

"This is only the scope of work for the project. For more information, interested parties should contact Procurement at purchasing@stpgov.org to ensure receipt of a full project package, to be listed as a plan holder and to ensure any addenda to the project package are received."

Scope of Work/Services

Provider is to provide a fixed rate for the complete rebuild of several classes of open drip proof, Totally Enclosed Fan Cooled (TEFC), and submersible electric motors used by the Parish Tammany Utilities Department.

The motors to be rebuilt are for utility applications to include but not limit to water wells and sewage lift stations. As public health and well-being are of prime importance, only the highest standards of work quality and service will be acceptable. The Parish, in its interest and in its sole opinion, will determine if the Provider is providing acceptable standards of work quality and service. If the Provider fails to demonstrate successful performance of the requirements of the Contract, the Parish may cancel the contract.
