Recreation District #1 Appeal of traffic and drainage impact fees October 2011 Expansion of the White Pelican Gym Will not produce additional vehicle traffic

The Recreation District is appealing the assessment of Transportation and Drainage Impact fees of \$39,657.25 and 21,352.50 respectively.

The District is expanding the White Pelican Gym from 2 courts to 4 courts.

The District will not be increasing the number of participants. The expansion will allow the scheduling of games at more convenient times.

Present participation numbers and game times

The Recreation District in 2011 had 841 players in our youth basketball program, 115 players in older boys basketball, 616 players in summer basketball and 568 girls in 3 seasons of volleyball. The White Pelican gym is also used for adult basketball, adult volleyball, exercise classes and tournaments.

Reason for expansion of the White Pelican Gym

Primarily due to the large number of participants in our youth leagues we are forced to have practices later in the evening than desired by the District or parents. With present numbers and with 5 game courts we have to schedule games and practices 7 days a week.

During the week, we are forced, at times, to play 3 games per night per court with games starting at 5:30pm which creates major problems for parents getting to the early games but really creates challenges with the late games. We have even had to put 4 games on a court on some nights, with games ending at apx 9:30pm.

On weekends, we start games at 8am on all 5 present game courts and do not end games until 8pm-9pm on a Saturday. We are forced to schedule games on Sundays due to shortage of courts.

The purpose of the addition of two courts is to be able to reduce the number of games/practices held late on a week night and Saturday night as well as to eliminate games on Sunday.

Impact on Traffic

There will not be any increase in traffic flow from this expansion. We will have the same number of leagues, games and players but we will be offering games at a more convenient time to the public. We will not be increasing the cars coming into the Park but only the times and days that they will be in the Park. The number of participants will remain the same, therefore the number of vehicles will remain the same.

We have had a recent traffic study completed by the Parish traffic engineers. We know that we have 11,415 cars enter the Park in a one week's period in September. The results indicate 1.34 cars per player.

Projection for future impact

Present weekly traffic usage during basketball season

3,063 player's trips multiplied by 1.3 cars = 3,982 cars per week for the 5 courts

Projected weekly traffic impact with the addition of two new courts

3,063 player's trips multiplied by 1.3 cars = 3,982 cars per week for the 7 courts.

Traffic impact is zero

Recap

Transportation Impact Fees

Section #5 (B) of exemptions under the St. Tammany Parish Transportation Impact Fee Ordinance states "*the construction of*

accessory buildings or structures which will not produce additional vehicular trips over and above that produced by the principal building or use of the land" The 2 court gym is an expansion of the present White Pelican Gym. *See site drawing attached.*

The traffic will not be increased as the same number of people/cars will be attending games and practices. With the expansion of 2 more courts, the times of scheduled games or practices will not be late night or Sundays.

Drainage Impact Fees

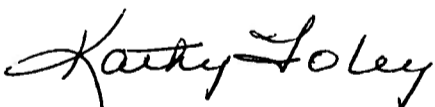

Section #5 of exceptions under the St. Tammany Parish Drainage Impact Fee Ordinance item B states "*the construction of accessory buildings or structures which will not produce additional vehicular trips over and above that produced by the principal building or use of the land*" The drainage exemption reads the same as the transportation exemption. Given this fact, the same argument used for transportation can be used for drainage. These 2 additional courts are an expansion and will not generate new traffic.

Additionally, the District is entitled to an exception based upon section 5 (F) that there is voluntary developmental agreement (styled by the "District Intergovernmental Agreement") in place as of the effective date of this ordinance. *See attachments.*

Based upon the information submitted in this appeal, we request that the Council grant an exception to Recreation District #1 of paying the \$61,009.25 for this 18,250 square feet 2 gym expansion and direct staff to issue a building permit immediately.

The District reserves the right to supplement the documentation submitted with this appeal as it relates to any issues contained herein.

Thank you for your time, efforts and consideration of this appeal.

Background:

Recreation District #1 know as Pelican Park is a free standing governmental agency, created by State Statue and given it's right to exist by St. Tammany Parish.

