Any alteration of the existing site using fill materials would potentially have an impact to the floodplain and could impact residences (particularly those residences of the Town of Pearl River) upstream of this site. RE: *McQueens vs Blanchard*
22nd JDC Doc 2005-11323 Div "C"

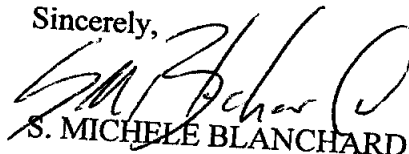

Dear Gentlemen:

After reviewing the public records and through conversations with Carl Hodge Sr., it is my understanding that the McQueens & Blanchards have perfected a settlement agreement between themselves as evidence by instrument number 1794869 that is filed in the St Tammany Parish Public Records on the 13th day of December, 2010.

As the McQueens and Blanchards have amicably resolved their disputes, there is no further action required on the part of this law office. As the Parish is not a part of this settlement, I believe that all parties understand that the action is still pending in so far as it stands against the Parish. However, I believe that it would be in the best interest of all involved to let the action against the Parish abate by inaction. Therefore, it is my understanding that no law office is going to take any further action unless prompted to do so by some course of action by the Parish.

This is my understanding regarding the status of the matter and I will treat the file as closed in my office and wish all parties involved the best of luck in this matter.

Sincerely,

S. MICHELE BLANCHARD
