taken into the parish maintenance system. This should include a copy of title and survey.

- (2) The petition will be reviewed by the department of engineering and department of public works to determine what is needed prior to acceptance of the pond. The minimum requirements shall be:
 - a. Minimum 15 feet access to the area around the pond; ten feet must be on a flat surface and not a pond side slope;
 - b. Adequate access to the pond for maintenance equipment;
 - c. Other safety measures as may be required, to be reviewed on a case-by-case basis; and
 - d. The petitioner is responsible to turn over an operational structure.
- (3) The petitioner will be advised of what is needed for acceptance and will be advised that acceptance by the parish is for maintenance purposes and not for aesthetic purposes.
- (4) If the petitioner agrees with the criteria for acceptance, they will be responsible for providing the following documentation to the parish:
 - a. An "act of correction" to the subdivision plat; and
 - b. An "act of dedication" with a legal description of the property to be dedicated to the parish.

(b) The following requirements are hereby established for retention/detention ponds, constructed after the adoption of the ordinance from which this article is derived. Compliance with all standards as set forth below must be verified by the department of engineering prior to acceptance into the parish maintenance system. The detention pond may be designed as a wet or dry pond as per the following criteria:

- (1) *Requirements for a wet pond.*
 - a. Minimum low stage depth must be five feet.
 - b. Side slopes must have a minimum 3H:1V slope.
 - c. Minimum access servitude width from pond to parish road must be 25 feet.
 - d. Clear buffer around the periphery of pond must be 20 feet; ten feet must be on a flat surface and not a pond side slope.
- (2) *Requirements for a dry pond.*
 - a. Exit structure invert elevation must be five-tenths feet lower than the lowest elevation of the pond bottom.
 - b. A narrow low stage ditch may be constructed at the exit structure invert elevation.
 - c. Side slopes must have a minimum 3H:1V slope.
 - d. Minimum access servitude width from pond to parish road must be 25 feet.

- e. Clear buffer around periphery of pond must be 20 feet pond; ten feet must be on a flat surface and not a pond side slope.
- f. The developer must furnish a copy of the title to the land.
- g. An "Act of Dedication" with a legal description of the property to be dedicated to the parish must be furnished.
- h. The petitioner will be advised of what is needed for acceptance and will be advised that acceptance by the parish is for maintenance purposes only and not for aesthetic purposes.
- i. The parish engineer can waive any of these requirements or approve alternative methods whenever justification is presented by a state-licensed civil engineer.

(Ord. No. 499, § 40-037.02, 5-21-1970)

Sec. 125-91. Diameter.

Any driveway culvert installed in Parish Council District No. 1 shall be at least a minimum of 18 inches in diameter.

(Ord. No. 499, § 40-037.03, 5-21-1970; Ord. No. 98-2989, 12-17-1998)

Sec. 125-92. Placement of fill on lots less than 90 feet in width for which no drainage plan exists.

The purpose of this article is to restrict the placement of fill material on lots less than 90 feet width to prevent so that stormwater from being displaced onto adjacent property thereby increasing the potential or actual flood damage to adjacent property. These restrictions are applicable only to the placement or relocation of fill on residential lots less than 90 feet in width which are located in a subdivision for which there is no drainage plan approved by the department of engineering.

(1) *General provisions (all lots).*

- a. Any applications to place fill on lots less than 90 feet in width shall detail the existing, preconstruction, natural and manmade drainage features located on the lot in question.
- b. All applications to place fill on lots less than 90 feet in width must be reviewed for compliance with all other relevant parish regulations.
- c. All fill/excavation activities within jurisdictional wetlands shall receive necessary authorization from the U.S. Army Corps of Engineers and any other applicable local, state or federal agencies before such activities are commenced.
- d. The placement of fill on any lot located within a flood hazard zone shall be permitted only when a development plan for the lot has been submitted and approved.

- e. The drainage and flood control provisions of the parish Code of Ordinances are incorporated herein and shall be applicable to the placement of any fill material and/or construction on any lot or parcel of property, or any part thereof, which property and/or activity is governed by the drainage and flood control provisions. In the event of any conflict between the drainage and flood control provisions and those contained within this section, the more stringent or restrictive provision shall apply.

(2) *Flood Zone V and areas of shallow flooding.*

- a. *Flood Zone V.* The placement of fill on any lot located within Flood Zone V shall be exclusively governed, regulated and controlled by and shall in all ways be consistent with the relevant provisions of the rules and regulations promulgated by the Federal Emergency Management Agency (FEMA) and the National Flood Insurance Program (NFIP).
- b. *Areas of shallow flooding.*
 - 1. Off-site fill shall be limited to the roof-shed area of a lot's proposed primary structure.
 - 2. A concrete slab shall be permitted under the primary structure provided that the finished surface slab or footing does not exceed an average of 12 inches above natural ground grade.
 - 3. Construction shall be accomplished using pier or piling construction according to applicable building codes for finished elevations in excess of 12 inches.
 - 4. Site improvements (structures, driveways, roadways, landscaping, etc.) shall not impede natural drainage pathways or parish drainage easements.
 - 5. There shall be no net change in the average elevation of the natural grade of the lot outside of the roof-shed.
 - 6. The drainage and flood control provisions of the parish Code of Ordinances are incorporated herein and shall be applicable to the placement of any fill material and/or construction on any lot or parcel of property, or any part thereof, which property and/or activity is governed by the drainage and flood control provisions. In the event of any conflict between the drainage and flood control provisions and those contained within this section, the more stringent or restrictive provision shall apply.
- c. *Flood Zones A-, A+, B and C.*
 - 1. Fill shall be limited to the roof-shed area of the proposed primary structure and necessary access to the site.

2. The volume of fill on the site shall not exceed that which is necessary to prepare an adequate building footprint, as verified by the department of engineering.
3. Construction activities that involve the finished floor of a structure exceeding an average of 24 inches above natural ground elevation shall utilize pier or piling construction or retainer type construction as provided for in applicable building codes. Fill for foundations resulting in a finished floor elevation with an average of 24 inches or less above natural ground grade shall taper from the foundation edge at a slope of one vertical foot for every two horizontal feet.
4. Fill for driveways must not exceed an average of 12 inches above natural ground grade except where fill is part of the transition from the foundation for the primary structure, carport or garage. Fill may also be placed adjacent to the driveway to soften the transition between elevations to a slope not steeper than one vertical foot for every four horizontal feet.
5. The placement of fill may not encroach into the required side yard setbacks, except as otherwise permitted in these regulations.
6. Fill for noncontiguous landscaping areas within the front and rear yards resulting in the finished ground elevation up to an average of six inches above natural ground grade for each such area is permitted, provided that an equal volume of fill is removed from the lot.
7. The drainage and flood control provisions of the parish Code of Ordinances are incorporated herein and shall be applicable to the placement of any fill material and/or construction on any lot or parcel of property, or any part thereof, which property and/or activity is governed by the drainage and flood control provisions. In the event of any conflict between the drainage and flood control provisions and those contained within this section, the more stringent or restrictive provision shall apply.

(3) *Administrative variances.*

- a. The director of the department of engineering shall review individual cases for variance from the provisions of this article, upon written request by the property owner. The property owner must provide evidence that circumstances exist which warrant the requested variance.
- b. Upon documentation that such circumstances do exist, as determined by the director of the department of engineering, an administrative variance shall be granted. Upon the granting of said variance a full report must be included in the permanent building permit file. That report shall include a detailed description of

such circumstances, mitigation (if required), a copy of any written correspondence relative to the lot and the variance request, and a detailed description of the variance rationale and final determination.

- c. The decision of the director of the department of engineering may be appealed to the legislative body of the governing authority within 14 calendar days of the written decision of the director of the department of engineering. Appeals must be filed with the department of engineering at seven calendar days prior to the regularly scheduled meeting of the governing authority. The director of the department of engineering will cause the appeal to be placed upon the regular agenda of the governing authority for consideration.

(4) *Processing.*

- a. A permit shall be required for the placement of fill coming from off site for any lot than 90 feet in width. In the case of new construction, this permit shall be in the form of an approval of the "culvert data sheet," the "permit data review sheet" or a general work order presently required for construction activity to occur. The ordinance shall be administered by the department of engineering with the assistance of any other parish personnel that are deemed necessary by the governing authority and/or its regulations.
- b. A detailed description of fill activity, including volume of fill to be brought in from off site, the footprint of the deposition of that fill material, volume and source location of fill being removed from the site, the ultimate disposition of the fill being removed (including flood zone of the deposition site), the direction of flow across the site, and a profile through the improvement footprints showing the natural and finished elevations of the construction site, as well as the proposed sediment retention measures, must accompany the building permit or development proposal and be reviewed by the department of engineering before approval of the culvert data sheet or the permit data tracking sheet or the issuance of a general work order.

- (5) *Enforcement.* Violations will be processed by code enforcement, department of engineering or permit inspections personnel using standard code violation protocol.

(Ord. No. 499, § 40-037.04, 5-21-1970; Ord. No. 99-3081, 6-17-1999; Ord. No. 01-0336, 6-5-2001; Ord. No. 05-1089, 4-7-2005)

Sec. 125-93. Placement of fill on lots more than 90 feet in width applicability.

The purpose of this article is to regulate the placement of fill on lots 90 feet and greater in width, including undivided parcels of land, within the 100-year designated floodplain. These regulations are applicable to the placement or relocation of fill on residential lots 90 feet and

greater in width which are located in a new or existing subdivision for which there is no drainage plan approved by the department of engineering and new subdivision not yet approved, as well as to undivided parcels of land.

(1) *Flood Zone V and areas of shallow flooding.*

- a. *Flood Zone V.* The placement of fill on any lot or undivided parcel of land located within Flood Zone V shall be exclusively governed, regulated and controlled by and shall in all ways be consistent with the relevant provisions of the rules and regulations promulgated by the Federal Emergency Management Agency (FEMA) and the National Flood Insurance Program (NFIP).
- b. *Areas of shallow flooding.*
 1. The placement of fill on any parcel located within an AO/AH Flood Hazard Zone shall be permitted only when a development plan has been submitted and approved by the department of engineering.
 2. Fill shall be limited to the roof-shed area of a parcel's primary structure.
 3. A concrete slab shall be permitted under the primary structure provided that the finished surface slab or footing is no more than 12 inches above natural ground grade.
 4. There shall be no net change in the average elevation of the natural ground.
 5. Construction shall be accomplished using pier or piling construction according to applicable building codes.
 6. Access roadways and other site improvements (buildings, driveways, roadways, landscaping, etc.) shall not impede natural drainage pathways or parish drainage easements.
 7. The drainage and flood control provisions of the parish Code of Ordinances are incorporated herein and shall be applicable to the placement of any fill material and/or construction on any lot or parcel of property, or any part thereof, which property and/or activity is governed by the drainage and flood control provisions. In the event of any conflict between the drainage and flood control provisions and those contained within this section, the more stringent or restrictive provision shall apply.

(2) *Flood Zones A1-A30.*

- a. The placement of fill on any parcel located within any "A" flood hazard zone shall be permitted only when a development plan has been submitted and approved.
- b. Fill shall be limited to the roof-shed area of the proposed structure and required access to the site.
- c. The volume of fill on the site shall not exceed that which is necessary to prepare an adequate building footprint.

- d. Construction activities that involve the finished floor of a structure exceeding an average of 24 inches above natural ground elevation shall utilize pier or piling construction or retainer type construction as provided for in current applicable building codes. Fill for foundations resulting in a finished floor elevation 24 inches or less above natural ground grade shall taper from the foundation edge at a slope of three horizontal feet for every one foot vertical.
 - e. At no time shall fill for any site improvements exceed 12 inches above natural ground grade.
 - f. Fill for driveways must not exceed six inches above natural ground grade except where fill is part of the foundation for the main residence, carport, or garage. Fill may also be placed to soften the transition between elevations to a slope not steeper than one vertical foot for every four horizontal feet.
 - g. Access roadways and other site improvements (buildings, driveways, roadways, parking areas, etc.) shall not impede upon natural drainage pathways or parish drainage easements.
 - h. The drainage and flood control provisions of the parish Code of Ordinances are incorporated herein and shall be applicable to the placement of any fill material and/or construction on any lot or parcel of property, or any part thereof, which property and/or activity is governed by the drainage and flood control provisions. In the event of any conflict between the drainage and flood control provisions and those contained within this section, the more stringent or restrictive provision shall apply.
- (3) *New subdivisions.* Subdivisions approved after enactment of this article, which establish to the satisfaction of the parish engineer that, at the time of preliminary approval, such subdivision development will not result in a reduction in the 100-year floodplain storage capacity, will be approved in total.
- (4) *Exemptions.* Areas enclosed by levees from which the runoff is mechanically pumped shall be exempt from this chapter.
- (5) *Variances.* The parish engineer shall review individual cases for variance from the provisions of this article, upon written request by the applicant. The applicant must provide evidence that circumstances exist which warrant the requested variance.
- (6) *Reference regional detention ordinance.* If the applicant is granted a variance, he shall purchase storage space in regional detention equal to the volume of fill in excess of that which is allowed under this article.
- (7) *Processing.*
- a. A permit shall be required for the placement of fill coming from off site for any lot greater than 90 feet in width. In case of new construction, this permit shall be in the form of an approval of the "culvert data sheet," the "permit data review sheet" or a general work order presently required for construction activity to occur.

- b. A permit shall be required for the placement of fill coming from off site for any lot greater than 90 feet in width. In case of new construction, this permit shall be in the form of an approval of the "culvert data sheet," the "permit data review sheet" or a general work order presently required for construction activity to occur.
 - c. A detail of fill activity, prepared by a licensed civil engineer or licensed land surveyor, including volume of fill to be brought in from off site, the footprint of the deposition of that fill, volume and source location of fill being removed from the site, the ultimate deposition of the fill being removed (including flood zone of the deposition site), the direction of flow across the site, and a profile through the improvement footprints showing the natural and finished elevations of the construction site, as well as the proposed sediment retention measures, must accompany the building permit or development proposal and be reviewed by the department of engineering before approval of the culvert data sheet or the permit data tracking sheet or the issuance of general work order.
 - d. Three submittals are required during the permit process.
 1. The initial plan must be submitted in accordance with the requirements of this chapter. The applicant shall submit a survey plot plan that depicts the minimum elevations necessary to determine the average elevation of the construction area; for example the lot corners and maybe an intermediate elevation in between corners could be used. The survey must state the flood zone.
 2. The applicant must submit the elevation of the slab form board or lowest habitable floor. This elevation must be submitted on the original detail of fill activity plan. This information must be submitted prior to the pre-pour slab inspection.
 3. Prior to the granting of the certificate of occupancy the permit applicant must furnish a plot plan, certified by a licensed surveyor or licensed civil engineer, clearing verifying that the property has been constructed upon in accordance with this chapter.
- (8) *Enforcement violations.* Enforcement violations will be processed by the code enforcement, department of engineering or permit inspections personnel using standard code violation protocol.
- (Ord. No. 499, § 40-037.05, 5-21-1970; Ord. No. 01-0336, 6-5-2001; Ord. No. 05-1089, 4-7-2005)

Sec. 125-94. Miscellaneous.

The planning commission shall review whether subdivision plans meet the minimum requirements, and shall consider whether the plans ensure and conform to the best interests of public

health, safety and welfare. The planning commission shall reserve the right to stipulate any reasonable additional requirements for subdivisions. These considerations may include, but are not limited to, the following:

- (1) Recreational areas.
 - (2) General street design and construction specifications.
 - (3) Buffer zones and screening.
 - (4) Lot designs and configurations.
- (Ord. No. 499, § 40-038.0, 5-21-1970; Ord. No. 91-1528, 11- 21-1991)

Sec. 125-95. Greenspace requirements.

(a) The developer of each subdivision with more than 25 lots shall set aside land within their development for the use of the residents for recreational purposes. Said land shall be exclusive of green belts, reserved easements or servitude and golf courses.

(b) Subdivisions with more than 25 lots shall provide greenspace area at a ratio of not less than 580 square feet per residential lot.

(c) In cases where a subdivision is to be developed in phases, the greenspace area shall be dedicated and included within the first phase.

(d) The developer shall establish within a legal instrument the dedication and maintenance of said greenspace area in favor of a homeowners association or property owners, once the developers interests within the subdivision is reduced to less than 50 percent of lot ownership.

- (1) Said instrument shall include the developers responsibility of maintaining the greenspace areas prior to the establishment and assumption by the homeowners association or property owners.
- (2) The instrument shall be referenced to within each property title.
- (3) The developer shall submit a copy of the legal instrument to the department of planning and development upon recordation.

(e) With the consent of the planning commission, the developer of a subdivision may, in lieu of dedicating land for greenspace, agree to pay to the parish a sum of money equal to 40 percent of the post-development value of the land that would otherwise have to be dedicated for greenspace.

- (1) The post development value of the land shall be based on the median sales price of all of the lots within the subdivision development. Once the median value has been determined, said value shall be converted into a value per square foot and applied to the acreage that would have been dedicated for greenspace.

- (2) The median value shall be determined by either the appraiser of the development whom must be state certified, and in which case a copy of the appraisal must be submitted to the planning commission for review, or some other clear evidence of value. In either case, the state certified appraiser or the other clear evidence of value, must validate the median value by remitting an affidavit. Said affidavit must include the methodology used to determine the median value and a statement of truth.
 - (3) Any funds collected shall be deposited into an escrow account earmarked for recreation to benefit the areas impacted by the development.
 - (4) If a recreational district does not exist in the areas of the subdivision development, the parish council may earmark such escrowed funds for parish wide recreational use or enact legislation to establish a new recreation district for the areas impacted by the development.
 - (5) Provisions may be adopted establishing standards for the application and use of the funds in accordance with accepted practices.
 - (6) The developer shall pay the full amount of money owed to the parish prior to the recordation of the final subdivision plat. Said funds shall be remitted to the department of finance with disclosure regarding the use of the funds, as well as any other provisions agreed to or established by the parish council and/or planning commission.
- (Ord. No. 499, § 40-039.0, 5-21-1970)

Sec. 125-96. Hearing required; notice.

- (a) The developer of a proposed subdivision must request a zone which comprises a zoning district classification prescribed by the Unified Development Code, that conforms as nearly as possible with the proposed land use, lot size, restrictive covenants, phase, or addition thereto.
- (b) An initial zoning request for a proposed subdivision development must be reviewed at a public hearing before the parish zoning commission prior to said development having a tentative subdivision review hearing before the parish planning commission.
- (c) The developer must submit his rezoning petition, if applicable, to the department of planning and development, and said petition shall be advertised and placed on the zoning commission docket for review and consideration.
- (d) The department of planning and development and/or the department of engineering shall be responsible for advertising the proposed tentative, preliminary and/or final subdivision application request for public hearing no less than twice during a ten-day period prior to the hearing in the official parish journal and/or paper or local circulation in the vicinity of said subdivision indicating the date, time and place of the hearing. No application for tentative, preliminary and/or final review can be acted upon or administered to without the benefit of a hearing thereon.

(e) In addition, it shall be the obligation of the department of planning and development and/or the department of engineering to ensure that proper public notice, by way of signs, be posted on or in the vicinity of the subdivision at least ten days prior to the public hearing. Said signs shall indicate the date, time and place thereon that same shall be reviewed.
(Ord. No. 499, § 40-040.0, 5-21-1970; Ord. No. 96-2510, 10-17-1996)

Secs. 125-97—125-120. Reserved.

ARTICLE V. DEVELOPMENTAL AGREEMENTS

Sec. 125-121. Legislative authority to initiate agreements.

The state legislature articulated Act 505 of 1988, pursuant to subpart G, part I, ch. 14, title 33, of the Louisiana Revised Statutes of 1950, for which act created the ability and authorization for local governing authorities to enter into voluntary developmental agreements with developers of land; and to provide for within said developmental agreements, the contents, periodic review, enforcement and applicability of such agreements, amendment, cancellation, modification or suspension; and to provide for any related matters pursuant to the procurement of said agreement.
(Ord. No. 499, § 40-041.01, 5-21-1970)

Sec. 125-122. Purpose.

The purpose of this article is to encourage the voluntary participation of an individual, firm or corporation, within the planning process, by entering into a developmental agreement, when said individual, firm or corporation develops land within the parish. Furthermore, said agreement shall set forth the responsibilities of the developer for providing additional governmental services for said project or development, that would not otherwise be provided for by the local governing authority due to capital and/or fiscal constraints.
(Ord. No. 499, § 40-041.02, 5-21-1970)

Sec. 125-123. Applicability.

If an individual, firm or corporation wishes to participate in the parish's voluntary developmental agreement process, an application must be filed with the tentative subdivision submission documentation. If said individual, firm or corporation elects not to participate in the developmental agreement process at the tentative subdivision review stage, that shall not preclude their rights or ability to participate at a later time during the subdivision process.
(Ord. No. 499, § 40-041.03, 5-21-1970; Ord. No. 05-1082, 4-7-2005)

Sec. 125-124. The developmental agreement.

(a) A developmental agreement for the purposes of this article, shall be defined as a binding contractual agreement between an individual, firm or corporation and the governing authority of the parish.

(b) The agreement shall be reviewed by and through the parish planning commission at the time of the tentative subdivision review, wherein said commission and participating parties shall establish the guidelines, criteria and parameters of the agreement to be entered into.

(c) Upon completion of the developmental agreement process, wherein the developer voluntarily agrees to enter into a binding contractual agreement with the governing authority of the parish; the parish planning commission shall forward the final agreement for endorsement by said authority, only after the prescribed legal requirements for public notice have been satisfied as set forth in section 125-96.

(Ord. No. 499, § 40-041.04, 5-21-1970)

Sec. 125-125. Contents of the agreement.

(a) A developmental agreement shall specify the duration of the agreement, the permitted uses of the property, the density and intensity of use, and any other provisions deemed appropriate by both the developer and the parish. The agreement may include conditions, terms, restrictions and requirements for subsequent discretionary actions, provided that said actions shall not prevent the development of the land for the uses and to the density or intensity of development as set forth within the agreement.

(b) The agreement may provide for the starting and completion dates of construction for the entire development or portions thereof.

(c) Examples of what might be included within a developmental agreement include, but are not limited to: impact studies, traffic control improvements (on- and off-site), improved street and drainage design and construction (on- and off-site); and the dedication of land, monies, materials and equipment.

(d) Developmental impact fees may be a part of the developmental agreement if voluntarily offered by the developer. Said fees would be negotiated during the developmental agreement review process and would be levied on a per lot basis.

- (1) The fees shall be placed into specifically mandated escrow accounts for use to make improvements to the street and drainage infrastructure in and around the development for which the fees have been collected.
- (2) Collection of the developmental impact fees may be procured in the following ways:
 - a. Directly from the developer;
 - b. At the act of sale;

c. At the building permit stage.
(Ord. No. 499, § 40-041.05, 5-21-1970)

Sec. 125-126. Application and procurement.

(a) The department of planning and development shall furnish the developer of a new subdivision with the necessary documentation for voluntary submission of an application to enter into a developmental agreement. The finalized version of an application must be completed by the applicant and returned to the department of planning and development at least ten working days prior to the scheduled tentative subdivision review hearing date before the planning commission.

(b) If the applicant agrees to voluntarily enter into a developmental agreement with the parish, the applicant shall be required to remit an application fee of \$75.00 in order to cover advertisement costs.

(c) Once an application has been filled out and returned by the applicant, the director or his designer shall request an informal application pre-agreement conference to discuss the relevant points for the agreement in relationship to the applicants project or development. After informal negotiations have taken place, the director or his designer shall forward said application and recommendations to the planning commission for review and consideration.

(d) Subsequent to the planning commission review, the commission shall forward its recommendations to the parish council for their review and final dispensation.
(Ord. No. 499, § 40-041.06, 5-21-1970)

Sec. 125-127. Rules, regulations and official policies.

Unless otherwise provided by the developmental agreement, the rules, regulations and official policies governing permitted uses of the land, governing density and governing design, improvement, and construction standards and specifications applicable to development of the property subject to a developmental agreement, shall be those rules, regulations and official policies in force at the time of execution of the agreement. A developmental agreement shall not prevent the parish, in subsequent actions applicable to the property, from applying new rules, regulations and policies which do not conflict with those rules, regulations and policies applicable to the property as set forth herein, nor shall a development agreement prevent the parish from denying or conditionally approving any subsequent development project application on the basis of such existing or new rules, regulations and policies.
(Ord. No. 499, § 40-041.07, 5-21-1970)

Sec. 125-128. Public advertisement.

A public hearing on an application for a developmental agreement and notice of intention to consider the adoption of a developmental agreement, shall be published three times in the

official parish journal at least ten days prior to the actual planning commission hearing date. This advertising requirement shall also be applicable with respects to a hearing before the parish council.

(Ord. No. 499, § 40-041.08, 5-21-1970)

Sec. 125-129. Approval by ordinance and recordation.

A developmental agreement shall be approved by ordinance by the parish council and shall be recorded within the parish clerk of courts office no longer than ten days after the parish enters into a developmental agreement with a developer and signatures of all parties apart thereto have been obtained. Said document shall be filed within the mortgage records of said office, which shall describe the land subject thereto. From and after the time of such recordation, the agreement shall impart such notice thereof to all persons as is afforded by the recording laws of the state. The burdens of the agreement shall be binding upon, and the benefits of the agreement shall ensure, to all successors in interest to the parties to the agreement.

(Ord. No. 499, § 40-041.09, 5-21-1970)

Sec. 125-130. Noncompliance.

Any parties that enter into a developmental agreement with parish that fail to comply with the spirit, intent and binding nature of said agreement, shall cause the governing authority to rescind, suspend and or stay any further activities upon the parties property. Furthermore, the governing authority may seek judicial relief in order to force compliance of the agreement and claim any punitive damages as a result from a breach of contract through the 22nd Judicial District Court.

(Ord. No. 499, § 40-041.10, 5-21-1970; Ord. No. 92-1655, 9-17-1992)

Secs. 125-131—125-158. Reserved.

ARTICLE VI. TRAFFIC IMPACT ANALYSIS

Sec. 125-159. Purpose and intent.

The purpose and intent of this section are to protect the health, safety and welfare of the citizens and visitors of the parish by ensuring the provision of safe and adequate roadway facilities. The provisions of this section establish requirements for transportation studies that provide information on traffic projected to be generated by proposed developments. It is the further intent of this section to establish requirements for the identification of any potential traffic operational problems or concerns, as well as potential solutions to such problems or concerns.

(Ord. No. 499, § 40-042.10, 5-21-1970)

Sec. 125-160. When required.

A transportation impact analysis (TIA) study shall be required for all subdivisions or developments when the following project threshold levels are met or exceeded. In the event that alternative threshold levels are specified (i.e., units vs. square footage) the more restrictive shall prevail.

<i>Subdivision/Development Type</i>	<i>Threshold</i>
Single-family residential	50 units
Multifamily residential	5 acres or 50 units
Office	3 acres or 50,000 square feet
Commercial/institutional	2 acres or 75,000 square feet
Industrial	8 acres or 100,000 square feet
Restaurants or beverage outlets with drive-thru service	None

(Ord. No. 499, § 40-042.20, 5-21-1970)

Sec. 125-161. Procedures.

(a) If a TIA is required for a project pursuant to the provisions of this section, the developer shall hire a qualified TIA analyst from a list published by the parish department of development in accordance with section 125-162.

(b) The TIA shall be submitted with the tentative plat or conditional use application. In the event that a TIA is required and no subdivision or conditional use application is required, the TIA shall be submitted prior to, or at the time of the filing for a building permit. In no case shall a building permit be issued for a development that is required by these regulations to provide a TIA until said TIA has been submitted and approval.

(Ord. No. 499, § 40-042.30, 5-21-1970)

Sec. 125-162. TIA analysis.

(a) Following a request for qualifications, the director of development and the parish engineer shall review all submissions and publish a list of qualified TIA analysts. This list shall include all individuals qualified to perform the traffic impact analysis required in these regulations. In order to be considered for qualification as a TIA analyst, an individual must be a registered professional engineer or an AICP certified planner.

(b) Subsequent to the publication of this list, all individuals desiring to be qualified as a TIA analyst for the purposes of this article must submit a list of qualifications to the director of development and the parish engineer for review. If that individual is deemed qualified to perform TIAs in accordance with this section, their name shall be added to the list of qualified TIA analysts to be maintained by the department of planning and development and permits.

(c) A qualified TIA analyst may be disqualified by the director of planning and development and permits and the parish engineer from preparing TIAs for the purposes of these regulations for cause. Cause for disqualification includes, but is not limited to, the intentional submission of false or misleading information; unethical or illegal activities intended to influence the evaluation of a TIA; or consistent failure to provide information required for the submission of a TIA in accordance with this section.

(Ord. No. 499, § 40-042.40, 5-21-1970)

Sec. 125-163. The TIA report.

The TIA report shall be prepared documenting the study, the data used, the findings and the recommendations of the study. The TIA shall be prepared and signed by the TIA analyst responsible for the supervision of the study and preparation of the TIA. The TIA shall be reviewed by both the parish engineer and the planning commission. If the planning commission determines that the TIA is inadequate or not in accordance with this section, the applicant may be required to supplement the TIA to address any deficiencies.

(Ord. No. 499, § 40-042.50, 5-21-1970)

Sec. 125-164. TIA contents and format.

The contents of a TIA, as well as the TIA study area radius shall vary depending on the site and prevailing conditions. The analyst shall submit a proposed scope of work to the department of engineering and the department of development. Content requirements shall be established by the department of engineering and the department of development after reviewing said scope of work. The analyst may not proceed with the TIA until these said approvals are given. Such requirements shall address site, project and corridor level traffic and transportation issues. The TIA study shall be prepared in the following format:

- (1) Description of TIA study area, specifying boundaries of study area and count and analysis sites;
- (2) Existing conditions;
- (3) Trip generation estimates and design hour traffic volumes;
- (4) Trip distribution and traffic assignments;
- (5) Existing and projected traffic volumes within the TIA study area;
- (6) Capacity analysis;
- (7) Traffic accidents;
- (8) Traffic improvements;

- (9) Conclusions; and
 - (10) Summary and findings and recommendations.
- (Ord. No. 499, § 40-042.60, 5-21-1970)

Sec. 125-165. Trip generation rates.

For the purpose of determining whether the requirements of this section are applicable to the proposed project and for the purpose of preparing required transportation impact analyses, applicants shall use the trip rates contained in the most recent edition of the Institute of Transportation Engineers' (ITE) Trip Generation Manual. Other trip generation rates may be used if a traffic engineer demonstrates that the unique characteristics of a development shall result in different trip generation rates and if such different rates are approved by the parish engineer.

(Ord. No. 499, § 40-042.70, 5-21-1970)

Sec. 125-166. Actions based on TIA.

A proposed development which is subject to the TIA requirements of this section shall be disapproved when the results of the required TIA demonstrate that the proposed project shall overburden the roadway system or cause a reduction in service of affected roadways below the adopted level of service of "D." An applicant may modify the development proposal to minimize the identified traffic related impacts. Modifications to applications for projects may include, but shall not be limited to:

- (1) A reduction in the projected vehicle trips per day;
- (2) Dedication of additional right-of-way;
- (3) Rerouting of traffic and proposed access points serving the proposed project; or
- (4) Participation in funding transportation facilities, including signals and intersection improvements.

(Ord. No. 499, § 40-042.80, 5-21-1970; Ord. No. 02-0469, 4-2-2004)

Sec. 125-167. Minor subdivision review.

(a) *Approval.* Minor subdivision approval may be granted as an administrative approval when the following criteria are met:

- (1) The subdivision will result in the creation of five or less lots, one of which must have direct frontage on a public road.
- (2) The subdivision will not result in any new public streets.

- (3) All lots created shall meet the minimum lot size and dimension standards for the zoning district in which they are located pursuant to Land Use Ordinance No. 523, or a minimum of one acre in size, whichever constitutes the greater area. The calculation for the area of a lot shall be exclusive of any public street right-of-way or private drive.
- (4) The proposal is in compliance with section 125-85, sanitary provisions.
- (5) The proposal is in compliance with section 125-88, drainage.
- (6) Any private drive that services more than one lot or parcel for the purposes of this article must be constructed to the minimum construction standards as set forth within section 125-168, minimum construction standards for a private drive.

(b) *Submission requirements.* The following information must be presented to the department of parish development for a minor subdivision review to be considered:

- (1) Submit a signed letter from the owner or owners of property involved within the resubdivision request, stating their reasons for the proposal.
- (2) Submit ten blue or black line prints of a bona fide survey on either (eight-inch by 11-inch), (8½-inch by 14-inch) or (11-inch by 17-inch) paper, indicating the following:
 - a. The proposed resubdivision of the lots indicating: the total square footage of all of the property involved within the resubdivision request, individual square footage of each new lot created, and the section, township and range.
 - b. Surveyors live stamp or seal on all of the survey plats.
 - c. The accurate location of all buildings and/or structures on the lots.
 - d. Information on the survey indicating the name of the subdivision, phase, lot number, section, township and range, and any other data pertinent and germane to the resubdivision request.
 - e. Spaces for the signatures of the secretary of the planning commission, parish engineer, clerk of court and spaces for the date and map file number.
 - f. A copy of the subdivision restrictions or covenants of the subdivision, if any, including a maintenance agreement if a private drive is to be constructed.
 - g. The fees for a minor subdivision request are based on \$90.00 per acre (pro-rata after the first acre) up to a maximum of \$800.00. The fees are based on the total land area (all properties where lot lines will be adjusted) to be subdivided. An additional and separate fee shall be required for the recordation of the survey plat as per the fee schedule of the clerk of court.

(c) *Procedure.*

- (1) Notwithstanding the provisions of section 125-25, zoning compliance, minor subdivisions may be reviewed and approved within the R Rural or SA Suburban Agricultural zoning districts.

- (2) The director of development shall review and approve the minor resubdivision application for administrative compliance within 14 days after submission.
 - (3) Upon granting approval of the application, the applicant must then coordinate with the department of engineering by providing plans for the construction of the private drive and drainage improvements.
 - (4) Once all construction has been completed and approved by the department of engineering, the minor subdivision plat will be recorded within seven days after the approval and copies of the recorded plats shall be forwarded to the applicants engineer or surveyor, unless instructed by the petitioner/owner in written form to do otherwise.
 - (5) The director may not grant waivers for any applicable regulations; therefore, if a request is denied by the director of development, or a waiver of an applicable regulation is requested, the applicant may appeal said request to the planning commission in accordance with section 125-225, waiver of regulations.
 - (6) Exemption. A resubdivision of property shall be exempt from the minor subdivision review process if an original tract of land is being re-subdivided into only two parcels, with one parcel having direct access to a public road or street and the other a private drive.
- (Ord. No. 499, § 40-045.0, 5-21-1970)

Sec. 125-168. Minimum construction standards for a private drive.

(a) With the exception of a private drive accessing one lot or parcel, the following minimum construction standards shall apply:

- (1) An owner who creates a private drive to access more than one lot or parcel, but no more than five, shall dedicate through title, deed and/or covenant, a perpetual servitude of access with a minimum width of 35 feet.
- (2) The actual driving surface shall be a minimum of 20 feet in width with two foot shoulders on each side of the drive and 5½ feet on each side of the shoulder devoted to ditching/drainage and/or utilities.
- (3) The drive shall be constructed with suitable compacted sub-base materials and overlaid with an aggregate material (i.e., shell, gravel, limestone, three-course treatment, asphalt, concrete, etc.) that is acceptable to the department of engineering.
- (4) A ditch or ditches shall be constructed on either one or both sides of a drive in accordance to standard practices adopted by the department of engineering in order to provide adequate drainage.

(b) Plans for the construction of the private drive and drainage must be submitted to the department of engineering for review and approval prior to the initiation of work.

(c) After the private drive has been constructed and drainage improvements made, the responsible owner shall contact the department of engineering for a final inspection of the work performed.

(d) Once the private drive has been constructed and all drainage improvements completed and approved by the department of engineering, then, and only then can the minor subdivision be recorded for public record in the clerk of courts office and the lots sold or donated.

(e) The owner selling or donating lots or parcels to others shall be solely responsible for establishing a maintenance agreement specifying the entity or entities whom shall provide maintenance and upkeep for the private drive. Copies of the agreement must be provided to the departments of engineering and development for their files.

(f) A private drive cannot, under any circumstances, be dedicated as a public right-of-way, unless said drive is upgraded to meet the definition and standards of a "private street" or "public street" pursuant to this article.

(g) Only one main private drive shall be permitted per each minor subdivision.
(Ord. No. 499, § 40-045.01, 5-21-1970; Ord. No. 05-1065, 3-3-2005)

Secs. 125-169—125-189. Reserved.

ARTICLE VII. STUDIES, PLANS, AND REVIEW PROCEDURES

Sec. 125-190. Tentative subdivision review.

(a) As a part of the tentative application submission, the developer shall submit to the department of development, 20 copies of the proposed tentative subdivision plan. If the subdivision is to be developed in phases, two copies of the overall master plan must be furnished showing the relationship of the phase to be developed with the entire property to be developed. It is recommended that the tentative plan be drafted by a qualified engineer, land surveyor or architect. However it is not mandatory, therefore; if the developer chooses to defer from said recommendation, then said plan must be drawn neatly to scale at a minimum size of 24 inches by 36 inches. Additionally, said plans must be folded in a rectangular or square shaped fashion with the parish signature lines shown on the front face.

(b) The following items are required to be delineated and/or demonstrated on the tentative subdivision plat prior to review by the parish planning commission:

- (1) The name of the subdivision (centered at the top of plat and highlighted) and location. Display the section, township and range locations below title.
- (2) Vicinity map displaying the names of major streets and collector roads in the area of the development (upper left-hand corner of plat).

- (3) Parish-enforced subdivision restrictions/covenants as per section 125-215 (upper right-hand corner of plat).
- (4) Typical cross-street section details for streets, cul-de-sac and entrances (middle to lower left side quadrant of plat).
- (5) Information block indicating zoning, total acreage, number of lots, total length of streets, sewer and water facilities proposed, average lot size and maximum block length (middle to lower right side quadrant of plat).
- (6) Developmental agreement application form signed by the developer/owner.
- (7) Environmental assessment data form signed and dated.
- (8) Wetland demarcation lines, as determined by the Army Corp of Engineers.
- (9) Flood Zone A demarcation lines (indicate FIRM map and panel number).
- (10) Legal description prepared on 8½-inch by 11-inch paper.
- (11) North direction arrow.
- (12) Scale of drawings.
- (13) Phases within the development, proposed and future.
- (14) Total number of blocks and lots and their dimensions.
- (15) Location of proposed or existing easements and/or servitudes.
- (16) Proposed front yard and corner side yard setbacks (delineate with dashed lines).
- (17) Existing streets leading to the development.
- (18) Documents indicating the ultimate disposal of surface drainage (USGS quadrangle map).
- (19) Proposed street or road names.
- (20) Adjoining land uses.
- (21) Need for limited access streets and lots (delineate with dashed lines).
- (22) Existing structures (delineate on plat).
- (23) Coordination of land use and collector streets for development.
- (24) Proposed park, playground or greenspace areas.
- (25) Location of any landfill or dump site on the property.

There may be additional requirements to meet that are not specifically listed above, but that can be found on the tentative approval check sheet. Said check sheet must be completed by the developer or his engineer/surveyor and submitted with the tentative subdivision review application.

(c) The director of planning and development, or his designee, will review the tentative plan and indicate to the developer whether or not the tentative plan meets the minimum requirements of this Code. Recommended revisions required to meet the provisions of this Code will be marked in red on the tentative plan by the director, or his designee, and a copy will be returned to the developer for corrections. If the developer accepts the recommended revisions, he shall submit a revised tentative plan to the planning commission. The developer shall also provide a copy of the tentative plan, and revised tentative plan, if any, to the department of environmental services for its review and comment.

(d) The planning commission must approve the tentative subdivision plan before the developer can submit plans for preliminary review.

(e) Exemption. Tentative and preliminary subdivision review may be submitted simultaneously, if the proposed subdivision does not have more than 25 lots and is not required to provide, nor is providing, a community type central sewerage and water system.

- (1) Tentative subdivisions that have been granted approval by the planning commission shall remain in effect for a period of not more than two years from the date of the approval.
- (2) If no portion or phase of an original subdivision granted tentative approval is granted preliminary approval within a two-year period, the developer shall be required to resubmit for tentative subdivision review and pay all applicable subdivision and publication fees.
- (3) Preliminary approval of a subdivision phase initiates a new two-year time period in which the next portion or phase of the subdivision must receive preliminary approval, or otherwise the developer shall be required to resubmit for tentative subdivision review and pay all applicable subdivision and publication fees.
- (4) All tentative subdivisions that were approved prior to the passage of this section shall be granted a two-year time period from the date of adoption of this section in which to secure preliminary subdivision approval of a portion or phase.

(Ord. No. 499, § 40-050.0, 5-21-1970; Ord. No. 88-897, 1-21-1988; Ord. No. 00-0160, 6-1-2000; Ord. No. 01-0365, 9-6-2001)

Sec. 125-191. Sewerage and water plans and specifications.

(a) The developer shall submit three sets of plans and specifications for the proposed subdivision's sewerage and water systems to the parish department of environmental services prior to receiving a preliminary subdivision hearing. Said plans and specifications shall include the type and source of sewerage disposal and treatment, and water distribution proposed. The parish department of environmental services shall advise the planning commission whether the proposed systems are approved, or not.

(b) If the advice is that either or both systems is not approved, then preliminary subdivision approval shall not be granted by the planning commission. Approval of the plans and specifications of either or both the sewerage and water systems is for the use and benefit of the parish department of environmental services and shall not be considered as a warranty that the plans and specifications submitted are complete and accurate, or that construction in accordance therewith shall result in the desired result being achieved.

(Ord. No. 499, § 40-050.01, 5-21-1970; Ord. No. 01-0334, 6-7-2001)

Sec. 125-192. Authority to procure and rights of appeal.

The planning commission shall have the authority to grant or deny tentative subdivisions and any other matters brought before it where their purview and jurisdiction prevails; however, any person claiming to be aggrieved by the decision of the commission may appeal such decision in written form to the parish council no later than ten days after the planning commission's meeting date. A two-thirds majority vote of the parish council is required to override the decision of the planning commission.

(Ord. No. 499, § 40-050.02, 5-21-1970)

Sec. 125-193. Procedure; legal effect of subdivision plat approval.

(a) The planning commission shall approve or disapprove a subdivision plat within 60 days after the submission thereof to it, or by the third consecutive meeting of the commission whereby the subdivision plat has been scheduled on the docket; otherwise, said plat shall be deemed to have been approved, and a certificate to that effect shall be issued by the commission upon request.

(b) The 60-day time period shall commence after the subdivision plat has been reviewed by the commission and a formal vote taken.

(c) An applicant may request the planning commission to table their subdivision plat review, upon written notice, no later than 48 hours before the meeting date. In that event, or if the commission grants the applicant a tabling action at the meeting, the time constraints for the commission to approve or disapprove the subdivision plat shall start over and follow the same procedures as set forth in subsection (a) of this section.

(Ord. No. 499, § 40-050.03, 5-21-1970)

Sec. 125-194. Essential utilities disclosure requirement.

A developer shall be required to submit a notarized letter with tentative subdivision application stating that all major utility companies, mainly those providing sewer, water, telephone and electric service to the new subdivision development, have been contacted regarding the need for the establishment of any utility easements, servitudes or rights. Said letter must include the names of those utility companies contacted.

(Ord. No. 499, § 40-050.04, 5-21-1970; Ord. No. 03-0608, 2-6-2003)

Sec. 125-195. Preliminary subdivision review.

(a) As part of the preliminary application submission, the developer shall submit to the department of development, only after streets and blocks have been surveyed on the ground, and before the construction of any streets and drainage structures or channels; 15 copies of the preliminary subdivision plan for approval by the planning commission. Said plans shall be 24 inches by 36 inches and folded in a rectangular or square shape with the parish signature lines shown on the face. The preliminary plan is the detailed plan of the subdivision by which the construction of sewerage and/or water systems, streets, drainage structures and channels will be executed by the developer. It is necessary for the subdivision to be surveyed on the ground to ensure that the plan is feasible and practical, and can be followed on the ground by the inspector to determine its adequacy.

(b) The following information shall be provided as a prerequisite for preliminary approval:

- (1) Total number of lots.
- (2) Total length of streets to be constructed.
- (3) Vicinity map.
- (4) Subdivision boundary and legal description.
- (5) Section corner one-quarter corner tie.
- (6) Engineering certification.
- (7) Signature lines for the chairperson of the planning commission, secretary of the planning commission, parish engineer, clerk of court and map file number on plat.
- (8) Name of president, treasurer, and secretary of corporation, if any, on plat.
- (9) Culvert size for each lot.
- (10) House or municipal number on each lot.
- (11) Board of health approval letter.
- (12) Subdivision restrictions or covenants.
- (13) Appropriate zoning action taken, if applicable.
- (14) Cross-section of road base.
- (15) Existing street conditions.
- (16) Designated flood areas (show on plat with demarcation lines or shading).
- (17) Right-of-way grants.
- (18) Coastal zone approval, if applicable.
- (19) Total acres in development.
- (20) Profile drawings showing all centerline street grades and ditch bottom grades.

- (21) Profile of ditch/canal bottoms that are not in street rights-of-way.
 - (22) Location of permanent markers by surveyor or engineer.
 - (23) Total acres in easements to be dedicated to the parish.
 - (24) Existing and proposed easements.
 - (25) Building setback lines.
 - (26) Interstate land sales compliance (letter from state).
 - (27) Soil analysis report.
 - (28) Street lighting plan, if applicable.
 - (29) Three sets of detailed plans and specifications for central sewerage and/or water systems (should include a total number of linear feet of sewer and water piping and other apparatus).
 - (30) True scale of the plat.
 - (31) North direction arrow.
 - (32) Name of subdivision centered and bolded on plat with underlying section, township and range.
 - (33) Street names on plat.
- (Ord. No. 499, § 40-060.0, 5-21-1970; Ord. No. 00-0160, 6-1-2000; Ord. No. 03-0735, 8-7-2003)

Sec. 125-196. Additional requirements to preliminary.

(a) In addition to the preliminary subdivision plats and sewer and water plans; 18 separate paving and drainage plats shall be submitted providing the following information:

- (1) Topography of the area to be developed with the contour lines at one-foot vertical intervals.
- (2) Vicinity map.
- (3) Proposed street cross-sections and surfacing.
- (4) Areas subject to inundation at flood stage.
- (5) Ultimate surface water disposal (shown on quadrangle map).
- (6) Datum used for elevation control.
- (7) Direction of flow of surface water in street ditches and canals.
- (8) Location, size and type of drainage structures including minimum driveway structures.
- (9) Sections and profiles of canals to be constructed.
- (10) Proposed drainage easements for parish maintenance.

- (11) Rerouting of existing canals or natural drains proposed.
- (12) Rights-of-way required.
- (13) Recommended floor elevation of residences to ensure safety in flood conditions.
- (14) Certificates by a registered professional engineer.
- (15) Subdivision restrictions or covenants.
- (16) Width and cross-section of a typical proposed street.
- (17) Type of surfacing materials to be applied.
- (18) Engineering specifications for the construction of proposed streets, if different from the parish minimum street specifications.

(b) Design and construction of all drainage shall be in accordance with specifications and standards of the state department of transportation and development (DOTD). The design engineer shall certify that all drainage plans shall include open ditch and subsurface designs. Driveway culverts shall be designed in accordance with the subsurface design. Design information shall be submitted to the department of public works. In addition to meeting current DOTD specifications and standards, the following requirements for drainage design and construction shall be met:

- (1) All roadside open ditch design and construction shall reflect a 3:1 side slope (three feet horizontal to each one foot vertical).
- (2) All subsurface drainage installation within Parish Council District 13 shall be required to meet the standards as set forth in section 125-89.

(c) After the plans have been reviewed by the department of public works, the developer will be notified if there are any corrections needed on the plans prior to the preliminary subdivision hearing before the planning commission. If corrections are required, the developer shall submit 18 revised drawings prior to said hearing. Upon preliminary approval, a work order/permit shall be issued by the parish engineer whom shall authorize the developer to begin construction. No work toward the construction of the street, drainage and lot infrastructure can begin until said work order/permit has been issued.

(d) Prior to preliminary plat approval, the proposal must have followed the legally described rezoning requirements under section 125-25 and be in compliance with the specific requirements of the Unified Development Code.

(e) Indicate the location of any closed landfill/dump on the property.

(f) Culvert sizes for each lot shall be noted on the final subdivision plat and drainage plan.

(g) A street lighting plan is required in Lighting District No. 4. The developer shall be required to submit a street lighting plan for the purpose of providing ample lighting to protect the health and safety of the residents during the nocturnal hours. Street lighting plan specifications shall fall within the established guidelines listed below:

- (1) Street lighting poles shall be constructed of either aluminum, concrete (gray) or wood.
- (2) The type of illumination shall be mercury vapor fixtures which are available in 175-watt, 250-watt, and 400-watt. The 250-watt and 400-watt shall require a taller than normal pole when used.
- (3) High-pressure sodium fixtures can also be used and are available to municipal, parish, state and highway lighting districts or through a metering system to private developers. Developers must coordinate their metering systems for sodium fixtures with the public utility company serving the area.
- (4) The minimum street light pole height shall be 20 feet measured from ground elevation to bracket and light fixture connection. Heights of over 26 feet must be reviewed and approved by the public utility company serving the area.
- (5) Street lighting poles and fixtures must be located in such a way as not to cause potential hazards to traffic or pedestrian, interfere with existing power lines, or place unnecessary glare on residences.
- (6) Street lighting poles shall be spaced accordingly to provide a consistent and even illumination pattern within the subdivision development.
- (7) Specific design and construction standards shall meet the standards of the public utility company serving the area. These standards can be obtained from the public utility company serving the area.
- (8) Maintenance and operation of the lighting facilities within each subdivision, once established, shall be managed by the lighting district.

(h) A traffic signage plan required. The developer shall be required to submit a traffic signage plan for the purpose of providing proper traffic signage. Traffic signage plan specifications shall be in accordance with "Street Identification and Traffic Control Signs; Installation Regulated," as depicted in the supplemental section of this subdivision ordinance.

(Ord. No. 499, § 40-061.0, 5-21-1970; Ord. No. 85-393, 5-16-1985; Ord. No. 00-172, 7-6-2000; Ord. No. 05-1039, 2-3-2005)

Sec. 125-197. Hydrological study and plan.

(a) A hydrological study/plan shall be completed by a qualified hydrologist and shall be submitted by all developers of new subdivision developments.

(b) For the purpose of this section, a qualified hydrologist shall be a state registered civil engineer. When a qualified hydrologist creates a study/plan for a particular drainage area, said study/plan must determine the effects, if any, of the proposed development on the drainage basin; and the qualified hydrologist shall present engineering proposals, if any, to certify that the rate of runoff will not be increased by the proposed development.

- (1) The Rational Method may be used for determining the stormwater runoff when the contributing areas is less than or equal to 200 acres up to the time of concentration. The runoff coefficient shall be selected by the design engineer and shall be appropriate for the subject property and must account for the duration and intensity of the rainfall event.
- (2) When the SCS method or equivalent is used, the following requirements shall apply:
 - a. Curve numbers shall be those published by the state department of transportation and development and/or the "National Engineering Handbook, Hydrology: section 4, chs. 6—12."
 - b. When using the SCS Method, adjustments requiring disclosure include, but are not limited to:
 1. Changes to the 484 IUH coefficient in the peak flow equation.
 2. Adjustments for ponding, imperviousness and channel improvements.
 3. Antecedent soil moisture condition.
 4. Slope and sub area length over width ratio assumptions.
 5. Storm intensity distribution, but only if approved by the parish engineering director.
 6. Proper lag time equations.
 - c. The time of concentration shall be determined for both pre- and post-conditions using methods accepted by the engineering community, e.g., "National Engineering Handbook, Hydrology: section 4, ch. 15," and appropriate for the conditions as approved by the parish engineer. If the lag method is used, the following restrictions shall apply:
 1. The appropriate area slope and defined by lag equation shall be used.
 2. Adjustments shall be made for channel improvements and impervious areas.
 3. Detention design shall be a part of the hydrologic study/plan and shall include detention ponds and metering structures. Linear detention within roadside ditches is not acceptable and shall not be included as storage areas in the drainage calculations. The plan shall be developed in accordance with the department of engineering's review and approval.
 - (i) On-site detention requirements may be waived or modified based on hydrological analysis of existing conditions, location of the develop-

ment within the drainage basin and analysis assuring no negative effect within the basin of the waiver. A waiver is expressly prohibited for developments located within the upper one-third of the drainage basin, unless the runoff resulting from the development can be routed to a regional detention facility. After technical review, the department of engineering shall accept or reject the proposed waiver. The waiver will be presented to the planning commission for preliminary approval.

- (ii) If a waiver is accepted pursuant to the previous subsection, in lieu of on-site detention, the developer shall be assessed a drainage fee. This fee shall be payable to the parish or designated drainage district for the sole purpose to make or making improvements to the affected drainage basin. The fee shall be due prior to the issuance of any work orders by the parish.
- (iii) The drainage fee shall be per acre, as follows:

A-1, A-2 and A-3 subdivisions	\$1,500.00
A-4 and A-5 subdivisions	\$2,000.00
A-6, commercial and industrial subdivisions	\$3,500.00

PUDs of same density as above subdivision designations shall follow the same fee structure. The fee shall be used solely for planning, acquisition and/or construction of regional detention facilities and/or system improvements within the affected basin.

(Ord. No. 499, § 40-061.01, 5-21-1970)

Sec. 125-198. Proposed central sewerage and water systems.

Alternatively, if a subdivision is proposed with central sewerage and/or water systems, the developer may submit to the director of public works, or his successor, a preliminary subdivision plan of the development for preliminary approval by the planning commission provided the submission is made of such systems in a schematic design or other plan satisfactory to the director of public works. Conditional preliminary approval may be granted by the planning commission based on the schematic design or plan pending approval of the systems by the department of environmental services of the parish. However, no submission for final approval of the subdivision plan by the planning commission shall be made or considered until the approval of the central sewerage and/or water systems by the department of environmental services of the parish has been received by the planning commission; and the developer is not relieved of any other requirements of submission within this article.

(Ord. No. 499, § 40-061.02, 5-21-1970)

Sec. 125-199. Soil analysis required.

A geotechnical investigation and soil analysis report is required to be submitted to the department of public works upon approval of preliminary plans by the parish planning

commission. Data for soil boring and soil mechanics laboratory tests is to be included. The report will include a summary of findings and recommendations. The work shall be performed by a state certified testing laboratory and at the expense of the developers.
(Ord. No. 499, § 40-061.05, 5-21-1970)

Sec. 125-200. Roadway grade and soil information required.

The proposed roadway grade should be furnished. The subgrade soil survey should be adequate as determined by the projects engineer, to sufficiently design the roadway embankment. Any deviation therefrom shall require the approval of the department of public works. In general, the information shall consist of a soil survey of the subgrade showing the classification and characteristics of different layers of soil, elevation of the water table, field moisture, the density of the in-place material along the centerline (amuck deposits, rock formations, quicksand, if applicable, shall be identified). Consolidation tests and embankment stability analysis for high fills and organic tests in questionable areas shall be performed if necessary at the discretion of the aforementioned department.
(Ord. No. 499, § 40-061.06, 5-21-1970; Ord. No. 88-918, 2-21-1988)

Sec. 125-201. Traffic conditions.

(a) The consulting engineer shall consider traffic conditions and repetitive loads in roadway and paving design. An estimate of the number and weight of heavy axle loads expected during the design life of the pavement shall be furnished to the department of public works. Design of a single 32-kip axle load is used to define a heavy axle load. In the absence of a detailed traffic analysis report furnished by a traffic engineer, the information provided below shall be an estimate of such loads and used to design adequate pavement thickness.

<i>Type of Street or Highway</i>	<i>Approximate Number of Heavy Trucks per Design Period</i>
Parking lots, driveways, light traffic residential streets, light traffic farm roads	7,000
Residential streets, rural farm and residential roads	7,000—15,000
Urban minor collector streets, rural minor collector roads	70,000—150,000
Urban minor arterial and light industrial streets, rural major collector and minor arterial highways	700,000—1,500,000
Urban freeways, expressways and other principal arterial highways, rural interstate and other principal arterial	2,000,000—4,500,000

(b) All drainage structures shall be designed to provide for reductions in peak rate of runoff for all storm events up to the 100-year storm. The peak rate of runoff for the 25-, 50- and 100-year storm shall be reduced by 25 percent. At no time shall the peak rate of runoff exceed

that of the predevelopment conditions of the subject parcel. Calculations shall be provided for the 25-, 50- and 100-year storm events that display the effects of a two- and 24-hour duration.

(c) Predevelopment calculations shall be based on the "heavily forested" condition unless otherwise approved by the department of engineering.

(d) No fill shall be placed in any flood zones designated as AO/AH or A1-A30 without an approved fill plan. All fill for residential home construction shall conform to Ordinance No. 2183-AA adopted July 5, 2001. Finished floor elevation shall be at least six inches above nearest adjacent road and also conform to the rules and regulations promulgated by Federal Emergency Management Agency (FEMA) and the National Flood Insurance Program (NFIP).

(e) All subdivisions receiving tentative approval prior to the effective date of the ordinance from which this chapter is derived will be governed by the previous drainage requirements.

(f) A subdivision development located within the boundaries of Gravity Drainage District No. 5 shall, at the same time, also submit its hydrological study and plan to the district for review and comment to the parish engineer. All costs associated with the review of the plans by the drainage district shall be assessed to the developer. The district shall submit its comments to the parish engineer within 30 days of receipt of the plan. The parish engineer shall have final authority on approval of the proposed hydrological plan.

- (1) A developer of a subdivision may start construction of model homes or homes for resale (more commonly known as "spec" homes) at the time preliminary approval (work order) is granted only upon receiving final zoning action.
- (2) Building permits must be acquired for any homes started under the authority of the subsection (f)(1) of this section and according to the guidelines as set forth in the Unified Development Code.
- (3) The construction of model homes shall be limited to five home sites or ten percent of the total number of lots within each phase of the development receiving preliminary approval, whichever is the lesser amount.
 - a. Should work not commence within one year after the issuance of a work permit in any subdivision for which approval of the preliminary plan was given by the planning commission, or its successor in office, no work can thereafter commence unless and until the planning commission, or its successor in office, extends the time thereof. The governing authority need not extend the time for commencement and may require the reprocessing thereof in the same manner and to the same extent, including payment of fees pertaining hereto, as if said subdivision were a new proposed development. However, in any case, a work permit must be granted by the parish within one year after receiving preliminary approval by the

planning commission; otherwise, the development must be resubmitted for preliminary review and subject to all applicable advertising requirements and payment of fees.

- b. If development and construction ceases within a subdivision for a period of one year after the release of the work order/permit, said subdivision developer must refile for preliminary approval and may be required to pay refiling fees subject to review by the planning commission.
 1. Reserved.
 2. With the subgrade soils information, traffic conditions and concrete modules of rupture now known, the design of the pavement section can be determined by:
 - (i) Using the approximate range-number of heavy trucks expected during the design period, a stress ratio can be obtained.
 - (ii) The stress ratio is the ratio of maximum allowable stress in the concrete to the modules of rupture of the concrete, and since the rupture factors are known, the maximum allowable stress can be determined.

(Ord. No. 499, § 40-061.07, 5-21-1970; Ord. No. 03-0688, 6-5-2003; Ord. No. 03-0725, 8-7-2003; Ord. No. 04-0949, 9-2-2004)

Sec. 125-202. Maintenance obligations.

(a) Maintenance obligations are established when the developer has received preliminary approval. Said obligation shall be used to ensure the repair of any damage to a parish road or drainage system resulting from construction activity in connection with the subdivision.

- (1) The amount of the obligation will be based upon the existing condition of the affected parish road, its type of construction (e.g., gravel, concrete, asphalt), the length of the road exposed to construction traffic, and other such factors as may be deemed appropriate such as existing terrain, anticipated amounts of heavy traffic, etc.
- (2) The amount of a maintenance obligation is not expected to exceed:
 - a. \$10.00/linear foot for gravel roads or streets.
 - b. \$20.00/linear foot for asphalt roads or streets.
 - c. \$30.00/linear foot for concrete roads or streets.
- (3) The amount of the obligation will be determined by the department of public works and prescribed within the work order. Maintenance obligations must be established for at least one year or the duration of construction within the subdivision, whichever comes first.

- (4) After completion of the subdivision, and upon written request from the developer, the department of public works may release the maintenance obligation by same written request to the department of finance.

(b) All maintenance obligations established by the department of public works must have acceptable securities submitted to and on file with the department of finance, and no work orders will be issued until such action has been completed.

(c) Acceptable securities are required to be posted by a developer of a newly constructed subdivision development in order to ensure that monies are available, if needed, to make repairs to any existing parish roads if the developer defaults on his obligations.

(d) Acceptable security, as set forth by the department of finance, to ensure fulfillment of maintenance obligations shall be:

- (1) Cash, to be held in escrow by the department of finance.
- (2) Letter of credit from a financial institution with a Scheshunoff Bank Quarterly rating of C+ or above. If the financial institution rating falls below a C+ rating during the term of the obligation, the parish council will allow one additional quarter for the rating to rise to an acceptable level. If the rating does not rise to an acceptable level, the developer will have 15 days to provide acceptable alternative security, or the developer will be considered in default of his obligation, and the letter of credit will be called. If the financial institutions rating falls to a NR (not rated) level, the developer will have 15 days to provide acceptable alternative security, or the developer will be considered in default on his obligation, and the letter of credit will be called.
- (3) Certificate of deposit from a financial institution with a Scheshunoff Bank Quarterly rating of C+ or above. The certificate of deposit must be pledged to the parish council, and held with a safekeeping agreement in a safekeeping account. If the financial institution rating falls to a C during the term of the obligation, the parish council will allow one additional quarter for the rating to rise to an acceptable level. If the rating does not rise to an acceptable level, the developer will have 15 days to provide acceptable alternative security, or the developer will be considered in default on his obligation, and the certificate of deposit will be called. If the financial institutions rating falls to a NR (not rated) level, the developer will have 15 days to provide acceptable alternative security, or the developer will be considered in default on his obligation, and the certificate of deposit will be called.
- (4) U.S. Treasury Bills or U.S. Treasury Notes, pledged to the parish council to be held in a safekeeping account with a safekeeping agreement.
- (5) Bond issued by a surety company listed on the Federal Register, licensed in the state and acceptable to the parish.

(e) The parish treasurer is charged with the responsibility to ensure that securities do not lapse or expire. In addition, the parish treasurer shall be responsible for notifying the developer at least 90 days prior to the expiration of the obligation and further informing said parties that a public hearing will be held regarding the disposition of said obligation.

(f) The parish engineer shall determine whether the developer has complied with all applicable requirements of development before any obligation can be released. In the event that a developer requests or the staff recommends an extension, renewal or reduction of an obligation, the department of public works shall have the sole authority to move on any said request.

(g) If a developer defaults and cannot or will not meet his obligation at or on the prescribed date and time that said obligation is due to expire, the department of public works shall have the authority to call any outstanding security on the property in question and instruct the department of finance via the parish treasurer to seize those securities necessary to complete any maintenance obligation germane to the development.

(Ord. No. 499, § 40-061.08, 5-21-1970; Ord. No. 99-3077, 5-20-1999)

Sec. 125-203. Final subdivision review.

As part of the final application process, the developer shall submit to the department of development, after completion of all construction and after the final inspection and recommendation of approval by said department of engineering, 15 copies of the final subdivision plat for approval, and provide the appropriate signature lines for the planning commission chairperson, planning commission secretary, parish engineer and clerk of court, and provide the appropriate spaces for the map file number and filing date. The final subdivision plat shall be folded in a rectangular or square shape with the parish signatures on the face, and shall provide the following information and include the following items, data and certifications:

- (1) Name of subdivision.
- (2) Name and address of developer.
- (3) Location of development (section, township, range).
- (4) Name and address of surveyor and/or engineer.
- (5) Vicinity map inset.
- (6) Boundary survey.
- (7) Scale of plat.
- (8) North direction arrow.
- (9) Section corner tie.
- (10) Location of permanent markers at each lot corner in accordance with R.S. 33:5051.
- (11) Subdivision restrictions or covenants.

- (12) Statement concerning the admittance or omission of mobile homes.
 - (13) Act of dedication of streets and drainage servitudes.
 - (14) Engineers certification and seal on plat.
 - (15) Surveyors certification and seal on plat.
 - (16) Board of health letter of approval.
 - (17) Sewerage and water plans.
 - (18) Total acres in subdivision.
 - (19) Total number of lots and dimensions.
 - (20) Building setback lines.
 - (21) Existing street conditions.
 - (22) Total length of streets.
 - (23) Names of all streets (on plat).
 - (24) All intersections at 90 degrees.
 - (25) Street elevations.
 - (26) Bench marks (NGVD).
 - (27) Flood zone and wetland demarcation lines or shading.
 - (28) Existing and proposed easements and servitudes.
 - (29) Surrounding land uses (on plat).
 - (30) Municipal mailing address for each lot.
 - (31) As-built drawings for central sewage, water facilities, and street and drainage infrastructure.
 - (32) Legal instrument for recordation stating responsibility for maintenance and upkeep of the greenspace areas.
 - (33) Traffic control devices and street sign plan.
 - (34) Two copies of the final subdivision plat and drainage plan on a 3.5-inch floppy disk in either AutoCAD DXF file or any other version of AutoCAD DWG format as per section 125-207, computer disk requirements.
 - (35) The applicant shall produce clear mortgage and conveyance certificates from the office of the clerk of court run in the names of all parties having ownership and/or controlling interest in access to the property, and on the "caption" of what the applicant proposes to dedicate to the parish council.
- (Ord. No. 499, § 40-070.0, 5-21-1970; Ord. No. 86-630, 6-19-1986; Ord. No. 00-0160, 6-1-2000)

Sec. 125-204. Compliance with Interstate Land Sales Act.

An affirmative response to the Interstate Land Sales Act, signifies that the developer has:

- (1) Provided an affidavit that the developer is exempt by statute from the provisions of the Interstate Land Sale Act;
- (2) Furnished a certified copy of a letter to the office of interstate land sales registration indicating that the developer has applied to the office of interstate land sales registration for an exemption; or
- (3) Furnished a certified copy of a letter to the office of interstate land sales registration indicating that the developer is applying for registration with the office of interstate land sales registration.

