COMPREHENSIVE PLAN:

Conservation - Areas designated for uses of land, water, flora and fauna that appear naturally. Such uses may include such activities as extraction or production for commerce; human enjoyment, hunting, fishing, or other recreation within natural landscapes; or preservation of natural systems. The concept of "conservation" includes a private landowner's understanding of responsibility to wisely manage that resource so that it remains in good condition for future generations (often simple referred to as "good stewardship"); this concept may also include the conservation of energy through efficient transportation options as well as through climate responsive building design, as well as the conservation of historic, scenic, or otherwise serviceable buildings and landscapes. Means to achieve conservation are myriad and include both private and public sector initiatives – such means will be considered in subsequent phases of the New Directions 2025 planning process

STAFF COMMENTS:

The petitioner is requesting to change the zoning from A-2 (Suburban District) to HC-2 (Highway Commercial District). The site is located on the west side of LA Highway 1083, north of LA Highway 21. The 2025 Future Land Use Plan calls for conservation in the area.

There is an existing 3000 sq.ft office located on the site, which was originally approved as a conditional use permit (CP99-07-062) under the Rural zoning district. The zoning change is being requested in order to allow for the existing facility to be use as a commercial building. Staff does not have any objections to the request.

Note that the parcel just north of the subject site and the parcel located at the intersection of Hwy 1083 and Hwy 21 were recently rezoned to HC-2 (ZC12-07-063).

STAFF RECOMMENDATION

The staff recommends that the request for a HC-2 (Highway Commercial District) designation be approved.
