

**"This is only the scope of work for the project. For more information, interested parties should contact Procurement at [purchasing@stpgov.org](mailto:purchasing@stpgov.org) to ensure receipt of a full project package, to be listed as a plan holder and to ensure any addenda to the project package are received."**

RFQ# 19-08-4 – DES Engineer of Record

Provider shall provide professional engineering services on a periodic basis to assist the Department of Environmental Services (DES) in general and specifically to assist Tammany Utilities (TU). In general, engineering services are required for the expansion of the water and wastewater systems, relocation of sewer or water lines, for the assimilation of privately owned developments into the TU system, and for the connection of existing homes and businesses to the TU system. Engineering services, provided by a professional engineer licensed in the State of Louisiana, are needed to prepare engineered plans and permit applications for approval by the Louisiana Department of Health (LDH) and/or the Louisiana Department of Transportation and Development (LDOTD). Engineering services are occasionally required for the operation and maintenance of the existing TU infrastructure.

Engineering services to be provided to include but are not limited to:

Task 1 - Development Utility Design Review:

Task 2 - Engineering Drawings for LDH and/or LDOTD Approval:

Task 3 - Evaluation and Recommendations for Operational and Treatment Issues:

Task 4 - Parish Standard Design Drawings and Specifications:

Task 5 - Assist Parish with Water and/or Wastewater Capital Improvement Projects (CIP) and Non-Capital Projects:

Task 6 - Other Engineering Services
