Contractor shall provide all signage and barricades.

The time period of completion is 30 days from Notice to Proceed issued by the Parish.

A Quote Guarantee is not required for this project.

Any work that may be reasonably inferred from the specifications or drawings as being required to produce the intended result shall be supplied whether or not it is specifically called for. Work, materials or equipment described herein which so applied to this project are covered by a well-known technical meaning or specification shall be deemed to be governed by such recognized standards unless specifically excluded.

2.2 Period of Agreement

The term of any contract resulting from this solicitation shall begin on the date of the Parish President’s signature or approval in writing by the Parish President or designee. The contract shall terminate pursuant to the terms and conditions of section 5.30 herein, the terms and conditions of the contract, operation of law, as agreed between the parties, or upon satisfactory completion of all services and obligations described in the contract.

2.5 Licensing Required

Only a Contractor licensed by the State to do the type of work indicated in Section 2.1 may submit a quote. The Respondent’s signature on the quote certifies that he holds an active license under the provisions of Chapter 24 of the Louisiana Revised Statutes, Title 37. Failure to be properly licensed constitutes authority for the Parish to reject the quote.

PART III: EVALUATION

The quotes will be evaluated in light of the material and the substantiating evidence presented to the Parish, not on the basis of what may be inferred.

The lowest monetary quote in compliance with the Quote Request will be awarded the contract. Only for the purpose of interpretation of the quote, when applicable, written words shall govern if a conflict exists between words and numerals.

PART IV: PERFORMANCE STANDARDS

4.1 Performance Requirements

4.1.1 Shop drawings, Brochures and Samples

After checking and verifying all field measurements, Contractor shall submit to the Parish for approval, five copies (or at the Parish’s option, one reproducible copy) of all shop drawings, which shall have been checked by and stamped with the approval of Contractor and identified as the Parish may require. The data shown on the shop drawings will be complete with respect to dimensions, design criteria, materials of construction and the like to enable the Parish to review the information as required.

Contractor shall also submit to the Parish, for review with such promptness as to cause no delay in work, all samples as required by the contract documents. All samples will have been checked by and stamped with the approval of Contractor identified clearly as to material, manufacturer, any pertinent catalog numbers and the use for which intended. At the time of each submission, Contractor shall in writing call the Parish’s attention to any deviations that the shop drawings or samples may have from the requirements of the contract documents.

The Parish will review with reasonable promptness shop drawings and samples, but its review shall be only for conformance with the design concept of the project and for compliance with the information given in the contract documents. The review of a separate item as such will not indicate approval of the assembly in which the item functions. Contractor shall make any corrections required by the Parish and shall return the required number of corrected copies of shop drawings and resubmit new samples for review. Contractor shall direct specific attention in writing or on resubmitted shop drawings to revisions other than the corrections called for by the Parish on previous submissions. Contractor’s stamp of approval on any shop drawing or sample shall constitute a representation to the Parish that Contractor has determined and verified all quantities, dimensions, field construction criteria, materials catalog numbers and similar data and
thereafter assumes full responsibility for doing so, and that it has reviewed or coordinated each shop drawing or sample with the requirements of the work and the contract documents.

Where a shop drawing or sample submission is required by the specifications, no related work shall be commenced until the submission has been reviewed by the Parish. A copy of each reviewed shop drawing and each inspected sample shall be kept in good order by Contractor at the site and shall be available to the Parish.

The Parish's review of shop drawings or samples shall not relieve Contractor from its responsibility for any deviations from the requirements of the contract documents unless Contractor has in writing called the Parish's attention to such deviation at the time of submission and the Parish has given written approval to the specific deviation, nor shall any review by the Parish relieve Contractor from responsibility for errors or omissions in the shop drawings. The mere submittal of shop drawings which contain deviations from the requirements of plans, specifications and/or previous submittals in itself does not satisfy this requirement.

4.1.2 Record Drawings

The Contractor shall keep an accurate record in a manner approved by the Parish of all changes in the contract documents during construction. In work concerning underground utilities, the Contractor shall keep an accurate record in a manner approved by the Parish of all valves, fittings, etc. Before the work is accepted by the Parish, and said acceptance is recorded, the Contractor shall furnish the Parish a copy of this record.

Contractor shall keep an accurate drawing measured in the field to the nearest 0.1’ of the location of all sewer house connections. The location shown shall be the end of the connection at the property line measured along the main line of pipe from a manhole.

Contractor shall keep an accurate drawing of the storm water drainage collection system. Inverts to the nearest 0.01’ and top of castings shall be shown as well as location of all structures to the nearest 0.1’. Upon completion of the work, the plan will be given to the Parish.

4.1.3 Progress of Work

Contractor shall conduct the work in such a professional manner and with sufficient materials, equipment and labor as is considered necessary to ensure its completion within the time limit specified.

The Parish shall issue a Notice to Proceed to the Contractor within twenty (20) calendar days from the date of execution of the contract. Upon mutual consent by both parties, the Notice to Proceed may be extended. The Contractor is to commence work under the contract within ten (10) calendar days from the date the Notice to Proceed is issued by the Parish.

The Contractor, immediately after being awarded the contract, shall prepare and submit for the Parish's approval an estimated progress schedule for the work to be performed, as well as a construction signing layout for all roads within the project area. The Contractor shall not start work or request partial payment until the work schedule has been submitted to the Parish for approval.

Revisions to the original schedule will be made based on extension of days granted for inclement weather or change orders issued under the contract. No other revision shall be made which affects the original completion or updated completion date, whichever is applicable.
Failure of the Contractor to submit an estimated progress schedule or to complete timely and on schedule the work shown on the progress schedule negates any and all causes or claims by the Contractor for accelerated completion damages. These accelerated damage claims shall be deemed forfeited.

Meetings will be held as often as necessary to expedite the progress of the job. Meetings will be held during normal working hours at the jobsite and shall be mandatory for the Contractor and all subcontractors working on the project. Meetings may be requested by the Parish at any time and at the discretion of the Parish.

4.1.4 The Parish’s Right to Proceed with Portions of the Work

Upon failure of the Contractor to comply with any notice given in accordance with the provisions hereof, the Parish shall have the alternative right, instead of assuming charge of the entire work, to place additional forces, tools, equipment and materials on parts of the work. The cost incurred by the Parish in carrying on such parts of the work shall be payable by the Contractor. Such work shall be deemed to be carried on by the Parish on account of the Contractor. The Parish may retain all amounts of the cost of such work from any sum due Contractor or those funds that may become due to Contractor under the contract.