(Ord. No. 499, § 40-070.01, 5-21-1970)

Sec. 125-205. Final plan procurement.

(a) Once the planning commission approves a development and the plats are signed and recorded, copies of the approved final plan will be sent to the following:

- (1) The clerk of court's office.
- (2) The developer (four copies).
- (3) The assessor's office.
- (4) The department of planning and development.
- (5) The department of public works.

(b) Upon receiving approval of the subdivision, the clerk of court will be notified to record acts of sale of lots in the subject subdivision. Changes to the original tracing subsequent to final approval will require review by the planning commission.

(c) Violations of this section will be subject to the penalties as set forth in section 125-1, introduction.

(Ord. No. 499, § 40-070.02, 5-21-1970)

Sec. 125-206. Industrial subdivision exceptions.

(a) Subdivisions intended for industrial use (zoned industrial) are to follow the normal procedures for subdivision development, with the exception that the developer is not required to show lots or parcels on the subdivision plan, and may choose to create large tracts of three acres or more without additional review before the planning commission, if the following conditions are met:

- (1) Revised plats are completed by a duly licensed surveyor/engineer, platting the new parcels as said parcels are created.

- (2) Revised plans are completed by a duly licensed surveyor/engineer showing any associated street, drainage, utility, sewage or other changes in previous plans that arise because of the creation of the new parcels.
- (3) Revised plans and plats must be submitted to and approved by the department of public works, the department of permits and inspections, and the department of development prior to the sale of any parcel or construction related to the parcel.

(b) If any administrative official who does not approve the revised plan as per the referenced section above, the official shall notify the developer by certified mail. The developer may then appeal the disapproval of the new parcels/plans to the planning commission. Such appeal must be received in writing by the secretary of the planning commission within 15 calendar days of the notice of disapproval.

(Ord. No. 499, § 40-070.03, 5-21-1970; Ord. No. 88-897, 1-21-1988; Ord. No. 88-918, 2-21-1988; Ord. No. 00-0172, 7-6-2000)

Sec. 125-207. Computer disk requirements.

The developers engineer shall submit two copies of the final subdivision plat and drainage plan in either an AutoCAD DXF file or any other version of AutoCAD DWG format. Said drawings must be able to be connected to state plane coordinates and shall have several specified layers and polygons. These drawings must be organized in the following manner:

- (1) The drawings must contain two points to tie the subdivision into state plane coordinates;
- (2) The centerline of all roadways must be clearly marked;
- (3) The subdivision phase boundary and individual lots and roads must be separated into polygons; and
- (4) Road names, road dimensions, lot numbers, lot size, lot dimensions, elevations, building setbacks, drainage servitudes, green space, gravity drainage features, including detention/retention ponds and outfall structures, subsurface drainage features, utilities, vicinity map, title block features and any other text data must be separated into layers.

(Ord. No. 499, § 40-070.04, 5-21-1970)

Sec. 125-208. Direction of flow of surface water for individual lots or parcels.

The developer's engineer shall indicate on the "as-built" paving and drainage plan the direction of flow of surface water for individual lots or parcels. The surface drainage must be designed to flow toward the roadway or to a ditch which is adjacent to the lot or parcel. The ditch must be located within a parish servitude when it is a public access subdivision or within a private servitude when it is a private subdivision.

(Ord. No. 499, § 40-070.05, 5-21-1970; Ord. No. 00-0139, 5-4-2000)

Sec. 125-209. Street address on final drawings.

(a) A developer's surveyor shall be responsible for meeting with the 911 addressing office for the purpose of obtaining street addresses for each lot within a subdivision after the planning commission has approved the final subdivision plat drawing.

(b) The surveyor shall include street addresses on all approved final subdivision plat drawings and submit 13 final subdivision plat drawings to the department of planning and development for recordation.

(c) The 911 address office shall review the drawings for conformance to either a uniform numbering or lettering system prior to the recordation of the final subdivision plat drawings. (Ord. No. 499, § 40-070.06, 5-21-1970; Ord. No. 00-0221, 11-2-2000)

Sec. 125-210. Final approval prior to and after completion of improvements.

Final subdivision approval can be granted by the planning commission upon written request and after formal public hearings conducted before said commission in accordance with parish law and after receiving certification from the developer that the following items have been satisfactorily addressed:

- (1) Streets and other improvements are certified by the developer to be substantially complete insofar as to provide safe and efficient all weather access and traffic flow.
- (2) Drainage improvements are substantially complete and a letter from the department of environmental services approving the sewer and water systems proposed.
- (3) A surety obligation pledged to the parish in the form of either and/or a funded performance or warranty letter of credit from a qualified bank or financial institution in good standing and doing business within the parish, or by providing cash and/or its equivalent to be held in receipt by the department of finance.

(Ord. No. 499, § 40-071.0, 5-21-1970)

Sec. 125-211. Warranty and performance obligations.

(a) Performance obligations are established when the developer has received final subdivision approval and has substantially completed the project and/or due to some extenuating circumstances, has not completed all of the construction, which warrants said performance obligation.

- (1) The amount of a performance obligation shall be based upon the following current estimated costs of construction of a street and supporting improvements:
 - a. Concrete streets: \$60.00 per linear foot.
 - b. Asphalt streets: \$40.00 per linear foot.
 - c. Gravel streets: \$20.00 per linear foot.

- (2) The planning commission shall establish and set forth the amount of the performance obligation as well as the duration. Performance obligations shall be set for six-month or one-year periods or until the work requiring the establishment of said obligation has been satisfactorily completed and accepted by the parish engineer.
 - (3) The parish engineer shall determine whether the developer has complied with all applicable requirements of development before any obligation can be released and only after notification is given in writing to the parish council member in whose district the project is located. In the event that a developer requests or the staff recommends an extension or renewal of obligation, the department of engineering shall have the sole authority to move on any said request.
 - (4) If a developer defaults and cannot or will not meet the obligation at or on the prescribed date and time that said obligation is due to expire, the department of engineering shall have the authority to call any outstanding security on the property in question and instruct the department of finance to seize those securities necessary to complete any performance obligation germane to the development.
- (b) Warranty obligations are established upon final acceptance of the subdivision which includes the construction of all street and drainage improvements. Said warranty obligation assures the parish that all construction work, completed by the developer, is in accordance with the plans and specifications of the development and free from any structural defects.
- (1) The amount of a warranty obligation shall be based upon the following current estimated repair costs for a street and supporting improvements:
 - a. Concrete streets: \$25.00 per linear foot.
 - b. Asphalt streets: \$22.00 per linear foot.
 - c. Gravel streets: \$20.00 per linear foot.
 - (2) The planning commission shall establish and set forth the amount of the warranty obligation as well as the duration. Warranty obligations shall be set for a minimum period of two years to insure serviceability and structural integrity of the street and drainage infrastructure.
- (c) All performance and/or warranty obligations must be secured by acceptable securities submitted to and on file with the department of finance, and no lots can be sold until such action has been procured.
- (d) Acceptable security is required to be posted by a developer of a newly constructed subdivision development in order to ensure that monies are available, if needed, to complete all construction requirements and to assure the serviceability and maintenance of all roadways within said development in the event a developer defaults on his obligation.

(e) Acceptable security, as set forth by the department of finance, to ensure fulfillment of maintenance obligations shall be:

- (1) Cash, to be held in escrow by the department of finance.
- (2) Letter of credit from a financial institution with a Scheshunoff Bank quarterly rating of C+ or above. If the financial institution rating falls below a C+ rating during the term of the obligation, the parish council will allow one additional quarter for the rating to rise to an acceptable level. If the rating does not rise to an acceptable level, the developer will have 15 days to provide acceptable alternative security, or the developer will be considered in default of his obligation, and the letter of credit will be called. If the financial institution's rating falls to a NR (not rated) level, the developer will have 15 days to provide acceptable alternative security, or the developer will be considered in default on his obligation, and the letter of credit will be called.
- (3) Certificate of deposit from a financial institution with a Scheshunoff Bank quarterly rating of C+ or above. The certificate of deposit must be pledged to the parish council, and held with a safekeeping agreement in a safekeeping account. If the financial institution rating falls to a C during the term of the obligation, the parish council will allow one additional quarter for the rating to rise to an acceptable level. If the rating does not rise to an acceptable level, the developer will have 15 days to provide acceptable alternative security, or the developer will be considered in default on his obligation, and the certificate of deposit will be called. If the financial institution's rating falls to a NR (not rated) level, the developer will have 15 days to provide acceptable alternative security, or the developer will be considered in default on his obligation, and the certificate of deposit will be called.
- (4) U.S. Treasury bills or U.S. Treasury notes, pledged to the parish council to be held in a safekeeping account with a safekeeping agreement.
- (5) Bond issued by a surety company listed on the Federal Register, licensed in the state and acceptable to the parish.
- (6) The director of the department of finance is charged with the responsibility to ensure that securities do not lapse or expire. In addition, the Department of Finance Director shall be responsible for notifying the developer and financial institution holding the pledged securities at least 90 days prior to the expiration of the obligation and further informing said parties that a public hearing will be held regarding the disposition of said obligation.
- (7) The Parish Engineer shall determine whether the developer has complied with all applicable requirements of development at least 120 days prior to the expiration of the obligation and before any obligation can be released. The Engineer shall furnish the developer and developer's engineer with a punch list of required work. The developer's engineer must certify to the parish engineer at least 60 days prior to the expiration of the

obligation, that the punch list has been completed. If not, the obligation will be automatically extended for one year or until the work has been satisfactorily completed. The obligation shall not be extended beyond one year and will not be reduced, otherwise the obligation shall be called. The Engineering Department will reinspect for warranty release only after receiving certification from the developer's engineer that the work has been satisfactorily accomplished. If the work is not completed to the satisfaction of the Engineering Department, said department shall impose a \$100.00 inspection fee any subsequent reinspection required. In the event that a developer requests or the staff recommends an extension, the Department of Engineering shall have the sole authority to move on any said request with the exception of releasing warranty obligations, which shall be the duty and function of the council.

- (8) If a developer defaults and cannot or will not meet his obligation at or on the prescribed date and time that said obligation is due to expire, the parish engineer with regards to performance obligations established by the planning commission and/or the council with regards to warranty obligations shall have the authority to call any outstanding security on the property in question and instruct the department of finance to seize those securities necessary to complete any performance or warranty obligations germane to the development.

(Ord. No. 499, § 40-071.01, 5-21-1970; Ord. No. 99-3077, 5-20-1999; Ord. No. 99-3176, 1999; Ord. No. 14-3064, § 40-071.01, 1-9-2014)

Sec. 125-212. Minimum standards for street construction and improvements.

(a) The improvements proposed and constructed for all developments under these regulations shall meet the specifications found in the Louisiana Standard Specifications for Roads and Bridges (LSSRB), as amended, and any special provisions in the roadway design and construction standards, as found in this chapter. Any subsequent amendments or editions hereto of said state specifications shall apply when adopted by the state department of transportation. The improvements must also be constructed in accordance with the approved design of the developer's engineer.

(b) All newly constructed streets in subdivisions shall be constructed to the following minimum standards:

- (1) Paving width shall be a minimum of 20 feet wide;
- (2) Shoulders shall be a minimum of four feet wide on each side of the paving consisting of an aggregate surface;
- (3) Swell ditches, if provided, shall be graded at 3:1 slopes; and
- (4) The minimum road base design shall include a six-inch layer of sand, clay and gravel.

(c) If the developer should decide not to dedicate the streets to the parish, desiring said streets to remain privately owned, the planning commission may still grant final approval for the subdivision development. However, construction standards and surety obligations for said private streets will remain the same as required for publicly dedicated streets.

(d) In addition, the developer must clearly note within the final subdivision plat and within the deed restrictions of each title of land sold; that the streets are privately owned and maintained and cannot therefore be accepted into the parish road maintenance system until said streets can meet the current construction standards established and regulated by the parish.

(Ord. No. 499, § 40-072.0, 5-21-1970; Ord. No. 90-1344, 10-20-1990; Ord. No. 14-3064, § 40-072.0, 1-9-2014)

Sec. 125-213. Acceptance of streets into the parish road system.

(a) No streets in a subdivision development shall be accepted into the parish road maintenance system unless they conform to the minimum state department of transportation and development standards and rules adopted in accordance with R.S. 48:35 and 48:35.1, and in accordance to parish accepted construction standards. Further, the parish shall require funded certification of conformance through the establishment of performance and/or warranty letters of credit, to ensure that the developers obligation to construct the roads shall be accomplished.

(b) Subdivision streets that have been constructed in accordance with subsection (a) of this section shall be automatically accepted in the parish road maintenance system, when final approval is granted by the planning commission and the plats have been subsequently recorded. In order for a subdivision to receive final approval, the developer shall be required to provide a funded letter of credit for performance and/or warranty purposes in the manner as set forth in section 125-211, or as the same as may be hereafter amended.

(c) Streets in existing or dormant subdivisions that may never have been constructed to parish standards (usually private streets), could be accepted into the parish road maintenance system, but by parish ordinance only, and subject to the following requirements:

- (1) The streets must be inspected and certified by the engineering department as being in substantial compliance to parish construction standards;
- (2) If streets are not in substantial compliance to parish construction standards, the engineering department can require that said streets be improved;
- (3) Provisions made for a minimum two-year and maximum of five-year funded warranty letter of credit to ensure the integrity and durability of the streets.

(d) Before the expiration date of the warranty letter of credit, the department of engineering shall inspect the streets to determine their condition. Upon completion of the inspection, said department shall determine whether the developer has complied with all applicable requirements of development, or whether an extension should be given, a renewal of obligation be required, or enforcement of a performance obligation be instituted.

(Ord. No. 499, § 40-073.0, 5-21-1970; Ord. No. 14-3064, § 40-073.0, 1-9-2014)

Sec. 125-214. Subdivision restrictions and/or covenants.

(a) Protective covenants are essential to the sound development of proposed residential areas. Covenants properly prepared and legally sound contribute to the establishment of the character of a neighborhood and to the maintenance of value levels through the regulation of type, size and placement of buildings, lot sizes, reservation of easements, and prohibition of nuisances and other land uses that might affect the desirability of a residential area.

(b) The covenants should provide enforcement provisions, be recorded in public land records and be made superior to the lien of any mortgages that may be on record prior to recording of the protective covenants.

(c) Protective covenants regulating the use of land represent an express agreement between the subdivider and the lot purchasers. Through this agreement, all parties seek to gain certain advantages; the subdivider to aid his land development program and the purchasers to protect their investments. Strict enforcement of suitable protective covenants gives the best assurance to each lot owner that no other lot owners within the protected area can use property in a way that will destroy values, lower the character of the neighborhood, or create a nuisance.

(d) In zoned communities protective covenants are an important supplementary aid in maintaining neighborhood character and values. The extent of zoning protection is limited to governmental exercise of police powers of maintaining and promoting public health, safety and welfare. Protective covenants being agreements between private parties can go much further in meeting the needs of a particular neighborhood and in providing maximum possible protection.

(e) Development sponsors should have their protective covenants drafted by legal counsel. The preliminary draft of the covenants should be submitted to the planning and development director for comment at the time the developer presents his tentative subdivision plan for approval.

(f) The proper form of protective covenants varies. A generally acceptable and enforceable form is written declaration by the owner of the entire tract which is recorded in land office records. When a separate declaration is made, it is good practice to record it simultaneously with the recordation of the subdivision map.

(g) The written declaration of protective covenants is a preferable form for establishing a uniform scheme for the development and protection for an entire area. Piecemeal control by inserting covenants in individual deeds at the time properties are conveyed is not conducive to harmonious development.

(h) Protective restrictive covenants should be listed at the top right hand corner of all final subdivision plats so as to afford the opportunity for potential buyers of property as well as owners who have already purchased property to clearly see and understand the guidelines for the development and enforcement provisions established for the subdivision.

(Ord. No. 499, § 40-074.0, 5-21-1970; Ord. No. 88-916, 2-18-1988)

Sec. 125-215. Parish enforced subdivision restrictions and/or covenants.

In order to protect the health, safety and general welfare of the owners of property within parish approved subdivisions, the following covenants will run with each deed or title and will be listed at the top right hand corner of the final subdivision plat. The following restrictions shall be enforceable by the parish planning commission:

- (1) No certificate of occupancy shall be issued before the sewerage and water systems are installed and operable or otherwise connected to a community (central) sewerage and/or water systems, all as approved by the department of environmental services of the parish. Whenever a subdivision is served by a community (central) water system (supply), no private water supply may be drilled or otherwise constructed on any lot for the purpose of supplying potable water to any building or structure, except for the purpose of irrigation, and in no event shall there be a physical connection between any such source and any element of the community (central) water system (supply).
- (2) Construction of any nature is prohibited in parish drainage or street easement.
- (3) Lots may not be used for the storage of trash or junk vehicles.
- (4) The minimum finished flood elevation required in areas subject to periodic inundation (flood zones A and V) shall be indicated.
- (5) No lot will be further subdivided without approval of the parish planning commission and the department of environmental services.
- (6) The minimum culvert size to be used for driveways shall be stated.
- (7) Driveways on corner lots shall not be located any closer than 60 feet from a corner of said property closest to the intersection as measured from the corner of the property where the said two street rights-of-way intersect.
- (8) The aforementioned restrictions shall be recited in each title or deed in addition to the required listing on the final subdivision plat.

(Ord. No. 499, § 40-074.01, 5-21-1970; Ord. No. 88-916, 2-18-1988; Ord. No. 94-2142, 12-15-1994)

Sec. 125-216. Resubdivision review.

A resubdivision of a lot or lots in existing subdivisions that are recorded for public record and inspection must receive the approval in accordance with the following procedures before any parcel is sold. Resubdivisions of lots are not exempt for any reason from the following application and procurement requirements:

- (1) *Major resubdivision.* When more than five lots will be created or a waiver is requested of any applicable subdivision regulation, a public hearing review in accordance with the following procedures will be required:
 - a. Submit a signed letter from the owner or owners of property involved within the resubdivision request, stating their reasons for the proposal.
 - b. Submit ten blue or black line prints of a bona fide survey on either (eight-inch by 11-inch), (8½-inch by 14-inch) or (11-inch by 17-inch) paper, indicating the following:
 1. The proposed division of the lots indicating the total square footage of all of the property involved within the resubdivision request and the individual square footage of each new lot created.
 2. Surveyors live stamp or seal on all survey plats.
 3. The accurate location of all buildings and/or structures on the lots.
 4. Information on the survey indicating the name of the subdivision, phase, lot number, section, township and range, and any other data pertinent and germane to the resubdivision request. An additional and separate fee shall be required for the recordation of the survey plat as per the fee schedule of the clerk of court.
 5. Spaces for the signatures of the chairperson of the planning commission, secretary of the planning commission, parish engineer, clerk of court and spaces for the date and map file number.
 - c. Submit a copy of the subdivision restrictions or covenants of the subdivision.
 - d. The fees for a resubdivision request are based on \$90.00 per acre (pro-rata after the first acre) up to a maximum of \$800.00. The fees are based on the total land area (all properties were lot lines will be adjusted) to be resubdivided.
 - e. The department of planning and development staff will review the proposed resubdivision request and present said request before the regularly scheduled meeting of the planning commission, who in turn will consider said request based on the validity, merit and according to regulations contained within this chapter.

- f. If the resubdivision request is approved, the survey plat will be recorded within ten to 14 days after the planning commission meeting and copies of the recorded plats shall be forwarded to the applicants engineer or surveyor, unless instructed by the petitioner/owner in written form to do otherwise.
- (2) *Minor resubdivision.* When five or fewer lots will be created and all newly created lots meet all other applicable requirements as established by ordinance, an administrative review will be required in accordance with the following procedure:
 - a. Submit a signed letter from the owner or owners of property involved within the resubdivision request, stating their reasons for the proposal.
 - b. Submit ten blue or black line prints of a bona fide survey on either (eight-inch by 11-inch), (8½-inch by 14-inch) or (11-inch by 17-inch) paper, indicating the following:
 - 1. The proposed division of the lots indicating the total square footage of all of the property involved within the resubdivision request and the individual square footage of each new lot created.
 - 2. Surveyors live stamp or seal on at least one of the survey plats.
 - 3. The accurate location of all buildings and/or structures on the lots.
 - 4. Information on the survey indicating the name of the subdivision, phase, lot number, section, township and range, and any other data pertinent and germane to the resubdivision request.
 - 5. Spaces for the signatures of the secretary of the planning commission, parish engineer, clerk of court and spaces for the date and map file number.
- (3) Submit a copy of the subdivision restrictions or covenants of the subdivision.
- (4) The fees for a resubdivision request are based on \$90.00 per acre (pro-rata after the first acre) up to a maximum of \$800.00. The fees are based on the total land area (all properties where lot lines will be adjusted) to be re-subdivided. An additional and separate fee shall be required for the recordation of the survey plat as per the fee schedule of the clerk of court.
- (5) The director of the department of planning and development shall approve or deny the application within 14 days of acceptance of the application. The director may not grant waivers to any applicable regulations.
- (6) If the resubdivision request is approved, the survey plat will be recorded within seven days after the approval and copies of the recorded plats shall be forwarded to the applicants engineer or surveyor, unless instructed by the petitioner/owner in written form to do otherwise.

- (7) If a request is denied by the department of planning and development or a waiver of an applicable regulation is requested, the applicant may appeal said request to the planning commission in accordance with these regulations.

(Ord. No. 499, § 40-080.0, 5-21-1970; Ord. No. 01-0242, 2001)

Sec. 125-217. Dormant subdivision review.

A subdivision of land duly filed for record in the office of the clerk of court, where actual on site improvements, (i.e., drainage, roads, building construction, etc.) have never been constructed or have deteriorated substantially, or where said improvements have been lacking or neglected due to the lack of appreciable development.

- (1) The planning commission reserves the right to impose certain requirements on dormant subdivisions, with regard to the health, safety and general welfare of the public.
- (2) Construction or reconstruction of any streets in dedicated parish rights-of-way must first receive planning commission approval prior to commencement of construction.

(Ord. No. 499, § 40-081.0, 5-21-1970; Ord. No. 88-897, 1-21-1988)

Sec. 125-218. Subdivisions (special uses) review.

The parish recognizes the need for flexibility with the regulations with regards to the development of some subdivisions that have unique and distinct characteristics particular to them, that would not otherwise be provided for by the strict interpretation and enforcement of these subdivision regulations. Therefore, the following regulations shall apply to those types of developments referenced to in the following sections.

(Ord. No. 499, § 40-082.0, 5-21-1970)

Sec. 125-219. Commercial shopping centers.

(a) Due to the wide variation in purpose and design of commercial shopping centers, each development will have its particular effect on public safety, health, and welfare. The developer is required to consult with the department of planning and development, department of public works, and department of environmental services of the parish, and then with the planning commission at a point early in the planning process to establish the requirements for a particular site and project.

(b) Where reasonable and practical, commercial shopping centers shall follow the same procurement process as regular subdivision development.

(Ord. No. 499, § 40-083.0, 5-21-1970)

Sec. 125-220. Mobile home parks.

The cost of laboratory testing and inspections for aggregate or hard surfaced road will be borne by the mobile home park developer and will be invoiced through the testing laboratory selected to do the testing.

- (1) *Definitions.* The following words, terms and phrases, when used in this section, shall have the meanings ascribed to them in this subsection, except where the context clearly indicates a different meaning:

Mobile home means a structure, transportable in one or more sections which is eight body-feet or more in width and is 32 body-feet or more in length, and which is built on a permanent basis, and designed to be used as a dwelling with or without a permanent stand, when connected to the required utilities.

Mobile home park means a parcel (or contiguous parcels) of land which has been designated and improved so that it contains four or more mobile or modular home spaces available to the general public for lease or rent and shall be regulated by subdivision regulations. The tract or tracts which comprise the mobile home park shall consist of a minimum of ten acres of land, which cannot be sold or otherwise alienated, except as an individual unit during the existence of the park.

Mobile home space means a designated parcel of land in a mobile home park designed for the accommodation of one mobile home, its accessory buildings or structures and accessory equipment for the exclusive use of the occupants.

Mobile home stand means the area of a mobile home space which has been reserved for the placement of a mobile home.

- (2) *General requirements.*

- a. A minimum of ten acres is required for a mobile home park.
- b. Lot lines need not be delineated within the park; however, each mobile home site must be clearly designated on the subdivision plat and meet minimum setback requirements.
- c. All mobile home parks must receive state fire marshal approval as per the NFPA Life Safety Code Pamphlet 501A prior to issuance of a work permit.

- (3) *Density.* A mobile home park shall have a gross density of not more than eight units per acre.

- (4) *Setbacks.*

- a. All mobile homes shall be located at least 25 feet from any roadway.
- b. No mobile home shall be situated in a manner so that any part of such mobile home will obstruct any roadway or walkway in a mobile home park.

- (5) *Roadways.*
- a. Safe and convenient access shall be provided for vehicular traffic and emergency vehicles at all times.
 - b. Each mobile home lot within a mobile home park shall have direct access to a park street or public street. The access shall be an unobstructed area not less than ten feet in width which may be pedestrian in character.
 - c. All roadways shall be hard surfaced in accordance with subdivision regulations with the exception that one-way streets shall have a 40-foot minimum right-of-way with a 16-foot compacted sub-base, with four-foot shoulders and a 12-foot, hard surfaced road. Composition of base material shall be according to subdivision regulations. Said roadways are acceptable in mobile home parks solely for the purpose of this section. When so installed, they shall not be eligible for nor accepted into the parish road maintenance system.
 - d. Streets and walkways designed for the general use of mobile home park residents shall be lighted during the hours of darkness. Such lighting shall not be under the control of the mobile home occupant. Poles shall not exceed 35 feet in height, and longitudinal spacing shall not exceed 200 feet.
- (6) *Sidewalks.* If sidewalks are provided, they shall be located not less than one foot from the property line. Sidewalks shall connect individual homes with parking areas. In no case shall sidewalks be less than four feet wide.
- (7) *Vehicle parking.*
- a. Two off-street automobile parking spaces shall be required for each mobile home stand. The minimum dimension of these spaces shall be nine feet wide by 20 feet deep. In no event shall parking be located over 100 feet from the corresponding mobile home stand.
 - b. Parking spaces are required to be composed of a minimum of a four-inch compacted sub-base of clay, sand and gravel, with a two-inch surface course of gravel or shell.
- (8) *Recreation/open space.*
- a. Twenty-five percent of the total land area shall be open space reserved for the exclusive use of the residents of the park.
 - b. This area shall be maintained in a clean and sanitary condition at all times.
- (9) *Floodplain provision.* Any mobile home park or portion thereof that is located within the special floodplain hazard area defined by the Federal Insurance Administration

shall be required to comply with conditions placed upon the park by the planning commission and the department of public works, including, but not limited to, the following requirements:

- a. Construction or modification of sewerage, water supply, and drainage facilities to meet appropriate approval by the department of environmental services and/or department of public works;
- b. Requirements for protective measures such as dikes or levees;
- c. Use of paints, membranes or mortar to reduce seepage of water through walls; and
- d. Construction of water supply and waste treatment systems so as to prevent the entrance of floodwaters.

(10) *General lot requirements.*

- a. Mobile homes shall be installed on a mobile home stand which must provide a second base for structural support of the mobile home to secure the structure against uplifting, sliding, overturning, shifting or uneven settling.
- b. Anchorage to resist flotation and lateral movement must be provided.

(11) *Mobile home stand.* Each mobile home stand shall have, as a minimum for support, one 16-inch by 16-inch concrete pad four inches in thickness for every 50 square feet of floor area.

(12) *Maintenance requirements.*

- a. The mobile home park shall be maintained in a clean sanitary condition at all times.
- b. The storage of automobiles is prohibited.
- c. No pets shall be allowed to roam the mobile home park; if pets are allowed, they shall be confined in a fenced yard or on a leash.
- d. Trash receptacles shall be screened by a six-foot sight obscuring fence.
- e. Grass, weeds, and other vegetation not considered as part of the ornamental landscape shall not exceed 12 inches in height.

(13) *Electrical systems.*

- a. Underground utilities shall be provided.
- b. Electric hookups shall be provided to all mobile home stands and there shall be at least one electrical single-phase outlet supplying a minimum of 115/230 volts.

(14) *Water system.*

- a. Pure potable water shall be supplied to each and every mobile home occupied in mobile home parks.

- b. This system shall be designed, constructed, and protected in accordance with current health, plumbing, electrical and fire protection standards, codes and ordinances adopted and administered by the state and/or the parish.
- (15) *Sewage disposal system.* Central sewerage systems are required for all mobile home parks under inspection of, and regulated by the department of environmental services of the parish and any appropriate state agencies.
- (16) *Fences.* If fences are provided, fences for privacy purposes shall be connected to the mobile home and shall not exceed six feet in height and shall not be placed closer than five feet to any other mobile home.
- (17) *Fire protection.* Access to a mobile home for fire protection services shall be such as to permit fire apparatus to approach within 100 feet of each mobile home.
- (18) *Responsibilities of owner.*
- a. The owner of the mobile home park shall be responsible for the supervision, operation and maintenance of the park. The owner or his designer shall be available or on call at all times in the event of an emergency.
 - b. The owner shall be responsible for ensuring that each mobile home within his mobile home park complies with the provisions of these regulations.
- (19) *Compliance with subdivision regulations.* Mobile home subdivisions are required to follow the subdivision regulations and procedures as specified within this chapter.
- (20) *Fees.* Upon the initial submission of the plats to the planning commission, the mobile home park developer shall pay the following fees and charges connected with the procuring, inspection, building, testing and evaluating of the mobile home park submitted:
- a. One hundred dollars per one acre of land or fraction thereof;
 - b. Twenty-five percent of said amount shall be paid to the parish planning commission for those inspections and reviews which are equivalent to tentative approval; and
 - c. Seventy-five percent of said amount shall be paid to the parish department of public works at the time of those inspections and reviews which are equivalent to preliminary approval.
- (21) *Fines.* Any person who violates any provision of these regulations shall upon conviction be punished by a fine of not less than \$100.00 per day for each days failure to comply with any provision herein.

- (22) *Licenses.* It shall be unlawful for any person to operate or maintain any mobile home park within the unincorporated areas of the parish unless he holds a valid license issued by the parish department of planning and development or its successor authorized representative of the parish council. Said license shall be issued in the name of the current property owner for the specific mobile home park.
- a. *License fees.* For each license issued under the provisions of these regulations, there shall be paid to the parish department of planning and development an annual fee based on the number of mobile home spaces in the park for which the license is issued. The fee shall be \$5.00 per space for the first five spaces and \$2.00 per space for each additional space.
 - b. *New licenses.* Application for a license required by a new, altered or extended mobile home park shall be in writing and on a form provided by the parish department of planning and development. The license shall be applied for at the same time tentative plans are submitted to the department of planning and development. Said license shall be approved by the planning commission prior to tentative approval. New licenses shall be valid for one calendar year.
 - c. *Renewal licenses.* A license for a mobile home park shall be valid for the calendar year in which it is issued by the department of planning and development. Application for such license shall be in writing on a form provided by the department of planning and development and shall be renewed annually upon a satisfactory inspection in which the applicants mobile home park is found to be in compliance with these regulations. Prior to issuance of a renewal license by the department of planning and development, the applicant shall possess and present a current title to said property for examination to operate and maintain a mobile home park.
 - d. *Transfer of license.* Upon the sale, transfer, or donation of a licensed mobile home park, the vendor (licensee) shall notify the department of planning and development in writing within five working days of said sale, transfer, or donation. Such notice shall include the name and address of the vendee of the mobile home park. No mobile home park shall be sold or otherwise alienated except as a whole unit during the existence of the park. Upon application in writing for transfer of the license, the parish shall transfer the license which will remain valid until its expiration.
 - e. *License revocation or suspension.* When the department of planning and development determines that any person holding a license under these regulations has or may have violated any of the provisions of this section or any health regulations of the state, a written notice shall be served on such licensee in person or by registered mail, specifying the violation and requiring correction within 30 days. If correc-

tions have not been made within 30 days, the parish shall have the right to revoke all licenses pertaining to said park and require that the property owner rid the park of all trailers or mobile homes.

(Ord. No. 499, § 40-084.0, 5-21-1970; Ord. No. 88-987, 1-21-1988)

Sec. 125-221. Mobile home parks (nonconforming).

(a) *Purpose.* The purpose of this section is to provide a means for nonconforming mobile home parks (prior to December 18, 1980) to qualify for licensing purposes, by providing minimum quality regulatory standards as established by the parish within this section.

(b) *Application requirements.* An application containing the following minimum quality standards for nonconforming mobile home parks, shall be submitted to the department of planning and development.

- (1) Three copies of a site development plan (11-inch by 17-inch minimum size) shall be submitted and drawn to scale indicating the following items:
 - a. Name of development.
 - b. Name of developer/owner.
 - c. Section, township and range.
 - d. Vicinity map at top left-hand corner of plan.
 - e. North arrow.
 - f. Total number of sites within development (indicate sites by using rectangular boxes).
 - g. Setbacks from all streets.
 - h. Existing streets and type of surfacing.
 - i. Total acreage of development.
 - j. Type of sewage disposal.
 - k. Disclosure of any open space or recreational areas.
 - (2) A legal description that defines the boundaries of the development.
 - (3) A copy of the maintenance and/or operation agreement for the development.
 - (4) Upon satisfactory completion of the application requirements, the department of public works and/or planning commission shall issue a mobile home park license to the developer/owner of the mobile home park.
- (c) *Fees.*
- (1) There shall be a one-time processing fee of \$50.00 to cover administrative costs for reviewing the application requirements.

- (2) All licensing fees shall conform to the established fees as set forth within section 125-220, mobile home parks.

(d) *Expansion of nonconforming mobile home parks.* Any expansion of nonconforming mobile home parks shall be required to conform to the established rules and regulations as set forth in section 125-220, mobile home parks.

(Ord. No. 499, § 40-085.0, 5-21-1970; Ord. No. 88-897, 1-21-1988)

Sec. 125-222. Planned unit developments.

(a) Persons desiring to use land as a planned unit development shall first submit the necessary plans and documentation as required by the Planned Unit Development District provisions under the UDC.

(b) It is the intent of this section that a project site plan, which sets forth the proposed concept, layout, design, and intended land uses, shall be submitted to the parish department of development simultaneously with the application for the rezoning of a planned unit development as described per UDC. Further, the applicant shall submit an application for tentative subdivision review as described per this section to the parish department of development prior to any development or construction activity commencing on the property.

(c) Preliminary and final review and approval shall be carried out in accordance to section 125-195, preliminary subdivision review and section 125-203, final subdivision review, and any and all other applicable sections of these regulations.

(d) For PUD zones containing a total of 25 acres of land or less, tentative, preliminary and final approvals can only be given for a single phased development.

(Ord. No. 499, § 40-086.0, 5-21-1970; Ord. No. 00-0138, 5-4-2000; Ord. No. 03-0609, 2-6-2003)

Sec. 125-223. Recreational vehicle park and camping ground subdivision.

(a) Recreational park subdivisions are required to follow the subdivision regulations and procedures as specified by this article as amended.

(b) Developers of all recreational camping grounds and/or recreational vehicle park subdivisions shall apply for the appropriate zoning classification as prescribed by the UDC.

(c) The development of recreational camping ground and/or recreation vehicle park subdivision shall conform to all applicable guidelines established in section 130-2112(34), "RVP Recreational Vehicle Park District" or the UDC, as well as conform to the provisions in this article.

(d) Floodplain provisions. Any recreational park or portion thereof that is located within the special floodplain hazard area defined by the Federal Insurance Administration shall be required to comply with conditions placed upon the park by the council and the planning commission including but not limited to the following:

- (1) Construction or modification of sewerage, water supply, and drainage facilities to meet appropriate approval by the department of environmental services of the parish and/or department of public works.

- (2) Requirements of protective measures such as dikes or levees.
- (3) Use of paints, membranes, or mortar to reduce seepage of water through walls.
- (4) Construction of water supply and waste treatment systems so as to prevent the entrance of floodwater.
- (e) Responsibilities of the owner/developer.
 - (1) The owner of the recreational park shall be responsible for the supervision, operation, and maintenance of the park. The owner or his designer shall be available or on call at all times in the event of an emergency.
 - (2) The owner shall be responsible for ensuring that each campsite within his recreational park complies with the provisions of these regulations.

(f) Licenses. It shall be unlawful for any person to operate or maintain any recreational park within the unincorporated areas of the parish unless he holds a valid license issued by the parish department of public works or its successor authorized representative of the parish council. Said license is to be issued in the name of the current property owner for the specific recreational park.

- (1) *License fees.* For each license issued under the provisions of these regulations, there shall be paid to the parish department of planning and development an annual fee based on the number of campsite spaces in the park for which the license is issued. The fee shall be \$5.00 per space for the first five spaces and \$2.00 per space for each additional space.
- (2) *New license.* Application for a license required by a new, altered or extended recreational park shall be in writing and on a form provided by the parish department of planning and development. The license shall be applied for at the same time tentative plans are submitted to the department of planning and development. Said license shall be approved by the planning commission prior to tentative approval. New licenses shall be valid for one calendar year.
- (3) *Renewal of license.* A license for a recreational park shall be valid for the calendar year in which it is issued by the department of planning and development. Application for such license shall be in writing on a form provided by the department of planning and development and shall be renewed annually upon a satisfactory inspection in which the applicants recreational park is found to be in compliance with these regulations. Prior to issuance of a renewal license by the department of planning and development, the applicant shall possess and present a current title to said property for examination to operate and maintain a mobile home park.
- (4) *Transfer of license.* Every person holding a license to operate and maintain a recreational park shall give written notice in writing to the department of planning and development no later than five working days after having sold, transferred, given away

or otherwise disposed of said recreational park. Such notice shall include the name and address of the vendee of the recreational park. No recreational park shall be sold or otherwise alienated except as a whole unit during the existence of the park. Upon application in writing for transfer of the license, the parish shall transfer the license which will remain valid until its expiration.

- (5) *Revocation or suspension of license.* When the department of planning and development determines that any person holding a license under these regulations has or may have violated any of the provisions of this section or any health regulations of the state, a written notice shall be served on such licensee in person or by registered mail, specifying the violation(s) and requiring correction within 30 days. If corrections have not been made within 30 days, the parish shall have the right to revoke all licenses pertaining to said park and require that the property owner rid the park of all recreational vehicles.
- (6) *Fines.* Any person who violates any provision of these regulations shall upon conviction be punished by a fine of not less than \$100.00 per day for each days failure to comply with any such provision.

(Ord. No. 499, § 40-087.0, 5-21-1970; Ord. No. 88-987, 1-21-1988)

Sec. 125-224. Schedule of fees.

The following is a schedule of fees charged by the parish for the processing, inspection, testing and other administrative and indirect services incurred involving development of property, as set forth, and subject to, the requirements of this article:

- (1) *Residential (including) dormant, commercial, and industrial subdivisions.*
- a. *Tentative subdivision stage.*

Lot fee	\$100.00 filing fee plus \$15.00 per lot
---------	--

- b. *Preliminary subdivision stage.*

Lot fee	\$30.00 per lot
Sewerage and water (review fee)	\$10.00 per lot
Linear feet of water distribution pipe	\$0.06 per linear foot
Water supply facility	\$30.00 per facility
Linear feet of sewerage collection pipe	\$0.11 per linear foot
Collection/treatment facility	\$30.00 per facility

- c. *Final subdivision stage.*

Lot fee	\$60.00 per lot
Sewerage and water (review fee)	\$15.00 per lot, plus \$20.00

Note: Subdivisions requiring minimal construction and improvements shall be charged a one-time processing fee at the discretion of the department of planning and development subject to appeal by the petitioner to the parish planning commission.

- (2) *Resubdivisions.*
- a. Ninety dollars per acre of total land area to be resubdivided with a maximum fee of \$800.00. (Minimum fee of \$90.00, pro-rata after the first acre.)
 - b. Recordation check made out to clerk of court: \$15.00 (8½" x 14" survey size) or \$20.00 (11" x 17" survey size).
- (3) *Planned unit developments.* PUD Planned Unit Development fees shall be the same as established for industrial, commercial and residential subdivisions as referenced to above.
- (4) *Special construction.* Special construction requiring the review and inspection by the parish engineer and/or his representative shall have fees established at their discretion subject to appeal by the petitioner to the parish planning commission. Examples of special construction are as follows: bulkheads, revetments, subsurface drainage, canals and water systems, miscellaneous construction involving the public health, welfare and safety, etc.
- (5) *Commercial shopping centers.* Fees for commercial shopping centers including "strip" shopping centers, where lots are not created, shall be an initial \$250.00 processing fee and \$100.00 per acre.
- (6) *Mobile home parks.* Subdivision fees, where sites are offered for lease or rent, shall be in accordance and prescribed as per section 125-220(20), mobile home parks, fees. In the event that sites or lots are sold, fees shall be in accordance with fees established for industrial, commercial and residential subdivisions. License fees for the operation of mobile home parks are prescribed as per section 125-220(22)a., mobile home parks, licenses.
- (7) *Mobile home parks (nonconforming).* A \$50.00 one-time processing fee to cover administrative costs.
- (8) *Recreational vehicle parks and camping grounds.* Development fees shall be discretionary and determined based on the size and complexity of the development. If the developer feels that the fees, when determined, are to excessive, said developer can exercise his right to appeal the fees to the planning commission. License fees are as prescribed per section 125-223(f)(1), recreational vehicle park and camping ground, licenses.
- (9) *Lab testing.* The costs of laboratory testing and inspections for hard surfaced roads will be borne by the developer and will be invoiced through the testing laboratory selected to do the testing.

(Ord. No. 499, § 40-090.0, 5-21-1970)

Sec. 125-225. Waiver of regulations.

(a) Cases will occur where certain articles of the regulations cannot reasonably be complied with without causing undue hardship. If the developer or property owner of record cannot comply with certain articles, he may make a request in writing to the chairperson of the planning commission, stating that he is requesting a waiver of a particular section or sections that affect him and the reasons therefor.

(b) The planning commission may grant any such waiver as it deems proper by a resolution adopted by not less than a two-thirds majority affirmative vote of the planning commission membership.

(c) Such approved waivers shall be filed with the director of the department of public works and/or development and will be so noted in the files.

(Ord. No. 499, § 40-100.0, 5-21-1970; Ord. No. 88-897, 1-21-1988)

Sec. 125-226. Amending of the regulations.

All regulations, stipulations, procedures and requirements within this article, shall be amended or revised at such times as needed by ordinance and supported for adoption by at least ten members of the parish council.

(Ord. No. 499, § 40-101.0, 5-21-1970; Ord. No. 957, 4-19-1979)

APPENDIX I. SUPPLEMENTAL SECTION*

***Editor's note**—Printed herein is the supplemental section of Ordinance No. 499, as adopted by the parish on May 21, 1970. Amendments to the ordinance are indicated by parenthetical history notes following amended provisions. The absence of a history note indicates that the provision remains unchanged from the original ordinance. Obvious misspellings and punctuation errors have been corrected without notation. For stylistic purposes, section numbers and catchlines have been added. Additions made for clarity are indicated by brackets.

[Sec. I-1. Tentative subdivision approval check sheet and flow diagram.]

TENTATIVE SUBDIVISION APPROVAL CHECK SHEET

The Developer shall submit to the Department of Planning a minimum of ten (10) 24" x 36" folded copies of the proposed subdivision plat. If the proposed subdivision is to be developed in stages/phases, two (2) copies of the master plan must be furnished depicting all of the proposed phases to the subdivision. The subdivision plat must be drawn to scale inclusive of providing all relevant information as described below.

Subdivision Name: _____ Section-Township-Range _____

Developer's Name: _____

Developer's Address: _____

StreetCityStateZip Code

Developer's Phone No. _____

(Business)(Cell)(Fax)

Engineer's Name/Firm: _____

Engineer's Address: _____

StreetCityStateZip Code

Developer's Phone No. _____

(Business)(Cell)(Fax)

TENTATIVE SUBDIVISION CHECKLIST

Please check the appropriate boxes below to insure that the proper information and documentation for the tentative subdivision approval process, as well as items to be depicted on the tentative subdivision plat, have been included with your application.

- ☐ Tentative subdivision fees (\$15.00 per lot, plus \$100.00)

☐ Flood zone A (lines of demarcation)

☐ 10 folded copies of the tentative subdivision plat

☐ North direction arrow

☐ Traffic Impact Analysis Study (if applicable)

☐ Scale of drawings

☐ Typed legal description (on 8 ½" x 11" paper)

☐ Phases within subdivision (proposed and future)

☐ Environmental Assessment Data Form (attached)

☐ Proposed front and corner yard setback lines

☐ Illustration showing the ultimate disposal of drainage

☐ Typical lot sizes and dimensions

☐ Utility Disclosure Letter (notarized)

☐ Location of proposed or existing servitudes

☐ Subdivision name (top center of plat)

☐ Proposed street and road names

☐ Section, Township and Range (under subdivision name)

☐ Adjoining land uses

☐ Wetland determination (depict lines of demarcation)

☐ Existing structures

☐ Vicinity map inset detail (upper left-hand corner of plat)

☐ Proposed parks and playgrounds

☐ Location of sewerage and water facilities

☐ Any land fills on property (notation on plat)

☐ Parish restrictive covenants (upper right-hand corner)

☐ Enhanced subdivision entrance (inset detail)

☐ Typical street cross-section detail (lower left-hand corner)

☐ Declaration of street ownership (private or public)

- ☐ Information block (zoning, streets, number of lots, acreage, maximum block length, average lot size, etc....)
- ☐ Street and road right-of-way widths
- ☐ Flood Zone (A, B, C or V to be depicted on plat)
- ☐ Proposed form of detention (note or illustrate on plat)
- ☐ PUD zoning plan compliance letter (if applicable)

Please refer to Section 40-050.0 Tentative Subdivision Review, of Subdivision Regulatory Ordinance No. 499 for additional criteria and requirements.

PRE-PRESS COPY

[Sec. I-2. Preliminary subdivision approval check sheet.]

PRELIMINARY SUBDIVISION APPROVAL CHECK SHEET

The Developer shall submit to the Department of Planning a minimum of eighteen (18) 24" x 36" folded copies of the proposed preliminary subdivision plat. The subdivision plat constitutes the detailed plan of the subdivision by which the construction of the streets, drainage, structure and channels will be executed by the developer. It is therefore necessary that the plat be an actual ground survey to insure that the plan will be feasible and practical. The subdivision plats must be drawn to scale inclusive of providing all relevant information as described below.

Subdivision Name: _____

Section-Township-Range _____

Developer's Name: _____

Developer's Address: _____

StreetCityStateZip Code

Developer's Phone No. _____

(Business)(Cell)(Fax)

Engineer's Name/Firm: _____

Engineer's Address: _____

StreetCityStateZip Code

Developer's Phone No. _____

(Business)(Cell)(Fax)

PRELIMINARY SUBDIVISION CHECKLIST

Please check the appropriate boxes below to insure that the proper information and documentation for the preliminary subdivision approval process, as well as items to be depicted on the preliminary subdivision plat, have been included with your application.

- ☐ Preliminary subdivision fees (\$40.00 per lot, S & W fees)

☐ (18) folded copies of the preliminary subdivision plat

☐ Total length of streets to be constructed

☐ Environmental Assessment Data Form (completed)

☐ Vicinity map

☐ Legal description (on 8 1/2" x 11" paper)

☐ Section corner tie

☐ Engineering certification

☐ Signature lines for parish officials and clerk of court

☐ Signature lines for developer/owner (if applicable)

☐ Culvert size for each lot

☐ Board of Health letter

☐ Restrictive covenants (top right-hand corner of plat)
- ☐ Total acres in development

☐ Total number of lots

☐ Coastal Zone review (if applicable)

☐ Ditch/canal profile bottoms not in street ROW

☐ Total acres of easements to be dedicated

☐ Existing easements

☐ Proposed easements

☐ Building setback lines

☐ Interstate land sales compliance letter

☐ Street lighting plan (if applicable)

☐ Right-of-way grants (if any)

☐ Areas subject to inundation (100 year flood)

☐ Detention pond maintenance: whom (note on plat)

- ☐ Cross-section of road (to scale)

☐ Plat corrections per tentative subdivision approval

☐ Three (3) sets of detailed plans and specs for central sewerage and/or water systems (including piping, etc.)
- ☐ Cross-section of detention pond(s)

☐ Sedimentation barriers

☐ Signage plan and blue reflectors

Please refer to Section 40-060.0 Preliminary Subdivision Review, and Section 40-061.0 Additional Requirements to Preliminary, at el, of Subdivision Regulatory Ordinance No. 499 for additional criteria and requirements.

I hereby certify that all information provided relative to the preliminary subdivision review submission is true, accurate and correct and in accordance to St. Tammany Parish code requirements.

PRELIMINARY APPROVAL DRAINAGE CHECK SHEET

In addition to submitting the eighteen (18) preliminary subdivision plats to the Department of Planning, a separate set of eighteen (18) plats (24" x 36") folded copies must be submitted providing the following items, information or data.

Please check the appropriate boxes below to insure compliance:

- ☐ Vicinity map
- ☐ Topographical map of subdivision depiction one (1') foot contours
- ☐ Flood Zone A and V areas using lines of demarcation to depict said areas
- ☐ Datum used for elevation control
- ☐ Ultimate surface disposal (U.S.G.S. Quad Map) or vicinity map
- ☐ Direction of flow of surface water in street ditches, canals and on lots
- ☐ Location, size and type of drainage structures
- ☐ Sections and profiles of canals to be constructed
- ☐ Proposed drainage easements for parish maintenance (must conform to Parish standards)
- ☐ Any right-of-ways required
- ☐ Minimum floor elevations for residential structures
- ☐ Certificates by a registered professional engineer
- ☐ Copy of restrictive covenants for the subdivision
- ☐ Proposed street cross-sections (to scale) and surfacing criteria

Preliminary Subdivision Fees to be Paid:

(Subdivision Fees)

_____ lots @ \$30.00 per lot \$_____

(Sewerage & Water Fees)

_____ lots @ \$10.00 per lot \$_____

_____ Linear feet of water distribution pipe @ \$0.06 \$_____

_____ Linear feet of sewerage collection pipe @ \$0.11 \$_____

_____ Water supply facilities @ \$30.00 per facility \$_____

_____ Sewerage collection treatment facilities @ \$30.00 per facility \$_____

_____ Total Amount Paid \$_____

I hereby certify that all information provided relative to the preliminary subdivision review submission is true, accurate and correct and in accordance to St. Tammany Parish code requirements.

[Sec. I-4. Final subdivision approval check sheet.]

FINAL SUBDIVISION APPROVAL CHECK SHEET

The Developer shall submit to the Department of Planning a minimum of eighteen (18) 24" x 36" folded copies of the proposed final subdivision plat. To obtain final subdivision approval, all work must be completed, or an acceptable funded performance obligation posted to insure completion of the work. The subdivision plats must be drawn to scale inclusive of providing all relevant information as described below.

Subdivision Name: _____

Section-Township-Range _____

Developer's Name: _____

Developer's Address: _____

(Business)(Cell)(Fax)

FINAL SUBDIVISION CHECKLIST

Please check the appropriate boxes below to insure that the proper information and documentation for the final subdivision approval process, as well as items to be depicted on the final subdivision plat, have been included with your application.

- ☐ Final subdivision fees (\$75.00 per lot, plus a \$20.00 one-time inspection fee)

☐ (18) folded copies of the final subdivision plat and paving and drainage plans

☐ Scale of plan

☐ North direction arrow

☐ Vicinity map inset detail

☐ Boundary Survey

☐ Section corner tie

☐ Location of permanent markers at each lot corner

☐ As-built drawing for community sewerage and water facilities (3 sets minimum)

☐ Legal instrument for recordation stating responsibility for maintenance and upkeep of green space/park areas
- ☐ Signature of dedication (roads and drainage)

☐ Approval and recordation signatures

☐ Engineer's certificate and stamp

☐ Blue reflectors relative to fire hydrants

☐ Surveyor's certificate and stamp

☐ Board of Health letter

☐ Compliance with Interstate Land Sales Act

☐ Required easements

☐ FEMA Flood Delineation per last panel

☐ Total acres (information block on plat)

☐ Number of lots (information block on plat)

☐ Lot dimensions (information block on plat)

☐ Depict building setback lines for lots

☐ Depict existing street connections

- ☐ Restrictive covenants

☐ Statement prohibiting mobile homes (if applicable)

☐ Act of dedication (roads and drainage)

☐ Intersection safety

☐ Elevations of streets

☐ Depict bench marks (if applicable)

☐ Proposed flood protection (if applicable)

☐ Recordation check made out to Clerk of Court
- ☐ Dead-end streets (not permitted)

☐ Length of streets (information block on plat)

☐ Street names

☐ Indicate adjacent land uses (on plat)

☐ Street name signs

☐ Traffic signs and blue reflectors

☐ Municipal street addresses for all lots

☐ Existing easements

Please refer to Section 40-070.0 Final Subdivision Review, at el, of Subdivision Regulatory Ordinance No. 499 for additional criteria and requirements.

I hereby certify that all information provided relative to the final subdivision review submission is true, accurate and correct and in accordance to St. Tammany Parish code requirements.

[Sec. I-5. Final approval paving and drainage check sheet and flow diagram.]

FINAL APPROVAL PAVING & DRAINAGE CHECK SHEET

In addition to submitting the eighteen (18) final subdivision plats to the Department of Planning, a separate set of eighteen (18) plats (24" x 36") folded copies must be submitted providing the following items, information or data. Please check the appropriate boxes below to insure compliance:

- ☐ All checks as per the preliminary drainage check sheet
- ☐ Elevation of streets and roads

The subdivision plat shall depict the paving and drainage as actually constructed and whether or not there are any deviations from the preliminary plans that were approved by this office.

Final Subdivision Fees to be Paid:

(Subdivision Fees)

lots @ \$60.00 per lot \$

(Sewerage & Water Fees)

lots @ \$15.00 per lot, plus a \$20.00 one-time inspection fee \$

Total Amount Paid \$

I hereby certify that all information provided relative to the final subdivision review submission is true, accurate and correct and in accordance to St. Tammany Parish code requirements.

ENVIRONMENTAL ASSESSMENT DATA FORM

Applicant's Name: _____

Developer's Address: _____

StreetCityStateZip Code

Developer's Phone No. _____

(Business)(Cell)

Subdivision Name: _____

Number of Acres in Development: _____ Number of Lots/Parcels in Development: _____

Ultimate Disposal of Surface Drainage: _____

Water Surface Runoff Mitigation Proposed: _____

(Please check the following boxes below, where applicable:)

- Type of Sewerage System Proposed: ☐ Community ☐ Individual

- Type of Water System Proposed: ☐ Community ☐ Individual

- Type of Streets and/or Roads Proposed: ☐ Concrete ☐ Asphalt ☐ Aggregate ☐ Other

- Land Formation: ☐ Flat ☐ Rolling Hills ☐ Marsh ☐ Swamp ☐ Inundated ☐ Tittle Flow

- Existing Land Use: ☐ Undeveloped ☐ Residential ☐ Commercial ☐ Industrial ☐ Other

- Proposed Land Use: ☐ Undeveloped ☐ Residential ☐ Commercial ☐ Industrial ☐ Other

- Surrounding Land Use: ☐ Undeveloped ☐ Residential ☐ Commercial ☐ Industrial ☐ Other

- Does the subdivision conform to the major street plan? ☐ Yes ☐ No

- What will the noise level of the working development be? ☐ Very Noisy ☐ Average ☐ Very Little

- Will any hazardous materials have to be removed or brought on-site for the development? ☐ Yes ☐ No
If yes, what are the hazardous materials? _____

- Does the subdivision front on any waterways? ☐ Yes ☐ No
If yes, what major streams or waterways? _____

- Does the subdivision front on any major arterial streets? ☐ Yes ☐ No
If yes, which major arterial streets? _____

- Will any smoke, dust or fumes be emitted as a result of operational construction? ☐ Yes ☐ No
If yes, please explain? _____

- Is the subdivision subject to inundation? ☐ Frequently ☐ Infrequently ☐ None at all

- Will canals or waterways be constructed in conjunction with this subdivision? ☐ Yes ☐ No

(Does the proposed subdivision development...)

- a.) have or had any landfill(s) located on the property?

☐ Yes☐ No

b.) disrupt, alter or destroy any historical or archeological sites or district?

☐ Yes☐ No

c.) have a substantial impact on natural, ecological recreation, or scenic resources?

☐ Yes☐ No

d.) displace a substantial number of people?

☐ Yes☐ No

e.) conform with the environmental plans and goals that have been adopted by the parish?

☐ Yes☐ No

Ch. 125, App. I, § I-6

- I hereby certify to the best of knowledge and ability, that this subdivision development will not adversely impact the surrounding environment, inclusive of all the information contained herein; and further, said information provided and answered above is accurate, true and correct.*

[Sec. I-7. Street name and traffic control signs.]**STREET NAME AND TRAFFIC CONTROL SIGNS**

The intent of these provisions is to achieve the objectives of public safety and functionality of infrastructure parish-wide. Parish maintained traffic controls and signage will be updated in conformity with these regulations in accordance with a plan of the Parish Department of Public Works.

All privately maintained traffic controls and signage in Subdivisions, Planned Unit Developments (PUDs), and Traditional Neighborhood Developments (TNDs) receiving final subdivision approval prior to March 01, 2016, are generally exempt from the requirements of these regulations, except when and until the replacement of all traffic controls, signage and mounting poles within the development becomes necessary.

All owners of property who wish to develop new Subdivisions, PUDs, and TNDs within St. Tammany Parish shall install uniform street name signs, stop signs, and any other regulatory signage deemed necessary by St. Tammany Parish Government (the "Parish") in accordance with the following specifications and the most current version of the Manual on Uniform Traffic Control Devices (MUTCD), Association of State Highway and Transportation Officials (AASHTO) Roadside Design Guide, and Louisiana Law. In the event of a conflict Parish specifications are to be followed.

(A.) STOP Signs (R1-1)

STOP signs shall be an octagon with a white message and border on a red background. The standard size of the sign shall be thirty (30") inches by thirty (30") inches. Where greater emphasis or visibility is required, a larger size sign may be required.

At intersections where all approaches are controlled by STOP signs, an ALL WAY supplemental plaque shall be mounted below each stop sign. The ALL WAY plaque shall have a white legend and border on a red background and shall have a standard size of eighteen (18") inches by six (6") inches. The message shall state ALL WAY. Supplemental plaques with legends such as 2-WAY, 3-WAY, 4-WAY or other numbers of ways shall not be used with stop signs.

Specifications for STOP Signs:

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant

For other specification guidelines see section (M).

All mounting poles shall follow standards as specified in section (K).

(B.) STREET NAME Signs (D3-1)

Street Name signs should be erected in urban areas at all street intersections regardless of other route markings that may be present. In business or commercial areas and on principle arteries, Street Name signs should be placed at least on diagonally opposite corners. In residential areas, at least one Street Name sign should be installed at each intersection. Signs naming both streets should be installed at each intersection. They should be mounted with their faces parallel to the streets they name.

Street Name signs may also be placed above a regulatory or STOP or YIELD sign with no vertical separation.

The legend and background of the signs shall be contrasting colors. For roads that will be dedicated to and maintained by the Parish, and whose signs will be maintained by the Parish, the sign shall have white lettering (legend) on a blue background. For Street Name signs that will be privately maintained by the developer or homeowners' association after final subdivision approval, the legend and background shall be contrasting colors, but may have an alternative background color. The only acceptable alternative background colors for Street Name signs other than blue shall be green, brown, or white. Regardless of whether green, blue, or brown is used as the background color for Street Name signs, the legend (and border, if used) shall be white. For Street Name signs that use a white background, the legend (and border, if used) shall be black.

Specifications for Street Name Signs:

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant.

For other specification guidelines see section (M).

All mounting poles shall follow standards as specified in section (K).

(C.) YIELD Signs (R1-2)

Yield signs shall be a downward pointing equilateral triangle having a red border band and a white interior and the word yield in red inside the border band. The border band must be five (5") inches for the thirty-six (36") inch sign and six (6") inches for the forty-eight (48") inch sign.

Yield signs may be used on a minor road at the entrance to an intersection where it is necessary to assign right-of-way to the major road, but where a STOP sign is not necessary at all times, and where the safe approach speed on the minor road exceeds ten (10) mile per hour.

Yield signs shall be located in the same manner as a STOP sign.

Specifications for Yield Signs:

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant.

For other specification guidelines see section (M)

All mounting poles shall follow standards as specified in section (K).

(D.) SPEED LIMIT Signs (R2-1)

Speed Limit signs shall display the limit established by law or by regulation. In accordance with the MUTCD, speed limits shown shall be in multiples of five (5) miles per hour.

Specifications for Speed limit Signs:

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant

For other specification guidelines see section (M).

All mounting poles shall follow standards as specified in section (K).

(E.) NO U-TURN Signs (R3-4):

A No U-Turn sign is intended for use at or between intersections to indicate where U-turns are prohibited.

Specifications for No U-Turn Signs:

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant.

For other specification guidelines see section (M).

All mounting poles shall follow standards as specified in section (K).

(F.) DO NOT ENTER Signs (R5-1):

To prohibit traffic from entering a restricted road section, Do Not Enter signs should be conspicuously placed in the most appropriate position at the end of a One Way Roadway or Ramp. The signs shall be a thirty (30") inch white square on which is inscribed a twenty-nine (29") inch diameter red circle with a white band five (5") inches in width placed horizontally across the center of the circle.

Specifications for Do Not Enter Signs:

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant.

For other specification guidelines see section (M).

All mounting poles shall follow standards as specified in section (K).

(G.) WRONG WAY Signs (R5-1a):

Wrong Way signs may be used as a supplement to the DO NOT ENTER sign.

Specifications for Wrong Way Signs:

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant.

For other specification guidelines see section (M).

All mounting poles shall follow standards as specified in section (K).

(H.) ONE WAY Signs (R6-1 & R6-2):

One Way signs shall be used when required to indicate streets or roadways upon which vehicular traffic is allowed to travel in a one way direction.

Specifications for One Way Signs:

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant.

For other specification guidelines see section (M).

All mounting poles shall follow standards as specified in section (K).

(I.) NO OUTLET Signs (W14-2):

No Outlet signs are intended for use to warn of a street or road which has no outlet and which terminates in a dead end or cul-de-sac. The color must be a black legend and border on a yellow background. For single-entrance subdivisions, the No Outlet sign is to be placed at the entrance to the subdivision only.

Specifications for No Outlet Signs:

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant.

For other specification guidelines see section (M).

All mounting poles shall follow standards as specified in section (K).

(J.) END OF ROADWAY Markers (OM4-1, OM3-L, OM3-R):

End of Roadway markers in conjunction with Type III Object Markers are used to warn and alert road users of the end of a roadway in other than temporary traffic control zones. Type III Object Markers used on the right side of the end of road shall be right object markers (OM3-R). Type III Object Markers used on the left side of the end of road shall be left object markers (OM3-L). Where conditions warrant, more than one marker, or a larger marker with or without a Type III barricade may be used at the end of the roadway. Where barricades are required, they shall be built according to specifications set forth by the Department of Engineering.

Specifications for End of Roadway Markers (OM4-1):

Material: Parish Maintained - Aluminum - .080 inch thickness. Privately Maintained - MUTCD Compliant.

For other specification guidelines see section (M).

All mounting poles shall follow standards as specified in section (K).

(K.) MOUNTING POLES:

The standard mounting pole on street signs maintained by the Parish shall comply with the following:

- (a.) U-Channel Standard: Hot rolled from high tensile steel galvanized with pre-punched holes three-eighths ($\frac{3}{8}$ ") of an inch on one (1) inch centers. Height and placement location requirements shall be in accordance with the most current MUTCD guidelines.
- (b.) Signs with wood or specialty mounting poles will not be accepted into the Parish Road Maintenance System.
- (c.) Signs with wood borders will not be accepted into the Parish Road Maintenance System.

(L.) SPECIALTY STREET NAME SIGNS, TRAFFIC CONTROL SIGNS and MOUNTING POLES:

1. New Subdivisions, Planned Unit Developments (PUDs), and Traditional Neighborhood Developments (TNDs) applying for Preliminary Subdivision Approval after March 01, 2016.
 - (a.) The owner, developer, and/or contractor of a new Subdivision, PUD, or TND who upon completion of the development intends to dedicate the roads to the Parish for acceptance into the Parish Road Maintenance System, shall be responsible for installing uniform Street Name and Traffic Control signage, including the associated mounting poles, in accordance with these regulations. A signage plan must be produced as part of the preliminary and final subdivision reviews and must be approved by the Department of Engineering. The signage plan shall include the GPS location of each Street Name and Traffic Control sign in the subdivision. The developer's engineer must certify that the Street Name signs, Traffic Control signs, and associated mounting poles comply with the most current MUTCD and AASHTO guidelines, as well as Sections (A) through (K) listed above, before being accepted into the Parish Road Maintenance System.
 - (b) For Subdivisions, PUDs, and TNDs whose roads will be dedicated to the Parish for acceptance into the Parish Road Maintenance System upon completion of the subdivision, but whose Street Name signs, Traffic Control

signs, and associated mounting poles will be privately maintained by the developer, or homeowners' association, or other stated owner, a signage plan must also be produced as part of the preliminary and final subdivision reviews and must be approved by the Department of Engineering, but specialty mounting poles and sign borders are permitted as long as they meet the installation, crashworthiness and breakaway requirements set forth in the most current AASHTO and MUTCD guidelines as certified by the developer's engineer. The signage plan shall include the GPS location of each Street Name sign or Traffic Control sign in the subdivision.

- (c) Any variance from the provisions of these regulations regarding sign size, mounting height or mounting placement must be approved by the Department of Engineering and will be granted only in the event that engineering judgment determines that a variance is warranted.

A specialty mounting pole is defined as any Street Name sign or Traffic Control sign mounting pole other than the U-channel Standard pole described in Section (K) above.

The material specification for the blades of the signs must be Type III-high intensity retroreflective, and any framing of the blade cannot alter the sign shape, minimum size, or color, or in any way obscure the blade of the sign, including its border. Privately maintained Street Name signs must also conform to one of the color schemes listed in Section (B) above.

