With the following:
The installation of the lightning protection system is required to be directly supervised by an LPI certified, Master Electrician.

QUESTIONS & ANSWERS:

Question 1: Regarding the corner electrical parking lot bid I am requesting more clarification on the qualifications. I am a state licensed master electrician. Is this sufficient enough satisfy the qualifications to bid on this job? Because I am confused on some of the language and other requirements for this job i.e. (UL trained, LPI certified, Master Installer).

Answer1: We are going to remove the "UL Trained" requirement and change "Master Installer" to "Master Electrician" and the "LPI Certified" requirement remains.