The Parish may perform additional work related to the project by itself or it may let any other direct contract which may contain similar general conditions. Contractor shall afford the other Contractors who are parties to such different contracts (or the Parish, if it is performing the additional work itself) reasonable opportunity for the introduction and storage of materials and equipment and the execution of work, and shall properly connect and coordinate its work with the subsequent work.

If any part of Contractor’s work depends upon proper execution or results upon the work of any such other Contractor (or the Parish), Contractor shall inspect and promptly report to the Parish in writing any defects or deficiencies in such work that render it unsuitable for such proper execution and results. Failure to so report shall constitute an acceptance of the other work as fit and proper for the relationship of its work except as to defects and deficiencies which may appear in the other work after the execution of its work.

Whatever work is being done by the Parish, other Contractors or by this Contractor, the parties shall respect the various interests of the other parties at all times. The Parish may, at its sole discretion, establish additional rules and regulations concerning such orderly respect of the rights of various interests.

Contractor shall do all cutting, fitting and patching of its work that may be required to integrate its several parts properly and fit to receive or be received by such other work. Contractor shall not endanger any work of others by cutting, excavating or otherwise altering work and will only alter work with the written consent of the Parish and of the other Contractors whose work will be affected.

If the performance of additional work by other Contractors or the Parish is not noted in the contract documents, written notice thereof shall be given to Contractor prior to starting any such additional work. If Contractor believes that the performance of such additional work by the Parish or others may cause additional expense or entitles an extension of the contract time, the Contractor may
make a claim therefor. The claim must be in writing to the Parish within thirty (30) calendar days of receipt of notice from the Parish of the planned additional work by others.

4.1.5 Time of Completion

The Notice to Proceed will stipulate the date on which the Contractor shall begin work. That date shall be the beginning of the contract time charges.

Contractor shall notify the Parish through its duly authorized representative, in advance, of where Contractor’s work shall commence each day. A daily log shall be maintained by Contractor to establish dates, times, persons contacted, and location of work. Specific notice shall be made to the Parish if the Contractor plans to work on Saturday, Sunday, or a Parish approved holiday. If notice is not received, no consideration will be given for inclement weather and same shall be considered a valid work day.

The work covered by the plans, specifications and contract documents must be completed sufficiently for acceptance within the number of calendar days specified in the quote and/or the contract, commencing from the date specified in the Notice to Proceed. It is hereby understood and mutually agreed, by and between the Contractor and the Parish, that the time of completion is an essential condition of the contract, and it is further mutually understood and agreed that if the Contractor shall neglect, fail or refuse to complete the work within the time specified, or any proper extension thereof granted by the Parish, then the Contractor does hereby agree, as partial consideration for the awarding of the contract, to pay the Parish $500.00 per day as specified in the contract, not as a penalty, but as liquidated damages for such breach of contract for each and every calendar day that the Contractor shall be in default after the time stipulated in the contract for completing the work. It is specifically understood that the Parish shall also be entitled to receive a reasonable attorney fee and all costs in the event that Contractor fails to adhere to this agreement and the contract is referred to counsel for any reason whatsoever. Reasonable attorney fees shall be the prevailing hourly rate of the private sector, and in no event shall the hourly rate be less than $175.00 per hour. All attorney fees shall be paid to the operating budget of the Office of the Parish President.

Prior to final payment, the Contractor may, in writing to the Parish, certify that the entire project is substantially complete and request that the Parish or its agent issue a certificate of Substantial Completion.

The Parish may grant an extension(s) of time to the Contractor for unusual circumstances which are beyond the control of the Contractor and could not reasonably be foreseen by the Contractor prior to submission of its quote. Any such request must be made in writing to the Parish within seven (7) calendar days following the event occasioning the delay. The Parish shall have the exclusive and unilateral authority to determine, grant, and/or deny the validity of any such claim.

Extensions of time for inclement weather shall be processed as follows:

Commencing on the start date of each job, the Parish Inspector assigned to same shall keep a weekly log, indicating on each day whether inclement weather has prohibited the Contractor from working on any project within the specific job, based upon the following:

1. Should the Contractor prepare to begin work on any day in which inclement weather, or the conditions resulting from the weather, prevent work from beginning at the usual starting time, and the crew is dismissed as a result, the Contractor will
not be charged for a working day whether or not conditions change during the day and the rest of the day becomes suitable for work.

2. If weather conditions on the previous day prevent Contractor from performing work scheduled, provided that no other work can be performed on any project within the package. The Parish Inspector shall determine if it is financially reasonable to require the Contractor to deviate from the schedule and relocate to another location.

3. If the Contractor is unable to work at least 60% of the normal work day due to inclement weather, provided that a normal working force is engaged on the job.

Any dispute of weather conditions as related to a specific job shall be settled by records of the National Weather Service.

4.1.6 Extensions of Time for Change Orders

When a change order is issued, the Parish and Contractor will agree on a reasonable time extension, if any, to implement such change. Consideration shall be given for, but not limited to, the following:

- If material has to be ordered;
- Remobilization and or relocation of equipment to perform task; and
- Reasonable time frame to complete additional work.

Time extensions for change orders shall be reflected on the official document signed by the Parish and Contractor.

At the end of each month, the Parish or its agent will furnish to the Contractor a monthly statement which reflects the number of approved days added to the contract. The Contractor will be allowed fourteen (14) calendar days in which to file a written protest setting forth in what respect the monthly statement is incorrect; otherwise, the statement shall be considered accepted by the Contractor as correct.

Apart from extension of time for unavoidable delays, no payment or allowance of any kind shall be made to the Contractor as compensation for damages because of hindrance or delay for any cause in the progress of the work, whether such delay be avoidable or unavoidable.

4.1.7 Liquidated Damages

In case the work is not completed in every respect within the time that may be extended, it is understood and agreed that per diem deductions of the sum of $500.00 for liquidated damages, as stipulated in the quote and/or contract, shall be made from the total contract price for each and every calendar day after and exclusive of the day on which completion was required, and up to the completion of the work and acceptance thereof by the Parish. It is understood and agreed that time is of the essence to the contract, and the above sum being specifically herein agreed upon in advance as the measure of damages to the Parish on account of such delay in the completion of the work. It is further agreed that the expiration of the term herein assigned or as may be extended for performing the work shall, ipso facto, constitute a putting in default, the Contractor hereby waiving any and all notice of default. The Contractor agrees and consents that the contract price, reduced by the aggregate of the entire damages so deducted, shall be accepted in full.
satisfaction of all work executed under the contract. It is further understood and agreed that Contractor shall be liable for a reasonable attorney fee and all costs associated with any breach of this agreement, including but not limited to this subsection. In the event that any dispute or breach herein causes referrals to counsel, then Contractor agrees to pay a reasonable attorney fee at the prevailing hourly rate of the private sector. In no event shall the hourly rate be less than $175.00 per hour.

