

"This is only the scope of work for the project. For more information, interested parties should contact Procurement at [purchasing@stp.gov.org](mailto:purchasing@stp.gov) to ensure receipt of a full project package, to be listed as a plan holder and to ensure any addenda to the project package are received."

Scope of Work/Services

Provide transportation and disposal of non-hazardous bio solids generated from the Parish's Wastewater Treatment Plants (WWTP). Proposer will provide roll-off containers (25 cu.yd to 30 cu.yd), with liners at the Parish's (2) facilities equipped with belt presser to dewater the bio solids and produce non- hazardous "cake".

The two (2) facilities are as follows:

- **Cross Gates Sewage Treatment Facility** (Cross Gates), 350 N. Military Road, Slidell, LA 70461 (S38-T09S-R15E); and
- **Westwood Regional Sewage Treatment Facility** (Westwood), 176 Judge Tanner Boulevard, Covington, LA 70433 (S37-T07S-R11E).

Cross Gates and Westwood have each been issued a Sewage Sludge and Bio solids Use and Disposal Permit by the Louisiana Department of Environmental Quality (LDEQ). The cake must be loaded into the roll-off container for transport and disposal in accordance with the LDEQ permits LAJ019826 (Cross Gates) and LAJ019917 (Westwood) (Attachment "A").

The containers must be placed adjacent to the belt presses at these locations and as directed by the Parish. Liners for the roll-off containers must be provided.

On an as-needed basis, to be determined by Parish, pick-up and transport the loaded roll-off containers to dispose of the de-watered sewage sludge in accordance with the LDEQ permits.
