EXISTING LAND USE:

Multi occupancy development? No

COMPREHENSIVE PLAN:

Conservation - Areas designated for uses of land, water, flora and fauna that appear naturally. Such uses may include such activities as extraction or production for commerce; human enjoyment, hunting, fishing, or other recreation within natural landscapes; or preservation of natural systems. The concept of "conservation" includes a private landowner's understanding of responsibility to wisely manage that resource so that it remains in good condition for future generations (often simple referred to as "good stewardship"); this concept may also include the conservation of energy through efficient transportation options as well as through climate responsive building design, as well as the conservation of historic, scenic, or otherwise serviceable buildings and landscapes. Means to achieve conservation are myriad and include both private and public sector initiatives – such means will be considered in subsequent phases of the New Directions 2025 planning process.

STAFF COMMENTS:

The petitioner is requesting to change the zoning from A-3 (Suburban District) to A-3 (Suburban District) & MHO (Manufactured Housing Overlay). The site is located on the north side of US Highway 190 East, east of Military Road, being 41233 Highway 190 E, Slidell. The 2025 future land use plan designates the area to be developed in a manner that would encourage the preservation of the natural landscape of the area. The site is surrounded by residential uses. Staff does not have any objections to the addition of a manufacture housing overlay to the site.

STAFF RECOMMENDATION:

The staff recommends that the request for a MHO (Manufactured Housing Overlay) designation be approved.