4.1.8 Labor, Materials, Equipment, Supervision, Permits and Taxes

The Contractor shall provide and pay for all labor, materials, equipment, supervision, subcontracting, transportation, tools, fuel, power, water, sanitary facilities and all incidentals necessary for the completion of the work in substantial conformance with the contract documents.

The Contractor shall provide competent, suitably qualified personnel to survey and lay out the work and perform construction as required by the contract documents. It shall at all times maintain good discipline and order at the site.

Unless otherwise specifically provided for in the specifications, all workmanship, equipment, materials, and articles incorporated in the work covered by the contract are to be new and of the best grade of their respective kinds for the purpose intended. Samples of materials furnished under the contract shall be submitted for approval to the Parish when and as directed.

Whenever a material or article required is specified or shown on the plans by using the name of a proprietary product or of a particular manufacturer or vendor, any material or article which shall perform adequately the duties imposed by the general design will be considered equal, and satisfactory, providing the material or article so proposed is of equal substance and function and that all technical data concerning the proposed substitution be approved by the Parish prior to the submission of a quote. The Parish shall have the exclusive and unilateral discretion to determine quality and suitability.

Materials shall be properly and securely stored so as to ensure the preservation of quality and fitness for the work, and in a manner that leaves the material accessible to inspection. Materials or equipment may not be stored on the site in a manner such that it will interfere with the continued operation of streets and driveways or other Contractors working on the site.

The Contractor, by entering into the contract for this work, sets itself forth as an expert in the field of construction and it shall supervise and direct the work efficiently and with its best skill and attention. It shall be solely responsible for the means, methods, techniques, sequences and procedures of construction.

Contractor shall keep on the work, at all times during its progress, a competent resident superintendent, who shall not be replaced without written notice to the Parish except under extraordinary circumstances. The superintendent will be Contractor's representative at the site and shall have authority to act on behalf of Contractor. All communications given to the superintendent shall be as binding as if given to the Contractor. The Parish specifically reserves the right to approve and/or disapprove the retention of a new superintendent, all to not be unreasonably withheld.

Any foreman or workman employed on this project who disregards orders or instructions, does not perform his work in a proper and skillful manner, or is otherwise objectionable, shall, at the
written request of the Parish, be removed from the work and shall be replaced by a suitable foreman or workman.

The Contractor and/or its assigned representative shall personally ensure that all subcontracts and divisions of the work are executed in a proper and workmanlike manner, on scheduled time, and with due and proper cooperation.

Failure of the Contractor to keep the necessary qualified personnel on the work shall be considered cause for termination of the contract by the Parish.

Only equipment in good working order and suitable for the type of work involved shall be brought onto the job and used by the Contractor. The Contractor is solely responsible for the proper maintenance and use of its equipment and shall hold the Parish harmless from any damages or suits for damages arising out of the improper selection or use of equipment. No piece of equipment necessary for the completion of the work shall be removed from the job site without approval of the Parish.

All Federal, State and local taxes due or payable during the time of contract on materials, equipment, labor or transportation, in connection with this work, must be included in the amount bid by the Contractor and shall be paid to proper authorities before acceptance. The Contractor shall furnish all necessary permits and certificates and comply with all laws and ordinances applicable to the locality of the work. The cost of all inspection fees levied by any governmental entity whatsoever shall be paid for by the Contractor.

In accordance with St. Tammany Police Jury Resolution 86-2672, as amended, the Contractor must provide in a form suitable to the Parish an affidavit stating that all applicable sales taxes for materials used on this project have been paid.

During the period that the contract is in force, neither party to the contract shall solicit for employment or employ an employee of the other.

All materials or equipment shown on the drawings or included in these specifications shall be furnished unless written approval of a substitute is obtained from the designer, or the Parish if no separate designer.

If a potential supplier wishes to submit for prior approval a particular product other than a product specified in the contract documents, he shall do so no later than seven working days prior to the opening of bids. Within three days, exclusive of holidays and weekends, after such submission, the prime design professional shall furnish to both the public entity and the potential supplier written approval or denial of the product submitted. Such increase or diminution shall in no way vitiate the contract, nor shall such increase or diminution give cause for claims or liability for damages.

The Parish shall have the right to make alterations in the line, grade, plans, form or dimensions of the work herein contemplated, provided such alterations do not change the total cost of the project, based on the originally estimated quantities, and the unit prices bid by more than twenty-five percent (25%) and provided further that such alterations do not change the total cost of any major item, based on the originally estimated quantities and the unit price bid by more than twenty-five (25%). (A major item shall be construed to be any item, the total cost of which is equal to or greater than ten percent (10%) of the total contract price, computed on the basis of the proposal quantity and the contract unity price). Should it become necessary, for the best interest of the Parish, to make changes in excess of that herein specified, the same shall be covered by supplemental agreement either before or after the commencement of the work and without notice to the sureties. If such alterations diminish the quantity of work to be done, such shall not constitute a claim for damages for anticipated profits for the work dispensed with, but when the reduction in amount is a material part of the work contemplated, the Contractor shall be entitled to only reasonable compensation as determined by the Parish for overhead and equipment charges which it may have incurred in expectation of the quantity of work originally estimated, unless specifically otherwise provided herein; if the alterations increase the amount of work, the increase shall be paid according to the quantity of work actually done and at the price established for such work under the contract except where, in the opinion of the Parish, the Contractor is clearly entitled to extra compensation.

Without invalidating the contract, the Parish may order extra work or make changes by altering, adding to, or deducting from the work, the contract sum being adjusted accordingly. The consent of the surety must first be obtained when necessary or desirable, all at the exclusive discretion of the Parish. All the work of the kind bid upon shall be paid for at the price stipulated in the quote, and no claims for any extra work or material shall be allowed unless the work is ordered in writing by the Parish.

Where such price and sum cannot be agreed upon by both parties, or where this method of payment is impracticable, the Parish may, at its exclusive and unilateral discretion, order the Contractor to do such work on a force account basis.