In the event that any development elects to install and maintain more decorative signage, the responsibility for the ongoing maintenance must be clearly indicated on the final plats for that development.

All standards set forth in the most current MUTCD and AASHTO Roadside Design Guide must be met per federal Law.

The developer, as part of the final subdivision approval, shall certify that all specialty mounting poles and their attendant Street Name or Traffic Control signs will be installed and maintained in perpetuity at the developer's or homeowners' association's (or other stated owner's) expense. However, the Parish maintains the right to immediately replace any and all damaged or missing Street Name signs, Traffic Control signs, and specialty mounting poles with standard Parish signs and mounting poles described in Sections (A) through (K) above if the developer or homeowners' association (or other stated owner) fails to repair or replace said Street Name sign, Traffic Control sign, and/or mounting pole and the Parish receives notification of the deficient condition. Furthermore, the Parish reserves the right to replace any privately maintained Street Name sign, Traffic Control sign, and mounting pole which poses any safety risk with standard Parish signs described in

Sections (A) through (K). Under no circumstances will the Parish be responsible for installing, maintaining, or repairing specialty mounting poles. The Parish installed signs and mounting poles shall remain until replaced and returned to the Parish by the developer or homeowners association (or other stated owner).

2. Subdivisions, Planned Unit Developments (PUDs), and Traditional Neighborhood Developments (TNDs) having received Final Subdivision Approval prior to March 01, 2016.

The provisions of these regulations shall not apply to Subdivisions, PUDs, and TNDs with privately maintained Street Name signs and Traffic Control signs which have received final subdivision approval prior to March 01, 2016. However, if the developer, homeowners' association, or other stated owner of an existing subdivision plans to replace all Street Name signs, Traffic Control signs, and attendant mounting poles within the subdivision, a signage plan shall be submitted to the Parish by a professional engineer, and shall comply with the provisions of Section (L.)1.b) above.

If any development exempt under this section requests that the parish assume maintenance of signage, it must first bring all existing signage up to the new standards described in (L.)1 above.

3. For subdivisions that will privately maintain Street Name signs and Traffic Control signs, the Developer shall include on the final subdivision plat an affirmative declaration that the Street Name signs and Traffic Control signs within the subdivision shall be privately maintained by the developer, homeowners association, or other owner for the subdivision as an affirmative obligation of that person or entity.

PRE-PRESS COPY

ARTICLE I. IN GENERAL**Sec. 130-1. General provisions.**

(a) *Short title.* These regulations shall be known as the "St. Tammany Parish Development Regulations" and may be called the "development regulations" or "these regulations."

(b) *Authority.* These regulations are enacted under the authority of article VI, section 17 of the Louisiana Constitution of 1974, R.S. 33:101 through 33:119, R.S. 33:4780.40 through 33:4780.50, all other constitutional and statutory authority which may be applicable hereto, and the St. Tammany Parish Home Rule Charter.

(c) *Purpose.* The purpose of these regulations is to:

- (1) Promote the health, safety, morals and general welfare of the parish.
- (2) Lessen congestion, prevent overcrowding of land, protect from fire and panic.
- (3) Provide adequate light and air, avoid undue concentration of population.
- (4) Facilitate the adequate provision of transportation, water, sewerage, schools, parks and other public requirements.

(d) *Applicability.*

- (1) These regulations shall apply to all property located within the unincorporated parish, except as otherwise limited or exempted within these regulations. These regulations shall apply to all public and private persons and entities. See section 130-3, application of district regulations.
- (2) The regulations promulgated in this document shall not be applied to any property until a comprehensive rezoning has been completed in a specific area or region. They do not automatically replace the zoning classifications or regulations in those areas or regions where a comprehensive rezoning has not been completed.

(e) *Conflicting provisions.* Where these regulations are inconsistent with other regulations, ordinances, statutes or policies, the more restrictive provision shall apply.

(f) *Effective date.* These regulations are to become effective at or after 12:01 a.m. on May 3, 2007.

(Code 1998, app. C, § 1.01; Ord. No. 07-1548, § 1.01, 5-3-2007)

Sec. 130-2. Rules of district boundaries.

(a) If, in accordance with the provisions of these regulations and statutes, changes are made in district boundaries or other matters portrayed on the official land use map, such changes shall be made on the official land use map within 90 days after such changes have been approved by the parish council, and attached to these regulations. Each such change of the map shall be dated, signed and certified.

(b) No change of any nature shall be made in this official land use map or matter shown thereon, except in conformity with the procedure set forth in these regulations. Any unauthorized changes of whatever kind, by any person or persons, shall be considered a violation of the ordinance and punishable under article II, division 3 of these regulations.

(c) The official zoning map and Ordinance No. 523, inclusive of all amendments made thereto, shall be located in the offices of the parish department of planning and development and shall be the final authority as to the current land use status of land, buildings and other structures in the parish.

(d) Where uncertainties exist, such as "approximately following the centerlines of streets, highways, or alleys," boundaries shall be construed to follow such centerlines.

(e) Boundaries indicated as approximately following platted lot lines shall be construed to follow such lot lines.

(f) Boundaries indicated as approximately following town limits shall be construed as following town limits.

(g) Boundaries indicated as following railroad lines shall be construed to be midway between the tracks.

(h) Boundaries indicated as following shorelines shall be construed to follow such shorelines along the mean low water mark and, in the event of change in the shoreline, shall be construed as moving with the actual shoreline.

(i) Boundaries indicated as parallel to or extensions of features indicated in the above listed subsections shall be so construed. Distances not specifically indicated on the land use map shall be determined by the scale of map.

(j) Boundaries indicated following other boundary lines, watercourses and other natural topography features, shall be construed to be such commonly recognized features.

(k) Where street or property layout existing on the ground is at variance with that shown on the official land use map, or in other circumstances not covered by the above listed subsections, the board of adjustment shall interpret the district boundaries, provided such adjustment does not exceed one acre in area.

(Code 1998, app. C, § 1.02; Ord. No. 07-1548, § 1.02, 5-3-2007)

Sec. 130-3. Application of district regulations.

(a) Except in the case of a nonconforming building, sign and/or use, following the effective date of the ordinance from which these regulations are derived, no building, structure or land shall thereafter be used or occupied, and no building or structure or part thereof shall thereafter be erected, constructed, reconstructed or structurally altered unless in conformity with all of the regulations herein specified for the district in which it is located.

(b) No building or other structure shall hereafter be erected or altered:

- (1) To exceed the height;
- (2) To accommodate or house a greater number of families;
- (3) To occupy a greater percentage of lot area;
- (4) To have narrower or smaller rear yards, front yards, side yards or other open spaces than herein required or in any other manner contrary to the provisions of this chapter.

(c) No part of a yard, or other open space, or off-street parking, or loading space required about or in connection with any building for the purpose of complying with these regulations shall be included as part of a yard, open space or off-street parking or loading space similarly required for any other building, unless specifically allowed under district regulations.

(d) No yard or lot existing at the time of passage of the ordinance from which this chapter is derived shall be reduced in size of area below the minimum requirements set forth herein. Yards of lots created after the effective date of the ordinance from which these regulations are derived shall meet at least the minimum requirements established by these regulations.

(e) Regulations of land underwater. All lands within the parish which are underwater and are not shown as included within any district shall be subject to all the regulations of the district adjacent to the water area. If the water area adjoins two or more districts the boundaries of each district shall be construed to extend into the water area in a straight line.

(f) Location of streets and public ways. Whenever any street, alley, or public way is vacated by official action of the parish council the land use district adjoining each side of such street or way shall automatically extend to the center of same, and all area included therein shall then become subject to all appropriate regulations of the extended districts.

(Code 1998, app. C, § 1.03; Ord. No. 07-1548, § 1.03, 5-3-2007)

Sec. 130-4. Protection of major street rights-of-way.

In computing the front and side yard, set back depths of every building or structure erected on any lot abutting on any street shown as designated major street on the street plan or future land use plan showing major streets, the required set back, hereafter shown, shall be increased by an amount equal to 50 feet or one-half right-of-way as specified on the major street plan when larger rights-of-way are required. Such setbacks shall be measured from the centerline of the existing roadway.

(Code 1998, app. C, § 1.04; Ord. No. 07-1548, § 1.04, 5-3-2007)

Sec. 130-5. Definitions.

The following words, terms and phrases, when used in these development regulations, shall have the meanings ascribed to them in this article, except where the context clearly indicates a different meaning:

Accessory building, accessory structure or uses means an accessory building, accessory structure or use which:

- (1) Is subordinate to and serves a principal building or principal use.
- (2) Is subordinate in area, extent or purpose to the principal building or principal use served.
- (3) Contributes to the comfort, convenience or necessity of occupants of the principal building or principal use served.
- (4) Is located on the same zoning lot as the principal building or principal use served with the single exception of such accessory off-street parking facilities as are permitted to locate elsewhere than on the same zoning lot with the building or use served.
- (5) Occupies not more than 7½ percent of the area of the lot on which the main building is situated and which is not higher than the principal building and in residentially zoned districts shall not exceed 20 feet in height.

Accessory use means a use that is incidental and secondary to the principle use on a property. The term "accessory use" in business or commercial zoning districts includes, but is not limited to, storage of merchandise normally carried in stock on the same lot with any retail service or business use, unless such storage is excluded by the district regulations.

Accessway means a way of approaching or entering a property.

Activity means an economic unit designated in the classification system given in the 1987 Standard Industrial Classification (SIC) Manual published by the U.S. Department of Commerce, Office of Federal Statistical Policy and Standards.

Addition means an extension or increase in floor area or height of a building or structure.

Adult cabarets mean any place or establishment that as a substantial or significant portion of its business features or provides any of the following:

- (1) Persons who appear semi-nude;
- (2) Live performances that are distinguished or characterized by an emphasis on the exposure, depiction or description of specified anatomical areas or the conduct or simulation of specified sexual activities;

- (3) Films, motion pictures, video or audio cassettes, slides, computer displays or other visual representations or recordings of any kind that are distinguished or characterized by an emphasis on the exposure, depiction or description of specified anatomical areas, or the conduct or simulation of specified sexual activities; or
- (4) Any live entertainment which excludes minors or from which minors are prohibited by statute or ordinances, and whether or not any such business is licensed to sell alcoholic beverages.

Adult store means any place or establishment which sells offers for sale or rents, for any form of consideration, any one or more of the following:

- (1) Books, magazines, periodicals or other printed matter, or photographs, films, motion pictures, video cassettes, slides or other visual representations or recordings, novelties and devices, which have as their primary or dominant theme, matter depicting, illustrating, describing or relating to specific sexual activities or specified anatomical areas; or instruments, devices or paraphernalia which are designed for use in connection with specified sexual activities.
- (2) An adult store includes a place with only a portion or section of its area set aside for the display or sale to adults of materials listed in subsection (1) of this definition, except that any place, otherwise included within this definition, that derives not more than ten percent of its gross income from the sale of materials listed in subsection (1) of this definition, shall be exempt from the provisions of this subsection.

Adult theater means any place or establishment that as a substantial or significant portion of its business features or provides for viewing on site:

- (1) Films, motion pictures, video or audio cassettes, slides or other visual representations or recordings that are distinguished or characterized by an emphasis on the exposure, depiction or description of specified anatomical areas, or the conduct or simulation of specified sexual activities; or
- (2) Live performances that are distinguished or characterized by an emphasis on the exposure, depiction or description of specified anatomical areas or the conduct or simulation of specified sexual activities. Adult theaters offering viewing of film, photograph material or live performances to audiences smaller in size than five persons per seating, are expressly prohibited.

Advanced manufacturing means the development and production of high-value-added goods, including, but not limited to, electronics, medical equipment, and technology components, and information technologies.

Agricultural building or structure implies any building or structure existing or erected on land used principally for agricultural purposes, with the exception of dwelling units.

Agricultural waste means nonhazardous waste resulting from the production and processing of agricultural products, including manures, prunings and crop residues.

Agriculture means the use of land for agricultural purposes, including farming, dairying, pasturage, agriculture, horticulture, floriculture, viticulture and animal and poultry husbandry and the necessary accessory uses for packing, treating or storing the produce; provided however, that the operation of any such accessory uses shall be secondary to that of the normal agricultural activities.

Airport (landing strip, heliport or aircraft stop) means any premises which are used or intended for use, for the landing and takeoff of aircraft; and any appurtenant areas which are used or intended for use for buildings incidental to aircraft services, including hangars, facilities for refueling and repair, and various accommodations for passengers, together with all buildings and structures thereon.

Aisle means the traveled way by which cars enter and depart parking spaces.

Alcohol and drug treatment center means a center or clinic sponsored or operated by a nonprofit, charitable or for-profit entity or by a public agency and subject to licensing by the state whose purpose is the treatment of chemically dependent persons. No dispensing of controlled substances in connection with or related to the rehabilitation program is permitted.

Alley means a narrow service way providing a secondary means of public access to premises or service entrances of buildings abutting and which is not generally used a thoroughfare by both pedestrians and vehicles, or which is not used for general traffic circulation or which is not in excess of 30 feet in width at its intersection with a street.

Ambulance service means a commercial facility for the housing, maintenance, and dispatch of vehicles designed to transport sick or injured persons to medical facilities.

Amusement center means any indoor place or enclosure in which is maintained or operated for the amusement, patronage or recreation of the public any coin-controlled amusement device of any description, commonly known as video games, pool or billiards, and pinball amusement games.

Antique shop means an establishment for the retail sale of articles such as glass, china, furniture, or similar furnishings and decorations that have value and significance as a result of age, design or sentiment.

Apartment means one or more rooms in an apartment building or combination apartment and commercial building, arranged, intended or designed or occupied as a dwelling unit of a single-family, an individual, or a group of individuals.

Apartment building means a multiple-family dwelling originally designed and constructed to accommodate four or more apartments, designed with more than one dwelling unit connected to a common corridor or entranceway in contrast to single- or two-family dwellings converted for multiple-family use or other attached dwellings (party-wall type) as defined herein.

Apartment, garage, means a building designed to accommodate both the storage of automobiles and which second story may be utilized for residential purposes.

Apartment hotel means a building designed for or containing both dwelling units and individual guest rooms or suites of rooms, which building may include accessory uses such as a cigar store or coffee shop, when such uses are accessible only from the lobby. Lodging as board is provided for a single family indicates a group and offer for compensation and it is open to the public in contra-distinction to a boardinghouse, lodginghouse or an apartment which are defined separately.

Arcade means a continuous area at ground level opening to a street or plaza, which is open and unobstructed to a height of not less than 12 feet, and which is accessible to the public at all times. Any portion of an arcade occupied by building columns, landscaping, statuary, or pools shall be considered to be a part of an arcade for the purpose of computing a floor area. The term "arcade" shall not include off-street loading areas, driveways, off-street parking areas, or pedestrian ways accessory thereto.

Architectural detail means any projection, relief, cornice, column, change of building material, window or door opening on any building.

Area, gross floor, means the area within the inside perimeter of the exterior walls.

Area, net, means the area actually occupied not including accessory unoccupied areas.

Art gallery means an establishment for the loan or display of objects of art.

Athletic field means a site providing recreational areas for activities such as soccer, baseball, softball and football.

Auto parts sales means a facility for the retail sale of auto parts, tools and related items.

Automobile body shop means any building, or portion thereof, used for the repair or straightening of a motor vehicle body or frame, and/or painting of motor vehicles. Maintenance, service and engine repair may be performed as an ancillary function to the body work.

Automotive repair means a facility for the maintenance, service and engine repair of motor vehicles.

Automobile sales means the use of any building, land area or other premises for the display and sale of new or used automobiles, panel trucks, vans, trailers or recreational vehicles including warranty repair work and other repair services conducted as an accessory use.

Automobile service station means any building, land area or portion thereof, used or intended to be used for the retail dispensing or sale of vehicular fuels; and including as an accessory use the sale and installation of lubricants, tires, batteries and similar accessories. This use may include one or more ways in which vehicle washing, lubrication, minor replacement, adjustment or repair services are offered.

Aviation easement means an air rights easement precluding future or additional development of land.

Awning means a cloth, plastic or nonstructural covering that either is permanently attached to a building or can be raised or retracted to a position against the building when not in use.

Bakery means a facility for preparing, cooking, baking and the retail sale of candy, baked goods or other sweets.

Banner means a sign composed of a logo or design on a lightweight material either enclosed or not enclosed in a rigid frame and secured or mounted to allow movement caused by the atmosphere.

Batching plant means a facility for the mixing of concrete or asphalt.

Beacon means a strong or bright light focused or directed in one or more directions.

Billboard and poster panel means any structure affixed to the surface of the land or to any building, tower, or other structure designed, arranged, used, or intended to be used exclusively for outdoor advertising and which is rented, leased or otherwise used in outdoor advertising where a consideration is charged.

Billboards. See *Off-premises signs*.

Block means that property on one side of a street between two adjacent streets which intersect the street in question.

Board means the board of adjustment established in division 1 of article II of these regulations.

Boardinghouse means a structure that is rented to occupants for 30 consecutive days or more and contains more than five units with living and sleeping accommodations, but no kitchen.

Boat sales means the use of any building, land area or other premises for the display and sale of new or used boats including warranty repair work and other repair services conducted as an accessory use.

Boatel means a building or group of buildings which:

- (1) Contains living or sleeping accommodations used primarily for transient occupancy; and
- (2) Is immediately accessible by boat.

Boulevard or avenue means a double street or roadway separated by a median.

Buffer planting area. See the definition in section 130-1874(a).

Buildable area means the space remaining on a zoning lot after the minimum open space requirements and environmental standards of these regulations have been complied with.

Building means a permanent structure having a foundation, and a roof supported by columns or walls, for the enclosure of persons, animals, chattels or moveable property of any kind. When said structure is separated by division walls from the ground up and without openings, each portion of such structure shall be deemed as a separate building.

Building, completely enclosed, means a building separated on all sides from the adjacent open space, or from other buildings or other structures by a permanent roof and by exterior walls or party walls, pierced only by windows and normal entrance or exit doors.

Building, detached, means a building surrounded by open space, said open space being on the same zoning lot as the building.

Building, nonconforming. See *Nonconforming building*.

Building, principal, means a nonaccessory building in which the principal use on the zoning lot on which it is located is conducted.

Building, temporary, means a structure without a foundation, having a roof, supported by columns or walls for the enclosure of persons, animals, chattels or moveable property of any kind.

Building area means a maximum horizontal projected area of a building and its accessory buildings, excluding only cornices projecting not more than 24 inches, open steps and terraces.

Building coverage means the horizontal area measurement within the outside of the exterior walls of the ground floor of all principal and accessory buildings.

Building facade planting area. See the definition in section 130-1875(a).

Building height means the average vertical distance measured from grade as follows: the average elevation at the corners of the foundation, measured at the finished grade:

- (1) To the highest point of the coping of a flat roof;
- (2) To the deck line of a mansard; or
- (3) To the mean height level between the eaves and the ridge for gable, hip, and gambrel roofs.

Building inspector means the individual designated by the appointing authority to ensure the provisions of the building codes.

Building line means a line formed by the outer face of the closing wall of a building, structure or portion thereof and the surface of the ground.

Building permit means written permission issued by the department of permits and regulatory authorizing construction, repairs, alterations, additions or changes of use and plan revisions to any structure.

Building setback line means a line parallel to the street at a distance equal to the depth of the yard required by the zoning district or the depth required by the average building line whichever is more restrictive.

Bulk means the term used to describe the size of buildings or other structures, and their relationships to each other and to open areas and lot lines, and therefore includes:

- (1) The size of buildings or other structures;
- (2) The area of the zoning lot upon which a residential building is located;
- (3) The number of dwelling units or rooms within such building in relation to the area of the zoning lot;
- (4) The shape of the buildings or other structures in relation to other walls of the same building, to legally required windows, or to other structures; and
- (5) All open areas relating to buildings or other structures and their relationship hereto.

Bulk plant means any place where flammable liquids are received by tanker, barge, pipeline, tank car or tank vessel or truck and are stored or blended in bulk for the purpose of distributing such liquids by tank truck, pipeline, tank car, tank vessel or container.

Bulkhead means a retaining wall created along a body of water behind which fill is placed.

Business, commerce, when used in this chapter, means the engaging in the purchase, sale, barter, or exchange of goods, wares, or merchandise; or the maintenance or operation of offices or recreational or amusement enterprises.

Business school means an enterprise offering instruction and training in a service industry or the arts such as secretarial, barber, commercial artist, computer software and similar training.

Caliper means the diameter of a tree trunk. Specific details on the method of measuring caliper as described in section 130-1871.

Camper trailer means a vehicle equipped for use as dwelling and designed to be hauled along a highway. The term "camper trailer" also means a vehicle standing on wheels or rigid supports which is used for living or sleeping purposes for short periods of time.

Campground means any area or tract of land used to accommodate two or more camping parties, including cabins, tents, house trailers or other camping outfits.

Car wash means a facility for the washing or the steam cleaning of passenger vehicles.

Carport means a roofed structure providing the space for the parking or storage of motor vehicles and enclosed on no more than three sides.

Carnival/circus means a temporary traveling show or exhibition that has no permanent structure or installation.

Carry-out grocery or *retail* means an establishment which by design of physical facilities or by service or packaging procedures permits or encourages the purchase of items by telephone order or mail. There is no retail display area and receipt of purchases occurs primarily off of the premises. This use is targeted to the retail market and as such shall not be confused with distribution centers or wholesale merchandise brokers.

Carry-out restaurant means an establishment which by design of physical facilities or by service or packaging procedures permits or encourages the purchase of ready-to-eat foods intended primarily to be consumed off of the premises, and where consumption of food on the premises is not permitted.

Catering service means an establishment that serves and supplies food to be consumed off premises.

Cemetery means property used for interring the dead in above ground chambers or burying them beneath the ground.

Certification of compliance means a document issued by the department of permits and regulatory which certifies that the plans for a proposed use meets all applicable parish codes and regulations.

Change of use permit means a permit which authorizes any use substantially different from the previous use of a building or land.

Christmas tree farm means a land area cultivated for the growing of Christmas trees for market and distribution.

Church means a building, together with its accessory buildings and uses, where persons regularly assemble for religious worship, and which building, together with its accessory buildings and uses, is maintained and controlled by a religious body organized to sustain public worship.

Clinic means an establishment where patients who are not lodged overnight are admitted for examination and treatment by a group of physicians practicing medicine together.

Closed landfill/dump means a facility that is no longer in operation.

Club means buildings and facilities owned and operated by a corporation or association of persons for social or recreational purposes, but not operated primarily for profit or to render a service which is customarily carried on as a business.

Collection facility means a facility, at which one or more containers are located, that is used to accumulate solid waste generated by and delivered by more than one household or commercial establishment for pickup by a transporter, including, but not limited to, facilities typically located in rural areas where garbage collection does not occur. This definition does not include containers that receive only solid waste generated on property that is contiguous with the property on which the container is located (e.g., containers located at and receiving solid waste only from a multiunit dwelling or a commercial establishment or an industrial establishment).

College means an educational institution authorized by the state to award associate and bachelor's degrees.

Commercial greenhouse means a structure in which plants, vegetables, flowers and similar materials are grown for sale.

Commercial recreation means facilities engaged in providing amusement, entertainment or recreation for a fee, admission charge or in association with the sale of products on the premises, including such activities as dance halls, dance studios, theatrical productions, bands, orchestras, other musical entertainment, bowling alleys, billiard and pool establishments, commercial sports arenas, racetracks, miniature golf courses, off track betting establishments, golf courses and game parlors.

Commercial solid waste means all types of solid waste generated by stores, offices, restaurants, warehouses, and other nonmanufacturing activities, excluding residential and industrial solid wastes.

Commission means the zoning commission of the parish.

Community center means a building designed to serve as the social center of a town, district, etc.

Community home means residential living options that are certified, licensed, or monitored by the state department of health and human resources (DHHR) to provide residential services to six or fewer persons who are disabled (see *Disabled person*). Community homes that provide for six or fewer persons who are mentally retarded or developmentally disabled shall have 24-hour supervision including at least one but not more than two 24-hour attendants. Such a residential facility shall be considered a single family unit. Notwithstanding the foregoing, in accordance with federal law, the definition (including the interpretation and application) of the term "community home" in this chapter shall also include the definition of "shelter care home" as per L.A.C. title 48, ch. 88 (in current form and as hereafter amended), but in no event shall said community home have more than ten residents under any circumstances (or such lesser amount as allowed by the DHHR license).

Compatible use. See *Use, compatible*.

Composting means a controlled process of degrading organic matter with microorganisms.

Composting facility means a facility where organic matter is processed by natural or mechanical means to aid the microbial decomposition of the organic matter.

Comprehensive rezoning study area (CRSA) means those areas designated by the parish government for consideration in a large scale comprehensive zoning review. Generally conducted at the neighborhood, community or other scale larger than a request for specific development proposals, the CRSA should be properly sized to provide for a comprehensive and holistic review of the interaction of the land use classifications.

Conditional use. See *Use, conditional*.

Condominium means a building or group of buildings in which units are owned individually and the structure, common areas and facilities are owned by all owners on a proportional undivided basis.

Condominium, commercial, means a building or group of buildings used for office, businesses, professional services and other commercial enterprises, organized and maintained as a condominium.

Condominium, industrial, means an industrial building or group of buildings organized, owned, and maintained as a condominium.

Condominium association means the community association which administers and maintains the common property and common elements of a condominium.

Construction/demolition (C&D) debris means nonhazardous waste generally considered not water-soluble that is produced in the process of construction, remodeling, repair, renovation or demolition of structures, including buildings of all types (both residential and nonresidential). Solid waste that is not C&D debris, even if resulting from the construction, remodeling, repair, renovation or demolition of structures, includes, but is not limited to, regulated asbestos-containing material (RACM) as defined in LAC 33:111.5151.B, white goods, creosote-treated lumber, and any other item not an integral part of the structure.

Construction/sales office, temporary, means a structure or other facility temporarily used as a construction office or sales office.

Contiguous means next to, abutting or touching and having a common boundary or portion thereof.

Contractor's storage yard means a site visually screened for the storage and maintenance of contractor's supplies and operational equipment.

Convalescent home. See *Nursing home*.

Convenience store means a small retail establishment, usually located within or associated with another use, that offers for sale convenience goods, such as packaged food items, staple

groceries, snacks, tobacco, periodicals, and other household goods and may also sell gasoline and other fuel as an accessory use, when permitted; but does not include automobile service stations, or vehicle repair shops.

Convent means the living quarters or dwelling units for a religious order or for the congregation of persons under religious vows.

Conversion means the changing of use or occupancy of a dwelling by alteration or by other reorganization so as to increase the number of families or dwelling units in a structure.

Conveyance to work means a vehicle, usually a commercial vehicle, which serves as the primary transportation to work by a resident of a property.

Corner lot means a lot at the junction of and fronting on two or more intersecting streets.

Country club means a private recreational club containing a golf course and a club house that is available only to the country club members and their guests.

Court means an open unoccupied space, other than a yard, on the same lot with a building or group of building and which is bound on two or more sides by such building or buildings.

Coverage means that percentage of the plot or lot area covered by the building area.

Cul-de-sac means the turnaround at the end of a dead end street.

Curvilinear street means a pattern of streets which are curved.

Day care center means a child care facility receiving nine or more children for care during all or part of the day.

Day care home means a residence which cares for not more than eight children during all or part of the day. The term "day care home" is not to be construed as a day care center. The maximum of eight children includes the natural or adopted children under the age of 16 of the occupants of the residence. The use shall be secondary to the use of the property as a residence. The day care home must only be operated and the care of the children done by a person who resides in the residence where the day care home is to be located.

DBH means diameter breast high.

Decibel means a unit of sound pressure level.

Decorative fences. See the definition in section 130-1873(e)(1).

Deed means a legal document conveying ownership of real property.

Density means the number of families, individuals, dwelling units or housing structures per unit of land.

Developer means the person, firm or corporation who proposes to subdivide property into smaller lots or parcels to be subsequently used as commercial or residential sites.

Development means the division of a parcel of land into two or more parcels; the construction, reconstruction, conversion, structural alteration, relocation or enlargement of any structure, any mining, excavation, landfill or land disturbance and any use in extension of the use of land.

Development cluster means a planned development or subdivision of a tract of land into residential lots where only a portion of the property is developed with the remainder being protected from future development on a permanent basis.

Direct light means light emitted directly from the lamp, off of the reflector or reflector diffuser, or through the refractor or diffuser lens, of a luminaire.

Director of planning and development means the official employed as the parish director of planning and development to assist all concerned with the implementation of these regulations.

Disabled person means any person who has a physical or mental impairment which substantially limits one or more of the following major life activities:

- (1) Self-care.
- (2) Receptive or expressive language.
- (3) Learning.
- (4) Mobility.
- (5) Self direction.
- (6) Capacity for independent living.
- (7) Economic self-sufficiency.

The term "disabled person" does not include persons, not otherwise disabled, who are currently using illegal drugs or currently abusing alcohol, and the term "disabled person" does not include persons, not otherwise disabled, currently under sentence or parole from any criminal violation.

Disability glare means glare resulting in reduced visual performance and visibility. It is often accompanied by discomfort.

Disposal means the discharge, deposit, injection, dumping, spilling, leaking or placing of any solid waste on or into any land or water so that such solid waste, or any constituent thereof, may have the potential for entering the environment or being emitted into the air or discharged into any waters of the state. Abandonment of solid waste, whether or not it comes into contact with land or water, is also considered disposal.

Distribution center means an establishment associated with a specific establishment, or establishments, used for the dispersion of goods and materials to other locations. This use may or may not be associated with warehousing facilities.

District means a part of the parish wherein the regulations of these regulations are uniform.

Dormitory means a building used as group living quarters for a student body or religious order as an accessory use for college, university, boarding school, orphanage, convent, monastery or other similar institutional use.

Drip line means the outer edge of the foliage of a tree extending in all directions parallel to the ground.

Drive-in-restaurant means a building or portion thereof where food and/or beverages are sold in a form ready for consumption and where all or a significant portion of consumption takes place or is designed to take place outside the confines of the building often in an automobile or other vehicle on site.

Drive-in-use means an establishment which by design of the physical facilities, size or by packaging procedures encourages or permits customers to receive services and obtain goods in a motor vehicle.

Driveway means generally, a space that is specifically designated and reserved on a site for movement of vehicles from one location to another location, on a particular site, or from the site to a public street. A private servitude, whether constructed to parish road standards or not, is limited to gaining access to not more than two individual residences, two parcels of property, or two uses. Apartment use, condominium use and shopping center use, by way of illustration, are each considered to be separate uses. The number of separate buildings or structures is not considered in determining the number of uses. Multiple use (more than two) of such access shall warrant and constitute the definition of a "street" and therefore subject to the same specifications, construction standards, surety obligations and subdivision regulations (if applicable) that are required for streets within these regulations.

Duplex means two dwelling units affixed as one structure located on a lot.

Dwelling means a building or portion thereof designed or used exclusively for residential occupancy, including one-family dwelling units, two-family dwelling units and multiple-family dwelling units, but not including hotels, boardinghouses or lodginghouses.

Dwelling, attached, (group, row, or townhouses), means a building, or a portion of a building, containing three or more dwelling units joined by a party wall, provided those dwellings are not either straight above or below a dwelling intended for use by another separate, independent family. Permitted dwelling units above commercial establishments will be exempt from this definition.

Dwelling, converted, means any building which was originally designed and constructed as a one-, two- or three-family dwelling, but which has been changed or altered by the construction of additional dwelling units to provide for more families than the original building.

Dwelling, detached, means a dwelling entirely surrounded by open space, said open space being on the same zoning lot as the dwelling.

Dwelling, multiple-family, means a dwelling containing three or more dwelling units designed with more than one dwelling unit connecting to a common corridor or entranceway, originally constructed for said purpose, and not including converted dwellings or attached row dwellings (party wall type) as defined herein.

Dwelling, semi-detached (duplex), means a dwelling unit joined to one other dwelling unit by a party wall.

Dwelling, single-family, means a dwelling containing accommodations for and occupied by one family unit.

Dwelling, two-family, means a building designed exclusively for occupancy by two families living independently of each other.

Dwelling unit means one or more rooms in a structure designed for occupancy by one family for living purposes and having its own permanently installed cooking and sanitary facilities.

Easement means a grant of one or more of the property rights by the property owners to and/or for use by the public, a corporation, or another person or entity.

Easement, drainage, means an easement required for the installation of stormwater sewers or drainage ditches, and/or required for the preservation or maintenance of a natural stream or watercourse or other drainage facility.

Eating and drinking establishment means retail establishments selling food and nonalcoholic beverages for the consumption on the premises.

Educational institution means public, parochial, charitable, or nonprofit junior college, college, or university, other than trade or business schools, including instructional and recreational uses, with or without living quarters, dining rooms, restaurants, heating plants and other incidental facilities for students, teachers and employees.

Electrical energy generating plant means a facility that generates electricity from mechanical power produced by gas, coal or nuclear fission.

Electrical substation means a facility for transforming electricity for distribution to individual customers.

Encroachment means any obstruction located in a designated floodway, right-of-way, or adjacent land.

Enlargement means an increase in size.

Escort means a person who, for compensation, agrees or offers to engage in any of the following acts:

- (1) Act as a social companion or date for another person.
- (2) Privately to model lingerie with the intention of and for the purpose of providing sexual stimulation or sexual gratification to the customer.
- (3) Privately to disrobe for another person with the intention of and for the purpose of providing sexual stimulation or sexual gratification to the customer.
- (4) Agrees to come to a specified location for the purpose of disrobing and for the purpose of providing sexual stimulation or sexual gratification to the customer.
- (5) To perform a massage for the purpose of providing sexual stimulation or sexual gratification to the customer.

Escort agency means a person or business association who, whether on or off the licensed premises, furnishes, offers to furnish, or advertises to furnish escorts, as defined herein, for compensation.

Establishment means a separate place of business having the following characteristics. The ownership and management of all operations conducted within such establishment are separate and distinct from the ownership and management of operations conducted within other establishments of the same or adjacent zoning lot. Direct public access to such "business establishment" is separate and distinct from direct access to any other "business establishment."

Excavation means removal or recovery by any means whatsoever of rock, minerals, mineral substances, or organic substances other than vegetation from water or land on or beneath the land surface, whether exposed or submerged.

Existing use means the use of a lot or structure at the time of the enactment of a zoning ordinance.

Fabrication and assembly means the manufacturing from standardized parts of a distinct object differing from the individual components.

Facade means the exterior wall of a building exposed to public view or that wall viewed by persons not within the building.

Family means an individual, or two or more persons related by blood, marriage or adoption, or a group of not more than three persons (excluding servants), not related by blood, marriage or adoption, living together as a single housekeeping unit in a dwelling unit, but not including sororities, fraternities or other similar organizations.

Farm means a parcel of land used for agricultural purposes.

Farm stand means a booth or stall located on a farm at which produce and farm products are sold to the general public.

Farming means the business of cultivating land, or employing it for the purposes of husbandry; the cultivation and fertilization of the soil as well as caring for and harvesting the crops.

Fast food restaurant means an establishment whose principle business is the sale of pre-prepared or rapidly prepared food directly to the customer in a ready to eat state for consumption either within the restaurant building or off premises.

Fence, general, means a structure used to delineate a boundary or as a means of confinement or for confinement.

Fence, solid, means a fence having a regular pattern of no more than ten percent openings throughout the length of the fence.

Fill means sand, gravel, earth or other materials of any composition placed or deposited by humans.

Final plat means the plat which is to be given final approval by the planning commission and will be placed on file with the clerk of court as a part of the public record.

Fish farm means an agricultural area devoted to the cultivation of fish and other seafood.

Fixture means the assembly that houses the lamp or lamps and can include all or some of the following parts: a housing, a mounting bracket or pole socket, a lamp holder, a ballast, a reflector or mirror, and/or a refractor or lens.

Flags, banners, and seals means flags, banners and seals are mottos, emblems, designs, shapes or symbols on cloth, plastic, canvas or devices of similar type and materials intended to convey any message or to identify any person, place, idea or thing other than duly adopted flags or seals of nations, states, parishes or municipalities.

Flashing lights means any light or light source or reflection of light source which is intermittent in duration, color or intensity or which creates or is designed to create an illusion of intermittent duration, color or intensity.

Flea market means a market place held in an open area where groups of individual sellers offer goods for sale to the public.

Fleet storage means outdoor storage of vehicles used for business purposes.

Flood or spot light means any light fixture or lamp that incorporates a reflector or a refractor to concentrate the light output into a directed beam in a particular direction.

Floor area (for determining floor area ratio) means the sum of the gross horizontal area of the several floors of the building measured from the exterior faces of the exterior walls or from the centerline of walls separating two buildings. The floor area of a building shall include basement floor area when more than one-half of the basement height is above the established curb level or above the finished lot grade level where curb level has been established, elevator

shafts and stairwells at each floor, floor space used for mechanical equipment; except equipment, open or enclosed, located on the roof; penthouses, attic space having headroom of seven feet, six inches or more, interior balconies and mezzanines, enclosed porches and floor area devoted to accessory uses. However, any space devoted to off-street parking or loading shall not be included in the term "floor area." The floor area of structures devoted to bulk storage or materials, including, but not limited to, grain elevators and petroleum storage tanks shall be determined on the basis of height in feet; i.e., ten feet in height shall equal one floor.

Floor area, gross, (for determining off-street parking and loading requirements) means the sum of the gross horizontal areas of the several floors of a building or structure measured from the interior faces of the interior walls or from the interior line of walls separating two buildings or structures, including the following:

- (1) The floor area of a building shall include:
 - a. Floor area of the basement if it is not used for other than storage, except as required for subsection (1)g of this definition below.
 - b. Penthouses.
 - c. Attics having headroom of seven feet or more.
 - d. Interior balconies and mezzanines.
 - e. Enclosed porches.
 - f. Space devoted to accessory uses.
 - g. Accessory storage areas located within selling or working spaces such as counters, racks or closets, or storage use in the conduct of business or use and calculated in the gross leasable area for multitenant buildings.
 - h. Space devoted to retailing activities, to the production or processing of goods, or to business or professional offices.
- (2) The floor area of a building shall not include:
 - a. Elevator shafts and stairwells on each floor.
 - b. Floor space used for mechanical, telephone and electrical equipment.
 - c. Attics having headroom of less than seven feet.
 - d. Areas used for storage, except as required by subsection (1)g of this definition above.
 - e. Space devoted to off-street parking or loading facilities.
 - f. Entrance lobbies.
 - g. Washrooms, intended for general public use.

Floor area ratio (FAR) means the floor area ratio of the building or buildings on any zoning lot is the floor area of the building or buildings on that zoning lot divided by:

- (1) The area of such zoning lot; or
- (2) In the case of planned developments, by the net site area.

Food processing means an industrial establishment in which food is processed or prepared in large quantities for consumption off premises or for canning, bottling or distribution.

Foot-candles means a unit of measure for luminance; a unit of luminance on a surface that is everywhere one foot from a uniform point source of light of one candle and equal to one lumen per square foot.

Foster home means a facility licensed by the state as a foster home and that provides room, board, ordinary care and supervision to individuals under 18 years of age, who are not related to the resident family, and not to be confused with institutional housing.

Front foot means a measure of distance, being one foot as measured along the front property line.

Front yard. See *Yard, front*.

Front yard planting area means an area of land between the property line and any vehicular use areas or building that is intended for the replacement or preservation of landscape materials.

Frontage means that side of a lot abutting a street between the two nearest intersecting streets, measured along the line of the street. If the street is a dead-end, then the frontage is that side of a lot abutting the street between an intersecting street and the dead end of the street.

Full cut-off type fixture means a luminaire or light fixture that, by design of the housing, does not allow any light dispersion or direct glare to shine above a 90-degree, horizontal plane from the base of the fixture and that is installed in a vertical position to prevent disability glare.

Fully shielded fixture means a luminaire or fixture constructed in such a manner that an opaque shield extends, on the top and all sides, below the lowest direct-light-emitting part (LDLEP) of the luminaire. The lowest edge of such a shield shall surround the LDLEP and be level with the horizontal plane, regardless of the orientation of the luminaire or fixture.

Funeral home means a dwelling or other structure used and occupied by a professional licensed mortician for burial preparation and funeral services.

Garden shop/plant sales means a facility for the growing, display and sale of garden or flower seeds, plants and related items.

Garage, bus, means any building used or intended to be used for the storage of three or more passenger motor buses or motor coaches used in public transportation, including school buses.

Garage, private, means a detached accessory building or portion of the main building, designed, arranged, used or intended to be used for the storage of passenger automobiles of the occupants of the premises.

Garage, public, means a structures utilized for storage of motor vehicles for profit and with maximum undivided space used for storage of said vehicles.

Garbage means solid waste that includes animal and vegetable matter from the handling, preparation, cooking, and serving of foods (including grease trap waste), but that does not include industrial solid waste.

Glare. See *Disability glare*.

Golf course means a comparatively large unobstructed acreage involving enough room over which to walk or ride, point to point, over a generally prescribed course, and to strive to send a ball long distances with variable accuracy, all without unreasonably endangering other players or intruding upon them.

Grade, street, means the elevation of the established street in front of the building measured at curb level at the center of such front. Where no street grade has been established, the parish engineer shall establish such street grade or its equivalent for the purpose of these regulations.

Gravel pit means an open land area where sand, gravel and other fragments are mined or excavated for sale.

Ground cover means plant material which reaches a maximum height of not more than 12 inches.

Ground cover, decorative, means any mulch material (vegetative or mineral) that is used to cover the surface of the ground to prevent erosion or retain moisture.

Ground cover, vegetative, means plant material which reaches a maximum height of not more than 12 inches at maturity, including turf.

Group home means residential living options that are certified, licensed, or monitored by the state department of health and human resources for the personal care or supervisory care of not more than 15 individuals not related by blood, marriage or adoption. These facilities provide supervisory or personal care for individuals who are mentally disabled, abused, neglected or emotionally disturbed.

Guest home means an accessory structure to an existing residence, that is to be used as temporary housing and not to be used as a source of income for the resident family.

Halfway house means a profit or nonprofit boarding home, rest home, or other home for the sheltered care of adult persons which, in addition to providing food and shelter to four or more persons unrelated to the proprietor, also provides any personal care or service beyond food, shelter and laundry.

Handicapped person. See *Disabled person*.

Hazardous waste means waste identified as hazardous in the current state hazardous waste regulations (LAC 33:V., subpart 1) and/or by the federal government under the Resource Conservation and Recovery Act and subsequent amendments.

Health studio/physical culture salon means a facility operated to promote physical fitness or weight control.

Height of luminaire means the height of a luminaire shall be the vertical distance from the normal finished grade directly below the centerline of the luminaire to the lowest direct-light-emitting part of the luminaire.

Heliport means an area, either at ground level or elevated on a structure, licensed or approved for the loading and take off of helicopters, including auxiliary facilities such as parking, fueling and maintenance equipment.

Helistop means a landing pad for the occasional and infrequent use of rotary wing aircraft.

Historical district means any area which contains improvements which:

- (1) Have a special character of special historical or aesthetic interest or value;
- (2) Represent one or more periods or styles of architecture typical of one or more eras in the history of the parish;
- (3) Cause such area, by reason of such factors, to constitute a distinct section of the parish; and
- (4) Has been designated as a historic district.

Home for the retired means an establishment operated for the purpose of providing domiciliary care for a group of persons who by reason of age are unable to provide such care for themselves and who are not in need of medical or nursing treatment, except in the case of temporary illness.

Home occupation means any activity or accessory use conducted for financial gain by a member of the household residing therein; which is clearly incidental and secondary to the use of the property for residential purposes.

Home professional office means an activity conducted for financial gain by a member of the household residing therein consisting of an office of a practitioner of a recognized and customary profession; which is clearly incidental and secondary to the use of the property for residential purposes.

Homeowners' association means a community association, other than a condominium association, which is organized in a development in which individual owners share common interests in open space or facilities.

Horizontal luminance means the measurement of brightness from a light source, usually measured in foot-candle or lumens, which is taken through a light meter's sensor at a horizontal position.

Hospice means a facility used to care for the terminally ill.

Hospital or *sanitarium* means an institution devoted primarily to the maintenance and operation of facilities for the diagnosis, treatment, or care for not less than 24 hours in any week, for three or more nonrelated individuals suffering from illness, disease, injury, deformity, or other abnormal physical conditions. The term "hospital" does not apply to institutions operating primarily for treatment of insane persons, drug addicts, liquor addicts or other types of cases necessitating restraint of patients, and the term "hospital" does not include convalescent, nursing, shelter or boarding homes.

Hotel means a facility offering transient lodging accommodations to the general public and providing additional services such as restaurants, meeting rooms and recreational facilities.

Household agriculture means that growing of vegetables, poultry and livestock for the use of the residents of the property whereon it is grown or kept. Permitted animals and insects include, but are not limited to, those raised for consumption or as food producers (cows, goats, bees, rabbits, chickens, etc.) or those used for pleasure (horses, birds, turtles, dogs, cats, etc.). Poisonous, wild or dangerous animals are not permitted (snakes, lions, tigers, bears, etc.). Guard dogs are permitted. All animals must be housed in such a manner as to not create a nuisance to the adjoining residents by way of sight, smell or sound.

Impermeable means not permitting the passage of water.

Incinerator means any enclosed device using controlled flame combustion that neither meets the criteria for classification as a boiler nor is listed as an industrial furnace, and is not a boiler or an industrial furnace as defined in LAC 33 means V.109.

Incinerator ash means residual solid waste that has been received, thermally oxidized, and/or decomposed by an incinerator.

Incinerator waste-handling facility means a facility that processes solid waste which has been received, thermally oxidized, and/or decomposed by an incinerator.

Incompatible use. See *Use, incompatible*.

Industrial solid waste means solid waste generated by a manufacturing, industrial, or mining process, or that is contaminated by solid waste generated by such a process. Such waste may include, but is not limited to, waste resulting from the following manufacturing processes: electric power generation; fertilizer/agricultural chemicals; food and related products; byproducts; inorganic chemicals; iron and steel manufacturing; leather and leather products; nonferrous

metals manufacturing/foundries; organic chemicals; plastics and resins manufacturing; pulp and paper industry; rubber and miscellaneous plastic products; stone, glass, clay, and concrete products; textile manufacturing; and transportation equipment.

Industrial solid waste facility means a facility for the processing, storage, and/or disposal of industrial solid waste.

Indirect light means direct light that has been reflected or has scattered off of other surfaces.

Infectious waste means waste that contains pathogens of sufficient virulence and quantity that exposure to it could result in an infectious disease in a susceptible host.

Inn. See *Boardinghouse*.

Institution means a facility or federal, state or local government, public or private utility, public or private school or college, church, public agency or tax-exempt organization that provides a public service.

Institutional housing means any structure or building which is owned and/or operated by a public or private institution and is used for or intended to be used for rehabilitative programs, shelter programs, and/or special housing for mentally or physically handicapped persons, where the occupants are allowed to interact with the community while in residence. Institutional housing shall be allowed only when licensed by the appropriate state and/or local agency, and under such terms and conditions which the parish council deem necessary to protect the occupant and the surrounding area.

Interior landscape area means any landscaped area within the interior of a development site and beyond the required periphery landscape area that is planted with trees, shrubs and ground covering material to provide for infiltration of runoff, shade of parking areas or aesthetic enhancement of the site.

Intersecting street means any street or public way or court, 30 feet or more in width which joins another at an angle, whether or not it crosses the other.

Junk yard means any parcel of land where waste, scrap metal, paper, rags or similar materials are bought, sold, exchanged, stored, baled, packed, disassembled or handled, including auto and building wrecking yards, but excluding similar uses taking place entirely within a completely enclosed building.

Kennel means any premises, except where accessory to an agricultural use, where dogs of ten weeks in age or older are housed, groomed, bred, boarded or trained for the use of the residents of the premises.

Kennel, commercial, means any lot or premises or portion thereof on which household domestic animals, over four months of age, are kept or boarded for compensation or kept for sale.

Laboratory, commercial, means a place devoted to experimental study such as testing and analyzing; manufacturing, assembly or packaging of products is not included within this definition.

LAC 3 means the Louisiana Administrative Code, title 33, Environmental Regulatory Code.

Lamp means the component of a luminaire that produces the actual light.

Landfarm means a facility for the disposal of solid wastes in which wastes are applied to the land and/or incorporated into the soil for biological reduction and soil attenuation.

Landfill means a facility for the disposal of solid waste, other than landfarms or surface impoundments, that disposes of solid waste by placing it on or into the land surface and usually also compacting and covering with suitable cover material to a depth and at a frequency sufficient to control disease vectors and odors and in a manner that protects human health and the environment.

Landfill/dump means all property, including negative and positive easements and water and air rights, which have been used by public and private entities for the disposal of solid wastes.

Landmark means any improvement, any part of which is 30 years old or older, which has a special character or special historical aesthetic interest or value as part of the development, heritage, or cultural characteristics of the parish, state or nation and which has been designated as a landmark.

Landmark site means an improvement, parcel, or part thereof, on which is situated a landmark and any abutting improvement, parcel or part thereof, used as and constituting part of the premises on which has been designated as a landmark site.

Landscaping material means material, including, but not limited to, living trees, shrubs, vines, lawn grass, ground cover, landscape water features, and nonliving durable materials commonly used in landscaping including, but not limited to, rocks, pebbles, sands, decorative walls and fences, brick pavers, earthen mounds, but excluding paving for vehicular use.

Laser means a device emitting a narrow, very intense beam of light waves that have been amplified and concentrated by stimulated atoms, or the light produced by such device.

Library means an establishment for the loan or display of books or objects.

Light trespass means the shining of light produced by a luminaire beyond the boundaries of the property on which it is located.

Limited access highway means a traffic way, including expressways and toll roads for through traffic, in respect to which owners or occupants of abutting property or lands and other persons have no legal right of access to or from the same, except at such points only and in such manner as may be determined by the public authority having jurisdiction over such traffic way.

Limited wastewater treatment facility means, as such relate to a community sewerage system, a sewage treatment facility that is designed, constructed and authorized to treat not more than 499,999 gallons per day of sewage.

Loading and unloading space, off-street, means an open, hard-surfaced area of land, other than a street or public way, the principal use of which is for the standing, loading and unloading of motor trucks, tractors and trailers, to avoid undue interference with the public of the streets and alleys. Such space shall not be less than 12 feet in width, 50 feet in length and 14 feet in height, exclusive of access aisles and maneuvering space.

Local traffic street means a street paralleling a major highway to give limited access to said highway for safety.

Lodge or fraternal order means a hall or meeting place of a local branch or the members composing such a branch of a fraternal order, or society, such as the Masons, Knights of Columbus, Moose, American Legion and other similar organizations. It may be permissible to serve food and meals on such premises, providing adequate dining room space and kitchen facilities are available. The sale of alcoholic beverages to members and their guests may be allowed provided it is secondary and incidental to the promotion of some other common objective by the organization and further provided that such sale of alcoholic beverages is in compliance with the applicable federal, state and parish laws.

Logistics industry means the industry whose facilities focus on the management of the flow of resources between the point of origin and the point of consumption. The resources managed in logistics can include physical items, such as food, materials, equipment, liquids, and staff, as well as abstract items, such as time, information, particles, and energy.

Lot means a parcel of land occupied or to be occupied by one building and accessory buildings and uses and including the open spaces required under these regulations. A lot may be land so recorded on the records of the clerk of court of the parish, but it may include parts of or a combination of such lots when adjacent to one another, provided such is used for only one improvement and resubdivided or combined and properly recorded.

Lot, double frontage, means a lot having frontage on two nonintersecting streets as distinguished from a corner lot.

Lot, interior, means a lot other than a corner lot.

Lot, through, means a lot, other than a corner lot, having frontage on more than one street. (See *Double frontage lot*.)

Lot coverage means the area of a zoning lot occupied by the principal building or buildings and accessory buildings.

Lot depth means the mean horizontal distance between the front and rear lot lines.

Lot line, adjoining a street, means a front lot line or a side lot line of a corner lot which abuts a street, or a rear line of a double frontage lot.

Lot line, front, means the front property line of a zoning lot. For a corner lot, the property line lying exclusively between the front yard and the street right-of-way is the front lot line.

Lot line, interior, means a side lot line common with another lot.

Lot line, rear, means the rear lot line is the lot line or lot lines most nearly parallel to and most remote from the front lot line. Lot lines other than front or rear lot lines are side lot lines.

Lot of record means a lot which is a part of a subdivision, the plat of which has been recorded in the office of the clerk of court of the parish, pursuant to statute.

Lot width means the horizontal distance between the side lot lines measured at right angles to the lot depth at the established front building line.

Lounge means an establishment for the sale and consumption of alcoholic beverages on the premises.

Lowest direct-light emitting part (LDLEP) means the lowest part of the lamp or lamps, the reflector or mirror, and/or refractor or lens.

Lumen means a unit of luminous flux. One foot-candle is one lumen per square foot. For the purposes of this section, the lumen-output values shall be the initial lumen output ratings of a lamp.

Luminaire means a complete lighting system, and includes a lamp or lamps and a fixture.

Major street plan means the transportation element of the comprehensive plan adopted by the planning commission after public hearing which is designed to guide the future development of the parish.

Manufactured housing means a factory-built, single-family structure, which is manufactured or constructed under authority of 42 USC 5403, Federal Manufactured Home Construction and Safety Standards, and is to be used as a place for human habitation, but which is not constructed with a permanent hitch or other device allowing it to be moved other than for the purpose of moving to a permanent site and which does not have permanently attached to its body or frame any wheels or axles. A mobile home is not a manufactured home unless it has been converted to real property and is taxed as a site-built dwelling.

Massage parlor means any place, establishment, club or business by whatever name designated which offers, advertises or is equipped or arranged so far as to provide as its primary purpose or as a substantial or significant portion of its services any of the following: physical

massage of the person, body rubs, alcohol rubs, baths, steam baths, hot box, magnetic baths or any other similar services commonly rendered by such establishments; the following, however, shall not be included within this definition of massage parlor:

- (1) Establishments or businesses which routinely provide such services by a licensed physician, a licensed chiropractor, a licensed practical nurse or a registered professional nurse, or a massage therapist, licensed pursuant to R.S. 37:3551 et seq.;
- (2) Establishments or businesses which provide electrolysis treatment by a licensed operator or electrolysis equipment;
- (3) Hospitals, nursing homes, medical clinics or medical offices;
- (4) Barbershops or beauty parlors which offer massage to the scalp, the face, the neck or the shoulders only or which are operated by or employ licensed cosmetologists or licensed barbers performing functions authorized under the license held; and
- (5) Any establishment or business operated by or employing licensed physical therapists, or licensed athletic trainers performing functions authorized under the license held.

Methadone center or clinic means a methadone center or clinic sponsored or operated by a nonprofit, charitable or for-profit entity or by a public agency and subject to licensure by the state whose purpose is the dispensing of controlled substances in connection with or related to the rehabilitation of drug abusers.

Miniwarehouse. See *Warehousing, mini and warehousing, public.*

Mobile food truck means a double-axle vehicle (truck or trailer unit) that is completely mobile with no permanent fixed location, the vendor of which prepares all or most of its victuals on board the vehicle to serve or distribute to customers, in a form suitable for immediate ingestion or consumption.

Mobile home means any vehicle or similar portable structure mounted or designed for mounting on wheels, used or intended for use for dwelling purposes, including structural additions, except parked and unoccupied camping-type trailers constructed prior to the adoption of 42 USC 5403, Federal Manufactured Home Construction and Safety Standards.

Mobile home lot means a designated site within a mobile home court for the exclusive use of the occupants of a single mobile home or manufactured home.

Mobile home park means a site which requires improvements and utilities for the long term parking of mobile homes or manufactured homes which may include sewers and facilities for the residents.

Modular housing (also modular home) means a dwelling unit constructed in accordance with the locally adopted building code and composed of components substantially assembled in a manufacturing plant and transported to the building site for final assembly on a permanent foundation.

Monastery means the living quarters or dwelling units for a religious order or for the congregation of persons under religious vows.

Motel means an establishment consisting of a group of attached or detached living or sleeping accommodations with bathroom and closet space located on a single zoning lot and designed for use by transient automobile tourists. A motel furnishes customary hotel services such as maid service and laundering of linen, telephone and secretarial or desk service, and the use and upkeep of furniture. In a motel, less than 50 percent of the living and sleeping accommodations are occupied or designed for occupancy by persons other than transient, automobile tourists.

Motor vehicle means any passenger vehicle, truck, tractor, tractor-trailer, truck-trailer, trailer or semitrailer propelled or drawn by mechanical power.

Mulch means any material that is used to cover the ground surface to prevent erosion, retain moisture and protect plant material.

Multiple-family means three or more dwelling units located on a lot.

Multioccupancy center means a single building or group of buildings situated in close proximity to each other that house more than one tenant or owner and whose parking facilities may be in common with other tenants, owner or buildings, except those businesses which engage in the sale of automobile fuel products and other goods and services including, but not limited to, fast food restaurants and convenience stores.

Municipal solid waste landfill or *MSW landfill* means an entire disposal facility in a contiguous geographical space where residential solid waste and/or commercial solid waste is placed in or on land. The term "municipal solid waste" does not limit the ownership or source of materials to municipalities.

Murals means a work of art painted or otherwise applied to exterior wall surfaces that do not serve as advertisement for any specific use by virtue of the use of trademarks, corporate names or logos.

Museum means a nonprofit, noncommercial establishment operated as a repository or a collection of nature, scientific or literary curiosities or objects of interest of works of art, not including the regular sale or distribution of the objects collected.

Neighborhood means an area of a community with characteristics that distinguish it from other community areas and which may include distinct ethnic or economic characteristics, schools or social clubs, or boundaries defined by physical barriers such as major highways, railroads or natural features.

Neon lighting means any white or tubular lighting of which the primary source of light is gaseous, not limited to the use of neon gas.

Nonconforming building means a building or a structure or portion thereof lawfully existing at the time of adoption of the ordinance from which this chapter is derived, which was designed, erected or structurally altered for a use that does not conform to the use regulations of the district in which it is located.

Nonconforming sign means any sign structure or sign which was lawfully erected and maintained prior to such time as it came within the purview of this Code or any amendments thereto and which fails to conform to all applicable regulations and restrictions of this Code, or a nonconforming sign for which a special permit has been issued.

Nonconforming use means a use which lawfully occupied a building or land at the time of adoption of the ordinance from which this chapter is derived and which does not conform with the use regulations of the district in which it is located.

Nonprocessing transfer station means a solid waste facility where solid waste is transferred from collection vehicles to other vehicles for transportation without processing.

Noxious matter or materials means matter which is capable of causing injury to living organisms by chemical reaction or is capable of causing detrimental effects upon the physical or economic well-being of individuals.

Nursery means and shall be any land used to raise trees, shrubs, flowers and other plants for sale for transplanting.

Nursery school means schools designed to provide daytime care or instruction for two or more children from two to five years of age inclusive, and operated on a regular basis.

Nursing home means a home for the aged, chronically ill, or incurable persons in which three or more persons not of the same immediate family are received, kept, or provided with food and shelter or care for compensation; but not including hospitals, clinics or similar institutions devoted primarily to the diagnosis and treatment of the sick or injured.

Occupancy pertains to and is the purpose for which a building is used or intended to be used. A change of occupancy is not intended to include a change of tenants or proprietors.

Odorous matter means any matter or material that yields an odor which is offensive in any way.

Office means a room or building in which a person transacts his business or carries on his stated occupation.

Office building means a building designed for or used as the offices of professional, commercial, industrial, religious, public or semipublic persons or organizations.

Office warehouse means a facility which has the combined uses of office and showroom or warehouse for the primary purpose of wholesale trade, display and distribution of products. Size of the office should not exceed 20 percent of the total square footage of the building.

Official zoning map means the legally adopted map that conclusively shows the location of all parish zoning.

Off-site means located outside the lot lines of the lot in question or development location.

Off-street parking means a temporary storage area for motor vehicles directly accessible to an access aisle, and which is not located on a dedicated street or right-of-way.

On-site means located on the lot that is the subject of a development location.

Open burning means the combustion of solid waste without control of combustion air to maintain adequate temperature for efficient combustion, containment of the combustion reaction in an enclosed device to provide sufficient residence time and mixing for complete combustion, and control of the emission of the combustion products.

Open dump means a solid waste processing or disposal facility that has been issued a temporary permit and may not comply with the standards set by these regulations.

Open space means an unoccupied space open to the sky on the same lot with the building, or, in the case of a PUD overlay, land and/or water area retained for use as active or passive recreation areas or for resource protection in an essentially undeveloped state.

Ordinance means a legally adopted law or regulation.

Outdoor display area of pre-assembled accessory building, pool and playground equipment means a facility for the display, service and retail sale of pre-assembled building, pool and playground equipment.

Outdoor lighting means the nighttime illumination of an outside area or object by any manmade device located outdoors that produces light by any means.

Outdoor retail sales and storage yards means a facility for the sales of home, lawn, and garden supplies, brick, lumber and other similar building material, use in conjunction with a home improvement center, a hardware store or a department store.

Outdoor storage yard means a lot used for the outside placement, for a period in excess of 24 hours for items that are customarily used or stored outside and made of a material that is resistant to damage or deterioration from exposure to the outside environment.

Park means a parcel of ground set apart for recreation for the public, to promote its health and enjoyment.

Parking, on-street, means a temporary storage area for motor vehicles which is located on a dedicated right-of-way.

Parking access means the area of a parking lot that allows motor vehicle's ingress and egress from the street.

Parking area, private, means an open, hard-surfaced area, other than a street or alley, used for the parking of private passenger automobiles only, of occupants of the building or buildings for which the parking area is developed and is accessory to the building.

Parking area, public, means an open, hard-surfaced area, other than a street or alley, used for the storage of passenger automobiles and commercial vehicles under 1½-ton capacity and available to the public, whether for compensation, free or as an accommodation to clients or customers.

Parking lot means an off-street ground level area, usually surfaced and improved, for the temporary storage of motor vehicles.

Parking space, available, means space within a public or private parking area of not less than 180 square feet (nine feet by 20 feet) exclusive of access drives or aisles, ramps, columns or office and work areas, for the storage of one passenger automobile or commercial vehicle under 1½-ton capacity.

Particulate matter means a material, other than water, which is suspended in or discharged into the atmosphere in a finely divided form as a liquid or solid.

Performance standard means a criterion established to control noise, odor, smoke, toxic or noxious matter, vibration, fire and explosive hazards, or glare or heat generated by, or inherent in, uses of land or buildings.

Pervious surface means any material that permits full or partial absorption of stormwater.

Planned business center means any commercial development, consisting of one or more buildings containing two or more stores or offices, with an aggregate gross floor space of more than 50,000 square feet, which development may be planned or developed as a coordinated unit or which development may be characterized by an integrated arrangement of stores, offices, buildings and facilities, shall be consider as a single unit for all purposes within the meaning and scope of these regulations.

Planned development means a tract of land which is developed as a unit under single ownership or control, which includes two or more principal buildings and which is at least three acres. In residential districts, said planned development includes a group housing project (whether separately located or separated only, but completely by fire walls), where existing or contemplated street or streets and lot layouts make it impractical to apply the bulk regulations of these regulations to the individual units in such housing project.

Planning commission means the body, created by ordinance of the parish government, with the powers, functions and responsibilities set forth in R.S. 33:101-33:120.1, the parish ordinances and the parish Home Rule Charter.

Plant material means any plant including trees, vines, shrubs, ground covers and annuals or vegetation of any size, species or description.

Planting area means any area designed for landscape material installation having a minimum area of 25 square feet, with a minimum depth of five feet.

Porch means a roofed-over structure, projecting out from the wall of a main structure and commonly open to the weather in part.

Portable storage containers mean a portable, weather-resistant receptacle designed and used for the storage or shipment of household goods, wares, building materials or merchandise.

Preliminary plat means the plat which is to be the basis for all construction of improvements and is to receive preliminary approval by the planning commission prior to issuance of a work permit.

Premises means land and all buildings and structures thereon.

Principal use means the primary purpose or function that a lot serves or is intended to serve.

Processing means a series of operations, usually in a continuous and regular action or succession of action carried on in a definite manner.

Processing transfer station means a Type I-A or II-A solid waste processing facility where solid waste is transferred from collection vehicles, processed and placed in other vehicles for transportation (e.g., a facility that separates recyclables from industrial or putrescible waste streams).

Professional office means the office of a person engaged in any occupation, vocation or calling not purely commercial, mechanical or agricultural which a professed knowledge or skill in some department of science or learning is used by its practical application.

Public building means any building held, used or controlled exclusively for public purposes by any department or branch of government, state, county, parish or municipality, without reference as to the ownership of the building or of the realty upon which it is situated.

Public open space means any publicly-owned open area, including, but not limited to, the following: parks, playgrounds, school sites, parkways and streets.

Public utility means any person, firm or corporation duly authorized to furnish, under public regulation, to the public, electricity, gas, steam, telephone, telegraph, transportation, water or sewerage system.

Public way means any sidewalk, street, alley, highway or other public thoroughfare.

Pumping station means a facility for the transmission of water.

Pylon sign means a permanent, freestanding sign with a support structure enclosed with a skin or veneer whose height exceeds its width. Support structure shall not consist of a single pole.

Quarrying means the digging out of stone or slate from an open excavation.

Quorum means a majority of the full authorized membership of a board or agency.

Railroad right-of-way means a strip of land with tracks and auxiliary facilities for track operation, but not including depots, loading platforms, stations, train sheds, warehouses, car shops car yards, locomotive shops or water towers.

Rear yard means an open space, including driveways and parking areas, occupied other than by permitted accessory buildings or uses, extending from the rear building line of a principal building to the rear lot line, between the side building lines, projected to the rear lot line.

Recreation, active, means leisure time activities usually requiring equipment taking place at prescribed places or sites.

Recreation, passive, means any leisure time activity not considered active.

Rectilinear street system means a pattern of streets that is characterized by a right angle roadway grid pattern blocks and four way intersections.

Regional commercial/office center means a planned commercial or office development being designed by a single developer with a distinct identifying name/image bearing all of the following characteristics:

- (1) Located with at least 1,250 of frontage on the Interstate Highway System, inclusive of frontage roads constructed as part of the development and on/off ramps.
- (2) Property is located within an HC-3, PBC-1 or PBC-2 zoning classification where the combined adjacent area of the zoning districts is at least 100 acres in size.