The Recreation District serves the recreational needs of the residents of the District (greater Mandeville Area) by offering youth sports leagues for baseball, basketball, soccer via MSC, softball, volleyball, cheerleading and football. The District also offers adult sports, tournaments and special events. The District now offers a large number of leisure programs for adults of all ages. For indoor sports the Recreation District has three courts in the Brown Pelican Gym, two courts at the White Pelican Gym and we utilize the Castine Center weekdays from November-January for 4 practice courts.

To be noted:

- The Recreation District built and maintains all of it's own roadways
- The Recreation District operates it's own sewer treatment plants. These plants discharge into the very bottom of the lower Bayou Castine Basin.

Situation

Due to present overcrowding conditions, the Recreation District is expanding the White Pelican Gym. The free standing expansion will consist of two new courts that will be connected to the existing White Pelican gym by an outdoor overhang. This expansion will then mean the White Pelican Gym Complex will have 4 courts to meet the needs of the public.

PROCEDURE FOR INTERGOVERNMENTAL AGREEMENTS
Updated October 2008

The Recreation District established the intergovernmental agreement as a means not to have the taxpayers pay twice for services, improve services to the public and to foster reciprocal relationships with other governmental agencies.

Any new intergovernmental agreement must be approved and signed by the Recreation District Board of Commissioners.

The requirements for an intergovernmental agreement are the following:

1. Group must be a governmental agency. The event/usage must be directly conducted by the agency. Insurance must be through the governmental agency, naming Recreation District #1 as additional insured. Side groups of the governmental agencies such as the deputies association, school PTA's, proms, "friends of" groups, do not qualify.
2. Group must be able to provide reciprocal services to the Park/District. This means that at some time, that the rental agency would provide services to the Park at value of their rental.
3. The sponsored event cannot generate revenue. For example: a fundraiser, trade show with entrance fee or booths sold, collect gate fees, take up a collection, request donations at the door, etc. would not be eligible.
4. *Group may only reserve dates 6 months from the event date.*

To date, we have established intergovernmental agreements with the following agencies:

State Hospitals
State Parks
St. Tammany Parish School Board
St. Tammany Parish Sheriff's Office
St. Tammany Parish
City of Mandeville
Fire District #4

When an intergovernmental agreement is approved by Recreation District #1 and established, all fees are waived except direct out-of-pocket costs to the Park.

For The Castine Center Usage

Direct out-of-pocket costs would be items such as staffing (not including management or regular CC management/supervisors) for the event, caterers fee if applicable, excessive electrical fees and damages. The Park makes an exception for intergovernmental agency use and allows these agencies to set up and take down the park's tables and chairs themselves without cost. If the agency does not have the staff or chooses not to set up or take down the tables and chairs, then they will be billed the cost of the labor to do the work. The same applies to cleaning the facility, sweepin, take out trash, etc. all which must be done by the group prior to leaving the building. Park will use the floor machine afterwards at no cost.

For Use of the Fields and Gyms

Direct out of pocket costs would be items such as staff for the event, marking of fields, setting up goals or nets in the gym, etc. Group is expected to leave the facility clean of trash or the cost of staffing to clean after the event will be charged.

As part of the intergovernmental agreement, the agency must agree to acknowledge Recreation District #1's contribution to the event verbally to their guests during announcements and in written form, i.e., in advertisement, programs, flyers, etc. Written form must be at least 1" H X 3" W, must include our logos and be approved by the Director or the agency may choose one of the following statements:

1. Many thanks to Recreation District #1/Pelican Park and the Castine Center for providing this facility at no cost for this year's event.
2. _____ wish to thank Recreation District #1/Pelican Park and The Castine Center for their contribution to this year by allowing free use of the facilities for this event.
3. Recreation District #1/Pelican Park and The Castine Center are proud to sponsor this year's event by allowing free use of the facilities.

An annual letter is sent to all agencies recapping their savings throughout the previous year as a result of their intergovernmental agreement with Recreation District #1.

The intergovernmental agreement does not apply to use of the facilities within 45 days after a disaster. Emergency rates would apply if used within this 45 day period.

When an approved group with an intergovernmental agreement requests to book the Castine Center or fields, a copy of the contract/rental agreement and costs should be sent to the Recreation District Director for informational purposes.