In computing the price of extra work on a force account basis, the Contractor shall be paid for all foremen and labor actually engaged on the specific work at the current local rate of wage for each and every hour that said foremen and labor are engaged in such work, plus ten percent (10%) of the total for superintendence, use of tools, overhead, direct & indirect costs/expenses, pro-rata applicable payroll taxes, pro-rata applicable workman compensation benefits, pro-rata insurance premiums and pro-rata reasonable profit. The Contractor shall furnish satisfactory evidence of the rate or rates of such insurance and tax. The Contractor will not be able to collect any contribution to any retirement plans or programs.
For all material used, the Contractor shall receive the actual cost of such material delivered at the site of the work, as shown by original receipted bill, to which shall be added five percent (5%). There will be absolutely no additional surcharges or additional fees attached hereto with respect to this subsection.

For any equipment used that is owned by the Contractor, the Contractor shall be allowed a rental based upon the latest prevailing rental price, but not to exceed a rental price as determined by the Associated Equipment Distributors (A.E.D. Green Book).

The Contractor shall also be paid the actual costs of transportation for any equipment which it owns and which it has to transport to the project for the extra work. There will be absolutely no additional surcharges or additional fees attached hereto with respect to this subsection.

If the Contractor is required to rent equipment for extra work, but not required for contract items, it will be paid the actual cost of rental and transportation of such equipment to which no percent shall be added. The basis upon which rental cost is to be charged shall be agreed upon in writing before the work is started. Actual rental and transportation costs shall be obtained from receipted invoices and freight bills.

No compensation for expenses, fees or costs incurred in executing extra work, other than herein specifically mentioned herein above, will be allowed.

A record of extra work on force account basis shall be submitted to the Parish on the day following the execution of the work, and no less than three copies of such record shall be made on suitable forms and signed by both the Parish or its representative on the project and the Contractor. All bids for materials used on extra work shall be submitted to the Parish by the Contractor upon certified statements to which will be attached original bills covering the costs of such materials.

Respondents should refer to the Louisiana Public Records Act for further clarification.
The Respondent must clearly designate the part of the quote that contains a trade secret and/or privileged or confidential proprietary information as “confidential” in order to claim protection, if any, from disclosure. The Respondent shall mark the cover sheet of the quote with the following legend, specifying the specific section(s) of his quote sought to be restricted in accordance with the conditions of the legend:

“The data contained in pages _____ of the quote have been submitted in confidence and contain trade secrets and/or privileged or confidential information and such data shall only be disclosed for evaluation purposes, provided that if a contract is awarded to this Respondent as a result of or in connection with the submission of this quote, the Parish of St. Tammany shall have the right to use or disclose the data therein to the extent provided in the contract. This restriction does not limit the Parish of St. Tammany’s right to use or disclose data obtained from any source, including the Respondent, without restrictions.”

Further, to protect such data, each page containing such data shall be specifically identified and marked “CONFIDENTIAL”.

Respondents must be prepared to defend the reasons why the material should be held confidential. If a competing respondent or other person seeks review or copies of another respondent’s confidential data, the Parish will notify the Parish of the asserted data of the request. If the Parish of the asserted data does not want the information disclosed, it must agree to indemnify the Parish and hold the Parish harmless against all actions or court proceedings that may ensue (including attorney’s fees), which seek to order the Parish to disclose the information. If the Parish of the asserted data refuses to indemnify and hold the state harmless, the Parish may disclose the information.

The Parish reserves the right to make any quote, including proprietary information contained therein, available to Parish personnel, the Parish Council, or other Parish and state agencies or organizations for the sole purpose of assisting the Parish in its evaluation of the quote. The Parish shall require said individuals to protect the confidentiality of any specifically identified proprietary information or privileged business information obtained as a result of their participation in these evaluations.

If your quote contains confidential information, you should also submit a redacted copy along with your quote. If you do not submit the redacted copy, you will be required to submit this copy within 48 hours of notification from the Procurement Department. When submitting your redacted copy, you should clearly mark the cover as such - “REDACTED COPY” - to avoid having this copy reviewed by an evaluation committee member. The redacted copy should also state which sections or information have been removed.

5.3 Quote Clarifications Prior to Submittal

5.3.1 Pre-Quote Conference

Omitted as not applicable to this Quote Request.

5.3.2 Respondent Inquiry Periods
The Parish shall not and cannot permit an open-ended inquiry period, as this creates an unwarranted delay in the procurement cycle and Parish operations. The Parish reasonably expects and requires responsible and interested Respondents to conduct their in-depth quote review and submit inquiries in a timely manner.

An inquiry period is hereby firmly set for all interested Respondents to perform a detailed review of the quote documents and to submit any written inquiries relative thereto. Without exception, all inquiries MUST be submitted in writing by an authorized representative of the Respondent, clearly cross-referenced to the relevant solicitation section. All inquiries must be received by the Inquiry Deadline date and time set forth in Section 1.3 Schedule of Events of this Quote Request. Only those inquiries received by the established deadline shall be considered by the Parish. Inquiries received after the established deadline shall not be entertained.

E-Mail: purchasing@stpgov.org

An addendum will be issued and posted at the Parish website, www.stpgov.org, to address all inquiries received and any other changes or clarifications to the solicitation. Thereafter, all quote documents, including but not limited to the specifications, terms, conditions, plans, etc., will stand as written and/or amended by any addendum. No negotiations, decisions, or actions shall be executed by any Respondent as a result of any oral discussions with any Parish employee or Parish consultant. It is the Respondent's responsibility to check the Parish website frequently for any possible addenda that may be issued. The Parish is not responsible for a Respondent's failure to download any addenda documents required to complete a Quote Request.

5.4 Errors and Omissions in Quote

The Parish will not be liable for any error in the quote. Respondent will not be allowed to alter quote documents after the deadline for quote submission, except under the following condition: the Parish reserves the right to make corrections or clarifications due to patent errors identified in quotes by the Parish or the Respondent. The Parish, at its option, has the right to request clarification or additional information from the Respondent.

5.5 Quote Guarantee

Respondents submitting quotes over twenty-five thousand dollars ($25,000) may be required to provide a guarantee in the form of a bond or a certified or cashier’s check or money order made payable to the Parish of St. Tammany, in the amount of five percent (5%) of the quote amount. If a bond is used, it shall be written by a surety or insurance company currently on the U.S. Department of the Treasury Financial Management Service list of approved bonding companies which is published annually in the Federal Register, or by a Louisiana domiciled insurance company with at least an A- rating in the latest printing of the A.M. Best's Key Rating Guide to
write individual bonds up to ten percent of policyholders’ surplus as shown in the A.M. Best's Key Rating Guide or by an insurance company in good standing licensed to write bid bonds which is either domiciled in Louisiana or owned by Louisiana residents. It is **not** required to be on any AIA form.

