LAND USE CONSIDERATIONS

SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Surrounding Use</u>	<u>Surrounding Zone</u>
North	Commercial	NC-4 Neighborhood Institutional District
South	State Police Office	CB-1 Community Based Facilities District
East		US Highway 190
West	Golf Course & Residential	CB-1 Community Based Facilities District & A-4 Single Family Residential District

EXISTING LAND USE:

Existing development: No

Multi occupancy development: Yes

COMPREHENSIVE PLAN:

Residential - Areas that provide for dwelling units. Such areas may vary in site design, structure design, and in the density of units per acre. Certain areas such as "village or town residential" may include mixed uses and would have the highest number of units per acre, while "Rural residential" would have the lowest number of units per acre, and may include agricultural or open space uses as well. In between these two types of residential areas would be varying levels of single-family detached dwellings, multi-family attached residential, and planned subdivisions for manufactured homes.

Conservation - Areas designated for uses of land, water, flora and fauna that appear naturally. Such uses may include such activities as extraction or production for commerce; human enjoyment, hunting, fishing, or other recreation within natural landscapes; or preservation of natural systems. The concept of "conservation" includes a private landowner's understanding of responsibility to wisely manage that resource so that it remains in good condition for future generations (often simple referred to as "good stewardship"); this concept may also include the conservation of energy through efficient transportation options as well as through climate responsive building design, as well as the conservation of historic, scenic, or otherwise serviceable buildings and landscapes. Means to achieve conservation are myriad and include both private and public sector initiatives – such means will be considered in subsequent phases of the New Directions 2025 planning process.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from CB-1 Community Based Facilities District to NC-4 Neighborhood Institutional District. This site is located on the west side of US Highway 190 Frontage Road, south of Fontainebleau Drive. The 2025 future land use plan calls for the area to be developed with residential uses and uses that would allow for the preservation of the natural environment of the site. Staff does not have any objections to the request considering the location of the site, along Hwy 190 Service road, and the proximity of other existing neighborhood commercial uses.

STAFF RECOMMENDATION:

The staff recommends that the request for a NC-4 Neighborhood Institutional District designation be approved.