Regional wastewater treatment facility means, as such relates to a community sewerage system, a sewage treatment facility that is designed, constructed, and authorized to treat more than 499,999 gallons per day of sewage.

Religious use means a structure or place in which worship, ceremonies and rituals pertaining to a particular system of belief are held.

Research laboratory means an establishment or other facility for carrying on investigation in the natural, physical or surreal sciences, engineering and development as an extension of investigation with the object of creating end products.

Residence means a home, abode or place where an individual is actively living at a specific point in time.

Residential solid waste means any solid waste (including garbage, trash, yard trash and sludges from residential septic tanks and wastewater treatment facilities) derived from households, including single and multiple residences, hotels and motels, bunkhouses, ranger stations, crew quarters, campgrounds, picnic grounds and day-use recreation areas.

Rest home or nursing home means a private home for the care of children or the aged or infirmed. Such home does not contain equipment for surgical care or for treatment of disease or injury and is not primarily developed for mental patients or alcoholics.

Restaurant means a business establishment whose purpose and primary function is to take orders for and serve food and food items for consumption primarily within the principal building and is equipped with, or will be equipped with, a permanent wet bar equipped with a nonmovable sink and a backbar or similar equipment for public display and to inform the public of brands and flavors for sale so as to qualify for the issuance of a Class A-General Retail permit where beverage alcohol is sold on the premises for consumption on the premises by paying customers.

Restaurant without lounge means a restaurant that shall not be permitted to be equipped with a permanent wet bar equipped with a nonmovable sink and a backbar or similar equipment for public display and to inform the public of brands and flavors for sale so as to qualify for the issuance of a Class A-General Retail permit where beverage alcohol is sold on the premises for consumption on the premises by paying customers. A premises that is issued, or otherwise qualifies for the issuance of, a Class A-General Retail permit shall not be considered a restaurant without a lounge.

Restrictive covenant means a restriction on the use of land set forth in a deed.

Resubdivision means the creation of one or more new lots or parcels from an existing parcel or further division of an existing subdivision or portion thereof.

Retail means establishments engaged in selling goods, merchandise or providing food or specific services to the general public for sale of such goods or services.

Retail food store means an establishment for the display and retail sale of foods and associated items.

Retirement center means a facility for the prolonged or permanent care of persons over 65 years of age.

Rezone means to change the zoning classification of particular lots or parcel of land.

Right-of-way (ROW) means a strip of land granting the right of passage over the strip of land specified, for the use of the public in the manner as defined and specified (a road, street, pipeline, drain, easement, etc.) on the plat by the developer.

Roof means an overhead structure used for protection or shielding from the sun, rain or other elements of weather.

Salvage means the utilization of waste material.

School means a building or part thereof designed, constructed or used for educational or instructional purposes.

Searchlight means a strong or bright light with a reflector in a swivel so that the beam may be sent or directed in various directions.

Seasonal use means a temporary use carried on for only a part of the year.

Separation facility means a Type III solid waste processing facility at which recyclables are separated from a nonputrescible solid waste stream for future use. The nonputrescible waste stream received by the separation facility shall not contain more than a de minimis amount of putrescible waste.

Septage means the contents of a septic tank, cesspool or other individual sewage-treatment facility that receives domestic-sewage wastes.

Septic system means an underground system with a septic tank used for the decomposition of domestic wastes.

Septic tank means a water lined receptacle that receives discharge of sewage from a building, sewer or part thereof, and is designed and constructed so as to permit settling of solids from this liquid, digestion of this organic matter and discharge of the liquid portion into a disposal.

Service street means a street upon which no lot fronts. (See *Alley*.)

Setback means the minimum horizontal distance between the street wall of a building and the street property line.

Sewage sludge means sludge resulting from treatment of wastewater from publicly or privately owned or operated sewage-treatment plants.

Shall. For purposes of construction of these regulations, the term "shall" in its usual signification denotes a mandatory duty. However, words and phrases shall be read with their context and shall be construed according to the common and approved usage of the language. Technical words and phrases, and such others as may have acquired a peculiar and appropriate meaning in the law, shall be construed and understood according to such peculiar and appropriate meaning. Except in those cases where the particular phrase or provision declares that the duty is mandatory, the determination of whether a requirement should be given mandatory or directory effect is to be based on a comparison of the results to which each such construction would lead. A mandatory provision generally prescribes, in addition to requiring the doing of the thing specified, the result that will follow if they are not done; whereas, if directory, their terms are limited to what is required to be done.

Shopping center means a group of commercial establishments planned, constructed and managed as a total entity with customer and employee parking provided on site. The provision of goods delivery is separated from customer access.

Shredder means a solid waste facility that reduces the particle size of solid waste by grinding, milling, shredding or rasping.

Shrub means a relatively low-growing bushy plant, usually with woody stems. For the purposes of this definition, ground cover, trees and annuals are not considered shrubs.

Side and rear yard planting area means an area of land between the property line and any vehicular use areas or building that is intended for the placement or preservation of landscape materials.

Sight obscuring screen means a 100 percent opaque visual screen with a minimum height of six feet, if nonliving material is used. Living material is used, it shall be at least 70 percent sight obscuring and be a minimum of four feet in height immediately after planting and shall consist of plants that reach a minimum of six feet in height at maturity.

Sight triangle means the triangular shaped portion of land established at either side of an accessway or public right-of-way intersections in which nothing is erected, placed, planted or allowed to grow in such a manner as to limit or obstruct the sight of motorists along the intersection with sides of a specific length each along the public right-of-way and/or accessway.

Sign means a medium of communication, including its structure and component parts, which is used or intended to be used to attract attention to its subject matter or location usually for advertising purposes, including paint on the surface of a building. Each distinctive message painted or placed on a building or other structure shall be considered an individual sign.

Sign, abandoned off-premises, means an abandoned off-premises sign which:

- (1) No longer correctly directs or exhorts any person;
- (2) Has fallen into disrepair or otherwise deteriorated as a result of a lack of maintenance, repair or upkeep; or
- (3) With regard to billboards, which carries no advertising message other than a message concerning its availability for lease or hire on its structure for any period of 180 consecutive days.

Sign, abandoned on-premises, means an abandoned on-premises sign which no longer correctly directs or exhorts any person, advertises a bona fide business, lessor, owner, entity, product or actively conducted, or product available on the premises where such sign is displayed.

Sign, address, means a sign which only convey the numeric address of the premises on which it is located.

Sign, attached, means an attached sign is any sign which is physically connected to and derives structural support from a building or building appurtenance.

Sign, audible, means an audible sign is any sign which is designed to or which does produce sound.

Sign, bench, means a bench sign is an advertising message on any portion of a bench or other nonmobile structure or device intended for public seating or convenience.

Sign, billboard, means a sign which directs attention to a business, commodity, service or entertainment, which is conducted, sold or offered at a location other than the premises on which the sign is located.

Sign, changeable message, means a changeable message sign is a sign on which the copy, message or sign panels may be, when specifically issued a permit as a changeable message changed either electronically or manually in the field through the removal, replacement or rearrangement of letters, symbols, blocks or panels designed for attachment to said sign.

Sign, construction, means a construction sign is a temporary sign erected and maintained by an architect, contractor, developer, financial institution, subcontractor or materials supplier upon premises for which said person or persons is presently furnishing labor, materials, services or capital financing.

Sign, directional, means signs limited to directional messages, principally for pedestrians or vehicular traffic.

Sign, directory, means a directory sign is an outdoor sign listing and identifying the occupants within shopping centers, industrial centers, retail centers, office centers, and other multiuse commercial or industrial sites.

Sign, flashing, means any illuminated sign on which the artificial light is not maintained stationary and constant in intensity and color at all times when such sign is in use. For the purpose of these regulations, any revolving, illuminated sign shall be considered a flashing sign.

Sign, for sale, (concerning real estate) means a temporary sign advertising the private sale of homes, businesses or parcels of land.

Sign, freestanding, means a freestanding sign is a sign supported by a sign structure secured in the ground and which is wholly independent of any guy wire, support wire, building, fence, vehicle or object other than the sign structure, for support.

Sign, ground, means a ground sign is a monument sign or a pole sign supported by a sign structure secured in the ground and which is wholly independent of any guy wire, support wire, building, fence, vehicle or object other than the sign structure, for support.

Sign, home occupation, means any on-premises sign advertising a home occupation.

Sign, identification, means an identification sign is a sign which is limited to the name, address, and/or number of a building or institution, person or entity which is primary to the identification of the premises and to a general statement of the activity carried on in the building or institution.

Sign, illuminated, means any sign which has characters, letters, figures, designs or outlines illuminated by an interior or exterior light source which is primarily designed to illuminate such sign.

Sign, individual letter, means any sign made of self-contained letters that are mounted directly on the face of a building, a parapet, a roof edge of a building or on or below a marquee without being attached to a structure defined herein as a sign face.

Sign, inflatable, means any sign dependent in whole or in part for its structural integrity on the infusion into said sign of compressed air or other fluids, specifically including balloons larger than two feet in diameter or two-foot-square in area or other gas- or helium-filled figures.

Sign, marquee, means any sign attached to and made part of a marquee. The term "marquee" is defined as a permanent roof-like structure projecting beyond a building wall at an entrance to a building or extending along and projecting beyond the building's wall and generally designed and constructed to provide protection against the weather. Signs painted or sewn onto awnings or canopies shall be considered marquee signs.

Sign, message, means the words or symbols on a sign face which convey a message to those viewing the sign.

Sign, monument, means a freestanding ground sign:

- (1) Which is of monolithic construction in which the sign's base or support is of uniform composition with the material comprising the sign area of said sign and the base or support of said sign is directly affixed in or to the ground;
- (2) The sign face of which is encompassed on the top, sides and bottom by a border or column of the same or compatible material which border or column is not less than 12 inches wide and not more than 24 inches wide, and which border or column complements and enhances the aesthetic effect of the sign; and
- (3) A double-faced monument sign shall be made of back-to-back sides unless visibility of such sign is impeded in which case the two sides may form a V shape in which the interior angle does not exceed 45 degrees.

Sign, moving, means a sign which changes physical portions by any movement or rotation or which gives the usual impression of such movement or rotation.

Sign, moving message or *changing image*, means any sign, including public service signs, designed to convey sign copy which changes in form or content with greater frequency than once an hour or which otherwise includes action or motion or the illusion of action or motion within its message or sign copy.

Sign, neon, means any white or colored tubular lighting bent or formed into a design or lettering of which the primary source of light is gaseous. Anything within the boundary of the outline of the neon will be considered a part of the sign face, not limited to the use of neon gas.

Sign, nonconforming, means any sign structure or sign which was lawfully erected and maintained prior to such time as it came within the purview of this Code or any amendments thereto and which fails to conform to all applicable regulations and restrictions of this Code, or a nonconforming sign for which a special permit has been issued.

Sign, off-premises. The following definitions are to be applied when considering regulations concerning billboards:

- (1) *On-premises outdoor advertising sign*. Any outdoor advertising; display; figure; painting; drawing; message; plaque; poster; billboard; or any other thing which is designed, intended, or used to advertise or inform, any part of which advertising or informational content is visible from any place on the main traveled way of any public highway system. The term includes signs advertising or identifying only on-premises products, services, or activities sold, produced or furnished on the premises and provided further that the advertising relates to a primary activity on the premises and the owner of the premises does not receive income from the advertising; such on-premises advertising structures is exempt from the provisions of these minimum standards and none of the terms or conditions shall be applicable thereto. Provided, however, that should the owner of the premises receive income therefrom, such outdoor advertising structures shall be classified as commercial and shall be deemed to have the status of an off-premises outdoor advertising sign for the purpose hereof and same in subject to all of the terms and conditions of these standards.
- (2) *Off-premises outdoor advertising sign*. Any outdoor structure, display, figure, painting, drawing, message, plaque, poster, billboard, or any other thing which is designed, intended or use to advertise or inform, any part of which is visible from any place on the main traveled way of any public highway system; provided that such signs advertise or identify, in whole or in part, any off-premises products, services, or activities.
- (3) *Distance between structures*. Spacing and the measurement thereof is the measurement in feet along the nearest edge of the pavement or surface between points directly opposite the signs on each side of the highway and shall apply only to structures located along the same side of the highway, spacing restrictions shall apply to property facing on the highway or interstate system and all other property within 200 feet of the nearest edge of the right-of-way of the highway or interstate which is zoned to permit outdoor advertising signs. For the purposes hereof, each side of the state and federal highway or interstate system shall be considered separately.
- (4) *Height*. The elevation measured in feet from either the ground level of the sign at its support or the nearest edge of the main traveled way, whichever is higher.
- (5) *Lighting*. The illumination of whatsoever nature or kind which is attached to, connected with or designed on or off-structure to provide or enhance visibility for any off-premises outdoor advertising; same included: flood lights, thin line or goose neck reflectors.

- (6) *Setback.* The minimum distance measured in feet as to the location of an off-premises sign from the highway right of way or the setback of an existing building.
- (7) *Sight line.* The triangular area formed by the right-of-way line and a line connecting them at points specified herein.
- (8) *Size.* The maximum area as measured in square feet, inclusive of any border or trim but excluding the base or apron, supports and other structural members; the area shall be measured by the smallest square, rectangle, triangle, circle or combination thereof which shall encompass the entire sign; the maximum size limitations shall apply to each side of the sign structure; and signs may be placed back to back or in V-type construction with not more than one display on each facing, and such sign structure shall be considered as one.

Sign, on-premises, means a sign identifying or advertising a business, person, firm, corporation, activity, goal, product or service located or available on the premises where the sign is installed and maintained or which is displayed and maintained by the owner or occupant of the premises on which it is located.

Sign owner means that person who owns a sign and/or who is responsible for a sign. In those cases in which the sign owner cannot be determined; the owner of the premises upon which the sign is located shall be deemed the owner of the sign.

Sign premises means the contiguous land in the same ownership which is not divided by any highway, street, alley or right-of-way. For purposes of this article a single premises:

- (1) May include more than one lot of record when such lots are devoted to a single unit of use; or
- (2) May consist of a separate structure on the same lot of record when, in the opinion of the department of planning and development, such separate structure appears to be a separate premises.

Sign, parapet, means a sign extending above a roof line or which serves as a parapet.

Sign, pole, means a ground sign:

- (1) The structure of which consists of one or more vertical poles which are partially placed in the ground for stability, and which may have a horizontal pole at or near the top of a single vertical pole and which may be joined together by a horizontal pole;
- (2) The sign face or faces of which are attached to the vertical poles and/or horizontal pole and may be chained, cabled or attached to the vertical poles; and
- (3) The sign faces of which do not touch the ground and, therefore, leave an open space between the bottom of the sign face and the ground.

A pole sign cannot be connected to or affixed to a building.

Sign, political, means any sign urging the election or defeat of any candidate seeking any political office, or urging the passage or defeat of any ballot measure, but not including any billboard owned or maintained by a commercial firm or advertising company when leased or used as a political sign.

Sign, portable, means any sign other than a trailer or vehicle sign that is not permanently affixed to a building, structure or the ground or a sign designed to be moved from place to place. These signs primarily include, but are not limited to: A frame or sandwich board signs, signs attached to wood or metal frames, and signs designed to be self-supporting and moveable.

Sign, private directional, means on-premises signs directing vehicular or pedestrian traffic movement into a premises or within premises.

Sign, project, means a temporary sign announcing a proposed land development or construction project.

Sign, projected, means a sign or visual image created by the projection of light onto a surface.

Sign, projecting, means any sign other than a wall sign affixed to any building or wall which sign has a leading edge extending 12 inches or more beyond such building or wall. Projecting signs are of two types:

- (1) *Fixed*. A projection other than a wall which extends outward 12 inches or more from the facade of any building and is rigidly affixed thereto.
- (2) *Swinging*. A sign projecting 12 inches or more from the outside wall or walls of any building which is supported by only one rigid support affixed thereto.

Sign, public directional, means either:

- (1) Signs permanently or temporarily erected in the public right-of-way or on public property with the approval of the parish council which denote the name or route to any educational institution, public building or facility, historic place, shrine, church, synagogue, hospital, library or similar facility or institution; or
- (2) Signs permanently or temporarily erected identifying a person or entity who has undertaken to plant or maintain landscaping of that portion of the right-of-way.

Sign, public service, means a sign, the primary purpose of which is to provide information as a service to the general public such as time, temperature or the promotion or announcement of public events, or other events of a civic, philanthropic, charitable or religious purpose of general interest to the public.

Sign, real estate, means a real estate sign is any temporary sign pertaining to the sale, lease or rental of land or buildings, which is erected or displayed on the lot or parcel to which it applies.

Sign, resident identification, means a resident identification sign is any on-premises sign limited in content to no more than the name of the premises, its municipal address and the names of the present occupant or occupants of the premises.

Sign, revolving or rotating, means a revolving or rotating sign is any sign whose sign face is designed to move or turn on any axis.

Sign, roof, means a roof sign is any sign erected or painted upon, against or directly above a roof or on top of or above the parapet of a building.

Sign, snipe, means a snipe sign is a sign which is tacked, nailed, posted, pasted, glued or otherwise attached to poles, stakes, fences, or to other like objects.

Sign, street banner, means a street banner sign is any banner sign which is stretched across and hung over a public right-of-way.

Sign structure, means a sign structure is the supporting structure upon which a sign or sign face is fastened, attached or displayed or is intended to be fastened, attached or displayed; provided however, this definition shall not include a building or fence.

Sign, temporary, means any sign, the display of which is limited by law, ordinance, or regulation and which advertises a situation or event that is designed, intended, or expected to occur and be completed within a reasonably short or definite period after the erection of such sign.

Sign, trailer, means a trailer sign is any sign or sign structure attached to or composed in whole or in part of a trailer frame or chassis or skid or skid frame or body or of any materials which have ever previously constituted in whole or in part such a trailer, skid, frame, chassis or body.

Sign, vehicle, means a vehicle sign is any sign displayed on or from any mode of transportation, including but not limited to cars, buses, trucks/trailers, trains, boats, or airplanes.

Sign, wall, means a wall sign is a sign other than a parapet sign which is painted on or which projects less than 12 inches from the wall of a building, and is painted on, attached to or erected against any exterior wall or window of a building or structure with the exposed face of the sign being in a plane parallel to the plane of said wall or window and not extending above the building.

Sign, window, means a window sign is any sign which is painted on, applied to, attached to or projected upon the exterior or interior of a building glass area, including doors, or located within one foot of the interior of a building glass area, including doors, whose identification, message, symbol, insignia, visual representation, logo type or any other form which communicates information, can be perceived from any off-premises contiguous property or public right-of-way.

Sign area means the area of a sign shall be defined as the square foot area enclosed within the perimeter of the sign face with each face contributing to the aggregate area of any sign. With respect to signs which are composed of individual symbols, letters, figures, illustrations, messages, forms or panels, the sign area shall be defined as that area enclosed by one continuous line connecting the extreme points or edges of the advertising message. In cases where there is no definable simple geometric shape, the simplest geometric shape or rectangle enclosing the outer edges of the advertising message shall determine the sign area. In cases of back-lighted awnings with advertising messages, the entire area of the awning shall be considered as the sign area.

Sign face means the part of the sign that is or can be used to identify, advertise, communicate, inform or convey a visual representation which attracts the attention of the public for any purpose. The term "sign face" includes any background material, panel, trim, frame, color and direct or self-illumination that differentiates the sign from the building, structure, backdrop surface or object upon which or against which it is placed. The sign structure shall not be included as a portion of the sign face provided that no message, symbol or any of the aforementioned sign face criteria are displayed on or designed as part of the sign structure, unless it is outlined in neon.

Sign height means the vertical distance from the finished grade to the highest point of either the sign or sign structure.

Signable area means an area which is free of architectural details on the facade of a building or part of a building in which an activity is located.

Single-family means one dwelling unit located on a lot.

Single-plane lens means a refractor of lens, mounted in the horizontal plane which allows direct light to be emitted only through the horizontal plane.

Site means the physical location, including land area and appurtenances, of an existing or proposed storage, processing, or disposal facility. A site may consist of a number of facilities, each subject to a permit to process or dispose of solid waste.

Skateboard park means a building, structure or open area containing or developed with slopes, hills, passageways and other challenges where people use skate boards to practice the sport for a fee, rental or sale of skate boards. Related equipment may be included.

Sludge means residue produced by or precipitated from a treatment process.

Solar energy means radiant energy received from the sun at wave lengths suitable for heat transfer, photo-synthetic use, or photovoltaic use.

Solid waste means any garbage, refuse, or sludge from a waste treatment plant, water-supply treatment plant, or air pollution-control facility, and other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from industrial, commercial, mining,

and agricultural operations, and from community activities. The term "solid waste" does not include solid or dissolved material in domestic sewage; solid or dissolved materials in irrigation return flows or industrial discharges that are point sources as specifically described in the definitions section of LAC 33.

Solid waste management facility means a facility which collects, transports, stores, processes or disposes of any garbage, refuse, or sludge from a waste treatment plant, water-supply treatment plant, or air pollution-control facility, and other discarded material, including solid, liquid, semisolid, or contained gaseous material resulting from industrial, commercial, mining, and agricultural operations, and from community activities, including but not limited to construction debris landfills, nonprocessing transfer station, processing transfer station, compost facility, separation facility (recycling facility), sewage treatment facility, septage treatment facility, municipal solid waste landfill, industrial solid waste facility and incinerator.

Specialty food processing means the use of a site for the production of a prepared food or foodstuff for wholesale distribution in a structure with not more than 20,000 square feet. This use includes wholesale bakeries, commercial kitchens, produce and other specialty food processing or packaging shops. All processing must be conducted within an enclosed structure.

Specified anatomical areas means a less than completely and opaquely covered:

- (1) Human genitals or pubic region;
- (2) Human buttocks;
- (3) Human female breasts below a point immediately above the top of the areola.

Specified sexual activities means:

- (1) Human genitals in a state of sexual stimulation, arousal or swelling;
- (2) Acts of human anilingus, bestiality, buggery, cunnilingus, coprophagy, coprophilia, fellatio, flagellation, masochism, masturbation, necrophilia, pederasty, pedophilia, sadism, sadomasochism, sapphism, sexual intercourse, sodomy, urolagnia or zoerasty;
- (3) Fondling or other erotic touching of human genitals, pubic region, buttocks, anus or female breast; and
- (4) Excretory functions as part of or in connection with any of the activities.

Stable means a structure that is used for the care of horses.

Stadium means a large open or enclosed place used for games and major events and partly or completely surrounded by tiers of seats for spectators.

Start, commencement, means the first placement of building forms or the placement of structural supports, i.e., pilings or tiers, or other structural supports on the site such as footings. For mobile homes, the start of construction shall be considered the placement of the mobile home on the site.

Store means a use or building devoted exclusively to the retail sale of a commodity or commodities.

Storefront means the facade of a space in a building, regardless of the type use of the space, which space must have a direct entrance, by door, from the exterior of the building through the facade, and which facade must face a street or a parking lot for the building.

Story means that portion of a building included between the surface of any floor and the surface of the floor next above it, or if there is not floor above it, then the space between the floor and the ceiling next above it. Any portion of a story exceeding 14 feet in height shall be considered as an additional story for each 14 feet or fraction thereof.

Story, half, means that portion of a building under a gable, hip or mansard roof, the wall plates of which, on at least two opposite exterior walls, are not more than 4½ feet above the finished floor of such story. In the case of multiple-family dwellings three or more stories in height, a half-story shall be counted as a story.

Street means all property dedicated or intended for public highway, freeway or roadway purposes or subject to public easements thereof.

Street line or right-of-way line means the dividing line between a lot, its property line or lines, and a public right-of-way, a public street, road, or highway; or a private street, road or highway, over which two or more abutting owners have an easement or right-of-way.

Street planting; area. See the definition in section 130-1873(a).

String of lights means a string of electrical conductors containing two or more lights or light sockets.

Structural alterations means any change in either the supporting members of a building, such as bearing walls, columns, beams, or girders, or in the roof and exterior walls.

Structure means anything constructed or erected, the use of which requires permanent location on the ground or attached to something having a permanent location on the ground, including but without limiting the generality of the foregoing, to advertising signs, billboards, back stops for tennis courts and pergolas.

Structure, portable, means a structure of a temporary nature which is designed to be removable from a site. Examples include portable buildings, tents and trailers.

Subdivider. See *Developer*.

Subdivision means the division of a lot, tract or parcel of land into two or more tracts, parcels or other divisions of land in accord with R.S. 33:101—33:120.1.

Subdivision restrictions means restrictive covenants to be legally recorded which the developer places upon the use of the lots by future owners for the well-being of all owners, to protect values and to prevent abuses and nuisances that would disturb other occupants in the subdivision.

Swim, golf or tennis club means a voluntary or corporate association owned solely by its members, the objectives, pursuits, and purposes of which are social or recreational, operating or formed for the purposes of operating a club on a membership basis and not operated for profit, the principal facilities of which shall be a swimming pool or pools, golf course and/or tennis court or courts owned by it and maintained on land owned or leased by it, and which may maintain and operate on the same premises such accessory facilities owned by it as are usually provided by a swim, golf or tennis club.

Technical school means a business enterprise offering instruction and training in a trade such as welding, bricklaying, machinery operation and other similar trades or crafts.

Telephone exchange means an unattended telephone switching or transmitting service.

Temporary outdoor light means the specific illumination of an outside area or object by any manmade device located outdoors that produces light by any means for a period of less than 45 days, with at least 180 days passing before being used again.

Temporary use. See *Use, temporary*.

Tentative plan means a generalized conceptual plan or plans designating the proposed development by showing the lot and street layout and the surrounding land uses.

Theater means a building or part of a building devoted to showing motion pictures or for dramatic, musical or live performances.

Through lot means a lot having its front and rear lot lines on adjacent and substantially parallel streets, otherwise known as a double-frontage lot.

Top soil means the organic upper layer soil material to a depth of six inches which is usually darker and richer than the subsoil.

Tot lot means an improved and prepped play area for small children usually up to elementary school age.

Tower/radio, television or microwave means a structure supporting antennae that transmit or receive any portion of the electromagnetic spectrum.

Townhouse means a single-family dwelling constructed as part of a series of dwellings, all of which are either attached to the adjacent dwelling or dwellings by party walls or are located immediately adjacent thereto with no visible separation between walls or roofs.

Transfer station (nonprocessing). See *Nonprocessing transfer station*.

Transfer station (processing). See *Processing transfer station*.

Transport means to move industrial solid waste off-site and/or to move solid waste of a commercial establishment or more than one household to a transfer station or processing or disposal facility.

Transportation terminal means any building or area of land in which or upon which a business, service, or industry involving the maintenance, servicing, storage or repair of commercial vehicles is conducted or rendered including the dispensing of motor fuel or other petroleum products directly into motor vehicles, the sale of accessories or equipment for trucks and similar commercial vehicles. This use may also include overnight accommodations and restaurant facilities solely for the use of truck crews.

Transporter means any person who moves industrial solid waste off-site and/or who moves solid waste of a commercial establishment or more than one household to a transfer station or processing or disposal facility.

Trash means nonputrescible refuse including, but not limited to, white goods, furniture, and wood and metal goods.

Tree, class A, means any self-supporting woody plant of a species which normally grows to an overall height of a minimum of 50 feet, usually with one main stem or trunk although some species may have multiple trunks, and with many branches. A list of class A native trees can be found in section 130-1880(b).

Tree, class B, means any self-supporting woody plant of a species which normally grows to an overall height of a minimum of 25 feet, with one or more main stems or trunks and many branches. A list of species considered to be class B native trees can be found in section 130-1880(c).

Tree preservation means the preservation of existing trees on a parcel of property through the development and construction process. For tree preservation, the following definitions shall apply:

- (1) *Unimproved land.* Where no grading, street surfacing, curbs, gutters, sidewalks, water mains, fire hydrants, sanitary sewers, storm sewers, culverts and/or other improvements to the natural state of the land have not occurred and occupancy permits have not yet been given or public improvements accepted.
- (2) *Partially improved land.* Where grading, street surfacing, curbs, gutters, sidewalks, water mains, fire hydrants, sanitary sewers, storm sewers, culverts and/or other improvements to the natural state of the land have occurred but occupancy permits have not yet been given or public improvements accepted.
- (3) *Tree removal.* Any act by which a tree is caused to no longer live. Included is any act which causes a tree to die within a period of two years, including, but not limited to,

damage inflicted upon the root systems by machinery, storage of materials and solid compaction; changing the natural grade above the root system or around the trunk; damage indicated on the tree permitting infection or pest infestation; excessive pruning; paving with concrete, asphalt or other impervious material within the proximity as to be harmful to the tree.

- (4) *Improved land.* Where grading, street surfacing, curbs, gutters, sidewalks, water mains, fire hydrants, sanitary sewers, storm sewers, culverts and/or other improvements have occurred and occupancy permits have been given and public improvements accepted.

Tree root zone means that area that extends outward from the trunk to the drip line of the tree.

Truck stop. See *Transportation terminal*.

Type I facility means a facility used for disposing of industrial solid wastes (e.g., a landfill, surface impoundment, or landfarm). If the facility is used for disposing of residential or commercial solid waste, it is also a type II facility.

Type I-A facility means a facility used for processing industrial solid waste (e.g., a transfer station (processing), shredder, baler, etc.). If the facility is used for processing residential or commercial solid waste, it is also a type II-A facility.

Type II facility means a facility used for disposing of residential and/or commercial solid waste (e.g., a landfill, surface impoundment, or landfarm). If the facility is used for disposing of industrial solid waste, it is also a type I facility.

Type II-A facility means a facility used for processing residential, infectious, or commercial solid waste (e.g., a transfer station (processing), composting municipal solid waste facility, refuse-derived fuel facility, shredder, baler, autoclave, etc.). If the facility is used for processing industrial solid waste, it is also a type I-A facility.

Type III facility means a facility used for disposing or processing of construction/demolition debris or woodwaste, composting organic waste to produce a usable material, or separating recyclable wastes (e.g., a construction/demolition-debris or woodwaste landfill, separation facility, or composting facility).

Understory plants means an underlying layer of low vegetation including all shrubs and trees 35 feet or smaller.

Undeveloped land means land in its natural state before development.

Unobstructed open space means land not covered by buildings or structures.

University means an accredited academic institution of higher learning beyond the level of secondary school.

Uplighting means any light source that distributes illumination above a 90-degree horizontal plane.

Use means any activity, occupation, business or operation carried on within a building, structure or on a tract of land.

Use, compatible, means a use which is capable of existing in harmony with other uses situated in its immediate vicinity.

Use, conditional, means a use which may be permitted in a district through the granting by the zoning commission of a special exception upon a finding by the board that it meets special conditions.

Use, incompatible, means a use which is incapable of existing in harmony with other uses situated in its immediate vicinity.

Use, nonconforming. See *Nonconforming use*.

Use, permitted, means a use which may be lawfully established in a particular district or districts, provided it conforms with all requirements, regulations and performance standards (if any) of such district.

Use, principal, means the main use of land or buildings as distinguished from a subordinate or accessory use. A principal use may be either "permitted" or "conditional."

Use, temporary, means a use established for a fixed period of time with the intent to discontinue such use upon the expiration of the time period.

Utility means establishments engaged in the generation, transmission, and/or distribution of electricity, gas or steam, including water and irrigation systems, sanitary systems used for the collection and disposal of garbage, sewage and other wastes.

Utility servitude. See *Easement*.

Variance means a departure from the provisions of a zoning ordinance relating to setbacks, site yards, frontage requirements, and lot size, but not involving actual use of structure. Lot size variances are limited to five percent of the required lot size.

Vehicular access area means driveways, accessways, parking areas and other areas which vehicles use.

Veterinary clinic, small animal, means an establishment used by veterinarians, or practitioners in related specialties, for the purpose of practicing veterinary medicine and where small animals are admitted for examination or treatment, and less than 20 animals are lodged or kept overnight. Limited laboratory and other diagnostic services may be offered on an outpatient basis. For the purpose of this section, small animals shall include but may not be limited to the following domestic animals: dogs, cats, rabbits, hamsters and birds. Reptiles, lizards, hoofed animals, exotic birds or animals and wild animals shall not be considered as small animals.

Veterinary hospital means an establishment used by veterinarians, or practitioners in related specialties, for the practice of veterinary medicine where small animals are admitted for examination or treatment and greater than 20 animals are lodged or kept overnight. Limited laboratory and other diagnostic services may be offered on an outpatient basis. For the purpose of this section, small animals shall include the following domestic animals: dogs, cats, rabbits, hamsters and birds. Reptiles, lizards, hoofed animals, exotic birds or animals and wild animals shall not be considered as small animals.

Warehouse means a building used primarily for storage of goods and materials.

Warehousing, mini, means a structure containing separate storage space of varying sizes leased or rented on an individual basis. (See also *Warehousing, public*.) Individual storage units may not exceed 500 square feet in size.

Warehousing, private, means terminal facilities operated for a specific commercial establishment or group of establishments in a particular industrial or economic field usually including distribution centers.

Warehousing, public, means terminal facilities available to the general public at a fee for the storage of furniture, household goods, commercial or private goods of any nature.

Wastewater treatment facilities means a regional wastewater treatment facility or a limited wastewater treatment facility, either and both of which as defined in this section.

Wholesale broker/agent means establishments or places of business primarily engaged in selling merchandise to retailers, to industrial, commercial, institutional, professional business uses, other wholesale brokers or agents; or selling such merchandise to such individuals or companies.

Wholesale storage. See *Warehousing, private*.

White goods means discarded domestic and commercial appliances, such as refrigerators, ranges, washers, and water heaters.

Woodwaste means yard trash and types of waste generated by land and right-of-way clearing operations, sawmills, plywood mills, and woodyards associated with the lumber and paper industry, such as wood residue, cutoffs, wood chips, sawdust, wood shavings, bark, wood refuse, woodfired boiler ash, wood ash, and plywood or other bonded materials that contain only polyurethane, phenolic-based glues, or other glues that are approved specifically by the administrative authority. Uncontaminated, un-treated or unpainted lumber or wooden pallets are considered woodwaste under this definition.

Yard means an open space on the same zoning lot with a principal building or group of buildings which is unoccupied and unobstructed from its lowest level upward, except as

otherwise permitted in these regulations and which extends along a lot line and at right angles thereto to a depth or width specified in the yard regulations for the district in which the zoning lot is located.

Yard, front, means a yard extending across the full width of the zoning lot in accordance with the setback requirements of these regulations. (See definition of *Setback*.) Corner lots: see definition for *Corner lots*.

Yard, rear, means a yard which is bounded by side lot lines, rear lot lines and rear yard line.

Yard, rear, depth of, means the mean horizontal distance between the rear line of the buildings and the centerline of the alley, where an alley exists, otherwise the rear lot line.

Yard, side, means a yard which is bounded by the interior side lot line, side yard line, the front building line and rear yard line.

Yard line, front. See *Building line*.

Yard line, rear, means a line or lines in a lot which is parallel to the rear lot line or lines which is not nearer to the rear lot line or lines at any point than the required rear yard depth.

Yard lines, side, means a line in a lot which is parallel to the side lot line and which is not nearer to the side lot line at any point than the required side yard depth.

Yard lines, side adjoining a street, means a line in a lot which is parallel to the lot line adjoining a street and which is not nearer to the lot line adjoining the street at any point than the depth of the front yard for that lot, unless otherwise permitted in this or other ordinances.

Yard trash means vegetative matter resulting from landscaping, maintenance, or land-clearing operations, including trees and shrubbery, leaves and limbs, stumps, grass clippings, and flowers.

Youth camp means any parcel or parcel of land having the general characteristics of a camp as the term is generally understood, used wholly or partially for recreational or educational purposes and accommodating five or more children under the age of 18, for a period of, or portions of, two days or more and including a site that is operated as a day camp or as a resident camp.

Zoning commission means that body of appointed officials granted the authority to administer land use regulations in accordance with title 33, Sections 101 through 119, Louisiana Revised Statutes Annotated (R.S. 33:101—33:119), as amended, and under title 33, sections 4776.40 through 4776.50, Louisiana Revised Statutes Annotated (R.S. 33:4776.40—33:4776.50), as amended, the St. Tammany Parish Home Rule Charter Commission, adopted under the authority of article VI, section 5, of the Constitution of Louisiana and R.S. 33:1395, as amended, and this article I of these regulations.

Zoning lot means a lot or parcel of land that meets the minimum lot area and frontage requirements of the zoning district wherein the zoning lot is located.

Zoning map. See *Official zoning map*.

Zoning parcel means a plot of ground, made up of one or more zoning lots, which is or may be occupied by a use, building or buildings including the open spaces required by these regulations.

(Code 1998, app. C, art. 2; Ord. No. 07-1548, art. 2, 5-3-2007; Ord. No. 09-2169, 12-3-2009; Ord. No. 10-2217, 3-4-2010; Ord. No. 10-2232, 4-1-2010; Ord. No. 10-2246, 4-1-2010; Ord. No. 10-2290, 7-1-2010; Ord. No. 10-2364, 11-4-2010; Ord. No. 10-2366, 11-4-2010; Ord. No. 11-2523, 5-5-2011; Ord. No. 11-2547, 7-7-2011; Ord. No. 14-3117, 4-3-2014; Ord. No. 14-3182, 9-4-2014; Ord. No. 14-3241, 11-6-2014; Ord. No. 17-3659, exh. A(2), 1-5-2017)

Secs. 130-6—130-28. Reserved.

ARTICLE II. ADMINISTRATION AND ENFORCEMENT

DIVISION 1. GENERALLY

Sec. 130-29. Administrative official.

The administrative official shall be director of the department of planning and development or his designee as appointed by the parish president. He may be provided with the assistance of such other persons as necessary. If the director of the department of planning and development finds that any of the provisions of are being violated, he shall notify in writing the persons responsible for such violation, indicating the nature of the violation and ordering the action necessary to correct it. He shall order discontinuance of illegal use of land, buildings, or structures; removal of illegal buildings or structures, or of additions, alterations, or structural changes thereto; discontinuance of any illegal work being done; or shall take other action authorized by to ensure compliance with or to prevent violation of its provisions.

(Code 1998, app. C, § 3.0101; Ord. No. 07-1548, § 3.0101, 5-3-2007)

Sec. 130-30. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.

(Code 1998, app. C, § 3.0102; Ord. No. 07-1548, § 3.0102, 5-3-2007)

Sec. 130-31. Duties of administrative official and board of adjustments.

(a) *Intent.* It is the intent of these regulations that all questions of interpretation and enforcement shall be first presented to the administrative officials and that such questions shall be presented to the board of adjustment only on appeal from the decision of the administrative officials, and that recourse from the decision of the board of adjustments shall be to the courts as provided in the Louisiana Revised Statutes, as amended.

(b) *Enforcing officer.* The director of the department of planning and development shall be the chief zoning official responsible charged with the interpretation, administration, and enforcement of these regulations. The director of the department of planning and development may designate staff members to assist in the administration or interpretation of these regulations.

(Code 1998, app. C, § 3.0103; Ord. No. 07-1548, § 3.0103, 5-3-2007)

Sec. 130-32. Board of adjustment.

(a) *Creation of board.*

- (1) There is herewith recreated and reestablished a board of adjustment for the parish pursuant to the authority granted in Act 518 of 1954.
- (2) The board of adjustment shall consist of five members who shall be freeholders and qualified voters. The membership of the first board shall serve respectively, one for one year, one for two years, one for three years, one for four years, and one for five years.
- (3) Thereafter, members shall be appointed for terms of five years each. Vacancies shall be filled for the unexpired term of any member whose term becomes vacant.
- (4) All appointments shall be made by resolution of the parish council.
- (5) All members shall be removable for cause by the appointment authority upon written charges and after public hearings; provided however that any member who shall be absent for three consecutive meetings, regardless of cause, shall be deemed to have removed himself from membership on the board and that appointment shall be automatically vacated as a result of such nonattendance.
- (6) The board shall elect its own chairperson from its membership. The chairperson shall serve for one year.
- (7) The board shall adopt rules in accordance with provisions of any ordinance adopted pursuant to this act. Meetings of the board shall be held at the call of the chairperson and at such other times as the board may determine. Such chairperson, or in his absence the acting chairperson, may administer oaths and compel the attendance of witnesses. All meetings of the board shall be open to the public. The board shall keep minutes of its proceedings, showing the vote of each member upon each question, or, if absent or failing to vote, indicating that fact and shall keep records of its examinations and other official actions, all of which shall be filed immediately in the office of the board and shall be public record. All testimony, objections thereto and rulings thereon, shall be taken down by a reporter employed by the board for the purpose. Appeals to the board of adjustment may be taken by any person aggrieved or by an officer, department, board or bureau of the parish affected by any decision of the department of planning and development and/or the department of permits and regulatory.

- (8) Such appeal shall be taken within a reasonable time, as provided by the rules of the board, by filing with the department from whom the appeal is taken and with the board of adjustment a notice of appeal specifying the grounds thereof. The department from whom the appeal is taken shall forthwith transmit to the board all the papers constituting the record upon which the action appealed from was taken.
- a. An appeal stays all proceedings in furtherance of the action appealed from unless the department director from whom the appeal is taken certifies to the board of adjustment after the notice of appeal shall have been filed with him, that by reason of facts stated in the certificate a stay would, in his opinion, cause imminent peril of life or property. In such case, the proceeding shall not be stayed otherwise than by a restraining order which may be granted by the board of adjustment or by a court of record on application or notice to the officer from whom the appeal is taken and on due cause shown.
 - b. The board of adjustment shall fix a reasonable time for the hearing of the appeal, give public notice thereof, as well as due notice to the interested parties, and decide the same within a reasonable time. Upon the hearing any party may appear in person or by agent or by attorney.
- (b) *Powers of the board.*
- (1) The board of adjustment shall have the following powers:
- a. To hear and decide appeals where it is alleged there is error in any order, requirement, decision, or determination made by the department of planning and development and/or the department of permits and regulatory in the enforcement of Act 518 of 1954 of the state legislature or of any ordinance adopted pursuant thereto.
 - b. To hear and decide all matters referred to it or upon which it is required to pass under such ordinance.
 - c. In passing upon appeals, where there are practical difficulties or unnecessary hardships in the way of carrying out the strict letter of such ordinance, to vary or modify the application of any of the regulations or provisions of such ordinance relating to the construction or alteration of buildings or structures so that the spirit of the ordinance shall be observed, public safety and welfare secured, and substantial justice done.
- (2) In exercising the above mentioned powers such board may, in conformity with the provisions of this act, reverse or affirm wholly or partly or may modify the order, requirement, decision or determination appealed from and may make such order, requirement, decision or determination as ought to be made, and to that end shall have the powers of the department from whom the appeal is taken.

(c) *Voting.* The concurring vote of four members of the board shall be necessary to reverse any order, requirement, decision or determination of any such administrative official, or to decide in favor of the applicant on any matter upon which it is required to pass under any such ordinance, or to effect any variation in such ordinance.

(d) *Secretary.* The board shall have the power and authority to appoint a secretary who shall not necessarily be a member of the board, in which event the salary of such secretary shall be fixed by the board. It shall be the duty of the secretary to keep a true and correct record of all proceedings at such meetings, both general and special of said board, in a book or books, to be kept specifically for that purpose. Certified copies of the minutes of all such proceedings shall be furnished to the chairperson of the planning commission.

(e) *Appeals from the board of adjustment.* Any person or persons jointly or severally aggrieved by any decision of the board of adjustment, or any officer, department, board or bureau of the said parish, may present to the district court of the parish a petition duly verified, setting forth that such decision is illegal, in whole or part, specifying the grounds of the illegality. Such petition shall be presented to the court within 30 days after the filing of the decision in the office of the board. Upon the presentation of such petition, the court may allow a writ of certiorati directed to the board of adjustment to review such decision of the board of adjustment and shall prescribe therein the time within which a return less than ten days and may be extended by the court. The allowance of the writ shall not stay proceedings upon the decision appealed from but the court may, on application or notice to the board and due cause shown, grant a restraining order. The board of adjustment shall not be required to return certified or sworn copies thereof or such portions thereof as may be called for by such writ. The return shall concisely set forth such other facts as may be pertinent and material to show the grounds of the decision appealed from and shall be verified. If, upon the hearing, it shall appear to the court that testimony is necessary for the proper disposition of the matter, it may take additional evidence or appoint a referee to take such evidence as it may direct and report the same to the court with his findings of fact and conclusion of law, which shall constitute a part of the proceedings upon which the determination of the court shall be made. The court may reverse or affirm, wholly or in part, or may modify the decision brought up for review. Costs shall not be allowed against the board unless it shall appear to the court that it acted with gross negligence, or in bad faith, or with malice in making the decision appealed from. All issues in any proceedings under this section shall have preference over all other civil actions and proceedings.

(Code 1998, app. C, § 3.0104; Ord. No. 07-1548, § 3.0104, 5-3-2007)

Secs. 130-33—130-52. Reserved.

DIVISION 2. AMENDMENT OF REGULATIONS

Sec. 130-53. Amendments or changes to development regulations or district map.

(a) The parish council may, from time to time, amend, supplement or change the regulations, restrictions, zoning districts, or boundaries as subsequently established in accordance with the provisions of this section.

(b) No amendment, supplement or change of the development regulations shall become effective unless and until there shall have been held a public hearing in relations thereto before the zoning commission at which parties in interest and citizens shall have had an opportunity to be fully heard.

(c) Notice of such public hearings by the zoning commission shall give the time and place of hearing and shall be published once a week in three different weeks in the official journal of the parish, together with a similar publication in a newspaper of general circulation in the area wherein the property is located, as determined by the director of planning and development. At least 30 days' notice of time and date of the public hearing shall be published in the official journal. Should there be no official journal, then the publication in the newspaper of general circulation in the area wherein the property is located shall be sufficient.

(Code 1998, app. C, § 3.0201; Ord. No. 07-1548, § 3.0201, 5-3-2007)

Sec. 130-54. Amendments or changes.

Amendments or changes may be initiated in the following ways:

- (1) By action of the parish council itself by introduction of an ordinance or by adoption of a resolution or motion;
- (2) Upon recommendation by the zoning commission, after determination by the planning and development director that the amendment, or supplement or change to the regulations, restriction, zoning district or boundaries should be made; or
- (3) On application or petition of property owners, by filing through the planning and development department, to the standards and requirements of the planning and development director a petition to amend or change the comprehensive zoning ordinance, provided that no petition for change in the classification of property shall be considered or acted upon unless such petition is duly signed by the owners or authorized agents of not less than 50 percent of the area of the land for which a change of classification is requested; provided, however, that where any lot located in the afore-said area is owned in division, all co-owners or their authorized agents must sign and petition for that lot to be included in the 50 percent provision.

(Code 1998, app. C, § 3.0202; Ord. No. 07-1548, § 3.0202, 5-3-2007)

Sec. 130-55. Notice requirements.

(a) For all proposed changes, except comprehensive zoning changes and text changes, a printed notice in bold type shall be posted for not less than 15 consecutive days prior to the public hearing conducted by the parish zoning commission on signs not less than one square foot in area, prepared, furnished, and placed by the director of planning and development or his designated appointee upon the principal and accessible rights-of-way adjoining the area proposed for a zoning change. Said signs shall contain the case number, the time and place of the public hearing as provided above. The parish council shall take no action until it has received the final report of the zoning commission.

(b) No such posting is required of the area within or adjoining an area to be affected by any proposed text change provided there is compliance with the publication requirements set above.

(c) Comprehensive rezoning proposals need be posted under the requirements set out above only within the area to be affected in general geographic terms and need not list the specific zone proposed for all land within that area. The zoning commission may then adopt the final map after a public hearing on a ward or comprehensive rezoning area zoning change.

(Code 1998, app. C, § 3.0203; Ord. No. 07-1548, § 3.0203, 5-3-2007)

Sec. 130-56. Voting.

(a) Any amendment that has failed to receive the approval of the zoning commission shall not be passed by the parish council except by the affirmative vote of a simple majority of the legislative body.

(b) A final yea and nay vote shall have been taken on the proposal by the parish council within 125 days dated from the introduction of an ordinance in correct form.

(c) In case, however, of a protest against such change signed by the owner of 20 percent or more either of the area of the lots included in such proposed change, or in those immediately adjacent, extending 200 feet from said lot, or those directly opposite thereto extending 500 feet from the street frontage of such opposite lots, such amendments shall not become effective except by the favorable vote of at least a simple majority of the governing body.

(d) After published notice, the parish council may hold any public hearing requiring by this article or the state statutes pertaining to land use jointly with any public hearing required to be held by the parish planning commission, but the parish council shall not take action until it has received the final report of the zoning commission.

(e) Whenever a petition or application for a site or cumulative acreage of less than 20 acres is filed requesting or proposing a zoning change to this chapter and said petition or application has been received, officially advertised and subsequently a public hearing has been held, the parish council shall not consider any further petition or application requesting or proposing

such change for the same property within one year from the date of the parish council's final action on said petition or application. The provisions of this subsection shall not apply in cases where the parish council wishes to consider a comprehensive zoning revision of an area.

(f) Whenever a proposed change has been forwarded to the parish council with a recommendation for approval, and no protest or appeal has been filed with the department of planning and development and permits as outlined in these regulations, the proposed change shall be placed upon the consent agenda for final adoption at the next appropriate parish council meeting.

(Code 1998, app. C, § 3.0204; Ord. No. 07-1548, § 3.0204, 5-3-2007)

Secs. 130-57—130-85. Reserved.

DIVISION 3. VIOLATIONS

Sec. 130-86. Complaints regarding violations.

Whenever a violation of these regulations occurs or is alleged to have occurred, any person may file a written complaint. Such complaint, stating fully the cause and basis thereof, shall be filed with an administrative official authorized to enforce the provision that is alleged to have been violated. The administrative official is to properly record such complaint, promptly investigate and take such action as is warranted under the facts and the applicable provisions of this chapter.

(Code 1998, app. C, § 3.0301; Ord. No. 07-1548, § 3.0301, 5-3-2007)

Sec. 130-87. Enforcement and penalties for violation.

(a) *Violations.* It shall be illegal to violate any ordinance governing land use, zoning, or the construction, placement, operation and/or maintenance of buildings or other structures that either are permanently affixed to the land or considered to be a temporary component part thereof, such as, for example, a mobile home that has not become immovable pursuant to an act recorded in accordance with state law.

(b) *Issuance of citation and/or summons.* The director of permits and regulatory, the director of planning and development, code enforcement officers and all other persons appointed as acting inspectors of the parish are empowered to post a notice of violation at the location of the violation and to issue and to serve, either by personal service, domiciliary service or by certified mail, a citation and/or summons upon persons charged with a violation of any provision contained in the articles hereof, and of the Parish Code of Ordinances, relative to land use, zoning and the building code ordinances and regulations. The director of permits and regulatory, director of planning and development, and all persons appointed as code enforcement officers shall be so commissioned and designated by the parish for the purpose of enforcing the provisions herein.

(c) *Contents of citation and/or summons.* As used in this section, the term "citation and/or summons" means a written or printed notice served upon the person charged with a misdemeanor violation. Such citation and/or summons shall include the following information:

- (1) The name of the person cited and/or summoned.
- (2) The date and place of violation.
- (3) The number of the section of the ordinance provision violated, followed by a short description of the violation.
- (4) The date and place at which the person shall appear and a notice that if the person does not appear a warrant may be issued for such person's arrest.
- (5) A notice that the person charged may be represented by counsel and that he has a right to a court hearing.

(d) *Penalties for violations.* Unless otherwise provided in a particular section or provision of these regulations, a violation of any provision of these regulations, or a failure to comply with any of the requirements hereof, shall constitute a misdemeanor punishable as follows: A violation of any provision of a particular section of these regulations, or the failure to comply with any of the requirements of such section, shall be punishable by a fine not to exceed \$500.00 per day and imprisonment in the parish jail for not more than 30 days, or both such fine and imprisonment. Each day that the violation continues shall constitute a separate offense. In addition thereto, the court may tax said violator with all costs and expenses associated with the case.

(e) *Participation in violation.* The owner, occupant and/or tenant of any building, structure, premises, or part thereof, and any architect, builder, contractor, or other person who either commits, participates in, aids or assists in a violation hereof, may each be cited for a violation and, in such case, shall be subject to the penalties herein provided.

(f) *False information.* The filing of any application that is known, or should have been known, by an applicant to contain any materially false information shall also constitute a violation hereof and shall be subject to the penalties herein provided.

(g) *Remedy of violation.* Nothing herein provided shall be deemed to prevent or preclude the parish from taking such other legal action that is necessary to prevent or remedy any violation.

(h) *Commencing a project without a permit.* Except for those instances where a permit is not required, whenever a person has deliberately commenced a project without a building permit, the director of permits and regulatory may increase the applicable building permit fee by an amount up to 100 percent.

(Code 1998, app. C, § 3.0302; Ord. No. 07-1548, § 3.0302, 5-3-2007)

Sec. 130-88. Miscellaneous offenses.

(a) No structure (temporary or permanent), fill, deposit, obstruction, storage of materials, equipment, machinery, junk, trash, garbage, debris, abandoned or inoperable vehicles, and/or any other unauthorized things or materials, shall be placed, or be allowed to remain, on any parish right-of-way, road, ditch, drainage canal or waterway of any kind.

(b) It shall further be prohibited to cause injury or endanger the comfort, repose health or safety of others. Nuisances shall include but not be limited to the following:

- (1) Accumulation of rubbish, trash, refuse, junk, inoperable or abandoned vehicles and other abandoned materials.
 - (2) Any conditions which provide harborage for rats, mice, snakes and other vermin.
 - (3) Any building or other structure which is in a condition that is unfit for human habitation, kept in an unsanitary condition so that it is a menace to the health and safety of residents in the area or presents a more than ordinarily dangerous fire hazard in the vicinity to where it is located.
 - (4) Contractor's rubble, residue from construction, building demolition or parts of whole structures, including building debris.
 - (5) Contractors burning within residential subdivisions shall be prohibited.
- (Code 1998, app. C, § 3.0303; Ord. No. 07-1548, § 3.0303, 5-3-2007)

Secs. 130-89—130-119. Reserved.

DIVISION 4. "AFTER THE FACT" BUILDING PERMITS

Sec. 130-120. General provisions for obtaining building permit.

Notwithstanding any provisions of division 3 of this article, as a remedy for failure on the part of any owner, lessor, or tenant, having an interest, expressed or unexpressed in a development of land, to obtain a building permit prior to the commencement of the erection, placement or construction of any structure in an area of the parish the following provisions shall be followed:

- (1) Immediately upon obtaining knowledge of such violation, code enforcement officer for the parish shall affix in a prominent place on the premises a yellow citation and/or summons briefly stating the building permit requirements the parish and ordering the owner, lessor or tenant to immediately cease all construction on said premises until a fully issued building permit has been obtained from the parish department of permits and regulatory.
- (2) Said citation and/or summons shall be executed in triplicate with the original copy being affixed to the premises, duplicate copy being retained in the permanent record of

the department of permits and regulatory, and the triplicate copy being forwarded within ten days of the issuance to the parish district attorney's office and or the parish bureau of administrative adjudication.

- (3) Nothing herein shall interfere with the ability of the parish district attorney's office to obtain an injunction at any time in order to prevent further construction on the premises and/or proceed in a civil action to collect any late penalties.
 - (4) The owner or tenant of any building, structure, premises, or part thereof, any architect, builder, contractor, agent or other person who commits, participates in, assists in, or maintains such violation may each be found guilty of a separate offense and suffer the penalties herein provided.
 - (5) Nothing herein contained shall prevent the parish from taking such other lawful actions as is necessary to prevent or remedy any violation.
- (Code 1998, app. C, § 3.04; Ord. No. 07-1548, § 3.04, 5-3-2007)

Secs. 130-121—130-138. Reserved.

ARTICLE III. NONCONFORMITIES

DIVISION 1. GENERALLY

Secs. 130-139—130-159. Reserved.

DIVISION 2. TYPES OF NONCONFORMITIES

Sec. 130-160. Legal nonconforming lots.

The owner of any residential substandard lot of record lawfully existing at the time of enactment of these regulations shall be continued as a legal nonconforming use even though said lot does not conform with the provisions of these regulations for the use district in which it is located, except that an owner of a contiguous substandard lot of record shall be required to combine said lots to create buildable lots of record in accordance with chapter 125.

(Code 1998, app. C, § 4.0101; Ord. No. 07-1548, § 4.0101, 5-3-2007)

Sec. 130-161. Legal nonconforming buildings.

Any building or structure lawfully existing at the time of enactment of these regulations may be continued as legal nonconforming building or structure even though said building or structure does not conform with the provisions of these regulations for the zoning district in

which it is located. Similarly, whenever use district shall be changed thereafter, then the existing lawful use may be continued. Legal nonconforming buildings shall be subject to the following regulations:

- (1) *Alterations.* Structural alterations to a legal nonconforming building or structure may be permitted only when there is not an increase in the cubical content of the building.
 - (2) *Expansions.* Expansions including structural additions to a legal nonconforming building or structure may be permitted, provided that:
 - a. The total expansion shall not exceed 25 percent of the total area of the existing structures or uses.
 - b. The proposed expansion shall not infringe on the side, front and rear yard requirements for the particular district in which the legal nonconforming use is located.
 - c. The parking requirements for the use shall be satisfied.
 - d. The proposed expansion will not merely serve as a convenience to the applicant, but will relieve some demonstrated hardship.
 - e. The proposed expansion shall not result in a diminution of surrounding conforming uses, or cause any diminution or depreciation of property values of any surrounding property nor alter the essential character of the locality.
 - f. The proposed expansion will not be detrimental to the public welfare or seriously affect or be injurious to other property or improvements in the neighborhood in which located, in that it will not impair an adequate supply of light and air, or increase substantially the congestion in the public streets, create a parking hazard, or permit inadequate parking, or increase the danger of fire, or substantially overburden existing drainage or sewerage systems, or endanger the public safety nor cause serious annoyance or injury to occupants of adjoining premises by reason of emission of odors, fumes, gases, dust, smoke, noise or vibration, light or glare or other nuisances.
 - g. Any proposed expansion of a nonconformity shall not require the rezoning of adjacent properties to accommodate said expansion (i.e., provide additional required parking).
 - (3) *Expiration.* The petitioner shall have six months to obtain the appropriate building permits or occupy the expansion from the date of approval of the parish zoning commission, unless otherwise stipulated by the parish zoning commission.
- (Code 1998, app. C, § 4.0102; Ord. No. 07-1548, § 4.0102, 5-3-2007)

Sec. 130-162. Legal nonconforming uses.

(a) Legal nonconforming uses shall be defined as any use lawfully existing at the time of enactment of these regulations may be continued as a legal nonconforming use even though such use does not conform to the provisions of these regulations for the zoning district in which it is located. Similarly, whenever a use district shall be changed thereafter, then the existing lawful use may be continued.

(b) Nonconforming uses shall be subject to the following regulations:

- (1) Continuance alteration shall conform to provisions of the use district in which it is located unless approved by the parish. No nonconforming use shall hereafter be extended or intensified, unless such extension or council as forth below in section 130-214.
- (2) Change in use. A legal nonconforming use may be changed to one of a similar or less intensive use. However, no building, structure or tract of land in which a legal nonconforming use has been changed shall be used as a more intense use unless a zoning change comparable to that use has been approved by the parish council.
- (3) A building or structure which has a legal nonconforming use that does not involve or permit the sale and consumption of alcoholic beverages on the premises shall not be changed to a use which involves, permits or authorizes the sale and consumption of alcoholic beverages on the premises.
- (4) No building or structure or premises within where a legal nonconforming use has ceased for reasons other than those stated in division 3 of this article for a period of more than six months or has changed to a permitted or conforming use, shall again be used as a legal nonconforming use. Should the new legal nonconforming use be less intense than the original use, the new legal nonconforming, use shall establish the degree of the nonconformity relative to intensity after the same period of time.

(Code 1998, app. C, § 4.0103; Ord. No. 07-1548, § 4.0103, 5-3-2007)

Sec. 130-163. Legal nonconforming outdoor storage.

Any outdoor storage use such as junk yards, salvage yards and storage yards, existing at the time of enactment or subsequent amendment of these regulations, but not in conformity with its provisions, may be continued longer than six months from and after the enactment of these regulations as long as they are enclosed and screened from view by walls and/or fences and/or planting of not less six feet in height in a manner prescribed by the director of planning and development.

(Code 1998, app. C, § 4.0104; Ord. No. 07-1548, § 4.0104, 5-3-2007)

Secs. 130-164—130-194. Reserved.

DIVISION 3. ABANDONMENT OF OR RESTORATION AFTER DAMAGE

Sec. 130-195. Provisions for reconstruction after damage.

(a) Any legal nonconforming building or structure which has been damaged to the extent of not exceeding 50 percent of its replacement valuation by reason of fires, flood, explosion, earthquake, riot, war or act of God, may be re-constructed and re-used as before if done within six months from the time such damage occurred, provided that there is no increase in cubical content of the building or structure. Except as provided in subsection (b) of this section, if such damage is greater than 50 percent of the replacement valuation, such building or structure may only be reconstructed to conform to the provisions of the use district in which it is situated. If any structure or building is removed from the site, other than a manufactured home, such structure or building shall only be replaced if it conforms to current land use regulations or meet all criteria within the current zoning district in which it is located.

(b) A manufactured home damaged by an event set forth in subsection (a) of this section may be removed from the site and replaced if done within one year from the time such damage occurred.

(c) The provisions of subsection (a) of this section shall not apply in those cases where the damage was occasioned by the intentional act of the owner.
(Code 1998, app. C, § 4.02; Ord. No. 07-1548, § 4.02, 5-3-2007; Ord. No. 10-2298, 7-1-2010)

Secs. 130-196—130-213. Reserved.

DIVISION 4. EXPANSIONS

Sec. 130-214. Provisions for expansions of legal nonconforming uses.

Expansions of legal nonconforming uses, including structural additions to a legal nonconforming building or structure may be permitted, provided:

(1) *Standards.*

- a. The total expansion shall not exceed 25 percent or the total area of the existing structures or uses.
- b. The proposed expansion shall not infringe on the side, front and rear yard requirements for the particular district in which the legal nonconforming use is located.
- c. The parking requirements for the use shall be satisfied.
- d. The proposed expansion will not merely serve as a convenience to the applicant, but will relieve some demonstrated hardship.

- e. The proposed expansion shall not result in a diminution of surrounding conforming uses, or cause any diminution or depreciation of property values of any surrounding property nor alter the essential character or the locality.
 - f. The proposed expansion will not be detrimental to the public welfare or seriously affect or be injurious to other property or improvements in the neighborhood in which located, in that it will not impair an adequate supply of light and air, or increase substantially the congestion in the public streets, create a parking hazard, or permit inadequate parking, or increase the danger of fire, or substantially overburden existing drainage or sewerage systems, or endanger the public safety nor cause serious annoyance or injury to occupants of adjoining premises by reason of emission of odors, fumes, gases, dust, smoke, noise or vibration, light or glare or other nuisances.
- (2) *Application.* An application verified by the owner of record or authorized agent of said owner of the property involved shall be filed with the department of planning and development for the attention of the zoning commission upon a form prescribed therefor, which shall contain, or be accompanied by, all required information.
- (3) *Public hearings.* Upon receipt of such verified application, the department of planning and development shall notice of a public hearing by posting the affected site in a conspicuous place at least 15 consecutive days prior to the intended permit hearing. Notice of such public hearing shall also be published in the official journal of the parish at least ten days prior to the intended public hearing. A record of pertinent information presented to the public hearing shall be made and maintained by the zoning commission as part of their permanent record relative to the applicant.
- (4) *Determination.*
- a. The zoning commission shall then make its findings and the permit decision shall not become effective for ten days, during which time an appeal can be made in written form to the department of planning and development. Should the next scheduled parish council meeting occur prior to the expiration of the appeal period, the appeal must be filed in time for placement on the regular agenda.
 - b. Upon the filing of an appeal, all permits for said request shall be suspended and shall not be issued until a determination has been made by the parish council.
- (5) *Appeal.* The parish council may sustain the decision of the zoning commission by majority vote or may overturn the decision of the zoning commission by a vote of a simple majority of the legislative body.
- (6) *Expiration.*
- a. The petitioner shall have six months to obtain the appropriate building permits or occupy the expansion from the date of approval of the zoning commission, unless otherwise stipulated by the zoning commission.

b. In the case of an appeal, the six-month provision shall commence at such time as a determination has been made by the parish council.
(Code 1998, app. C, § 4.03; Ord. No. 07-1548, § 4.03, 5-3-2007)

Secs. 130-215—130-236. Reserved.

ARTICLE IV. ZONING DISTRICTS

DIVISION 1. GENERALLY

Secs. 130-237—130-265. Reserved.

DIVISION 2. E-1 ESTATE DISTRICT

Sec. 130-266. Purpose.

The E-1 Estate District is intended to provide a single-family residential environment on large, multi-acre lots. The E-1 district is located primarily in less populated areas where the character of the area should be preserved through low densities. To protect the intention of the district, permitted activities are limited to single-family dwellings, certain specified agricultural, and utility uses. All strictly commercial uses are prohibited in the E-1 Estate District. Planned unit development overlays shall not be used in the E-1 Estate District.
(Code 1998, app. C, § 5.0101; Ord. No. 07-1548, § 5.0101, 5-3-2007)

Sec. 130-267. Permitted uses.

Only the following permitted uses shall be allowed in the E-1 Estate District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which this section is derived or accessory uses in compliance with the provisions of this section.

(1) *Residential uses.*

- a. One single-family dwelling.
- b. Private garages and accessory structures.
- c. Garage apartment or guest house under 1,000 square feet of habitable floor space.

(2) *Miscellaneous uses.*

- a. Community central water treatment, wall, and storage facilities.
- b. Household agriculture.

- (3) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the E-1 Estate District as determined by the director of planning and development acting in the capacity of zoning administrator.
(Code 1998, app. C, § 5.0102; Ord. No. 07-1548, § 5.0102, 5-3-2007)

Sec. 130-268. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.

- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
- (12) Temporary plants and related construction facilities for a single development.
- (13) Day care homes.
- (14) Temporary residences subject to the minimum standards as established under section 130-2112(56).
- (15) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically, structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (16) Other administrative uses which are similar and compatible with the E-1 Estate District as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.0103; Ord. No. 07-1548, § 5.0103, 5-3-2007; Ord. No. 09-2169, 12-3-2009; Ord. No. 10-2219, 3-4-2010; Ord. No. 15-3393, exh. A(5.0103), 9-3-2015)

Sec. 130-269. Site and structure provisions.**(a) *Minimum lot area.***

- (1) *Residential uses.* The lot area of each zoning lot shall not be less than 20 acres.
- (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 20 acres, except that public utility facilities may be located on lots of lesser area with administrative approval.

(b) *Minimum area regulations.*

- (1) *Minimum lot width.* The width of each zoning lot shall not be less than 300 feet.
- (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block. In all cases, this front building line shall be set back a minimum of 50 feet from the front property line.
- (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of 15 feet each, plus one additional foot for each foot in building height over 20 feet above base flood elevation.
- (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot, for every foot in building height over 20 feet above base flood elevation.

(c) *Maximum lot coverage.*

- (1) *Residential uses.* The lot coverage of all principle and accessory buildings on a zoning lot shall not exceed 15 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(d) *Height regulations.*

- (1) No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (2) Uses incidental to farming, such as silos, windmills, etc., and any other nonhabitable structure (e.g., radio, television tower) may exceed this height limitation, provided, however, that there be one foot setback for every one foot over 45 feet from existing dwellings or residences and/or property lines.

(e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.0104; Ord. No. 07-1548, § 5.0104, 5-3-2007)

Sec. 130-270. District standards.

All uses of land and structures in the E-1 Estate District are subject to the general standards and regulations of these regulations. In addition, all uses located in the E-1 Estate District shall be subject to the following standards:

- (1) *Environmental quality.*
 - a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
 - a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.
 - b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
 - c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.
- (3) *Utilities.*
 - a. *Sewer.*
 1. *Residential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.
 2. *Nonresidential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.
 - b. *Water.* On lots without central water facilities, any well must be 50 feet from any sewer disposal unit.

(Code 1998, app. C, § 5.0105; Ord. No. 07-1548, § 5.0105, 5-3-2007)

Sec. 130-271. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.0106; Ord. No. 07-1548, § 5.0106, 5-3-2007)

Secs. 130-272—130-290. Reserved.

DIVISION 3. E-2 ESTATE DISTRICT

Sec. 130-291. Purpose.

The E-2 Estate District is intended to provide a single-family residential environment on large, multi-acre lots. The E-2 district is located primarily in less populated areas where the character of the area should be preserved through low densities. To protect the intention of the district, permitted activities are limited to single-family dwellings, certain specified agricultural, and utility uses. All strictly commercial uses are prohibited in the E-2 Estate District. Planned unit development overlays shall not be used in the E-2 district.

(Code 1998, app. C, § 5.0201; Ord. No. 07-1548, § 5.0201, 5-3-2007)

Sec. 130-292. Permitted uses.

Only the following permitted uses shall be allowed in the E-2 Estate District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which this article is derived or accessory uses in compliance with the provisions of this section.

- (1) *Residential uses.*
 - a. One single-family dwelling.
 - b. Private garages and accessory structures.
 - c. Garage apartment or guest house under 1,000 square feet of habitable floor space.
- (2) *Miscellaneous uses.*
 - a. Community central water treatment, wall, and storage facilities.
 - b. Household agriculture.
- (3) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the E-2 Estate District as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.0202; Ord. No. 07-1548, § 5.0202, 5-3-2007)

Sec. 130-293. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.

- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.
- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.

- c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
- (12) Temporary plants and related construction facilities for a single development.
- (13) Day care homes.
- (14) Temporary residences subject to the minimum standards as established under section 130-2112(56).
- (15) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (16) Other administrative uses which are similar and compatible with the E-2 Estate District as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.0203; Ord. No. 07-1548, § 5.0203, 5-3-2007; Ord. No. 09-2169, 12-3-2009; Ord. No. 10-2219, 3-4-2010; Ord. No. 15-3393, exh. A(5.0203), 9-3-2015)

Sec. 130-294. Site and structure provisions.

- (a) *Minimum lot area.*
- (1) *Residential uses.* The lot area of each zoning lot shall not be less than 15 acres.
 - (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 15 acres, except that public utility facilities may be located on lots of lesser area with administrative approval.
- (b) *Minimum area regulations.*
- (1) *Minimum lot width.* The width of each zoning lot shall not be less than 300 feet.
 - (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block. In all cases, this front building line shall be set back a minimum of 50 feet from the front property line.
 - (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of 15 feet each, plus one additional foot for each foot in building height over 20 feet above base flood elevation.

- (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot, for every foot in building height over 20 feet above base flood elevation.

(c) *Maximum lot coverage.*

- (1) *Residential uses.* The lot coverage of all principle and accessory buildings on a zoning lot shall not exceed 15 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(d) *Height regulations.*

- (1) No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (2) Uses incidental to farming, such as silos, windmills, etc., and any other nonhabitable structure (e.g., radio, television tower) may exceed this height limitation, provided, however, that there be one foot setback for every one foot over 45 feet from existing dwellings or residences and/or property lines.

(e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.0204; Ord. No. 07-1548, § 5.0204, 5-3-2007)

Sec. 130-295. District standards.

All uses of land and structures in the E-2 Estate District are subject to the general standards and regulations of these regulations. In addition, all uses located in the E-2 Estate District shall be subject to the following standards:

- (1) *Environmental quality.*
 - a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
 - a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.

- b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
- c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.

(3) *Utilities.*

a. *Sewer.*

- 1. *Residential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.
- 2. *Nonresidential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.

- b. *Water.* On lots without central water facilities, any well must be 50 feet from any sewer disposal unit.

(Code 1998, app. C, § 5.0205; Ord. No. 07-1548, § 5.0205, 5-3-2007)

Sec. 130-296. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.0206; Ord. No. 07-1548, § 5.0206, 5-3-2007)

Secs. 130-297—130-325. Reserved.

DIVISION 4. E-3 ESTATE DISTRICT

Sec. 130-326. Purpose.

The E-3 Estate District is intended to provide a single-family residential environment on large, multi-acre lots. The E-3 district is located primarily in less populated areas where the character of the area should be preserved through low densities. To protect the intention of the district, permitted activities are limited to single-family dwellings, certain specified agricultural, and utility uses. All strictly commercial uses are prohibited in the E-3 Estate District. Planned unit development overlays shall not be used in the E-3 Estate District.

(Code 1998, app. C, § 5.0301; Ord. No. 07-1548, § 5.0301, 5-3-2007)

Sec. 130-327. Use by right.

Only the following permitted uses shall be allowed in the E-3 Estate District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which this section is derived or accessory uses in compliance with the provisions of this section.

(1) *Residential uses.*

- a. One single-family dwelling.
- b. Private garages and accessory structures.
- c. Garage apartment or guest house under 1,000 square feet of habitable floor space.

(2) *Miscellaneous uses.*

- a. Community central water treatment, wall, and storage facilities.
- b. Household agriculture.

(3) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the E-3 Estate District as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.0302; Ord. No. 07-1548, § 5.0302, 5-3-2007)

Sec. 130-328. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.

- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.
- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
- (12) Temporary plants and related construction facilities for a single development.
- (13) Day care homes.
- (14) Temporary residences subject to the minimum standards as established under section 130-2112(56).

- (15) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (16) Other administrative uses which are similar and compatible with the E-3 Estate District as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.0303; Ord. No. 07-1548, § 5.0303, 5-3-2007; Ord. No. 09-2169, 12-3-2009; Ord. No. 10-2219, 3-4-2010; Ord. No. 15-3393, exh. A(5.0303), 9-3-2015)

Sec. 130-329. Site and structure provisions.

(a) *Minimum lot area.*

- (1) *Residential uses.* The lot area of each zoning lot shall not be less than ten acres.
- (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than ten acres, except that public utility facilities may be located on lots of lesser area with administrative approval.

(b) *Minimum area regulations.*

- (1) *Minimum lot width.* The width of each zoning lot shall not be less than 300 feet.
- (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block. In all cases, this front building line shall be set back a minimum of 50 feet from the front property line.
- (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of 15 feet each, plus one additional foot for each foot in building height over 20 feet above base flood elevation.
- (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot, for every foot in building height over 20 feet above base flood elevation.

(c) *Maximum lot coverage.*

- (1) *Residential uses.* The lot coverage of all principle and accessory buildings on a zoning lot shall not exceed 15 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(d) *Height regulations.*

- (1) No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (2) Uses incidental to farming, such as silos, windmills, etc., and any other nonhabitable structure (e.g., radio, television tower) may exceed this height limitation, provided, however, that there be one foot setback for every one foot over 45 feet from existing dwellings or residences and/or property lines.

(e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.0304; Ord. No. 07-1548, § 5.0304, 5-3-2007)

Sec. 130-330. District standards.

All uses of land and structures in the E-3 Estate District are subject to the general standards and regulations of these regulations. In addition, all uses located in the E-3 Estate District shall be subject to the following standards:

(1) *Environmental quality.*

- a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
- b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.

(2) *Signs, lighting and landscaping.*

- a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.
- b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
- c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.

(3) *Utilities.*

- a. *Sewer.*
 1. *Residential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.

2. *Nonresidential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.

- b. *Water.* On lots without central water facilities, any well must be 50 feet from any sewer disposal unit.

(Code 1998, app. C, § 5.0305; Ord. No. 07-1548, § 5.0305, 5-3-2007)

Sec. 130-331. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.0306; Ord. No. 07-1548, § 5.0306, 5-3-2007)

Secs. 130-332—130-350. Reserved.

DIVISION 5. E-4 ESTATE DISTRICT

Sec. 130-351. Purpose.

The E-4 Estate District is intended to provide a single-family residential environment on large, multi-acre lots. The E-4 district is located primarily in less populated areas where the character of the area should be preserved through low densities. To protect the intention of the district, permitted activities are limited to single-family dwellings, certain specified agricultural, and utility uses. All strictly commercial uses are prohibited in the E-4 Estate District. Planned unit development overlays shall not be used in the E-4 Estate District.

(Code 1998, app. C, § 5.0401; Ord. No. 07-1548, § 5.0401, 5-3-2007)

Sec. 130-352. Permitted uses.

Only the following permitted uses shall be allowed in the E-4 Estate District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which this division is derived or accessory uses in compliance with the provisions of this section.

- (1) *Residential uses.*
 - a. One single-family dwelling.
 - b. Private garages and accessory structures.
 - c. Garage apartment or guest house under 1,000 square feet of habitable floor space.
- (2) *Miscellaneous uses.*
 - a. Community central water treatment, wall, and storage facilities.
 - b. Household agriculture.

- (3) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the E-4 Estate District as determined by the director of planning and development acting in the capacity of zoning administrator.
(Code 1998, app. C, § 5.0402; Ord. No. 07-1548, § 5.0402, 5-3-2007)

Sec. 130-353. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.

- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
- (12) Temporary plants and related construction facilities for a single development.
- (13) Day care homes.
- (14) Temporary residences subject to the minimum standards as established under section 130-2112(56).
- (15) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (16) Other administrative uses which are similar and compatible with the E-4 Estate District as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.0403; Ord. No. 07-1548, § 5.0403, 5-3-2007; Ord. No. 09-2169, 12-3-2009; Ord. No. 10-2219, 3-4-2010; Ord. No. 15-3393, exh. A(5.0403), 9-3-2015)

Sec. 130-354. Site and structure provisions.**(a) Minimum lot area.**

- (1) *Residential uses.* The lot area of each zoning lot shall not be less than seven acres.
- (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than seven acres, except that public utility facilities may be located on lots of lesser area with administrative approval.

(b) Minimum area regulations.

- (1) *Minimum lot width.* The width of each zoning lot shall not be less than 300 feet.
- (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block. In all cases, this front building line shall be set back a minimum of 50 feet from the front property line.
- (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of 15 feet each, plus one additional foot for each foot in building height over 20 feet above base flood elevation.
- (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot, for every foot in building height over 20 feet above base flood elevation.

(c) Maximum lot coverage.

- (1) *Residential uses.* The lot coverage of all principle and accessory buildings on a zoning lot shall not exceed 15 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(d) Height regulations.

- (1) No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (2) Uses incidental to farming, such as silos, windmills, etc., and any other nonhabitable structure (e.g., radio, television tower) may exceed this height limitation, provided, however, that there be one foot setback for every one foot over 45 feet from existing dwellings or residences and/or property lines.

(e) Off-street parking and loading requirements. Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.0404; Ord. No. 07-1548, § 5.0404, 5-3-2007)

Sec. 130-355. District standards.

All uses of land and structures in the E-4 Estate District are subject to the general standards and regulations of these regulations. In addition, all uses located in the E-4 Estate District shall be subject to the following standards:

- (1) *Environmental quality.*
 - a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
 - a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.
 - b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
 - c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.
- (3) *Utilities.*
 - a. *Sewer.*
 1. *Residential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.
 2. *Nonresidential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.
 - b. *Water.* On lots without central water facilities, any well must be 50 feet from any sewer disposal unit.

(Code 1998, app. C, § 5.0405; Ord. No. 07-1548, § 5.0405, 5-3-2007)

Sec. 130-356. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.0406; Ord. No. 07-1548, § 5.0406, 5-3-2007)

Secs. 130-357—130-385. Reserved.

DIVISION 6. A-1(D) SUBURBAN DISTRICT

Sec. 130-386. Purpose.

The A-1(D) Suburban District is intended to provide a single-family residential environment at a low density level. The A-1(D) district is located primarily in less populated areas where the character of the area should be preserved through low densities. To protect the intention of the district, permitted activities are limited to single-family dwellings, certain specified agricultural, and utility uses. All strictly commercial uses are prohibited in the A-1(D) Suburban District. Planned unit development overlays may be used in the A-1(D) Suburban District.

(Code 1998, app. C, § 5.0501; Ord. No. 07-1548, § 5.0501, 5-3-2007)

Sec. 130-387. Permitted uses.

Only the following permitted uses shall be allowed in the A-1(D) Suburban District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which this division is derived or accessory uses in compliance with the provisions of this section:

- (1) *Residential uses.*
 - a. One single-family dwelling.
- (2) *Accessory uses.*
 - a. Private garages and accessory structures.
 - b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.
- (3) *Miscellaneous uses.*
 - a. Community central water treatment, well, and storage facilities.
 - b. Household agriculture.
- (4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-1(D) Suburban District as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.0502; Ord. No. 07-1548, § 5.0502, 5-3-2007)

Sec. 130-388. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.

- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three day-period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.
- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
 - a. Electrical substations.

- b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
- (12) Temporary plants and related construction facilities for a single development.
- (13) Day care homes.
- (14) Temporary residences subject to the minimum standards as established under section 130-2112(56).
- (15) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (16) Other administrative uses which are similar and compatible with the permitted uses of this district as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.0503; Ord. No. 07-1548, § 5.0503, 5-3-2007; Ord. No. 09-2169, 12-3-2009; Ord. No. 10-2219, 3-4-2010; Ord. No. 15-3393, exh. A(5.0503), 9-3-2015)

Sec. 130-389. Site and structure provisions.

- (a) *Maximum density/minimum lot area.*
- (1) *Residential uses.* The maximum net density permitted on shall be 0.2 units per acre (one unit per five acres).
 - (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 40,000 square feet, except that public utility facilities may be located on lots of lesser area with administrative approval.
- (b) *Minimum area regulations.*
- (1) *Minimum lot width.* The width of each zoning lot shall not be less than 300 feet. There shall be no minimum lot width in the A-1(D) district if the standards of the planned unit development overlay are met.
 - (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block. In all cases, this front building line shall be set back a minimum of 50 feet from the front property line.

- (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of 15 feet each, plus one additional foot for each foot in building height over 20 feet above base flood elevation.
- (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot, for every foot in building height over 20 feet above base flood elevation.
- (c) *Maximum lot coverage.*
 - (1) *Residential uses.* The lot coverage of all principle and accessory buildings on a zoning lot shall not exceed 15 percent of the total area of the lot.
 - (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.
- (d) *Height regulations.*
 - (1) No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
 - (2) Uses incidental to farming, such as silos, windmills, etc., and any other nonhabitable structure (e.g., radio, television tower) may exceed this height limitation, provided, however, that there be one foot setback for every one foot over 45 feet from existing dwellings or residences and/or property lines.
- (e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.
(Code 1998, app. C, § 5.0504; Ord. No. 07-1548, § 5.0504, 5-3-2007)

Sec. 130-390. District standards.

All uses of land and structures in the A-1(D) Suburban District are subject to the general standards and regulations of these regulations. In addition, all uses located in the A-1(D) Suburban District shall be subject to the following standards:

- (1) *Environmental quality.*
 - a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.

(2) *Signs, lighting and landscaping.*

- a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.
- b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
- c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.

(3) *Utilities.*

- a. *Sewer.*
 1. *Residential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.
 2. *Nonresidential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.
- b. *Water.* On lots without central water facilities, any well must be 50 feet from any sewer disposal unit.

Sec. 130-391. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.0506; Ord. No. 07-1548, § 5.0506, 5-3-2007)

Secs. 130-392—130-410. Reserved.

DIVISION 7. A-1A(D) SUBURBAN DISTRICT

Sec. 130-411. Purpose.

The A-1A(D) Suburban District is intended to provide a single-family residential environment on large, multi-acre lots. The A-1A(D) district is located primarily in less populated areas where the character of the area should be preserved through low densities. To protect the intention of the district, permitted activities are limited to single-family dwellings, certain specified agricultural, and utility uses. All strictly commercial uses are prohibited in the A-1A(D) Suburban District. Planned unit development overlays may be used in the A-1A(D) Suburban District.

(Code 1998, app. C, § 5.0601; Ord. No. 07-1548, § 5.0601, 5-3-2007)

Sec. 130-412. Permitted uses.

Only the following permitted uses shall be allowed in the A-1A(D) Suburban District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date the ordinance from which this division is derived or accessory uses in compliance with the provisions of this section and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of (a) uses lawfully established prior to the effective date of the ordinance from which these regulations are derived; (b) conditional uses in compliance with the provisions of section 130-413; or (c) accessory uses in compliance with the provisions of this article.

(1) *Residential uses.*

- a. One single-family dwelling.

(2) *Accessory uses.*

- a. Private garages and accessory structures.
- b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.

(3) *Miscellaneous uses.*

- a. Community central water treatment, well, and storage facilities.
- b. Household agriculture.

(4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-1A(D) Suburban District as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.0602; Ord. No. 07-1548, § 5.0602, 5-3-2007)

Sec. 130-413. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.

- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.
- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.

- f. Stormwater pumping stations.
 - g. Potable water pumping stations.
 - (12) Temporary plants and related construction facilities for a single development.
 - (13) Day care homes.
 - (14) Temporary residences subject to the minimum standards as established under section 130-2112(56).
 - (15) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (16) Other administrative uses which are similar and compatible with the permitted uses of this district as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.0603; Ord. No. 07-1548, § 5.0603, 5-3-2007; Ord. No. 09-2169, 12-3-2009; Ord. No. 10-2219, 3-4-2010; Ord. No. 15-3393, exh. A(5.0603), 9-3-2015)

Sec. 130-414. Site and structure provisions.

- (a) *Maximum density/minimum lot area.*
 - (1) *Residential uses.* The maximum net density permitted on shall be 0.35 units per acre. (Approximately one unit per three acres.)
 - (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 40,000 square feet, except that public utility facilities may be located on lots of lesser area with administrative approval.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* The width of each zoning lot shall not be less than 200 feet. There shall be no minimum lot width in the A-1(D) district if the standards of the planned unit development overlay are met.
 - (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block. In all cases, this front building line shall be set back a minimum of 50 feet from the front property line.
 - (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of 15 feet each, plus one additional foot for each foot in building height over 20 feet above base flood elevation.

- (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot, for every foot in building height over 20 feet above base flood elevation.
- (c) *Maximum lot coverage.*
 - (1) *Residential uses.* The lot coverage of all principle and accessory buildings on a zoning lot shall not exceed 15 percent of the total area of the lot.
 - (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.
- (d) *Height regulations.*
 - (1) No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
 - (2) Uses incidental to farming, such as silos, windmills, etc., and any other nonhabitable structure (e.g., radio, television tower) may exceed this height limitation, provided, however, that there be one foot setback for every one foot over 45 feet from existing dwellings or residences and/or property lines.
- (e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.
(Code 1998, app. C, § 5.0604; Ord. No. 07-1548, § 5.0604, 5-3-2007)

Sec. 130-415. District standards.

All uses of land and structures in the A-1A(D) Suburban District are subject to the general standards and regulations of these regulations. In addition, all uses located in the A-1A(D) Suburban District shall be subject to the following standards:

- (1) *Environmental quality.*
 - a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
 - a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.

- b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
- c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.

(3) *Utilities.*

- a. *Sewer.*
 - 1. *Residential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.
 - 2. *Nonresidential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.
- b. *Water.* On lots without central water facilities, any well must be 50 feet from any sewer disposal unit.

(Code 1998, app. C, § 5.0605; Ord. No. 07-1548, § 5.0605, 5-3-2007)

Sec. 130-416. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.0606; Ord. No. 07-1548, § 5.0606, 5-3-2007)

Secs. 130-417—130-445. Reserved.

DIVISION 8. A-2(D) SUBURBAN DISTRICT

Sec. 130-446. Purpose.

The A-2(D) Suburban District is intended to provide a single-family residential environment on large, multi-acre lots. The A-2(D) district is located primarily in less populated areas where the character of the area should be preserved through low densities. To protect the intention of the district, permitted activities are limited to single-family dwellings, certain specified agricultural, and utility uses. All strictly commercial uses are prohibited in the A-2(D) Suburban District. Planned unit development overlays may be used in the A-2(D) Suburban District.
(Code 1998, app. C, § 5.0701; Ord. No. 07-1548, § 5.0701, 5-3-2007)

Sec. 130-447. Permitted uses.

Only the following permitted uses shall be allowed in the A-2(D) Suburban District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which this division is derived or accessory uses in compliance with the provisions of this section.

- (1) *Residential uses.*
 - a. One single-family dwelling.
- (2) *Accessory uses.*
 - a. Private garages and accessory structures.
 - b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.
- (3) *Miscellaneous uses.*
 - a. Community central water treatment, well, and storage facilities.
 - b. Household agriculture.
- (4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-2(D) Suburban District as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.0702; Ord. No. 07-1548, § 5.0702, 5-3-2007)

Sec. 130-448. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.

- c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.
- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
- (12) Temporary plants and related construction facilities for a single development.
- (13) Day care homes.

- (14) Temporary residences subject to the minimum standards as established under section 130-2112(56).
 - (15) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (16) Other administrative uses which are similar and compatible with the permitted uses of this district as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.0703; Ord. No. 07-1548, § 5.0703, 5-3-2007; Ord. No. 09-2169, 12-3-2009; Ord. No. 10-2219, 3-4-2010; Ord. No. 15-3393, exh. A(5.0703), 9-3-2015)

Sec. 130-449. Site and structure provisions.

- (a) *Maximum density/minimum lot area.*
 - (1) *Residential uses.* The maximum net density permitted on shall be one unit per acre.
 - (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 40,000 square feet, except that public utility facilities may be located on lots of lesser area with administrative approval.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* The width of each zoning lot shall not be less than 150 feet. There shall be no minimum lot width in the A-2(D) district if the standards of the planned unit development overlay are met.
 - (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block. In all cases, this front building line shall be set back a minimum of 50 feet from the front property line.
 - (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of 15 feet each, plus one additional foot for each foot in building height over 20 feet above base flood elevation.
 - (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot, for every foot in building height over 20 feet above base flood elevation.
- (c) *Maximum lot coverage.*
 - (1) *Residential uses.* The lot coverage of all principle and accessory buildings on a zoning lot shall not exceed 15 percent of the total area of the lot.
 - (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(d) *Height regulations.*

- (1) No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (2) Uses incidental to farming, such as silos, windmills, etc., and any other nonhabitable structure (e.g., radio, television tower) may exceed this height limitation, provided, however, that there be one foot setback for every one foot over 45 feet from existing dwellings or residences and/or property lines.

(e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.0704; Ord. No. 07-1548, § 5.0704, 5-3-2007)

Sec. 130-450. District standards.

All uses of land and structures in the A-2(D) Suburban District are subject to the general standards and regulations of these regulations. In addition, all uses located in the A-2(D) Suburban District shall be subject to the following standards:

(1) *Environmental quality.*

- a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
- b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.

(2) *Signs, lighting and landscaping.*

- a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations
- b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
- c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.

(3) *Utilities.*

- a. *Sewer.*
 1. *Residential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.

2. *Nonresidential.* On lots without central sewerage facilities, an individual sewer system must meet department of health and human resources standards and be approved by the parish health department.

- b. *Water.* On lots without central water facilities, any well must be 50 feet from any sewer disposal unit.

(Code 1998, app. C, § 5.0705; Ord. No. 07-1548, § 5.0705, 5-3-2007)

Sec. 130-451. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.

(Code 1998, app. C, § 5.0706; Ord. No. 07-1548, § 5.0706, 5-3-2007)

Secs. 130-452—130-470. Reserved.

DIVISION 9. A-3(D) SUBURBAN DISTRICT

Sec. 130-471. Purpose.

The A-3(D) Suburban District is intended to provide a single-family residential environment on moderate sized lots which are served by central utility systems and other urban services. The A-3(D) District is located in areas appropriate for urbanized single-family development in areas convenient to commercial and employment centers. To protect the intention of the district, permitted activities are limited to single-family dwellings and utility uses. All strictly commercial uses are prohibited in the A-3(D) district. Planned unit development overlays may be used in the A-3(D) Suburban District.

(Code 1998, app. C, § 5.0801; Ord. No. 07-1548, § 5.0801, 5-3-2007; Ord. No. 09-2169, 12-3-2009)

Sec. 130-472. Permitted uses.

Only the following permitted uses shall be allowed in the A-3(D) Suburban District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which this division is derived or accessory uses in compliance with the provisions of this section.

- (1) *Residential uses.*

- a. One single-family dwelling.

- (2) *Accessory uses.*

- a. Private garages and accessory structures.
 - b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.

- (3) *Miscellaneous uses.*
 - a. Community central water treatment, well, and storage facilities.
 - b. Household agriculture.
- (4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-4 Single-Family Residential District as determined by the director of planning and development acting in the capacity of zoning administrator.
(Code 1998, app. C, § 5.0802; Ord. No. 07-1548, § 5.0802, 5-3-2007; Ord. No. 09-2169, 12-3-2009)

Sec. 130-473. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.

- g. Swimming pools.
 - h. Golf courses and related uses.
- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
- a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
- a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
- (12) Temporary plants and related construction facilities for a single development.
- (13) Day care homes.
- (14) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (15) Other administrative uses which are similar and compatible with the permitted uses of this district as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.0803; Ord. No. 07-1548, § 5.0803, 5-3-2007; Ord. No. 09-2169, 12-3-2009; Ord. No. 15-3393, exh. A(5.0803), 9-3-2015)

Sec. 130-474. Site and structure provisions.

(a) *Maximum density/minimum lot area.*

- (1) *Residential uses.* The maximum net density permitted on shall be two units per acre.
- (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 40,000 square feet, except that public utility facilities may be located on lots of lesser area with administrative approval.

(b) *Minimum area regulations.*

- (1) *Minimum lot width.* The width of each zoning lot shall not be less than 100 feet. There shall be no minimum lot width in the A-3(D) district if the standards of the planned unit development overlay are met.
- (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block, in all cases, this front building line shall be set back a minimum of 30 feet from the front property line.
- (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of ten feet each, plus one additional foot for each one foot in building height over 20 feet above base flood elevation.
- (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot for every one foot in building height over 20 feet above base flood elevation.

(c) *Maximum lot coverage.*

- (1) *Residential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. For single-family cluster developments (zero lot line), the lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 70 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.0804; Ord. No. 07-1548, § 5.0804, 5-3-2007; Ord. No. 09-2169, 12-3-2009)

Sec. 130-475. District standards.

All uses of land and structures in the A-3(D) Suburban District area subject to the general standards and regulations of these regulations. In addition, all uses located in the A-3(D) district shall be subject to the following standards:

- (1) *Environmental quality.*
 - a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
 - a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations
 - b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
 - c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.
- (3) *Utilities.*
 - a. *Water and sewer, residential and nonresidential uses.* Central water and sewerage facilities shall be provided where applicable as per chapter 125.

(Code 1998, app. C, § 5.0805; Ord. No. 07-1548, § 5.0805, 5-3-2007; Ord. No. 09-2169, 12-3-2009)

Sec. 130-476. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.0806; Ord. No. 07-1548, § 5.0806, 5-3-2007; Ord. No. 09-2169, 12-3-2009)

Secs. 130-477—130-505. Reserved.**DIVISION 10. A-4(D) SINGLE-FAMILY RESIDENTIAL DISTRICT****Sec. 130-506. Purpose.**

The A-4(D) district is intended to provide single-family residential dwellings in a setting of moderate urban density. Central utility systems, convenience to commercial and employment

centers and efficient access to major transportation routes are locational characteristics of this district. To protect the intention of the district, permitted activities are limited to single-family dwellings and utility uses. All strictly commercial uses are prohibited in the A-4(D) district. Planned unit development overlays may be used in the A-4(D) Suburban District. (Code 1998, app. C, § 5.0901; Ord. No. 07-1548, § 5.0901, 5-3-2007)

Sec. 130-507. Permitted uses.

Only the following permitted uses shall be allowed in the A-4(D) Single-Family Residential District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of these regulations or accessory uses in compliance with the provisions of this section.

- (1) *Residential uses.*
 - a. One single-family dwelling.
- (2) *Accessory uses.*
 - a. Private garages and accessory structures.
 - b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.
- (3) *Miscellaneous uses.*
 - a. Community central water treatment, well, and storage facilities.
 - b. Household agriculture.
- (4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-4 Single-Family Residential District as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.0902; Ord. No. 07-1548, § 5.0902, 5-3-2007)

Sec. 130-508. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.

- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.
- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.

- f. Stormwater pumping stations.
 - g. Potable water pumping stations.
 - (12) Temporary plants and related construction facilities for a single development.
 - (13) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (14) Other administrative uses which are similar and compatible with the permitted uses of the district as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.0903; Ord. No. 07-1548, § 5.0903, 5-3-2007; Ord. No. 15-3393, exh. A(5.0903), 9-3-2015)

Sec. 130-509. Site and structure provisions.

- (a) *Maximum density/minimum lot area.*
 - (1) *Residential uses.* The maximum net density permitted on shall be four units per acre.
 - (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 40,000 square feet, except that public utility facilities may be located on lots of lesser area with administrative approval.
 - (3) *Open space.* A minimum of 25 percent of the gross area of each tract of land in a single-family cluster development (zero lot line) must be reserved and dedicated for public or common use. Improved drainage facilities, lakes, streets and other impermeable surfaced areas and any other unusable land may not be included in determining the required open space for the development.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* The width of each zoning lot shall not be less than 90 feet. There shall be no minimum lot width in the A-4(D) district if the standards of the planned unit development overlay are met.
 - (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block, in all cases, this front building line shall be set back a minimum of 30 feet from the front property line.
 - (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of ten feet each, plus one additional foot for each one foot in building height over 20 feet above base flood elevation. For single-family cluster developments (zero lot line) there shall be at least one side yard, having a minimum width of 25 feet,

plus one additional foot for each foot in building height over 20 feet above base flood elevation. However, for structures located on corner lots, there shall be a side yard setback from the side street of not less than 20 feet.

- (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot for every one foot in building height over 20 feet above base flood elevation.

(c) *Maximum lot coverage.*

- (1) *Residential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. For single-family cluster developments (zero lot line), the lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 70 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.
(Code 1998, app. C, § 5.0904; Ord. No. 07-1548, § 5.0904, 5-3-2007)

Sec. 130-510. District standards.

All uses of land and structures in the A-4(D) Single-Family Residential District area subject to the general standards and regulations of these regulations. In addition, all uses located in the A-4(D) district shall be subject to the following standards:

- (1) *Environmental quality.*
- a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
- a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.

- b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
- c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.

(3) *Utilities.*

- a. *Water and sewer; residential and nonresidential uses.* Central water and sewerage facilities shall be provided where applicable as per chapter 125.

(Code 1998, app. C, § 5.0905; Ord. No. 07-1548, § 5.0905, 5-3-2007)

Sec. 130-511. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.

(Code 1998, app. C, § 5.0906; Ord. No. 07-1548, § 5.0906, 5-3-2007)

Secs. 130-512—130-530. Reserved.

DIVISION 11. A-4A(D) SINGLE-FAMILY RESIDENTIAL DISTRICT

Sec. 130-531. Purpose.

The A-4A(D) district is intended to provide single-family residential dwellings in a setting of moderate urban density. Central utility systems, convenience to commercial and employment centers and efficient access to major transportation routes are characteristics of this district. To protect the intention of the district, permitted activities are limited to single-family dwellings and certain and utility uses. All strictly commercial uses are prohibited in the A-4A(D) district. Planned unit development overlays may be used in the A-4A(D) Suburban District.

(Code 1998, app. C, § 5.1001; Ord. No. 07-1548, § 5.1001, 5-3-2007)

Sec. 130-532. Permitted use.

Only the following permitted uses shall be allowed in the A-4A(D) Single-Family Residential District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of these regulations or accessory uses in compliance with the provisions of this section.

(1) *Residential uses.*

- a. One single-family dwelling.

(2) *Accessory uses.*

- a. Private garages and accessory structures.
- b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.

- (3) *Miscellaneous uses.*
 - a. Community central water treatment, well, and storage facilities.
 - b. Household agriculture.
- (4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-4A(D) Single-Family Residential District as determined by the director of planning and development acting in the capacity of zoning administrator.
(Code 1998, app. C, § 5.1002; Ord. No. 07-1548, § 5.1002, 5-3-2007)

Sec. 130-533. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.

- h. Golf courses and related uses.
 - (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
 - (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
 - (10) Community homes for handicapped persons as defined in R.S. 28:477.
 - (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
 - (12) Temporary plants and related construction facilities for a single development.
 - (13) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (14) Other administrative uses which are similar and compatible with the uses permitted in this district as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.1003; Ord. No. 07-1548, § 5.1003, 5-3-2007; Ord. No. 15-3393, exh. A(5.1003), 9-3-2015)

Sec. 130-534. Site and structure provisions.

- (a) *Maximum density/minimum lot area.*
- (1) *Residential uses.* The maximum net density permitted on shall be six units per acre.

- (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 40,000 square feet, except that public utility facilities may be located on lots of lesser area with administrative approval.
 - (3) *Open space.* A minimum of 25 percent of the gross area of each tract of land in a single-family cluster development (zero lot line) must be reserved and dedicated for public or common use. Improved drainage facilities, lakes, streets and other impermeable surfaced areas and any other unusable land may not be included in determining the required open space for the development.
- (b) *Minimum area regulations.*
- (1) *Minimum lot width.* The width of each zoning lot shall not be less than 60 feet. There shall be no minimum lot width in the A-4A(D) district if the standards of the planned unit development overlay are met.
 - (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block, in all cases, this front building line shall be set back a minimum of 30 feet from the front property line.
 - (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of ten feet each, plus one additional foot for each one foot in building height over 20 feet above base flood elevation. For single-family cluster developments (zero lot line) there shall be at least one side yard, having a minimum width of 25 feet, plus one additional foot for each foot in building height over 20 feet above base flood elevation. However, for structures located on corner lots, there shall be a side yard setback from the side street of not less than 20 feet.
 - (4) *Rear yard.*
 - a. *Standard requirement.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot for every one foot in building height over 20 feet above base flood elevation.
 - b. *Special requirement.*
 - 1. Lakeview Drive, Slidell. Except as provided in subsection (4)b.2 of this section, all properties fronting the south side of Lakeview Drive shall adhere to the standard rear yard requirements and, in addition, shall not extend the distance of the primary structure on the property more than 135 feet lakeward of the front property line adjacent to the Lakeview Drive right-of-way.
 - 2. All properties with road frontage along Lakeview Drive where any portion of said frontage is within 700 feet of the eastern right-of-way of U.S. Highway

11 may have a primary structure located beyond the setback provided for, except that no primary structure shall be located more than 350 feet from the front property line.

(c) *Maximum lot coverage.*

- (1) *Residential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. For single-family cluster developments (zero lot line), the lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 70 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.
(Code 1998, app. C, § 5.1004; Ord. No. 07-1548, § 5.1004, 5-3-2007; Ord. No. 12-2714, 5-3-2012)

Sec. 130-535. District standards.

All uses of land and structures in the A-4A(D) Single-Family Residential District area subject to the general standards and regulations of these regulations. In addition, all uses located in the A-4A(D) district shall be subject to the following standards:

(1) *Environmental quality.*

- a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
- b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.

(2) *Signs, lighting and landscaping.*

- a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.
- b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
- c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.

(3) *Utilities.*

- a. *Water and sewer; residential and nonresidential uses.* Central water and sewerage facilities shall be provided where applicable as per chapter 125.

(Code 1998, app. C, § 5.1005; Ord. No. 07-1548, § 5.1005, 5-3-2007)

Sec. 130-536. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.

(Code 1998, app. C, § 5.1006; Ord. No. 07-1548, § 5.1006, 5-3-2007)

Secs. 130-537—130-565. Reserved.

DIVISION 12. A-5(D) TWO-FAMILY RESIDENTIAL DISTRICT

Sec. 130-566. Purpose.

The A-5(D) district is intended to provide a greater density of residential use by permitting the placement of two-family dwelling units without the more intense uses of general multifamily districts. This district is to primarily be located in a GMA and be characterized by central utility systems, convenience to commercial and employment centers, and efficient access to major transportation routes. To protect the intention of the district, permitted activities are limited to residential dwellings of one or two units and utility uses. All strictly commercial uses are prohibited in the A-5(D) district. Planned unit development overlays may be used in the A-5(D) Suburban District.

(Code 1998, app. C, § 5.1101; Ord. No. 07-1548, § 5.1101, 5-3-2007)

Sec. 130-567. Permitted uses.

Only the following permitted uses shall be allowed in the A-5(D) Two-Family Residential District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which these regulations are derived or accessory uses in compliance with the provisions of this section.

(1) *Residential uses.*

- a. One single-family dwelling.
b. Two-family dwellings.

(2) *Accessory uses.*

- a. Private garages and accessory structures.
b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.

- (3) *Miscellaneous uses.*
 - a. Community central water treatment, wall, and storage facilities.
 - b. Household agriculture.
- (4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-5(D) Two-Family Residential District as determined by the director of planning and development acting in the capacity of zoning administrator. (Code 1998, app. C, § 5.1102; Ord. No. 07-1548, § 5.1102, 5-3-2007)

Sec. 130-568. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.

- h. Golf courses and related uses.
 - (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
 - (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
 - (10) Community homes for handicapped persons as defined in R.S. 28:477.
 - (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
 - (12) Temporary plants and related construction facilities for a single development.
 - (13) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (14) Other administrative uses which are similar and compatible with the permitted uses of this district as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.1103; Ord. No. 07-1548, § 5.1103, 5-3-2007; Ord. No. 15-3393, exh. A(5.1103), 9-3-2015)

Sec. 130-569. Site and structure provisions.

(a) *Maximum/minimum lot area.*

- (1) *Residential uses.* The maximum net density permitted shall be eight dwelling units per acre.
- (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 40,000 square feet, except that public utility facilities may be located on lots of lesser area with administrative approval.

(b) *Minimum area regulations.*

- (1) *Minimum lot width.* The width of each zoning lot shall not be less than 75 feet. There shall be no minimum lot width in the A-5(D) district if the standards of the planned unit development overlay are met.
- (2) *Front yard.* Front building lines shall conform to the average building lines established in a developed block, in all cases, this front building line shall be setback a minimum of 40 feet from the property line.
- (3) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of ten feet each, plus one additional foot for each foot in building height over 20 feet above base flood elevation. However, for structures located on corner lots, there shall be a side yard setback from the side street of not less than ten feet.
- (4) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot for every one foot in building height over 20 feet above base flood elevation.

(c) *Maximum lot coverage.*

- (1) *Residential uses.* The lot coverage of all principle and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principle and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(e) *Off-street parking and loading requirements.* Off-street parking and loading shall be provided as put forth in article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.1104; Ord. No. 07-1548, § 5.1104, 5-3-2007)

Sec. 130-570. District standards.

All uses of land and structures in the A-5(D) Two-Family Residential District are subject to the general standards and regulations of these regulations. In addition, all uses located in the A-5(D) district shall be subject to the following standards:

- (1) *Environmental quality.*
 - a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
 - a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.
 - b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
 - c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.
- (3) *Utilities.*
 - a. *Sewer.* All uses, residential and nonresidential must be provided with central sewerage systems.
 - b. *Water.* All uses, residential and nonresidential must be provided with central water systems.

(Code 1998, app. C, § 5.1105; Ord. No. 07-1548, § 5.1105, 5-3-2007)

Sec. 130-571. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.1106; Ord. No. 07-1548, § 5.1106, 5-3-2007)

Secs. 130-572—130-590. Reserved.**DIVISION 13. A-6(D) MULTIPLE-FAMILY RESIDENTIAL DISTRICT; DENSITY****Sec. 130-591. Purpose.**

The A-6(D) Multiple-Family Residential District is intended to provide medium density residential development in an urbanized location where it may serve as a transitional district

between less intense commercial or industrial environments. This district is to be served by central utility systems, be convenient to commercial and employment centers, and have easy access to thoroughfares and collector streets. To protect the intentions of the district, permitted activities are limited to residential uses, both private and public, and utility uses. All strictly commercial uses are prohibited in the A-6(D) district. Planned unit development overlays may be used in the A-6(D) Multiple-Family Residential District.

(Code 1998, app. C, § 5.1201; Ord. No. 07-1548, § 5.1201, 5-3-2007)

Sec. 130-592. Permitted uses.

Only the following permitted uses shall be allowed in the A-6(D) Multiple-Family Residential District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which these regulations are derived or accessory uses in compliance with the provisions of this section.

- (1) *Residential uses.*
 - a. Multiple-family dwellings.
 - b. Townhouse and condominiums.
 - c. Nursing homes.
- (2) *Accessory uses.*
 - a. Private garages and accessory structures.
 - b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.
- (3) *Miscellaneous uses.*
 - a. Community central water treatment, wall, and storage facilities.
 - b. Household agriculture.
- (4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-6(D) Multiple-Family Residential District as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.1202; Ord. No. 07-1548, § 5.1202, 5-3-2007)

Sec. 130-593. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.

- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.
- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
 - a. Electrical substations.

- b. Telephone relay facilities.
- c. Utility substations.
- d. Wastewater treatment facilities.
- e. Utility distribution systems.
- f. Stormwater pumping stations.
- g. Potable water pumping stations.

(12) Temporary plants and related construction facilities for a single development.

(13) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.

(14) Other administrative uses which are similar and compatible with the permitted uses in this district as determined by the director of planning and development acting in the capacity of zoning administrator.

(Code 1998, app. C, § 5.1203; Ord. No. 07-1548, § 5.1203, 5-3-2007; Ord. No. 15-3393, exh. A(5.1203), 9-3-2015)

Sec. 130-594. Site and structure provisions.

(a) *Minimum lot area.*

- (1) *Residential uses.* The lot area of each zoning lot shall not be less than 20,000 square feet.
- (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 6,000 square feet, except that public utility facilities may be located on a lot of lesser area with administrative approval.

(b) *Maximum density regulations.* The maximum net density permitted shall not exceed one unit per 4,000 square feet of property.

(c) *Minimum area regulations.*

- (1) *Front yard.* Front building lines shall conform to the average building lines established in a developed block; in all cases, this front building line shall be set back a minimum of 25 feet from the front of the property line.
- (2) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of five feet each, plus one additional foot for each one foot in building height over 25 feet above base flood elevation. However, for structures located on corner lots, there shall be a side yard setback from the side street of not less than ten feet.

- (3) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot for every 25 feet above base flood elevation.

- (d) *Maximum lot coverage.*

- (1) *Residential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Off-street parking and loading requirements.* Off-street parking and loading areas shall be provided as put forth in article VI, division 8 of these regulations.
(Code 1998, app. C, § 5.1204; Ord. No. 07-1548, § 5.1204, 5-3-2007)

Sec. 130-595. District standards.

All use of land and structures in the A-6(D) Multiple-Family Residential District are subject to the general standards and regulations of these regulations. In addition, all uses located in the A-6(D) district shall be subject to the following standards:

- (1) *Environmental quality.*
- a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
- a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.
 - b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
 - c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.

(3) *Utilities.*

- a. *Sewer.* All structures must be served by central sewerage systems.
- b. *Water.* All structures must be served by central water systems.
- c. *Street improvements.* Any road or street constructed to serve four or more residential units or any nonresidential use must meet standards set forth in chapter 125.

(Code 1998, app. C, § 5.1205; Ord. No. 07-1548, § 5.1205, 5-3-2007)

Sec. 130-596. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.1206; Ord. No. 07-1548, § 5.1206, 5-3-2007)

Secs. 130-597—130-625. Reserved.

DIVISION 14. A-7(D) MULTIPLE-FAMILY RESIDENTIAL DISTRICT

Sec. 130-626. Purpose.

The A-7(D) Multiple-Family Residential District is intended to provide high density residential development in an urbanized location where it may serve as a transitional district between less intense commercial or industrial environments. This district is to be served by central utility systems, be convenient to commercial and employment centers, and have easy access to thoroughfares and collector streets. To protect the intentions of the district, permitted activities are limited to residential uses, both private and public, and certain utility uses. All strictly commercial uses are prohibited in the A-7(D) district. Planned unit development overlays may be used in the A-7(D) Multiple-Family Residential District.

(Code 1998, app. C, § 5.1301; Ord. No. 07-1548, § 5.1301, 5-3-2007)

Sec. 130-627. Permitted uses.

Only the following permitted uses shall be allowed in the A-7(D) Multiple-Family Residential District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which these regulations are derived or accessory uses in compliance with the provisions of this section.

(1) *Residential uses.*

- a. Multiple-family dwellings.
- b. Townhouse and condominiums.
- c. Nursing homes.

- (2) *Accessory uses.*
 - a. Private garages and accessory structures.
 - b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.
- (3) *Miscellaneous uses.*
 - a. Community central water treatment, wall, and storage facilities.
 - b. Household agriculture.
- (4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-7(D) Multiple-Family Residential District as determined by the director of planning and development acting in the capacity of zoning administrator.
(Code 1998, app. C, § 5.1302; Ord. No. 07-1548, § 5.1302, 5-3-2007)

Sec. 130-628. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.

- d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.
- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
- (9) Agricultural uses.
- a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
- (10) Community homes for handicapped persons as defined in R.S. 28:477.
- (11) Public utility surface structures.
- a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
- (12) Temporary plants and related construction facilities for a single development.
- (13) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (14) Other administrative uses which are similar and compatible with permitted uses of this district as determined by the director of planning and development acting in the capacity of zoning administrator.

(15) Fees are as set forth in section 9.0106.
(Code 1998, app. C, § 5.1303; Ord. No. 07-1548, § 5.1303, 5-3-2007; Ord. No. 15-3393, exh. A(5.1303), 9-3-2015)

Sec. 130-629. Site and structure provisions.

(a) *Minimum lot area.*

- (1) *Residential uses.* The lot area of each zoning lot shall not be less than 20,000 square feet.
- (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less 6,000 square feet, except that public utility facilities may be located on a lot of lesser area with administrative approval.

(b) *Maximum density regulations.* The maximum net density permitted shall not exceed one unit per 2,500 square feet of property.

(c) *Minimum area regulations.*

- (1) *Front yard.* Front building lines shall conform to the average building lines established in a developed block; in all cases, this front building line shall be set back a minimum of 25 feet from the front of the property line.
- (2) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of five feet each, plus one additional foot for each one foot in building height over 25 feet above base flood elevation. However, for structures located on corner lots, there shall be a side yard setback from the side street of not less than ten feet.
- (3) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot for every 25 feet above base flood elevation.

(d) *Maximum lot coverage.*

- (1) *Residential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot.
- (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.

(e) *Height regulations.*

- (1) Except as otherwise provided in subsection (e)(2) of this section, no building or dwelling for residential or business purposes shall exceed 60 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
- (2) No portion of a building for residential or business purposes that is located within 100 feet of a single-family residentially zoned property shall exceed 35 feet in height above

natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Off-street parking and loading requirements.* Off-street parking and loading areas shall be provided as put forth in article VI, division 8 of these regulations.
(Code 1998, app. C, § 5.1304; Ord. No. 07-1548, § 5.1304, 5-3-2007)

Sec. 130-630. District standards.

All use of land and structures in the A-7(D) Multiple-Family Residential District are subject to the general standards and regulations of these regulations. In addition, all uses located in the A-7(D) Multiple-Family Residential District shall be subject to the following standards:

- (1) *Environmental quality.*
 - a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
 - a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.
 - b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
 - c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.
- (3) *Utilities.*
 - a. *Sewer.* All structures must be served by central sewerage systems.
 - b. *Water.* All structures must be served by central water systems.
 - c. *Street improvements.* Any road or street constructed to serve four or more residential units or any nonresidential use must meet standards set forth in chapter 125.

(Code 1998, app. C, § 5.1305; Ord. No. 07-1548, § 5.1305, 5-3-2007)

Sec. 130-631. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.1306; Ord. No. 07-1548, § 5.1306, 5-3-2007)

Secs. 130-632—130-650. Reserved.**DIVISION 15. A-8(D) MULTIPLE-FAMILY RESIDENTIAL DISTRICT****Sec. 130-651. Purpose.**

The A-8(D) Multiple-Family Residential District is intended to provide high density residential development in an urbanized location where it may serve as a transitional district between less intense commercial or industrial environments. This district is to be served by central utility systems, be convenient to commercial and employment centers, and have easy access to thoroughfares and collector streets. To protect the intentions of the district, permitted activities are limited to residential uses, both private and public, and certain utility uses. All strictly commercial uses are prohibited in the A-8(D) district. Planned unit development overlays may be used in the A-8(D) Multiple-Family Residential District.
(Code 1998, app. C, § 5.1301A; Ord. No. 07-1548, § 5.1301A, 5-3-2007)

Sec. 130-652. Permitted uses.

Only the following permitted uses shall be allowed in the A-8(D) Multiple-Family Residential District and no structure or land shall be devoted to any other use other than a use permitted hereunder with the exception of uses lawfully established prior to the effective date of the ordinance from which these regulations are derived or accessory uses in compliance with the provisions of this section.

(1) *Residential uses.*

- a. Multiple-family dwellings.
- b. Townhouse and condominiums.
- c. Nursing homes.

(2) *Accessory uses.*

- a. Private garages and accessory structures.
- b. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.

(3) *Miscellaneous uses.*

- a. Community central water treatment, wall, and storage facilities.
- b. Household agriculture.

(4) *Similar and compatible uses.* Other uses which are similar and compatible with the allowed uses of the A-8(D) Multiple-Family Residential District as determined by the director of planning and development acting in the capacity of zoning administrator. (Code 1998, app. C, § 5.1302A; Ord. No. 07-1548, § 5.1302A, 5-3-2007)

Sec. 130-653. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Home office, provided the area for the use does not exceed 600 square feet and the proposal is in accordance with section 130-2112.
- (2) Roadside stands under 200 square feet adjacent to an existing agricultural use.
- (3) On-site real estate sales offices under 600 square feet.
- (4) Subdivision entrance signs may be reviewed for appropriate location, size and construction methods.
- (5) Fairs, festivals and assemblies associated with churches, schools, public lands or nonprofit organizations.
 - a. Fairs, festivals and assemblies are limited to a maximum three-day period annually.
 - b. Total building area is limited to 5,000 square feet.
 - c. No more than 200 vehicle trips per day are permitted.
- (6) Signs. (Article VI, division 3 of these regulations applies.)
- (7) Private cultural and recreational uses associated with subdivisions:
 - a. Parks.
 - b. Botanical gardens.
 - c. Playgrounds.
 - d. Nature preserves and sanctuaries.
 - e. Stables.
 - f. Tennis courts.
 - g. Swimming pools.
 - h. Golf courses and related uses.

- (8) Agricultural and decorative ponds utilized exclusively by the resident and in which neither the excavated material is removed from the site nor commercial excavation occurs.
 - (9) Agricultural uses.
 - a. Agricultural buildings and structures.
 - b. Cultivation of garden crops.
 - c. Farms.
 - d. Wholesale greenhouses and nurseries.
 - e. Roadside farm stands over 200 square feet adjacent to an existing agricultural use.
 - (10) Community homes for handicapped persons as defined in R.S. 28:477.
 - (11) Public utility surface structures.
 - a. Electrical substations.
 - b. Telephone relay facilities.
 - c. Utility substations.
 - d. Wastewater treatment facilities.
 - e. Utility distribution systems.
 - f. Stormwater pumping stations.
 - g. Potable water pumping stations.
 - (12) Temporary plants and related construction facilities for a single development.
 - (13) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (14) Other administrative uses which are similar and compatible with permitted uses of this district as determined by the director of planning and development acting in the capacity of zoning administrator.
- (b) Fees are as set forth in chapter 2, article XVII.
(Code 1998, app. C, § 5.1303A; Ord. No. 07-1548, § 5.1303A, 5-3-2007; Ord. No. 15-3393, exh. A(5.1303A), 9-3-2015)

Sec. 130-654. Site and structure provisions.

- (a) *Minimum lot area.*
- (1) *Residential uses.* The lot area of each zoning lot shall not be less than 20,000 square feet.

- (2) *Nonresidential uses.* The lot area of each zoning lot shall not be less than 6,000 square feet, except that public utility facilities may be located on a lot of lesser area with administrative approval.
- (b) *Maximum density regulations.* The maximum net density permitted shall not exceed one unit per 1,500 square feet of property.
- (c) *Minimum area regulations.*
- (1) *Front yard.* Front building lines shall conform to the average building lines established in a developed block; in all cases, this front building line shall be set back a minimum of 25 feet from the front of the property line.
 - (2) *Side yard.* There shall be two side yards, one on each side of the building, having a minimum width of five feet each, plus one additional foot for each one foot in building height over 25 feet above base flood elevation. However, for structures located on corner lots, there shall be a side yard setback from the side street of not less than ten feet.
 - (3) *Rear yard.* There shall be a rear yard having a depth of not less than 25 feet, plus one additional foot for every 25 feet above base flood elevation.
- (d) *Maximum lot coverage.*
- (1) *Residential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot.
 - (2) *Nonresidential uses.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 40 percent of the total area of the lot.
- (e) *Height regulations.*
- (1) Except as otherwise provided in subsection (e)(2) of this section, no building or dwelling for residential or business purposes shall exceed 60 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
 - (2) No portion of a building for residential or business purposes that is located within 100 feet of a single-family residentially zoned property shall exceed 35 feet in height above natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (f) *Off-street parking and loading requirements.* Off-street parking and loading areas shall be provided as put forth in article VI, division 8 of these regulations.
(Code 1998, app. C, § 5.1304A; Ord. No. 07-1548, § 5.1304A, 5-3-2007)

Sec. 130-655. District standards.

All use of land and structures in the A-8(D) Multiple-Family Residential District are subject to the general standards and regulations of these regulations. In addition, all uses located in the A-8(D) Multiple-Family Residential District shall be subject to the following standards:

- (1) *Environmental quality.*
 - a. *Flood zones.* Construction of any structures or alteration of land which occurs in the 100-year flood zone as established by the Federal Emergency Management Agency shall require approval from the parish engineer prior to issuance of a building permit.
 - b. *Tree preservation, landscaping and screening.* Tree preservation, landscaping and screening shall be subject to the provisions of article VI, division 2 of these regulations.
- (2) *Signs, lighting and landscaping.*
 - a. *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.
 - b. *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.
 - c. *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.
- (3) *Utilities.*
 - a. *Sewer.* All structures must be served by central sewerage systems.
 - b. *Water.* All structures must be served by central water systems.
 - c. *Street improvements.* Any road or street constructed to serve four or more residential units or any nonresidential use must meet standards set forth in chapter 125.

(Code 1998, app. C, § 5.1305A; Ord. No. 07-1548, § 5.1305A, 5-3-2007)

Sec. 130-656. Fee schedules.

Fees for site plan review shall be as required by chapter 2, article XVII.
(Code 1998, app. C, § 5.1306A; Ord. No. 07-1548, § 5.1306A, 5-3-2007)

Secs. 130-657—130-685. Reserved.

DIVISION 16. NC-1 PROFESSIONAL OFFICE DISTRICT

Sec. 130-686. Purpose.

The purpose of this district is to provide for the location of small professional office in close proximity to residential development in order to provide small scale services to the residents of the neighborhood with minimal impact.

(Code 1998, app. C, § 5.1401; Ord. No. 07-1548, § 5.1401, 5-3-2007)

Sec. 130-687. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112:

(1) *Commercial uses.*

1. Law offices.
2. Architectural offices.
3. Accountant offices.
4. Real estate offices.
5. Insurance offices.
6. Business offices.
7. Daytime doctor, dentist, and chiropractor offices.
8. Other professional offices.

(2) *Residential uses.*

1. One single-family dwelling.

(3) *Accessory uses.*

1. Private garages and accessory structures.
2. Garage apartment or guest house under 1,000 square feet of habitable floor space when the subject lot, parcel or tract is no less than one acre in area.

(Code 1998, app. C, § 5.1402; Ord. No. 07-1548, § 5.1402, 5-3-2007; Ord. No. 14-3111, 3-6-2014)

Sec. 130-688. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures

must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.

- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
- (Code 1998, app. C, § 5.1403; Ord. No. 07-1548, § 5.1403, 5-3-2007; Ord. No. 15-3393, exh. A(5.1403), 9-3-2015; Ord. No. 17-3659, exh. A(5.1403), 1-5-2017)

Sec. 130-689. Site and structure provisions.

- (a) *Maximum building size.* The maximum building size in the NC-1 district shall be 5,000 square feet.
- (b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (c) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lot width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements of these regulations.
 - (4) *Transitional yard.* Where an NC district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:
 - a. Where lots in an NC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In an NC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such

side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.

- c. In an NC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an NC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.
- f. Maximum lot coverage. The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(e) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.1404; Ord. No. 07-1548, § 5.1404, 5-3-2007)

Secs. 130-690—130-706. Reserved.

DIVISION 17. NC-2 INDOOR RETAIL AND SERVICE DISTRICT

Sec. 130-707. Purpose.

The purpose of this district is to provide for the location of small retail and services in close proximity to residential development in order to provide goods and services to the residents of the neighborhood with minimal impact.

(Code 1998, app. C, § 5.1501; Ord. No. 07-1548, § 5.1501, 5-3-2007)

Sec. 130-708. Permitted uses.

- (a) Use by right, subject to any minimum standards as listed in section 130-2112.
- (b) All uses permitted in the NC-1 district, and:
 - (1) Antique shops.
 - (2) Art and school supply stores.
 - (3) Art galleries.
 - (4) Bakeries.
 - (5) Barbershops and beauty shops.
 - (6) Book or stationary store.
 - (7) Utility collection office.
 - (8) Custom dressmaking and sewing shops.
 - (9) Florists.
 - (10) Delicatessens.
 - (11) Drugstores.
 - (12) Dry cleaning pick-up/drop-off (no dry cleaning equipment).
 - (13) Garden supply centers and greenhouses.
 - (14) Gift shops.
 - (15) Hardware stores.
 - (16) Hobby shops.
 - (17) Ice cream shops.
 - (18) Interior decorating shops.
 - (19) Jewelry stores.
 - (20) Photography shops and studios.
 - (21) Restaurants without lounge.

(22) Shoe stores and repair shops.

(23) Sporting goods stores.

(24) Toy stores.

(25) Wearing apparel shops.

(Code 1998, app. C, § 5.1502; Ord. No. 07-1548, § 5.1502, 5-3-2007)

Sec. 130-709. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(Code 1998, app. C, § 5.1503; Ord. No. 07-1548, § 5.1503, 5-3-2007; Ord. No. 15-3393, exh. A(5.1503), 9-3-2015; Ord. No. 17-3659, exh. A(5.1503), 1-5-2017)

Sec. 130-710. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the NC-2 district shall be 5,000 square feet.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

- (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.

- (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas of these regulations.
- (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements of these regulations.
- (4) *Transitional yard.* Where an NC district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:
- a. Where lots in an NC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In an NC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - c. In an NC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - d. In an NC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
 - e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.
- (d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

(1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.

(2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.

(3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.

(4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.1504; Ord. No. 07-1548, § 5.1504, 5-3-2007)

Secs. 130-711—130-733. Reserved.

DIVISION 18. NC-3 LODGING DISTRICT

Sec. 130-734. Purpose.

The purpose of this district is to provide for the location of small scale uses providing overnight accommodations which can successfully operate in a neighborhood setting without having negative impacts upon nearby residences and neighborhood businesses.

(Code 1998, app. C, § 5.1601; Ord. No. 07-1548, § 5.1601, 5-3-2007)

Sec. 130-735. Permitted uses.

(a) Use by right, subject to any minimum standards as listed in section 130-2112.

(b) All uses permitted in the NC-2 district, and:

(1) Bed and breakfast under ten rooms.

(2) Inns or guest houses under ten rooms.

(Code 1998, app. C, § 5.1602; Ord. No. 07-1548, § 5.1602, 5-3-2007)

Sec. 130-736. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(Code 1998, app. C, § 5.1603; Ord. No. 07-1548, § 5.1603, 5-3-2007; Ord. No. 15-3393, exh. A(5.1603), 9-3-2015; Ord. No. 17-3659, exh. A(5.1603), 1-5-2017)

Sec. 130-737. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the NC-3 district shall be 10,000 square feet.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

- (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
- (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas, of these regulations.
- (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements, of these regulations.

(4) *Transitional yard.* Where an NC district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

- a. Where lots in an NC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In an NC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In an NC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an NC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

(1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.

- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
 - (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
 - (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.
- (Code 1998, app. C, § 5.1604; Ord. No. 07-1548, § 5.1604, 5-3-2007)

Secs. 130-738—130-757. Reserved.

DIVISION 19. NC-4 NEIGHBORHOOD INSTITUTIONAL DISTRICT

Sec. 130-758. Purpose.

The purpose of this district is to provide for the location of uses which provide a service at the neighborhood level but could result in a large influx of customers or clientele at a specific time because of scheduled gatherings, classes or meetings.

(Code 1998, app. C, § 5.1701; Ord. No. 07-1548, § 5.1701, 5-3-2007)

Sec. 130-759. Permitted uses.

- (a) Use by right, subject to any minimum standards as listed in section 130-2112.
 - (b) All uses permitted in the NC-3 district, and:
 - (1) Dance studios.
 - (2) Music studios.
 - (3) Aerobic/weight-loss studios.
 - (4) Educational learning centers.
 - (5) Churches, temples, synagogues, and mosques.
 - (6) Religious educational facilities.
 - (7) Clubs and lodges.
 - (8) Fraternal and religious institutions.
 - (9) Child day care centers.
 - (10) Nursery schools.
- (Code 1998, app. C, § 5.1702; Ord. No. 07-1548, § 5.1702, 5-3-2007)

Sec. 130-760. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
- (Code 1998, app. C, § 5.1703; Ord. No. 07-1548, § 5.1703, 5-3-2007; Ord. No. 15-3393, exh. A(5.1703), 9-3-2015; Ord. No. 17-3659, exh. A(5.1703), 1-5-2017)

Sec. 130-761. Site and structure provisions.

- (a) *Maximum building size.* The maximum building size in the NC-4 district shall be 12,500 square feet footprint with no more than 20 percent additional upstairs mezzanine space for storage.
- (b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (c) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas, of these regulations.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements, of these regulations.

(4) *Transitional yard.* Where an NC district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

- a. Where lots in an NC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In an NC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In an NC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an NC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

(1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.

- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
 - (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
 - (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.
- (Code 1998, app. C, § 5.1704; Ord. No. 07-1548, § 5.1704, 5-3-2007; Ord. No. 11-2587, 9-1-2011)

Secs. 130-762—130-790. Reserved.

DIVISION 20. NC-5 RETAIL AND SERVICE DISTRICT

Sec. 130-791. Purpose.

The purpose of this district is to provide for the location of small scale retail and services near residential neighborhood to provide products and services to nearby residents.
(Code 1998, app. C, § 5.1801; Ord. No. 07-1548, § 5.1801, 5-3-2007)

Sec. 130-792. Permitted uses.

- (a) Use by right, subject to any minimum standards as listed in section 130-2112.
 - (b) All uses permitted in the NC-4 district, and:
 - (1) Farmers market.
 - (2) Restaurant greater than 5,000 square feet.
 - (3) Restaurant with lounge.
 - (4) Food store under 3,000 square feet (no gas service allowed).
 - (5) Dry cleaning, laundries and self-service laundries.
- (Code 1998, app. C, § 5.1802; Ord. No. 07-1548, § 5.1802, 5-3-2007)

Sec. 130-793. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures

must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.

- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
- (Code 1998, app. C, § 5.1803; Ord. No. 07-1548, § 5.1803, 5-3-2007; Ord. No. 15-3393, exh. A(5.1803), 9-3-2015; Ord. No. 17-3659, exh. A(5.1803), 1-5-2017)

Sec. 130-794. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the NC-5 district shall be 12,500 square feet footprint with no more than 20 percent additional upstairs mezzanine space for storage.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

(1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.

(2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas, of these regulations.

(3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements, of these regulations.

(4) *Transitional yard.* Where an NC district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

- a. Where lots in an NC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.

- b. In an NC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In an NC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an NC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading shall be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.1804; Ord. No. 07-1548, § 5.1804, 5-3-2007; Ord. No. 11-2587, 9-1-2011)

Secs. 130-795—130-811. Reserved.

DIVISION 21. NC-6 PUBLIC, CULTURAL AND RECREATIONAL DISTRICT

Sec. 130-812. Purpose.

The purpose of this district is to provide for the location of public, cultural and recreational facilities in near proximity to residential areas while mitigating the impacts of these facilities, such as traffic and lighting.

(Code 1998, app. C, § 5.1901; Ord. No. 07-1548, § 5.1901, 5-3-2007)

Sec. 130-813. Permitted uses.