Quote guarantees shall be subject to forfeiture for failure on the part of the selected Respondent to execute a contract within twenty (20) days after such contract is submitted to Respondent in conformance with the terms, conditions, and specifications of this solicitation. Quote guarantees in the form of a check or money order shall be returned upon the award of a contract or upon rejection of all quotes.

### 5.6 Performance Bond

For projects costing twenty-five thousand dollars ($25,000) or more, the successful Respondent shall be required to provide a performance (surety) bond in the amount of one hundred percent (100%) of the project cost to insure the successful performance under the terms and conditions of the contract negotiated between the successful Respondent and the Parish. The contract shall not be in force or binding upon the Parish until such satisfactory bond has been provided to and approved by the Parish. The cost of the bond shall be paid by the Contractor.

Any performance bond furnished shall be written by a surety or insurance company currently on the U.S. Department of the Treasury Financial Management Service list of approved bonding companies which is published annually in the *Federal Register*, or by a Louisiana domiciled insurance company with at least an A- rating in the latest printing of the A.M. Best's Key Rating Guide to write individual bonds up to 10 percent of policyholders' surplus as shown in the A.M. Best's Key Rating Guide or by an insurance company that is either domiciled in Louisiana or owned by Louisiana residents and is licensed to write surety bonds.

No surety or insurance company shall write a performance bond which is in excess of the amount indicated as approved by the U.S. Department of the Treasury Financial Management Service list or by a Louisiana domiciled insurance company with an A- rating by A.M. Best up to a limit of 10 percent of policyholders' surplus as shown by A.M. Best; companies authorized by this Paragraph who are not on the treasury list shall not write a performance bond when the penalty exceeds 15 percent of its capital and surplus, such capital and surplus being the amount by which the company's assets exceed its liabilities as reflected by the most recent financial statements filed by the company with the Department of Insurance.

The performance bond is to be provided within 10 working days from request. Failure to provide within the time specified may cause your offer to be rejected.

In addition, any performance bond furnished shall be written by a surety or insurance company that is currently licensed to do business in the state of Louisiana.

Should the Contractor's surety, even though approved and accepted by the Parish, subsequently remove its agency or representative from the State or become insolvent, bankrupt, or otherwise fail, the Contractor shall immediately furnish a new bond in another company approved by the Parish, at no cost to the Parish. The new bond shall be executed under the same terms and conditions as the original bond. The new bond shall be submitted within thirty (30) days of such time as the Parish notifies Contractor or from the time Contractor learns or has reason to know that the original surety is no longer financially viable or acceptable to the Parish, whichever occurs
first. In the event that Contractor fails or refuses to timely secure additional surety, then the Parish may secure such surety and thereafter deduct such cost or expense from any sum due, or to become due to Contractor.

The Contractor's bondsman shall obligate itself to all the terms and covenants of these specifications and of contracts covering the work executed hereunder. The Parish reserves the right to do extra work or make changes by altering, adding to deducting from the work under the conditions and in the manner herein described without notice to the Contractor's surety and without in any manner affecting the liability of bondsman or releasing it from any of its obligations hereunder.

The bond shall also secure for the Parish the faithful performance of the contract in strict accordance with plans, specifications, and other contract documents. It shall protect the Parish against all lien laws of the State and shall provide for payment of reasonable attorney's fees for enforcement of the contract and institution of concursus proceedings, if such proceedings become necessary. Likewise, it shall provide for all additional expenses of the Parish occurring through failure of the Contractor to perform.

The surety of the Contractor shall declare and acknowledge itself by acceptance of the contract to be bound to the Parish as a guarantor, jointly and in solido, with the Contractor, for fulfillment of terms of the contract.

The performance bond forming part of the contract shall be continued by Contractor and its surety for a period of one (1) year from date of acceptance of the work/project by the Parish to assure prompt removal and replacement of all defective material, equipment, components thereof, workmanship, etc., and to assure payment of any damage to property of the Parish or others as a result of such defective materials, equipment, workmanship, etc.

Contractor shall pay for cost of recording the contract, bond, and any change orders required to be recorded, as well as the cost of canceling any of the foregoing. Contractor shall also secure and pay for all Clear Lien and Privilege Certificates (together with any updates) which will be required before any final payment is made, and that may be required before any payment, at the request of the Parish, its representative, agent, architect, engineer and the like.

5.7 Changes, Addenda, Withdrawals

The Parish reserves the right to change the Schedule of Events or issue Addenda to the Quote Request at any time. The Parish also reserves the right to cancel or reissue the Quote Request.

If the Respondent needs to submit changes or addenda, such shall be submitted in writing, signed by an authorized representative of the Respondent, cross-referenced clearly to the relevant quote section, prior to the quote opening. Such shall meet all requirements for the quote.

5.8 Withdrawal of Quote
A Respondent may withdraw a quote that has been submitted at any time up to the quote closing date and time. To accomplish this, a written request signed by the authorized representative of the Respondent must be submitted to the Procurement Department.

5.9 Material in the Quote Request

Quotes shall be based only on the material contained in this Quote Request. The Quote Request includes official responses to questions, addenda, and other material, which may be provided by the Parish pursuant to the Quote Request.

5.10 Waiver of Administrative Informalities

The Parish reserves the right, at its sole discretion, to waive administrative informalities contained in any quote.

5.11 Quote Rejection

Issuance of this Quote Request in no way constitutes a commitment by the Parish to award a contract. The Parish reserves the right to accept or reject any or all quotes submitted or to cancel this Quote Request if it is in the best interest of the Parish to do so.

5.12 Ownership of Quote

All materials (paper content only) submitted in response to this request become the property of the Parish. Selection or rejection of a quote does not affect this right. All quotes submitted will be retained by the Parish and not returned to Respondents. Any copyrighted materials in the quotes are not transferred to the Parish.

5.13 Cost of Offer Preparation

The Parish is not liable for any costs incurred by prospective Respondents or Contractors prior to issuance of or entering into a contract. Costs associated with developing the quote, preparing for oral presentations, and any other expenses incurred by the Respondent in responding to the Quote Request are entirely the responsibility of the Respondent, and shall not be reimbursed in any manner by the Parish.

5.14 Non-negotiable Contract Terms

Non-negotiable contract terms include but are not limited to taxes, assignment of contract, audit of records, EEOC and ADA compliance, record retention, content of contract/order of precedence, contract changes, governing law, claims or controversies, and termination based on contingency of appropriation of funds.
5.15 Taxes

Any taxes, other than state and local sales and use taxes, from which the Parish is exempt, shall be assumed to be included within the Respondent’s cost.

