## ADMINISTRATIVE COMMENT

### ZONING STAFF REPORT

Date: 2/21/2020

Case No.: 2019-1754-ZC

Posted: 02/21/2020

Meeting Date: March 3, 2020

Determination: Approved

Prior Action: 2/4/2020 - Postponed

#### GENERAL INFORMATION

PETITIONER: Kenneth Lopiccio Sr.

OWNER: Graber, LLC - William Graber III

REQUESTED CHANGE: PUD Planned Unit Development Overlay

LOCATION: Parcel located on the east side of Louisiana Highway 1081, south of Smith Road, north of Thibodeaux Road, Covington

SIZE: 141 acres

#### GENERAL INFORMATION

##### ACCESS ROAD INFORMATION

Type: Terrace Lake Drive - Parish

Road Surface: 1 Lane Asphalt

Condition: Good

Type: Thibodeaux Road - Parish

Road Surface: 1 Lane Asphalt

Condition: Fair

##### LAND USE CONSIDERATIONS

##### SURROUNDING LAND USE AND ZONING:

<u>Direction</u>	<u>Surrounding Use</u>	<u>Surrounding Zone</u>
North	Undeveloped and Residential	A-1 Suburban District and RO Rural Overlay
South	Undeveloped and Residential	A-1 Suburban District, A-1A Suburban District, and RO Rural Overlay
East	Undeveloped and Residential	A-1 Suburban District, A-2 Suburban District, and RO Rural Overlay
West	Residential (Terra Mariae Subdivision)	A-4A Single-Family Residential District, MD-2 Medical Clinic District, CBF-1 Community Based Facilities District, and RO Rural Overlay

##### EXISTING LAND USE:

Existing development: No

Multi occupancy development: No

##### COMPREHENSIVE PLAN:

**Planned Districts** - Coordinated development on several parcels, usually at a higher density – but not in all cases – than other parcels in the proximity, planned in an integrated fashion as single units including residential, commercial and possibly other (institutional, recreational, e.g.) uses, as well as the supporting infrastructure and public services they will require (See “Small Area Plans,” below). Generally, such developments improve environmental qualities, preserve natural environments, provide for open space and recreational uses, and for residential as well as commercial uses, and are equipped with central utility systems and efficient and effective internal and external transportation access in multiple modes.

**Single Family Residential – Conservation** - These planned districts would include clustered single family residential uses, at a density – within the overall tract – which is similar to that of adjoining residential uses, and conservation areas, following a Small Area Plan, and providing for balance, compatibility and integration of uses and all supporting infrastructure. Such individual Planned Residential – Conservation developments should aim to achieve contiguity among adjoining conservation areas in adjacent developments.

##### STAFF COMMENTS:

The petitioner is requesting to change the zoning classification to PUD Planned Unit Development Overlay. The subject property is currently undeveloped and is located east of the existing Terra Mariae and Alexander Ridge Subdivisions off of LA Highway 1081, south of Smith Road, and north of Thibodeaux Road. A concurrent request been submitted (2019-1753-ZC) to change the zoning classification from A-1 Suburban District to A-3 Suburban District to establish the underlying zoning of the proposed residential PUD. While the applicant has not yet revised their initial request for the A-3 Zoning Designation, the most recent PUD plan has been calculated using a yield plan for the A-2 Suburban District zoning designation.

##### SUBDIVISION INFORMATION

The Alexander Ridge Phase 4 Subdivision is proposed to be developed with 141 residential lots (see table below).

Type	Proposed Number of Lots	Lot Size
Alexander Ridge: Phase 4-A	49	55' x 110'
Alexander Ridge: Phase 4-B	32	55' x 110'
Alexander Ridge: Phase 4-C	55	55' x 110'
Estates at Alexander Ridge	5	1.86 acres
Total	141	

ACCESS

Entrance to the site will be provided through the extension of Terrace Lake Drive which is currently accessed from Terra Mariae Boulevard and Louisiana Highway 1081. A second access is proposed from Thibodeaux Road along the southern border of the site.

DENSITY

Per Sec. 130-1674(4)(b), the number of lots/units may be established by a yield plan consisting of conventional street layouts including but not limited to basic topography, soil conditions, drainage, vegetative cover, locations of wetlands, and 100-year floodplains. Said yield plan shall be based upon the standards of the underlying zoning district and comply with all meet all applicable development standards.

The maximum net density permitted within the A-2 Suburban designation allows one unit per acre. The applicant has provided a yield plan that meets the density of the A-2 Suburban District standards and complies with the minimum area regulations including lot width and minimum setback requirements.

GENERAL PUD CRITERIA

Required information	Staff Comments
Title of the project, name of the developer, legal description	Provided as Required
Existing Land Use within 500' of all boundaries on the plan	Provided as Required
Restrictive Covenants	Provided as Required
Water & Sewer facilities	Provided by Terra Mariae (on site)
Wetland Delineations	Provided as Required
Flood Zone Demarcation Lines	Provided as Required
Ultimate Disposal of Surface Drainage	Provided as Required
Environmental Assessment Data Form	Provided as Required

GREENSPACE

Per Sec. 125-95(b), subdivisions with more than 25 lots shall provide greenspace area at a ratio of not less than 580 sq. ft. per residential lot. The applicant is proposing 141 lots which will require 81,780 sq. ft. of greenspace, or 1.88 acres. The applicant is providing 46.41 acres of greenspace which exceeds the aforementioned requirements.

Amenities	Acreage	Type of Amenities
Passive	62 % (102.65)	Greenspace
Active	11% (1 acre)	Walking Trail, Nature Park, Pavilion/Exercise Station

Comments:

- a. A complete Recreational Development Plan shall be submitted depicting the proposed amenities, a time schedule for development, and the entity whom shall be responsible for the liability and maintenance of the recreational amenities and greenspace areas.

COMPREHENSIVE PLAN ANALYSIS

The 2025 Future Land Use Plan designates the site to be developed with Single-Family Residential Planned Districts that provide an emphasis on achieving continuity with adjoining conservation areas and adjacent developments. By exceeding the required greenspace and providing both passive and active amenities, the proposal meets the objectives of the 2025 Future Land Use Plan.

The proposed subdivision plat adheres to most of the general standards of the PUD designation, including environmentally sensitive design that is of a higher quality than would be possible under the regulations otherwise applicable to the property, and the preservation of natural features of a development site.
