

ST. TAMMANY PARISH

MICHAEL B. COOPER
PARISH PRESIDENT

February 16th, 2022

Please find the following addendum to the below mentioned RFP.

Addendum No.: 2

RFP#: 22-1-3

Project Name: Animal Services HVAC Maintenance

RFP Due Date: February 23, 2022

GENERAL INFORMATION:

1. Please DELETE Attachment “A”-Equipment Model-Serial Information and Attachment – “A” Animal Services HVAC Equipment List 2022 – REPLACE them with Attachment “A” Animal Services HVAC Equipment List 2022- REVISED (Attached). The section has been revised to clarify the HVAC equipment list descriptions.
2. Photos of HVAC systems in the main building have been attached.
3. Kennel “C” condensing unit will be repaired to proper working order before the Contractor begins the Contract. If for some unforeseeable reason the unit is not repaired by the contract start date, the Contractor is relieved of responsibility until it is completed. The parts are currently on order and the PO has been issued.

ATTACHMENTS:

1. Attachment “A” – Animal Services HVAC Equipment List 2022 – REVISED
2. Photos – HVAC system main building.pdf

QUESTIONS AND ANSWERS:

Question 1: How often are filters to be changed under contract and who provides the filters?

Answer 1: The Contractor is responsible for providing and replacing the filters on the 1st of every month. 12 filters changeouts per year.

ST. TAMMANY PARISH

MICHAEL B. COOPER
PARISH PRESIDENT

Question 2: It was discussed about only the major HVAC equipment and components being covered for repair and replacement and not including items like the ductwork, refrigerant piping, insulation and grilles. Will only the HVAC equipment and exhaust and supply fans be covered?

Answer 2: Ductwork and grilles are excluded; however, refrigerant piping and insulation are included. All Heating, Venting, and Air Conditioning hardware is included.

Question 3: Carrier Model # 38ARD0014-501 Serial Number 4106G10057 has a damaged fan and coils. Will any repairs for this be excluded? If the coil is not replaced will the new contractor be responsible for any future leaks in the coil that are caused from this damaged fan tearing up the coil?

Answer 3: We are in the process of having the unit repaired. Once the unit is deemed to be repaired with normal operation, the Contractor will resume full responsibility of the system. The coil received only minor aluminum fin damage. The inspection shows no damage to copper line in coil. Refer to General Information #3 for additional information.

Question 4: The exhaust and supply fans look to be unmaintained. Will these fans be cleaned and checked prior to contract? If not, will the contractor be responsible for any immediate repairs and initial cleaning?

Answer 4: The Contractor will be responsible for keeping all HVAC hardware clean and in proper operating condition. If a major failure is noted at start-up, it is to be reported immediately to determine responsibility. We will work with the Contractor to rectify any major deficiencies found within the first week of the contract.

Question 5: Dog Isolation split system to be removed from bid?

Answer 5: The Contractor will not be responsible for the Dog Isolation building AC. When the new building is complete, we will renegotiate the cost to include the new building AC system that will have warranty coverage.

ST. TAMMANY PARISH

MICHAEL B. COOPER
PARISH PRESIDENT

Question 6: Is there a discovery period to find broken items that the new contractor will not be liable for once awarded, and will equipment be turned over in maintainable condition?

Answer 6: We would like a start-up to be done within one week of signing the contract and for any MAJOR repairs needed to be reported to management ASAP. This is referring to Motor or Compressor failures, but not contactors and capacitors or other small inexpensive parts.

Question 7: Who and when would make the decision if the unit has to be replaced or continue with repairs?

Answer 7: The Contractor would make the decision if the unit has to be replaced or to continue with repairs. If the unit cannot be repaired, then it must be replaced.

End of Addendum #2

Animal Services HVAC Equipment List-

REVISED

Administration Building

-(2) 5-Ton Carrier Split Systems (Belt driven Air handlers)

COND (1) M) 38ARZ008-501 S) 4306G20100