5.16 Quote Validity

All quotes shall be considered valid for acceptance until such time an award is made, unless the Respondent provides for a different time period within its quote. However, the Parish reserves the right to reject a quote if the Respondent’s acceptance period is unacceptable and the Respondent is unwilling to extend the validity of its quote.

5.17 Prime Contractor Responsibilities

The selected Respondent shall be required to assume responsibility for all items and services offered in his quote whether or not he produces or provides them. The Parish shall consider the selected Respondent to be the sole point of contact with regard to contractual matters, including payment of any and all charges resulting from the contract.

5.18 Use of Subcontractors

Each Contractor shall serve as the single prime Contractor for all work performed pursuant to its contract. That prime Contractor shall be responsible for all deliverables referenced in this Quote Request. This general requirement notwithstanding, Respondents may enter into subcontractor arrangements. Respondents may submit a quote in response to this Quote Request, which identifies subcontract(s) with others, provided that the prime Contractor acknowledges total responsibility for the entire contract.

If it becomes necessary for the prime Contractor to use subcontractors, the Parish urges the prime Contractor to use Louisiana vendors, including small and emerging businesses, a small entrepreneurship or a veteran or service-connected disabled veteran-owned small entrepreneurship, if practical. In all events, any subcontractor used by the prime should be identified to the Parish.

Information required of the prime Contractor under the terms of this Quote Request, is also required for each subcontractor and the subcontractors must agree to be bound by the terms of the contract. The prime Contractor shall assume total responsibility for compliance. Nothing in the contract documents shall create any contractual relationship between the Parish and any subcontractor or other person or organization having a direct contract with the Contractor, nor shall it create any obligation on the part of the Parish to pay or to see to the payment of any monies due any subcontractor.

The Contractor shall indemnify and hold harmless the Parish and its agents and employees from and against all claims, damages, losses and expenses including attorneys’ fees arising out of or resulting from the Contractor’s failure to bind every subcontractor and Contractor’s surety to all of the applicable terms and conditions of the contract documents.
5.19 Written or Oral Discussions/Presentations

Written or oral discussions may be conducted with Respondents who submit quotes determined to be reasonably susceptible of being selected for award; however, the Parish reserves the right to enter into an Agreement without further discussion of the quote submitted based on the initial offers received. Any such written or oral discussion shall be initiated by the Parish.

Any commitments or representations made during these discussions, if conducted, may become formally recorded in the final contract.

Written or oral discussions/presentations for clarification may be conducted to enhance the Parish's understanding of any or all of the quotes submitted. Any such written or oral discussions/presentations shall be initiated by the Parish. Quotes may be accepted without such discussions.

5.20 Acceptance of Quote Content

The mandatory Quote Request requirements shall become contractual obligations if a contract ensues. Failure of the successful Respondent to accept these obligations shall result in the rejection of the quote.

5.21 Evaluation and Selection

All responses received as a result of this Quote Request are subject to evaluation for the purpose of selecting the Respondent with whom the Parish shall contract.

The Parish may reject all quotes if none is considered in the best interest of the Parish.

5.22 Contract Negotiations

If for any reason the Respondent whose quote is most responsive to the Parish's needs, price and other evaluation factors set forth in the Quote Request considered, does not agree to a contract, that quote shall be rejected and the Parish may negotiate with the next lowest responsive Respondent. Negotiation may include revision of non-mandatory terms, conditions, and requirements. The Procurement Department must approve the final contract form and issue a purchase order, if applicable, to complete the process.

5.23 Contract Award and Execution

The Parish reserves the right to enter into a contract without further discussion of the quote submitted based on the initial offers received.

The Quote Request, including any addenda, and the quote of the selected Contractor will become part of any contract initiated by the Parish.
Respondents are discouraged from submitting their own standard terms and conditions with their quotes. Respondents should address the specific language in the sample contract in Attachment “B” of this Quote Request and submit any exceptions or deviations the Respondent wishes to negotiate. The proposed terms will be negotiated before a final contract is entered. Mandatory terms and conditions are not negotiable.

If the contract negotiation period exceeds thirty (30) days or if the selected Respondent fails to sign the contract within twenty calendar days of delivery of it, the Parish may elect to cancel the award and award the contract to the next lowest responsive Respondent.

The Parish intends to award to a single Respondent.

5.24 Notice of Intent to Award

Upon review and approval of the issuing department’s recommendation for award, the Procurement Department will issue a “Notice of Intent to Award” letter to the apparent successful Respondent. A contract shall be completed and signed by all parties concerned on or before the date indicated in the “Schedule of Events.” If this date is not met, through no fault of the Parish, the Parish may elect to cancel the “Notice of Intent to Award” letter and make the award to the next most advantageous Respondent.

The Procurement Department will also notify all unsuccessful Respondent as to the outcome of the procurement process.

Awarded Contractor shall execute affidavits attesting compliance with LSA-R.S. 38:2212.10, 38:2224, 38:2227, each as amended, and other affidavits as required by law, concurrent with execution of the contract. Such affidavits are attached hereto as Attachment “F”.

The cost of such insurance shall be paid by the Contractor and shall be included in the Respondent’s quote. All policies of insurance shall meet the requirements of the Parish prior to the commencing of any work. The Parish has the right, but not the duty, to approve all insurance policies prior to the commencing of any work. Contractor shall furnish the Parish with certificates of insurance effecting coverage(s) required by the Quote Request (see Attachment “D”). The certificates for each insurance policy are to be signed by a person authorized by that insurer to bind coverage on its behalf. The certificates are to be received and approved by the Parish before work commences. If the Contractor fails to furnish the Parish with the insurance protection required and begins work without first furnishing the Parish the Parish with a currently dated certificate of insurance, the Parish has the right to obtain the insurance protection required and deduct the cost of insurance from the first payment due the Contractor. Further deductions are permitted from future payments as are needed to protect the interests of the Parish including, but not limited to, renewals of all policies. The Parish reserves the right to require complete certified copies of all required policies, at any time.
The insurance companies issuing the policy or policies shall have no recourse against the Parish for payment of any premiums or for assessments under any form of policy.

Any and all deductibles in the described insurance policies shall be assumed by and be at the sole risk of the Contractor.

Work may not commence until such Hold Harmless Agreement is executed by the Contractor and received by the Parish.

5.29.1 Payment for Services

Monthly certificates for partial payment, in a form approved by the Parish, shall be transmitted to the Parish upon receipt from the Contractor and acceptance by the Parish. When the contract price is less than five hundred thousand dollars ($500,000), these certificates shall be equal to ninety percent (90%) of both the work performed and materials stored at the site. Partial payment certificates shall include only work, materials and equipment that are included in an official work order and which meet the requirements of plans, specifications and contract documents. These monthly estimates shall show the amount of the original estimate for each item, the amount due on each item, the gross total, the retained percentage, the amount previously paid and the net amount of payment due.