- (a) Use by right, subject to any minimum standards as listed in section 130-2112.
- (b) All uses permitted in the NC-5 district, and:
 - (1) Golf courses and practice ranges.
 - (2) Community centers.
 - (3) Parks and playgrounds.
 - (4) Sports or gymnasiums.
 - (5) Athletic fields.
 - (6) Convention and conference centers.
 - (7) Marina.
 - (8) Recreational vehicle parks.

(Code 1998, app. C, § 5.1902; Ord. No. 07-1548, § 5.1902, 5-3-2007)

Sec. 130-814. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.

- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.

- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(Code 1998, app. C, § 5.1903; Ord. No. 07-1548, § 5.1903, 5-3-2007; Ord. No. 15-3393, exh. A(5.1903), 9-3-2015; Ord. No. 17-3659, exh. A(5.1903), 1-5-2017)

Sec. 130-815. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the NC-6 district shall be 10,000 square feet.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

(1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.

(2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas, of these regulations.

(3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements, of these regulations.

(4) *Transitional yard.* Where an NC district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

- a. Where lots in an NC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In an NC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.

- c. In an NC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an NC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.1904; Ord. No. 07-1548, § 5.1904, 5-3-2007)

Secs. 130-816—130-838. Reserved.

DIVISION 22. PBC-1 PLANNED BUSINESS CAMPUS

Sec. 130-839. Purpose.

(a) The purpose of the PBC-1 district is to provide for class A office space with supporting uses in a campus type setting. This district is located particularly near the intersection of major arterials or a major and a minor arterial. The PBC-1 district is intended to provide flexibility in meeting the needs of both the public and private sectors for large scale office development.

(b) The site must be large enough to accommodate internal traffic flows, parking, buffer and landscape, and a variety of uses and building types is a characteristic of this district. In no case shall the PBC-1 district be less than ten acres in area.

(Code 1998, app. C, § 5.1901A; Ord. No. 07-1548, § 5.1901A, 5-3-2007)

Sec. 130-840. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112:

- (1) Mid-rise office and residential buildings.
- (2) Hotels, motels and convention centers.
- (3) College, universities, and research centers.
- (4) Public utility facilities.
- (5) Parking lots and decks.
- (6) Freestanding restaurants (no drive-through service permitted).
- (7) Mixed use centers, including residential, restaurants and retail uses provided they do not exceed 20 percent of the developed floor area of any structures located in the district.

(Code 1998, app. C, § 5.1902A; Ord. No. 07-1548, § 5.1902A, 5-3-2007)

Sec. 130-841. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.

- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.

- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(Code 1998, app. C, § 5.1903A; Ord. No. 07-1548, § 5.1903A, 5-3-2007; Ord. No. 15-3393, exh. A(5.1903A), 9-3-2015; Ord. No. 17-3659, exh. A(5.1903A), 1-5-2017)

Sec. 130-842. Site and structure provisions.

(a) *Maximum floor area ratio.* The maximum floor area ratio (FAR) in the PBC-1 district shall be three.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

(1) *Minimum lot width.* There shall be no minimum lot width in this district.

(2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, planting areas, of these regulations.

(3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements, of these regulations.

(4) *Transitional yard.* Where a PBC-1 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

a. Where lots in a PBC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.

b. In a PBC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.

c. In a PBC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.

- d. In a PBC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 65 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 100 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.1904A; Ord. No. 07-1548, § 5.1904A, 5-3-2007)

Secs. 130-843—130-862. Reserved.

DIVISION 23. PBC-2 PLANNED BUSINESS CAMPUS

Sec. 130-863. Purpose.

(a) The purpose of the PBC-2 district is to provide for class A office space with supporting uses in a campus type setting. This district is located particularly near the intersection of major arterials or a major and a minor arterial. The PBC-2 district is intended to provide flexibility in meeting the needs of both the public and private sectors for large scale office development.

(b) The site must be large enough to accommodate internal traffic flows, parking, buffer and landscape, and a variety of uses and building types is a characteristic of this district. In no case shall the PBC-2 district be less than 20 acres in area.

(Code 1998, app. C, § 5.1901B; Ord. No. 07-1548, § 5.1901B, 5-3-2007)

Sec. 130-864. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112:

- (1) High-rise office and residential buildings.
- (2) Hotels, motels and convention centers.
- (3) College, universities, and research centers.
- (4) Public utility facilities.
- (5) Parking lots and decks.
- (6) Freestanding restaurants (no drive-through service permitted).
- (7) Mixed use centers, including residential, restaurants and retail uses provided they do not exceed 20 percent of the developed floor area of any structures located in the district.

(Code 1998, app. C, § 5.1902B; Ord. No. 07-1548, § 5.1902B, 5-3-2007)

Sec. 130-865. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(Code 1998, app. C, § 5.1903B; Ord. No. 07-1548, § 5.1903B, 5-3-2007; Ord. No. 15-3393, exh. A(5.1903B), 9-3-2015; Ord. No. 17-3659, exh. A(5.1903B), 1-5-2017)

Sec. 130-866. Site and structure provisions.

(a) *Maximum floor area ratio.* The maximum floor area ratio (FAR) in the PBC-2 district shall be six.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

(1) *Minimum lot width.* There shall be no minimum lot width in this district.

(2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas, of these regulations.

(3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements, of these regulations.

(4) *Transitional yard.* Where a PBC-2 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

- a. Where lots in a PBC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In a PBC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In a PBC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In a PBC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

- e. Where a building is taller than 65 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 200 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.1904B; Ord. No. 07-1548, § 5.1904B, 5-3-2007)

Secs. 130-867—130-895. Reserved.

DIVISION 24. HC-1 HIGHWAY COMMERCIAL DISTRICT

Sec. 130-896. Purpose.

The purpose of this district is to provide for the location of limited scale highway commercial uses, generally located along major collectors and arterials designed to provide services to a portion of the parish.

(Code 1998, app. C, § 5.2001; Ord. No. 07-1548, § 5.2001, 5-3-2007)

Sec. 130-897. Permitted uses.

- (a) Use by right, subject to any minimum standards as listed in section 130-2112.
- (b) Any uses permitted in the NC districts, and:
 - (1) Automotive parts stores.

- (2) Business college or business schools operated as a business enterprise.
 - (3) Catering establishments.
 - (4) Department stores.
 - (5) Funeral homes and mausoleum.
 - (6) Instruction of fine arts.
 - (7) Physical culture and health establishments.
 - (8) Enclosed plumbing, electrical and home building supply showrooms and sales centers with associated assembly processes.
 - (9) Printing, lithography and publishing establishments.
 - (10) Wholesale merchandise broker/agent including associated offices and indoor storage facilities. Any warehousing uses provided shall not exceed 3,000 square feet. However, if more than one use occupies a building, the entire building shall not exceed 9,000 square feet gross floor area.
 - (11) Drugstores.
 - (12) Dry cleaning, laundries and self-service laundries.
 - (13) Food stores.
 - (14) Public parking lots and garages.
 - (15) Single-family dwelling units above the first floor in a building designed for business uses. Dwelling units shall not exceed one story in height.
 - (16) Veterinary clinics (no outdoor kennels).
 - (17) Public or private auditoriums.
 - (18) Restaurants and restaurants with lounges.
 - (19) Car wash.
 - (20) Warehouse and distribution centers and associated uses such as offices and retail sales with a maximum of combined uses totaling 9,000 square feet or less of gross floor area.
 - (21) Indoor research and testing laboratories.
 - (22) Specialty food processing.
- (Code 1998, app. C, § 5.2002; Ord. No. 07-1548, § 5.2002, 5-3-2007; Ord. No. 10-2364, 11-4-2010)

Sec. 130-898. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.
- (3) Seasonal seafood peddlers using temporary structures, provided that the use is temporary and valid for a period not greater than six months.
- (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
- (5) Fireworks sales (where allowed).
- (6) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (7) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (8) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(b) All temporary uses not specifically permitted in these regulations are expressly prohibited.

(Code 1998, app. C, § 5.2003; Ord. No. 07-1548, § 5.2003, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 15-3393, exh. A(5.2003), 9-3-2015; Ord. No. 17-3659, exh. A(5.2003), 1-5-2017)

Sec. 130-899. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the HC-1 district shall be 20,000 square feet.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

- (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 80 feet.
- (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, planting areas, of these regulations.
- (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements, of these regulations.
- (4) *Transitional yard.* Where an HC-1 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:
 - a. Where lots in an HC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In an HC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - c. In an HC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - d. In an HC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
 - e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.*

- (1) No portion of a building or dwelling for residential or business purposes located within 100 feet of a residentially zoned property shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (2) In no case shall any building or dwelling for residential or business purposes exceed 60 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
 - (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
 - (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
 - (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.
- (Code 1998, app. C, § 5.2004; Ord. No. 07-1548, § 5.2004, 5-3-2007)

Secs. 130-900—130-916. Reserved.

DIVISION 25. HC-2 HIGHWAY COMMERCIAL DISTRICT

Sec. 130-917. Purpose.

The purpose of this district is to provide for the location of moderately scaled, more intense retail, office and service uses, generally located along major collectors and arterials designed to provide services to a portion of the parish.

(Code 1998, app. C, § 5.2101; Ord. No. 07-1548, § 5.2101, 5-3-2007)

Sec. 130-918. Permitted uses.

- (a) Use by right, subject to any minimum standards as listed in section 130-2112.
- (b) All uses permitted in the HC-1 district, and:
 - (1) Banks and financial institutions (greater than 3,000 square feet).
 - (2) Convenience stores (with gas), when the criteria of section 130-2112(56)a, are met.

- (3) Drive-in restaurants.
 - (4) Liquor stores.
 - (5) Any private office use that is a permitted use in the NC district over 20,000 square feet.
 - (6) Clubs, lodges, fraternal and religious institutions, meeting halls (over 20,000 square feet).
 - (7) Veterinary clinics (with outdoor kennels).
 - (8) Parcel post delivery stations.
 - (9) Mini-warehouses.
 - (10) Commercial kennels.
 - (11) Outdoor storage yards that do not occupy an area greater than 50 percent of land area, and are enclosed by an eight-foot opaque perimeter fence, located on the same parcel as, and are accessory to an existing mini-warehouse, not to be located on the street side.
 - (12) Lodging, 100 rooms or less (including apartments, hotels, motels).
 - (13) Automotive repair and service facilities not to exceed 10,000 square feet.
 - (14) Automotive sales not to exceed two acres of display and storage.
 - (15) Outdoor retail sales and storage yards.
 - (16) Portable storage containers use for storage.
 - (17) Outdoor display area of pre-assembled building, pool and playground equipment.
- (Code 1998, app. C, § 5.2102; Ord. No. 07-1548, § 5.2102, 5-3-2007; Ord. No. 09-2083, 7-2-2009; Ord. No. 10-2290, 7-1-2010; Ord. No. 10-2366, 11-4-2010; Ord. No. 11-2532, 6-2-2011)

Sec. 130-919. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.
- (3) Seasonal seafood peddlers using temporary structures, provided that the use is temporary and valid for a period not greater than six months.
- (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
- (5) Fireworks sales (where allowed).

- (6) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (7) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (8) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
- (b) All temporary uses not specifically permitted in these regulations are expressly prohibited.
- (Code 1998, app. C, § 5.2103; Ord. No. 07-1548, § 5.2103, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 15-3393, exh. A(5.2103), 9-3-2015; Ord. No. 17-3659, exh. A(5.2103), 1-5-2017)

Sec. 130-920. Site and structure provisions.

- (a) *Maximum building size.* The maximum building size in the HC-2 district shall be 40,000 square feet.
- (b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (c) *Minimum area regulations.*
- (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, planting areas, of these regulations.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements, of these regulations.
 - (4) *Transitional yard.* Where an HC-2 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:
 - a. Where lots in an HC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.

- b. In an HC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In an HC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an HC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.*

- (1) No portion of a building or dwelling for residential or business purposes located within 100 feet of a residentially zoned property shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (2) In no case shall any building or dwelling for residential or business purposes exceed 60 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.

- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
 - (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
 - (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.
- (Code 1998, app. C, § 5.2104; Ord. No. 07-1548, § 5.2104, 5-3-2007)

Secs. 130-921—130-930. Reserved.

DIVISION 26. HC-2A HIGHWAY COMMERCIAL DISTRICT

Sec. 130-931. Purpose.

The purpose of the HC-2A Highway Commercial District is to provide for the location of moderate to large scale, intense retail, office and service uses, generally located along major collectors and arterials designed to provide services to a portion of the parish.
(Ord. No. 12-2783, exh. A(5.2101), 8-2-2012)

Sec. 130-932. Permitted uses.

- (a) Use by right subject to any minimum standards as listed in section 130-2112.
- (b) All uses permitted in the HC-1 district, and:
 - (1) Banks and financial institutions.
 - (2) Convenience stores (w/gas), when the criteria of section 130-2112(57) are met, inclusive of the limitation on the number of fuel pumping units permitted based on parcel size.
 - (3) Drive-in restaurants.
 - (4) Liquor stores.
 - (5) Any private office use that is a permitted use in the NC district over 20,000 square feet.
 - (6) Clubs, lodges, fraternal and religious institutions, meeting halls.
 - (7) Veterinary clinics (with outdoor kennels).
 - (8) Parcel post delivery stations.
 - (9) Mini-warehouses.
 - (10) Commercial kennels.
 - (11) Outdoor storage yards that do not occupy an area greater than 50 percent of land area, and are enclosed by an eight-foot opaque perimeter fence, located on the same parcel as and are accessory to an existing mini-warehouse, not to be located on the street side.

- (12) Lodging, 200 rooms or less (including apartments, hotels, motels).
 - (13) Automotive repair and service facilities not to exceed 10,000 square feet.
 - (14) Automotive sales not to exceed two acres of display and storage.
 - (15) Outdoor retail sales and storage yards.
 - (16) Portable storage containers used for storage.
 - (17) Outdoor display area of pre-assembled building, pool and playground equipment.
- (Ord. No. 12-2783, exh. A(5.2102), 8-2-2012)

Sec. 130-933. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.
- (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.
- (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
- (5) Fireworks sales (where allowed).
- (6) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (7) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (8) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(b) All temporary uses not specifically permitted in these regulations are expressly prohibited.

(Ord. No. 12-2783, exh. A(5.2103), 8-2-2012; Ord. No. 15-3393, exh. A(5.2103A), 9-3-2015; Ord. No. 17-3659, exh. A(5.2103A), 1-5-2017)

Sec. 130-934. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the HC-2A district shall be 75,000 square feet.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

(1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 80 feet.

(2) *Street planting areas.* All areas along the streets or roads which a property abuts shall comply with the standards of section 130-1873.

(3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874.

(4) *Transitional yard.* Where a HC district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations, whichever is more restrictive:

- a. Where lots in a HC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In a HC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under this ordinance for a residential use on the adjacent property in the residential district.
- c. In a HC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under this division for a residential use on the adjacent property in the residential district.
- d. In a HC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by this division on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.*

- (1) No portion of a building or dwelling for residential or business purposes located within 100 feet of a residentially zoned property shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (2) In no case shall any building or dwelling for residential or business purposes exceed 60 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Ord. No. 12-2783, exh. A(5.2104), 8-2-2012)

Secs. 130-935—130-943. Reserved.

DIVISION 27. HC-3 HIGHWAY COMMERCIAL DISTRICT

Sec. 130-944. Purpose.

The purpose of this district is to provide for the location of larger scale, heavy commercial retail, office and service uses with primary accesses being collectors constructed for the development of arterial roadways.

(Code 1998, app. C, § 5.2201; Ord. No. 07-1548, § 5.2201, 5-3-2007)

Sec. 130-945. Permitted uses.

- (a) Use by right, subject to any minimum standards as listed in section 130-2112.
 - (b) All uses permitted in the HC-2 district, and:
 - (1) Automotive service, stations, centers, and sales.
 - (2) Indoor recreations establishments, such as bowling alleys, skating rinks and movie theaters.
 - (3) Drive-in movie theaters.
 - (4) Storage facilities associated with insurance companies or related offices for wrecked or impounded vehicles. (Minimum standards apply.)
 - (5) Commercial recreation, excluding riverboat gaming and associated facilities.
 - (6) Outdoor (no lights).
 - (7) Lodging. Greater than 100 rooms (including apartments, hotels, motels).
 - (8) Nightclubs, bars and lounges.
 - (9) Entertainment which typically consists of live or programmed performances.
 - (10) Bus, truck or other transportation terminals.
 - (11) Outdoor retail sales and storage yards.
 - (12) Portable storage containers use for storage.
 - (13) Outdoor display area of pre-assembled building, pool and playground equipment.
- (Code 1998, app. C, § 5.2202; Ord. No. 07-1548, § 5.2202, 5-3-2007; Ord. No. 10-2366, 11-4-2010)

Sec. 130-946. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.
- (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.
- (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
- (5) Fireworks sales (where allowed).

- (6) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (7) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (8) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(b) All temporary uses not specifically permitted in these regulations are expressly prohibited.

(Code 1998, app. C, § 5.2203; Ord. No. 07-1548, § 5.2203, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 15-3393, exh. A(5.2203), 9-3-2015; Ord. No. 17-3659, exh. A(5.2203), 1-5-2017)

Sec. 130-947. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the HC-3 district shall be 200,000 square feet.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

(1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 80 feet.

(2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, planting areas, of these regulations.

(3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements, of these regulations.

(4) *Transitional yard.* Where an HC-3 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

- a. Where lots in an HC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.

- b. In an HC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In an HC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an HC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.*

- (1) No portion of a building or dwelling for residential or business purposes located within 100 feet of a residentially zoned property shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
- (2) In no case shall any building or dwelling for residential or business purposes exceed 60 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.

- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

DIVISION 29. HC-5 HIGHWAY COMMERCIAL DISTRICT

Sec. 130-1001. Purpose.

The purpose of this district is to provide for the location of smaller scale specialized uses in addition to limited retail, office and service uses.

(Code 1998, app. C, § 5.2301A; Ord. No. 07-1548, § 5.2301A, 5-3-2007)

Sec. 130-1002. Permitted uses.

(a) Use by right, subject to any minimum standards as listed in section 130-2112 of these regulations.

(b) All uses permitted in the HC-4 district, and:

- (1) Adult uses—Establishments consisting of, including, or having the characteristics of any of the following:
 - a. Adult theaters.
 - b. Adult cabarets.
 - c. Adult stores.
 - d. Massage parlors.
 - e. Escort agencies.

(Code 1998, app. C, § 5.2302A; Ord. No. 07-1548, § 5.2302A, 5-3-2007)

Sec. 130-1003. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.

- (2) Christmas tree sales between November 1 and January 1.
 - (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.
 - (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
 - (5) Fireworks sales (where allowed).
 - (6) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (7) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (8) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
 - (b) All temporary uses not specifically permitted in these regulations are expressly prohibited.
- (Code 1998, app. C, § 5.2303A; Ord. No. 07-1548, § 5.2303A, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 15-3393, exh. A(5.2303A), 9-3-2015; Ord. No. 17-3659, exh. A(5.2303A), 1-5-2017)

Sec. 130-1004. Site and structure provisions.

- (a) *Maximum building size.* The maximum building size in the HC-5 district shall be 20,000 square feet.
- (b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (c) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.

(4) *Transitional yard.* Where an HC-5 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

- a. Where lots in an HC district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In an HC district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In an HC district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an HC district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.*

- (1) No portion of a building or dwelling for residential or business purposes located within 100 feet of a residentially zoned property shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
- (2) In no case shall any building or dwelling for residential or business purposes exceed 60 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.2304A; Ord. No. 07-1548, § 5.2304A, 5-3-2007)

Secs. 130-1005—130-1021. Reserved.

DIVISION 30. I-1 INDUSTRIAL DISTRICT

Sec. 130-1022. Purpose.

The purpose of this district is to provide for the location of industrial uses of moderate size and intensity along major collectors and arterials in such a fashion and location as to minimize the conflict with nearby residential uses.

(Code 1998, app. C, § 5.2401; Ord. No. 07-1548, § 5.2401, 5-3-2007)

Sec. 130-1023. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

- (1) Radio and television studios and broadcasting stations.
- (2) Auto body shops (minimum standards apply).
- (3) Outdoor storage yards and lots and contractor's storage yards in conjunction with an affiliated office provided that this provision shall not permit wrecking yards or yards used in whole or in part for a scrap or salvage operation. Minimum standards for contractor's yards apply.
- (4) Welding shops (greater than 3,000 square feet).
- (5) Indoor recreational facilities including a restaurant without lounge.
- (6) Office warehouse.
- (7) Portable storage containers use for storage.
- (8) Outdoor display pre-assembled building, pool and playground equipment.

(Code 1998, app. C, § 5.2402; Ord. No. 07-1548, § 5.2402, 5-3-2007; Ord. No. 10-2217, 3-4-2010; Ord. No. 10-2366, 11-4-2010; Ord. No. 11-2486, 4-7-2011)

Sec. 130-1024. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.
- (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.
- (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
- (5) Fireworks sales (where allowed).
- (6) Commercial excavation, subject to the minimum standards as established in section 130-2112(55).
- (7) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (8) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (9) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(b) All temporary uses not specifically permitted in these regulations are expressly prohibited.

(Code 1998, app. C, § 5.2403; Ord. No. 07-1548, § 5.2403, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 10-2407, 12-2-2010; Ord. No. 15-3393, exh. A(5.2403), 9-3-2015; Ord. No. 17-3659, exh. A(5.2403), 1-5-2017)

Sec. 130-1025. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the I-1 district shall be 40,000 square feet.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

- (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 80 feet.
- (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
- (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
- (4) *Transitional yard.* Where an I-1 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c) (1) and (2) of this section or the following regulations whichever is more restrictive:
 - a. Where lots in an I-1 district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In an I-1 district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - c. In an I-1 district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - d. In an I-1 district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
 - e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 45 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(f) *Design criteria.*

(1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.

(2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.

(3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.

(4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.2404; Ord. No. 07-1548, § 5.2404, 5-3-2007)

Secs. 130-1026—130-1048. Reserved.

DIVISION 31. I-2 INDUSTRIAL DISTRICT

Sec. 130-1049. Purpose.

The purpose of this district is to provide for the location of industrial uses of large scale and highly intense industrial uses along major collectors and arterials in such a fashion and location as to minimize the conflict with nearby residential uses.

(Code 1998, app. C, § 5.2501; Ord. No. 07-1548, § 5.2501, 5-3-2007)

Sec. 130-1050. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

- (1) Any permitted use under an I-1 district.
- (2) Book binderies.
- (3) Cellophane products manufacturing.
- (4) Cleaning and dyeing works.
- (5) Confectionery manufacturing.
- (6) Dairy products manufacturing.
- (7) Electrical parts, assembly and manufacturing.
- (8) Fiber products and manufacturing.
- (9) Fruit or vegetable canneries.

- (10) Furniture manufacturing.
 - (11) Garment manufacturing.
 - (12) Foundry casting and extruding mills of lightweight nonferrous metal.
 - (13) Millwork and wood product manufacturing.
 - (14) Sheet metal products.
 - (15) Television and radio broadcasting transmitters.
 - (16) Tool manufacturing.
 - (17) Toy manufacturing.
 - (18) Well drilling services.
 - (19) Public utility facilities.
 - (20) Outdoor storage yards that occupy greater than ten percent of the area of the developed site.
 - (21) Beverage distilling.
 - (22) Food products manufacturing.
 - (23) Glass products manufacturing.
 - (24) Paint manufacturing and treatment.
 - (25) Pharmaceutical manufacturing.
 - (26) Shop fabricating and repair.
 - (27) Structural fabrication (steel and concrete).
 - (28) Tire retreading, recapping or rebuilding.
 - (29) General, multi-use office buildings of 40,000 square feet of gross floor area or less.
 - (30) Indoor recreational facilities including a restaurant without lounge.
 - (31) Portable storage containers use for storage.
- (Code 1998, app. C, § 5.2502; Ord. No. 07-1548, § 5.2502, 5-3-2007; Ord. No. 09-2082, 7-2-2009; Ord. No. 10-2308, 8-5-2010; Ord. No. 10-2366, 11-4-2010; Ord. No. 11-2486, 4-7-2011)

Sec. 130-1051. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-1221:

- (1) Snowball stands between April 1 and September 30.

- (2) Christmas tree sales between November 1 and January 1.
 - (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.
 - (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
 - (5) Fireworks sales (where allowed).
 - (6) Commercial excavation, subject to the minimum standards as established in section 130-2112(55).
 - (7) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (8) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (9) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
- (b) All temporary uses not specifically permitted in these regulations are expressly prohibited.
- (Code 1998, app. C, § 5.2503; Ord. No. 07-1548, § 5.2503, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 10-2407, 12-2-2010; Ord. No. 15-3393, exh. A(5.2503), 9-3-2015; Ord. No. 17-3659, exh. A(5.2503), 1-5-2017)

Sec. 130-1052. Site and structure provisions.

- (a) *Maximum building size.* The maximum building size in the I-2 district shall be 200,000 square feet.
- (b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (c) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.

- (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
- (4) *Transitional yard.* Where an I-2 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:
 - a. Where lots in an I-2 district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In an I-2 district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - c. In an I-2 district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - d. In an I-2 district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
 - e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 45 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* Landscaping shall be in compliance with article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.2504; Ord. No. 07-1548, § 5.2504, 5-3-2007)

Secs. 130-1053—130-1072. Reserved.

DIVISION 32. I-3 HEAVY INDUSTRIAL DISTRICT

Sec. 130-1073. Purpose.

The purpose of this district is to provide for the location of industrial uses of large scale and highly intense industrial uses along major collectors and arterials in such a fashion and location as to minimize the conflict with nearby residential uses.

(Code 1998, app. C, § 5.2601; Ord. No. 07-1548, § 5.2601, 5-3-2007)

Sec. 130-1074. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

- (1) Bulk storage of petroleum products and gases provided that all above/below ground storage tanks comply with applicable standards set forth in the rules and regulations of the state fire marshal.
- (2) Canneries not listed in I-2.
- (3) Grain elevators.
- (4) Natural gas gathering plants.
- (5) Nonatomic electric generating plants.
- (6) Paper products manufacturing.
- (7) Petroleum and petroleum base products refining/processing/manufacturing.
- (8) Rubber products manufacturing.
- (9) Steel mills.
- (10) Wood products manufacturing not listed in I-2.

(11) Pleasure boat dry dock hull repair.

(12) Outdoor salvage yard.

(Code 1998, app. C, § 5.2602; Ord. No. 07-1548, § 5.2602, 5-3-2007; Ord. No. 10-2366, 11-4-2010)

Sec. 130-1075. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.
- (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.
- (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
- (5) Fireworks sales (where allowed).
- (6) Commercial excavation, subject to the minimum standards as established in section 130-2112(55).
- (7) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (8) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (9) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(b) All temporary uses not specifically permitted in these regulations are expressly prohibited.

(Code 1998, app. C, § 5.2603; Ord. No. 07-1548, § 5.2603, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 10-2407, 12-2-2010; Ord. No. 15-3393, exh. A(5.2603), 9-3-2015; Ord. No. 17-3659, exh. A(5.2603), 1-5-2017)

Sec. 130-1076. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the I-3 district shall be 500,000 square feet.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

(1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 80 feet.

(2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.

(3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.

(4) *Transitional yard.* Where an I-3 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

- a. Where lots in an I-3 district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In an I-3 district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In an I-3 district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an I-3 district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 45 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.2604; Ord. No. 07-1548, § 5.2604, 5-3-2007)

Secs. 130-1077—130-1105. Reserved.

DIVISION 33. I-4 HEAVY INDUSTRIAL DISTRICT

Sec. 130-1106. Purpose.

The purpose of this district is to provide for the location of industrial uses of large scale and highly intense industrial uses along major collectors and arterials in such a fashion and location as to minimize the conflict with nearby residential uses.

(Code 1998, app. C, § 5.2601A; Ord. No. 07-1548, § 5.2601A, 5-3-2007)

Sec. 130-1107. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

- (1) Outdoor salvage yard.

(Code 1998, app. C, § 5.2602A; Ord. No. 07-1548, § 5.2602A, 5-3-2007; Ord. No. 10-2366, 11-4-2010)

Sec. 130-1108. Conditional uses.

Uses that may be approved by the parish council following a site specific review as outlined in section 130-1111.

- (1) Sanitary landfills for the disposal of solid waste.
 - (2) Atomic generating plants.
 - (3) Chemical processing plants.
 - (4) Shipbuilding and repair.
 - (5) Asphalt batching plant, except those temporarily erected for a specific construction project.
 - (6) Concrete batching plants, except those temporarily erected for a specific construction project.
- (Code 1998, app. C, § 5.2603A; Ord. No. 07-1548, § 5.2603A, 5-3-2007)

Sec. 130-1109. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.
- (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.
- (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
- (5) Fireworks sales (where allowed).
- (6) Commercial excavation, subject to the minimum standards as established in section 130-2112(55).
- (7) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.

- (8) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (9) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(b) All temporary uses not specifically permitted in these regulations are expressly prohibited.

(Code 1998, app. C, § 5.2604A; Ord. No. 07-1548, § 5.2604A, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 10-2216, 3-4-2010; Ord. No. 15-3393, exh. A(5.2603A), 9-3-2015; Ord. No. 17-3659, exh. A(5.2603A), 1-5-2017)

Sec. 130-1110. Site and structure provisions.

(a) *Maximum building size.* The maximum building size in the I-4 district shall be 500,000 square feet.

(b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

(c) *Minimum area regulations.*

(1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 80 feet.

(2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.

(3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.

(4) *Transitional yard.* Where an I-4 district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:

- a. Where lots in an I-4 district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In an I-4 district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.

- c. In an I-4 district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an I-4 district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 45 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.2605A; Ord. No. 07-1548, § 5.2605A, 5-3-2007)

Sec. 130-1111. Industrial conditional use process and procedure.

In order to accomplish the general purpose of these regulations, there are certain uses which must be recognized in addition to the regular permitted uses of a district because of unusual characteristics or the service they provide the public. Because the principle objective of this

zoning ordinance is to promote an orderly arrangement of compatible building and land uses, these conditional uses require special regulation to achieve a compatibility with existing or planned development. Often the effect of these uses on the surrounding environment cannot be foreseen and evaluated until a specific site has been proposed. The conditions controlling the location and operation of such conditional uses are established by the following provisions of these regulations:

- (1) *Authority, conditions and general standards for approval of conditional uses.*
 - a. *Approval.* The zoning commission shall have the authority to permit the conditional uses of land or structures listed in each zoning district. However, if a formal appeal is lodged with the director of planning and development, the final decision of any request to such approval or denial made by the zoning commission shall rest with the parish council.
 - b. *Conditions.*
 1. All regulations of the district in which a conditional use is located shall apply to such uses, except where specific differences in requirements of any section of these regulations apply, or where requirements are specifically amended by the conditions under which the conditional use is granted.
 2. Zoning commission may attach such conditions to the conditional use as are necessary to ensure continuous conformance to all applicable standards and requirements.
 3. Failure to observe the conditions of the commission, imposed pursuant to the issuance of the conditional use, shall be deemed to be a violation of these regulations and may be grounds for revocation of the conditional use.
 4. The zoning commission may approve uses subject to the regulations, and to any additional requirements imposed in the public interest to cover circumstances unique to the selected site including a drainage analysis of the site by an independent engineering firm.
 - c. *General standards.*
 1. The location and size of the use, the nature and intensity of the operation involved in, or conducted in connection with, the use, the size of the site in relation to the use, and the location of the site with respect to streets giving access to the site shall be such that the use will be in harmony with the land uses in the district in which it is located.
 2. Time limit requirement for length of permit use.
 3. Hours of operation for use, buffering and/or landscaping above the minimum parish requirements.

4. The location, nature and height of structures, walls and fences, and the nature and extent of landscaping on the site shall be such that the use will not hinder or discourage the development and use of adjacent land and structures.
 5. Parking areas shall be of adequate size for the particular use, properly located and suitably screened from adjoining residential uses, and the ingress and egress drives shall be laid out so as to achieve maximum safety.
 6. Conditional uses may be approved on lots of less than the minimum lot size in any zoning district and the zoning commission may require alternate standards for landscaping and parking.
 7. Conditional uses are not transferable. Once the use has ceased activity, a new permit must be acquired to occupy the site or reactivate the previous use.
- d. *General criteria.* In deliberating on any application, the zoning commission shall not grant approval of any conditional use permit unless it makes findings based upon the evidence presented to it that each case shall indicate the following:
1. The permit, if granted, will not cause any diminution or depreciation of property values of any surrounding property or will not alter the essential character of the locality.
 2. The permit, if granted, will tend to preserve and advance the property and general welfare of the neighborhood and community.
 3. The granting of the conditional use permit will not be detrimental to the public welfare or seriously affect or be injurious to other property or improvements in the neighborhood in which the property is located, in that it will not impair an adequate supply of light and air, or increase substantially the congestion in the public streets, create a traffic hazard, or permit inadequate parking, or increase the danger of fire, or substantially affect or overburden existing drainage or sewerage systems, or endanger the public safety, nor cause serious annoyance or injury to occupants of adjoining premises by reason of emissions of odors, fumes, gases, dust, smoke, noise or vibration, light or glare or other nuisances.
- e. *Expiration.* The petitioner shall have one year to obtain the appropriate building permits or occupy the site from the date of approval of the parish zoning commission, unless otherwise stipulated by the parish zoning commission.
- (2) *Procedures.*
- a. *Application.*
 1. An application verified by the owner of record or authorized agent of said owner of the property involved shall be filed with the department of plan-

ning and development for the attention of the zoning commission upon a form prescribed therefore, which shall contain, or be accompanied by, all required information.

2. A transportation impact analysis (TIA) study shall be required for all conditional uses in accordance with the requirements for TIAs as described in chapter 125.

b. *Public hearings.* Upon receipt of such verified application, the department of planning and development shall give notice of a public hearing by posting the affected site in a conspicuous place at least 15 days prior to the intended permit hearing. A record of pertinent information presented at the public hearing shall be made and maintained by the zoning commission as part of their permanent record relative to the applicant.

c. *Determination.* The zoning commission shall then make its findings and the permit decision shall not become effective for ten days, during which time an appeal can be made in written form to the parish council through the parish department of planning and development. The procedure for appeals to the parish council is contained within this Code.

(Code 1998, app. C, § 5.2606A; Ord. No. 07-1548, § 5.2606A, 5-3-2007)

Secs. 130-1112—130-1130. Reserved.

DIVISION 34. MD-1 MEDICAL RESIDENTIAL DISTRICT

Sec. 130-1131. Purpose.

The purpose of this district is to provide for the location of facilities for the long term care and housing of individuals in need of regular supervision or health care services due to ongoing medical conditions.

(Code 1998, app. C, § 5.2701; Ord. No. 07-1548, § 5.2701, 5-3-2007)

Sec. 130-1132. Permitted uses.

Use by right, subject to any minimum standards as listed in article VII of these regulations.

- (1) Hospices not to exceed 100 beds for overnight stay.
- (2) Nursing homes.
- (3) Assisted living facilities.
- (4) Convalescent homes.

(Code 1998, app. C, § 5.2702; Ord. No. 07-1548, § 5.2702, 5-3-2007)

Sec. 130-1133. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
- (Code 1998, app. C, § 5.2703; Ord. No. 07-1548, § 5.2703, 5-3-2007; Ord. No. 15-3393, exh. A(5.2703), 9-3-2015; Ord. No. 17-3659, exh. A(5.2703), 1-5-2017)

Sec. 130-1134. Site and structure provisions.

- (a) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
 - (4) *Transitional yard.* Where an MD district adjoins a residential district, transitional yards shall be provided in accordance with the following regulations:
 - a. Where lots in an MD district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.

- b. In an MD district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In an MD district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In an MD district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

(c) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(d) *Height regulations.*

- (1) No portion of a building or dwelling for residential or business purposes located within 100 feet of a residential zoned property shall exceed 30 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
- (2) In no case shall any building or dwelling for residential or business purposes exceed 50 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(e) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.

- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.
(Code 1998, app. C, § 5.2704; Ord. No. 07-1548, § 5.2704, 5-3-2007; Ord. No. 10-2246, 4-1-2010)

Secs. 130-1135—130-1161. Reserved.

DIVISION 35. MD-2 MEDICAL CLINIC DISTRICT

Sec. 130-1162. Purpose.

The purpose of this district is to provide for the location of small scale medical or veterinary care for localized populations. Uses should be located on, or with easy access to the arterial or collector streets network.

(Code 1998, app. C, § 5.2801; Ord. No. 07-1548, § 5.2801, 5-3-2007)

Sec. 130-1163. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

- (1) Clinics, limited to 100 outpatients per day or less.
 - (2) Veterinary clinics (less than 3,000 square feet).
 - (3) Medical laboratories related to an adjacent medical facility, not greater than 3,000 square feet.
- (Code 1998, app. C, § 5.2802; Ord. No. 07-1548, § 5.2802, 5-3-2007)

Sec. 130-1164. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.

- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
(Code 1998, app. C, § 5.2803; Ord. No. 07-1548, § 5.2803, 5-3-2007; Ord. No. 15-3393, exh. A(5.2803), 9-3-2015; Ord. No. 17-3659, exh. A(5.2803), 1-5-2017)

Sec. 130-1165. Site and structure provisions.

- (a) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (b) *Minimum area regulations.*
- (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
 - (4) *Transitional yard.* Where an MD district adjoins a residential district, transitional yards shall be provided in accordance with the following regulations:
 - a. Where lots in an MD district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In an MD district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - c. In an MD district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - d. In an MD district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the

residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

(c) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(d) *Height regulations.*

- (1) No portion of a building or dwelling for residential or business purposes located within 100 feet of a residential zoned property shall exceed 30 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
- (2) In no case shall any building or dwelling for residential or business purposes exceed 50 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(e) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.2804; Ord. No. 07-1548, § 5.2804, 5-3-2007; Ord. No. 10-2246, 4-1-2010)

Secs. 130-1166—130-1193. Reserved.

DIVISION 36. MD-3 MEDICAL FACILITY DISTRICT

Sec. 130-1194. Purpose.

The purpose of this district is to provide for the location of medical and veterinarian facilities for regional populations. Properties should be located adjacent to, or with adequate access to, the major street network.

(Code 1998, app. C, § 5.2901; Ord. No. 07-1548, § 5.2901, 5-3-2007)

Sec. 130-1195. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

- (1) Medical laboratories related to an adjacent medical facility, greater than 3,000 square feet.
 - (2) Hospitals.
 - (3) Veterinary clinics (greater than 3,000 square feet).
- (Code 1998, app. C, § 5.2902; Ord. No. 07-1548, § 5.2902, 5-3-2007)

Sec. 130-1196. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
- (Code 1998, app. C, § 5.2903; Ord. No. 07-1548, § 5.2903, 5-3-2007; Ord. No. 15-3393, exh. A(5.2903), 9-3-2015; Ord. No. 17-3659, exh. A(5.2903), 1-5-2017)

Sec. 130-1197. Site and structure provisions.

- (a) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.

- (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
- (4) *Transitional yard.* Where an MD district adjoins a residential district, transitional yards shall be provided in accordance with the following regulations:
- a. Where lots in an MD district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In an MD district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - c. In an MD district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - d. In an MD district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

(c) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(d) *Height regulations.*

- (1) No portion of a building or dwelling for residential or business purposes located within 100 feet of a residential zoned property shall exceed 30 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
- (2) In no case shall any building or dwelling for residential or business purposes exceed 60 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(e) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.2904; Ord. No. 07-1548, § 5.2904, 5-3-2007; Ord. No. 10-2246, 4-1-2010)

Secs. 130-1198—130-1227. Reserved.

DIVISION 37. MD-4 MEDICAL RESEARCH DISTRICT

Sec. 130-1228. Purpose.

The purpose of this district is to provide for the location of medical, bio-medical and veterinary facilities whose primary function is medical research oriented toward education, research and development, offices, medical uses, and high technology activities and uses.

(Code 1998, app. C, § 5.2901A; Ord. No. 07-1548, § 5.2901A, 5-3-2007; Ord. No. 11-2459, 2-3-2011)

Sec. 130-1229. Permitted uses.

Use by right, subject to any minimum standards as listed in article VIII of these regulations and in accordance with section 130-1228.

- (1) Laboratories for research, development, testing, and related production activities.
- (2) Medical research and manufacturing facilities including, but not limited to, pharmaceuticals, chemicals, biomedical technologies medical instruments and supplies, surgical appliances and supplies, dental equipment and supplies, X-ray apparatus, and electro-medical equipment, when in conjunction with a research facility.
- (3) Educational, scientific, and research activities.
- (4) Laboratories that are or are related to: medical, bio-medical, dental, optical, and/or pharmaceutical uses.
- (5) Medical, surgical, and dental production and supply businesses both wholesale and retail.
- (6) Office buildings: medical, government, general office and professional.

- (7) Animal housing space (indoor and outdoor) for all animals including nonhuman primates.
 - (8) Hospitals, clinics, medical offices, and other treatment facilities used in the care and treatment of humans, nonhuman primates, other animals, and other living creatures.
 - (9) Animal husbandry, care, feeding and breeding of research animals including, but not limited to, nonhuman primates.
 - (10) Conference center, meeting facilities, classrooms, auditoriums training facilities.
 - (11) Fire safety and security facilities (private and public).
 - (12) Cafeteria and food preparation, as part of a permitted medical research facility.
 - (13) Housing and support facilities for resident staff, as part of a permitted medical research facility.
 - (14) Any accessory uses, buildings and/or structures as defined in article I of these regulations which are compatible and necessary for the operation of the permitted uses as determined by the director of planning and development acting in the capacity of zoning administrator.
- (Code 1998, app. C, § 5.2902A; Ord. No. 07-1548, § 5.2902A, 5-3-2007; Ord. No. 11-2459, 2-3-2011)

Sec. 130-1230. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(Code 1998, app. C, § 5.2903A; Ord. No. 07-1548, § 5.2903A, 5-3-2007; Ord. No. 11-2459, 2-3-2011; Ord. No. 15-3393, exh. A(5.2903A), 9-3-2015; Ord. No. 17-3659, exh. A(5.2903A), 1-5-2017)

Sec. 130-1231. Site and structure provisions.

- (a) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
 - (4) *Transitional yard.* Where an MD district adjoins a residential district, transitional yards shall be provided in accordance with the following regulations:
 - a. Where lots in an MD district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the MD-4 district.
 - b. In an MD district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - c. In an MD district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - d. In an MD district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- (c) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum

lot coverage may in some cases be less. For the purpose of this zoning classification, exterior fenced areas used for housing of nonhuman primates or other purposes would not be considered coverage. These fenced areas would be considered open areas when making lot coverage calculations.

(d) *Buffer, setback and height regulations.*

- (1) No portion of any building shall exceed 100 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
- (2) Where MD-4 zoned property abuts a residentially zoned property (the common property line) being hereinafter defined as the boundary line.
 - a. The first 75 feet from the common property line shall be maintained as a no cut buffer, except that diseased and/or dead trees and vegetation may be removed and new trees and/or new vegetation shall be planted. A path not to exceed ten feet in width, with a natural ground or soft or hard surface, may be cleared next to the common property line to allow for the installation and/or maintenance of a fence on the common property line, to facilitate surveillance of the perimeter of the MD-4 zoned property, and installation and/or maintenance of utility lines.
 - b. No building shall be constructed within 75 feet from the common property line.
 - c. Between the distance of 75 feet and 150 feet from the common property line, no portion of any building shall exceed 45 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
 - d. Between the distance of 150 feet and 250 feet from the common property line, no portion of any building shall exceed 75 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
 - e. At a distance of 250 feet and greater from the common property line, no portion of any building shall exceed 100 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.
 - f. Exterior fenced areas used for animal housing are not permitted within 200 feet of the common property line.

(e) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.

- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
 - (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
 - (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.
- (Code 1998, app. C, § 5.2904A; Ord. No. 07-1548, § 5.2904A, 5-3-2007; Ord. No. 11-2459, 2-3-2011)

Secs. 130-1232—130-1250. Reserved.

DIVISION 38. PF-1 PUBLIC FACILITIES DISTRICT

Sec. 130-1251. Purpose.

The purpose of this district is to provide for the location of governmental and other uses providing institutional uses to the public.
(Code 1998, app. C, § 5.3001; Ord. No. 07-1548, § 5.3001, 5-3-2007)

Sec. 130-1252. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

- (1) Post office.
 - (2) Funerary parlor, crematoriums, cemeteries.
 - (3) Passengers transportation terminals.
 - (4) Churches, temples and synagogues greater than 10,000 square feet.
 - (5) Government offices.
 - (6) Government maintenance facilities.
- (Code 1998, app. C, § 5.3002; Ord. No. 07-1548, § 5.3002, 5-3-2007)

Sec. 130-1253. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.

- (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.
 - (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
 - (5) Fireworks sales (where allowed).
 - (6) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (7) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (8) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
- (b) All temporary uses not specifically permitted in these regulations are expressly prohibited.
- (Code 1998, app. C, § 5.3003; Ord. No. 07-1548, § 5.3003, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 15-3393, exh. A(5.3003), 9-3-2015; Ord. No. 17-3659, exh. A(5.3003), 1-5-2017)

Sec. 130-1254. Site and structure provisions.

- (a) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lot width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.

(4) *Transitional yard.* Where a PF district adjoins a residential district, transitional yards shall be provided in accordance with the following regulations:

- a. Where lots in a PF district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In a PF district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In a PF district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In a PF district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

(c) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 45 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(e) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.

- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.
(Code 1998, app. C, § 5.3004; Ord. No. 07-1548, § 5.3004, 5-3-2007)

Secs. 130-1255—130-1281. Reserved.

DIVISION 39. PF-2 PUBLIC FACILITIES DISTRICT

Sec. 130-1282. Purpose.

The purpose of this district is to provide for the location of public or nonprofit owned facilities dedicated to historic, conservation, environmental education or outdoor activities.
(Code 1998, app. C, § 5.3001A; Ord. No. 07-1548, § 5.3001A, 5-3-2007)

Sec. 130-1283. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

- (1) State or federal wildlife management areas.
 - (2) State parks and commemorative areas.
 - (3) Local, state or national parks.
 - (4) Privately owned conservation areas.
 - (5) Habitat and wetland mitigation banks.
 - (6) Passive recreational facilities.
 - (7) Marinas and boat launches, overlooks, boardwalks, hiking and bicycle paths.
 - (8) Pavilions, displays, and similar structures accessory to the above mentioned uses used to enhance environmental education programs.
- (Code 1998, app. C, § 5.3002A; Ord. No. 07-1548, § 5.3002A, 5-3-2007)

Sec. 130-1284. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.
- (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.

- (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
 - (5) Fireworks sales (where allowed).
 - (6) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
 - (7) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (8) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
 - (b) All temporary uses not specifically permitted in these regulations are expressly prohibited.
- (Code 1998, app. C, § 5.3003A; Ord. No. 07-1548, § 5.3003A, 5-3-2007; Ord. No. 09-2151, 11-5-2009; Ord. No. 15-3393, exh. A(5.3003A), 9-3-2015; Ord. No. 17-3659, exh. A(5.3003A), 1-5-2017)

Sec. 130-1285. Site and structure provisions.

- (a) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
 - (4) *Transitional yard.* Where a PF district adjoins a residential district, transitional yards shall be provided in accordance with the following regulations:
 - a. Where lots in a PF district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.

- b. In a PF district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In a PF district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In a PF district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

(c) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 45 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II, whichever is higher.

(e) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.3004A; Ord. No. 07-1548, § 5.3004A, 5-3-2007)

Secs. 130-1286—130-1313. Reserved.

DIVISION 40. CBF-1 COMMUNITY BASED FACILITIES DISTRICT

Sec. 130-1314. Purpose.

The purpose of this district is to provide for the location of public and quasi-public uses that are appropriate within close proximity to residential districts.

(Code 1998, app. C, § 5.3001B; Ord. No. 07-1548, § 5.3001B, 5-3-2007; Ord. No. 09-2131, 9-3-2009)

Sec. 130-1315. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

- (1) Golf courses and recreational facilities owned by public or private entities, including restaurants, clubhouses, grills and retail, including sale of alcohol, when accessory to recreational facilities.
- (2) Churches, temples and synagogues.
- (3) Religious educational facilities.
- (4) Clubs and lodges.
- (5) Fraternal and religious institutions.

(Code 1998, app. C, § 5.3002B; Ord. No. 07-1548, § 5.3002B, 5-3-2007; Ord. No. 09-2131, 9-3-2009)

Sec. 130-1316. Administrative permits.

(a) The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) Snowball stands between April 1 and September 30.
- (2) Christmas tree sales between November 1 and January 1.
- (3) Seasonal seafood peddlers using temporary structures provided that the use is temporary and valid for a period not greater than six months.
- (4) Seasonal produce stands, provided that the use is temporary and valid for a period not greater than six months.
- (5) Fireworks sales (where allowed).
- (6) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures

must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.

- (7) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (8) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(b) All temporary uses not specifically permitted in these regulations are expressly prohibited.

(Code 1998, app. C, § 5.3003B; Ord. No. 07-1548, § 5.3003B, 5-3-2007; Ord. No. 09-2131, 9-3-2009; Ord. No. 09-2151, 11-5-2009; Ord. No. 15-3393, exh. A(5.3003B), 9-3-2015; Ord. No. 17-3659, exh. A(5.3003B), 1-5-2017)

Sec. 130-1317. Site and structure provisions.

- (a) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
 - (4) *Transitional yard.* Where a CBF district adjoins a residential district, transitional yards shall be provided in accordance with the following regulations:
 - a. Where lots in a CBF district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In a CBF district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such

side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.

- c. In a CBF district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- d. In a CBF district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

(c) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 45 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(e) *Maximum structure size.*

- (1) No structure may have a ground floor footprint greater than 30,000 square feet in floor area.
- (2) No structure located within 200 feet of any residentially zoned property may have a floor area exceeding 500 square feet in area.
- (3) Notwithstanding the provisions of article II, division 3 of these regulations, abandonment of or restoration after damage, nothing in these regulations is intended to prevent the reconstruction of damaged or destroyed properties or the replacement of the existing structure within the original footprint of that structure.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.

(3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.

(4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.3004B; Ord. No. 07-1548, § 5.3004B, 5-3-2007; Ord. No. 09-2131, 9-3-2009)

Secs. 130-1318—130-1347. Reserved.

DIVISION 41. ED-1 PRIMARY EDUCATION DISTRICT

Sec. 130-1348. Purpose.

The purpose of this district is to provide for the location of public or private schools that are generally served by buses or serve smaller student populations.

(Code 1998, app. C, § 5.3101; Ord. No. 07-1548, § 5.3101, 5-3-2007)

Sec. 130-1349. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112.

(1) Elementary or middle schools, public or private.

(2) Institution of fine arts.

(3) Adult secondary education classes.

(4) Day care, nursery school, pre-school, kindergarten, and karate/dance/gymnastics schools limited with a total building size limited to 10,000 square feet in area.

(Code 1998, app. C, § 5.3102; Ord. No. 07-1548, § 5.3102, 5-3-2007; Ord. No. 09-2118, 9-3-2009)

Sec. 130-1350. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

(1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.

- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.

- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(Code 1998, app. C, § 5.3103; Ord. No. 07-1548, § 5.3103, 5-3-2007; Ord. No. 15-3393, exh. A(5.3103A), 9-3-2015; Ord. No. 17-3659, exh. A(5.3103A), 1-5-2017)

Sec. 130-1351. Site and structure provisions.

- (a) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.

- (b) *Minimum area regulations.*

- (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.

- (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.

- (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.

- (4) *Transitional yard.* Where an ED district adjoins a residential district, transitional yards shall be provided in accordance with the following regulations:

- a. Where lots in an ED district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
- b. In an ED district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
- c. In an ED district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.

- d. In an ED district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.

(c) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(e) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.3104; Ord. No. 07-1548, § 5.3104, 5-3-2007)

Secs. 130-1352—130-1370. Reserved.

DIVISION 42. ED-2 HIGHER EDUCATION DISTRICT

Sec. 130-1371. Purpose.

The purpose of this district is to provide for the location of public or private schools that serve students of driving age or serve larger student populations.

(Code 1998, app. C, § 5.3201; Ord. No. 07-1548, § 5.3201, 5-3-2007)

Sec. 130-1372. Permitted uses.

Use by right, subject to any minimum standards as listed in section 130-2112:

- (1) High school.

- (2) Community college.
 - (3) Satellite college campus.
 - (4) Vocational schools.
 - (5) Professional training campuses.
 - (6) Day care, nursery school, pre-school, kindergarten (over 20,000 square feet).
- (Code 1998, app. C, § 5.3202; Ord. No. 07-1548, § 5.3202, 5-3-2007)

Sec. 130-1373. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(Code 1998, app. C, § 5.3203; Ord. No. 07-1548, § 5.3203, 5-3-2007; Ord. No. 15-3393, exh. A(5.3203A), 9-3-2015; Ord. No. 17-3659, exh. A(5.3203A), 1-5-2017)

Sec. 130-1374. Site and structure provisions.

- (a) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (b) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot provided with central water and sewerage facilities, the minimum lots width shall not be less than 60 feet. For each zoning lot without either central water or sewerage facilities, the minimum lot width shall be 80 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.

- (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
- (4) *Transitional yard.* Where an ED district adjoins a residential district, transitional yards shall be provided in accordance with the following regulations:
- a. Where lots in an ED district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In an ED district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - c. In an ED district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - d. In an ED district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- (c) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.
- (d) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.
- (e) *Design criteria.*
- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.

- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
 - (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
 - (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.
- (Code 1998, app. C, § 5.3204; Ord. No. 07-1548, § 5.3204, 5-3-2007)

Secs. 130-1375—130-1390. Reserved.

DIVISION 43. AT-1 ANIMAL TRAINING/HOUSING DISTRICT

Sec. 130-1391. Purpose.

The purpose of this district is to provide for the location of large scale animal related functions to minimize the conflict with nearby residential uses.
(Code 1998, app. C, § 5.3301; Ord. No. 07-1548, § 5.3301, 5-3-2007)

Sec. 130-1392. Permitted uses.

Use by right, subject to any minimum standards as listed in section 30-2112:

- (1) Horse riding.
 - (2) Animal training.
 - (3) Commercial stables.
 - (4) Commercial kennels.
- (Code 1998, app. C, § 5.3302; Ord. No. 07-1548, § 5.3302, 5-3-2007)

Sec. 130-1393. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.

- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
 - (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).
- (Code 1998, app. C, § 5.3303; Ord. No. 07-1548, § 5.3303, 5-3-2007; Ord. No. 15-3393, exh. A(5.3303A), 9-3-2015; Ord. No. 17-3659, exh. A(5.3303A), 1-5-2017)

Sec. 130-1394. Site and structure provisions.

- (a) *Maximum building size.* The maximum building size in the AT-1 district shall be 40,000 square feet.
- (b) *Minimum lot area.* No new lot shall be created that is less than 20,000 square feet in area.
- (c) *Minimum area regulations.*
 - (1) *Minimum lot width.* For each zoning lot the minimum lot width shall be 100 feet.
 - (2) *Street planting areas.* All areas along the street or road which a property abuts shall comply with the standards of section 130-1873, street planting areas.
 - (3) *Side and rear planting areas.* All areas located along the side and rear interior property lines shall comply with section 130-1874, side and rear buffer planting area requirements.
 - (4) *Transitional yard.* Where an AT district adjoins a residential district, transitional yards shall be provided in accordance with subsections (c)(1) and (2) of this section or the following regulations whichever is more restrictive:
 - a. Where lots in an AT district front on a street and at least 80 percent of the frontage directly across the street between two consecutive intersecting streets is in a residential district, the setback regulations for the residential district shall apply to the said lots in the commercial district.
 - b. In an AT district, where a side lot line coincides with a side or rear lot line of property in an adjacent residential district, a yard shall be provided along such side lot line. Such yard shall be equal in dimension to the minimum side yard which would be required under these regulations for a residential use on the adjacent property in the residential district.
 - c. In an AT district, where a rear lot line coincides with a rear or side lot line of property in an adjacent residential district, a yard shall be provided along such rear lot line. Such yard shall be equal in dimensions to the minimum rear yard which would be required under these regulations for a residential use on the adjacent property in the residential district.

- d. In an AT district, where the extension of a front or side lot line coincides with the front line of an adjacent lot located in a residential district, a yard equal in depth to the minimum setback required by these regulations on such adjacent lot in the residential district shall be provided along such front or side lot line for a distance of at least 25 feet, including the width of any intervening alley from such lot in the residential district.
- e. Where a building is taller than 25 feet in height, one additional foot of setback shall be required in each yard. Each facade is measured separately and the additional depth is required perpendicular to that facade.

(d) *Maximum lot coverage.* The lot coverage of all principal and accessory buildings on a zoning lot shall not exceed 50 percent of the total area of the lot. However, parking and landscape requirements for the intended use must be met in all instances. Therefore, maximum lot coverage may in some cases be less.

(e) *Height regulations.* No building or dwelling for residential or business purposes shall exceed 35 feet in height above the natural grade of the property at the location of the structure or base flood elevation as established in chapter 115, article II of this Land Development Code, whichever is higher.

(f) *Design criteria.*

- (1) *Landscaping.* All landscaping shall be in compliance with the provisions of article VI, division 2 of these regulations.
- (2) *Signage.* All signage shall be in compliance with article VI, division 3 of these regulations.
- (3) *Lighting.* All site lighting shall be in compliance with article VI, division 4 of these regulations.
- (4) *Parking/loading.* All parking and loading will be in compliance with article VI, division 8 of these regulations.

(Code 1998, app. C, § 5.3304; Ord. No. 07-1548, § 5.3304, 5-3-2007)

Secs. 130-1395—130-1408. Reserved.

DIVISION 44. RBG RIVERBOAT GAMING DISTRICT

Sec. 130-1409. Purpose.

The purpose of the RBG Riverboat Gaming District is to provide for the location and permitting of a riverboat gaming facility including miscellaneous service activities. Because the use in this district is intended to serve the southeastern region of the state, the impact of the proposed development must be carefully studied as to its effects and compatibility on surround-

ing land use, traffic patterns including off-site commuting patterns, environment including our expansive natural shoreline, and drainage. Specific location and performance standards shall be met prior to approval of this district.

(Code 1998, app. C, § 5.3401; Ord. No. 07-1548, § 5.3401, 5-3-2007)

Sec. 130-1410. Permitted uses.

(a) *Gaming establishment.* An establishment for the conducting of gaming, gaming operations, or gaming activities, whereby a person risks the loss of anything of value in order to realize a profit, as is further defined by the provision of chapter 9 of title 4 of the Revised Statutes of 1950, R.S. 4:501 through 4:462, the Louisiana Riverboat Economic Development and Gaming Control Act, and Chapter 10 of the Revised Statutes of 1950, R.S. 4:601 through 4:686, the Louisiana Economic Development and Gaming Corporation Law.

(b) *Accessory uses.* Any use that is accessory or incidental to the conducting of the gaming, gaming operation, or gaming activities or to the operation of a gaming establishment, such as, by way of illustration, berthing facilities for a riverboat used in the conducting of gaming activities or parking areas for the employees or patrons of a gaming establishment.

(Code 1998, app. C, § 5.3402; Ord. No. 07-1548, § 5.3402, 5-3-2007)

Sec. 130-1411. Administrative permits.

The purpose of an administrative permit is to provide for a staff review of certain uses. The following uses are prohibited unless application for the use has been processed by the department of planning and development and the use is in conformance with the minimum standards for that use as outlined in section 130-2112:

- (1) On-location television or film productions where no sets/structures are being constructed that would require the issuance of a building permit; specifically structures must be of a temporary nature and not capable of being occupied under the International Building Code/International Residential Code as determined by the chief building official, or his assigns.
- (2) On-location television or film productions where any sets/structures requiring the issuance of a building permit as determined by the chief building official, or his assigns, are permitted when the set/structure meets all applicable codes of the relevant zoning district.
- (3) Mobile food trucks when meeting the minimum standards for specific uses outlined in section 130-2112(22).

(Ord. No. 15-3393, exh. A(5.3403A), 9-3-2015; Ord. No. 17-3659, exh. A(5.3403A), 1-5-2017)

Sec. 130-1412. Location standards.

In addition to all of the applicable regulations of this district regarding parking, landscaping, and signage the following performance standards shall be adhered to in the establishment of the district and proposed use within the district:

- (1) The district must be located in close proximity to an expressway, major or minor arterial highway.
 - (2) The district must contain existing docking or mooring facilities. These facilities are defined as follows: shall be considered to be sufficient shoreline modifications in place at the time of this zoning amendment to provide for the safe mooring of a commercial vessel of similar and appropriate size and also provide for safe of that vessel from adjacent land for loading passengers or cargo. Generally, these facilities should include piers, wharves, docks, jetties of appropriate length to accommodate the vessel and/or sufficient mooring. Existing docking facilities must also provide water depth that allows for the unrestricted passage of a commercial vessel of similar and appropriate size under normal operating conditions. These facilities must be in a location that is freely accessible from open sea (or possibly the boat's construction site) by the large commercial vessel in question without the aid of dredging activities or any other water bottom alteration. Any facility in a location where access requires any type of bottom alteration shall not be considered to be a satisfactory existing facility.
 - (3) The district must be located at least one mile from a church, school, public playground, or library. The distance will be measured in a straight line from the property line extending outward around the entire circumference of the site.
 - (4) The district must have a minimum area of 100 acres.
- (Code 1998, app. C, § 5.3403; Ord. No. 07-1548, § 5.3403, 5-3-2007)

Sec. 130-1413. Performance standards.

- (a) A site and construction plan detailing traffic circulation, access, drainage, and buffering must be approved by the parish planning commission.
- (b) The site must be served by a central water and sewerage systems.
- (c) The site must receive all regulatory (environmental) permits from local, state and/or federal agencies.
- (d) The site must not exceed residential noise levels as established by the parish's noise ordinance.
- (e) The zoning commission, planning commission or the parish council may require additional performance standards during their review of the project.

(f) Riverboat vessels are only allowed to dock on waterways as designated by the state legislature. Riverboats are not allowed to dock on private waterways such as private canals or lagoons.

(Code 1998, app. C, § 5.3404; Ord. No. 07-1548, § 5.3404, 5-3-2007)

Sec. 130-1414. Procedure and regulations.

(a) *Plan approval.* Prior to submitting a riverboat gaming development rezoning petition, and on participating in an informal pre-application conference, the applicant must have secured a preliminary certificate of approval and/or modification of a preliminary certificate of approval from the riverboat gaming commission and a license and/or modification of a license from the riverboat gaming division of the department of public safety. The purpose of this conference shall be to discuss riverboat gaming parameters and to bring the overall petition as nearly as possible into conformity with parish regulations.

(b) *Conceptual plan.* Following the pre-application conference, a conceptual plan shall be submitted with the rezoning application. This plan shall provide the following information:

- (1) The title of the project and the names of the project planner and developer.
- (2) Plat indicating scale, date, north arrow, and general vicinity map indicating existing land uses within one mile of all boundaries of the proposed development shall be designated. This plat shall include all existing physical features such as existing streets, buildings, watercourses, easements, soil conditions, vegetative cover and topography.
- (3) Maximum total land area, minimum public open space, streets, off-street parking and loading areas. Breakdown by percent of total land area devoted to each use such as:
 - a. Primary use.
 - b. Accessory use.
 - c. Open-space.
 - d. Access parking and loading areas.
 - e. Drainage easements.
- (4) If the riverboat gaming development is proposed to be constructed in phases, indicate proposed development scheduling in detail including:
 - a. The approximate date when construction of each phase of the project can be expected to begin; and
 - b. The order in which the phases of the project will be built.
- (5) Circulation element indicating the proposed principal movement of vehicles, goods and pedestrians.

- (6) The zoning commission, the planning commission or the parish council may require additional material such as plans, maps, aerial photographs, studies and reports which may be needed in order to make the necessary findings and determinations that the applicable parish standards and guidelines have been achieved.

(c) *Zoning commission recommendation.* The zoning commission shall forward a recommendation to approve or deny the Riverboat Gaming District to the parish council after the required public hearing. The zoning commission reserves the right to add stipulations and conditions to its approval and shall determine if the applicant has met all or part of the required parameters including:

- (1) The tract for the proposed zoning is suitable in terms of its relationships to the parish comprehensive plan and that the areas surrounding the proposed zoning can continue to be developed in coordination and substantial compatibility with the proposed Riverboat Gaming District.
- (2) The tract for the proposed zoning meets all applicable standards in sections 130-1412 and 130-1413.
- (3) That the desirable modifications of general zoning regulations as applied to the particular case, justify such modifications of regulations and at least an equivalent degree the regulations modified, based on the design and amenities incorporated in the site development plan.
- (4) That increased open space over conventional development is provided for the occupants of the proposed zoning and the general public, and desirable natural features indigenous to the site and considered in the development plan presented.

(d) *Binding nature of approval for the RBG Riverboat Gaming District.* All terms, conditions, safeguards, and stipulations made at the time of approval for the zoning shall be binding upon the applicant or any successors in interest. Deviations from approved plans or failure to comply with any requirements, conditions, or safeguards shall constitute a violation of these zoning regulations.

(e) *Final development plan.* After approval of the conceptual development plan by the parish council the applicant shall submit a final plan to the department of planning and development indicating all terms, conditions, safeguards and stipulations required by the zoning commission, the planning commission and the parish council.

(Code 1998, app. C, § 5.3405; Ord. No. 07-1548, § 5.3405, 5-3-2007)

Sec. 130-1415. Appeals.

The property owner or its representative or aggrieved property owner within the surrounding area may appeal the zoning commission decision within ten days of the decision. Appeal is made in written form to the parish council through the department of planning and development. The procedure for appeals to the parish council is contained within this Code.

(Code 1998, app. C, § 5.3406; Ord. No. 07-1548, § 5.3406, 5-3-2007)

Sec. 130-1416. Amendment to the RBG Riverboat Gaming District.

Amendments to the RBG Riverboat Gaming District shall be classified as either major or minor in character.