After final completion and acceptance by the Parish of the entire work, the Parish shall issue to the Contractor a Certificate of Payment in a sum sufficient to increase total payments to ninety percent (90%) of the contract price.

The final payment certificate of the remaining ten percent (10%) of the contract price, minus any deduction for deficient or defective Work or other applicable deductions, will be issued by the Parish forty-five (45) days after filing acceptance in the Mortgage Office of the Parish and a Clear Liens and Privilege Certificate has been secured. Before issuance of the final payment certificate, the Contractor shall deposit with the Parish a certificate from the Clerk of Court and Ex-Officio Recorder of Mortgages from the Parish in which the work is performed to the effect that no liens have been registered against contract work.

When, in the opinion of the Contractor, the work provided for and contemplated by the contract documents has been substantially completed, the Contractor shall notify the Parish in writing that the work is substantially complete and request a final inspection. The Parish shall proceed to perform such final inspection accompanied by the Contractor. Any and all work found by this inspection to be defective or otherwise not in accordance with the plans and specifications shall be corrected to the entire satisfaction of the Parish and at the sole expense of the Contractor. If the contract is found to be incomplete in any of its details, the Contractor shall at once remedy such defects, and payments shall be withheld and formal acceptance delayed until such work has been satisfactorily completed.
If payment is requested on the basis of materials and equipment not incorporated in the work, but delivered and suitably stored and protected from damage and theft at the site, the Request for Payment shall also be accompanied by such data, satisfactory to the Parish, as will establish Parish’s title to the material and equipment and protect its interest therein, including applicable insurance.

Each subsequent Request for Payment shall include an affidavit of Contractor stating that all previous progress payments received on account of the work have been applied to discharge in full all of Contractor’s obligations reflected in prior Request for Payment.

Each subsequent request for payment shall include an affidavit by Contractor that Contractor, all subcontractors, agents, material suppliers and all other persons supplying material to the project upon which State of Louisiana and/or St. Tammany sales taxes are lawfully due have paid these taxes and that all supplies and materials purchased for this project and for which Contractor has been paid have had all lawfully due State and/or St. Tammany sales taxes paid.

The Quote Request (with the Respondent’s quote), unless otherwise modified in writing, and the contract constitute the complete project. The contract prices constitute the total compensation payable to Contractor and the cost of all of the work and materials, taxes, permits and incidentals must be included into the quote submitted by the Contractor and included into those items listed on the Quote Request.

Any additional supporting data required by the Parish in order to substantiate Contractor’s request for payment shall be furnished by Contractor at no cost to the Parish.

The Parish may withhold from payment to Contractor as may be necessary to protect itself from loss on account of:

1. Defective and/or inferior work;
2. Damage to the property of the Parish or others caused by Contractor;
3. Failure by Contractor to make payments properly to subcontractors or to pay for labor, materials or equipment used on this project;
4. Failure by Contractor to pay taxes due on materials used on this project;
5. Damage by Contractor to another Contractor;
6. Insolvency;
7. Bankruptcy, voluntary or involuntary;
8. Revocation of corporate status;
9. Failure to follow corporate formalities;
10. Unprofessional activities;
11. Unworkmanlike performance; and/or
12. Fraud and/or misrepresentation of any kind.

5.29.2 Acceptance and Final Payment(s)

Upon receipt of written notice from Contractor that the work is substantially complete and usable by the Parish in a suitable manner, the Parish and the Contractor shall jointly inspect the work.

If the Parish by inspection determines that the work is not substantially complete in a suitable manner for its use, then the Parish shall so notify the Contractor in writing stating such reason.
All reasons need not be disclosed unless actually known. The Parish is afforded an opportunity to amend said notices as are reasonably possible.

If the Parish by its inspection determines that the work is substantially complete, it shall prepare a list of all items not satisfactorily completed and shall notify the Contractor in writing that the work is substantially complete and subject to satisfactory resolution of those items on the list (punch list). Punch lists may be amended from time to time by the Parish in the event that additional deficiencies are discovered. Any punch list generated during a construction project shall include the cost estimates for the particular items of work the design professional has developed based on the mobilization, labor, material, and equipment costs of correcting each punch list item. The design professional shall retain his working papers used to determine the punch list items cost estimates should the matter be disputed later. The contract agency shall not withhold from payment more than the value of the punch list. Punch list items completed shall be paid upon the expiration of the forty-five (45) day lien period.

Upon determination of substantial completeness with the punch list, the contract time is interrupted and the Contractor is given a reasonable time not to exceed thirty (30) consecutive calendar days to effect final completion by correcting or completing all of those items listed on the punch list. If the items on the punch list are not completed in a satisfactory manner within the thirty-day period, then the contract time will begin to run again and will include for purposes of determining liquidated damages the thirty-day period the grace period being withdrawn.

Upon receipt by the Parish of written determination that all work embraced by the contract has been completed in a satisfactory manner, the Parish shall provide a written acceptance to the Contractor who shall record the Parish’s written acceptance with the recorder of Mortgages, St. Tammany Parish. The Contractor shall properly prepare, submit and pay for all costs associated with said acceptance. The Contractor is also responsible for preparation, re-submission and payment of any and all updated certificates.

Retainage monies, minus those funds deducted in accordance to the requirements of this agreement, shall be due Contractor not earlier than forty-six (46) calendar days after recordation of certificate of the Parish’s acceptance provided the following:

Contractor shall prepare, secure, pay for and submit clear lien and privilege certificate, signed and sealed by Clerk of Court or Recorder of Mortgages, Parish of St. Tammany and dated at least forty-six (46) days after recordation of certificate of acceptance;

Ensure that the official representative of the Parish has accepted as per LSA-R.S. 38:2241.1, et seq. and that all following subsections have been properly satisfied as per law;

Ensure that all signatures are affixed and that there exists the requisite authority for all signatures;

Ensure accurate and proper legal descriptions;

Properly identify all parties and/or signatories;

Properly identify all mailing addresses;

Correctly set for the amount of the contract, together with all change orders;
Set out a brief description of the work performed;

Reference to any previously recorded contract, lien or judgment inscription that may affect the property;

Certification that substantial completion has occurred, together with any applicable date(s);

Certification that no party is in default and/or that the project has been abandoned.

After securing the clear lien and privilege certificate the Contractor shall prepare its final application for payment and submit to the Parish. The Parish shall approve application for payment, or state its objections in writing and forward to Contractor for resolution.

5.30 Termination

5.30.1 Termination of the Contract for Cause

The Parish may terminate the contract for cause based upon the failure of the Contractor to comply with the terms and/or conditions of the contract, or failure to fulfill its performance obligations pursuant to the contract, provided that the Parish shall give the Contractor written notice specifying the Contractor’s failure. If within thirty (30) days after receipt of such notice, the Contractor shall not have corrected such failure or, in the case of failure which cannot be corrected in thirty (30) days, begun in good faith to correct such failure and thereafter proceeded diligently to complete such correction, then the Parish may, at its option, place the Contractor in default and the contract shall terminate on the date specified in such notice.

The Contractor may exercise any rights available to it under Louisiana law to terminate for cause upon the failure of the Parish to comply with the terms and conditions of the contract, provided that the Contractor shall give the Parish written notice specifying the Parish’s failure and a reasonable opportunity for the Parish to cure the defect.

5.30.2 Termination of the Contract for Convenience

The Parish may terminate the contract at any time by giving thirty (30) days written notice to the Contractor of such termination or negotiating with the Contractor an effective date.

The Contractor shall be entitled to payment for deliverables in progress, to the extent work has been performed satisfactorily.

5.30.3 Termination for Non-Appropriation of Funds

The continuance of the contract is contingent upon the appropriation of funds to fulfill the requirements of the contract by the Parish Council. If the Parish Council fails to appropriate sufficient monies to provide for the continuation of the contract, or if such appropriation is reduced for any lawful purpose, and the effect of such reduction is to provide insufficient monies for the continuation of the contract, the contract shall terminate on the date of the beginning of the first fiscal year for which funds are not appropriated.
5.30.4 Effects of Termination

Upon receipt of notice from the Parish that the contract has been terminated, the Contractor shall immediately discontinue all operations. The Parish may then proceed with the work in any lawful manner that it may elect until the work is finally completed.

The exclusive right is reserved to the Parish to take possession of any machinery, implements, tools or materials of any description that shall be found upon the work, to account for said equipment and materials, and to use same to complete the project. When the work is finally completed, the total cost of same will be computed. If the total cost is less than the contract price, the difference will not be paid to the Contractor or its surety.

In case of termination, all expenses incident to ascertaining and collecting losses under the bond, including legal services, shall be assessed against the bond.

If the work should be stopped under any order of any court or public authority for period of sixty (60) calendar days, through no act or fault of the Contractor or anyone employed by it, or if the Parish shall fail to pay the Contractor within a reasonable time any sum certified by the Parish, then the Contractor may, upon thirty (30) calendar days written notice to the Parish, stop work or terminate the contract and recover from the Parish payment for all work properly and professionally executed in a workmanlike manner. This loss specifically includes actual cost of materials and equipment, together with all wages inclusive of all federal, state, and local tax obligations. This loss specifically includes reimbursement of all insurances on a pro-rata basis from the date of termination to date of policy period. This loss excludes and specifically does not include recovery by the Contractor for lost profit, indirect & direct expenses, overhead, and the like.

5.31 Assignment

The Contractor shall not assign any interest in the contract by assignment, transfer, or novation, without prior written consent of the Parish. This provision shall not be construed to prohibit the Contractor from assigning his bank, trust company, or other financial institution any money due or to become due from approved contracts without such prior written consent. Notice of any such assignment or transfer shall be furnished promptly to the Parish.

5.32 No Guarantee of Quantities

The quantities referenced in the Quote Request are estimated to be the amount needed. In the event a greater or lesser quantity is needed, the right is reserved by the Parish to increase or decrease the amount, at the unit price stated in the quote.

The Parish does not obligate itself to contract for or accept more than its actual requirements during the period of the contract, as determined by actual needs and availability of appropriated funds.

5.36 Record Ownership

All records, reports, documents, or other material related to any contract resulting from this Quote Request and/or obtained or prepared by Contractor in connection with the performance of the services contracted for herein shall become the property of the Parish and shall, upon request, be returned by Contractor to the Parish, at Contractor’s expense, at termination or expiration of the contract.

5.37 Content of Contract/ Order of Precedence

In the event of an inconsistency between the contract, the Quote Request and/or the Contractor's quote, the inconsistency shall be resolved by giving precedence first to the final contract, then to the Quote Request and subsequent addenda (if any) and finally, the Contractor's quote.

5.38 Contract Changes

No additional changes, enhancements, or modifications to any contract resulting from this Quote Request shall be made without the prior written approval of the Parish. If any additional work is
performed by the Contractor without such written approval, the cost of the work will be borne solely by the Contractor and will not be reimbursed by the Parish.

D. All policies of insurance shall meet the requirements of the Parish prior to the commencing of any work. The Parish has the right, but not the duty, to approve all insurance coverages prior to commencement of work. If any of the required policies are or become unsatisfactory to the Parish as to form or substance; or if a company issuing any policy is or becomes unsatisfactory to the Parish, the Provider shall promptly obtain a new policy, timely submit same to the Parish for approval, and submit a certificate thereof as provided above. The Parish agrees not to unreasonably withhold approval of any insurance carrier selected by Provider. In the event that Parish cannot agree or otherwise authorize a carrier, Provider shall have the option of selecting and submitting a new insurance carrier within 30 days of said notice by the Parish. In the event that the second submission is insufficient or is not approved, then the Parish shall have the unilateral opportunity to thereafter select a responsive and responsible insurance carrier all at the cost of Provider and thereafter deduct from Provider’s fee the cost of such insurance.

E. Upon failure of Provider to furnish, deliver and/or maintain such insurance as above provided, this contract, at the election of the Parish, may be declared suspended, discontinued or terminated. Failure of the Provider to maintain insurance shall not relieve the Provider from any liability under the contract, nor shall the insurance requirements be construed to conflict with the obligation of the Provider concerning indemnification.

F. Provider shall maintain a current copy of all annual insurance policies and agrees to provide a certificate of insurance to the Parish on an annual basis or as may be reasonably requested for the term of the contract or any required Extended Reporting Period. Provider further shall ensure that all insurance policies are maintained in full force and effect throughout the duration of the Project and shall provide the Parish with annual renewal certificates of insurance evidencing continued coverage, without any prompting by the Parish.

G. It shall be the responsibility of Provider to require that these insurance requirements are met by all contractors and sub-contractors performing work for and on behalf of Provider. Provider shall further ensure the Parish is named as an additional insured on all insurance policies provided by said contractor and/or sub-contractor throughout the duration of the project.