- (1) Major amendments to the zoning shall require the developer to submit revised plans to the department of planning and development. Upon review of the proposed amendments to the zoning by the staff, a public hearing shall be established for the review of the changes by the zoning commission. The zoning commission shall have the authority to review and approve or deny all major changes to the RBG Riverboat Gaming District. Public advertisement shall be required at least 15 days prior to the meeting date and shall run in the official journal of the parish at least twice during that time period. Furthermore, the developer shall pay additional fees for procurement of his proposed zoning changes. The additional fees shall be established by the department of planning and development upon initial review of the proposed amendments.
- (2) Major changes to the zoning plan include:
 - a. The use of the land;
 - b. The use, bulk and location of significant buildings and structures;
 - c. The quantity, quality and location of open spaces; and
 - d. Intensity of use and/or the change or density.
- (3) Minor amendments to the zoning shall be construed as all other changes not considered major amendments. Minor amendments change shall be submitted for review by the department of planning and development and may be put into effect only after a letter of no objection is filed and submitted from the department of planning and development to the chairperson of the zoning commission.

(Code 1998, app. C, § 5.3407; Ord. No. 07-1548, § 5.3407, 5-3-2007)

Sec. 130-1417. Site and structure provisions.

- (a) *Minimum area regulations.*
 - (1) The lot or parcel shall not be less than 100 acres.
 - (2) The minimum lot width shall not be less than 300 feet.

- (3) **Building and parking setback lines.** All building and parking setback lines (front, side and rear) shall be no less than 100 feet from the property line. In cases of property lines which extend into a water body, the current shoreline is considered the property line. Structures within the waterside setback are limited to access structures.

(b) *Maximum lot coverage.* The lot coverage of all principle and accessory structures shall not exceed 50 percent of the total area of the parcel.

(Code 1998, app. C, § 5.3408; Ord. No. 07-1548, § 5.3408, 5-3-2007)

Sec. 130-1418. Signs, lighting and landscaping.

(a) *Landscaping.* Landscaping shall be subject to the provisions of article VI, division 2 of these regulations.

(b) *Signs.* Signs shall be subject to the provisions of article VI, division 3 of these regulations.

(c) *Lighting.* Lighting shall be subject to the provisions of article VI, division 4 of these regulations.

(Code 1998, app. C, § 5.3409; Ord. No. 07-1548, § 5.3409, 5-3-2007)

Sec. 130-1419. Parking requirements.

One space for every two patrons based on maximum occupancy as established by the state fire marshal, plus two for every three employees.

(Code 1998, app. C, § 5.3410; Ord. No. 07-1548, § 5.3410, 5-3-2007)

Secs. 130-1420—130-1446. Reserved.

DIVISION 45. TND-1 TRADITIONAL NEIGHBORHOOD DEVELOPMENT DISTRICT

Sec. 130-1447. Purpose.

The purpose of the TND-1 Traditional Neighborhood Development Zoning District (TND-1 District) is to encourage mixed-use, compact development and facilitate the efficient use of services. A TND-1 district diversifies and integrates land uses within close proximity to each other, and it provides for the daily recreational and shopping needs of the residents. A TND-1 district is a sustainable, long-term community that provides economic opportunity and environmental and social equity for the residents. These regulations' intent is to encourage its use by providing incentives, rather than prohibiting conventional development. The TND-1 district provides for a lower density that can provide for a TND design in area of infill where a higher density TND would not be desirable. A traditional neighborhood development:

- (1) Is designed for the human scale;

- (2) Provides a mix of uses, including residential, commercial, civic, and open space uses in close proximity to one another within the neighborhood;
 - (3) Provides a variety of housing types, and sizes to accommodate households of all ages, sizes, and incomes;
 - (4) Includes residences, shops, workplaces and civic buildings interwoven within the neighborhood, all within close proximity;
 - (5) Incorporates a system of relatively narrow, interconnected streets, roads, drives, and other thoroughfare types with sidewalks and bikeways, that offer multiple routes for motorists, pedestrians, and bicyclists and provides for the connections of those thoroughfare types to existing and future developments;
 - (6) Includes compatibility of buildings and other improvements as determined by their arrangement, bulk, form, character and landscaping to establish a livable, harmonious and diverse environment;
 - (7) Incorporates environmental features into the design;
 - (8) Coordinates transportation systems with a hierarchy of appropriately designed facilities for pedestrians, bicycles, and vehicles;
 - (9) Provides well-configured squares, plazas, greens, landscaped streets, preserves, greenbelts and parks woven into the pattern of the neighborhood;
 - (10) Incorporates architecture, landscape, lighting and signage standards integrated with the zoning provisions that respond to the unique character of the region; and
 - (11) Provides an increased range of options than are allowed by conventional zoning.
- (Code 1998, app. C, § 5.3501; Ord. No. 07-1548, § 5.3501, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1448. Overview.

(a) A TND-1 district consists of an area of not less than 50 contiguous acres. In this article, property is considered contiguous even if separated by a public roadway.

(b) A TND-1 district is divided into at least two types of areas, and each type of area has different land use and site development regulations. A TND-1 district must have one neighborhood center area (also sometimes referred to as town center or village center) and at least one mixed residential area. A TND-1 district may also have a neighborhood edge area, civic spaces and green spaces.

(c) A "neighborhood center area" serves as the focal point of a TND-1 district, containing retail, commercial, civic, and/or public services to meet the daily needs of community residents. A neighborhood center is pedestrian-oriented, and it is designed to encourage pedestrian movement. A square may be located in a neighborhood center area. Retail and commercial uses

should generally be located adjacent to a square. The neighborhood center uses include retail shops, restaurants, offices, banks, hotels, post office, governmental offices, churches, community centers, and attached residential dwellings.

(d) A "mixed residential area" includes a variety of residential land uses, including single-family residential, duplex, townhome, and multifamily. Residential scale retail and commercial uses are permitted within a mixed residential area with strict architectural and land use controls. Retail and commercial uses in a mixed residential area are required to blend into the residential character of the neighborhood. A mixed residential area includes open spaces including small squares, pocket parks, community parks, and greenbelts. A mixed residential area promotes pedestrian activity through well designed and varied streetscapes that also provide for the safe and efficient movement of vehicular traffic. Mixed residential area uses include single-family homes, condominiums, townhomes, apartments, offices, restaurants, neighborhood scale retail, and civic uses. Mixed residential areas often utilize alleys.

(e) A "neighborhood edge area" is the least dense portion of a TND-1 district, with larger lots and greater setbacks than the rest of the neighborhood. Alleys are not required, and direct vehicular access to streets is permitted. Only single-family residential dwellings (attached or detached) are permitted. A neighborhood edge area is appropriate along the perimeter of the neighborhood. A portion of a TND-1 district that adjoins existing or platted conventional low density housing must be designated as a neighborhood edge area.

(f) Large office, low-impact manufacturing uses and industrial uses that are not appropriate for a neighborhood center area or a mixed residential area but which serve the local residents may be located in a specified district.

(g) Civic uses that are oriented to the general public are permitted in a neighborhood center area and a mixed residential area. These uses are essential components of the social and physical fabric of a TND-1 district. Civic space shall be integrated in residential and commercial areas in the TND-1 district. TND-1 districts shall incorporate civic common open spaces to be maintained by the municipality and/or private open spaces to be maintained by the community or landowners within the TND-1 district. Special attention should be paid to the location of government offices, libraries, museums, schools, churches, and other prominent public buildings to create focal points and landmarks for the community. The locations of these major public civic uses are designated on the development plan at the time of commission approval of a particular development.

(h) Open space is a significant part of a TND-1 district design. Formal and informal open spaces are required. These serve as areas for community gatherings, landmarks, and as organizing elements for the neighborhood. Open space includes squares, plazas, greens, preserves, parks, and greenbelts.

(i) A TND-1 district is designed to be pedestrian oriented. To accomplish this goal, pattern and design of the various thoroughfare types are used to reduce vehicle travel speeds and encourage pedestrian activity. An interconnected network of streets, and other thoroughfare types, is required. Streets may be smaller than in conventional development and more varied in size and form to control traffic and give character to the neighborhood.

(j) Thoroughfares and utilities in TND-1 districts shall connect to existing thoroughfares and utilities, or dead-end as stubs intended for connection to future thoroughfares, unless otherwise prohibited by topography, environmental constraints or other considerations, as further described in section 130-1450(h).

(Code 1998, app. C, § 5.3502; Ord. No. 07-1548, § 5.3502, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1449. TND-1 district definitions.

For the purposes of this section only, the following definitions shall be observed and applied, except when the context clearly indicates otherwise. Words used in the present tense shall include the future tense. Words used in the singular form shall include the plural form. Words used in the plural form shall include the singular.

Abutting means having a border with, or being separated from such common border by, an alley or easement.

Access means an entry to or exit from a property, lot, building, parking lot, or other area within the TND-1 district.

Accessory building means a building which:

- (1) Is subordinate to and serves a principal structure or principal use;
- (2) Is subordinate in area, extent and purpose to the principal structure or principal use;
- (3) Is located on the same lot as the principal structure or principal use; and
- (4) Is customarily incidental to the principal structure or principal use; any portion of a principal building which is devoted to an accessory use is not an accessory building.

Accessory use means a use which:

- (1) Is subordinate to and serves a principal structure or principal use;
- (2) Is subordinate in area, extent, and purpose to the principal structure or principal use served;
- (3) Is located on the same lot as the principal structure or principal use served except as otherwise expressly authorized by provisions of these regulations; and
- (4) Is customarily incidental to the principal structure or principal use.

Acre means 43,560 square feet.

Alley means a public or private way permanently reserved as a secondary means of access to abutting property. (See standards in Table 1.)

Appeal means a means for obtaining review of a decision, determination, order, or failure to act under the terms of these regulations.

Application means an application filed by a developer/applicant for TND-1 district zoning.

Association means the association of all the owners of property in the TND-1 charged with the ownership and maintenance of common open space and associated facilities and operated pursuant to articles of incorporation and bylaws. Initially, the developer shall maintain control of the association until such time as two-thirds of lots in the TND-1 district have been sold, or as otherwise set forth in its articles or bylaws. A TND-1 may have a residential association and a commercial association.

Block means a unit of land bounded by thoroughfares or by a combination of thoroughfare types, public land, railroad rights-of-way, waterways, or any other barrier to the continuity of development.

Boulevard means a major thoroughfare for carrying a large volume of through traffic in the area, normally controlled by traffic signs and signals with relatively few intersections and/or drives.

Buffer or *buffer yard* means a unit of land, together with a specified type and amount of planting and any fencing which may be required between land uses to minimize conflicts between them.

Building means a structure built, maintained, or intended for use as a shelter or enclosure of persons, animals, or property. The term "building" includes any part of the structure. Where independent units with separate entrances are divided by party walls, each unit is a building.

Building height or *height* means the vertical distance measured from the lowest ground elevation to the highest point of the building or structure. The building height may be prescribed as a maximum number of stories or as a dimension from sidewalk grade to the eave. The height limit shall not apply to chimneys.

Building setback means the distance from the street right-of-way line to the closest point of the foundation of a building or projection thereof.

Collector means a street designed to carry moderate volumes of traffic from local streets to boulevards or from boulevard to boulevard. Collectors are also referred to as avenues. (See standards in Table 1.)

Commercial street means a very urban condition which comprises a street with raised curbs drained by inlets. Wide sidewalks along both sides are separated from the thoroughfare by

small separate tree wells. Trees along the commercial street consist of a single species aligned in a row or rows. Tree spacing may be irregular to stay clear of shop entrances. Commercial streets have the highest pedestrian use.

Commissions means the planning commission and the zoning commission, individually and collectively.

Common open space means a parcel or parcels of land and/or an area of water within a development that are held in some form of common ownership and designated, designed and intended for benefit, use or enjoyment of the occupants of the development. It may contain such complementary structures and improvements as necessary and appropriate for the benefit and enjoyment of the occupants of such development as set forth in section 130-1450(e), including those uses set forth in section 10.1.1, III, B of the Development Code.

Council means the St. Tammany Parish Council.

Density means a measure of the intensity of development. In these regulations, density for residential development is calculated in terms of units per acre.

Developer means the legal or beneficial owner of a lot or parcel of any land proposed for inclusion in a development, including the holder of an option or contract to purchase.

Development means the division of a parcel of land into two or more parcels; the construction, reconstruction, conversion, structural alteration, relocation, or enlargement of any buildings or structures; any use or change in use of any buildings or land; or any extension of any use of land or any clearing, grading, or other movement of land.

Drainage means the removal of surface water or groundwater from land by drains, grading, or other means. The term "drainage" includes the control of runoff to minimize erosion and sedimentation during and after development and includes the means necessary for water supply preservation or the prevention or alleviation of flooding.

Drive or driveway means a vehicular accessway within a lot.

Dwelling means any building or portion of a building which is designated or used for residential purposes.

Dwelling, multi- or multifamily, means a building that contains more than one dwelling unit.

Dwelling, single- or single-family, means a building that contains only one living unit, including attached buildings in the case of townhomes when said living units are each on a separate legal lot or parcel.

Flood or flooding means a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland or tidal waters, or the unusual and rapid accumulation or runoff of surface waters from any source.

Floor area means the sum of the gross floor area for each of a building's or structure's stories measured from the exterior limits of the faces of the building or structure. The floor areas of the building include the basement floor area. The floor area includes the attic only if it is habitable floor area.

General implementation plan means the initial plan of development for a TND-1 which an applicant/developer submits to the commission containing all those items described in the general implementation plan checklist, including written and graphic documents, which represents a general plan of the proposed land uses and their overall impact on the land and surrounding land for redesignation of the land to TND-1 Planned.

General implementation plan checklist means a list containing items which must be included in a general implementation plan submitted to the commissions for TND approval.

Highway means a long-distance, speed-movement thoroughfare designed for vehicle use, traversing open countryside. A highway should be relatively free of intersections, driveways and adjacent buildings, otherwise it becomes strip development which interferes with traffic flow and human comfort. Variants include freeways, expressways and parkways.

Land Development Code means the St. Tammany Parish Unified Development Code as contained in this part of the Code of Ordinances.

Livework unit means those dwelling structures or units that combine a residence and a workplace, as permitted in these regulations.

Lot means a parcel of land undivided by any street or private road and occupied or intended for occupancy by, or designated to be developed for, one building or principal use and the accessory buildings or accessory uses customarily incidental to such building, use or development, including such open spaces and yards as are designed and arranged or required by these regulations for such building use or development.

Lot area means the area contained within the boundary lines of lot.

Lot line means a line bounding a lot which divides one lot from another or from a street or any public or private space.

Lot width means the horizontal distance between side lot lines measured at the front setback. Where there is only one side lot line, lot width shall be measured between such lot line and the opposite lot line or future right-of-way line.

Major change means a change to an approved traditional neighborhood development as set forth in section 130-1460(a) through (c).

Minor change means a change to an approved traditional neighborhood development as set forth in section 130-1460(d).

Net acre means an acre of land excluding street rights-of-way and other publicly dedicated improvements such as parks, open space, and stormwater detention and retention facilities.

Owner means the person or persons having the right of legal title to, or beneficial interest in, a lot or parcel of land.

Parcel means the area within the boundary lines of a development.

Parish means the Parish of St. Tammany, State of Louisiana.

Passage means a pedestrian connector passing between buildings. Passages provide short-cuts through long blocks and connect rear parking areas with street frontages. Passages may be roofed over and lined by shopfronts. Variants include courts, a passage that is wide enough to be landscaped, being the frontage for buildings which are otherwise provided with vehicular access only by rear alleys.

Path means a pedestrian way traversing a park or the countryside. Paths should connect directly with the sidewalk network at the urban edge.

Person means an individual, firm, partnership, corporation, company, association, joint stock association or government entity; including a trustee, a receiver, and assignee, or a similar representative of any of them.

Planning commission means the body duly appointed by the parish government and charged with the responsibility of formulating a comprehensive plan, to keep it up to date, and to prescribe and administer necessary rules and regulations for the successful implementation of the comprehensive plan, a part of which being chapter 125, in accordance with R.S. 33:101 through 33:120.1.

Planning staff or *commissions staff* means professional and nonprofessional personnel employed by the parish government to carry out and fulfill the directives and responsibilities of the commissions. Staff functions may be conducted by private or public consultants.

Principal building means a building in which the principal use of the lot on which the building is located is conducted or intended to be conducted.

Principal use means the specific primary purpose for which land is used.

Public improvement means any improvement, facility, or service, together with customary improvements and appurtenances thereto, necessary to provide for such public needs as vehicular and pedestrian circulation systems, storm sewers, flood control improvements, water supply and distribution facilities, sanitary sewage disposal and treatment, public utility, and energy services.

Queuing means the use of one travel lane on local streets with parking, usually an intermittent parking pattern, on both sides.

Rear alley means a narrow service accessway to the rear of more urban buildings providing service areas, parking access, and utility easements. Alleys, as they are used by trucks and must accommodate dumpsters, should be paved from building face to building face, with drainage by inverted crown at the center. Buildings facing the alley must have windows.

Rear lane means a vehicular accessway located to the rear of a lot providing access to parking and outbuildings as well as easements for utilities. Rear lanes are paved as lightly as possible to driveway standards or with gravel. Rear lanes should be as rural as possible in character. Buildings facing the rear lane must have windows. Posted speed should equal design speed.

Rear lot line means that lot line which is parallel to and most distant from the front lot line of the lot; in the case of an irregular or triangular lot, a line 20 feet in length, entirely within the lot, parallel to and at the maximum possible distance from the front line, shall be considered to be the rear lot line. In the case of lots which have frontage on more than one road or street, the rear lot line shall be opposite the lot line along which the lot takes access to a street.

Restrictive, more (less), means a regulation imposed by these regulations is more (less) restrictive than another if it prohibits or limits development to a greater (lesser) extent or by means of more (less) detailed specifications.

Right-of-way means a strip of ground dedicated by the developer for public use, title to which shall rest in the public for the purpose stated in the dedication.

Road means a thoroughfare with open swales drained by runoff percolation and an informal walking path or bicycle trail along one side. Trees along roads consist of multiple species composed in clusters. Roads have low pedestrian use. Design speed can exceed the posted speed.

Rural road means a thoroughfare with open swales drained by runoff percolation and no separate pedestrian path. Trees along rural roads consist of multiple species composed in clusters.

Secondary dwelling unit, means an additional dwelling unit located within the principal dwelling on the lot, in a freestanding building or above a residential garage.

Servitude or easement means a strip existing or to be reserved by the developer for public utilities, drainage and other public purposes, the title to which shall remain with the property owner, subject to the right of use designated in the reservation of servitude; or a strip of ground designated or intended to be used for access to buildings and other portions of property.

Side lot line means any lot line other than a front or rear lot line.

Sign means any structure, part thereof, or device attached thereto or painted or represented thereon, or any material or thing, illuminated or otherwise, which displays or includes any numeral, letter, word, model, pennant, streamer, banner, emblem, insignia, device, trademark or other representation used as, or in the nature of, an announcement, advertisement, direction

or designation of any person, firm, group, organization, place, commodity, product, service, business, profession, enterprise or industry which is located upon any land or on any building.

Story means a space in a building between the surface of any floor and the surface of the next floor above, or if there is no such floor above, then the space between such floor and the ceiling or roof above.

Street means a strip of land, including the entire right-of-way, publicly or privately owned, serving as a means of slow vehicular travel, and furnishing access to abutting properties, which may also be used to provide space for sewers, public utilities, shade trees, and sidewalks. A street may be public or private.

Structure means an object, including a mobile object, constructed or installed by man, including but without limitation, buildings, towers, cranes, and overhead transmission lines.

Subdivision means any division, subdivision or re-division of a subdivision, tract, parcel, or lot of land into two or more lots, plots, sites, parts, or other division of land by means of mapping, platting, conveyance, or change of rearrangement of boundaries for the purpose of sale, lease or development, whether immediate or future. All subdivisions are also developments.

Thoroughfare means a paved vehicular way with moving lanes and parking lanes accompanied by streetscapes at the sides, both within and outside of a public right-of-way, and including all of the thoroughfare types as set forth and described herein.

Thoroughfare types means boulevards, roads, rural roads, streets, commercial streets, collectors, driveways, highways, passages, paths, rear alleys, and rear lanes.

Townhome means two or more attached living units with common or party sidewalls between units, designated so that each unit may be sold independently as a lot with its own yards and parking spaces.

Traditional neighborhood or traditional neighborhood development means a compact, walkable, mixed-use neighborhood where residential, commercial and civic buildings are within close proximity to each other as contemplated under these regulations.

- (1) *TND-1 concept*. The designation of property for development as a traditional neighborhood development through the comprehensive rezoning process or in accordance with the time limitations and procedures set forth in section 130-1469.
- (2) *TND-1 planned*. The designation of property for development as a traditional neighborhood development following approval of the general implementation plan.
- (3) *TND-1*. The redesignation of property for TND planned on the official map, upon approval of a specific implementation plan and the final plat.

Transit stop means a location where passengers board and alight. Transit stops can serve one or more routes and include various levels of amenities depending on the level of actual or anticipated riders. Amenities can include transit stop sign pole, benches, trash receptacles, shelters and lighting. Transit stops can be placed within the public right-of-way or on private property depending on service needs and passenger comfort.

Tree means any self-supporting perennial woody plant that is at least four inches in diameter.

Urban street means a typical urban condition which comprises a street with raised curbs drained by inlets. A narrower, continuous planter separates wide sidewalks along both sides from the thoroughfare. Trees along urban streets consist of a single species aligned in a row or rows.

Use means the purpose or activity for which land or any building thereon is designed, arranged, or intended, or for which it is occupied or maintained.

Variance means permission to depart from the literal requirements of these regulations granted by the council.

Zoning commission means that body of appointed officials granted the authority to administer land use regulations in accordance with title 33, sections 101 through 119, Louisiana Revised Statutes Annotated (R.S. 33:101—33:119), as amended, and under title 33, sections 4776.40 through 4776.50, Louisiana Revised Statutes Annotated (R.S. 33:4776.40—33:4776.50), as amended, the St. Tammany Parish Home Rule Charter Commission, adopted under the authority of article VI, section 5, of the Constitution of Louisiana and R.S. 33:1395, as amended and article I of these regulations.
(Code 1998, app. C, §5.3503; Ord. No. 07-1548, §5.3503, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1450. TND-1 district design requirements.

(a) *Association.*

- (1) Conditions, covenants, and restrictions for all the property within a TND-1 district must be filed in the parish records by the owner before a lot is sold and/or a building permit is issued.
- (2) In addition to other terms and conditions acceptable to the applicant, the conditions, covenants, and restrictions must create one or more property owners associations with mandatory membership for each property owner, governed by articles of incorporation and bylaws, which shall:
 - a. Be organized by the applicant and operated with a financial subsidy from the applicant before the sale of any lots within the TND-1 district;
 - b. Provide for the conditions and timing of transferring control of the association from the applicant to the property owners;

- c. Be responsible for maintenance of insurance and taxes on all common open space, enforceable by liens placed on the association by the parish, as provided in the association bylaws;
- d. At all times, cause all owners to have access to the common open space within the TND-1 district;
- e. Establish architectural standards that are in conformity with the requirements of these regulations which shall be subject to review and approval by the board of directors of the association or the architectural control committee, as described below;
- f. Create an architectural control committee to review development for compliance with the architectural standards, to issue certificates of approval, and to review and approve the development's architect, designer, and/or other professionals contributing to the development;
- g. Provide for the ownership, development, management, and maintenance of private open space (except plazas owned by individual property owners), community parking facilities, community meeting hall, and other common areas;
- h. Provide for a maintenance program for all property within the TND-1, including landscaping and trees within the streetscape;
- i. Require the collection of assessments from members in an amount sufficient to pay for its functions; and
- j. Be effective for a term of not less than 50 years.

(b) *Land use allocations.* Each lot within a TND-1 district must be allocated particular permitted land use categories. Areas which would permit the sale or consumption of alcohol must be approved for an alcohol license by the alcohol and beverage board.

(c) *Neighborhood uses.* In order to achieve the proximity necessary to make neighborhoods walkable, it is important to mix land uses. A TND-1 district should consist of a mix of residential uses, a mixed use area, and open space as provided below:

- (1) *Mixed residential uses.* A mix of residential uses of the following types can occur anywhere in the TND-1 district, provided that attached or detached single-family dwellings shall account for at least 50 percent of the residential units in the TND. For infill development, the mix of residential uses may be satisfied by existing residential uses adjacent to the TND-1 district by including some and/or all of the following:
 - a. Single-family detached dwellings, including manufactured homes;
 - b. Single-family attached dwellings, including duplexes, townhomes, row houses;
 - c. Multifamily dwellings, including senior housing;
 - d. Secondary dwelling units ("granny flats");

- e. Special needs housing, such as community living arrangements and assisted living facilities;
 - f. Residential units above commercial uses, which shall be considered multifamily units.
- (2) *Mixed use area.* Mixed use area, of commercial, residential, civic or institutional, and open space uses as identified below. All residents should be within approximately one-half mile or a 15-minute walk from existing or proposed commercial, civic, and open space areas.
- a. *Commercial.* Commercial uses may include the following:
 - 1. *Food services.* Food services, including, without limitation, neighborhood grocery stores; butcher shops; bakeries; restaurants (including the sale and consumption of alcohol, not including drive-throughs; cafes; coffee shops; neighborhood taverns, bars or pubs); delis, ice cream parlors, specialty foods, and/or outside dining patios and areas;
 - 2. *Retail.* Retail uses, including, without limitation, retail sales, florists or nurseries; gas stations, hardware stores; stationery stores; bookstores; galleries, studios and shops of artists and artisans, drugstores, apparel, antiques, furniture, music, pets, farmers market, and toys;
 - 3. *Services.* Services, including, without limitation, child care centers; music, dance or exercise studios; offices, including professional and medical offices; financial and banks; medical clinics, barber; laundromats; educational, hair salon; dry cleaning, health or fitness, dry cleaners, tailor shops, repair and service shops, and postal;
 - 4. *Accommodations.* Accommodations, bed and breakfast establishments, small hotels or inns; and
 - 5. *Clubs and organizations.* Clubs and organizations, including fraternal organizations.
 - b. *Residential.* Residential uses may include the following, for sale or rent:
 - 1. Single-family attached dwellings, including duplexes, townhomes, row houses;
 - 2. Multifamily dwellings, including senior housing;
 - 3. Residential units located on upper floors above commercial uses or to the rear of storefronts;
 - 4. Live/work units that combine a residence and the resident's workplace; and
 - 5. "Special needs" housing, such as community living arrangements and assisted living facilities.

- c. *Civic or institutional.* Civic or institutional uses may include the following:
 - 1. Municipal offices, fire stations, libraries, museums, community meeting facilities, and post offices;
 - 2. Places of worship;
 - 3. Transit shelters;
 - 4. Philanthropic institutions; and
 - 5. Educational facilities.
 - d. *Office.* Office, which may include the following:
 - 1. Art galleries and studios;
 - 2. Banks;
 - 3. Child care centers;
 - 4. Clubs;
 - 5. Offices;
 - 6. Medical clinics.
 - e. *Open space.* Open space uses may include the following:
 - 1. Central square;
 - 2. Neighborhood parks;
 - 3. Recreational facilities; and
 - 4. Playgrounds.
- (3) *Open space.* Open space uses identified below should be incorporated in the TND-1 district as appropriate. Large outdoor recreation areas should be located at the periphery of neighborhoods rather than central locations. Common open space is more particularly described in subsection (e) of this section.
- a. Environmental corridors;
 - b. Protected natural areas;
 - c. Community parks;
 - d. Streams, ponds, and other water bodies; and
 - e. Stormwater detention/retention facilities.
- (d) *Development units.* The number of residential dwelling units and the amount of nonresidential development, excluding open spaces, shall be determined as follows, provided that single-family detached dwellings shall account for at least 50 percent of the total number of residential units in the TND, and two-family units, townhomes, and multifamily units shall comprise less than 50 percent of the units:
- (1) *Mixed residential uses.* In areas devoted to mixed residential uses:
- a. The number of single-family detached units permitted shall be 2.5 to five dwelling units per net acre;

- b. The number of single-family attached units permitted shall be five to eight dwelling units per net acre;
- c. The number of multifamily units shall be five to 20 dwelling units per net acre.
- d. Secondary dwelling units shall be permissible in addition to the number of dwelling units authorized under this section. However, the total number of secondary dwelling units shall not be more than ten percent of the total number of single-family attached and detached units.
- e. For each affordable housing unit provided under this section, one additional dwelling unit shall be permitted, up to a maximum 15 percent increase in dwelling units.

(2) *Mixed use areas.* In mixed-use areas:

- a. The number of single-family and multifamily dwelling units permitted shall be calculated the same as above plus an additional number of units not to exceed ten percent of the amount permitted above.
- b. All dwelling units constructed above commercial uses shall be permissible in addition to the number of dwelling units authorized under this section. However, the total number of dwelling units shall not be increased by more than ten dwelling units or ten percent, whichever is greater.
- c. The total ground floor area of nonresidential development uses, including off-street parking areas, shall not exceed 25 percent of the TND-1 district.

(e) *Additional common open space requirements.* At least 20 percent of the gross acreage of the TND-1 district must be open space. At least 25 percent of the common open space must be dedicated to the public for parkland. Ninety percent of the lots within the areas devoted to mixed residential uses shall be within a one-half mile or a 15-minute walk from common open space.

(1) The following uses may account for common open space with the stated limitations:

- a. Parks and other open greenbelt areas which are readily accessible must account for not less than 25 percent of the common open space.
- b. Trees along thoroughfare types located within designated landscape common areas or landscape servitude and located within a street right-of-way may not exceed 25 percent of the common open space. There shall be one street tree per 40 feet of frontage. However, common open space within vehicle use areas or any noncontiguous green area of less than 1,000 square feet may not be included.
- c. Lake and ponds, including stormwater wet detention basins provided that they are designed so that a minimum of 20 percent of the abutting shoreline is made accessible for the common use of the development, but in no event less than 300 feet of frontage.

- d. Stormwater dry detention basins of not less than one acre; but may not exceed 25 percent of the common open space and must be designed to provide for acceptable maintenance and upkeep of the detention basin.
 - e. Golf courses may account for up to 50 percent of the common open space.
 - f. Wetlands with not less than 50 percent bottomland hardwood, pine savannah, and/or brackish marshland.
 - g. Hard surface recreation areas such as recreational courts and pedestrian plazas may account for up to 25 percent of the common open space.
 - h. Areas including servitudes with existing below ground utilities and/or facilities with a width of not less than 50 feet.
 - i. Electrical transmission line servitudes with a width of not less than 150 feet.
 - j. School sites, excluding the area devoted to buildings.
 - k. An existing building or buildings that have historical or cultural significance may be located in a common area space; however, the enclosed building area may not be included in the common open space requirement.
 - l. Common open space for the use by the general public, if agreed to by the appropriate governmental authority, in each case in an amount to be determined by the commissions.
- (2) Common open space shall not include:
- a. Required:
 - 1. Yards which are not accessible for the common use of the development;
 - 2. Parking areas;
 - 3. Drives;
 - 4. Utility with above ground improvements or road easements/servitudes except as specified above;
 - b. Structures (unless a part of the open space such as gazebos);
 - c. Drainage ditches or canals; and
 - d. Areas reserved for the exclusive use and benefit of an individual tenant or owner.
- (3) No more than 20 percent of the common open space shall be devoted to paved areas and structures such as courts or recreation buildings. Parking lots and on-street parking shall not be located within or along the side of a street or road bordering parks, greens and squares.
- (4) Common open space shall be permanently set aside for the sole benefit, use, and enjoyment of present and future occupants of the traditional neighborhood develop-

ment through covenant, deed restriction, open space servitude, or similar legal instrument; or, if agreed to by governmental agency, the open space may be conveyed to a governmental agency for the use of the general public.

- (5) The commissions may consider a traditional neighborhood development with a lesser amount of common open space if it is clear that the proposed traditional neighborhood development substantially provides for the intent of a traditional neighborhood development. It is noted that common open space is a very important element of a traditional neighborhood development and reductions to the common open space provision should be granted only as a result of specific, clearly documented reasons (i.e., the traditional neighborhood development may be located on a relatively small site in an area where a respective 15 percent or 20 percent provision would detract from building continuity or historic preservation efforts).
- (6) In the event land shown on a specific implementation plan (as hereinafter defined) as common open space is dedicated to the parish, the council may, but shall not be required to, accept the open space provided:
 - a. Such land is accessible to the residents of the parish;
 - b. There is no cost of acquisition other than the costs incidental to the transfer of ownership; and
 - c. The parish agrees to and has access to maintain such lands.
- (7) Common open space shall be protected against building development and environmental damage by conveying to the municipality, parish, association, or land trust an open space servitude restricting the area in perpetuity against any future building and against the removal of soil, trees and other natural features, except as the commissions determine is consistent with conservation or recreational purposes.

(f) *Stormwater management.* The design and development of the TND-1 district should minimize off-site stormwater runoff, promote on-site filtration, and minimize the discharge of pollutants to groundwater and surface water. Natural topography and existing land cover should be maintained/protected to the maximum extent practicable. New development and redevelopment shall meet the following requirements:

- (1) Untreated, direct stormwater discharges to wetlands or surface waters are not allowed.
- (2) A drainage analysis shall be submitted in conformance with chapter 115 and/or chapter 125.
- (3) Erosion and sediment controls must be implemented.
- (4) Redevelopment stormwater management systems should improve existing conditions and meet standards to the extent practicable.

- (5) All treatment systems or BMPs must have operation and maintenance plans to ensure that systems function as designed.
- (g) *Lot and block standards.*
 - (1) *Block and lot size diversity.* Thoroughfare layouts should provide for perimeter blocks that are generally in the range of 200 to 400 feet deep by 400 to 800 feet long. Block length shall not exceed 2,000 feet in perimeter. The commissions may approve block perimeters of more than 2,000 feet if required because of existing topography. A block longer than 500 feet in length shall be traversed near the midpoint by a pedestrian path. A variety of lot sizes should be provided to facilitate housing diversity and choice and meet the projected requirements of people with different housing needs.
 - (2) *Lot widths.* Lot widths should create a relatively symmetrical street or road cross section that reinforces the public space of the street or road as a simple, unified public space.
 - (3) *Building setback, front, mixed use area.* Structures in the mixed-use area have no minimum setback. Commercial and civic or institutional buildings should abut the sidewalks in the mixed-use area.
 - (4) *Building setback, front, areas of mixed residential uses.* Single-family detached residences shall have a building setback in the front as specified in the conditions, covenants and restrictions (CCR). The CCR must establish a specific or range of setback between zero and 25 feet in depth. Single-family attached residences and multifamily residences shall have a building setback in the front between zero and 15 feet.
 - (5) *Building setback, rear, areas of mixed residential uses.* The principal building on lots devoted to single-family detached residences shall be setback no less than 30 feet from the rear lot line.
 - (6) *Side setbacks.* Provision for zero lot-line single-family dwellings should be made, provided that a reciprocal access easement is recorded for both lots and townhomes or other attached dwellings, provided that all dwellings have pedestrian access to the rear yard through means other than the principal structure.
- (h) *Thoroughfare network.*
 - (1) *Modes of transportation.* The circulation system shall allow for different modes of transportation.
 - (2) *Circulation system.* The circulation system shall provide functional and visual links within the residential areas, mixed-use area, and open space of the TND-1 district and shall be connected to existing and proposed external development. The circulation system shall provide adequate traffic capacity, provide connected pedestrian and bicycle routes, especially off-street bicycle or multi-use paths or bicycle lanes on the

streets where required and ADA-approved crosswalks and sidewalks, control through traffic, provide adequate transit stops, limit lot access to streets of lower traffic volumes, and promote safe and efficient mobility through the TND-1 district.

- (3) *Street design guidelines.* The general requirements of table 1 in section 130-1469 shall apply, which may be modified by the commissions.
- (4) *Pedestrian circulation.* Convenient pedestrian circulation systems that minimize pedestrian-motor vehicle conflicts shall be provided continuously throughout the TND. Where feasible, any existing pedestrian routes through the site shall be preserved and enhanced. All streets, except for alleys, shall be bordered by sidewalks on both sides in accordance with the specifications listed in table 1. The following provisions also apply:
 - a. *Sidewalks in residential areas.* Clear and well-lighted sidewalks, three to five feet in width, depending on projected pedestrian traffic, shall connect all dwelling entrances to the adjacent public sidewalk. Sidewalks shall be provided along both sides of each street in residential areas. For pedestrian safety, sidewalks shall be separated at least seven feet from the curb.
 - b. *Sidewalks in mixed-use areas.* Clear and well-lighted walkways shall connect building entrances to the adjacent public sidewalk and to associated parking areas. Such walkways shall be a minimum of five feet in width. Sidewalks shall be provided along both sides of each thoroughfare type located within a mixed-use area. For pedestrian safety, sidewalks shall be separated at least seven feet from the curb.
 - c. *Disabled accessibility.* Sidewalks shall comply with the applicable requirements of the Americans with Disabilities Act.
 - d. *Crosswalks.* Intersections of sidewalks with thoroughfares shall be designed with clearly defined edges. Crosswalks shall be well lit and clearly marked with contrasting paving materials at the edges or with striping.
- (5) *Bicycle circulation.* Bicycle circulation shall be accommodated on streets and/or on dedicated bicycle paths. Where feasible, any existing bicycle routes through the site shall be preserved and enhanced. Facilities for bicycle travel may include off-street bicycle paths (generally shared with pedestrians and other nonmotorized users) and separate, striped, four-foot bicycle lanes on streets. If a bicycle lane is combined with a lane for parking, the combined width should be 14 feet.
- (6) *Public transit access.* Where public transit service is available or planned, convenient access to transit stops shall be provided. Where transit shelters are provided, they shall be placed in highly visible locations that promote security through surveillance, and shall be well lighted.

- (7) *Motor vehicle circulation.* Motor vehicle circulation shall be designed to minimize conflicts with pedestrians and bicycles. Traffic calming features such as "queuing streets," curb extensions, traffic circles, and medians may be used to encourage slow traffic speeds.
- (8) *Thoroughfare network of the TND.* The thoroughfare network of the TND shall be connected to existing thoroughfares, unless the commissions and council determine that topography, requirements of traffic circulation or other considerations make such connections impractical. In suburban areas, TND streets should be laid out to allow extensions to future neighborhoods. Dead-end streets are prohibited unless the commissions and council determine otherwise.
- (9) *Design of thoroughfares.*
- a. *Generally.*
1. Thoroughfares consist of moving lanes, parking lanes, curbs or swales, planters, trees, street lights and sidewalks.
 2. Thoroughfare types shall be designated in the specific implementation plan.
 3. Roads, streets, and commercial streets may be modified to become avenues, boulevards and drives.
 4. Thoroughfares passing from one use area to another shall change appropriately except those designated as a "connector" in the specific implementation plan.
 5. The exact locations of trees and lights along thoroughfares may be adjusted for specific conditions, such as building entrances.
 6. Thoroughfares that exist in or near a TND at the time of rezoning and are consistent with the intent of these regulations may become an approved standard for use in that TND. An example of such a condition is commonly found in a nearby historic neighborhood.
 7. If striped, on-street parallel parking spaces shall be striped collectively, not individually.
 8. The full width of all paths, passages, rural lanes, lanes and alleys shall be designated a utility easement. Only in the absence of these thoroughfare types are utility easements permitted elsewhere.
 9. Traffic signals shall be timed on 60-second/30-second intervals, with exceptions only for unorthodox intersections with an unusually high number of turning motions as determined by the department of engineering.
 10. All thoroughfares within a TND shall terminate at other thoroughfares, forming a network. Cul-de-sacs shall be granted only when justified by site conditions.

b. *Design of thoroughfares in commercial areas.*

1. All lots shall enfront on a thoroughfare, except that a maximum of 20 percent of lots served by a real lane or alley may enfront a path or passage.
2. Thoroughfares may intersect at nonorthogonal angles as acute as 30 degrees.

c. *Design of thoroughfares in civic areas.* Thoroughfares enfronting civic buildings or civic spaces shall follow the standards of the underlying use area.

(i) *Parking requirements.* Parking areas for shared or community use should be encouraged. On-street parking shall count toward the parking requirements. Side and rear parking shall be allowed. In addition:

- (1) In the mixed-use area, any parking lot shall be located at the rear or side of a building. If located at the side, screening shall be provided as specified in subsection (n) of this section.
- (2) A parking lot or garage may not be adjacent to or opposite a street, or other thoroughfare, intersection.
- (3) In the mixed-use area, a commercial use must provide one parking space for every 500 feet of gross building area.
- (4) Parking lots or garages must provide not less than one bicycle parking space for every ten motor vehicle parking spaces.
- (5) Adjacent on-street parking may apply toward the minimum parking requirements.
- (6) In the mixed residential areas, parking may be provided on-site. One off-street parking space with unrestricted ingress and egress shall be provided for each secondary dwelling unit.
- (7) Multifamily uses must provide one parking space for every dwelling unit and 0.5 parking space for each additional bedroom.
- (8) In residential areas, garage doors which face the front of a lot shall be placed 20 feet beyond the setback of the principal structure. However, the commissions may modify this requirement for no more than 20 percent of the dwelling units if warranted by topography or other environmental conditions.
- (9) In nonresidential areas, parking lots shall be located to the rear or side of buildings. Side parking lots shall account for no more than 25 percent of parking, and shall be screened from sidewalks by a combination of low walls or fences and landscaping.
- (10) In the case of commercial or office uses which have shop or store fronts adjacent to sidewalks and thoroughfares, parking along the thoroughfare directly in front of the lot shall count toward fulfilling the parking requirements.

- (11) The required number of spaces for commercial and office uses may be further reduced by demonstrating the use of shared parking.
 - (12) If a developer desires additional customer parking for nonresidential uses, it shall be provided on grassy, pervious surfaces (of reinforced/plastic grid, reinforced block or similar material) which are adequate to sustain parked vehicles.
 - (13) Off-street parking shall be located in mid-block parking lots located behind the buildings.
 - (14) Parking shall be accessed by alley or rear lane, when available. However, there shall be no parking in an alley or lane.
 - (15) Parking shall be prohibited within 30 feet of intersections to enable public service and emergency vehicles adequate turning radii, and in mid-block sections such that emergency vehicles can park and operate within 125 feet of all buildings on the block.
 - (16) Required parking may be provided within a five-minute (one-quarter mile) radius of the site which it serves.
 - (17) The location of permitted parking along thoroughfares should be coordinated to allow access to mail boxes.
 - (18) One bicycle rack space shall be provided for every ten vehicular parking spaces.
 - (19) Parking lots greater than two double loaded parking rows should be carefully arranged to minimize breaks between pedestrian destinations.
 - (20) Shared parking.
 - a. If an office use and a retail sales and service use share parking, the parking requirement for the retail sales and service use may be reduced by 20 percent, provided that the reduction shall not exceed the minimum parking requirement for the office use.
 - b. If a residential use shares parking with a retail and service use other than lodging uses, eating and drinking establishments or entertainment uses, the parking requirement for the residential use may be reduced by 30 percent, provided that the reduction does not exceed the minimum parking requirement for the retail and service use.
 - c. If an office and a residential use share off-street (or other thoroughfare) parking, the parking requirement for the residential use may be reduced by 50 percent, provided that the reduction shall not exceed the minimum parking requirement for the office use.
- (j) *Architectural standards.* A variety of architectural features and building materials is encouraged to give each building or group of buildings a distinct character. In order to achieve harmonious design throughout the TND-1 district, architectural design guidelines for the

residential, commercial, office and civic and institutional uses shall be submitted to the commissions and used in creating the development by the developer, as set forth in section 130-1456 and in the general implementation plan checklist.

(1) *Guidelines for existing structures.*

- a. Existing structures, if determined to be historic or architecturally significant, shall be protected from demolition or encroachment by incompatible structures or landscape development.
- b. The U.S. Secretary of the Interior's Standards for Rehabilitation of Historic Properties shall be used as the criteria for renovating historic or architecturally significant structures.

(2) *Guidelines for new structures.*

- a. *Height.* New structures within a TND-1 district shall be no more than three stories for single-family residential, or five stories for commercial, multifamily residential, or mixed use.
- b. *Entries, facades, windows, doors and roofs.*
 1. The architectural features, materials, and the articulation of a facade of a building shall be continued on all sides visible from a public thoroughfare.
 2. The front facade of the principal building on any lot in a TND-1 district shall face onto a public thoroughfare.
 3. The front facade shall not be oriented to face directly toward a parking lot.
 4. Porches, pent roofs, roof overhangs, hooded front doors or other similar architectural elements shall define the front entrance to all residences.
 5. For commercial buildings, a minimum of 50 percent of the front facade on the ground floor shall be glass (transparent), including window or door openings allowing views into and out of the interior.
 6. New structures on opposite sides of the same thoroughfare should follow similar design guidelines. This provision shall not apply to buildings bordering civic uses.
 7. Building and parking placement within the neighborhood center, or town center, should be arranged to create appropriately scaled continuous building facades with as few nonpedestrian oriented breaks as possible.
 8. Building wall materials may be combined on each facade only horizontally, with the heavier generally below the lighter.
 9. Walls along thoroughfares shall be made of brick, or block and stucco, or other material to match the facade of the principal building.
 10. Windows shall use clear glass panels.

11. All openings including porches, galleries, arcades and windows, with the exception of storefronts, shall be square or vertical in proportion.
 12. Openings above the first story shall not exceed 50 percent of the total building wall area, with each facade being calculated independently.
 13. The facades on retail frontages shall be detailed as storefronts and glazed no less than 50 percent of the sidewalk-level story.
 14. Doors and windows that operate as sliders are prohibited along frontages.
 15. Pitched roofs, if provided, shall be symmetrically sloped no less than 5:12, except that porches may be attached sheds with slopes no less than 2:12.
 16. Flat roofs shall be enclosed by parapets a minimum of 42 inches high, or as required to conceal mechanical equipment to the satisfaction of the developer, board or directors and architectural control committee.
- c. *Dwelling units.* Dwelling units may be constructed above the ground floor in commercial and office buildings.
- d. *Commercial and office development.* Commercial and office development within the TND shall have an architectural design compatible with the design of residential buildings.
- (3) *Utilities.* All utilities shall be placed underground and/or shall run within alley easements within the TND.
- (k) *Guidelines for garages and secondary dwelling units.* Garages and secondary dwelling units may be placed on a single-family detached residential lot within the principal building or an accessory building provided that the secondary dwelling unit shall not exceed 800 square feet. Garage doors shall have a minimum setback of 20 feet.
- (l) *Guidelines for exterior signage.* Comprehensive sign guidelines are required for the entire TND-1 district which establishes a uniform sign theme. Such guidelines shall be submitted to the board of directors of the architectural control committee, if any, for approval. Signs shall share a common style, as to size, shape, and material. In the mixed-use area, all signs shall be wall signs or cantilever signs; provided, however, that no billboards shall be allowed within the TND. Cantilever signs shall be mounted perpendicular to the building face and shall not exceed eight square feet.
- (m) *Guidelines for lighting.*
- (1) *Lighting along thoroughfares.* Lighting along thoroughfares, including pedestrian scale lighting, shall be provided along all thoroughfares. Generally more, smaller lights, as opposed to fewer, high-intensity lights, should be used. Lights shall be installed on both sides of streets at intervals of no greater than 75 feet apart. The lighting design shall meet the minimum standards developed by the Illumination Engineering Society.

- (2) *Exterior lighting.* Exterior lighting shall be directed downward in order to reduce glare onto adjacent properties.
- (n) *Landscaping and screening standards.*
 - (1) *Overall composition and location.* Overall composition and location of landscaping shall complement the scale of the development and its surroundings. In general, larger, well-placed contiguous planting areas shall be preferred to smaller, disconnected areas. Where screening is required by these regulations, it shall be at least three feet in height, unless otherwise specified. Required screening shall be at least 50 percent opaque throughout the year. Required screening shall be satisfied by one or some combination of a decorative fence not less than 50 percent behind a continuous landscaped area, a masonry wall, or a hedge.
 - (2) *Yard.* A yard 1,000 square feet or less in size is not required to be landscaped.
 - (3) *Trees along thoroughfares.*
 - a. A minimum of one deciduous canopy tree per 40 feet of frontage, or fraction thereof, shall be required. Trees can be clustered and do not need to be evenly spaced, subject to further provisions as set forth herein.
 - b. Trees should preferably be located between the sidewalk and the curb, within the landscaped area of a boulevard, or in tree wells installed in pavement or concrete.
 - c. If placement of trees within the right-of-way will interfere with utility lines, trees may be planted within the front yard setback adjacent to the sidewalk.
 - d. Native shade trees which grow to a minimum height of 40 feet at maturity shall be planted along all streets at a maximum average spacing of 30 feet on center.
 - e. Trees shall have a minimum caliper of 2½ inches at the time of planting.
 - (4) *Parking area landscaping and screening.*
 - a. All parking and loading areas fronting public thoroughfares or sidewalks, and all parking and loading areas abutting residential districts or users, shall provide a landscaped area at least five feet wide along the public thoroughfare or sidewalk; screening at least three feet in height and not less than 50 percent opaque; and one tree for each 25 linear feet of parking lot frontage.
 - b. Parking area interior landscaping. The corners of parking lots, "islands," and all other areas not used for parking or vehicular circulation shall be landscaped. Vegetation may include turf grass, native grasses or other perennial flowering plants, vines, shrubs or trees. Such spaces may include architectural features such as benches, kiosks or bicycle parking.
 - c. For all parking lots with more than six spaces, the landscaped area shall be comprised of a minimum of 20 percent of the total parking lot area.

- d. In large parking lots containing more than 200 parking spaces, an additional landscaped area of at least 200 square feet shall be provided for each 25 parking spaces or fraction thereof, containing one native shade tree or canopy tree. The remainder shall be covered with turf grass, native grasses or other perennial flowering plants, vines or shrubs.

- (5) *Landscape materials.* Landscape materials that are used for screening shall be of a size that allows growth to the desired height and opacity within two years.

(o) *Environmental standards.* All uses in the traditional neighborhood development shall conform to all applicable federal, state and local laws and regulations regarding the environment such as laws and regulations concerning noise, air quality, water quality, radiation, and radioactivity.

(Code 1998, app. C, § 5.3504; Ord. No. 07-1548, § 5.3504, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1451. Fees.

The council may, by resolution, establish fees for the administration of this chapter.

(Code 1998, app. C, § 5.3505; Ord. No. 07-1548, § 5.3505, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1452. Other code and ordinances applicability.

- (a) This chapter and chapter 125 apply to a TND-1 district unless:

- (1) These regulations expressly provide otherwise; and
- (2) Only as long as such other codes and ordinances do not impede the accomplishment of the stated purpose of the TND-1 district as described in these regulations.

- (b) The requirements of this article supersede any inconsistent provision of any other codes and ordinances.

- (c) A TND-1 district is a separate and distinct zoning district which shall allow the permitted uses as provided in the general implementation plan, notwithstanding any other zoning classification provided in other codes and ordinances.

(Code 1998, app. C, § 5.3506; Ord. No. 07-1548, § 5.3506, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1453. Unified control.

All land included in any TND-1 district shall be under the complete, unified and legal control of the applicant, whether the applicant be an individual, partnership, limited liability company, corporation and/or other person. Upon request by the parish, the applicant shall furnish the parish sufficient evidence to the satisfaction of the parish that the applicant is in the complete, legal and unified control of the entire area of the proposed traditional neighborhood development. Upon request by the parish, the applicant shall provide the parish all agreements,

contracts, guarantees and other necessary documents and information that may be required by the parish to assure the parish that the development project may be lawfully completed according to the plans sought to be approved.

(Code 1998, app. C, § 5.3507; Ord. No. 07-1548, § 5.3507, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1454. Application procedure and approval process; general.

(a) Prior to the issuance of any permits for development of a traditional neighborhood development, the following three steps shall be completed according to the procedures outlined in this section:

- (1) Pre-application conference;
- (2) Approval of a general implementation plan by the commissions and the council for the entire traditional neighborhood development;
- (3) Approval of a specific implementation plan by the planning commission; and
- (4) Approval of a final plat by the planning commission.

(b) If the development includes the division of property into lots, the specific implementation plan shall be approved concurrently with a preliminary plat.

(c) Subdivisions of property within a TND-1 district after general implementation plan approval, but prior to specific implementation plan approval, shall meet the zoning requirements of the most restrictive zoning district allowed for each designated use for that portion of the general implementation plan. These subdivisions shall require planning commission approval and will not allow development or building permit approval until a specific implementation plan is approved.

(d) Where the development is to be developed in phases, the general implementation plan that is presented for review and approval shall be the general implementation plan for the entire development and shall identify the proposed phasing. Each phase of a development shall have an individual specific implementation plan.

(e) Independent consultants may be retained by the commissions and/or the council to seek assistance to properly review the general implementation plans and specific implementation plans. The reasonable cost of such review shall be reimbursed by the applicant. The applicant shall be advised of the estimated fees and costs and may withdraw their request from consideration at that time. All required fees must be paid regardless of whether the proposed plans are approved, amended, rejected or withdrawn.

(Code 1998, app. C, § 5.3508; Ord. No. 07-1548, § 5.3508, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1455. Pre-application conference.

(a) The pre-application conference shall be held with the director of planning and development or the director of planning and development's designee for the purpose of exchanging information, providing guidance to the applicant and determining the eligibility of the request for consideration as a traditional neighborhood development.

(b) A request for a pre-application conference shall be made to the director of planning and development. As part of the pre-application conference, the applicant shall submit five copies of a proposed general implementation plan, at least ten days in advance of the pre-application conference, which shows the property location, boundaries, significant natural features, thoroughfare network (vehicular and pedestrian circulation), land uses for the entire site, and a statement indicating financial responsibility sufficient to complete the public improvements shown on the conceptual plan.

(c) The director of planning and development or the director of planning and development's designee shall advise the applicant of the proposed general implementation plan for the traditional neighborhood development with the intent and objectives of a traditional neighborhood development, whether it appears to qualify under the minimum requirements of sections 130-1447, 130-1448, and 139-1450, and whether the general plan appears to be substantially consistent with the parish master plan and the parish land use plan. No formal action will be taken at a pre-application conference, nor will statements made at the pre-application conference be considered legally binding commitments.

(Code 1998, app. C, § 5.3509; Ord. No. 07-1548, § 5.3509, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1456. General implementation plan.

Following the pre-application conference, the applicant shall submit a completed application (general implementation plan) to the director of planning and development. When the director of planning and development determines the application to be complete, the application shall be sent to the commission for a public workshop session if deemed necessary by the director of planning and development, followed at a later date by a public hearing. The general implementation plan shall contain all information required in the general implementation plan checklist, including architectural design guidelines as described in section 139-1450(j).

- (1) *Procedures for general implementation plan approval.* All applications for traditional neighborhood developments shall be processed in the following manner:
 - a. The general implementation plan shall follow the procedures for approval of planning items before the planning commission and zoning cases before the zoning commission and the council which are not in conflict with this section.
 - b. At least 14 days prior to review and determination by the commissions, all abutting property owners shall be notified by regular mail of the traditional

neighborhood development and given an opportunity to submit written comments. Notice shall also be published in the parish's official journal at least ten days prior to the review.

- c. Following required public notice, the commissions shall hold a public hearing on the proposed traditional neighborhood development. Following the hearing, the commissions shall review traditional neighborhood development request and general implementation plan and any comments submitted by any adjoining property owners and shall make a recommendation to the council to approve, approve with conditions, or deny the general implementation plan. In its recommendation to the council, the commissions shall include the reasons for such recommendation.

(2) *Approval of a general implementation plan.*

- a. After receiving the recommendation of the commissions, the council shall review the application, including the general implementation plan, the record of the commissions' proceedings and the recommendation, and shall approve, approve with conditions, or deny the application in accordance with the standards and purposes set forth in sections 130-1447, 130-1448, and 130-1450. An approval with conditions shall not be considered final (and the rezoning is not final until such time) until the applicant submits a written acceptance of the conditions and all necessary revisions to the general implementation plan to the council.
- b. If approved by the council, the general implementation plan and all other information and material formally submitted with the application shall be adopted as an amendment to these development regulations and shall become the standards of development for the traditional neighborhood development. All future development shall conform to the standards adopted for the traditional neighborhood development regardless of changes in ownership.
- c. Upon approval of the general implementation plan, the property shall be designated "TND-1 Planned" on the official zoning map.

(Code 1998, app. C, § 5.3510; Ord. No. 07-1548, § 5.3510, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1457. Specific implementation plan and final plat.

(a) *Submittal.* Within 36 months of the council's approval of the general implementation plan, and except as permitted under general implementation plan approval, the applicant shall submit a specific implementation plan to the director of planning and development prior to commencing construction on property designated TND-1 planned. The applicant may request an extension of up to 12 additional months from the council if the specific implementation plan has not been approved. If the applicant fails to submit a specific implementation plan within the time allowed, then the general implementation plan (not the TND-1 concept designation)

shall be invalid. If the traditional neighborhood development is to be developed in phases, the applicant must submit a specific implementation plan for the first phase within 36 months of the council's approval of the general implementation plan, and within consecutive 12-month periods thereafter for each subsequent phase. If the applicant fails to submit a specific implementation plan, then the general implementation plan incorporating all phases not already approved as a specific implementation plan shall be invalid. The specific implementation plan shall contain all information required in the specific implementation plan checklist.

(b) *Certification.* The following design professionals shall certify direct involvement in the preparation of the specific implementation plan. A final plat shall be certified by a:

- (1) Architect or civil engineer; and
- (2) Landscape architect.

(c) *Final plat.*

- (1) A final plat shall be submitted with the specific implementation plan, drawn in ink to a scale of one inch equals 100 feet in one or more sheets whose dimensions are 24 inches by 36 inches, and contain the information required by chapter 125.
- (2) The title of the final plat shall read "Final Plat of [Name of Traditional Neighborhood Development], [section, Township, and Range]".
- (3) Where the traditional neighborhood development is of unusual size or shape, the commission may permit a variation in the scale or size of the final plat.

(d) *Landscape plan.* A landscape plan is required for all traditional neighborhood development specific implementation plans.

(e) *Substantial compliance of specific implementation plan.* The specific implementation plan shall be in substantial compliance with the general implementation plan. It is not intended that the traditional neighborhood development so approved shall be inflexibly applied, but rather, the traditional neighborhood development shall be in conformance with the general implementation plan subject to modification due to changed economic, social, market or demographic conditions. The burden shall be upon the applicant to show the planning commission good cause for major change (as defined below) between the general implementation plan and the specific implementation plan as submitted for final approval. If the specific implementation plan, as submitted, contains substantial variations from the general implementation plan, or major changes as defined in section 130-1460, the planning commission may, after a meeting with the applicant, within five days of such meeting, advise the applicant in writing why said variations are not in the public interest, and deny the proposed variations. Nothing contained herein shall prohibit an applicant from requesting a change to an approved traditional neighborhood development as set forth in section 130-1460.

(f) *Procedure for approval.* The specific implementation plan and final plat shall follow the procedure for planning items going to the planning commission with a public hearing. Procedure for approval of a specific implementation plan and final plat for a traditional neighborhood development shall be processed in the following manner:

- (1) The department of engineering shall review and approve the construction plans for any public improvements shown on the specific implementation plan prior to any construction. Improvements may be completed or bonded for final approval in the same manner as required under chapter 125.
- (2) The planning commission shall issue a notice of public hearing by posting the affected site in a conspicuous place at least ten days prior to the hearing date. A record of information and materials presented at the public hearing shall be kept and maintained by the commission as part of the applicant's permanent record.
- (3) Following required public notice, the planning commission shall hold a public hearing on the proposed specific implementation plan and final plat. Following the hearing, the planning commission shall review the specific implementation plan and final plat request and any comments submitted by any adjoining property owners and shall approve, approve with conditions, or deny the request.
- (4) Upon such approval and subsequent amendment of the specific implementation plan, construction may proceed for public and/or approved private thoroughfares, utility installations, common open space, recreational facilities, governmental structures, and similar uses provided that a preliminary subdivision plat has also been approved for the development in accordance with this Unified Development Code.
- (5) Any other proposed modifications, including yard variances and/or setback waivers, affecting the traditional neighborhood development's legal description shall require a review and approval of the traditional neighborhood development specific implementation plan and/or the final plat by the commission's staff. The burden shall be upon the applicant to demonstrate to the planning commission justification for any variation from the approved specific implementation plan.
- (6) Upon approval of a specific implementation plan and the final plat, the property shall be redesignated from "TND-1 Planned" to "TND-1" on the official zoning map. Once land is redesignated "TND-1" on the official zoning map, the provisions of these regulations are mandatory.

(Code 1998, app. C, § 5.3511; Ord. No. 07-1548, § 5.3511, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1458. Consolidated general implementation plan and specific implementation plan.

The applicant may file a general implementation plan, specific implementation plan and final plat simultaneously with the specific implementation plan conforming in all respects to the requirements of the general implementation plan.

(Code 1998, app. C, § 5.3512; Ord. No. 07-1548, § 5.3512, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1459. Additional regulations for phased developments.

A traditional neighborhood development may be developed in phases or stages in accordance with the following requirements:

- (1) *Boundaries.* The boundaries of all proposed traditional neighborhood development phases shall be shown on the general implementation plan.
- (2) *Data.* All data required for the project, as a whole, shall be given for each phase shown on the general implementation plan.
- (3) *Improvements.* The phasing plan shall be consistent with the traffic circulation, drainage, common open space, and utilities plans for the entire traditional neighborhood development. Traditional neighborhood developments that are to be developed in phases or stages shall be required to provide public improvements, common open space, and other amenities attributed to such phase at the same time as or before the construction of principal buildings and structures associated with individual phases. The nature, type, and amount of public improvements, common open space, and other project amenities provided during an individual phase of the project shall be commensurate with and proportionate to the overall development of the phase.

(Code 1998, app. C, § 5.3513; Ord. No. 07-1548, § 5.3513, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1460. Changes to an approved specific implementation plan.

(a) *Types of changes.* There are three types of changes: Major use change, major site change, and minor change. A major use change and a major site change are collectively referred to herein as a "major change." Any measurement used to establish a "percentage of change" shall utilize the original specific implementation plan as the baseline.

(b) *Major use change.* A major use change is one that will have significant impacts on the approved uses within the traditional neighborhood development, or on the site surrounding the traditional neighborhood development. Major use changes include, but are not limited to:

- (1) An increase in the development site area of more than five percent;
- (2) An increase in density of any permitted land use, including the number of housing units, by more than five percent;
- (3) In residential areas, a change in the mix of single-dwelling and multi-dwelling structures by more than five percent;
- (4) An increase in the amount of land in nonresidential uses by more than five percent;
- (5) Involve any land use not specified on the approved general implementation plan or the list of permitted uses;
- (6) Substantial and material reduction in the amenities proffered by the applicant; and/or

- (7) Material changes in the permitted land use authorized in the traditional neighborhood development which in the opinion of the zoning officer will have a material adverse change with the traditional neighborhood development or on the site surrounding the traditional neighborhood development.

(c) *Major site change.* A major site change ("major site change") is a major change (other than a major use change) that will have significant impact on the site and layout of the development in the traditional neighborhood development which is not a major use change, or on the site surrounding the traditional neighborhood development. Major site changes include, but are not limited to:

- (1) Changes that vary the individual lot area requirement as submitted in the general implementation plan by more than ten percent;
- (2) Changes in nonresidential floor areas by more than five percent of the total floor area within a component of the traditional neighborhood development;
- (3) Deleting or changing the purpose of flood hazard servitudes or easements;
- (4) Changes to the thoroughfare network which result in a significant adverse change in the amount or location of thoroughfares and shared driveways, common parking areas, circulation patterns, and access to the traditional neighborhood development;
- (5) Changes in the allocation of prescribed land uses such that it would result in an increase in the number of vehicle trips generated in excess of ten percent;
- (6) Changes which are material in the typical sections of thoroughfare design;
- (7) Changes in the designation of thoroughfares between private and public; and/or
- (8) Material changes in the approved overall layout of the site plan and/or matters related to onsite and/or offsite infrastructure requirements authorized in the traditional neighborhood development which in the opinion of the zoning officer will have a material adverse change with the traditional neighborhood development or on the site surrounding the traditional neighborhood development.

(d) *Minor change.* A minor change ("minor change") is a change that will not alter the basic design and character of the traditional neighborhood development, nor any specified conditions imposed as part of the original approval. Minor changes include, but are not limited to:

- (1) Changes in location of the neighborhood center area, a mixed residential area, a neighborhood edge area, a civic area, green area, common open space or other designated areas, if the director of planning and development determines that:
 - a. The basic layout of the TND-1 district remains the same; and
 - b. The TND-1 district functions as well as before the revision;

- (2) Changes in size of a neighborhood center area, a mixed residential area, a neighborhood edge area, a civic area, green area, common open space or other designated areas, if the size is increased or decreased by not more than ten percent, and the director of planning and development determines that:
 - a. The basic layout of the TND-1 district remains the same; and
 - b. The district functions as well as before the revision;
- (3) Changes in the general location of a major civic use, if the director of planning and development determines that:
 - a. The revised location is appropriate; and
 - b. The thoroughfare network, the infrastructure, and the overall land use mix are not adversely affected. The director of planning and development may not approve a revision that includes the addition of a major civic use within 500 feet of an area that is part of a final plat in a mixed residential area or neighborhood edge area;
- (4) Changes in the location of a commercial use in a mixed residential area, if the director of planning and development determines that the revised location is appropriate;
- (5) Change in the layout of a thoroughfare network, if the director of planning and development determines that:
 - a. The basic layout remains the same; and
 - b. The revised layout functions as well as the previous layout;
- (6) Change in the location or size of a private open space, if the overall amount of private open space acreage does not decrease by more than ten percent, and the director of planning and development determines that the quality and functionality of the revised private open space is the same or better. The director of planning and development may not approve a revision that includes the deletion of a private open space within 500 feet of an area that is part of a final plat in a mixed residential area or neighborhood edge area;
- (7) Change in the location or size of a public open space, if the overall amount of public open space acreage does not decrease by more than ten percent, and the director of planning and development determines that the quality and functionality of the revised public open space is the same or better. The director of planning and development may not approve a revision that includes the deletion of a public open space within 500 feet of an area that is part of a final plat in a mixed residential area or neighborhood edge area;
- (8) Change in the location or description of a major private open space improvement, if the director of planning and development determines that the revised improvement is as beneficial to the residents as the previous improvement;

- (9) Change in a construction phasing plan for major private open space improvements if the change extends a deadline by not more than 24 months;
 - (10) Change in the location or type of a drainage or water quality control, if the director of planning and development determines that:
 - a. The basic layout of the TND-1 district remains the same; and
 - b. The revised location or type of control functions as well as the previous location or type of control;
 - (11) Change in the location of a 100-year floodplain, if the director of planning and development determines that the revision more accurately describes the location of the floodplain;
 - (12) Change in the locations of major utility facilities and easements, if the director of planning and development determines that the revised locations are more appropriate or functional;
 - (13) Change in a preliminary architectural standard, if the director of planning and development determines that the revised standard is consistent with the architectural character of the TND-1 district;
 - (14) Reduction of the size of any building;
 - (15) Movement of buildings and/or signs by no more than ten feet, but in no event in required buffers and/or setbacks;
 - (16) Landscaping approved in the specific implementation plan that is replaced by similar landscaping to an equal or greater extent;
 - (17) Changes in nonresidential floor plans, of up to five percent of the total floor area, which do not alter the character of the use or increase the amount of required parking;
 - (18) Internal rearrangement of a parking lot that does not affect the number of parking spaces or alter access locations or design;
 - (19) Changes required or requested by the parish and other state or federal authorities in order to conform to other laws or regulations;
 - (20) On balance, compared to the approved traditional neighborhood development, the change will equally or better meet the purposes and approval criteria set forth in sections 130-1447, 130-1448, and 130-1450 in the opinion of the director of planning and development; and/or
 - (21) Any adverse impacts caused by the change are mitigated to the satisfaction of the director of planning and development.
- (e) *Permitted uses.* Any changes to the permitted uses within the TND-1 district must be approved by the council.

(f) *Review procedures.* Requests for changes to an approved traditional neighborhood development are processed as follows:

(1) *Major use changes.*

- a. *Application for major use changes.* The owner of record of the property shall file an application with the director of planning and development, upon a form prescribed therefore, which shall contain the reason for the classification of the change as a major use change, as described in section 130-1460(b), and the resulting impacts from the major use change on the development.
- b. *Public hearing.* Upon receipt and verification of the completion of the application by the director of planning and development, the director of planning and development shall forward the application to the commissions. The commissions shall issue a notice of public hearing by posting the affected site in a conspicuous place at least ten days prior to the hearing date. A record of information and materials presented at the public hearing shall be kept and maintained by the commissions as part of the applicant's permanent record.
- c. *Findings and recommendations.* The commissions shall make their findings on the major use change based on the information set forth in the application and the approval criteria set forth in section 130-1460(b), and submit recommendations to the council within 15 days from the hearing date. The commissions shall forward a copy of their findings and recommendations to the applicant.
- d. *Adoption of major use change.* The council shall adopt or reject the proposed major use change within 15 days from receipt of the recommendations from the commissions. The council shall submit reasons for its decision to the applicant.

(2) *Major site changes.*

- a. *Application for major site changes.* The owner of record of the property shall file an application with the director of planning and development, upon a form prescribed therefore, which shall contain the reason for the classification of the change as a major site change, as described in section 130-1460(c), and the resulting impacts from the major site change on the development.
- b. *Public hearing.* Upon receipt and verification of the completion of the application by the director of planning and development, the director of planning and development shall forward the application to the planning commission. The planning commission shall issue a notice of public hearing by posting the affected site in a conspicuous place at least ten days prior to the hearing date. A record of information and materials presented at the public hearing shall be kept and maintained by the planning commission as part of the applicant's permanent record.

- c. *Findings and recommendations.* The planning commission shall make its findings on the major site change based on the information set forth in the application and the approval criteria set forth in section 130-1460(c). The planning commission shall forward a copy of its findings and recommendations to the applicant.
- d. *Appeal.* The applicant may appeal the decision by the planning commission pursuant to section 130-1466.

(3) *Minor changes.*

- a. *Application.* The owner of record of the property shall file an application with the director of planning and development, upon a form prescribed therefore, which shall contain the reason for the classification of the change as a minor change, as described in section 130-1460(d), and the resulting immaterial impacts from the change on the development, if any.
- b. *Findings and recommendations.* Upon receipt and verification of the completion of the application by the director of planning and development, the director of planning and development shall make its findings based on the information set forth in the application and the approval criteria set forth in section 130-1460(d), and notify the applicant of its decision. If the director of planning and development determines the change to be a minor change, the director of planning and development's decision shall be final and no appeal shall be available.

- (4) *Appeal of classification as major use change or major site change.* If the director of planning and development determines the change to be a major use change or a major site change, the applicant may appeal the decision by the director of planning and development pursuant to section 130-1466.

(g) *Subdivision of land.* If the TND-1 district involves the subdivision of land as defined in chapter 125, the applicant shall submit all required land division documents in accordance with the requirements of chapter 125. If there is a conflict between the design standards of the subdivision ordinance and the design guidelines of these regulations, the provisions of these regulations shall apply. It being understood that the size and configuration of lots within a TND-1 district may otherwise be disallowed under the parish's subdivision regulations (chapter 125), but encouraged and permitted within a TND-1 district.

(Code 1998, app. C, § 5.3514; Ord. No. 07-1548, § 5.3514, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1461. Maintaining a specific implementation plan.

(a) *Ownership and maintenance of public space.* Provision shall be made for the ownership and maintenance of public thoroughfares, squares, parks, open space, and other public spaces in a TND-1 district by dedication to the parish and/or associations.

(b) *Construction.* Construction may take place only within such portions of a traditional neighborhood development for which a current specific implementation plan is in effect.

(c) *Development agreement.* All "TND" zoning granted on the basis of specific implementation plan approval shall be subject to a parish/applicant agreement prior to or contemporaneous with final plat approval. Prior to final approval, the applicant shall be required to enter into a parish/applicant agreement with the parish. This agreement is designed and intended to reflect the agreement of the parish and the applicant as to the phasing of construction to ensure the timely and adequate provisions of public works facilities and public type improvements. This parish/applicant agreement is also intended to ensure balanced intensity of development to avoid overloading existing public facilities during the construction phase. This parish/applicant agreement will be individually negotiated for each project, but should address the following issues:

- (1) Any agreement on cost sharing for the installation or oversizing of major utility systems, lines or facilities.
- (2) Any agreement on cost sharing for the installation of interior or perimeter roadways or thoroughfare network.
- (3) Any agreement as to a mandatory construction or dedication schedule for common open space area or improvements, school sites, landscaping or greenbelt development or other comparable items to be dedicated or constructed for each acre of property within the traditional neighborhood development released for construction by specific implementation plan approval. This requirement is intended to allow the parish to ensure that pre-planned public type facilities, improvements or amenities are installed concurrently with other development on the basis of a negotiated formula.
- (4) Any agreement as to the establishment of a maximum residential density or commercial intensity of use during the construction process. This requirement is intended to allow the parish to establish a maximum development intensity that cannot be exceeded while each phase of the project is being completed. Under this provision, the parish may establish a maximum overall density for each phase of the project to be applicable only during the construction phase of the traditional neighborhood development. This restriction would require concurrent development of lower density or intensity of use activities with higher density or intensity of use activities.
- (5) Any agreement by the applicant or association to maintain all common open space at no cost to the parish.

(d) *Development schedule.* The development schedule shall contain the following information:

- (1) The order of construction of the proposed stages delineated in the specific implementation plan.
- (2) The proposed date for the beginning of construction of each stage.
- (3) The proposed date for the completion of construction of each stage.

- (4) The proposed schedule for the construction and improvement of common area within each stage including any accessory buildings.

(e) *Enforcement of the development schedule.*

- (1) The construction and provision of all common open spaces and public facilities and infrastructure which are shown on the specific implementation plan must proceed at no slower a rate than the construction of dwelling units or other structures of a commercial nature. The planning commission may, at any time, compare the actual development accomplished with the approved development schedule. If the planning commission finds that the rate of construction of dwelling units or other commercial structures is substantially greater than the rate at which common open spaces and public facilities and infrastructure have been constructed and provided, then either or both of the following actions may be taken:
 - a. The planning commission shall cease to approve any additional specific implementation plans for subsequent phases; and/or
 - b. The building official shall discontinue issuance of building permits.
- (2) In any instance where the above actions are taken, the planning commission shall gain assurance that the relationship between the construction of dwellings or other structures of a commercial nature and the provision of common open spaces and public facilities and infrastructure are brought into adequate balance prior to the continuance of construction.

(f) *Permits.* No building permit for a structure other than a temporary contractor's office or temporary storage building shall be issued for a lot or parcel within an approved traditional neighborhood development prior to a determination by the fire marshal or designee that adequate fire protection and access for construction needs exists. No occupancy permit for a structure other than a temporary contractor's office or other approved temporary building shall be issued for a structure on a lot or parcel within an approved traditional neighborhood development prior to final inspection and approval of all required improvements which will serve such lot or parcel to the satisfaction of the director of the department of public works and the building official.

(Code 1998, app. C, § 5.3515; Ord. No. 07-1548, § 5.3515, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1462. Expiration and lapse of specific implementation plans.

Specific implementation plan approval shall expire three years from the date of planning commission approval of a specific implementation plan. The applicant may request an extension from the planning commission for not more than one year if the project is not complete after three years. Nothing herein shall be construed to limit the time limitations for phased developments as set forth in section 130-1457(a).

(Code 1998, app. C, § 5.3516; Ord. No. 07-1548, § 5.3516, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1463. The approved final development plan.

Development restrictions and/or conditions, as required by the commissions and/or the council, shall be recorded by the applicant with the clerk of court of the parish within 15 days of the date of the final approval of the general implementation plan and/or the specific implementation plan by the commissions or council, as the case may be. Certified copies of these documents shall also be filed with the office of the commissions. The applicant shall record development restrictions and other required documents, which pertain to a subdivision within the approved specific implementation plan, with the clerk of court of the parish within 15 days of the signing of the final plat, as provided in this section.

(Code 1998, app. C, § 5.3517; Ord. No. 07-1548, § 5.3517, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1464. Filing and distribution of specific implementation plan final plat.

The applicant shall have a total of ten blackline prints of the approved final plat to be disbursed as required by the commission's staff.

(Code 1998, app. C, § 5.3518; Ord. No. 07-1548, § 5.3518, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1465. Violations.

Any violation of the general implementation plan and/or specific implementation plan or any other phase or plan adopted as part of the amendment to this Unified Development Code shall constitute a violation of these regulations. Any person or legal entity violating any provision of these regulations, or who shall violate or fail to comply with any order made hereunder; or who shall continue to work upon any structure after having received written notice from the director of planning and development to cease work, shall be guilty of a misdemeanor and punishable by a fine not to exceed \$500.00 per violation. Each day such violation shall be permitted to exist shall constitute a separate offense. Notice of violation shall be sufficient if directed to such owner, the agent of the owner, or the contractor and/or left at his known place of residence or place of business.

(Code 1998, app. C, § 5.3519; Ord. No. 07-1548, § 5.3519, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1466. Appeal.

An applicant may appeal the findings and recommendations of the commissions or director of planning and development, as applicable, by filing an objection in writing to the council within five days of receipt of the commissions' or director of planning and development's recommendations. The council shall grant or deny the appeal, and the council's decision shall be final. If the council grants the appeal, the council shall submit a notice to the commissions or director of planning and development stating reasons for its grant of the appeal.

(Code 1998, app. C, § 5.3520; Ord. No. 07-1548, § 5.3520, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1467. Rezoning of property designated "TND-1 Planned" District to prior zoning district.

The director of planning and development shall request that the council initiate the rezoning of property designated "TND-1 Planned," only as to that portion of the property which has not been developed, if:

- (1) Upon final review, an application for approval of a specific implementation plan for a portion of the property has been denied;
- (2) A specific implementation plan was not timely submitted in accordance with the provisions of section 130-1457; or
- (3) An approved specific implementation plan expires or lapses, pursuant to the provisions of section 130-1462.

(Code 1998, app. C, § 5.3521; Ord. No. 07-1548, § 5.3521, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1468. Relation to zoning districts.

An approved traditional neighborhood development shall be considered to be a separate zoning district in which the development plan, as approved, establishes the restrictions and regulations according to which development shall occur, and may depart from the normal procedures, standards, and other requirements of the other sections of the zoning ordinance and subdivision regulations to the extent provided herein. Upon approval of the general implementation plan, the official zoning map will be changed to indicate the area as "TND-1 Planned," or if final approval is granted, then as "TND-1." Every approval of a traditional neighborhood development shall be considered an amendment to the zoning ordinance.

(Code 1998, app. C, § 5.3522; Ord. No. 07-1548, § 5.3522, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1469. Comprehensive rezoning and subsequent designation procedure.

(a) Any property designated as traditional neighborhood development as part of the comprehensive rezoning process shall be designated as "TND-1 Concept," until said property has undergone the application procedure and approval process as outlined in section 130-1466, except that in such cases, the commission decision relative to the general implementation plan will be considered the final determination, subject to appeal to the parish council in accordance with section 130-1466.

(b) Other than through the comprehensive rezoning process set forth in subsection (a) of this section, a parcel of property may only be designated as TND-1 Concept when, within one year following the effective date of an ordinance establishing the comprehensive rezoning of a specific area under this Unified Development Code, the process of amending or changing the designation of the property to TND-1 Concept has been initiated in accordance with section 130-54 of these regulations. The review of any amendment or change shall be conducted in accordance with article II, division 2 of these regulations.

Table 1: Street Design Guidelines in a TND District
(Subject to Modification by the Commissions)

	<i>Collector or Avenue</i>	<i>Subcollector or Drive</i>	<i>Local Street or Road</i>	<i>Alley</i>
Average daily trips	750 or more	250-750	Less than 250	Not applicable
Right-of-way	76-88 feet	58-72 feet	35-50 feet	15-30 feet
Auto travel lanes	Two or three 12-foot lanes	Two 10 foot lanes	Two 10-foot lanes, or one 14 foot (queuing) lane	Two 8-foot lanes for two-way traf-fic, or one 12-foot lane for yield traffic
Bicycle lanes	Two 6-foot lanes combined with parking lanes	4-foot lanes with no parking, or 6 foot lanes com-bined with park-ing lanes	None	None
Parking	Both sides, 8 feet	None, one, or both sides, 8 feet	None or one both side, 8 feet	None (access to individual drives & garages out-side right-of-way)
Curb and gutter	Required	Required	Not required	Not required
Planting Strips	Minimum 6 feet	Minimum 6 feet	Minimum 3 feet	None
Sidewalks	Both sides, 5 feet minimum	Both sides, 3-5 feet	Both sides, 3-5 feet	None

(Code 1998, app. C, § 5.3523; Ord. No. 07-1548, § 5.3523, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Secs. 130-1470—130-1486. Reserved.

DIVISION 46. TND-2 TRADITIONAL NEIGHBORHOOD DEVELOPMENT
ZONING DISTRICT

Sec. 130-1487. Purpose.

The purpose of a TND-2 traditional neighborhood development zoning district ("TND-2 district") is to encourage mixed-use, compact development and facilitate the efficient use of services. A TND-2 district diversifies and integrates land uses within close proximity to each other, and it provides for the daily recreational and shopping needs of the residents. A TND-2 district is a sustainable, long-term community that provides economic opportunity and envi-

ronmental and social equity for the residents. This division's intent is to encourage its use by providing incentives, rather than prohibiting conventional development. Traditional neighborhood development:

- (1) Is designed for the human scale;
 - (2) Provides a mix of uses, including residential, commercial, civic, and open space uses in close proximity to one another within the neighborhood;
 - (3) Provides a variety of housing types, and sizes to accommodate households of all ages, sizes, and incomes;
 - (4) Includes residences, shops, workplaces and civic buildings interwoven within the neighborhood, all within close proximity;
 - (5) Incorporates a system of relatively narrow, interconnected streets, roads, drives, and other thoroughfare types with sidewalks and bikeways, that offer multiple routes for motorists, pedestrians, and bicyclists and provides for the connections of those thoroughfare types to existing and future developments;
 - (6) Includes compatibility of buildings and other improvements as determined by their arrangement, bulk, form, character and landscaping to establish a livable, harmonious and diverse environment;
 - (7) Incorporates environmental features into the design;
 - (8) Coordinates transportation systems with a hierarchy of appropriately designed facilities for pedestrians, bicycles, and vehicles;
 - (9) Provides well-configured squares, plazas, greens, landscaped streets, preserves, greenbelts and parks woven into the pattern of the neighborhood;
 - (10) Incorporates architecture, landscape, lighting and signage standards integrated with the zoning provisions that respond to the unique character of the region; and
 - (11) Provides an increased range of options than are allowed by conventional zoning.
- (Code 1998, app. C, § 5.3501A; Ord. No. 07-1548, § 5.3501A, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1488. Overview.

(a) A TND-2 district consists of an area of not less than 50 contiguous acres. In this article, property is considered contiguous even if separated by a public roadway.

(b) A TND-2 district is divided into at least two types of areas, and each type of area has different land use and site development regulations. A TND-2 district must have one neighborhood center area (also sometimes referred to as town center or village center) and at least one mixed residential area. A TND-2 district may also have a neighborhood edge area, civic spaces and green spaces.

(c) A "neighborhood center area" serves as the focal point of a TND-2 district, containing retail, commercial, civic, and/or public services to meet the daily needs of community residents. A "neighborhood center" is pedestrian-oriented, and it is designed to encourage pedestrian movement. A square may be located in a neighborhood center area. Retail and commercial uses should generally be located adjacent to a square. The neighborhood center uses include retail shops, restaurants, offices, banks, hotels, post office, governmental offices, churches, community centers, and attached residential dwellings.

(d) A "mixed residential area" includes a variety of residential land uses, including single-family residential, duplex, townhome, and multifamily. Residential scale retail and commercial uses are permitted within a mixed residential area with strict architectural and land use controls. Retail and commercial uses in a mixed residential area are required to blend into the residential character of the neighborhood. A mixed residential area includes open spaces including small squares, pocket parks, community parks, and greenbelts. A mixed residential area promotes pedestrian activity through well designed and varied streetscapes that also provide for the safe and efficient movement of vehicular traffic. Mixed residential area uses include single-family homes, condominiums, townhomes, apartments, offices, restaurants, neighborhood scale retail, and civic uses. Mixed residential areas often utilize alleys.

(e) A "neighborhood edge area" is the least dense portion of a TND-2 district, with larger lots and greater setbacks than the rest of the neighborhood. Alleys are not required, and direct vehicular access to streets is permitted. Only single-family residential dwellings (attached or detached) are permitted. A neighborhood edge area is appropriate along the perimeter of the neighborhood. A portion of a TND-2 district that adjoins existing or platted conventional low density housing must be designated as a neighborhood edge area.

(f) Large office, low-impact manufacturing uses and industrial uses that are not appropriate for a neighborhood center area or a mixed residential area but which serve the local residents may be located in a specified district.

(g) Civic uses that are oriented to the general public are permitted in a neighborhood center area and a mixed residential area. These uses are essential components of the social and physical fabric of a TND-2 district. Civic space shall be integrated in residential and commercial areas in the TND. TND-2 districts shall incorporate civic common open spaces to be maintained by the municipality and/or private open spaces to be maintained by the community or landowners within the TND-2 district. Special attention should be paid to the location of government offices, libraries, museums, schools, churches, and other prominent public buildings to create focal points and landmarks for the community. The locations of these major public civic uses are designated on the development plan at the time of commission approval of a particular development.

(h) Open space is a significant part of a TND-2 district design. Formal and informal open spaces are required. These serve as areas for community gatherings, landmarks, and as organizing elements for the neighborhood. Open space includes squares, plazas, greens, preserves, parks, and greenbelts.

(i) A TND-2 district is designed to be pedestrian oriented. To accomplish this goal, pattern and design of the various thoroughfare Types are used to reduce vehicle travel speeds and encourage pedestrian activity. An interconnected network of streets, and other thoroughfare types, is required. Streets may be smaller than in conventional development and more varied in size and form to control traffic and give character to the neighborhood.

(j) Thoroughfares and utilities in TND-2 districts shall connect to existing thoroughfares and utilities, or dead-end as stubs intended for connection to future thoroughfares, unless otherwise prohibited by topography, environmental constraints or other considerations, as further described in section 130-1450(h).

(Code 1998, app. C, § 5.3502A; Ord. No. 07-1548, § 5.3502A, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1489. TND-2 district definitions.

For the purposes of this section only, the following definitions shall be observed and applied, except when the context clearly indicates otherwise. Words used in the present tense shall include the future tense. Words used in the singular form shall include the plural form. Words used in the plural form shall include the singular.

Abutting means having a border with, or being separated from such common border by, an alley or easement.

Access means an entry to or exit from a property, lot, building, parking lot, or other area within the TND-2 district.

Accessory building means a building which is:

- (1) Subordinate to and serves a principal structure or principal use;
- (2) Is subordinate in area, extent and purpose to the principal structure or principal use;
- (3) Is located on the same lot as the principal structure or principal use; and
- (4) Is customarily incidental to the principal structure or principal use. Any portion of a principal building which is devoted to an accessory use is not an accessory building.

Accessory use means a use which:

- (1) Is subordinate to and serves a principal structure or principal use;
- (2) Is subordinate in area, extent, and purpose to the principal structure or principal use served;
- (3) Is located on the same lot as the principal structure or principal use served except as otherwise expressly authorized by provisions of these regulations; and
- (4) Is customarily incidental to the principal structure or principal use.

Acre means 43,560 square feet.

Alley means a public or private way permanently reserved as a secondary means of access to abutting property. (See standards in table 1.)

Appeal means a means for obtaining review of a decision, determination, order, or failure to act under the terms of these regulations.

Application means an application filed by a developer/applicant for a TND district zoning.

Association or associations means the association or associations of all the owners of property in the TND-2 district charged with the ownership and maintenance of common open space and associated facilities and operated pursuant to articles of incorporation and bylaws. Initially, the developer shall maintain control of the association until such time as two-thirds of lots in the TND have been sold, or as otherwise set forth in its articles or bylaws. A TND-2 district may have a residential association and a commercial association.

Block means a unit of land bounded by thoroughfares or by a combination of thoroughfare types, public land, railroad rights-of-way, waterways, or any other barrier to the continuity of development.

Boulevard means a major thoroughfare for carrying a large volume of through traffic in the area, normally controlled by traffic signs and signals with relatively few intersections and/or drives.

Buffer or buffer yard means a unit of land, together with a specified type and amount of planting and any fencing which may be required between land uses to minimize conflicts between them.

Building means a structure built, maintained, or intended for use as a shelter or enclosure of persons, animals, or property. The term "building" includes any part of the structure. Where independent units with separate entrances are divided by party walls, each unit is a building.

Building height or height means the vertical distance measured from the lowest ground elevation to the highest point of the building or structure. The building height may be prescribed as a maximum number of stories or as a dimension from sidewalk grade to the eave. The height limit shall not apply to chimneys.

Building setback means the distance from the street right-of-way line to the closest point of the foundation of a building or projection thereof.

Collector means a street designed to carry moderate volumes of traffic from local streets to boulevards or from boulevard to boulevard. Collectors are also referred to as avenues. (See standards in table 1.)

Commercial street means a very urban condition which comprises a street with raised curbs drained by inlets. Wide sidewalks along both sides are separated from the thoroughfare by

small separate tree wells. Trees along the commercial street consist of a single species aligned in a row or rows. Tree spacing may be irregular to stay clear of shop entrances. Commercial streets have the highest pedestrian use.

Commissions means the planning commission and the zoning commission, individually and collectively.

Common open space means a parcel or parcels of land and/or an area of water within a development that are held in some form of common ownership and designated, designed and intended for benefit, use or enjoyment of the occupants of the development. It may contain such complementary structures and improvements as necessary and appropriate for the benefit and enjoyment of the occupants of such development as set forth in section 130-1450(e), including those uses set forth in section 10.1.1, III., B of the Development Code.

Council means the St. Tammany Parish Council.

Density means a measure of the intensity of development. In these regulations, density for residential development is calculated in terms of units per acre.

Developer means the legal or beneficial owner of a lot or parcel of any land proposed for inclusion in a development, including the holder of an option or contract to purchase.

Development means the division of a parcel of land into two or more parcels; the construction, reconstruction, conversion, structural alteration, relocation, or enlargement of any buildings or structures; any use or change in use of any buildings or land; or any extension of any use of land or any clearing, grading, or other movement of land.

Development Code means the St. Tammany Parish Unified Development Code and Subdivision Regulations.

Drainage means the removal of surface water or groundwater from land by drains, grading, or other means. The term "drainage" includes the control of runoff to minimize erosion and sedimentation during and after development and includes the means necessary for water supply preservation or the prevention or alleviation of flooding.

Drive or driveway means for the purposes of this section only a vehicular accessway within a lot.

Dwelling means any building or portion of a building which is designated or used for residential purposes.

Dwelling, multi- or multifamily means a building that contains more than one dwelling unit.

Dwelling, single- or single-family means a building that contains only one living unit, including attached buildings in the case of townhomes when said living units are each on a separate legal lot or parcel.

Flood or flooding means a general and temporary condition of partial or complete inundation of normally dry land areas from the overflow of inland or tidal waters, or the unusual and rapid accumulation or runoff of surface waters from any source.

Floor area means the sum of the gross floor area for each of a building's or structure's stories measured from the exterior limits of the faces of the building or structure. The floor areas of the building include the basement floor area. The floor area includes the attic only if it is habitable floor area.

General implementation plan means the initial plan of development for a TND which an applicant/developer submits to the commissions containing all those items described in the general implementation plan checklist, including written and graphic documents, which represents a general plan of the proposed land uses and their overall impact on the land and surrounding land for redesignation of the land to TND-2 Planned.

General implementation plan checklist means a list containing items which must be included in a general implementation plan submitted to the commissions for TND approval.

Highway means a long-distance, speed-movement thoroughfare designed for vehicle use, traversing open countryside. A highway should be relatively free of intersections, driveways and adjacent buildings, otherwise it becomes strip development which interferes with traffic flow and human comfort. Variants include freeways, expressways and parkways.

Live/work unit means those dwelling structures or units that combine a residence and a workplace, as permitted in these regulations.

Lot means a parcel of land undivided by any street or private road and occupied or intended for occupancy by, or designated to be developed for, one building or principal use and the accessory buildings or accessory uses customarily incidental to such building, use or development, including such open spaces and yards as are designed and arranged or required by these regulations for such building use or development.

Lot area means the area contained within the boundary lines of lot.

Lot line means a line bounding a lot which divides one lot from another or from a street or any public or private space.

Lot width means the horizontal distance between side lot lines measured at the front setback. Where there is only one side lot line, lot width shall be measured between such lot line and the opposite lot line or future right-of-way line.

Major change means a change to an approved traditional neighborhood development as set forth in section 130-1460(a) through (c).

Minor change means a change to an approved traditional neighborhood development as set forth in section 130-1460(d).

Net acre means an acre of land excluding street rights-of-way and other publicly dedicated improvements such as parks, open space, and stormwater detention and retention facilities.

Owner means the person or persons having the right of legal title to, or beneficial interest in, a lot or parcel of land.

Parcel means the area within the boundary lines of a development.

Parish means the Parish of St. Tammany, State of Louisiana.

Passage means a pedestrian connector passing between buildings. Passages provide short-cuts through long blocks and connect rear parking areas with street frontages. Passages may be roofed over and lined by shopfronts. Variants include courts, a passage that is wide enough to be landscaped, being the frontage for buildings which are otherwise provided with vehicular access only by rear alleys.

Path means a pedestrian way traversing a park or the countryside. Paths should connect directly with the sidewalk network at the urban edge.

Person means an individual, firm, partnership, corporation, company, association, joint stock association or government entity; including a trustee, a receiver, and assignee, or a similar representative of any of them.

Planning commission means the body duly appointed by the St. Tammany Government and charged with the responsibility of formulating a comprehensive plan, to keep it up to date, and to prescribe and administer necessary rules and regulations for the successful implementation of the comprehensive plan, a part of which being chapter 125, in accordance with R.S. 33:101—33:120.1.

Planning staff or commissions staff means professional and nonprofessional personnel employed by the parish government to carry out and fulfill the directives and responsibilities of the commissions. Staff functions may be conducted by private or public consultants.

Principal building means a building in which the principal use of the lot on which the building is located is conducted or intended to be conducted.

Principal use means the specific primary purpose for which land is used.

Public improvement means any improvement, facility, or service, together with customary improvements and appurtenances thereto, necessary to provide for such public needs as vehicular and pedestrian circulation systems, storm sewers, flood control improvements, water supply and distribution facilities, sanitary sewage disposal and treatment, public utility, and energy services.

Queuing means the use of one travel lane on local streets with parking, usually an intermittent parking pattern, on both sides.

Rear alley means a narrow service accessway to the rear of more urban buildings providing service areas, parking access, and utility easements. Alleys, as they are used by trucks and must accommodate dumpsters, should be paved from building face to building face, with drainage by inverted crown at the center. Buildings facing the alley must have windows.

Rear lane means a vehicular accessway located to the rear of a lot providing access to parking and outbuildings as well as easements for utilities. Rear lanes are paved as lightly as possible to driveway standards or with gravel. Rear lanes should be as rural as possible in character. Buildings facing the rear lane must have windows. Posted speed should equal design speed.

Rear lot line means that lot line which is parallel to and most distant from the front lot line of the lot; in the case of an irregular or triangular lot, a line 20 feet in length, entirely within the lot, parallel to and at the maximum possible distance from the front line, shall be considered to be the rear lot line. In the case of lots which have frontage on more than one road or street, the rear lot line shall be opposite the lot line along which the lot takes access to a street.

Restrictive, more (less), means a regulation imposed by these regulations is more (less) restrictive than another if it prohibits or limits development to a greater (lesser) extent or by means of more (less) detailed specifications.

Right-of-way means a strip of ground dedicated by the developer for public use, title to which shall rest in the public for the purpose stated in the dedication.

Road means a thoroughfare with open swales drained by runoff percolation and an informal walking path or bicycle trail along one side. Trees along roads consist of multiple species composed in clusters. Roads have low pedestrian use. Design speed can exceed the posted speed.

Rural road means a thoroughfare with open swales drained by runoff percolation and no separate pedestrian path. Trees along rural roads consist of multiple species composed in clusters.

Secondary dwelling unit means an additional dwelling unit located within the principal dwelling on the lot, in a freestanding building or above a residential garage.

Servitude or easement means a strip existing or to be reserved by the developer for public utilities, drainage and other public purposes, the title to which shall remain with the property owner, subject to the right of use designated in the reservation of servitude; or a strip of ground designated or intended to be used for access to buildings and other portions of property.

Side lot line means any lot line other than a front or rear lot line.

Sign means any structure, part thereof, or device attached thereto or painted or represented thereon, or any material or thing, illuminated or otherwise, which displays or includes any numeral, letter, word, model, pennant, streamer, banner, emblem, insignia, device, trademark or other representation used as, or in the nature of, an announcement, advertisement, direction

or designation of any person, firm, group, organization, place, commodity, product, service, business, profession, enterprise or industry which is located upon any land or on any building.

Story or stories means a space in a building between the surface of any floor and the surface of the next floor above, or if there is no such floor above, then the space between such floor and the ceiling or roof above.

Street means a strip of land, including the entire right-of-way, publicly or privately owned, serving as a means of slow vehicular travel, and furnishing access to abutting properties, which may also be used to provide space for sewers, public utilities, shade trees, and sidewalks. A street may be public or private.

Structure means an object, including a mobile object, constructed or installed by man, including but without limitation, buildings, towers, cranes, and overhead transmission lines.

Subdivision means any division, subdivision or re-division of a subdivision, tract, parcel, or lot of land into two or more lots, plots, sites, parts, or other division of land by means of mapping, platting, conveyance, or change of rearrangement of boundaries for the purpose of sale, lease or development, whether immediate or future. All subdivisions are also developments.

Thoroughfare means a paved vehicular way with moving lanes and parking lanes accompanied by streetscapes at the sides, both within and outside of a public right-of-way, and including all of the thoroughfare types as set forth and described herein.

Thoroughfare types means boulevards, roads, rural roads, streets, commercial streets, collectors, driveways, highways, passages, paths, rear alleys, and rear lanes.

Townhome means two or more attached living units with common or party sidewalls between units, designated so that each unit may be sold independently as a lot with its own yards and parking spaces.

Traditional neighborhood or traditional neighborhood development means a compact, walkable, mixed-use neighborhood where residential, commercial and civic buildings are within close proximity to each other as contemplated under these regulations.

- (1) "TND-2 Concept." The designation of property for development as a traditional neighborhood development through the comprehensive rezoning process or in accordance with the time limitations and procedures set forth in section 130-1509.
- (2) "TND-2 Planned." The designation of property for development as a traditional neighborhood development following approval of the general implementation plan.
- (3) "TND-2." The redesignation of property for "TND planned" on the official map, upon approval of a specific implementation plan and the final plat.

Transit stop means a location where passengers board and alight. Transit stops can serve one or more routes and include various levels of amenities depending on the level of actual or anticipated riders. Amenities can include transit stop sign pole, benches, trash receptacles, shelters and lighting. Transit stops can be placed within the public right-of-way or on private property depending on service needs and passenger comfort.

Tree means any self-supporting perennial woody plant that is at least four inches in diameter.

Urban street means a typical urban condition which comprises a street with raised curbs drained by inlets. A narrower, continuous planter separates wide sidewalks along both sides from the thoroughfare. Trees along urban streets consist of a single species aligned in a row or rows.

Use means the purpose or activity for which land or any building thereon is designed, arranged, or intended, or for which it is occupied or maintained.

Variance means permission to depart from the literal requirements of these regulations granted by the council.

Zoning commission means that body of appointed officials granted the authority to administer land use regulations in accordance with title 33, sections 101 through 119, Louisiana Revised Statutes Annotated (R.S. 33:101—33:119), as amended, and under title 33, sections 4776.40 through 4776.50, Louisiana Revised Statutes Annotated, as amended (R.S. 33:4776.40—33:4776.50), the St. Tammany Parish Home Rule Charter Commission, adopted under the authority of article VI, section 5, of the Constitution of Louisiana and R.S. 33:1395, as amended and article I of these regulations.

(Code 1998, app. C, § 5.3503A; Ord. No. 07-1548, § 5.3503A, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1490. TND-2 district design requirements.

(a) *Association.*

- (1) Conditions, covenants, and restrictions for all the property within a TND district must be filed in the parish records by the owner before a lot is sold and/or a building permit is issued.
- (2) In addition to other terms and conditions acceptable to the applicant, the conditions, covenants, and restrictions must create one or more property owners' associations with mandatory membership for each property owner, governed by articles of incorporation and bylaws, which shall:
 - a. Be organized by the applicant and operated with a financial subsidy from the applicant before the sale of any lots within the TND district;
 - b. Provide for the conditions and timing of transferring control of the association from the applicant to the property owners;

- c. Be responsible for maintenance of insurance and taxes on all common open space, enforceable by liens placed on the association by the parish, as provided in the association bylaws;
- d. At all times, cause all owners to have access to the common open space within the TND district;
- e. Establish architectural standards that are in conformity with the requirements of these regulations which shall be subject to review and approval by the board of directors of the association or the architectural control committee, as described below;
- f. Create an architectural control committee to review development for compliance with the architectural standards, to issue certificates of approval, and to review and approve the development's architect, designer, and/or other professionals contributing to the development;
- g. Provide for the ownership, development, management, and maintenance of private open space (except plazas owned by individual property owners), community parking facilities, community meeting hall, and other common areas;
- h. Provide for a maintenance program for all property within the TND, including landscaping and trees within the streetscape;
- i. Require the collection of assessments from members in an amount sufficient to pay for its functions; and
- j. Be effective for a term of not less than 50 years.

(b) *Land use allocations.* Each lot within a TND district must be allocated particular permitted land use categories. Areas which would permit the sale or consumption of alcohol must be approved for an alcohol license by the alcohol and beverage board.

(c) *Neighborhood uses.* In order to achieve the proximity necessary to make neighborhoods walkable, it is important to mix land uses. A TND district should consist of a mix of residential uses, a mixed use area, and open space as provided below:

- (1) A mix of residential uses of the following types can occur anywhere in the TND district, provided that attached or detached single-family dwellings shall account for at least 50 percent of the residential units in the TND. For infill development, the mix of residential uses may be satisfied by existing residential uses adjacent to the TND district by including some and/or all of the following:
 - a. Single-family detached dwellings, including manufactured homes;
 - b. Single-family attached dwellings, including duplexes, townhomes, row houses;
 - c. Multifamily dwellings, including senior housing;
 - d. Secondary dwelling units ("granny flats");

- e. "Special needs" housing, such as community living arrangements and assisted living facilities;
 - f. Residential units above commercial uses, which shall be considered multifamily units.
- (2) Mixed use area, of commercial, residential, civic or institutional, and open space uses as identified below. All residents should be within approximately one-half mile or a 15-minute walk from existing or proposed commercial, civic, and open space areas.
- a. Commercial uses may include the following:
 - 1. Food services (including without limitation, neighborhood grocery stores; butcher shops; bakeries; restaurants (including the sale and consumption of alcohol), not including drive-throughs; cafes; coffee shops; neighborhood taverns, bars or pubs); delis, ice cream parlors, specialty foods, and/or outside dining patios and areas;
 - 2. Retail uses (including without limitation, retail sales, florists or nurseries; gas stations, hardware stores; stationery stores; bookstores; galleries, studios and shops of artists and artisans, drugstores, apparel, antiques, furniture, music, pets, farmers market, and toys);
 - 3. Services (including without limitation, child care centers; music, dance or exercise studios; offices, including professional and medical offices; financial and banks; medical clinics, barber; laundromats; educational, hair salon; dry cleaning, health or fitness, dry cleaners, tailor shops, repair and service shops, and postal);
 - 4. Accommodations (bed and breakfast establishments, small hotels or inns); and
 - 5. Clubs and organizations, including fraternal organizations.
 - b. Residential uses may include the following, for sale or rent:
 - 1. Single-family attached dwellings, including duplexes, townhomes, row houses;
 - 2. Multifamily dwellings, including senior housing;
 - 3. Residential units located on upper floors above commercial uses or to the rear of storefronts;
 - 4. Live/work units that combine a residence and the resident's workplace; and
 - 5. "Special needs" housing, such as community living arrangements and assisted living facilities.
 - c. Civic or institutional uses may include the following:
 - 1. Municipal offices, fire stations, libraries, museums, community meeting facilities, and post offices;

2. Places of worship;
 3. Transit shelters;
 4. Philanthropic institutions; and
 5. Educational facilities.
- d. Office which may include the following:
1. Art galleries and studios;
 2. Banks;
 3. Child care centers;
 4. Clubs;
 5. Offices;
 6. Medical clinics.
- e. Open space uses may include the following:
1. Central square;
 2. Neighborhood parks;
 3. Recreational facilities;
 4. Playgrounds; and
 5. Open space uses identified below should be incorporated in the TND district as appropriate. Large outdoor recreation areas should be located at the periphery of neighborhoods rather than central locations. Common open space is more particularly described in subsection (e) of this section.
 - (i) Environmental corridors;
 - (ii) Protected natural areas;
 - (iii) Community parks;
 - (iv) Streams, ponds, and other water bodies; and
 - (v) Stormwater detention/retention facilities.

(d) *Development units.* The number of residential dwelling units and the amount of nonresidential development, excluding open spaces, shall be determined as follows, provided that single-family detached dwellings shall account for at least 50 percent of the total number of residential units in the TND, and two-family units, townhomes, and multifamily units shall comprise less than 50 percent of the units:

- (1) In areas devoted to mixed residential uses:
 - a. The number of single-family attached and detached units permitted shall be 5—8+ dwelling units per net acre.
 - b. The number of multifamily units shall be 8—40 dwelling units per net acre.

- c. Secondary dwelling units shall be permissible in addition to the number of dwelling units authorized under this section. However, the total number of secondary dwelling units shall not be more than ten percent of the total number of single-family attached and detached units.
 - d. For each affordable housing unit provided under this section, one additional dwelling unit shall be permitted, up to a maximum 15 percent increase in dwelling units.
- (2) In mixed-use areas:
- a. The number of single-family and multifamily dwelling units permitted shall be calculated the same as above plus an additional number of units not to exceed ten percent of the amount permitted above.
 - b. All dwelling units constructed above commercial uses shall be permissible in addition to the number of dwelling units authorized under this section. However, the total number of dwelling units shall not be increased by more than ten dwelling units or ten percent, whichever is greater.
 - c. The total ground floor area of nonresidential development uses, including off-street parking areas, shall not exceed 25 percent of the TND district.
- (e) *Additional common open space requirements.* At least 20 percent of the gross acreage of the TND district must be open space. At least 25 percent of the common open space must be dedicated to the public for parkland. Ninety percent of the lots within the areas devoted to mixed residential uses shall be within a one-half mile or a 15-minute walk from common open space.
- (1) The following uses may account for common open space with the stated limitations:
- a. Parks and other open greenbelt areas which are readily accessible must account for not less than 25 percent of the common open space.
 - b. Trees along thoroughfare types located within designated landscape common areas or landscape servitude and located within a street right-of-way may not exceed 25 percent of the common open space. There shall be one street tree per 40 feet of frontage. However, common open space within vehicle use areas or any noncontiguous green area of less than 1,000 square feet may not be included.
 - c. Lake and ponds, including stormwater wet detention basins provided that they are designed so that a minimum of 20 percent of the abutting shoreline is made accessible for the common use of the development, but in no event less than 300 feet of frontage.
 - d. Stormwater dry detention basins of not less than one acre; but may not exceed 25 percent of the common open space and must be designed to provide for acceptable maintenance and upkeep of the detention basin.

- e. Golf courses may account for up to 50 percent of the common open space.
 - f. Wetlands with not less than 50 percent bottomland hardwood, pine savannah, and/or brackish marshland.
 - g. Hard surface recreation areas such as recreational courts and pedestrian plazas may account for up to 25 percent of the common open space.
 - h. Areas including servitudes with existing below ground utilities and/or facilities with a width of not less than 50 feet.
 - i. Electrical transmission line servitudes with a width of not less than 150 feet.
 - j. School sites, excluding the area devoted to buildings.
 - k. An existing building or buildings that have historical or cultural significance may be located in a common area space; however, the enclosed building area may not be included in the common open space requirement.
 - l. Common open space for the use by the general public, if agreed to by the appropriate governmental authority, in each case in an amount to be determined by the commissions.
- (2) Common open space shall not include:
- a. Required:
 - 1. Yards which are not accessible for the common use of the development;
 - 2. Parking areas;
 - 3. Drives;
 - 4. Utility with above ground improvements or road easements/servitudes except as specified above;
 - b. Structures (unless a part of the open space such as gazebos);
 - c. Drainage ditches or canals; and
 - d. Areas reserved for the exclusive use and benefit of an individual tenant or owner.
- (3) No more than 20 percent of the common open space shall be devoted to paved areas and structures such as courts or recreation buildings. Parking lots and on-street parking shall not be located within or along the side of a street or road bordering parks, greens and squares.
- (4) Common open space shall be permanently set aside for the sole benefit, use, and enjoyment of present and future occupants of the traditional neighborhood development through covenant, deed restriction, open space servitude, or similar legal instrument; or, if agreed to by governmental agency, the open space may be conveyed to a governmental agency for the use of the general public.

- (5) The commissions may consider a traditional neighborhood development with a lesser amount of common open space if it is clear that the proposed traditional neighborhood development substantially provides for the intent of a traditional neighborhood development. It is noted that common open space is a very important element of a traditional neighborhood development and reductions to the common open space provision should be granted only as a result of specific, clearly documented reasons (i.e., the traditional neighborhood development may be located on a relatively small site in an area where a respective 15 percent or 20 percent provision would detract from building continuity or historic preservation efforts).
 - (6) In the event land shown on a specific implementation plan (as hereinafter defined) as common open space is dedicated to the parish, the council may, but shall not be required to, accept the open space provided:
 - a. Such land is accessible to the residents of the parish;
 - b. There is no cost of acquisition other than the costs incidental to the transfer of ownership; and
 - c. The parish agrees to and has access to maintain such lands.
 - (7) Common open space shall be protected against building development and environmental damage by conveying to the municipality, parish, association, or land trust an open space servitude restricting the area in perpetuity against any future building and against the removal of soil, trees and other natural features, except as the commissions determine is consistent with conservation or recreational purposes.
- (f) *Stormwater management.* The design and development of the TND district should minimize off-site stormwater runoff, promote on-site filtration, and minimize the discharge of pollutants to groundwater and surface water. Natural topography and existing land cover should be maintained/protected to the maximum extent practicable. New development and redevelopment shall meet the following requirements:
- (1) Untreated, direct stormwater discharges to wetlands or surface waters are not allowed.
 - (2) A drainage analysis shall be submitted in conformance with chapter 115 and chapter 125.
 - (3) Erosion and sediment controls must be implemented.
 - (4) Redevelopment stormwater management systems should improve existing conditions and meet standards to the extent practicable.
 - (5) All treatment systems or BMPs must have operation and maintenance plans to ensure that systems function as designed.

(g) *Lot and block standards.*

- (1) *Block and lot size diversity.* Thoroughfare layouts should provide for perimeter blocks that are generally in the range of 200-400 feet deep by 400-800 feet long. Block length shall not exceed 2,000 feet in perimeter. The commissions may approve block perimeters of more than 2,000 feet if required because of existing topography. A block longer than 500 feet in length shall be traversed near the midpoint by a pedestrian path. A variety of lot sizes should be provided to facilitate housing diversity and choice and meet the projected requirements of people with different housing needs.
- (2) *Lot widths.* Lot widths should create a relatively symmetrical street or road cross section that reinforces the public space of the street or road as a simple, unified public space.
- (3) *Building setback, front, mixed use area.* Structures in the mixed-use area have no minimum setback. Commercial and civic or institutional buildings should abut the sidewalks in the mixed-use area.
- (4) *Building setback, front.* Areas of mixed residential uses. Single-family detached residences shall have a building setback in the front as specified in the conditions, covenants and restrictions (CCR). The CCR must establish a specific or range of setback between zero and 25 feet in depth. Single-family attached residences and multifamily residences shall have a building setback in the front between zero and 15 feet.
- (5) *Building setback, rear, areas of mixed residential uses.* The principal building on lots devoted to single-family detached residences shall be setback no less than 30 feet from the rear lot line.
- (6) *Side setbacks.* Provision for zero lot-line single-family dwellings should be made, provided that a reciprocal access easement is recorded for both lots and townhomes or other attached dwellings, provided that all dwellings have pedestrian access to the rear yard through means other than the principal structure.

(h) *Thoroughfare network.*

- (1) *Modes of transportation.* The circulation system shall allow for different modes of transportation.
- (2) *Circulation system.* The circulation system shall provide functional and visual links within the residential areas, mixed-use area, and open space of the TND district and shall be connected to existing and proposed external development. The circulation system shall provide adequate traffic capacity, provide connected pedestrian and bicycle routes, especially off-street bicycle or multi-use paths or bicycle lanes on the

streets where required and ADA-approved crosswalks and sidewalks, control through traffic, provide adequate transit stops, limit lot access to streets of lower traffic volumes, and promote safe and efficient mobility through the TND district.

- (3) *Street design guidelines.* The general requirements of table 1 in section 130-1509 shall apply, which may be modified by the commissions.
- (4) *Pedestrian circulation.* Convenient pedestrian circulation systems that minimize pedestrian-motor vehicle conflicts shall be provided continuously throughout the TND. Where feasible, any existing pedestrian routes through the site shall be preserved and enhanced. All streets, except for alleys, shall be bordered by sidewalks on both sides in accordance with the specifications listed in table 1. The following provisions also apply:
 - a. *Sidewalks in residential areas.* Clear and well-lighted sidewalks, three to five feet in width, depending on projected pedestrian traffic, shall connect all dwelling entrances to the adjacent public sidewalk. Sidewalks shall be provided along both sides of each street in residential areas. For pedestrian safety, sidewalks shall be separated at least seven feet from the curb.
 - b. *Sidewalks in mixed-use areas.* Clear and well-lighted walkways shall connect building entrances to the adjacent public sidewalk and to associated parking areas. Such walkways shall be a minimum of five feet in width. Sidewalks shall be provided along both sides of each thoroughfare type located within a mixed-use area. For pedestrian safety, sidewalks shall be separated at least seven feet from the curb.
 - c. *Disabled accessibility.* Sidewalks shall comply with the applicable requirements of the Americans with Disabilities Act.
 - d. *Crosswalks.* Intersections of sidewalks with thoroughfares shall be designed with clearly defined edges. Crosswalks shall be well lit and clearly marked with contrasting paving materials at the edges or with striping.
- (5) *Bicycle circulation.* Bicycle circulation shall be accommodated on streets and/or on dedicated bicycle paths. Where feasible, any existing bicycle routes through the site shall be preserved and enhanced. Facilities for bicycle travel may include off-street bicycle paths (generally shared with pedestrians and other nonmotorized users) and separate, striped, four-foot bicycle lanes on streets. If a bicycle lane is combined with a lane for parking, the combined width should be 14 feet.
- (6) *Public transit access.* Where public transit service is available or planned, convenient access to transit stops shall be provided. Where transit shelters are provided, they shall be placed in highly visible locations that promote security through surveillance, and shall be well lighted.

- (7) *Motor vehicle circulation.* Motor vehicle circulation shall be designed to minimize conflicts with pedestrians and bicycles. Traffic calming features such as "queuing streets," curb extensions, traffic circles, and medians may be used to encourage slow traffic speeds.
- (8) *Connection.* The thoroughfare network of the TND shall be connected to existing thoroughfares, unless the commissions and council determine that topography, requirements of traffic circulation or other considerations make such connections impractical. In suburban areas, TND streets should be laid out to allow extensions to future neighborhoods. Dead-end streets are prohibited unless the commissions and council determine otherwise.
- (9) *Design of thoroughfares.*
- a. *Generally.*
1. Thoroughfares consist of moving lanes, parking lanes, curbs or swales, planters, trees, street lights and sidewalks.
 2. Thoroughfare types shall be designated in the specific implementation plan.
 3. Roads, streets, and commercial streets may be modified to become avenues, boulevards and drives.
 4. Thoroughfares passing from one use area to another shall change appropriately except those designated as a "connector" in the specific implementation plan.
 5. The exact locations of trees and lights along thoroughfares may be adjusted for specific conditions, such as building entrances.
 6. Thoroughfares that exist in or near a TND at the time of rezoning and are consistent with the intent of these regulations may become an approved standard for use in that TND. An example of such a condition is commonly found in a nearby historic neighborhood.
 7. If striped, on-street parallel parking spaces shall be striped collectively, not individually.
 8. The full width of all paths, passages, rural lanes, lanes and alleys shall be designated a utility easement. Only in the absence of these thoroughfare types are utility easements permitted elsewhere.
 9. Traffic signals shall be timed on 60-second/30-second intervals, with exceptions only for unorthodox intersections with an unusually high number of turning motions as determined by the department of engineering.
 10. All thoroughfares within a TND shall terminate at other thoroughfares, forming a network. Cul-de-sacs shall be granted only when justified by site conditions.

- b. *Design of thoroughfares in commercial areas.*
 - 1. All lots shall enfront on a thoroughfare, except that a maximum of 20 percent of lots served by a real lane or alley may enfront a path or passage.
 - 2. Thoroughfares may intersect at nonorthogonal angles as acute as 30 degrees.
- c. *Design of thoroughfares in civic areas.* Thoroughfares enfronting civic buildings or civic spaces shall follow the standards of the underlying use area.
- d. *Parking requirements.* Parking areas for shared or community use should be encouraged. On-street parking shall count toward the parking requirements. Side and rear parking shall be allowed. In addition:
 - 1. In the mixed-use area, any parking lot shall be located at the rear or side of a building. If located at the side, screening shall be provided as specified in section 130-1450(n).
 - 2. A parking lot or garage may not be adjacent to or opposite a street, or other thoroughfare, intersection.
 - 3. In the mixed-use area, a commercial use must provide one parking space for every 500 feet of gross building area.
 - 4. Parking lots or garages must provide not less than one bicycle parking space for every ten motor vehicle parking spaces.
 - 5. Adjacent on-street parking may apply toward the minimum parking requirements.
 - 6. In the mixed residential areas, parking may be provided on site. One off-street parking space with unrestricted ingress and egress shall be provided for each secondary dwelling unit.
 - 7. Multifamily uses must provide one parking space for every dwelling unit and 0.5 parking space for each additional bedroom.
 - 8. In residential areas, garage doors which face the front of a lot shall be placed 20 feet beyond the setback of the principal structure. However, the commissions may modify this requirement for no more than 20 percent of the dwelling units if warranted by topography or other environmental conditions.
 - 9. In nonresidential areas, parking lots shall be located to the rear or side of buildings. Side parking lots shall account for no more than 25 percent of parking, and shall be screened from sidewalks by a combination of low walls or fences and landscaping.
 - 10. In the case of commercial or office uses which have shop or store fronts adjacent to sidewalks and thoroughfares, parking along the thoroughfare directly in front of the lot shall count toward fulfilling the parking requirements.

11. The required number of spaces for commercial and office uses may be further reduced by demonstrating the use of shared parking.
12. If a developer desires additional customer parking for nonresidential uses, it shall be provided on grassy, pervious surfaces (of reinforced/plastic grid, reinforced block or similar material) which are adequate to sustain parked vehicles.
13. Off-street parking shall be located in mid-block parking lots located behind the buildings.
14. Parking shall be accessed by alley or rear lane, when available. However, there shall be no parking in an alley or lane.
15. Parking shall be prohibited within 30 feet of intersections to enable public service and emergency vehicles adequate turning radii, and in mid-block sections such that emergency vehicles can park and operate within 125 feet of all buildings on the block.
16. Required parking may be provided within a five-minute (one-quarter mile) radius of the site which it serves.
17. The location of permitted parking along thoroughfares should be coordinated to allow access to mail boxes.
18. One bicycle rack space shall be provided for every ten vehicular parking spaces.
19. Parking lots greater than two double loaded parking rows should be carefully arranged to minimize breaks between pedestrian destinations.
20. Shared parking.
 - (i) If an office use and a retail sales and service use share parking, the parking requirement for the retail sales and service use may be reduced by 20 percent, provided that the reduction shall not exceed the minimum parking requirement for the office use.
 - (ii) If a residential use shares parking with a retail and service use other than lodging uses, eating and drinking establishments or entertainment uses, the parking requirement for the residential use may be reduced by 30 percent, provided that the reduction does not exceed the minimum parking requirement for the retail and service use.
 - (iii) If an office and a residential use share off-street (or other thoroughfare) parking, the parking requirement for the residential use may be reduced by 50 percent, provided that the reduction shall not exceed the minimum parking requirement for the office use.

(i) *Architectural standards.* A variety of architectural features and building materials is encouraged to give each building or group of buildings a distinct character. In order to achieve harmonious design throughout the TND district, architectural design guidelines for the residential, commercial, office and civic and institutional uses shall be submitted to the commissions and used in creating the development by the developer, as set forth in section 130-1456 and in the general implementation plan checklist.

(1) *Guidelines for existing structures.*

- a. Existing structures, if determined to be historic or architecturally significant, shall be protected from demolition or encroachment by incompatible structures or landscape development.
- b. The U.S. Secretary of the Interior's Standards for Rehabilitation of Historic Properties shall be used as the criteria for renovating historic or architecturally significant structures.

(2) *Guidelines for new structures.*

- a. *Height.* New structures within a TND district shall be no more than three stories for single-family residential, or five stories for commercial, multifamily residential, or mixed use.
- b. *Entries, facades, windows, doors and roofs.*
 1. The architectural features, materials, and the articulation of a facade of a building shall be continued on all sides visible from a public thoroughfare.
 2. The front facade of the principal building on any lot in a TND district shall face onto a public thoroughfare.
 3. The front facade shall not be oriented to face directly toward a parking lot.
 4. Porches, pent roofs, roof overhangs, hooded front doors or other similar architectural elements shall define the front entrance to all residences.
 5. For commercial buildings, a minimum of 50 percent of the front facade on the ground floor shall be glass (transparent), including window or door openings allowing views into and out of the interior.
 6. New structures on opposite sides of the same thoroughfare should follow similar design guidelines. This provision shall not apply to buildings bordering civic uses.
 7. Building and parking placement within the neighborhood center, or town center, should be arranged to create appropriately scaled continuous building facades with as few nonpedestrian oriented breaks as possible.
 8. Building wall materials may be combined on each facade only horizontally, with the heavier generally below the lighter.

9. Walls along thoroughfares shall be made of brick, or block and stucco, or other material to match the facade of the principal building.
 10. Windows shall use clear glass panels.
 11. All openings including porches, galleries, arcades and windows, with the exception of storefronts, shall be square or vertical in proportion.
 12. Openings above the first story shall not exceed 50 percent of the total building wall area, with each facade being calculated independently.
 13. The facades on retail frontages shall be detailed as storefronts and glazed no less than 50 percent of the sidewalk-level story.
 14. Doors and windows that operate as sliders are prohibited along frontages.
 15. Pitched roofs, if provided, shall be symmetrically sloped no less than 5:12, except that porches may be attached sheds with slopes no less than 2:12.
 16. Flat roofs shall be enclosed by parapets a minimum of 42 inches high, or as required to conceal mechanical equipment to the satisfaction of the developer, board or directors and architectural control committee.
- c. *Dwelling units.* Dwelling units may be constructed above the ground floor in commercial and office buildings.
 - d. *Commercial and office development.* Commercial and office development within the TND shall have an architectural design compatible with the design of residential buildings.
- (3) *Utilities.* All utilities shall be placed underground and/or shall run within alley easements within the TND.
- (j) *Guidelines for garages and secondary dwelling units.* Garages and secondary dwelling units may be placed on a single-family detached residential lot within the principal building or an accessory building provided that the secondary dwelling unit shall not exceed 800 square feet. Garage doors shall have a minimum setback of 20 feet.
- (k) *Guidelines for exterior signage.* Comprehensive sign guidelines are required for the entire TND district which establishes a uniform sign theme. Such guidelines shall be submitted to the board of directors of the architectural control committee, if any, for approval. Signs shall share a common style, as to size, shape, and material. In the mixed-use area, all signs shall be wall signs or cantilever signs; provided, however, that no billboards shall be allowed within the TND. Cantilever signs shall be mounted perpendicular to the building face and shall not exceed eight square feet.
- (l) *Guidelines for lighting.*
- (1) *Lighting along thoroughfares.* Lighting along thoroughfares, including pedestrian scale lighting, shall be provided along all thoroughfares. Generally more, smaller lights, as

opposed to fewer, high-intensity lights, should be used. Lights shall be installed on both sides of streets at intervals of no greater than 75 feet apart. The lighting design shall meet the minimum standards developed by the Illumination Engineering Society.

- (2) *Exterior lighting.* Exterior lighting shall be directed downward in order to reduce glare onto adjacent properties.
- (m) *Landscaping and screening standards.*
 - (1) *Overall composition and location.* Overall composition and location of landscaping shall complement the scale of the development and its surroundings. In general, larger, well-placed contiguous planting areas shall be preferred to smaller, disconnected areas. Where screening is required by these regulations, it shall be at least three feet in height, unless otherwise specified. Required screening shall be at least 50 percent opaque throughout the year. Required screening shall be satisfied by one or some combination of a decorative fence not less than 50 percent behind a continuous landscaped area, a masonry wall, or a hedge.
 - (2) *Yard.* A yard 1,000 square feet or less in size is not required to be landscaped.
 - (3) *Trees along thoroughfares.*
 - a. A minimum of one deciduous canopy tree per 40 feet of frontage, or fraction thereof, shall be required. Trees can be clustered and do not need to be evenly spaced, subject to further provisions as set forth herein.
 - b. Trees should preferably be located between the sidewalk and the curb, within the landscaped area of a boulevard, or in tree wells installed in pavement or concrete.
 - c. If placement of trees within the right-of-way will interfere with utility lines, trees may be planted within the front yard setback adjacent to the sidewalk.
 - d. Native shade trees which grow to a minimum height of 40 feet at maturity shall be planted along all streets at a maximum average spacing of 30 feet on center.
 - e. Trees shall have a minimum caliper of 2½ inches at the time of planting.
 - (4) *Parking area landscaping and screening.*
 - a. All parking and loading areas fronting public thoroughfares or sidewalks, and all parking and loading areas abutting residential districts or users, shall provide a landscaped area at least five feet wide along the public thoroughfare or sidewalk; screening at least three in height and not less than 50 percent opaque; and one tree for each 25 linear feet of parking lot frontage.
 - b. Parking area interior landscaping. The corners of parking lots, "islands," and all other areas not used for parking or vehicular circulation shall be landscaped.

Vegetation may include turf grass, native grasses or other perennial flowering plants, vines, shrubs or trees. Such spaces may include architectural features such as benches, kiosks or bicycle parking.

- c. For all parking lots with more than six spaces, the landscaped area shall be comprised of a minimum of 20 percent of the total parking lot area.
- d. In large parking lots containing more than 200 parking spaces, an additional landscaped area of at least 200 square feet shall be provided for each 25 parking spaces or fraction thereof, containing one native shade tree or canopy tree. The remainder shall be covered with turf grass, native grasses or other perennial flowering plants, vines or shrubs.

(5) *Landscape materials.* Landscape materials that are used for screening shall be of a size that allows growth to the desired height and opacity within two years.

(n) *Environmental standards.* All uses in the traditional neighborhood development shall conform to all applicable federal, state and local laws and regulations regarding the environment such as laws and regulations concerning noise, air quality, water quality, radiation, and radioactivity.

(Code 1998, app. C, § 5.3504A; Ord. No. 07-1548, § 5.3504A, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1491. Fees.

The council may, by resolution, establish fees for the administration of these regulations. (Code 1998, app. C, § 5.3505A; Ord. No. 07-1548, § 5.3505A, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1492. Other code and ordinances applicability.

(a) This chapter and chapter 125 apply to a TND district unless:

- (1) These regulations expressly provide otherwise; and
- (2) Only as long as such other codes and ordinances do not impede the accomplishment of the stated purpose of the TND district as described in these regulations.

(b) The requirements of this article supersede any inconsistent provision of any other codes and ordinances.

(c) A TND district is a separate and distinct zoning district which shall allow the permitted uses as provided in the general implementation plan, notwithstanding any other zoning classification provided in other codes and ordinances.

(Code 1998, app. C, § 5.3506A; Ord. No. 07-1548, § 5.3506A, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1493. Unified control.

All land included in any TND district shall be under the complete, unified and legal control of the applicant, whether the applicant be an individual, partnership, limited liability company, corporation and/or other person. Upon request by the parish, the applicant shall furnish the parish sufficient evidence to the satisfaction of the parish that the applicant is in the complete, legal and unified control of the entire area of the proposed traditional neighborhood development. Upon request by the parish, the applicant shall provide the parish all agreements, contracts, guarantees and other necessary documents and information that may be required by the parish to assure the parish that the development project may be lawfully completed according to the plans sought to be approved.

(Code 1998, app. C, § 5.3507A; Ord. No. 07-1548, § 5.3507A, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1494. Application procedure and approval process; general.

(a) Prior to the issuance of any permits for development of a traditional neighborhood development, the following three steps shall be completed according to the procedures outlined in this section:

- (1) Pre-application conference;
- (2) Approval of a general implementation plan by the commissions and the council for the entire traditional neighborhood development;
- (3) Approval of a specific implementation plan by the planning commission; and
- (4) Approval of a final plat by the planning commission.

(b) If the development includes the division of property into lots, the specific implementation plan shall be approved concurrently with a preliminary plat.

(c) Subdivisions of property within a TND district after general implementation plan approval, but prior to specific implementation plan approval, shall meet the zoning requirements of the most restrictive zoning district allowed for each designated use for that portion of the general implementation plan. These subdivisions shall require planning commission approval and will not allow development or building permit approval until a specific implementation plan is approved.

(d) Where the development is to be developed in phases, the general implementation plan that is presented for review and approval shall be the general implementation plan for the entire development and shall identify the proposed phasing. Each phase of a development shall have an individual specific implementation plan.

(e) Independent consultants may be retained by the commissions and/or the council to seek assistance to properly review the general implementation plans and specific implementation plans. The reasonable cost of such review shall be reimbursed by the applicant. The applicant shall be advised of the estimated fees and costs and may withdraw their request from consideration at that time. All required fees must be paid regardless of whether the proposed plans are approved, amended, rejected or withdrawn.

(Code 1998, app. C, § 5.3508A; Ord. No. 07-1548, § 5.3508A, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1495. Pre-application conference.

(a) The pre-application conference shall be held with the director of planning and development or the director of planning and development's designee for the purpose of exchanging information, providing guidance to the applicant and determining the eligibility of the request for consideration as a traditional neighborhood development.

(b) A request for a pre-application conference shall be made to the director of planning and development. As part of the pre-application conference, the applicant shall submit five copies of a proposed general implementation plan, at least ten days in advance of the pre-application conference, which shows the property location, boundaries, significant natural features, thoroughfare network (vehicular and pedestrian circulation), land uses for the entire site, and a statement indicating financial responsibility sufficient to complete the public improvements shown on the conceptual plan.

(c) The director of planning and development or the director of planning and development's designee shall advise the applicant of the proposed general implementation plan for the traditional neighborhood development with the intent and objectives of a traditional neighborhood development, whether it appears to qualify under the minimum requirements of sections 130-1487, 130-1488, and 130-1490, and whether the general plan appears to be substantially consistent with the parish master plan and the parish land use plan. No formal action will be taken at a pre-application conference, nor will statements made at the pre-application conference be considered legally binding commitments.

(Code 1998, app. C, § 5.3509A; Ord. No. 07-1548, § 5.3509A, 5-3-2007; Ord. No. 10-2186, 1-7-2010)

Sec. 130-1496. General implementation plan.

Following the pre-application conference, the applicant shall submit a completed application (general implementation plan) to the director of planning and development. When the director of planning and development determines the application to be complete, the application shall be sent to the commission for a public workshop session if deemed necessary by the

director of planning and development, followed at a later date by a public hearing. The general implementation plan shall contain all information required in the general implementation plan checklist, including architectural design guidelines as described in section 130-1490(j).

- (1) *Procedures for general implementation plan approval.* All applications for traditional neighborhood developments shall be processed in the following manner:
